[Chapter 681: This must be fake!](#)

Qian Zihou stopped where he was, his face was blue and red.

The fairy formation on the opposite side made him feel very tricky, and he couldn't grasp it directly.

"Damn it!"

"You have a fairy formation, are there two more?"

Qian Zihou cursed secretly, before turning around and leaving.

But at this moment.

Su Lang's faint voice came: "Qian Zihou, don't waste your efforts, all my cities are protected by immortal formations."

"Ghosts believe!"

Qian Zihou turned to look at Su Lang in the barrier, sneered, and left immediately.

What is the existence of Xianzhen?

Most of them are super large arrays built on the right time and place, which is difficult to deploy.

It is even more difficult to arrange the fairy formation in the formation.

You must be an immortal-level formation refining master who has reached a very deep level in order to arrange the low-level immortal-level formation in the formation.

Therefore, Qian Zihou decided that Su Lang had no more immortal formations.

Of course, he was completely wrong.

Because Su Lang just harvested countless materials, one hundred, one thousand immortal formations can be refined.

Watching Qian Zihou's departure, Su Lang's mouth outlines a touch of playfulness.

The feeling of playing Wuxian like a mouse is really good!

At this time.

Another system reminder came.

Several of Qian Zihou's subordinates were killed, and their belongings were plundered by Su Lang.

Su Lang was in a good mood.

Immediately he moved his body and went to another city.

In the Yaolan City, those warriors could not help but feel regret when they watched Su Lang disappear.

As soon as Su Lang sat there, Wu Xian was scared away. This scene was really awesome.

They haven't seen enough yet!

The other side.

Qian Zihou left Yaolan City and soon arrived at another city.

But when this city appeared in his eyes, his expression suddenly changed.

Nothing else.

Just because this city is also shrouded in pink fairy array!

"hiss!"

Qian Zihou took a hard breath, his teeth were cold.

"Two fairy formations...two fairy formations?!"

"Could it be that Su Lang moved the formation here!"

"No, it's not right, I'm all randomly selected cities, how does he know I'm coming here?"

"But if it wasn't for the transfer of the formation, then this immortal formation already existed?"

"What kind of identity is Su Lang? He really has a subordinate who can arrange an immortal formation!"

Qian Zihou trembled all over, then turned away again.

"There are two fairy formations in the small town of the sacred race, which is extremely incredible!"

"It takes countless materials and time to lay out the fairy formation. There will never be a third one, absolutely not!"

"The next city, I will definitely be able to break it!"

Qian Zihou left again.

He chose another city of the Yaochi tribe.

This time he fully expanded his mental perception to prevent being snooped.

But Qian Zihou didn't find anything suspicious at all.

There were only ordinary wild creatures on the ground, fleeing in groups, and he could kill them all with a single thought.

But killing these wild creatures has an ass.

Qian Zihou maintained his mental perception and arrived at the third city.

Then he stopped stiffly.

The third city is also guarded inside by a pink mask.

"This, this, this is the fairy formation again!?"

"This is impossible, this is impossible, this must be fake!"

Qian Zihou's face was distorted, his teeth were gritted, his eyes almost burst.

He violently unfolded his mental power and completely enveloped the formation.

He wants to break this 'illusion'!

However, this is originally a real formation, what is an illusion?

Qian Zihou discovered this fact after doing a lot of useless work.

This made him very crushed.

Immortal formation!

In general, there is only one fairy clan.

But this little Yaochi saint clan, in addition to fairy tools, unexpectedly has three fairy-level formations!

This is too exaggerated!

"No, it must be my bad luck that I will encounter three cities with immortal formations."

"The three fairy formations must be the limit, and there will definitely not be a fourth fairy formation!"

Qian Zihou roared in his heart, but Su Lang's words appeared in his mind

—"Qian Zihou, don't waste your energy, all my cities are protected by immortal formations."

[Chapter 682: Completely subvert common sense!](#)

Could it be that Su Lang Xiaozai really all cities are protected by immortal formations?

Qian Zihou's heart suddenly burst, and his pupils couldn't help shrinking like needles.

Immediately after.

He took a deep breath and once again chose a city as the target of the slaughter.

This time, Qian Zihou specially chose a remote small city.

This city is a small village-level existence in the Yaochi Saint Clan, and the strongest warrior is nothing more than a martial master.

Qian Zihou flew for a while before arriving at his destination.

Then he saw a scene that made him collapse.

This small village of the saints of Yaochi was also shrouded by the fairy formation! !

"I--!!!"

Qian Zihou's body trembled fiercely, with a trace of fear on his unbelievable face!

There are fairy formations in even small mountain villages!

"This is not true, this is not true!"

"This has completely subverted common sense!"

"Who would set up an immortal formation on a small mountain village at the martial arts level!?"

"How much materials and effort are needed to set up the fairy formation, how can it be used to protect a small mountain village!"

"..."

Qian Zihou couldn't help whispering, his voice trembling slightly.

From the experience just now, he seemed to see the tip of Su Lang's iceberg.

This Su Lang really had money and nowhere to spend, and he was wasted everywhere.

Such terrifying financial resources, I am afraid that it has not been inherited by the emperor! ?

"It seems that Su Lang is not as simple as it seems!"

"This guy is more mysterious than expected, and more useful!"

"I can't break these formations, but in the Slaughter Sky Tower, I am only at the end of Wuxian!"

"Su Lang miscellaneous, wait, tomorrow is your end!"

Qian Zihou had mixed feelings at this time. Among them were the anger and shame of being humiliated by Su Lang, and the joy of getting huge benefits after he was about to kill Su Lang.

He took out the jade card of transmission, and prepared to call in the remaining subordinates, together to return to the headquarters of Tuantian Tower.

But after Qian Zihou sent the message, not even one person responded.

"Are they all dead!?"

"My top fifty elites, including twenty quasi immortals, all died!"

Qian Zihou's eyes were cracked with hatred, and his old yellow teeth were crushed!

"Damn it!"

"I will avenge this grudge, Su Lang miscellaneous, I will make you better than death for the rest of your life!"

Qian Zihou roared wildly in his heart, and immediately flew towards the outside of the Yaochi Clan's area.

Fly and fly.

Soon, Qian Zihou approached the edge of the Yaochi tribe.

There are no humans within hundreds of thousands of miles here, only a few extremely low-level animals survive.

For example, wild pheasants, wild birds, wild boars, and a kind of rat with waves.

Qian Zihou didn't care at all, and continued to fly forward.

But at this moment.

He suddenly found two figures floating in the sky far ahead.

Take a closer look.

Qian Zihou was stunned for an instant.

Those two are not Su Lang Li Xianyang's master servant, who are they?

"How do they know where I am!?"

"How can they block my way in the wild without barriers!?"

"What the **** does Su Lang's gaggle think!?"

"..."

Qian Zihou felt that his mind couldn't turn around.

At this time.

Su Lang on the opposite side gave a small smile and said, "Qian Zihou, where are you going?

Now that you are here, you must stay, not as a dog, and you must stay as a pig and be killed by me! "

Qian Zihou's face twitched.

"Let me be a dog and a pig?"

"How can people be so arrogant, how can they be so arrogant!"

"Lao Tzu has lived for millions of years, and after the ancient wars, I have even seen the direct blood of the immortal race, and I have never seen such a defiant fanatic!"

"Does this miscellaneous dog know this is in the wilderness, no fairy tools, no fairy formation, what qualifications does he have to fight with me?"

"Don't say anything else, Lao Tzu's mental power is at the level of the sun, and I can stare at you to death!"

Qian Zihou cursed wildly in his heart, and then gradually calmed down.

He knew that the reason Su Lang dared to leave him here must be dependent on him.

What is this dependence?

[Chapter 683: Take a look, what is this!](#)

"Li Xianyang!?"

"That's just an ancient quasi immortal."

"Although he specializes in mental power, his strength is terrifying, and he has a record of ending up with the Wuxian Yijie, it is impossible to kill me Qian Zihou."

"The most is to use secret techniques to block his mental attacks."

"So, is it the fairy formation arranged in the formation?"

"But even the immortal formations burned in the formations will take a certain amount of time to be deployed."

"I'm going to kill Su Lang Miscellaneous, just one breath is enough, at this point he can't even put down the formation!"

"Damn it, what the **** is it?"

Qian Zihou stood still thinking constantly, his expression fluctuating.

In fact, Qian Zihou had guessed one of Su Lang's backing.

That is Li Xianyang.

Li Xianyang's spiritual realm is only the Huiyue level.

But he has a fairy-level inheritance, and his spiritual power is far beyond the Huiyue level, although he is definitely not as good as the Xiri level.

But after using the secret technique, it can carry out a fairy-level mental power attack or multiple defenses.

The existence of Li Xianyang prevented Qian Zihou from using mental attacks against Su Lang.

Of course, Su Lang is not afraid at all.

Why did he have more than 20 clones, which can be used as more than 20 lives.

"Qian Zihou."

"I'll give you a chance to judge yourself in front of me immediately. In this case, you can still get a dead body."

Su Lang looked down at Wu Xian Qian Zihou faintly, with a hint of playfulness in his voice.

"Let me judge myself?"

"You are really fantastic!"

"I don't know what you have to rely on, but at most it's a low-level Wuxian."

"I came here alone today and suffered a big loss, but I will find this place soon!"

"Tomorrow, tomorrow I will let your Yaochi people over a trillion li in a radius of charcoal!"

Qian Zihou sneered all over his face, then immediately turned around and was about to leave immediately.

But at this moment.

Su Lang's faint voice came again: "Qian Zihou, do you think you can go? Look what it is!"

"!?"

Qian Zihou was startled and turned around to look and saw that Su Lang was playing with a white gold dragon button jade seal.

On the Dragon Niu Yuxi, there is a dumpling similar to Xiaohai that pops up from the body of the fairy from time to time.

It was just taken out of the storage space by Su Lang, ignorant, and he knew what was going on.

"This is-a fairy!!"

"It's a fairy weapon, how could he have a second fairy weapon!?"

"And it looks like an offensive fairy tool, God, are you kidding me?"

Qian Zihou stared at the fairy tool in Su Lang's hand, his body tensed, his pupils tightened.

He already felt it.

The immortal artifact is filled with the power of extremely strong rules, and the power has at least reached the level of the martial immortal of the Second Tribulation!

"hiss....."

Qian Zihou took a careful breath, his teeth trembling slightly.

The extent of the Second Tribulation Wuxian.

He simply can't hold it!

Escape, only escape!

"Qian Zihou."

"I know you already want to escape."

"But it's not so easy to leave my site."

"Well, let me give you a chance, let you run a million miles first, and then I will do it. If you can escape, then I will let you go."

Su Lang twitched the corner of his mouth and smiled faintly, "Master Wuxian, do you accept my mercy?"

This statement came out.

Qian Zihou was really angry and pitying in his heart, and Su Lang, who was a bitch, actually took pity on him and played with him!

Qian Zihou has lived for millions of years and has never been so humiliated!

"Damn dog stuff!"

"Why are there such arrogant and arrogant people in the world!?"

Qian Zihou roared in his heart and his eyes were cracked, almost like an active volcano about to erupt!

But the thought is a matter of life.

His about to erupt active volcano immediately turned into a fart holding back.

"It seems you don't want to accept it anymore."

"Okay, spine, then you go to die now."

Su Lang laughed loudly, and immediately urged the Jixian Cannon.

"slow--!!"

"I accept!!"

Qian Zihou yelled frantically, "But you have to speak up!"

[Chapter 684: You can't escape from start to finish](#)

"I, Su Lang speak."

"I never counted, oh no, I never broke my promise."

Su Lang squinted and smiled, "Don't worry, you will run a million miles first, and I will do it again, and I will never lie to you."

"you!!"

Qian Zihou was very embarrassed by Su Lang's phrase "Never counted", and very embarrassed.

But he has no way or choice now.

After taking a deep breath, Qian Zihou's figure moved and disappeared in place!

As a martial artist, his speed is really super fast.

And considering that Su Lang and Li Xianyang are not Wuxian, the speed is definitely not better than him.

So Qian Zihou is very confident to escape this disaster.

"Dogs!"

"You let me escape this life today, and I will let you know what regret is in the future!"

Qian Zihou roared wildly in his heart!

That uninhabited wilderness.

Su Lang and Li Xianyang looked at the direction Qian Zihou was leaving, with a sneer at the corners of their mouths.

One million miles.

It seems to be far away, but it is actually far away, but it has not exceeded the scope of Wu Sheng's spiritual power detection.

We must know that Su Lang's mental power detection range has reached ten million li.

Li Xianyang's spiritual detection range is broader.

Therefore, let alone one million li, even if Qian Zihou was asked to run five million li first, he would not escape Su Lang's palm.

Qian Zihou felt that Su Lang couldn't catch up with him, but he couldn't think that Su Lang possessed the abnormal function of 'Clone Replacement'.

In a blink of an eye.

Qian Zihou ran a million miles.

"Humph!"

"Can't catch up with me!"

Looking at empty behind, Qian Zihou showed a relieved sneer on his face.

Immediately after.

He continued to run forward.

However, Qian Zihou didn't know what was wrong with him. Although he was certain that Su Lang could not catch up with him, he always felt that something was wrong.

As he fled, he thought about the previous scenes.

The first is the martial arts who are sent out.

These martial sages are all superpowers among the holy ranks, and they all exist with eight stars and nine stars.

But none of them killed a single person from the Yaochi tribe.

All were intercepted before reaching the city.

Secondly, it is his personal experience, Qian Zihou, wherever he goes, he is covered and protected by an immortal formation.

Does Su Lang really have so many immortal formations?

Even the imperial family could not even set up fairy formations in small mountain villages.

It is definitely an illusion that the Yaochi tribe has countless fairy formations!

"So, why can Su Lang use a few immortal formations to create such an illusion?"

"The only explanation is that he knows all my whereabouts, no matter where I am, he knows it!"

"Also, there is no teleportation formation where he intercepted me, but he can arrive early, waiting for me there!"

"In other words, he has the ability to reach a certain place directly without using the teleportation array!"

"And this ability is not to tear space, otherwise I would have noticed it a long time ago, it is another unknown mysterious method!"

"He used this ability to set up a fairy formation where I was about to arrive, and then intercepted me when I fled!"

"Then, he let me escape a million miles first, completely confident, he can still intercept me!"

Qian Zihou gradually guessed the truth, and his heart became more uncomfortable, "So I...I can't escape from start to finish!"

Thought of this.

Qian Zihou swallowed a mouthful of saliva, and he looked forward with feeling.

Sure enough, Su Lang and Li Xianyang are here! !

"what--!!"

"What is the ability to teleport out of thin air!?"

Qian Zihou couldn't help yelling, his voice was full of fear and despair.

At this time.

"Hahahaha!"

Su Lang laughed wildly, "Qian Zihou, I have given you the opportunity, but you are not using it!"

"Ah!"

"Su Lang dog chopsticks, I will fight you!"

Qian Zihou yelled like a collapse, almost hoarse.

He raised his hands, and the inner boundary of Wuxian gradually emerged, which was already an independent world.

However, although the inner boundary of Wuxian is a realm of its own, it is actually relatively weak.

Under normal circumstances, if Wuxian moved all the inner world out, it was really desperate.

[Chapter 685: The death of Qian Zihou](#)

"dead!!"

Qian Zihou roared fiercely, and a beam of light formed by the force of rules condensed in the inner boundary of Wuxian, and slammed towards Su Lang like a torrent of energy.

When performing this trick, Qian Zihou's Wuxian inner world was shrinking, and it was obvious that Qian Zihou had already exploded with all his combat power, and he hadn't concealed any backhands at all!

Unfortunately, no matter how hard he fights, his attack power level has not reached the Second Tribulation Martial Immortal.

"fire!"

At the moment Qian Zihou launched the attack, Su Lang also roared and mobilized the Jixian Cannon.

The dragon button jade seal restores its body, the upper dragon body is like a living thing, and the power of the rules surrounding it is simply frightening.

Surprisingly.

The dragon mouth of the Jixian Cannon even ignorantly followed Su Lang and yelled, 'fire the gun—! !' Just launched an attack.

I saw a group of golden red rays spurting from the mouth of the Jianxian Cannon, faster than Qian Zihou's regular torrent!

Although the attack time of the Jixian Cannon was slightly later, the two attacks met in the middle.

"boom!!"

In an instant, the world lost its voice!

The power of the endless mysterious rules exploded, and the terrifying rules fell on the earth, making the mud and petrified gold, the vegetation and jade, the river flowing backwards, and the mountains floating in the air!

Immediately after.

A little golden red light flew out from the center of the explosion, instantly breaking through the inner boundary of Qianzi Hou Wuxian.

"Do not!!"

Qian Zihou let out a desperate roar, but he could only watch the golden-red light sweeping across his inner boundary.

Wuxian's inner realm is strong but fragile.

It is true that the inner boundary of the Wuxian can be used for twelve points of combat power, but once the inner boundary of the Wuxian is broken, it means defeat!

"I can not be reconciled!"

Qian Zihou was in tears.

He is a magnificent martial artist, has experienced countless humiliations and jokes, and finally he will lose!

"I want you to die!"

Qian Zihou's resentment was soaring, and he gathered his whole body's strength and flew towards Su Lang.

The more energy he gathered, the more chaotic and irritable, he was about to explode!

"I can't bear you blew yourself up."

Su Lang raised his eyebrows and thought.

"fire--!!"

The spirit of the Jixian Cannon roared, and immediately released another golden red 'regular cannonball'!

There was a boom.

The regular shells of the JXian Cannon fell on Qian Zihou, exploding the aftermath of the terrifying rules.

Under the power of this chaotic rule, the earth with a radius of tens of thousands of miles has directly turned into a sinkhole!

Just in case, Su Lang directly dispatched Li Xianyang away, and he also used a clone instead.

Standing nine million miles away.

Su Lang spread his mental power to explore the battlefield, but was disturbed by the power of rules, and the scene he obtained was very vague.

Fortunately, the pleasant system prompt came soon.

"Ding! You get the soul of the elementary Wuxian*1, the guide of space*1, the rule fairy crystal*1 the high-level saint soldier Qianren Haotian sword*1, the low-grade fairy jade*12325689, the top-grade spiritual jade*6895326... ..The material of the immortal refining vessel: Ziyang Tianxiang gold*89, the essence of Guixian red copper*99...the material of the refining vessel of the holy level..."

"Lying down!"

"A fairy jade appeared in the spoils!"

"And it's more than ten million, this time I made a lot of money!"

A slight excitement appeared in Su Lang's expression.

He also knew about Xianyu, after all, there was Li Xianyang as a servant, and he could just hit him when he was okay.

The exchange ratio between the low-grade fairy jade and the top-grade spirit jade is also one hundred.

In other words, this tens of millions of lower-grade immortal jade is equivalent to 1 billion top-grade spiritual jade and 100 billion top-grade spiritual jade!

And this is not Su Lang's only gain.

In addition to gaining a lot from Qian Zihou, there are also many gains from other Martial Saints.

After all, within this day, Su Lang killed a total of eighty-five quasi immortals and martial sages.

Among them, the martial sages are all senior martial sages, and each one has lived for at least several hundred thousand years.

"System, deposit all spirit stones, spirit jade and fairy jade!"

"I want to see how much money these guys gave me!"

Su Lang clicked the corner of his mouth and smiled and gave instructions.

"Ding! Deposit is complete!"

"Ding! The current unit balance is huge, and it has been replaced with a higher-level currency unit, the "Superior Spirit Jade"!"

Su Lang glanced at the currency balance in the mysterious black space.

It was found that there was a string of 10-digit data on the back of the unit that had been replaced with the "Superior Spirit Jade".

[Chapter 686: 20 million times the training speed](#)

Ignoring the fraction, the total is 1,18,57,000!

"So many spirit jade, it is enough for me to upgrade the system function!"

"Moreover, this time every function can exceed level fifteen. It seems that my new function is about to appear!"

"I don't know how abnormal this tenth function is!"

"..."

With a strong heart of excitement, Su Lang issued an order: "System, upgrade the function for me!

One-click training for two consecutive levels! One-click martial arts, avatar dispatch, one-click treasure hunting and three levels! "

"Ding! Consume 10 million superb spirit jade..."

"Ding! Consuming 100 million superb spirit jade, the one-key training function is upgraded to level 24, and the training speed is increased to 22,347,776 times the basic speed!"

"Ding! Consume 1 million high-grade spirit jade..."

"Ding! Consume 10 million superb spirit jade..."

"Ding! Consumes 100 million superb spirit jade, the one-key martial arts function is upgraded to level 24, and the training speed is increased to 22,347,776 times the basic speed!"

"Ding! Consume 1 million superb spirit jade..."

"Ding! Consume 10 million superb spirit jade..."

"Ding! Consuming 100 million superb spirit jade, the clone dispatch function is upgraded to level 23, the number of clones is +1, and the current number of clones is 23!"

"Ding! Consume 1 million superb spirit jade..."

"Ding! Consume 10 million superb spirit jade..."

"Ding! Consumes 100 million superb spirit jade, the one-key training function has been upgraded to level 23, and the number of treasure hunting flying flying gliders has increased to 22,347,776!"

A series of system prompts resounded through Su Lang's mind.

"a ha ha ha!"

"The speed of cultivation and martial arts has reached more than 20 million times."

"The number of treasure hunting flying gliders has also increased to more than 20 million!"

Su Lang's eyes lit up, "System, system, you are too abnormal!"

The training rate is more than 20 million times.

It means that Su Lang has cultivated for one day, which is equivalent to an infinite-level genius who has cultivated for 810,000 years without any auxiliary means!

No, the system prompt that the repair base is full will come immediately.

"Ding! The sea of repair is full, do you break through?"

"No breakthrough for now!"

"I still have something to do!"

Su Lang showed excitement, he didn't forget to continue to upgrade other system functions.

You know, when all functions reach level fifteen, new functions will appear!

Relative to breaking through a realm.

Su Lang is even more looking forward to what that new feature is!

then.

He immediately began to upgrade the remaining system functions.

"Ding! Consuming 1 million superb spirit jade, the one-key alchemy function has been upgraded to level 15, which can refine the elixir of the primordial realm and below!"

"Ding! Consumption of 1 million superb spirit jade, the one-key refining function has been upgraded to level 15, which can refine weapons of the primordial realm and below!"

"Ding! Consume 1 million of the best spirit jade, the one-key refining function has been upgraded to level 15, which can refine weapons of the primordial realm and below!"

"Ding! One-key alchemy, one-key refining, one-key refining array, one-key synthesis function level has reached the top level, no further upgrades!"

"Ding! Congratulations on upgrading the one-key alchemy function to level 15. You have a new bonus function: instant refining!"

"Ding! Congratulations on upgrading the one-key mixer function to level 15, and you have obtained a new bonus function: material doubled!"

"Ding! Congratulations on upgrading the one-key formation function to level 15, and you have obtained a new bonus function: one thought to complete!"

"Ding! Congratulations on upgrading all functions to level 15, and you have obtained the unlocking permission for the new function 'one-key empowerment'!"

After the endless system prompts.

A lot of information about bonus functions appeared in Su Lang's mind.

Among them, the one-key pill refining 'Instant Refining' is equivalent to an upgraded version of the 'Pill in One Second'.

With this function, one-key alchemy will no longer take even one millisecond!

In other words.

As long as Su Lang is willing, he can instantly turn the alchemy materials in the storage space into a treasured pill.

The 'material reduction' function of the one-key mixer, as the name implies, only needs half of the original materials when refining and evolving weapons and treasures!

With this function, originally only one piece of fairy artifact material could be refined, but now two pieces can be refined!

As for the one-key refining of formations with a single thought, it is even more unreasonable!

As long as you use this function, consume designated materials, you can refine a formation in a single thought, and complete the layout.

Regardless of whether it is an independent formation or a combined formation, it only takes a thought to set it up!

[Chapter 687: One-key empowerment with new features!](#)

The three bonus functions are extremely abnormal abilities!

The ability of 'instant refining' made Su Lang no longer worry about the exchange system.

In the exchange system, the vast majority of exchange traffic comes from pill.

There is no way, Su Lang's medicines are all perfect quality medicines.

Almost everyone went to the pill!

The exchange system played a huge role in Su Lang.

This made him no longer need to go and do things like selling pills.

Countless people came to the door by themselves.

Every second, a large amount of materials enter Su Lang's storage space.

Although mostly low-level materials.

But it can't resist the large amount.

Plus one-click synthesis, it can be synthesized into fairy-level materials in minutes, believe it or not!

The 'material reduction' ability allows Su Lang to refine and evolve more powerful weapons faster.

For example, the Youtian Sword, the Sky Sea, and the Jixian Cannon can almost all evolve again.

This made Su Lang's combat power invisibly increased a lot.

Su Lang decided to evolve those weapons later!

However, 'success in one thought' is the greatest increase in Su Lang's combat effectiveness, and it's a direct increase without any moisture.

It takes no time to complete the formation with one thought.

This allowed Su Lang's formation ability to be perfectly displayed in battle.

When fighting against the enemy.

Numerous formations appeared in the wave of hands, directly covering the enemy, making his death unclear!

After the battle.

It can also decompose the formation method, perfectly recycle materials, without a trace of waste, and will not pollute the environment...

"It's all unreasonable functions."

"Too abnormal, too abnormal!"

"By the way, there is still a 'one-key empowerment' function that is not activated."

"Looking at the name, it's very hungry, I don't know how awesome it is."

Su Lang took a deep breath and immediately ordered: "System, activate the 'one-key empowerment' function!"

"Ding! The one-key empowerment function has been activated with 100 million superb spirit jade consumed!"

"Ding! Congratulations on activating the one-key empowerment function. You have obtained the first bonus feature, 'repairing initiation'!"

"Initiation of cultivation base: The cultivation base in the sea of cultivation bases can be passed on to designated candidates!"

"The current one-key empowerment function is level 1, the repair base empowerment efficiency is 10%, and the number of empowerments per day is 1 time!"

"Each level increases, the empowerment efficiency increases by 10%, the upper limit is 100%, and the number of empowerments is +1!"

"Every 5 levels you get, you get new bonus features!"

The large amount of information made Su Lang stunned.

He never expected that this inheritance function was passed on to others!

"I thought it gave me the ability to see inheritance!"

"But this function is also very awesome, and in the future, this function can be even more awesome. I suddenly became a 'grandfather' and can better train a large number of younger brothers."

"The most important thing is to cultivate the confidants around me, so that they can keep up with me."

"In addition, although the power of this world belongs to itself, the reason that there are many people is also great."

"Crowd tactics are a very useful option in many cases."

Thinking about it, Su Lang's face gradually showed a smile, and he thought of a very awesome plan.

He took a few breaths.

Only then did Su Lang put his gaze on the sea of cultivation.

At this time, the sea of cultivation is full, but it will not overflow. Every second, the sea of cultivation will continue to save a large amount of cultivation!

"System, give me a breakthrough!"

Su Lang narrowed his eyes and shot out a burst of light!

next moment.

A strange wave came from Su Lang's Dantian.

The 'membrane' that existed in the dark has disappeared silently.

This means that the moat between Quasi-God and Martial God Realm has completely disappeared!

Su Lang felt the changes in his body and found that faint spatial fluctuations gradually appeared in the dantian.

A mysterious singularity appeared in the center of the dantian, invisible and colorless, but exuding a mysterious aura.

Immediately after.

The inside of this singularity is like a big explosion, and the whole point suddenly collapses!

The small singularity in the dantian collapsed, but it caused an extremely terrifying movement in the outside world.

[Chapter 688: Elementary Valkyrie Realm](#)

The space around Su Lang was instantly covered with cobweb-like traces.

A trace of the power of the gray-white space overflowed, like being attracted by a black hole, rushing into Su Lang's Dantian.

To be precise, it rushed into the collapsed singularity.

Viewed from a distance, this scene is like Su Lang smashing the space, absorbing the power of the space between heaven and earth!

The same situation also happened to Li Xianyang.

Before Qian Zihou died.

He was dispatched by Su Lang to prevent accidents.

At this time Li Xiangyang was in an uninhabited wilderness.

Singularities also appeared in his body, and dense spatial cracks also appeared around his body.

Everything is in sync with what happened to Su Lang!

"this is!?"

"The master is about to break through to the realm of Martial God!"

Li Xianyang looked at the changes in his dantian and surroundings, with a deep surprise on his face.

And it was not the realm of Valkyrie that surprised him.

He had already reached this state, even if he was happy, he would not be surprised.

What shocked him was that it didn't take long for Su Lang to break through the peak of Wu Zun, before he broke through again.

And this time it was still a big state.

The time between two breakthroughs has even become shorter!

This is incredible.

"The master's cultivation speed is too fierce."

"When I followed the Lord, he was at the peak of the Martial Emperor Realm."

"It hasn't been a few days since then, and it has started to break through the Valkyrie!"

Li Xianyang felt his heart beating wildly, "At this speed, it won't take long for me to return to the realm of Martial Saint, and even to be promoted to Wuxian!"

Li Xianyang was trembling all over, too excited.

The other side.

Su Lang is still focusing on breaking through.

After the singularity in the dantian collapsed, it has been absorbing the power of the space to form the Wushen space.

However, the absorption of Reiki did not fall.

The aura within tens of thousands of miles rushed to Su Lang like a shark smelling blood.

Not only that, Su Lang also took out a large amount of pill plugs into the import, and the whole body was surrounded by a large number of ups and downs of the best spirit jade.

The countless aura almost turned into liquid, submerging Su Lang in it.

Time passed slowly.

A quarter of an hour passed in a blink of an eye.

The cobweb-shaped space cracks that were densely covered by Su Lang have gradually disappeared.

Singularity has absorbed enough space power.

next moment.

The collapsed state of the singularity suddenly changed, and it suddenly expanded.

The interior of Singularity has undergone earth-shaking changes.

A strange space condenses.

In layman's terms, the small singularity in the dantian is like a strange 'egg'.

It has an eggshell, which is the edge of the singularity.

The egg yolk is a completely formed internal space!

This piece of internal space is about 1,000 cubic meters, which can store a large number of items.

Between the 'egg shell' and the 'egg yolk' is a chaotic space, filled with the power of gray space and the strange energy of hundreds of attributes.

Those singular energies are the source of the enhancement of the Valkyrie Domain to the Valkyrie.

Ordinary martial gods practice one master technique, two or three god-level techniques, and the energy in the domain has only a few attributes.

But Su Lang had practiced hundreds of exercises, and he had practiced ten of them just for God-level exercises.

And these exercises are all founding level and perfection level.

This makes the energy types in Su Lang's Martial God Realm particularly numerous, and the amount is very huge, almost reaching hundreds of thousands of times that of ordinary primary Martial God.

The most important thing is that these energies can be perfectly integrated without interference with each other.

Even if Su Lang's own real combat power has reached Martial Saint, once the Martial God Domain is launched, he can still increase his combat power to a certain extent.

At this moment.

Su Lang then expanded his Valkyrie Domain to measure the effect of the increase.

I saw the colorful Martial God Realm spread out from Su Lang, occupying a radius of several thousand meters.

In the realm, hundreds of strange energies gathered around Su Lang like hundreds of rivers into the sea.

[Chapter 689: You spend me 100 million!](#)

"I rub, this colorful, like a peacock..."

Su Lang frowned and curled his lips, and immediately began to feel the increase in the Martial God Realm.

"Well, although the color is not very pleasing."

Su Lang nodded in satisfaction, "But the effect of the increase is still very good. It probably doubled my combat power."

An ordinary Valkyrie can also increase its combat power by a fifth in its own domain.

But Su Lang's Valkyrie domain has tripled!

You must know that Su Lang's real combat power is one-star martial arts level.

The increase is twice, even if it can't reach the level of the two-star martial arts, it is also a very good beneficial buff.

And just as Su Lang nodded.

Another system prompt sounded.

"Ding! The gold rules have been understood, do you accept it?"

After understanding the rules of the water system, Su Lang readily specified the rules of the understanding.

It took 16 hours to comprehend a rule.

Now it only takes 4 hours to upgrade to two levels!

Four hours to comprehend a rule, this is known by those martial sages, I don't know if they will doubt life, vomit blood and die.

"System, accept the golden rules, and begin to comprehend the wood rules!"

Su Lang gave an order, and countless blade-like rays of light suddenly appeared around his body.

These lights are like sharp blades and light as feathers, so they are very strange.

But Su Lang knew that as long as there was no rule power below the Martial Saint level, it would be cut into two with a light touch.

This is the horror of gold rules.

"With the rules of the gold system, the various swordsmanships I have cultivated can be greatly increased, and I don't know how much my combat power is now."

While thinking, Su Lang opened the attribute panel to see his status more intuitively.

"Counting the cultivation base realm, the gold rules, and the Valkyrie domain bonus, will my attack realm increase by a small realm?"

Su Lang raised his brows, "It seems that it is more difficult to improve the combat power of the Martial Saint Realm than before."

After reading the property panel, Su Lang turned it off.

Then, his attention fell on the new feature 'one-key empowerment'.

"This is the biggest gain!"

"Just the first bonus feature, 'Cultivation Base Enlightenment' is enough to be abnormal. You can get new features every 5 levels!"

Su Lang licked his lips excitedly, and immediately ordered: "System, upgrade the one-key empowerment function!"

"Ding! Consuming 100 million superb spirit jade, the one-key empowerment function has been upgraded to level 2, the current empowerment efficiency has been increased to 20%, and the number of initiations per day has been increased to 2!"

"Not bad!"

Su Lang nodded in satisfaction.

But suddenly he found something wrong.

"What!?"

"Upgrading from level 1 to level 2, you spent 100 million superb spirit jade!!!"

Su Lang was dumbfounded, dumbfounded, and his face was dull.

[Chapter 690: Youtian Sword](#)

The tenth function starts with 100 million superb jade!

This is so amazing, it's almost equivalent to all the 'cash' in a hundred quasi immortals!

"This consumption is too much!"

"In the beginning, it was 100 million, and every time I was promoted, I would have to double it tenfold. I'll go, gold swallowing beast, full gold swallowing beast!"

Su Lang took a deep breath.

The consumption of this key empowerment function is really abnormal.

But fortunately, the ability of this function is also abnormal, and its development prospects are very scary.

In addition.

Other gains also made Su Lang very excited, without feeling unhappy.

Look at the other gains.

The first is the soul of a junior Wuxian!

The second is a total of eighty-five copies of Wusheng Soul, as well as a large number of fairy-level materials and countless saint-level materials.

"The system, only retains the current characteristics, and is promoted to Youtian Sword!"

Su Lang took the Youtian Sword out of the storage space and ordered the promotion without hesitation.

"Ding! Consume the fairy-level material Xuanming Lihuaxin*1, the holy refining material Bingfeng Tianwu stone*30, Tianyue holy soil*30, misty sacred lotus petals*30, jade girl long hate stone*36, drunken dream sky Zeyu*36, Qinghui Magic Amethyst*36, Soul of Wusheng*10, Soul of Valkyrie*20...The Youtian Sword has evolved into a quasi-immortal weapon!"

I saw a strange light flashing from Youtian Jianjian.

The sword body on the white background became more and more crystal clear, but it did not become translucent, quite strange.

The black lines became more and more, but they became much thinner, like a white sword with countless black capillaries growing densely, which looked a bit evil.

The power of a large number of rules lingered on the Youtian Sword.

The space around the sword body formed an illusion of uncertainty due to the power of these strong rules.

These illusions are like clean and straight cracks, simple to the extreme, but they contain a very scary atmosphere.

"Quasi fairy weapon Youtian sword!"

"It gives me the feeling that this sword has reached the limit of my control."

"If I continue to be promoted, I am afraid I will not be able to hold it with my hands!"

"Not only that, but I might have been injured by the fairy weapon level Youtian Sword."

Su Lang felt the Youtian Sword carefully, thinking silently in his heart.

However, although Youtian Sword cannot be promoted again temporarily, its power is not weak!

At this time, the Youtian Sword has reached the pinnacle of the quasi-immortal weapon, because its characteristics are blessed to the extreme, so its power is not weaker than a primary fairy weapon.

Compared with the primary fairy weapon, the Youtian Sword just has no weapon spirit.

With such a powerful power, a Wuxian like Qian Zihou would definitely be killed instantly if he was successfully attacked by Su Lang.

This level is completely enough for Su Lang.

Promoted to the Youtian Sword, Su Lang continued to evolve the Jiexian Cannon.

Not long after the JXian Cannon evolved, it ushered in its second evolution!

"Ding! Consumes immortal grade materials, extremely cold dry immortal soil*10, red rainbow mysterious magic stone*10, Yianduy insect jade*10, Ruyi Chongxiaomu*20, empty cicada heavy soil*50...

Saint-level refining material: Soul of Wusheng*20, Sacred Rock of Blue Frost*60, Gale Ghost Jade*60, Dark Cloudy Sky Stone*60, Explosive Blue Crystal*60...

JXian Cannon has evolved successfully! "

"With the 'material reduction' function, it actually consumes so much material, it's really scary!"

Su Lang took out the Jiexian Cannon after the evolution, and found that although its level did not break through the primary immortal weapon level, its power had been upgraded from the Second Tribulation Wuxian to the Three Tribulations Wuxian.

Of course, the consumption of the JXian Cannon when launching an attack has become more terrifying.

Su Lang was completely unable to use his spiritual power as an energy source to launch an attack on things like the Jixian Cannon.

Can only urge the Jixian Cannon, consume the spirit jade to launch an attack.

When Qian Zihou was killed before, the Jixian Cannon fired two shots, each time consuming a full two million of the best spirit jade.

Two times, a total of four million superb spirit jade was consumed!

Four million superb spirit jade.

Even the four quasi immortals don't have so many spirit jade on them.

Had it not been for Su Lang to kill 35 people including Zhu Qi and the quasi-Xian Wusheng under Qian Zihou's command, he really didn't have that many spirit jade to fire.

However, the results are very gratifying, the harvest has also doubled crazily, and Su Lang is not losing money.
