[Chapter 701: The wood rules have been understood](#)

"Well, I must become the empress!"

Chu Xiaobei's expression condensed, very serious and solemn.

"Immortal Soul Pill is enough for you now."

"I'll give you some more pills for cultivation and body forging."

Su Lang took out three bottles of pills and handed them to Chu Xiaobei.

These three bottles of medicine are all three kinds of elixir of Three Tribulations, which are three types of cultivation, body forging, and breaking realm. Each bottle contains a full ten!

"Then I will accept it."

Chu Xiaobei didn't say any words of thanks, and sometimes everything was silent.

"correct."

"I still owe you an initiation."

Su Lang patted Chu Xiaobei on the head, "You practice first, I will save the cultivation base, and the storage will surprise you."

"I just want to experience it, don't give me all your cultivation skills."

Chu Xiaobei wrinkled Qiong's nose in shame, "Just your Valkyrie level cultivation base, be careful to be sucked dry by me!"

"Haha!"

"I look forward to the day when you squeeze me out!"

Su Lang laughed, and immediately turned and flew away.

"Huh, it really doesn't change sexuality, pervert, pervert..."

Chu Xiaobei glared beautifully, whispered a few words in a low voice, but did not pursue Su Lang.

Here.

After Su Lang and Chu Xiaobei separated, they went to find Ji Ruxue and Murong Xianxian.

But both women are still consolidating their cultivation.

Su Lang was inconvenient to interrupt, so he randomly found a retreat room and began to retreat.

Others retreat for cultivation.

Su Lang is not the case, he was for a plan that was a bit nasty before.

The basis for the implementation of this plan is the huge number of Wu Sheng.

The martial artist of the martial sage level has mastered the power of the rules and is a relatively advanced martial art realm.

Starting from Wu Sheng, to Wuxian, Wudi level.

In fact, they are all practicing the power of rules.

Therefore, if there is a way to concentrate the power of Martial Saint, to a certain extent, it can be transformed into a qualitative change.

Su Lang's plan is to refine a super powerful weapon, gather the power of many martial sages, and form a terrifying martial arts power, even... Emperor Wu! !

"Warrior is composed of countless cells."

"The sea of the sky, and even the Jixian Cannon, are composed of many parts."

"There is a lot in common between the two. If the parts and Wusheng are used as cells, it may be possible to create an unprecedented powerful humanoid weapon."

"..."

Su Lang thought silently, and immediately took out a large number of forging classics and many corpses of warriors.

He wants to study the mystery of the martial artist's body.

It doesn't need to be too deep, just understand the more detailed structure of the martial artist's body.

Time passed slowly.

Two hours passed in a blink of an eye.

A system prompt came.

"Ding! The wood rules have been understood, do you accept it?"

"receive!"

Su Lang gave the order and immediately felt that he had mastered the rules of the wood system.

Of course, this is only a rough wood rule, including the previously understood golden water and fire thunder, they have not understood the deeper derivative rules.

Take wood rules for example.

In fact, the wood system also has the rules of life and death.

But Su Lang gains the power to rule at this time, which can only greatly increase his spiritual power reserve and vitality.

The rest of the abilities derived from the rules of the wood system cannot be mastered.

To break through from Wu Sheng to Wu Xian, you need to comprehend more complete rules, which contains the basic rules such as the Five Elements.

These rules form the framework of the inner boundary, and then fill the inner boundary with the substances in the universe as flesh and blood.

Derivative rules are rules that most martial sages cannot understand, because they are too obscure and not easy to manifest.

Most Wuxians broke through to the realm of Wuxian after comprehending the basic rules.

In this way, the inner boundary is relatively crude and fragile, and it is not easy to form a real life world, which hinders the subsequent cultivation and development.

But even to understand the basic rules, it is already very difficult.

It is no longer easy to understand the basic rules and form the lowest-level inner frame.

No one knows how many martial sages can't even perfect the power of the basic rules, and in the end they can't break through to the martial arts.

So it's not that those Wuxians don't want to, but they don't have time and energy to spend on it.

[Chapter 702: Five founding holy skills](#)

But Su Lang is different.

At this time, his one-key practice rate has reached more than 22 million times that of the indispensable genius.

It only takes four hours to understand a rough basic rule!

"I want to break through Wuxian's words."

"You must understand the rules more, so that after entering the realm of Wuxian, you will be able to pass unimpeded and be more capable of superior combat power."

While thinking, Su Lang gave instructions and began to comprehend the rules of the earth system.

Immediately after.

He once again focused on studying the structure of the martial artist.

However, before he could study it long, another system reminder came.

"Ding! The sea of repair is full, do you break through?"

"Don't break through for now, keep it."

Su Lang issued instructions to continue studying the human body.

Time to shuttle.

Two days passed in a blink of an eye!

Within these two days.

Su Lang comprehended a total of twelve new rules!

It includes soil, wind, poison, and derivative rules of various basic rules.

For example, water-derived rules freeze and wear away, wood-derived rules wither and grow, etc., gold-derived rules are hard and tough, and fire-derived rules explode... and so on.

These derived rules may seem like trivialities, but they are actually very useful.

Because Wuxian wants to perfect the inner world, any seemingly useless rules are difficult to discard in the end.

In fact, Su Lang really wanted to understand the rules of spirit, space, and time.

Unfortunately, he did not practice the corresponding exercises.

It is necessary to have the corresponding attribute of the exercises in order to understand the rules.

In addition to the power of rules.

The cultivation base accumulated in the sea of cultivation base is even more terrifying.

For two full days, 48 hours, calculated at a magnification of 22 million, it is equivalent to a Valkyrie with no lack of qualifications for 120,000 years without any auxiliary means!

However, these cultivation base Su Lang was going to save it to Chu Xiaobei.

So there is no breakthrough for the time being.

"Martial artist's body structure is basically clear."

"The envisioned super weapon can begin to be refined."

Su Lang opened his eyes, took out the saint cauldron, and began to refine the first'cell'.

But at this moment.

"Ding! "Water Martian Elephant Scroll" has reached the founding level!"

"Ding! "Nine Stars Purple Rainbow Fantasy" has reached the founding level!"

"Ding! "Black Flame True Sage Profound Book" has reached the founding level!"

"Ding! "The True Scripture of Water Mirror Thousand Reds" has reached the founding level!"

"Ding! "The Secret of Soul Seed Heart" has reached the founding level!"

Su Lang's movements stagnated, and his eyes closed abruptly on the ground.

In his mind, a lot of information about the five holy level exercises emerged.

In addition, various strange and indescribable energies appeared in Su Lang's body out of thin air and merged into his body.

In an instant, Su Lang had mastered these five holy level techniques like instinct.

among them.

"Water and Mars Elephant Sacred Scroll" is a powerful dual-attribute holy level technique that uses the power of water and fire conflict to form a more terrifying annihilation force.

"Water Mirror Thousand Red True Scripture" and "Black Flame True Sage Profound Book" are also water and fire techniques, each with its own characteristics.

Cooperating with the law of water and fire that Su Lang has understood, an extremely powerful attack will erupt.

"Nine Stars Purple Rainbow Phantom", as the name suggests, this is a magical technique with a very high level. Once it reaches the founding level, it is difficult for even ordinary martial arts to find clues.

"The Secret of Soul Seed Heart", derived from Li Xianyang's secret method, can make the martial artist's sea of consciousness contain more soul fire without any side effects.

In addition, there are other effects.

For example, even if a warrior has a heart of resistance, but the power of resistance is weak to a certain level, the cultivator can directly draw the soul fire, but doing so will cause irreparable damage to the drawn person.

In addition, the cultivator can extract the spiritual power of the servant through the soul fire, which is very evil.

If the cultivator is willing, he can also feed his spiritual power back to his servants.

Su Lang cultivated the "Secret of the Soul Seed Heart" for the soul fire of the martial sages. The weapon secret is an important part of Su Lang's "Super Weapon" plan.

[Chapter 703: Twenty-two fairy-level exercises](#)

"Super Weapon" is very important.

Su Lang must ensure that the servants who control the 'Super Weapon' will never have any wrong intentions.

The soul's heart and fire are sealed in the ghost Xuanyu banner, and of course, you can feel the emotion of the servant.

But how can one put the soul's heart into the sea of consciousness to observe more accurately?

"The soul of the soul in Xuanyu Banner can be transferred."

Su Lang murmured, and immediately took out the Yinhun Xuanyu Banner, and used the secret method to take out the tens of thousands of souls in it and put it into the sea of knowledge.

At this moment.

In Su Lang's sea of consciousness, under that round of Huiyue-level spiritual aura, there were densely packed souls and phantoms.

Each one is a powerful Martial Saint!

A lot of mixed mood swings came, if it was an ordinary martial sage, long time ago, let alone practice, it would be good not to go crazy.

But Su Lang possesses the "Secret of Soul Seed Heart", and his passive ability can deal with these mixed emotions.

Let Su Lang not be affected at all.

"From now on, as long as the servants are subdued, all souls can be put into the sea of knowledge."

"Although this secret method is only a holy rank, it is estimated that it will not be a problem to continue to use it, even if it is effective for Wuxian's soul..."

Su Lang pondered silently, and then issued an instruction, "System, call up my attribute panel."

"The attack realm increased by two stars, and the physical state realm increased by one star."

"In the martial arts stage, every star is a huge gap. It is already very good to have such a rise in combat power."

The corners of Su Lang's mouth raised slightly, obviously in a very happy mood.

"Next, it's time to choose exercises again."

Su Lang focused his attention on the storage space.

After beheading Qian Zihou and others, he seized a lot of exercises.

You must know that those who were killed were all great sages and quasi-sages, and everyone had also practiced at least three holy-level exercises and a large number of god-level exercises.

In addition, he also obtained a fairy-level exercise from Qian Zihou, called "Huanhai Polangxian Jue".

In addition to the previous exercises, Su Lang already possessed 830 god-level exercises, 186 holy-level exercises, and four immortal-level exercises.

Among them, it's not even Chu Xiaobei's "Bing Yuxian Yuan Zhenlu".

Of course, Chu Xiaobei's, isn't that Su Lang's?

Sooner or later.

"System, perform Gongfa synthesis!"

Su Lang took a deep breath, and then succeeded again and again.

830 kinds of 'natural' god-level exercises are combined into 83 'composite' holy-level exercises.

One hundred and eighty-six kinds of 'natural' holy-level exercises are collectively called 18 'composite' immortal-level exercises!

At this moment.

Su Lang has a total of 22 kinds of exercises at the immortal level alone!

[Chapter 704: The one hundred and four sacred objects are all broken down](#)

"Tsk tut!"

"The average immortal clan is just an immortal-level technique to support the facade."

"My twenty-two immortal-level techniques, I'm afraid only the emperor has it."

Su Lang smiled blankly, "It's a pity, now it takes too much time to practice the immortal-level exercises, otherwise I must practice all the immortal-level exercises."

Next.

Su Lang selected five sacred sword arts.

They are "Sacred Sword of Heavenly Fire and Refreshing Wind", "Recording of the Burning Sword Sword", "Sword Formation of Fierce Demon God Universe", "Light Cloud Pointing Star Sword Art", "Xuanguang Changhong Sword Picture".

"Two days later, there are five holy level exercises again!"

The corner of Su Lang's mouth twitched and a smile appeared.

Immediately afterwards, his gaze fell on the ghost Xuanyu Banner in his hand.

"This thing is completely useless."

"And even if you want to use it in the future, it can be refined directly, and you can save half of the materials!"

Su Lang pondered for a while and ordered, "System, disassemble this sacred artifact."

"Ding! Decompose the elementary sacred tool, the ghost Xuanyu Banner*1, and you will get the Soul of Wusheng*2..."

The system prompt came, and a sacred artifact became material in this way.

I don't know if those martial sages who don't have a sacred weapon will feel distressed to twitch when they see this scene.

At the same time, Su Lang listened to the system prompt, his eyes lit up suddenly.

"Lying down!?"

"This sacred weapon actually decomposed into the soul of Martial Saint?"

"Who did this, dare to use two copies of the soul of Martial Saint to refine the sacred artifacts!?"

He only needs the Soul of Valkyrie to refine the sacred artifacts, and the Soul of Wusheng is used to promote the Immortal artifacts!

Su Lang only did it once to refine the sacred artifact with the Soul of Wu Sheng, to refine the flying sacred artifact Xiao Bai for Chu Xiaobei.

And that time only a piece of Wusheng Soul was used.

"I'm making a big slot."

"I don't know if the other sacred artifacts are also like this."

Su Lang's eyes lighted up, and immediately took out a hundred and four sacred artifacts from the storage space.

These ninety sacrificial artifacts all come from the martial sages of the Tuantian Tower.

These guys are all at the level of Great Sage and Quasi-Xiang, and each has at least one sacred artifact, and many people have two!

I have to say that they are really fat, and Su Lang's mouth is greasy.

"System, disassemble all these sacred artifacts for me!"

Su Lang took a deep breath and shouted with glowing eyes.

"Ding! Decompose the high-level sacred artifacts, Tuoyue Chongxu Pagoda*1, and you will get the Soul of Wusheng*8, the fairy-level materials...the Holy-level materials...the God-level materials, the soul of the Wushen*23... "

"Ding! Decompose the middle-level sacred instrument Liucui Xuanyu robe*1, and you will get the soul of Wusheng*5, fairy-level materials..."

"Ding! Decompose the primary sacred weapon flying snake chain armor*1, you will get the soul of Wusheng*3, holy material..."

"..."

Soon, all the sacred artifacts were broken down by Su Lang!

Su Lang got a total of 563 copies of the Soul of Wu Sheng, and more of the Soul of Wu Shen, with 2,300 copies!

In addition, there are some fairy-level materials, and a lot of holy-level materials!

Tian Le, I don't know who did it, but to use immortal-level materials to refine the sacred artifacts is completely violent!

And the most important thing is.

The materials used in these sacred artifacts are really too much.

A holy artifact uses the soul of martial arts and immortal-level materials, and the holy-level materials are added to it like no money.

"I don't know which waste refiner did it, it's not human."

Su Lang rolled his eyes, expressing extreme contempt for those Saint-level refining masters with low refining attainments.

Poor those Saint-level refining masters, not to mention that their own work has been broken down, and their refining skills have been severely despised.

I don't know if they know if they will vomit blood with anger.

"Hehe."

"With these materials, the progress of my super weapon project can be greatly accelerated!"

Su Lang licked his lips excitedly, then took out a lot of ingredients and began to refine the 'cells'.

The so-called "cells" are parts.

Su Lang wanted to refine countless 'cells' to form a humanoid weapon.

This humanoid weapon has dantian, meridians, bones, muscles, and even the sea of consciousness!

What the warrior has, it has it!

And its size, perhaps will stand upright!

[Chapter 705: Hidden Killing Feixu Tengtian's Love](#)

Just when Su Lang was refining the 'Super Humanoid Weapon'.

In the distant Headquarters of Tuantian Tower, Yin Sha Wuxian and the three of them were sitting in a secret room, frowning, their faces sinking like water.

Except for hidden killing Wuxian, the other three are all Wuxian.

Feixu Wuxian, One Tribulation Wuxian, Tengtian Wuxian, Two Tribulations Wuxian, Diqing Wuxian, Three Tribulations Wuxian.

Among them, Wuxian Feixu was a man with long sleeves and fluttering, as light as nothing, but this man looked very damn, and his temperament was cold, like a poisonous snake.

Wuxian Tengtian, with knotted muscles, is a muscular man like Chiri Ozhu, but he has long hair soaring to the sky, and he is domineering.

Junqing Wuxian, expressionless, without the slightest emotional fluctuation in his eyes, just like a puppet.

Three days ago.

The news that Qian Zihou and Zhu Qi died of a total of 87 people was known by Lu Tianlou.

After all, it is a quasi-emperor-level killer organization, and there are not only many things like Mingpai, but also more lofty.

After getting the news.

Everyone in Tuantian Tower was furious.

Since the ancient wars, the Slaughter Sky Tower has never suffered such a heavy loss!

A generation of Wuxian Qian Zihou.

There are also more than 20 quasi immortals and more than 60 great sages, which are the mainstay of the tower of the sky.

These powers can be taken out at will, and they can crush any holy race, and ordinary immortals must be vigilant when they see it.

But it was such a powerful force that it was unclear that it was in the hands of an unknown little figure like Su Lang, and died in this small place of Yaochi Clan.

At that time, Wuxian Tengtian was about to take people to the Yaochi Clan to find Su Lang's trouble, but he was immediately stopped by the other three.

Qian Zihou died so fast that he didn't even send out the help message, it was as if he was killed by a spike.

To be able to kill a Wuxian of One Tribulation in a second, the last time it takes a Wuxian of Two Tribulations can do it.

Moreover, Yin Sha and others cannot rule out whether it was only the Second Tribulation Martial Immortal who killed Qian Zihou, in case it was the Third Tribulations Martial Immortal, or even the Fourth Tribulations Martial Immortal! ?

Even if the opponent has the Five Tribulations Martial Immortal, isn't he going to die? ?

Therefore, after the initial anger, Wuxian Tengtian and others calmed down and began investigating the death of Qian Zihou.

They sent a large number of inconspicuous manpower into the Yaochi area to investigate the truth.

Although Su Lang also ordered the strict prevention of the infiltration of the Tuantian Tower, the Tuantian Tower was after all a quasi-emperor-level killer organization.

They are professional!

The manpower sent by Su Lang was far short of this.

Therefore, it took three days for Tuantian Tower, not only to restore the cause of the death of many Wu Sheng, but also to find the battlefield where Qian Zihou died.

Although Su Lang dispatched a clone to clean up the battlefield, the intelligence experts from Tuantianlou still couldn't help it.

From that battlefield, they inferred that Qian Zihou was killed by an attack at the level of the Second Tribulation Martial Immortal.

Moreover, it was also found out that it was some kind of weapon that killed Qian Zihou, not Wuxian.

Because they did not find the unique aura of Wuxian from the remaining fighting aura, but only the pure heaven and earth aura.

You must know that every warrior has its own unique aura, which is contained in the bloodline and spiritual energy and even the spiritual power, which is difficult to conceal.

In front of the Li Tianlou, there was nothing to hide.

But the attack that killed Qian Zihou didn't have the unique breath of warriors.

This means that this attack is a direct conversion of heaven and earth aura, or an attack that uses spirit jade to urge it to perform.

In this case, most of them are using some kind of weapon.

And the need for such a method to kill Qian Zihou does not mean that the person who does it does not have the strength to fight Qian Zihou! ?

After some inferences.

Yinsha, Feixu, Tengtian, and Duanqing thought that Su Lang did not have a master of martial arts, but possessed another powerful fairy weapon.

Because Su Lang originally had the deeds of refining the sea of the sky, it would be easy to understand if he possessed a fairy artifact.

[Chapter 706: Emperor head forbidden land!](#)

I have to say that the information system of the Slaughter Tower is indeed powerful.

Within a short period of time, an incident was analyzed close to the facts.

"This son Su Lang is really amazing. He actually refined a kind of immortal weapon that can be activated only by the martial sage, and can also kill the martial immortal. It is unprecedented!"

Yin Sha Wuxian said with emotion, "If this kind of talent is brought into the control of Tuantianlou, our strength will definitely advance by leaps and bounds."

"What's the use of saying these now."

Feixu Wuxian said coldly, "Qian Zihou was killed by Su Lang. We already have an antagonism between us. He must pay the price of blood."

"Feixu is right."

"The Canglan Continent has never lacked genius, nor has it lacked strange people and strangers."

"We have offended and killed us, but even if Su Lang is useful, he must be killed!"

"Otherwise... wouldn't it be someone who has the ability to scratch our beards and touch our buttocks?"

"In that case, where is our majesty and face in Slaughter Tower!?"

Tengtian Wuxian's complexion turned red, his eyes burst out with a strong killing intent, and the surrounding space was slightly distorted because of his anger.

"Su Lang, must die."

Wuxian Duanqing also spoke, and his voice was also indifferent and ruthless, like an ice stone.

"But news just came from the emperor's forbidden area, let us all support it."

Hidden Killer Wuxian had a look and hesitated, "It can be seen that they are under a lot of pressure in the first seat, and the situation is not optimistic.

The emperor's forbidden land is related to the hope of the first emperor. Should we put aside the things here first? "

The emperor's forbidden area is a forbidden area formed by the head of a Ninth Rank Wudi who died in the battle of the mainland in the ancient times.

In addition, there are five forbidden areas, which are formed by the arms, legs, and torso of Emperor Wudi Nine Turns.

The Emperor Wudi of Nine Revolutions was the most powerful Emperor Wudi in the Canglan Continent for thousands of years.

When that was the case, Canglan Continent and Jingtian Continent went to war, and the Ninth Rank Wudi of both sides died together.

Since then, the Nine Ranked Martial Emperor has never appeared on the Canglan Continent.

After the death of the Nine Revolutionary Wudi, he used secret methods to divide his corpse and the universe of life that he had conceived into five parts, forming five forbidden areas.

He left the forbidden key to future generations to compete.

As long as you get the forbidden key, you can enter the forbidden area to explore the opportunities.

And these five forbidden lands are covered by the power of a special avenue, and Emperor Wu is not allowed to enter.

Once Emperor Wu forcefully breaks through, the forbidden area will self-destruct, and the separated life universe and Emperor Wu inheritance will also be wiped out.

In addition, the death of Emperor Wudi of Nine Revolutions was tragic and praised by others, so those who survived all uphold the will of Emperor Wudi of Nine Revolutions, not only restrained themselves from competing for the chance to become an emperor, but also ordered their own people not to participate.

The imperial forces are not allowed to participate in the exploration of the forbidden land of Emperor Wudi of the Ninth Revolution.

Once someone violates it, it will immediately be targeted.

Closer to home.

The five forbidden areas left by Emperor Wu of the Ninth Revolution can be accessed by anyone below Emperor Wu.

The forbidden area is extremely dangerous, even if Wuxian breaks in, there will be life concerns.

However, these five forbidden areas also represent the inheritance of Emperor Wudi of the Ninth Revolution, and represent the chance of becoming emperor.

In addition, these five forbidden lands have had the opportunity of becoming emperor from the four forbidden lands to be taken away, thus creating the four martial emperors in the world today.

At this time, the six inheritances left by the Ninth Rank emperor were left with the emperor's head and emperor body.

The competition has become more intense.

Therefore, once the forbidden key appears, it will cause a **** storm and a huge wave, and countless forces will take action to seize the key.

Not long ago.

The emperor's forbidden land key appeared, and countless people died for it, and even the fairy clan was destroyed.

In the end, there were only two forces competing for the Forbidden Land Key. One was the quasi-emperor organization, Tuantianlou, and the other was the quasi-emperor force, the Yongye Immortal Clan!

In order to compete for the key to the emperor's forbidden land.

The strength of the two sides has been fighting for many years, and almost all of their strength has been involved in it.

It is precisely because of this that there are only three or two big cats and kittens in the headquarter of Tuantian Tower, because the real main force is participating in the competition for the forbidden key.

In addition, because too much effort has been devoted, if any third-party forces join in, they will be expelled by the joint efforts of Tuantianlou and Yongye Immortal Clan.

[Chapter 707: Three full days](#)

Therefore, even if the other forces covet the emperor's forbidden land, they can only find another opportunity.

By this time, the battle between Tuantianlou and Yongye Immortal Clan had reached its peak, and the masters of both sides made all the shots, and it was time to decide the victory or defeat.

Secretly, I don't know how many forces are staring at Tuantianlou and Yongye Immortal Clan.

Many of them were secretly instructed by certain imperial forces.

For the emperor's forbidden land, the Canglan Continent at this time can be described as undercurrents.

It is precisely because of this that the Hidden Killer Wuxian proposed to support the main force first, and wait until the dust settles on the forbidden land of the emperor, and then come to Su Lang's trouble.

However, some people think otherwise.

"It's just a Wusheng-level force, what's to be afraid of."

"That Su Lang's offensive immortal weapon is only at the Second Tribulation Martial Immortal level. I'm afraid it would be hard to kill me!"

Wuxian Tengtian sneered, "What's more, there are four of us, and there are adults who are not in love. Can Su Lang stop this?"

"Jie Jie Jie!"

"Tengtian is right."

"Su Lang, to put it bluntly, is a waste that relies on external forces. As long as his fairy tools don't work, it's our fish meat."

Wuxu Feixu also showed sarcasm and murderous intent. "The four of us will kill him together. It will never take much time."

"Yes, well said!"

Tengtian laughed loudly, "Let's kill the Su Lang stray first, and then support the first ones, otherwise my heart is always unhappy, it's like a throat!"

Having said this, he stood up abruptly, his eyes bursting with terrifying murderous intent.

If it weren't for the martial arts all around, just this murderous aura could kill a large group of people!

"Both adults think we can kill Su Lang first..."

Yin Killing Wuxian groaned and looked at Wuxian Duanqing, "What does Master Duanqing mean?"

"Half a day, kill Su Lang."

There was not a trace of fluctuation in the expression of severing love, and there was not a trace of emotion in the voice.

"Then go now!"

Teng Tian couldn't wait to say, "By the way, with your subordinates, you can form a thousand sage slaughter immortal formations, and add another Wuxian-level combat power!"

"Well, for a quick decision, take your subordinates."

Wuxu Feixu smiled like a snake, "I can't help but see Su Lang's dying struggle!"

"go!"

A short word popped out of Wuxian Duanqing's mouth and got up and walked outside the secret room.

Not long.

A total of two hundred Great Sage level Great Sage level Slaughter Tower killers were summoned.

They stood under the four great martial immortals, including the hidden killer, with serious faces and bowed heads.

"set off!"

Following the order of the Wuxian Duanqing, the four great martial arts and the two hundred martial arts sages slammed into the Yaochi saints aggressively.

And on this occasion.

Su Lang has refined thousands of 'cell' parts for 'super humanoid weapons'.

After beheading Qian Zihou and others, and decomposing more than 100 sacred artifacts, Su Lang now has more than 600 copies of the soul of the Martial God, and nearly 3,000 copies of the soul of the Martial God!

Using the soul of the **** of war, you can make immortal tools, and the soul of the **** of war can make holy tools.

Therefore, Su Lang refines all very important 'parts' into the immortal level.

However, all of these immortal artifacts only used a martial sage soul, and like the fairy-level meteorite thunder, a complete artifact spirit has not yet been born.

In the plan, the 'parts' of the Dantian meridians and muscles and bones of the Sea of Consciousness are all of the immortal level.

There are more than two hundred bone parts alone.

Su Lang predicted that the number of fairy artifact parts to be refined should reach more than 900.

In addition, there are tens of thousands of holy parts, and there are countless god-level parts.

"From the current materials, to complete the super humanoid weapon plan, there is still a lot of material shortage."

"I don't know what the **** is Lu Tianlou doing, for three days, for three whole days, they haven't come to beat me."

Su Lang put down a holy part in his hand and sighed slightly.

At this time, another system prompt came.

"Ding! The spiritual rules have been understood, do you accept it?"

"It's another rule, good news!"

The corner of Su Lang's mouth was very happy.

The spiritual rules can be understood after completing the training of the soul secrets.

At that time, Su Lang immediately designated to comprehend this rule.

In less than four hours, the power of the rules is at hand, although it is only the most superficial spiritual rules.

[Chapter 708: Comprehend spiritual rules](#)

"System, accept the spiritual rules!"

Su Lang moved in his heart and gave instructions.

In the next moment, he felt the power of strange rules appearing in the sea of consciousness out of thin air.

This mysterious power instantly increased Su Lang's mental strength by more than ten times, and it also produced various magical effects.

At this time, Su Lang's spiritual perception range had reached a vast range of hundreds of millions of miles.

In addition, his spiritual defense ability has been elevated to an extremely terrifying level.

Unless you practice a special technique, unless you use your spiritual treasure to fight, it's not as good as using two-handed devices to fight close.

But now that Su Lang is within ten thousand miles, even if he fights with a spiritual imperial item, he is no less inferior to holding the Youtian Sword with his own hands.

"Lying down, this is equivalent to increasing my close attack range to thousands of miles!"

Su Lang's eyes brightened with excitement, "Not bad, not bad, this rule is really good!"

Immediately after.

He specified the next rule-Yin rule!

Yin rules are the former of Yin and Yang rules.

This rule involves a wide range, even with life, spirit and soul.

And Su Lang chose this rule, one is to cooperate with "Nine Stars Purple Rainbow Fantasy Book" and "Shen Luo Wanxiang Jue", and the other is to prepare for the practice of "Nine Revolving Immortal Sun True Jue".

"Ding! Yin rules have begun to comprehend!"

"With this rule, my combat power will definitely increase!"

Su Lang hooked his mouth and gave a dark compliment, then let go of his mental power and felt the range of mental detection.

Sure enough, everything within hundreds of millions of miles is well understood!

Su Lang happily put away his mental power perception, and then used the 'perception sharing' function to share the avatars and various treasure hunting flying flying gliders.

"I haven't come to trouble me for three days."

"According to the virtues of Tutianlou, it shouldn't be! What the **** are they doing?"

Su Lang muttered, generally looking at the shared avatar perception.

at this time.

The range of his mental perception has reached hundreds of millions of miles.

The mental perceptions of the twenty-three clones and twenty-three clone incarnations also reached hundreds of millions of miles.

Plus there are more than 20 million treasure hunting flying flying gliders.

Su Lang already knows the whole Yaochi tribe's situation well!

Observed for a while.

Su Lang, who had not found the problem, planned to continue refining the parts of the super humanoid weapon.

But at this moment.

His expression suddenly changed.

Because, through the perception of a clone on the edge of the Yaochi clan, he found a large group of uninvited guests.

Although these people have done very tight concealment, the means are superb.

But they have too many hands, and they are acting together, and they are murderous, and they can't help but show their feet.

What's more, Su Lang also comprehended the rules of the spirit, and his sensing power was greatly improved. He immediately observed a clue, inferring that there are a lot of people, and the cultivation base is very high!

The other side.

Under the leadership of the four great martial immortals including Duanqing, the two hundred slaughter heavenly killers entered the Yaochi area.

"About the information about the Yaochi tribe, you must have understood it very clearly."

"Now everyone is scattered and lurking near the target city, so you must not be stunned."

"We must first destroy most of the Yaochi Cities, so that they can taste what grief is."

Wuxu Feixu's voice was cold, like a poisonous snake whistling a letter.

"Yes!!"

Numerous martial sages immediately took their orders, and then secretly dispersed.

Feixu Wuxian, Yin Sha and the others looked at each other and rushed towards the direction of Yaochi Holy City.

"Ok!?"

"These guys seem to be separated!"

Su Lang immediately perceives the movements of the Lantianlou and others.

There were four great Wuxians who helped to cover up their breath before, and Su Lang was still very unclear about it.

But now those Martial Saints separated, and Su Lang immediately noticed the specific whereabouts of the two.

No way, Su Lang has mental rules, and his mental detection ability is really amazing.

The same as Wu Sheng. Fighting strength, even those Wu Sheng of the great sage quasi immortal level, it is difficult to escape Su Lang's detection.

[Chapter 709: I just saw it](#)

"According to the direction these guys are heading, it should be the cities of the Yaochi tribe."

There was a hint of joy in Su Lang's eyes, "Okay, the fat sheep of Slaughter Tower, I finally wait for you to come!"

Of course, Su Lang was careless on the surface, but very cautious in his heart.

Li Tianlou is a quasi-emperor-level force, why would Su Lang look down upon them stupidly?

"All the guys observed are at the level of Martial Saint."

"But they will definitely come to Wuxian, maybe more than one. I can't see through their whereabouts for the time being, I can only wait for them to expose themselves."

While thinking about it, Su Lang took out JXian Cannon and Tai Chi Meteor Thunder.

"Just in case."

"First, promote the Jixian Artillery."

"Well, the Celestial Meteorite Thunder God can also be promoted as a hole card."

While applying 'perception sharing' to monitor the people in Tuantian Tower, Su Lang gave evolutionary instructions to the system.

"Ding! Consumes the fairy-level material, Glazed Light Blood Kun Jade*3, the extremely cold dry immortal soil*10, the red rainbow mysterious magic stone*20...Holy material, the soul of Wusheng*36, the holy frost Rock*100, Explosive Blue Crystal*120..."

The Jixian Cannon evolved into an intermediate fairy weapon! "

"Ding! Consumption of the fairy-level material Overlord's Crystal Burst Essence*3, Heavenly Flame Stone*6...Holy material, Wusheng Soul*4, Heavenly Purple Thunderwood*30..."

Tai Chi Meteorite God Thunder evolved successfully! "

Two system prompts came that the Jixian Cannon successfully evolved into an intermediate immortal weapon, possessing the power of the Four Tribulations Martial Immortal.

Of course, a single shot consumes more funds.

Su Lang didn't know how much spirit jade it would take to fight such a shot.

In addition, the Taiji Meteorite God Thunder evolved successfully, and its level was raised from the First Tribulation Wuxian to the Second Tribulation Wuxian.

But this self-explosive fairy weapon is more powerful than the Jianxian cannon!

When it was still the One-Tribulation Immortal Tool, the Taiji Meteorite God Thunder could kill the Three Tribulations Wuxian and severely wound the Four Tribulations Wuxian.

At this time, the divine thunder rose to a level, and its power also increased by another level, even if the Wuxian of the Five Tribulations was in the center of the explosion, he would be seriously injured.

"It's so strong this fairy weapon."

"It's just a bit of a prodigal, it's gone as soon as it explodes!"

Su Lang cautiously put the Second Tribulation Immortal Tool Taiji Meteorite Thunder into the storage space.

This guy felt terrified when he held it himself.

"By the way, I thought it was very powerful at the time, and I also refined two more immortal-level Tai Chi Meteorite Thunder."

"Do you want to promote both of them?"

Seeing the other two immortal-level Meteorite Thunders in the storage space, Su Lang hesitated and decided to temporarily place them.

The super humanoid weapon plan consumes too much material.

Every piece of Martial Saint Soul is extremely precious, so save a bit of use.

Two fairy artifacts have evolved.

Su Lang immediately notified Yaochi Yan Fa and the others that an enemy had come to Kill Tianlou, and asked them to take a strict defense.

Yaochi Yan Fa and others received the order, and one by one said that even if they threw their heads and shed blood, they would never let the people of Tuantianlou break through the holy city of Yaochi.

Immediately after.

Su Lang dispatched Li Xianyang to his side.

"Knock on the Lord!"

Li Xianyang looked very excited.

In the last three days, because of Su Lang's restraint of his realm, he has not broken his realm either.

But in these three days, they have been constantly comprehending the rules, so far they have comprehended a total of 13 new rules.

Among them are his coveted spiritual rules!

Spiritual rules are one of the most mysterious and difficult to understand.

Li Xianyang specializes in spiritual power, and has not fully understood the spiritual rules in his previous life.

This is also one of the shackles that he didn't break from Zhuxian to Wuxian.

But he never expected that after he followed Su Lang, he would get something he could not get for millions of years in such a short time.

It's so dreamy!

"Li Xianyang."

"There are people coming from the Slutian Tower again, this time about two hundred people."

Su Lang said indifferently, "I will send you to intercept and kill those people now. Don't play with the cat like the last time. You will kill you when you see it."

"The people from Tutianlou are here again?"

"It seems that they are really not hurt by the Lord. Don't worry, the Lord, I will definitely kill them all."

Li Xianyang patted his chest and promised.

"Go!"

Su Lang smiled slightly, waved his big hand, and dispatched Li Xianyang.

[Chapter 710: So please die!](#)

Although the Yaochi tribe is only a holy tribe, the area is also extremely broad.

Even a martial sage of the great sage level cannot cross the entire Yaochi tribe area in a short time.

At this moment.

Those Great Sages and the quasi-immortals who had split up on the edge of the Yaochi tribe and lurked forward only traveled a tenth of the distance.

Even the city that was recently used as a target is still far away.

Blood Eighteen, the strong under the command of Broken Feeling, the warrior of the quasi-immortal level.

His goal is the nearest Yaochi city!

"I'm waiting for the Slaughter Tower assassin's best at stealth assassination. The Yaochi area is barren and remote, and there are no people everywhere. If Su Lang's servant hadn't prepared in advance, he would definitely not be able to find out where I was."

"When most of the people are lurking, they can take action together and let the Yaochi tribe lose half their lives!"

"A sage in a mere trivial area, dare to oppose our Tutianlou, and dare to kill the Martial Immortal of our Tutianlou, it's really funny!"

"After erasing you, I will go to the Emperor's Forbidden Area to support the main force. If the first seat succeeds in obtaining the Forbidden Area key, then I might also be able to go in and find a chance to become a fairy!"

Xue Shiba moved forward while thinking about the future. As for the Yaochi Saint Clan, in his opinion, it was just a small praying mantis, and it was about to be crushed into mud!

quickly.

Xue Shiba found that within the range of his mental power, there were already human beings.

The first is very small towns, even villages, where most of them are warriors with very low qualifications, and their cultivation is very shallow.

In these villages, you can even see children who have no signs of practicing.

"This innocent look, I really want to destroy it!"

There was a strong cruelty and ferociousness on Xueshiba's face, "It is a pity that I can't do it for the time being. When I do it, I must kill more cute little things, Jie Jie Jie Jie!"

at this time.

Xue Shiba suddenly found a cloud of phantom in the direction he was heading.

"what is this!?"

When Xueshiba's face was puzzled, he saw that group of phantoms instantly condensed into a human form.

"He is...Li...Li Xianyang!?"

Xue Shiba saw the face of the figure clearly, and was shocked.

They did a good job in the intelligence work of Tutianlou, and Su Lang and most of the people around him had information.

As a servant who followed Su Lang for a long time, Li Xianyang was, of course, the end-pointing figure of Tuantianlou.

Therefore, when I saw Li Xianyang, I recognized Li Xianyang instantly.

next moment.

Xue Shishi felt the coldness on the palm of his hand and behind his back, and he was obviously immersed in cold sweat.

Because according to intelligence, all the quasi-xianwu saints under Qian Zihou's command were killed by Li Xianyang!

The quasi immortal under Qian Zihou's command is not much weaker than his blood eighteen!

"Li Xianyang...Why is he here!?"

"Could it be that Su Lang has noticed that I am waiting!?"

"No! How is this possible, our latent skills are so superb, unless we master special rules, only Wuxian can see through!"

"But even if someone under Su Lang has mastered the special rules, how many people can there be? Only a few people at most!"

"How can a few people monitor the entire Yaochi area and accurately capture the traces of me!?"

"Perhaps, he just happened to meet me, he can't even confirm my identity!"

In an instant, a lot of thoughts flashed through Xue Shishi's heart, and a trace of luck occurred.

And at this moment.

He suddenly saw Li Xianyang's mouth showing a murderous intent.

"not good!"

Xue Shiba's heart tightened, and he quickly revealed his figure, and bowed his hand to Li Xianyang in front of him: "Friends in front, I want to cross the Yaochi area and go to other places. I wonder why you blocked my way?"

"Hahahaha!"

"The quasi immortal of Tutianlou, your acting skills are good, but it is a pity that my Patriarch has already understood everything!"

Li Xianyang sneered, "The Lord orders me not to waste time, so please die!"
