

## One Click 711

### [Chapter 711: The fury of Su Lang!](#)

next moment.

A horrible round of scorching sun reflected in Xue Shishi's eyes, stabbing him with severe pain.

"Do not!!"

The roar of Blood Eighteen before his death was filled with strong disbelief and a sense of despair.

Immediately, he was attacked by Li Xianyang's spirit to break the sea of consciousness and died.

"Ding! You get the soul of high-level martial arts\*1, the guide of space\*1, the middle-level sacred weapon and bone-eroding holy spear\*1, the best spirit jade 856236..."

Perfect plunder trigger, everything in Blood Eighteen has become Su Lang's trophy!

It was at the moment of Blood Eighteen's death.

Among the four people including Wuxian Hidden Killer who went to the holy city of Yaochi, Wuxian Duanqing's complexion changed.

"Someone under my command has died!"

"It's a quasi immortal, blood eighteen, death instantly."

"It is estimated that he died in Li Xianyang's hands."

Duanqing Wuxian has no expression on his face, and there is no mood swing in his voice.

He took out something similar to a life card from the inner world of Wuxian, like a ring, which was broken into two halves at this time.

"One died so soon!?"

"Didn't they let them hide? How could they be intercepted!?"

Wuxian Tengtian said in disbelief, "Could Su Lang's choreography be able to see their whereabouts?"

"Perhaps just a coincidence?"

Wuxian Feixu said disdainfully, "With the energy of the little saint-level power like Su Lang, the quasi immortal who can see through the hidden traces with all his strength? Impossible!"

"Flying."

"The people who looked down on Su Lang are dead."

Yin Sha Wuxian glanced at Feixu Wuxian, very dissatisfied with this guy's arrogance.

"cut!"

Feixu Wuxian looked at Yin Killing Wuxian contemptuously, "You are too courageous, are you afraid of Qian Zihou's death?"

As soon as this remark came out, a smell of gunpowder suddenly appeared between the two.

"Shut up."

The voice of Juanqing Wuxian came, and Wuxu Feixu and Wuxian Yinsha suddenly reduced their breath.

Immediately after.

Wuxian Duanqing took out seven more broken rings, a rare trace of anger appeared on his face.

"This is... seven more dead!"

Wuxian Tengtian opened his mouth, and then looked at his Wuxian inner boundary with feeling, and found that three of his subordinates were also dead.

"This....."

Without waiting for Tengtian Wuxian to swear, Hidden Killing Wuxian also took out some cracked life cards.

Including a Feixu Wuxian with contempt, but also a gloomy look, apparently someone under his command has died!

"It may be a coincidence that one died, but after so many deaths, it must be Su Lang and the others who can discover the traces of our subordinates!"

"Let everyone no longer cover their whereabouts, fly with all their strength, attack the nearest martial arts gathering point, and kill all the martial arts in sight."

An icy voice came from Wuxian Duanqing, and Yinsha Wuxian and others nodded.

They are the killers of Tuantianlou, and when they are angry, they will immediately set off a sea of blood!

next moment.

The orders of the four martial arts were passed to the hands of all the surviving assassins.

"Don't hide your whereabouts anymore, just kill!?"

"Although I don't know why the boss suddenly changed his mind, I like this command!"

"Kill kill kill! Kill everything in the Yaochi tribe area!"

"..."

More than one hundred and seventy quasi-celestial martial sages showed their figures, carrying terrifying power, and they killed the nearest martial artist.

In an instant, the Great Sage attack was covered, and tens of millions of creatures died instantly!

And this number is rising rapidly every second.

Ten million, thirty million, seventy million, one hundred million...

Countless creatures, including children who have not cultivated, have been taken away by murderous killers.

All of this naturally fell into Su Lang's eyes.

"hateful!"

"This group of dogs is so crazy!"

Su Lang frowned, his eyes gradually covered with bloodshot eyes, and his intense anger instantly filled his heart.

At the same time, Su Lang also knew that he had underestimated the killing nature of the Slaughter Tower Warriors.

I thought that although these slaughter of the sky warriors were killers, they would not slaughter the innocent and weak, or even all the creatures in front of the mass destruction.

Unexpectedly, they are so inhumane!

#### [Chapter 712: The four martial immortals dripping blood in their hearts](#)

"Damn it, careless!"

"Li Xianyang, speed it up!"

"Quickly, quickly, you must quickly kill all the Slaughter Tower assassins!"

"Yao Chi Yan Fa, you pass the message, order everyone to go to the nearest city immediately, and take away those who dare to disobey!"

While giving orders, Su Lang used clone dispatch and clone replacement to shuttle between the cities of the Yaochi tribe.

Every time he arrives at a city, Su Lang conveniently uses his 'One Thought Formation' ability to set up a celestial phantom united fairy formation in the local area.

This formation mage Su Lang currently has the strongest immortal formation, and its defensive power has reached the level of the Second Tribulation Martial Immortal.

And its coverage is very wide, often while guarding a city, it can also cover the surrounding smaller towns and villages.

In this way, most of the warriors and creatures are protected, and the loss will be minimized.

Time passed by.

Almost every second, a large number of innocent creatures died in the hands of the Slaughter Tower martial artist.

Almost every second, Li Xianyang was able to kill a crazy quasi-celestial martial sage in the Slaughter Tower.

Almost every second, Su Lang was able to leave the azure phantom united immortal formation in a city.

In a short period of time, Li Xianyang once again beheaded dozens of people, and Su Lang also arranged a whole number of ten sets of the sky phantom united fairy formation.

Yaochi Yan Fa also sent many warriors to move people from small towns and villages to the guardianship of the fairy formation.

In this way, the loss of the Yaochi tribe was immediately contained.

The remaining more than a hundred quasi immortal martial sages killed them, and found that they had killed fewer and fewer people, and even many villages were empty.

Immediately afterwards, another Martial Saint of the Lantian Tower inadvertently attacked the barrier of the blue sky phantom united with the immortal formation, and was directly wiped out by the counterattack ability of the immortal formation.

The quasi-celestial martial sages who sensed something was wrong immediately sent a message to Yinsha and other Wuxians.

"Master Hidden Kill, many villages and towns I encountered were empty, and the Yaochi people have already reacted."

"Master Feixu, I just met the immortal formation laid by the Yaochi tribe, they actually set up an immortal formation in a small city, my God, I almost ran into it!"

"Master Tengtian, many of my companions can no longer be contacted. They may have been unpredictable. Ah, that is... Li Xianyang, no!!!"

"Sir Duanqing, I have already met the fifth immortal formation. Su Lang really has an extremely senior immortal formation refiner! Ah! Li Xianyang! Li Xianyang has appeared, ah--!"

"..."

The four of Duanqing, Hidden Kill, Tengtian, and Feixu kept receiving messages from their subordinates.

There was a lot of information at the beginning, and then it became less and less.

This means that there are fewer and fewer surviving warriors under their command!

The four Great Slaughter Heaven Tower Wuxian was bleeding in their hearts.

Although his subordinates killed countless creatures of the Yaochi tribe.

But all of his subordinates were great saint-level and quasi-xian-level powerhouses, but so many died at this time, and they were completely destroyed after a few breaths.

A total of two hundred great sages, quasi-celestial powerhouses, just died like that!

"What is the origin of Su Lang, who is the son of a bitch!"

Wuxian Tengtian opened his eyes violently, "In the information we have, the Yaochi tribe doesn't have so many immortal formations!"

"In just three days, even an extremely senior immortal-level formation refining master cannot refine even one immortal formation!"

Hidden Killing Wuxian took a cold breath, "And just what my subordinates encountered, there are already more than ten immortal formations, what is the method used?"

"And that Li Xianyang!"

"Obviously, I killed one of my subordinates before, just took a breath, and killed another of my subordinates. The distance between the two sides is so huge, how could he cross over instantly!?"

Feixu Wuxian's face was somber as the bottom of a pot, "Could it be that it was not Li Xianyang who killed our subordinates, but an ancient immortal-level expert who understood the rules of space to the limit?"

The so-called ancient immortal-level powerhouses are the martial immortals above the seven calamities, each of whom has lived for countless years, so they are called ancient immortals.

### [Chapter 713: Exterminate the two hundred slaughter tower killers!](#)

"We still underestimate Su Lang."

"This guy has too many methods, too mysterious!"

"But so far, he has only shot our subordinates, not us."

"It can be seen that the ancient immortal in Feixu's mouth probably does not exist. Su Lang may not be sure to fight us head-on, or even our whereabouts may not be clear."

Wuxian Duanqing's eyes narrowed into a thin slit, cold light, "Now we have two choices, one is to leave quietly, and the other is to test Su Lang, and then decide whether to fight with him head-on."

As soon as these words came out, the three people including Yinsha looked at each other.

"Leaving quietly, this is too awkward!"

Tengtian Wuxian said, "Sir Duanqing, you have said that there is a very small probability that there will be an ancient immortal around Su Lang, why don't we try?"

To be honest, everyone has the idea of Tengtian Wuxian.

They are all people who have lived for millions of years, and they just ran away with their tails in between.

"So, who is going!?"

Feixu Wuxian has a cold tone, like a poisonous snake.

As soon as this problem came up, Tengtian stopped talking.

Su Lang possesses incredible means, and has an immortal weapon beside him, and there may be ancient immortals around him.

Those who go to temptation will take great risks.

For Qian Zihou's lesson, all four hesitated.

There was a moment of silence.

"Only together."

"Betting on all our strength!"

"Once Su Lang is strong outside, we will directly kill him, and once it is overwhelming, we can also work together and retreat."

Wuxian Duanqing's voice was indifferent and said, "In my opinion, although Su Lang has a lot of methods, it is impossible to kill us when the four of us retreat with all their strength!"

"In that case, let's go together."

Wuxian Tengtian nodded, then looked at Feixu and Hidden Killer, "You two, don't lose the chain at the critical moment."

"I have the same brotherhood as Yin Kill, you are too worried."

Wuxu Feixu smiled, and he was so disgusted as to kill him.

"Our subordinates are dead."

"Even if it's a trial, you can't just leave it alone, you have to make Su Lang pay a certain price."

Xianqing Wuxian said, "Go, look for a city without the protection of the immortal formation, and kill the world!"

At this point, Wuxian Duanqing finally showed strong mood swings, shame, anger, and killing intent intertwined, such as the tsunami of the end, making him look hideous!

"kill!!!"

The other three yelled in a low voice, and immediately unfolded their mental power, and began to look for a city without the protection of the fairy formation.

On this occasion.

Su Lang has just finished setting up a blue sky phantom united fairy formation in a small city.

"Master!"

"Fortunately, the servant has already beheaded all the enemies."

Li Xianyang knelt on one knee, his whole face pale and crumbling, and Qi Qiao even showed signs of bleeding.

Obviously, the continuous use of mental attacks in a short period of time to kill the quasi-xian and the great saint-level martial artist, so that Li Xianyang also suffered a serious backlash.

You know, mental attacks are rarely used in the battle of warriors of the same level, because the attacking party will suffer a lot.

Therefore, even if Li Xianyang's mental strength far exceeds that of the other quasi-celestial beings, he still has spiritual rules because of Su Lang, and after beheading two hundred people, he has become weak.

"Good job."

"Take these pills to heal your wounds and recover sooner."

Su Lang smiled comfortedly, then took out the Immortal Soul Pill and some healing pill, and handed it to Li Xianyang.

"Thank the Lord for the generous gift!"

Li Xianyang immediately knelt and kowtow, and respectfully accepted the medicine.

"Well, you go."

Su Lang nodded, "The Martial Immortal of Slaughter Tower hasn't appeared yet, I can't put down my guard yet."

"Master!"

Li Xianyang looked enthusiastic, "But if you need it, please call your servant immediately. The servant will be broken to pieces and serve the Lord."

"You go to heal immediately now, which is the best service to me."

Su Lang laughed, "Hurry up, don't delay my arrangement of the fairy formation."

"Yes!!"

Li Xianyang took the order and left immediately.

Before leaving, he couldn't help but look at the blue sky phantom united immortal formation just arranged by Su Lang.

#### [Chapter 714: You finally got it!](#)

"The Lord is really amazing. You can arrange an immortal formation in an instant. This is impossible even for an emperor-level formation refiner."

"Improvement, formation, alchemy, the speed of cultivation is against the sky, the comprehension of the exercise technique is against the sky, and the comprehension of the rules is completely unreasonable. My Lord will one day be invincible!"

With excitement, Li Xianyang returned to Linghe, the sea fairy palace in the sky, and began to heal his injuries.

"I don't know how many people from the Martial Fairy of the Slaughter Tower have arrived, and what choices they will make after all the martial artists under their command die."

Su Lang thought silently, and immediately replaced it with a clone, came to the next city, and continued to arrange the fairy formation.

By this time, he had arranged a whole number of hundreds of immortal formations!

Every city with a little value is equipped with immortal formations, and important cities are equipped with two or three layers of immortal formations!

And the materials used are like mountains and seas, countless!

But now is not the time to feel distressed about the materials. If the formation is not arranged, a large number of creatures will be exposed to extremely terrible danger.

Moreover, even though a lot of materials were used, killing two hundred great saint-level and quasi-xian-level warriors, the harvest completely overwhelmed the expenses, and Su Lang's storage space had more materials.

What's more, when needed, these fairy formations can finally be decomposed and recycled, and even a little material will not be wasted at all.

When arranging the fairy formation, Su Lang was also using 'perception sharing' to monitor the entire Yaochi area.

But because the realm was too different, and the Martial Immortals of the Tuantian Tower were professional killers, Su Lang still did not find the whereabouts of the Martial Immortal of Tuantian Tower.

This made Su Lang more vigilant.

He knew that Slaughter Tower would never stop there.

A terrible revenge is brewing!

at the same time.

A certain corner of the Yaochi area.

Duanqing Wuxian and the others hovered in the air, with an ugly look, and at the same time a strong incredible color.

"We have spanned most of the Yaochi clan, and every place we go, there must be an immortal formation for protection!"

Tengtian Wuxian's voice trembled slightly, "So far, we have seen 396 immortal formations!

Those cities that are slightly more important have two or even three fairy formations. Oh my god, this is really a dream! "

"Su Lang, this \*\*\*\* has arranged so many immortal formations!"

Wuxu Feixu's expression was cold and stiff, "Even ordinary cities are guarded by immortal formations! My clan only has five immortal formations!"

"Cunning, too cunning!"

"Although I can break through that fairy formation, I can only slaughter a city that is not important at all.

Yin Sha Wuxian took a deep breath and said, "Once our whereabouts are exposed, Su Lang possesses that unpredictable displacement method, which will definitely be able to bite us."

"no solution anymore."

"We can only find a city to destroy it, anyway, this does not prevent us from testing Su Lang, at least it can't make him pay a serious enough price."

A rare look of helplessness appeared on Wuxian Duanqing's face.

He didn't know this emotion for tens of thousands of years.

Feixu Wuxian said: "Maybe we move faster and can escape before Su Lang arrives, so that we can destroy more cities?"

"That makes sense."

"In that case, start with the city in front of you?"

Wuxian Tengtian looked at the other three and asked.

"That's it."

Nodded in love, "We make a shot together, and immediately retreat after one blow, and head to the next city."

"it is good!"

Hiddenly kill Wuxian, Tengtian Wuxian, Feixu Wuxian nodded together.

"Then...do it!"

With an order from Duanqing Wuxian, everyone suddenly burst into a terrifying Wuxian power.

The four of them shot together, and the force of the powerful rules fell on the earth, and the world changed in an instant, as if the end of the world had come!

"You finally did it!?"

In a certain city, Su Lang stared at him, and instantly used clone dispatch and clone replacement.

In an instant.

Su Lang appeared in the city that was set as the target by the broken love and others.

As soon as it appeared, the entire field of vision was occupied by the Wuxian-level attack that destroyed the world!

[Chapter 715: This is so fake!](#)

"Already launched an attack!?"

Su Lang's heart was raised instantly.

next moment.

Cangkong phantoms united the immortal array shattered like an eggshell, and the power of infinite rules vented like a city.

Space cracks continue to appear, and the entire city is like a fishing boat in a storm, which may be torn and swallowed at any time!

"One thought-formation!"

Su Lang's heart moved, and in an instant, layers of new azure phantoms combined with the immortal formations appeared, blocking the terrorist attack that teared the first formation.

But the attack of the four great martial immortals of Tuantian Tower was too powerful.

Especially Duanqing Wuxian, he is the Wuxian of Three Tribulations, with unparalleled power!

However, the Cangkong Phantom Alliance Immortal Array was only at the second calamity level, possessing a certain degree of defense at the Three Calamity Immortal level, but it was impossible to stop it in front of Duanqing Wuxian.

Therefore, the four combined forces not only completely tore the first layer of the sky phantom united fairy formation.

It also smashed two sets of Su Lang's newly arranged fairy formation!

In the end, the remaining power fell to the third set of fairy formations before being blocked.

And all this only happened in a blink of an eye!

If Su Lang hadn't appeared in time, the city would have been annihilated.

At this time, the warriors in the city reacted and realized that there were strong men attacking the city, destroying the world and killing everyone.

But this catastrophe was resolved by Young Master Su in an instant!

"It turns out I was about to die under this mighty attack! It was Young Master Su who saved us!"

"Oh my God, if Master Su hadn't arrived in time, we would have died!"

"Who are those miscellaneous people who can perform such terrifying moves, but Young Master Su is much better than them. It seems that many layers of immortal formations were set up in an instant!"

"..."

Countless thoughts flashed through the minds of the warriors in the city.

Simultaneously.

Seeing Su Lang suddenly appearing below and the large number of immortal formations that appeared out of thin air, Yin Sha and others were all dumbfounded, dumbfounded, and even Duanqing Wuxian was about to stare out!

Oh my god!

Is this dreaming or falling into an illusion?

As soon as Su Lang appeared, he set up so many fairy formations around him out of thin air! ?

This is too exaggerated!

This is so fake!

The four of Wuxian Duanqing had never felt this way-full of doubts about this world and their own lives.

In this world, how can such a formation be arranged? It doesn't make sense at all!

The four of Wuxian Duanqing tried to convince themselves with various speculations. For example, Su Lang used the formation, and Su Lang had arranged a multi-layer formation long ago, but they couldn't believe it from the bottom of their hearts.

Those formations were really arranged out of thin air!

"Sir Duanqing!"

Yin Killing screamed tremblingly.

The three of Wuxian Duanqing recovered from the shock.

"Su Lang's methods are too weird, we can't destroy this city!"

"Hurry up and implement the plan you made before and move on to the next goal!"

Wuxian Duanqing immediately shouted, and immediately concealed his figure without any hesitation.

"Go ahead, then Su Lang can't break my hidden ability."

Hidden Kill, Feixu and Tengtian also moved quickly, and disappeared in place in the next moment.

The four of Duanqing are Wuxian, their speed is really too fast.

From when their attack was blocked by Su Lang, to when they left, there was not even a second.

The warriors of the Yaochi tribe in the city were still immersed in the attack that destroyed the world and the mysterious and unpredictable methods of Su Lang.

Su Lang also didn't expect this group of people to flee immediately without a single blow, and couldn't help being taken aback.

But he also recovered within ten milliseconds.

"Can't let them escape!"

Su Lang took a deep breath, his eyes full of chill.

These guys, but ordered the quasi-Xianwu Sage to slaughter countless innocent creatures.

Furthermore, the four martial immortals themselves are extremely powerful, although they were blocked by Su Lang just now, they are still too threatening.

If they shot the next city.

As long as their attack is faster and stronger, Su Lang will not be able to arrive in time and can only watch the city be destroyed.

After all, it takes time to dispatch a clone and swallow a clone. Although it is rare, it is very deadly in the battle of the martial arts level!

It's too late to say, then fast.

Su Lang immediately moved.

He didn't go forward to chase after him, because he couldn't find the traces of the four martial immortals in Lantian Tower. Even if he did, he couldn't catch up at all.

But Su Lang has his own way!

### [Chapter 716: The strategy of breaking love](#)

Still that system function!

"Success in one thought!!!"

With a move in Su Lang's heart, countless celestial phantom united immortal formations appeared within the range of spiritual power.

Layers of pink masks suddenly rose up in the sky and underground, and even in places where the line of sight could not be reached in the distance.

Within a radius of 100 million li, it instantly became a pink world.

If you regard Su Lang's spiritual coverage as a basin, then the basin is filled with countless pink bubbles.

This is Su Lang's method.

Use the most concise and most shocking way to stop the four people from Duanqingwuxian!

At this moment.

Duan Qing waited for Wu Xian to be trapped in a certain sky phantom united immortal formation.

Although their speed is very fast!

But, where is Su Lang's idea?

In such a short period of time, even at the speed of Wuxian, it is impossible to fly out of 100 million miles!

Dieqing, Feixu, Tengtian, the four hidden killers stared in the formation, all seeing the incredible in each other's eyes.

Compared to the present, the three or four-layer formations arranged in the city just now are completely pediatrics!

Look at the formations spreading over a hundred million miles, how many are there! ?

Arranging so many formations all at once, this is so special that even an emperor-level formation refiner can never do it!

"Su Lang is too weird, is he really a martial artist? Isn't it a strange existence?"

Yin Sha Wuxian grumbled and swallowed a mouthful of saliva, a trace of fear appeared in his voice.

Suddenly, Tengtian and Feixu were also playing drums in their hearts, and they became very nervous.

Su Lang's methods have completely exceeded their cognition and beyond their imagination!

Facing the mysterious and unknown Weili, even if the four of them were Wuxians, they really felt terrified.

Everyone ran over to 'hunting' aggressively, but at this time they seemed to have become 'prey' and fell into a trap of others!

"What shall we do next!?"

Wuxian Tengtian licked his lips, his lips were dry.

"Although these formations are all immortal formations, we attack with all our strength and we will surely be able to blaze a trail."

A fierce flash flashed in Wuxian Feixu's eyes, "I don't believe that his array formation is not consumed. When the world is still exhausted, how many arrays can he deploy and how long can he stop us!?"

"Don't worry."

"The reason why Su Lang would use such a move to stop us must be because he couldn't find our whereabouts!"

"Otherwise, he only needs to arrange a formation to trap us."

"At present, he probably doesn't know where we are, or whether we are together or not. Using this, we might be able to set up traps in turn."

"Su Lang possesses the immortal weapon that can kill a tribulation martial immortal in seconds, as well as weird means of array formation, but he himself is very fragile, and there should be no immortal martial artist around him, otherwise he should have come together just now."

"As long as someone restrains Su Lang, attracts his attention, and then a sneak attack by someone lurking in the dark, there is a good chance of killing him!"

Juanqing Wuxian analyzed, "After all, he can't find any one of us hidden whereabouts at all, and the reaction power and speed can't match the four of us."

"Sir Duanqing is right."

Wuxu Feixu showed killing intent, "Although Su Lang has weird methods, he is very weak. Any one of us can kill him!"

"Sir, what should we do specifically?"

Teng Tian Wuxian asked, he is a person who doesn't like thinking, although he is not stupid.

"The method is very simple. The mantis catches the cicada and the oriole is behind!"

"We must first create the illusion that the four of us are not together."

"First, one person will launch an attack to break the fairy formation, and the rest will hide."

"If Su Lang does not come, then after destroying a certain number of immortal formations, the second person will show up and join the team of destroying the immortal formations, creating the illusion that the two are converging."

"In this way, not only can it create the illusion that the four people are not in the same place, but it can also pretend that the four are going to meet."

"Su Lang's vigilance will be greatly reduced, and he will definitely prevent us from meeting, and the timing of his appearance will most likely be after the second person appears."

"If Su Lang didn't show up at the beginning, then from the second person, the two hidden people must prepare to hunt down Su Lang, this mantis!"

#### [Chapter 717: Su Lang's Minesweeper Game](#)

Duanqing Wuxian once again conducted a long series of analyses and laid out a plan for Su Lang.

He was also a little proud of this strategy, thinking that Su Lang would definitely be fooled.

Yin Sha, Feixu, and Teng Tian heard the analysis of Wuxian Duanqing and felt wonderful, and immediately nodded to express their temporary storage.

Next, it's the turn of the selection.

Who on earth should make that cicada first?

at the same time.

Su Lang was floating in the city, frowning slightly.

Because he really couldn't find the trace of Wuxian Juanqing and others.

no way.

Although the four Martial Immortals in the Lantian Tower were already trapped by the formation.

However, the Cangkong Phantom Alliance Immortal Array is mainly used for defense, and its auxiliary functions such as detection ability are too weak.

"Which formation are they in?"

"Should you wait for them to show up?"

"Forget it, these guys don't know when they will come out yet."

"And after all, it is Wuxian, and it also comes from the Zhun Emperor organization. Ye Changmeng has many dreams."

Su Lang frowned, dispelling the thought of waiting for the four people in the Tuantian Tower to show up.

"Since I am not waiting for them to come out."

"Then I will take the initiative to find it."

Su Lang thought, and soon had a plan.

And this plan is very interesting, like a classic computer game-Minesweeper!

A radius of 100 million li is the 'minefield', and the Cangkong Phantom Alliance Immortal Array is a grid, and the four Hidden Killing Building Wuxians hidden in countless grids are thunder.

The Cangkong Eidolon United Immortal Array has a function called 'self-destruct'!

As long as this function is activated, the formation can be automatically destroyed, exerting a powerful attack power.

This is equivalent to opening the grid.

And the four martial immortals of Yinshalou absolutely cannot continue to hide in the power of self-destructive formation.

In this way, four people must be found!

Maybe not only can we find four people, we can also blow them up!

"Haha."

"Playing the four martial arts as a game is really exciting!"

"I don't know how long your four thunders can hide. I hope my luck will not be so bad. I hit thunders all at once."

The corner of Su Lang's mouth twitched, revealing a smile that Zhizhu was holding.

next moment.

"Self-destruct!!"

When Su Lang thought, the formations where the hidden killers were before they disappeared were directly destroyed.

The reason for choosing this place is naturally because this place has the greatest chance of 'thunder'.

"Boom!"

There was a huge sound, and the three adjacent sky phantoms united the immortal array and exploded directly.

The power of terror spread, and its power has completely surpassed the level of the Second Tribulation Martial Immortal, reaching the level of the Third Tribulation Martial Immortal.

Falling on the other immortal formations, the nearest immortal formation could not bear it immediately, and it was broken one after another.

To put it a bit taller, it's like the Dono effect.

One fairy formation exploded one after another, and dozens of combined fairy formations exploded in an instant.

In addition to preventing the explosion of the fairy formations that guard the city and protect many creatures, Su Lang did not prevent the remaining fairy formations from destroying themselves.

In this way, the array of self-destruction continued to spread to the surroundings, forming a terrifying arc of explosion.

Above this explosive arc, there are fairy formations exploding at all times!

The array that Su Lang arranged was being destroyed at an extremely fast speed.

But he is not satisfied with the status quo.

"Why minesweeper, how can you just click?"

"It takes a few more clicks to find the four mines faster."

Su Lang smiled, his heart moved, and all directions in the sky, the south, the north and the west, and the underground, instantly turned on the fairy array self-destruction mode.

One array after another exploded, and its power shook so much that the world was shaking.

And on this occasion.

In a certain blue sky phantom united immortal formation, the four martial immortals of the Slant Tianlou have just selected the first person to do it.

"Then, it's up to Tengtian to show up first and act as a cicada."

"Don't worry, we will kill him before Su Lang kills you!"

Duanqing Wuxian said faintly, and soon he was about to hide his body.

But at this moment.

His expression suddenly changed and he felt a strong vibration.

Yin Sha, Feixu, and Teng Tian also changed their faces.

"The world is shaking!"

"I even felt strong spatial fluctuations, as if the space was about to be torn apart!"

"What happened?"

"Could it be that Su Lang's little \*\*\*\* is doing a ghost!?"

"..."

## [Chapter 718: I'm dumbfounded](#)

The four looked at each other and couldn't help gritting their teeth and taking a breath.

You must know that they are now trapped in the fairy formation, and at the same time they are also protected in the fairy formation.

Moreover, there is more than one fairy formation.

They are surrounded by a large number of fairy formations!

Even so, they all felt a strong shock.

So, what happened outside these fairy formations! ?

"Sir Duanqing?"

Wuxian Tengtian looked at Wuxian Duanqing, "Does our plan continue?"

"carry on!"

Of course, Wuxian Duanqing is not reconciled to his own tricks.

And this is the only way for Yin Sulang, no matter what happens outside, it must continue to be executed.

"it is good!"

Wuxian Tengtian nodded, "Then please hide, I will do it!"

"Hurry up!"

Duanqing Wuxian let out a low voice, first hiding his body.

Feixu and Hidden Kill also immediately became invisible.

The vibration between heaven and earth became more and more obvious.

Wuxian Tengtian took a deep breath, condensing a group of violent rules in his hand, and he was about to launch an attack in the next moment.

But at this moment.

Suddenly his pupils shrank, and in his pinched pupils, a scene of destruction was reflected!

I saw where the heaven and the earth met, the immortal formations continued to explode.

The power of rules is raging, the space is torn, the aura is disordered, and even the light is distorting!

"At this time...Su Lang destroyed all the fairy formations by himself!!!"

Immortal Teng Tianwu was stunned, like a goose pinched around his neck, with his mouth wide open but unable to make a sound.

Duanqing, Feixu and Yinsha Wuxian who had hidden their bodies were also dumbfounded, and even their eyes fell out.

"Those formations... are exploding!"

"The Immortal Array arranged by Su Lang has a self-destruct function!"

"Su Lang... Su Lang actually caused countless immortal formations to destroy themselves!!"

"This is an immortal formation that has spent countless resources to deploy. He is willing to destroy it all!"

"My God, this guy is a lunatic!!"

"..."

The four great martial immortals of Lantian Tower were dumbfounded by Su Lang's operation.

How much material is needed to set up a fairy formation?

countless!

Among them, the most valuable fairy-level materials are hard to come by.

An ordinary immortal clan also has an immortal formation guarding the lair.

But Su Lang can not only arrange so many immortal formations, but he is also willing to destroy himself. This is crazy!

But they didn't know that Su Lang possessed the magical skill of one-click decomposition!

Even if the fairy formation destroys itself, Su Lang can recover a lot of materials from it.

Of course, some materials disappeared in ashes, and Su Lang was unable to recycle them, so there were still losses.

But Su Lang was not too distressed.

As long as four Wuxians are killed, any loss can be paid back!

Not only can you make money back, but you can also earn a wave of blood!

Closer to home.

Just as the four great martial immortals of the Lantian Tower were so shocked that they lost their voices, the self-destructive formation in the distance was getting closer.

In the field of vision of the four, the exploding fairy array formed an arc, enveloping themselves in all directions.

The power of the explosion is like a wall of fire.

After the next blink.

The overwhelming power of destruction has come before everyone.

"Cancel the plan, resist with all my strength!!"

Duanqing Wuxian revealed his figure and took out a fairy artifact from the inner boundary of Wuxian.

Yin Sha and Feixu Wuxian also appeared immediately, and the exercises in the body were instantly overloaded.

Tengtian Wuxian was the first one to prepare for defense. He even used a secret technique to greatly increase his combat power.

The next moment.

The formations where the four great martial immortals were in burst open, and the power of endless rules poured down, and the space where they passed was torn apart, like a doomsday scene.

At this moment.

I don't know how many immortal formations blew themselves. Although the power of these immortal formations blew out a lot, some of them still gathered, like a snowball, becoming more and more terrifying.

After the formation of Duanqing and others was broken, they felt that the attack they had to face was more terrifying than they had imagined!

In a rush, the four great martial gods showed horror and took out all their hole cards!

"what!!"

"Jue Xian disintegration Dafa!"

"The secret technique of sloughing the body weight!"

"Chengtian Immortal Body, Kai!!"

"The Seven Secrets of Love-joy, worry, thought, sorrow, fear, anger, shock! Fei Xian Ji Yuan Ji, kill me!"

"..."

#### [Chapter 719: Four Wuxian cards are over!](#)

The four great martial immortals in the Lantian Tower roared frantically.

I saw the light flashing on the four of them, the power of rules surged, and the hole cards were revealed one after another.

Tengtian was bloody, and his skin was like a melting candle, turning into cellular pus and splashing around.

The heart of Feixu Wuxian sent a red light, which contained a huge life force, which seemed infinite and inexhaustible.

Hidden Killing Wuxian uses secret techniques to instantly transform his body into jade, full of immortality, just like flying immortals outside the sky.

Suddenly countless emotions erupted on the paralyzed and moodless face of Wuxian Duanqing Wuxian, as if the emotions accumulated over millions of years were released in an instant.

The four great martial immortals in Luntian Tower unexpectedly displayed a power far exceeding their original level in an instant!

The next millisecond.

The power of countless arrays to self-destruct is like the doomsday tsunami that drowned all four of them.

But the four great martial immortals such as Duanqing are like giant peaks in a mudslide, and they are not moving!

However, the power of the array's self-detonation almost reached the level of the Four Tribulations Wuxian, and it continued uninterrupted. Although the four Wuxian blocked them, they couldn't breathe a breath!

"Oh, Lei has swept out!"

"So you are here, and the four of you are together."

Su Lang sensed the position of the four martial immortals in the Lantian Tower, and couldn't help but tick the corner of his mouth, preventing the remaining formation from destroying itself.

Then, with a thought, he came to the vicinity of the four.

at the same time.

"what--!!"

Duanqing roared in anger, "You can't go on like this, try another hard and rush out!"

"Fight!!"

Tengtian Wuxian and the three others once again squeezed their own power, worked together, and exerted the power of the Four Tribulations Wuxian, and finally broke through the horror power of the formation to explode.

An invisible ruin appeared in front of him.

Not only the earth, but the sky has become ruins.

Numerous spatial cracks are densely populated, a large amount of gray and white space is overflowing, and the light is twisted into an unnatural shape, passing through the gaps of the inverted mountains and rivers.

Rao was the battlefield where the four great martial arts had seen the battle of the mainland, and couldn't help feeling palpitations.

However, even with the horror in their hearts, the footsteps of the four lovers never stopped.

They don't want to be shrouded in Su Lang's formation!

However, at this moment, more than a dozen immortal formations appeared in front of them again.

"This!!"

"These formations again!"

"We are trapped again, \*\*\*\* Su Lang, he has already determined our position!"

The four martial immortals of the Liantianlou immediately burst into canthus, and their facial muscles twitched.

Among them, Tengtian Wuxian was so angry that his body was soaked in blood because of Jue Xian's disintegration of Dafa.

"Sir Duanqing!"

Yin Sha and Feixu looked at Wuxian Duanqing.

"While our secret technique time is still there, fight it!"

"We can work together to exert the power of the Four Tribulations Martial Immortal, and Su Lang may not dare to stop it!"

Duanqing Wuxian gritted his teeth, "You hold on again, we rush out!!"

Until now.

The four of them had only the heart to escape.

There's no way, after using the secret technique, the side effects soon came up, and his own combat power plummeted, and he would definitely become Su Lang's flesh and blood, and he could be killed by others!

"Don't talk nonsense, I can't hold it anymore!"

Wuxian Tengtian roared, and the internal organs and bones were even visible on the torso!

"Flush!"

Duanqing yelled in a low voice, and horrible mood swings erupted all over his body, which was obviously pushing the Seven Secrets of Duanqing to the limit.

Feixu Wuxian and Yinsha Wuxian also immediately overdrawn their vitality, exploding with the might of the Second Tribulation Wuxian, and blasted towards the formation.

"Boom boom boom!"

Continuous explosions sounded, and the formation that besieged Duanqing Four was ruddy and shattered.

Another round of horrible self-destructive prestige came, and the four people of Broken Love can only clenched their teeth with secret techniques.

Fortunately, only a dozen formations exploded this time, and the explosive power came and went quickly.

The four of them blocked this wave of attacks, and seeing that there was no more formation to stop them, they suddenly felt happy after the disaster.

"Go!"

"Su Lang's choppy should not be able to arrange a formation, take this opportunity and go!"

"In the future, I will definitely come back to slaughter all the creatures of the Yaochi tribe!!"

"..."

Countless thoughts of hatred flashed through the four people's minds.

And all of this actually happened within one millisecond, and the figures of the four Wuxians did not stand still at all.

That is when the thoughts of the four people were circulating.

suddenly!

The four martial immortals tightened and their hairs stood up, feeling a terrible death crisis coming!

[Chapter 720: Four Tribulations Wuxian level attack!](#)

"fire!!"

A loud roar came from above his head.

The four martial immortals, Duanqing, Hidden Kill, Tengtian, and Feixu, instinctively looked over their heads, and saw a golden glow carrying the horrible rules and torrents that were suppressed severely!

"It's an attack of the Three Tribulations Martial Immortal level!!!"

Juanqing Wuxian analyzed the power of the golden glow for the first time, and his pupils couldn't help but shrink.

The three of Wuxian Tengtian and others were also cold. They had just used the secret technique to burst once, and at this time their combat strength had already fallen back, and they were about to fall into a weak state.

The Three Tribulations Martial Immortal's attack above his head can certainly be stopped, but it also means that the four of his own were retained by Su Lang!

Once retained, the next is a stormy attack!

As the thoughts of the four martial immortals were circulating, Su Lang's attack had already fallen from the sky!

Duanqing and others can't think about it anymore, they can only gather in one place and defend together.

They can only work together, otherwise, except for Duanqing Wuxian, Yinsha Feixu and Tengtian will not be able to stop them!

"Boom!"

A violent explosion sounded.

Duanqing and other four martial immortals sank suddenly, their expressions extremely ugly.

The huge energy tide turned into a circular air wave, swept out, and instantly aggravated the damage to the surrounding battlefield.

A large number of space cracks were torn again, and space holes were formed, just like the entrance to the abyss, and like the devil's throat!

Originally, the four great martial arts all mastered the means of tearing apart space to shuttle.

But in this case, the turbulent flow in the space cracks, if the space rules are not mastered, even if Wuxian breaks in, 99% of them will be crushed, and there will be no place to be buried!

And how can space rules be so easy to master?

not to mention.

Another golden light fell from the sky!

And this golden light is obviously dozens of times stronger than the first!

This time it was an attack of the Four Tribulations Martial Immortal level!

Obviously the first Three Tribulations Martial Immortal attack was Su Lang's temptation. As soon as he discovered that Duanqing and the others were stronger than Three Tribulations, he immediately used the Fourth Tribulations Martial Immortal to attack.

In this situation.

There is no way for the Duanqing Four to break into the void of space!

"Block!"

Duanqing Wuxian roared, and his emotional strength soared.

"Jue Xian disintegration Dafa, shattering secret technique!"

Tengtian Wuxian uttered a hysterical roar and used the advanced secret technique of Jue Xian Disintegration.

This is his desperate trump card, once it is used, even if he survives, he may eventually fall into the realm of Wuxian!

Hidden killing Wuxian and Feixu Wuxian are also doing their best, wishing to drain every trace of spiritual power in the body!

After another outbreak, no one of the four great martial arts performed except the strongest attack of their lives.

Hidden Killing Wuxian burst out with gray rules, turning into countless small daggers, flying out like a swarm of locusts.

Wuxian Tengtian almost melted, and he pulled out his spine directly, and there were secret lines in the \*\*\*\* bones.

The whole body of Feixu Wuxian burst into red light, as if it turned into a sunset, and when the air of the remnant was lingering, it carried terrifying power.

Duanqing Wuxian displayed the Seven Secrets of Duanqing, attached to the fairy halberd in his hand, and constantly waved it, displaying a series of terrifying rules of blade light.

The four torrents soared into the sky, each of which was higher than the realm of its owner.

next moment.

The Four Tribulations Wuxian attack launched by the Jianxian Great Artillery and the attack performed by the four people including Suanqing blasted together.

"boom!!"

First, a dazzling light shone through the sky and the earth, and then a loud noise that shook the world came.

The space was shattered, the power of chaotic rules exploded everywhere, and the mountains and rivers hanging upside down had completely melted.

The heaven and the earth are colorful, and countless rules are entangled violently, even if the immortal is touched, he will die!

At the top of the battlefield sky, the clouds are scattered.

It can be seen that Su Langduan was sitting on the platform of the Jiexian Cannon, with a large number of top-grade spiritual jade, even low-grade immortal jade suspended by him.

There are countless empty shells of spirit jade fairy jade that have been exhausted, turning into dust, flying into the air.

In the two attacks just now, the first time consumed a full 10 million of the best spirit jade, and the second time was even more terrifying, consuming 300 million of the best spirit jade!
