

One Click 641

[Chapter 641: You actually have a child outside](#)

Just when Su Lang was happy.

There was another vast and terrifying vision between heaven and earth.

"Another Wu Xmas is born!"

The corner of Su Lang's mouth hooked and smiled happily.

It is foreseeable that in just one day, hundreds of martial sages will appear!

With a happy mood, Su Lang flew down, and soon met Ruxue and Slim who were protecting Chu Xiaobei's law.

Of course, there is no danger at all on the Blue Star, so they just practiced on their own, and then watched the quasi-sages at their feet sanctified, and let out a cry of wonder.

Su Lang flew down, and the eyes of the two women naturally shifted to Su Lang.

"Brother Su Lang, you are back!"

"Brother Su Lang, many quasi saints have been sanctified!"

"They were so scary when they were sanctified. Fortunately, there are artifacts made by Brother Su Lang for us!"

"..."

Ruxue and Xianxian whispered around Su Lang.

Su Lang's expression moved, and he thought to himself: "These two girls are a bit close to Xiaohai's character. Now that Xiaobei is practicing, you can also ask them to bring Xiaohai."

Thinking of this, he made a decision.

Before Chu Xiaobei's retreat was over, let Ruxue and Xianxian go to take Xiaohai.

After Chu Xiaobei's retreat is over, let her take it.

"Ahem."

"Ruxue, Xianxian, I have something to tell you."

Su Lang coughed slightly and laughed, "I want to ask you to help me bring the children."

"???"

Ji Ruxue and Murong Slim were full of question marks, and at the same time, both small faces were shocked.

Immediately afterwards, the shocked two women's complexion gradually turned cold, and they said in unison: "Su Lang, you actually have a child outside!?"

Su Lang couldn't laugh or cry. After some explanation, the two women realized that the sea of sky had produced the spirit.

"Aw, I was scared to death! I thought Su Lang was looking for a woman outside to have a baby!"

"Well, it doesn't matter if you have a child outside. Brother Su Lang has a very high level of cultivation. It is difficult to have a child."

"Yes, Brother Su Lang's cultivation level has improved so quickly, he must have a baby early."

"Yes, yes, give birth early, even if you are looking for a woman outside, as long as you have a baby."

"I don't know if Brother Su Lang needs our help?"

"I don't know, who knows what he is thinking?"

"..."

Two women, one word for you and one for me, crazy suggesting Su Lang.

"Uh....."

Su Lang was stunned for a while, and then smiled, "If you want to have a baby, come and **** me now!"

As soon as this remark came out, Ji Ruxue and Murong Xianxian suddenly babbled, blushing, and ran away.

"Haha, really just stubbornly."

"Don't dare to do a real fight with me!"

Su Lang laughed, and then flew to the top of the island with his hands behind his back.

Chu Xiaobei was practicing on the top of the mountain.

When he came to Chu Xiaobei, Su Lang took a close look at her state.

At this time, she had taken the Immortal Soul Pill, and a terrifying spiritual storm was shrouded in her body.

If it weren't for Su Lang's mental power had just been upgraded to Huiyue level.

With the spiritual power of the Morningstar level before, staying next to Chu Xiaobei would not last long, and death replacement would be triggered.

To put it simply, it is a warrior who stays beside Chu Xiaobei for a while and will cool off.

This shows how terrifying Chu Xiaobei's mental power is.

Of course, Su Lang didn't think Chu Xiaobei's mental power could break through to the realm of the sun in one fell swoop.

There is a big gap between Wu Shen and Wu Sheng, and the gap between Wu Sheng and Wu Xian is even greater!

It can be said that the chasm between Wu Sheng and Wu Xian is even more terrifying than the gap from the body tempering stage to the realm of Wu Sheng.

Such a huge gap can never be broken by an elixir of Three Tribulations.

Even if it is a higher-level pill, it won't work.

Of course, for Su Lang, if one doesn't work, then two? If two don't work, then I will give you a bowl.

"Digest the pill earlier."

Su Lang looked at Chu Xiaobei with anticipation in his heart.

The strongest accomplice around him right now, bah, is a comrade, Li Xianyang.

But Li Xianyang lost the ability to practice, and could only follow Su Lang's step by step to improve.

Su Lang estimated that if he used the hole card of Swallowing Clone, his true combat power would not necessarily be able to rise to the level of Martial Fairy.

But Chu Xiaobei is different.

[Chapter 642: My fairy lady](#)

This girl is an unparalleled qualification, the strongest cultivation qualification Su Lang has ever seen.

Su Lang believes that as long as she manages enough resources, she will definitely break through the moat in a short time and become a martial immortal.

That is the real Wuxian.

At any time, it can maintain the powerful combat power and deterrence capabilities of the Wuxian level.

Unlike Su Lang, he can only be a macho for half an hour.

Well, in fact, half an hour doesn't seem to be too short. Anything longer than half an hour must be bragging.

"My lady fairy, come up quickly!"

Su Lang licked his lips, and immediately refined a bottle of ten Immortal Soul Pills of Three Tribulations and placed it beside Chu Xiaobei.

He had the intention to synthesize it into a higher-level elixir, but was afraid that Beckham could not digest it, so he gave up.

Leaving the elixir, Su Lang left another letter, which said about bringing Xiaohai.

Finish it all.

Su Lang came into the air, and when he was talking to Ruxue Xianxian and refining pill for Xiaobei, there were three more martial arts students.

Su Lang looked at the warriors who had broken through to the martial sage realm, and deliberately brought them back to the sea of sky to participate in guarding.

However, they have just broken through the Martial Saint and need a little time to consolidate the realm of cultivation.

"Just dozens of martial sages are not enough."

"When there are more people breaking through, come and take them away."

Su Lang thought about it, and then left this remote island in the sea.

He did not leave Blue Star directly.

Instead, follow the memory of visiting the Blue Star before and head to a mountain range.

With his true quasi-sage level, the speed is so fast that the sonic boom has dragged hundreds of meters, which can be described as a real cloud and fog.

Not long after, at the destination, an unknown mountain range appeared in front of Su Lang.

Without any hesitation, he plunged his head and came to a bare rock face.

This rock wall appeared very abruptly, and other places were densely vegetation, only it was bare here, like a middle-aged uncle's Mediterranean Sea.

And the reason why this rock wall is so strange is because there was a strange fire on it!

If you look closely, you can find traces of black and red veins, like irregular spider webs all over the rock wall.

This is a kind of heavenly fire, named Rock Blood Dark Sorrow!

"Go Li Taiqing!"

With a move of Su Lang's heart, he used a trick to immediately ingest the strange fire all over the rock wall into his hands.

The dark blood of rock blood turned into a black-red tent-like flame, constantly struggling, just like a living thing.

However, even though it was a heavenly fire, its damage was only at the martial arts level, and for Su Lang, it was just a hand warmer.

"Ding! Rock blood dark flames are detected, is it refining?"

"Refining!"

Su Lang directly ordered, and the strange fire in his hand disappeared.

The reason why he came here was to refine the different fires.

He wants to know the magic of these different fires, and even the rules of the fire system cannot evolve.

A short while.

"Ding! The Dark Blood Flame has been refined!"

"Is it so fast?"

Su Lang was taken aback for a moment, and then he was stunned, "That's right, my real combat power has half stepped into the Martial Saint level."

"Rock Blood Dark Sorrow!"

With a move in Su Lang's heart, a black-red flame suddenly emerged.

These strange fires were not suspended in the air, but attached to Su Lang's body surface, forming black veins all over the body, just like when it was climbing on a rock wall.

"It feels like I have an extra Kill Matt tattoo..."

Su Lang curled his lips, and immediately began to look at the confidence of this kind of heavenly fire.

Rock Blood Dark Sorrow is regarded as an auxiliary type of different fire, which can enhance the power of the host's blood.

The general Wu Zun used it, at least three times the energy and blood of himself, which can be described as extremely abnormal.

But for Su Lang, the effect was minimal.

"Heavenly fire is useless."

Su Lang frowned and revoked the Dark Blood Flame.

Immediately, the black and red veins clinging to Su Lang gradually disappeared.

"If you don't see the strangeness of a different kind of fire, then there are more places."

Su Lang moved his feet straight into the sky and unfolded towards the next destination.

Along the way, he also deployed the spirit power of the Huiyue level to ensure that he would not miss the strange fire he encountered on the way.

...

[Chapter 643: Zhu Qi and his men](#)

at the same time.

Canglan Continent.

Inside an active volcano in the Yaochi saint area.

A huge space was opened up in the boiling magma.

In the space, a tall and thin man is leading a large group of people intently looking at a light curtain of sacred artifacts.

It looks a bit like a group of people watching a movie.

Speaking of the identity of this group of people can scare many people to death, they are the people who kill the sky.

The tall and thin man headed was Zhu Qi, the seventh-in-chief of the Intelligence Department of Tuantian Tower.

And behind him, there are dozens of martial sages sitting, their names are probably Zhu + numbers.

This is just a part of Zhu Qi, the seventh commander in the intelligence department of the Tuantian Tower, and all his Martial Saint-level subordinates are probably one or two hundred.

From this it can be seen that the strength of the Slaughter Tower is really strong.

Look at the scene in the light curtain.

A layer of indigo powder mask occupies the entire light curtain, which is a barrier unfolded by the sea of sky.

In fact, they also want to see something deeper, but their own sacred artifacts simply can't do other people's fairy artifacts, they can only see a thin and silky barrier.

"This is a defensive mask transformed by a real fairy!"

"Aren't they all of quasi-immortal artifacts before? How come they suddenly become immortal artifacts!?"

"Damn it, the original quasi-immortal weapon suddenly became an immortal weapon, and Zhu 108 also died unclearly. This Su Lang is too weird!"

"Our people heard the news and speculated that Zhu 108 died in the hands of the old servant beside Su Lang. The old servant is the ancient Great Sage Immortal Yang Wusheng who has remained to this day, and he worshiped Su Lang as his master as soon as he came out.

In addition, Su Lang refined the quasi-immortal weapon Sky Sea in front of countless people, and now the Sky Sea has suddenly been promoted to the immortal weapon, it is estimated that Su Lang did it. "

"Perhaps, the quasi-immortal artifacts he refined before were only semi-finished products. It takes time to brew before it can gradually transform into a spirit of an immortal weapon and be promoted to an immortal artifact?"

"Perhaps that's the case. I have also seen examples of quasi-immortal artifacts evolving into immortal artifacts over a long period of time. However, in the sea of sky, it is obvious that Su Lang used some magical means, which greatly shortened the time."

"Hey, this can be regarded as a direct refining of immortal artifacts. Su Lang can refine immortal artifacts. This will be regarded as the existence of the sacred guest wherever he goes on the Canglan Continent!"

"Yes, immortal artifacts are several times rarer than martial immortals. Talents who can refine immortal artifacts are afraid that the emperor will give two points of face!"

"Although this person is not of the direct blood of the emperor, I am afraid that he has a lot of background, otherwise the ancient martial sage Li Xianyang would not worship him as the master."

"Hmph, anyway, if this person killed my slaughterer, he must give an explanation."

"Yes, isn't he good at making immortal artifacts? Let's arrest him and let him make immortal artifacts for us at Tuantianlou every day and night."

"Haha, anyway, the immortal forces dare not provoke us, and the imperial clans do not look down on an immortal refiner. As long as we catch him, no one will save him."

"This is a good idea. Many of the Wuxian adults in Tuantianlou don't have fairy tools!"

"This Su Lang must be caught, but this person is too cunning and the defense is so tight, we have to think about it long-term."

"With the value that Su Lang currently shows, it is entirely possible for the Wuxian adults in the organization to take action. Maybe even Zhuxian adults will be interested."

"By the way, what exactly is Master Zhu Xian up to? Why is it always coming and going in a hurry? It always gives me the feeling that wind and rain are coming."

"Master Zhu Xian is something you can guess, be careful, Master Zhu Xian counts, and figure out that you are disrespectful behind your back, hehe!"

"I'm not disrespectful, I haven't said anything..."

"..."

Everyone talked about it, and they were shocked by the sudden transformation of the sea of sky into a fairy, and their attitude towards Su Lang also changed.

When they came before, they came with a mentality of killing.

At this time, he became a man who captured him alive and turned him into a tool for making immortal artifacts in the Liantian Tower.

However, it was obvious that they still chose to stand on the opposite side of Su Lang.

And what awaits them will be a tragic end...

Of course, these Slaughter Towers guys didn't know that they had provoked an enemy that was so abnormal that they could not be described.

They were still imagining the wonderful scene where Su Lang was caught and asked him to refine the fairy artifact.

It's exciting to think about it with a sacred artifact!

[Chapter 644: Two hundred martial sages!](#)

And at this moment.

The light curtain in front of them suddenly appeared numerous cracks, and then suddenly exploded!

"The light curtain exploded!"

"Our sacred vessel is destroyed!"

"It was discovered, we were discovered!"

"That Xianyang Wusheng can kill Cai Liao in seconds, it is very likely that he has already entered the realm of Wuxian, we are in danger!"

"..."

All the martial sages were panicked, exclaiming in a low voice, while looking at their boss, Zhu Qi.

"Let's withdraw first!"

"The enemy's level is beyond our control, and more advanced adults are needed to take action."

Zhu Qi did not hesitate to give the order and quickly fled with dozens of martial sages.

at the same time.

Su Lang was frantically collecting abnormal fire on the blue star.

After the heavenly fire, he successively refined the Tianze Forbidden Spirit Fire, the King of the Sky Fire, the Haotian Three Green Fire, the White Solar Eclipse Divine Fire and so on.

But he did not stop. After refining all the abnormal fires he had encountered, he began to make a special trip to search for other strange fires.

The sky into the earth, the Antarctic and the North Pole, the Terror Trench, are all covered with the footprints of Su Lang.

It took a full half a day to refine all the strange fires on the entire Blue Star.

There are a total of 88 kinds of these different fires, 66 more than the records, and all of them are located in extremely dangerous places.

They are of different levels, and their functions are also different. Some are even magical, but they are almost useless to warriors at the level of Su Lang.

At this moment.

Su Lang has already returned to the island where thousands of quasi-sage martial gods practiced.

"All the strange fires on the Blue Star have been refined, but nothing strange has happened."

"Is it because these alien fires are not as mysterious as I imagined, or is it because the level of the alien fires I refine is too low, or is there not enough?"

"I asked the system about this, but the system didn't respond at all... I crossed it, I hate selling off, dead system, bad system..."

After complaining, Su Lang turned his attention to Chu Xiaobei.

"This girl's talent is really terrifying."

"This is only half a day, and the spiritual storm spilling around has increased several times!"

"From the perspective of these spilled spiritual energy, her spiritual cultivation is afraid that she has reached the extreme point of Huiyue!"

"However, it shouldn't reach the level of Li Xianyang, that old fellow, but even Wu Xian has pulled off his horse."

"Come on, Chu Xiaobei, I need your protection...Well, I don't want to eat soft rice..."

Thinking wildly in his mind, Su Lang looked at the quasi-sage martial gods sitting in rows below.

In half a day, plus the twenty previous breakthroughs, the number of martial artists promoted to the martial sage realm reached two hundred!

And Wu Sheng is constantly being born.

This scene is truly shocking, and it is estimated that Canglan Continent has never happened before!

If it were seen by those warriors on the Canglan Continent, it would scare countless eyes and jaws.
at this time.

"Ok?"

Su Lang raised his brows and used the clone replacement, swapping positions with the clone who was carrying Xiaohai.

"Ma Ma Ma Ma~"

Xiao Hai was still screaming, looking very happy.

"Hey, don't shout."

Su Lang rubbed Xiaohai and turned to look at Li Xianyang.

He realized that Li Xianyang had something to report through the fire of his soul and ran over.

"Let's talk, what did you post?" Su Lang said.

"Return to the Lord."

Li Xianyang replied respectfully: "I found someone spying on my patrol, looking for Qi, and ruining the enemy's sacred artifact hidden in the dark."

"Do you spy on our sacred artifacts? Most likely it is the people who kill Tianlou."

Su Lang frowned slightly, "Li Xianyang, please check more, don't let it go inside or outside the city."

"Yes!"

Li Xianyang took the lead and immediately retreated.

"Humph!"

"Sneaky, hiding so far."

"Why don't you send more Martial Saints to die?"

Su Lang looked at the horizon with a sneer at the corner of his mouth.

In order to fight the Slaughter Sky Tower, he not only prepared the Sky Sea and a hole card, but also had a bigger plan.

[Chapter 645: Annihilation plan!](#)

And this plan was called the evil immortal by Su Lang, oh bah, it was Jianxian!

The so-called Annihilation Plan, as the name suggests, is a plan to annihilate Wuxian.

The inspiration for this plan came from the Tai Chi meteorite **** thunder!

When dealing with Wuyang Wusheng, Su Lang had planned to use this one-time weapon to kill Wuyang Wuzun.

But later, because of Chu Xiaobei's shot, Wuyang Wusheng was scared to pee directly, so he didn't use Taiji Meteorite Thunder.

At this time, facing the powerful Slaughter Heaven Tower, Su Lang had already evolved into a terrifying one-time holy weapon.

And this is also Su Lang's other trump card besides Sky Sea.

At this time, the Taiji Meteorite God Thunder has reached the level of high-level sacred artifacts. Once it explodes, the quasi immortal can be killed!

But this is not enough, but there are many powerful organizations of Wuxian in the Slaughter Sky Tower.

A sacred artifact that can kill Quasi-Xiang basically has no deterrent power.

Therefore, Su Lang intends to evolve it into a one-off fairy weapon and become a nuclear bomb in the fantasy world. If one goes down, the martial arts will be destroyed!

Moreover, Su Lang did not intend to make only one, nor did he intend to make only Tai Chi Meteorite Thunder.

He also has to build a cannon, which is the core of the JXian plan, the JXian cannon.

Although only relying on Tai Chi Meteorite God Thunder, it can also blow up the Liantianlou to cry father and mother.

However, the method of using Tai Chi Meteorite Thunder is more complicated. It needs to rely on the death substitution function to "replace life for life".

But as long as the Jixian Cannon was built, there was no need for Su Lang to rush up with an explosive bag in his hand to change his life with the enemy.

Just plug the Tai Chi meteorite thunder into the Jixian Cannon and launch it out to directly kill the enemy.

Of course, the plan is good!

But there are still many difficulties in implementation.

The biggest difficulty facing Su Lang at the moment is the shortage of materials.

The Jixian Artillery was at least a fairy weapon in Su Lang's plan, otherwise it would not be possible to hit Wuxian at all.

According to Su Lang's vision, the Jiexian Artillery must have an intermediate level to ensure the safety of the Yaochi Holy City.

As a result, the building of the Jixian Cannon must consume more materials than refining the sky and sea.

Especially the Soul of Wusheng.

Su Lang doesn't need to think about knowing that Wu Sheng's soul is not enough.

Because the soul of Wusheng is not only used to refine the Jiexian Cannon, but also used to refine the Immortal-level Taiji Meteorite Thunder!

Otherwise, the cannons are powerful, but the shells are not powerful. There is an egg.

Regarding this huge difficulty, Su Lang's current method is to use war to support war.

First, finish refining the various parts of the Jixian Cannon, and when the battle begins, kill the opponent's Martial Saint, and then quickly evolve the Jixian Cannon!

But before that, it was a very dangerous gap period. If there is a Wuxian, you need to pounce on Su Lang with an explosive bag and die with the enemy.

"I hope the other party will not send Wuxian from the beginning."

"It would be great if you send Wu Sheng to send some materials first."

Su Lang thought, with a smile on his face, "I don't want that much. Soldiers are here to cover up the water and earth. Now carry out the first step of the plan, the exchange system."

The exchange system is a great tool for Su Lang to collect materials.

Although the basic materials are sufficient for the time being, just in case, it is necessary to establish an exchange system among the three races.

This will not only earn more materials and spirit jade, but also increase prestige and unite people.

Thinking of this, Su Lang immediately summoned Yaochi Yan Fa and other martial sages from the sea of sky.

"Master!"

Yaochi Yan Fa and other Wu Sheng respectfully salute.

"I have an exchange system here that you need to establish."

Su Lang said, "The so-called exchange system is a system that allows warriors to exchange low-level materials for high-level materials. The exchange ratio is very friendly.

Specifically, I will let Huangfuqin tell you, oh, Huangfuqin is my first soul-heart servant.

Huangfuqin has established an exchange system in my own clan and has rich experience. You follow his orders..."

[Chapter 646: Establish an exchange system for the Three Saints](#)

As soon as this remark came out, Yaochi Yan Fa and others were surprised and surprised.

From Su Lang's words, they could feel that this is a system that is very beneficial to low-level warriors.

But to benefit the low-level martial artist, it will inevitably consume high-level resources, which is simply out of place in the current situation.

However, they knew that the reason why Su Lang did this must have his own intentions. They only need to execute the order.

"The servant obeys!"

Everyone knelt down to take orders.

Soon, Su Lang took a trip and took Huangfuqin from Lanxing to the holy city of Yaochi.

Huangfuqin was very, very excited.

The Saint Clan has always been the place he wanted to see, but because he had to protect the Wind Spirit Clan, he didn't have the opportunity to travel.

At this moment, Su Lang not only wanted to take him to the holy city, but also let him take on the important task of establishing the exchange system of the three holy races!

In the sea hall of the sky.

Huangfuqin stood beside Su Lang, Yaochi Yan Fa and others respectfully surrounded him.

"Meet Mr. Huangfu!"

All the martial sages bowed and saluted to Huangfu Qin.

Su Lang said that Huangfuqin is the soul-hearted servant of Emperor Jade. Although his cultivation level is not high, his status is high.

Yaochi Yan Fa and others dare not ask for it!

"Oh my god, the sixteen martial sages of the three saints, all have to listen to my orders, this is exactly like a dream!"

Huangfu Qin's heart was stirred, and he became more grateful and loyal to Su Lang.

"I must do this well and can't live up to the Lord's expectations!" He secretly encouraged in his heart.

"Yao Chi Yan Fa."

"Next, you will listen to Huangfuqin's arrangement."

Su Lang smiled faintly, waved his hand, and summoned three avatars, "My three avatars serve as the core of the exchange system in the three holy cities.

This matter is extremely important. It is related to our war with Tutianlou. You must make it beautiful. "

"The servant obeys!"

Yaochi Yan Fa and others knelt down to lead the order.

Huangfuqin prostrated with excitement, "Lord, if I make a mistake at this time, I would like to apologize with death!"

"OK."

The corner of Su Lang's mouth twitched, and he waved his hand, "Let's do everything now!"

"Yes!!"

Everyone left and went to establish an exchange system.

...

"The population of the three holy races is many times larger than that of the Wind Spirit Race and the Human Race combined."

"It is estimated that my various functions will be overloaded, and I can only raise the threshold of the exchange system."

"This time, raise the threshold of the exchange system to the Wu Zun level."

After some consideration, Su Lang sent the message to Huangfuqin.

Huangfuqin received the information, and once again promised to get things done properly.

Next.

Su Lang left a clone to play with Xiao Hai, and his deity returned to the blue star.

Just a short conversation.

Dozens of martial sages appeared on the blue star again.

And the first batch of twenty martial artists who broke through to the martial sage realm have consolidated their realm, are continuing to comprehend the rules, and are moving towards a higher level.

However, their 'funds' have almost been eaten, and they cannot break through again in a short time.

"you you you you!"

"You people, come up and listen to the order."

Su Lang called their names one by one, and the first batch of martial sages who made a breakthrough came to Su Lang with endless gratitude.

"Master!"

"We have broken through to the realm of Martial Saint!"

"Thank the lord for giving me the pill, thank the lord for giving me a treasure for cultivation!"

"I wait for eternal life and never forget the Lord's great grace!"

"..."

All the martial sages stepped forward and knelt on the ground instantly.

"Okay, get up all!"

"As long as you are effective, there will be more generous rewards in the future!"

Su Lang smiled faintly, "What is the realm of Martial Saint, I will give you the elixir in the future, so that you can expect Martial Immortal!"

After hearing this, everyone was moved to tears.

"Next, I have one thing for you to do."

Su Lang said, "The Sea of Sky has been promoted to an immortal weapon by me. At the moment, your patriarch has other important things, so you need to guard the Sea of Sky."

"The Sea of Sky has been promoted to a fairy tool!!!"

"The Lord is so powerful, even the fairy can be made out."

"My God, the fairy, the Lord told me to wait to guard the fairy! What a glory it is to guard the fairy!"

"Lord, I will definitely guard the sea of the sky with all my strength, so that Xiao Xiao Xiao Tianlou will not have any opportunity to take advantage of!"

"Lord, if I am half slack in waiting, please give me death!"

"..."

Everyone kowtowed to show their loyalty and determination.

[Chapter 647: Immortal-level meteorite thunder!](#)

"well."

"Next you follow me back to the holy city of Yaochi."

Su Lang smiled and said, "When you reach the critical point of breaking through the two-star martial arts, come back to practice."

"Yes!!!"

Everyone led the way.

Su Lang stopped talking, turned and turned into a stream of light and went away. Twenty martial sages followed one after another.

After some toss and turns, through time and space cracks and super teleportation formation, Twenty Ming Wu Sheng returned to the holy city of Yaochi.

"Wow, the sea of sky has become so huge!"

"The range of the sea of sky covers the range of dozens of Yaochi holy cities."

"I have a chance to guard such a great fairy!"

"..."

The martial sages hovered in the air, looking at the sea of sky that had evolved into a fairy, and they kept admiring them.

And at this moment.

"Ma Ma Ma Ma~"

A tender yell came, and all the martial sages looked around, only to see a dumpling with the face of the owner flying over.

"What a miraculous creature, is this?"

"It should be the spirit of the fairy, and the fairy has the spirit!"

"This is the spirit of the fairy, but why does it call the Lord Ma Ma?"

"..."

Everyone looked at Xiao Hai in surprise and curiosity.

"You are right."

Su Lang stretched out his hand and screwed Xiao Hai in front of him, "It is the spirit of the sea of the sky. It is very simple at this time. Don't teach it badly, otherwise I can't spare you."

When all the martial sages heard this, their expressions gradually became solemn: "Your servant obeys!"

"okay."

Su Lang waved his hand and said, "You go and guard the sea of sky first."

"Yes!"

All the martial sages took their orders one after another, and immediately entered the sea of sky to guard.

When they were in the realm of quasi-sage, they guarded the sea of sky, so they were familiar with the road.

Twenty martial sages guarded the Sea of Sky, and the power suddenly increased a lot.

"The sea of the sky is divided into twelve sacred objects and twelve bridges, using a total of 3,032 parts."

"I don't know how far the sea of sky can reach when every part is guarded by Wu Sheng. I really look forward to it."

While thinking about it, Su Lang played with the little sea like dumplings, causing it to keep calling 'Ma Ma Ma Ma~'

"You, everything is fine, just like barking, but I can't change it..."

Su Lang rolled his eyes helplessly, and immediately moved, using his clone to replace him in a remote area in the Yaochi area.

Randomly found a place to sit down, and he took out the Tai Chi Meteor Thunder God from the storage space.

At this time, the Taiji Meteorite God Thunder has been evolved into a high-level holy artifact by Su Lang.

From the beginning, its body has grown larger and smaller, and now it has become only the size of a basketball.

But the breath radiating from his body became more and more dangerous.

It feels that even if you rub him, it will explode immediately.

Ordinary Wu Sheng would never dare to approach this meteor **** thunder at will, let alone hold it in his hand like Su Lang.

The reason why Su Lang came to this remote area was to prevent the Tai Chi Meteorite Thunder from accidentally exploding in the city.

Looking at the Tai Chi Meteorite Thunder in his hand, Su Lang hesitated and ordered: "System, decompose Tai Chi Meteorite Thunder!"

"Ding! Decompose the high-level sage soldier Tai Chi Meteorite Thunder*1, and you will get the Soul of Valkyrie*8, Tai Chi Heavenly Fire Jade*200, Kuang Lei Sacred Heart*300, Rainstorm Tiansha*240, Canghai Colorful Stone*500... .."

In a blink of an eye, Tai Chi Meteorite Thunder became a pile of materials.

The reason why this Taiji Meteorite God Thunder was decomposed was because this God Thunder had evolved many times, and Su Lang no longer remembered what material it was refined from.

Decomposing it, its refining is convenient and clear at a glance, you can directly refining the holy rank divine thunder, without starting to evolve from the noble rank.

"The material consumed is really enough."

"Slightly low-level materials are all three-digit numbers!"

"Fortunately, I got the resources of the three saints, otherwise it would be difficult to refine one."

After some emotions, Su Lang refined the decomposed divine thunder again, and ordered: "The system, only retains the characteristics of the 'disposable weapon', and evolves it into a fairy weapon!"

"Ding! Consumes the soul of the martial god*2, the soul of the **** of war*8, the sacred thunder jade of the two poles*6, the purple thunder tree of the heavens*10...the Taiji meteorite **** thunder has evolved into a primary fairy weapon!"

[Chapter 648: Refining Jixian Cannon](#)

After the system prompts, the Tai Chi meteorite **** thunder evolves successfully.

Su Lang took it out of the storage space, and a frightening aura immediately spread.

The creatures within hundreds of thousands of miles instantly felt a crisis coming, as if they could lose their lives at any time.

Whether it is the Beast Emperor, the Beast Sovereign, or even the God-level Fierce Beast, it is also shivering.

Countless creatures were frightened and wailed constantly, fleeing around like headless flies, and some were limp on the spot, with feces and urine flowing.

Su Lang, who holds the God Thunder in his hand, is also frightened.

He observed carefully and found that the Tai Chi Meteorite Thunder had become only the size of an ostrich egg.

Its surface was covered with things like dense scales, and a crimson light faintly revealed in the gaps between the scales.

Su Lang wrapped it with mental power, carefully guessed its power, and soon recovered his mental power.

The primary fairy weapon level Tai Chi Meteor Thunder God!

Once this thing bursts open, at least a million li will be turned into ashes, and it is estimated that the Four Tribulations will be seriously injured! !

The earth will be penetrated, I don't know how deep it is!

"This is the power of a fairy-level disposable weapon!"

Su Lang took a deep breath, his eyes revealed excitement, "It's even more terrifying than even more advanced fairy tools."

"The only drawback is that it consumes too much material."

"Besides, this thing doesn't seem to be smart?"

Su Lang made another observation with some curiosity, only to find an aura.

And this aura is not strong, not as good as the aura of Youtian Sword.

"It's okay if you don't have a tool."

Su Lang smiled dumbly, "If another artifact appears to call me Baba, I can't let it explode."

After getting the new Taiji Meteorite Thunder thoroughly, Su Lang refined two again and put them in the storage space together.

At this point, there is only one copy of Wu Sheng Soul.

There are a lot of Valkyrie Souls!

It just so happened that what Su Lang was going to do next only needed the Soul of Valkyrie for the time being.

"Next, let's start refining the parts of the JXian Cannon."

Su Lang took a deep breath, took out a large amount of materials from the storage space, and began to refine the parts of the JXian Cannon.

The design principle of the JXian Cannon is similar to that of the Sky Sea, and both use low-level parts to form high-end products.

Of course, the so-called 'low-level parts' are at least god-level!

It is a rare artifact in the ordinary small race!

Moreover, this time with the experience of refining the sea of sky, Su Lang intends to refine a larger-scale fairy tool!

There are as many as six thousand six hundred and sixty-six kinds of parts alone, which is more than twice that of the sky and sea.

Among them, there are a total of sixty-six kinds of holy order parts as the core.

Because the JXian Cannon is almost 'customized', it's more difficult to refine than the sky and sea.

Almost every part requires Su Lang to participate in the refining.

Fortunately, the system can also help in many ways.

Because Su Lang's own refining skills were so superb that he could refine the imperial soldiers.

So in many cases, it is almost impossible to guess what kind of things can be refined with which materials.

These things that can be guessed can be handed over to the system for refining.

Even if there is a slight error in the refining of the system, Su Lang can modify it.

Modification, of course, is much faster than refining from scratch.

In addition, many of the over 6,000 parts are duplicates.

Su Lang first refines one piece, then decomposes it to obtain the formula, and then lets the system refine it.

There are a small number of parts that directly use the sky and sea, so they can also be refined directly.

In this way, a lot of time is saved!

Su Lang estimated that the time needed to refine the Jixian Cannon was shorter than that of the Sky Sea.

...

Just when Su Lang was frantically refining JXian Cannon parts.

In a remote place, in the huge waterfall, in a secret room, Zhu Qi and other intelligence personnel were having a meeting.

Zhu Qi did not sit at the head because someone was sitting in that position.

Zhu Liu, a martial arts immortal in a robbery, this man is tall, solemn, with sharp eyes like a knife, and a **** air of horror is exuding all over his body.

I don't know how many people Zhu Liu killed.

[Chapter 649: Zhu Liu](#)

"Are you sure that Su Lang can refine fairy artifacts?"

Zhu Liu's eyes flickered, and his cold voice was faintly waved.

It has been more than 10,000 years since he broke through to Wuxian, but he still uses this high-level holy artifact.

He has seen fairy tools or something, but he has never touched it.

Knowing that there is a mysterious little guy who can make immortal artifacts, he immediately became interested!

"Return to the Six Great Masters, we are sure that Su Lang can refine immortal artifacts."

"Our people watched the quasi-immortal artifact evolve into an immortal artifact!"

Zhu Qi looked respectful. Although he was the seventh in command, the Tuantian Tower organization was very strict, and Zhu Liu could only do so if he asked him to die.

"Even if it is not directly refined, but with special means, it is very valuable."

"Although this Su Lang killed the quasi immortal and martial sage of our organization, this is not an unsolvable enmity."

"You are ready to come to your door to apologize, turn the fighting into a jade silk, and then invite him to our Tuantian Tower."

With a smile on Zhu Liu's face, he seemed to look forward to meeting Su Lang.

As for the dead Cai Liao and others, in his eyes they are no different from the ants, and they are not worth mentioning.

Zhu Qi asked, "Six Masters, if Su Lang refuses to agree, what should I do?"

"Unwilling to agree?"

"Haha, I want to see him in Slaughter Tower, dare he agree?"

Zhu Liu sneered, "If he toasts and doesn't eat or drink fine wine, I will come to meet him personally."

"Big Six."

"Su Lang now has the guardian of the fairy!"

Zhu Qi said: "There is also a great sage of Xianyang beside him. He is quite famous in the ancient times, and he may have broken through to the realm of Wuxian..."

"Ha ha!"

"It's just a fairy weapon that has just been promoted. Can you stop me?"

"And that Xianyang Martial Sage, an old thing from the ancient times, a waste of life that hasn't broken through to the realm of Wuxian in vain, is eligible to be compared with me?"

Zhu Liu's face sneered even more, even showing a trace of killing intent.

"My lord is forgiving, because the subordinates talk too much!"

Seeing this, Zhu Qi immediately knelt down and begged for mercy, a lot of sweat drenched on his forehead.

A cold sweat, this is also very rare for him as a quasi immortal.

"Huh! Don't do it yet!?"

Zhu Liu stood up, with his hands on his back, a murderous intent surging out like a river of blood!

"Yes!!"

Zhu Qi and others knelt down to take orders, immediately retreated, left the secret room, and set off for the Yaochi Saint Clan.

"The fairy..."

Zhu Liu whispered, his eyes full of coveting.

...

Time to shuttle.

In a blink of an eye, one day passed.

Su Lang is still refining JXian Cannon parts non-stop. At this point he has completed half of the parts.

And just as he took out a god-level part that had just been refined from the cauldron, one after another system prompted the front heel to rang with the back foot.

"Ding! The water system rules have been understood, do you accept it?"

"Ding! "Chongxu Mingjian Tu" has reached the founding level!"

"Ding! "The Wushou Divine Body Jue" has reached the founding level!"

"Ding! "Nine Color Jade Cicada Sutra" has reached the founding level!"

"Ding! "Shen Luo Wanxiang Jue" has reached the founding level!"

"Ding! "The Secret Technique of Extinguishing the Sky" has reached the founding level!"

"I'll go, so coincidental, understand the rules and the exercises at the same time?"

Su Lang felt that he had mastered five god-level exercises, his body strength and spiritual energy reserves had increased a lot, he couldn't help but raised his brows and smiled.

In addition, "Chongxu Mingjian Tu" also brought his kendo attainments to a higher level.

As for "Sen Luo Wanxiang Jue" and "Secret Method of Extinguishing the Sky with Blood Flame", both are secret techniques. If they are not activated, they will not work.

"Sin Luo Wanxiang!"

With a thought of Su Lang, he used the Sen Luo Wanxiang Art.

The breath on his body immediately began to change, and his body shape and appearance have also undergone tremendous changes.

In an instant, Su Lang completely changed his appearance.

"With my current strength."

"No ordinary martial artist can see through my disguise, this technique is still very good."

Su Lang nodded in satisfaction, and immediately revoked the exercise and restored it to its original state.

[Chapter 650: Practice the holy order!](#)

"The Secret Method of Extinguishing the Sky" Su Lang did not try.

This method does not hurt the enemy first, it hurts yourself first, and it would be stupid to try for no reason.

What's more, even if he didn't try, Su Lang could roughly feel how much combat power this technique could enhance himself.

Don't need to swallow the clone, using this technique can probably make him enter the martial arts level in all aspects.

If the swallowing clone is used, it can roughly increase the level of Wu Sheng by half a small realm.

But if you reach the level of Wuxian, you can't improve much.

Of course, it is a good thing to be able to improve, the war between warriors, the slightest difference is the key to victory!

Next.

Su Lang chose to accept the water system rules.

"Ding! Water system rules have been issued!"

After being prompted by the system, Su Langdun gave an enlightenment and instantly mastered the rules of the water system.

In an instant, countless water droplets were formed around him. These water droplets vary in size, but they are all very mellow and crystallized, just like the treasure in the world!

When Su Lang thought, countless water droplets merged to form a slender stream.

This water flow circulates around Su Lang like a living thing.

At first glance, the water flow is completely incomparable to the explosiveness of the fire and thunder rules, but in fact it carries a soft and attrition force. Once it is entangled, the consequences may be more than that of the fire thunder rules. It's more painful to hit.

Water system rules can erode and wear away, and their power cannot be underestimated.

It also moisturizes the warrior itself, has the function of increasing aura reserves, and has a certain beauty effect.

In addition, there are various magical effects, which are not enough to sum up.

"Scatter!"

Su Lang thought, the rules of the water system dissipated, and the water flow was also annihilated.

Immediately after.

Su Lang began to choose the exercises to practice next.

"At present, my strength has already entered Wu Sheng with half a foot."

"Although the god-level exercises are still useful, they have gradually lost their stamina. Let's start practicing the holy-level exercises this time."

After thinking about it for a while, Su Lang began to choose a holy level technique.

Although he has not many holy level skills at present, it is not too small.

The first is the synthesized "Water Martian Elephant Sacred Scroll", which Li Xianyang has commented on, it is very advanced even in the holy order.

Secondly, it is the "Nine Stars Purple Rainbow Fantasy Book" from Yanxingxing, and the "Sacred Record of the True Sky of Yaochi", "The True Secret of the Red Sun and Ten Thousand Miles" and "The Secret Book of Tianyun Asking the Tao" from the three saints.

Again, there are "Black Flame True Sage Xuanshu", "Longevity Cloud Heart Treasure Scroll", and "Water Mirror Thousand Red True Book" from Wuyang Wusheng, Cai Liao and others.

In addition, it is obtained from Li Xianyang's "Secret of Soul Seed Heart", "Tian Cicada Jade Gu Jue", "Zhenji Wenyuan Secret Book" and so on.

Su Lang also owns several immortal exercises, such as "The True Jue of the Nine Revolving Immortal Sun", "Praying for Immortals", and "Sacred Code of Reincarnation Immortal Eyes".

If the exercises practiced by Chu Xiaobei are counted, then the immortal-level exercises "Ice Jade Fairy Yuan Zhenlu", the holy-level exercises "Bodhi Worshipping the Moon Profound Art", "Yuqing Nine Imperial Forbidden Techniques".

Counting it down, Su Lang possessed ten holy-level exercises. Except for the "Sacred Scroll of Water and Mars," they were all non-synthetic "natural exercises."

"With only one holy rank technique, you can synthesize a fairy rank technique!"

There was a trace of excitement on Su Lang's face. Immortal level cultivation technique, this is the foundation of a great immortal clan.

In terms of its value, a fairy-level exercise method is more valuable than a fairy weapon!

Su Lang estimated that if an immortal level exercise was auctioned, then the immortal clan would do their best to bid.

"Biyu must have a holy-level technique."

"When things are done here, I will go to subdue the Biyu clan."

While thinking about it, Su Lang selected five of the holy level exercises he currently possessed.

They are "Water and Mars Elephant Sacred Scroll", "Nine Star Purple Rainbow Fantasy Book", "Black Flame True Sage Book", "Water Mirror Thousand Red True Book", and "Secret of Soul Seed Heart".

"Ding! The exercise is successfully placed, and it has started to practice automatically!"

After Su Lang placed the Wuben exercises, a system prompt came, and the five martial arts villains immediately began to practice the exercises.

"System, how long does it take to practice these five holy-level exercises to the founding level?" Su Lang asked aloud.

"Ding! Host, it only takes twelve days to reach the founding level!"

"Twelve days, it's almost as I expected."

Su Lang nodded slightly, and immediately put aside the exercises, and continued to refine the JXian Cannon parts.
