[Chapter 721: Sifang Wuxian inner bound!](#)

"This Nima is too prodigal!"

Su Lang felt that he had some toothache, and couldn't help taking a breath.

However, the system prompt did not sound, which meant that none of the four Wuxian Duanqing had died.

So, the cannon can't stop.

"Fire me!"

Su Lang shouted and issued an order, "Use the power of the Three Tribulations Martial Immortal!"

The reason for using the power of the Three Tribulations Martial Immortal was because Su Lang felt that the aura of the hidden killing of the four was rapidly weakening.

Obviously, even if the Four Tribulations Martial Immortal attack did not directly destroy them, it caused terrible damage to them.

At this level, using the power of the Four Tribulations Martial Immortal would be a bit wasteful.

After all, 300 million at a time, 300 million!

How many 300 million can a man have?

What's more, Su Lang did this not just to save Lingyu, but to arrange a trap by the way!

Following Su Lang's order.

Above him, a huge dragon shook his head, shook his head, and opened his teeth and claws.

A loud roar that shattered the mountains and rivers continued to roar from the mouth of the dragon's blood basin!

"fire!"

"fire!!"

"fire--!!"

Every roar represents an attack by the Jianxian Cannon.

The dragon mouth of the JXian Cannon is almost like an automatic machine gun. It roars and fires, and ejects golden 'cannonballs'!

These golds ran one after another, almost in a string!

"Lie noisy, you don't want to shout every time you attack!?"

"Has this feature become your mantra?"

Su Lang looked up at the JXian Cannon, his face was covered in black lines, and even the corners of his mouth were twitching.

But Jianxian Artillery was like a little deaf and blind, turning a deaf ear to Su Lang's complaints.
amount.

Maybe it's also because it's not very intelligent, so it's silly.

"Helpless."

"You grow up quickly."

Su Lang sighed, lowered his head and looked down at the broken ground below.

I saw Duanqing Wuxian and others gathered together, propped up a layer of mask with their whole body strength, and constantly resisted the attack of Jianxian Cannon.

But their masks were twisting again and again, as if they were about to be torn in the next moment.

"Tsk tut!"

"With such a thin film, you still want to block my treacherous cannon?"

Su Lang shook his head disdainfully, and then sprinkled 10 million superb spirit jade again.

"fire!!"

The Jixian Cannon let out another loud roar, and sprayed a powerful attack of 10 million superb spirit jade.

So far, the Jixian Cannon has fired more than a dozen cannons, consuming more than 100 million top-grade spirit jade!

And Duanqing Wuxian and the others could hardly hold it anymore.

"Damn it! Why is this kid's fairy weapon constantly attacking!"

"His cultivation level is so low, even with an immortal weapon, it is impossible to beat us like this!"

"We are Wuxian, Wuxian! The warrior at the top of the pyramid on the continent!"

"Ah, I can't hold it anymore!"

"..."

The hearts of the four were incredible and terrified.

"Hurry up and display the inner bounds of Wuxian!"

Wuxian Duanqing suddenly roared, a rare trace of despair appeared in his voice.

"Use the Wuxian Inner Realm!?"

Feixu Wuxian, Tengtian Wuxian and Yinsha Wuxian's complexion changed greatly.

Wuxian's inner boundary is very strong, but it is also Wuxian's most deadly weakness!

Once it is displayed, it means to completely abandon it and start a real desperate mode!

And in this kind of battle, there is almost always death!

Even if he wins, his own cultivation base will explode and I don't know how much, and even instantly fall into the Martial Wonderland, and there is no possibility of getting up again!

But the four knew that there was no way!

"Teng Tiantian!"

Tengtian Wuxian was the first to display the inner boundary of Wuxian.

The side effects of his secret technique are the most terrifying. If he hesitates, he will not even have the opportunity to use the inner world of Wuxian.

I saw a side of Wuxian's inner boundary emerge from Tengtian Wuxian's expression.

A large amount of suspended land can be seen inside, but there is no sign of life, and it is completely dead.

Duanqing Wuxian, Yinsha Wuxian and Feixu Wuxian also immediately opened up the inner boundary of Wuxian.

The four Wuxians all used the final hole cards!

The Sifang Wuxian inner boundary stands tall in the world, even squeezing out the surrounding space holes, forming a relatively stable world.

As soon as the Quartet Wuxian's inner boundary came out, they immediately struck each other with the 'cannonballs' fired by the Jianxian Artillery.

[Chapter 722: Cut the four immortals!](#)

The Sifang Wuxian Inner Realm confronted the Three Tribulations Immortal level attack, and the result was not unexpected.

A large number of cracks appeared in the inner boundary of Hidden Killer and Feixu Wuxian, and the interior turned into chaos.

The inner boundary of Wuxian Tengtian was tumbling, and the suspended land was broken.

The inner boundary of the Wuxian of Juanqing Wuxian was hardly hurt.

In any case, Duanqing waited for the four martial immortals to block this attack.

"Okay, great!"

"Although Su Lang's little miscellaneous can use the immortal weapon to perform a powerful attack, he only performed one attack from the Four Tribulations Martial Immortal, and then all attacks from the Three Tribulations Martial Immortal."

"This means that he can't afford to use the Four Tribulations Martial Immortal attack at all. We have a chance!"

"Yes, this miscellaneous mess has hurt us so badly, and we must make it eternal life as good as death!"

"Go up and kill him!!"

"..."

After paying a great price, Wuxian Duanqing and others seemed to have discovered Su Lang's weakness.

That is, Su Lang could not bear the price of using the fairy for a long time.

After finding Su Lang's weakness, and embarrassed to perform secret techniques one after another, even the inner boundary of Wuxian was forced out, of course the four great Wuxians in Tuantian Tower were not willing to flee!

then.

They started a counterattack!

Facing the inner boundary of the Sifang Wuxian, the four great Wuxians in the Lantian Tower tried their best to shoot towards Su Lang.

at the same time.

"Ha ha!"

"Do you think I can no longer perform the attacks of the Four Tribulations Martial Immortal?"

The corner of Su Lang's mouth twitched, and a faint smile appeared, "Sure enough, I was deceived by the illusion I created!"

Between the small smiles, there was a trace of disdain.

Su Lang waved his hand, and a full 300 million superb spirit jade appeared, and was swallowed by the Jiexian Cannon: "The power of the Four Tribulations Martial Immortal, fire!"

"fire!!"

Still its mantra.

After yelling, Jianxian Cannon immediately launched an attack.

The 'cannonball' carrying the might of the Four Tribulations Wuxian almost instantly fell in front of the four people including Juanqing Wuxian.

"This this this!"

"This is the attack of the Four Tribulations Wuxian!!"

"How is it possible, how can he still display the power of the Four Tribulations Martial Immortal!"

"Even if he conquered the three saints of Yaochi Chiri and Tianyun, it is impossible for the three clans to have so many spirit jade together!"

"We... we guessed wrong!!"

"..."

The unbelievable voices of Wuxian Duanqing and the others were trembling.

The might of the Four Tribulations Martial Immortal, they were already seriously injured once they blocked it, and later they also resisted attacks of the Martial Immortal level of the Three Tribulations many times.

Although the time is short, they are almost exhausted.

At this time, Su Lang launched another attack at the Four Tribulations Martial Immortal level.

This is terrible!

In just an instant, the "cannonball" of the Four Tribulations Wuxian penetrated into the inner boundary of the Sifang Wuxian.

"Do not!!!"

Duanqing waited for the four Wuxians to shout desperately.

next moment.

An explosion that ruined the world rose up, and the Sifang Wuxian inner boundary instantly collapsed.

Hiddenly kill Wuxian, Feixu Wuxian and Tengtian Wuxian dissipated in an instant, and fell directly!

"I... unexpectedly fell on the hands of a little-known crap..."

Broken love Wuxian tears, and immediately cracks appeared in his body, and his body was broken to pieces.

"Ding! You get the soul of the elementary Wuxian*1, the guide of space, the regular fairy crystal*1, the elementary fairy weapon flying immortal halberd*1, the middle-grade fairy jade*8563256, the lower-grade fairy jade*114256888, the ultimate spiritual jade *5525646...the material of the fairy-level refining device...the material of the holy-level refining device..."

"Ding! You get the soul of the primary Wuxian*1, the guide of the space*1, the regular fairy crystal*1, the high-grade saint soldier mad corpse and the dew bottle*1, the middle-grade fairy jade*685689, the lower-grade fairy jade*32325689, the best Spirit jade*6895326...the material of the fairy-level refining machine...the material of the holy-level refining tool..."

"Ding! You get the Soul of the Elementary Martial Immortal*1, the Enlightenment of Space*1, the Rule of Immortal Crystal*1 the High-level Saint Soldier Yuansheng Sunda Wind Seal*1..."

"Ding! You get the soul of the primary Wuxian*1..."

The four system prompts sounded, which means that after Qian Zihou, there are Diqing Wuxian, Tengtian Wuxian, Yinsha Wuxian, and Feixu Wuxian died in Su Lang's hands.

So far, five Wuxians have died in Su Lang's hands.

And Su Lang's cultivation realm was just a junior martial god.

How big is the gap between the realm of Valkyrie and the realm of Wuxian?

Not to mention the 100 million war gods, even the billions of war gods, in the hands of a martial god, are ants that disappear in an instant!

In the realm of the **** of war, to kill the Wuxian, in the eternal age, I am afraid that only Su Lang can do it.

[Chapter 723: Comes with superb features!](#)

At this moment.

Su Lang is very happy!

There is no way, this time a total of two hundred Great Sage-level and Quasi-Xian-level warriors have been killed, as well as a total of four immortal-level warriors.

It also includes an extremely powerful Martial Immortal of the Three Tribulations!

Just a great sage-level quasi-xian-level warrior, there are millions of superb spirit jade.

And Wuxian's net worth is more than a thousand times that of Zhunxian!

Among the martial arts, every high calamity represents countless years of living longer, and the difference in wealth is ten times a hundred times!

"Hahahaha!"

"Although the use of the Jianxian Cannon consumed a whole 700 million yuan of the best spirit jade, it was all earned back!"

"Come on, let me see, how good spirit jade I have earned this time!"

Su Lang's face was filled with excitement that could not be concealed, "The system, quickly deposit all the spiritual jade and celestial jade obtained into the balance!"

"Ding! All spirit jade and fairy jade have been deposited in the system!"

Wow!

In the mysterious black space, a long string of numbers appeared behind the unit of 'Extreme Spirit Jade'.

Su Lang counted and found that there were twelve digits in total!

In other words, the number of the best spirit jade has reached hundreds of billions!

Specifically, it is 108.99 billion of the best spirit jade!

"Ding! Given that the current balance is too large, the currency unit has been changed to the lower-grade fairy jade!"

Appears again as the system prompts.

The unit of the balance is changed to the lower grade Xianyu, and the number after it has also become a tens digit.

"In other words, I currently own nearly 1.1 billion low-grade immortal jade!"

"Tsk tusk, I can be considered rich, and I don't know how far the system functions can be upgraded."

Su Lang licked his lips with excitement, and immediately focused on the system function.

There are a total of ten functions that have been activated. Among them, one-key alchemy, one-key refining, one refining array and one decomposition function can no longer be upgraded.

At present, there are only level 24 one-key training function, level 24 one-key martial arts function, level 23 clone dispatch function, and level 23 one-key treasure hunting function.

And, the tenth abnormal function recently activated, the 2-level one-key empowerment function!

All of these five functions need to consume 1 billion superb spirit jade to continue upgrading.

All upgrades are five billion superb spirit jade.

This was a huge sum of money that was completely unattainable to Su Lang, who had only had 700 million top-quality jade before.

But now, this money is just a fraction to Su Lang.

After all, five billion top-grade spiritual jade is just fifty million low-grade fairy jade.

Su Lang has more than one billion!

"This time I upgrade, I am afraid that the first four functions can be upgraded to level 25. I don't know what kind of bonus new functions can be obtained?"

Su Lang licked his lips with excitement, "First, let's practice with one key, the system, press the one-key show to level 25!"

"Ding! Consumes 10 million lower-grade immortal jade, the one-key training function is increased to level 25, and the training speed is increased to 44,695,552 times the basic speed!"

"Ding! Congratulations on upgrading the one-key training function to level 25. You have obtained the new bonus function 'Absolute Gift'!"

"Unparalleled quality: the basic training speed will be increased by one hundred times the current one!!"

Messages appeared in Su Lang's mind, and Su Lang who looked directly at him was dumbfounded.

"My fork, unparalleled qualification!"

"Isn't this the capital of Emperor Chu Xiaobei's possession!?"

"It directly increased my basic cultivation speed by a hundred times, so abnormal!?"

"I'm arrogant, the more the system functions to the rear, the more perverted and unreasonable!"

"One hundred times, one hundred times, that is to say, my current cultivation speed is equivalent to 4469555200 times the basic cultivation speed of the Infinite Grade Genius?"

"This Nima, more than 4.4 billion times!"

Su Lang stared at his eyes and turned his attention to the cultivation villain in the mysterious space.

At this time, the cultivator is golden all over, because he has reached a breakthrough.

And now, the cultivator has accumulated three full days of cultivation.

Almost every hour, he can accumulate the cultivation base of a junior Valkyrie to break through to an intermediate Valkyrie.

At this moment, the speed of this accumulation has become faster, and 36 seconds can accumulate one by one from the primary Valkyrie to the intermediate Valkyrie!

[Chapter 724: Level 25 One-click Martial Arts](#)

In other words, you can break through from the elementary Valkyrie to the advanced Valkyrie in 36 seconds!

You know, ordinary war gods have to break through a small realm, even if the conditions are good, it takes thousands of years as a unit.

But Su Lang only needs 36 seconds!

This gap is almost endless!

"Too awesome!"

"If I break through now, I don't know how far I can break through."

"Well, forget it, I promised Chu Xiaobei to give her a surprise, first accumulate the cultivation base, and then inject her into her body to explode her, hehehe!"

A nasty smile appeared on Su Lang's face, and then he cast his gaze on the one-key martial arts function.

"The system, upgrade the one-key martial arts function to level 25!"

"Ding! Consumes 10 million lower-grade immortal jade, the one-click martial arts function is increased to level 25, and the training speed is increased to 44,695,552 times the basic speed!"

"Ding! Congratulations on raising the one-key martial arts function to level 25. You have obtained the new function "Six Hearts" and "Ten Thousand Laws into One"!"

"Six Hearts: You can practice six exercises at the same time!"

"Ten Thousand Laws into One: All the practiced exercises will be integrated into one, forming a new special exercise, which can continue to accommodate subsequent exercises for upgrading!"

"Ding! The master's cultivation method is fusing, please concentrate and hold your breath and concentrate!"

A series of system prompts struck.

Su Lang was trembling again with excitement.

Let's forget about six hearts, a super practical function as expected.

The latter function of the unity of ten thousand faculties completely hit Su Lang's heart.

So far, Su Lang has practiced more than 100 exercises.

But it seems that the number is large, but many of them are low-level exercises.

These exercises have been eliminated, basically useless.

And as Su Lang continued to practice, the holy level cultivation technique currently being practiced would probably be eliminated.

In this way, the combat power accumulated by practicing these exercises will also disappear.

In the end, these exercises became useless in addition to being used as 'introduction' for Su Lang to understand the rules.

But with the function of the unity of ten thousand faculties, all the exercises can be integrated and play their biggest role!

Su Langneng expected that once the techniques were integrated, they would surely bring great combat power!

Soon, Su Lang suppressed his excitement, forcibly closed his five senses, held his breath, and entered a state of nothingness and selflessness.

next moment.

He felt countless warm currents rising from his body.

These warm currents vary greatly.

The small ones are as thin as a hair, and they are short and soft.

The big one is very thick and strong, and very long, which seems to contain powerful energy.

In addition, the colors of these warm currents are different, and there are colorful ones.

Su Lang knew that these warm currents were transformed by the exercises he had already practiced.

Immediately after.

Hundreds of large and small warm currents condensed in Su Lang Dantian and gradually merged into a group of translucent crystal warm currents.

But without waiting for Su Lang to observe carefully, the translucent warm current suddenly merged into the dantian and disappeared.

at the same time.

Su Lang felt a powerful and strange energy radiating from his dantian, running through his whole body, muscles and blood, and even the realm of Valkyrie!

Under the influence of this singular energy, Su Lang felt that all his abilities were growing wildly!

Physical strength, reaction power, flexibility, spiritual power reserve, mental power capacity... all attributes skyrocket!

Su Lang felt like he had eaten a big tonic pill, his whole body had inexhaustible energy, and his energy was still increasing!

However, there is no feeling of breaking the body, everything is very natural and all under control.

This feeling lasted for a long time before gradually disappearing.

"Ding! The exercises are integrated, do you want to name it?"

"Do you want to name it? No name yet!"

"Open my attribute panel, I want to see first, to what extent my current combat power is!"

Su Lang slowly opened his eyes, and a ray of light that seemed to see through all the profound meaning of the world flashed away.

[Chapter 725: Unnamed exercises](#)

"Properties panel!"

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Elementary Valkyrie

[Attack level]: Five-star Wusheng

[Defense level]: Samsung Wusheng

[Shenfa level]: Four-star Wusheng

[Endurance Level]: Samsung Wusheng

[Spirit Level]: Realm of Bright Moon

[Mastering the exercises]: The Infinite Heart Sutra, "Ten Thousand Laws into One: Unnamed" (Holy Level, Founding)

[Activated system functions]: One-key practice function (level 25), one-key martial arts function (level 25), clone dispatch function (level 23), one-key treasure hunt function (level 23), one-key alchemy function (level 15)), one-key refining function (level 15), one-key refining array function (level 15), one-key synthesis function (level 15), one-key empowerment function (level 2), one-key decomposition function (no level)

"The four-dimensional attributes have been comprehensively improved, and the attack state has reached the five-star level!"

"Although this integrated unnamed exercise is still a holy-level exercise, it is far more powerful than ordinary holy-level exercises!"

"Even if this technique has not reached the immortal level, it is estimated that it is only one step away!"

Su Lang looked at the panel of his subordinates with a slight smile on his face, still very satisfied.

In the Martial Saint stage, every star is a huge gap, almost comparable to the great realm before the Martial God.

At this time, the four-dimensional attributes have been fully improved, which is already a very good harvest.

Moreover, this exercise is also a continuous fusion of new exercises, and one day it will become the most powerful exercise in the world!

"I don't have a name for now."

"Let's avoid the name not worthy of the level of the practice, hehe."

While smiling, Su Lang asked, "System, how long will it take to finish the exercises I am currently practicing!?"

"Ding! Master, the five exercises you have practiced can reach the founding level in just one day!"

"one day!"

"You can master the holy-level exercises in one day, and practice to the level of the founder, and it's still five at once!"

"Oh no, it's six books now, Jie Jie Jie Jie!"

The corner of Su Lang's mouth raised slightly, and he couldn't help showing an excited smile.

"There is still a vacancy for the exercises."

"Well, do you want to practice a fairy-level technique?"

"Forget it, I don't know how long it will take for the immortal level exercises to be completed. It's the holy level exercises."

While thinking about it, Su Lang began to choose exercises again.

Originally, Su Lang had enough holy level skills, and now he has killed two hundred slaughter towers Zhunxian and Wusheng, and a total of four Wuxian.

Although many of these martial sages have practiced the same technique.

But Su Lang still obtained 1,600 new god-level exercises and 232 new holy-level exercises.

There are a total of eight fairy-level exercises, which are divided into four exercises and four secret techniques, including the various secret techniques that were finally performed by the four people such as Duanqing.

These eight exercises and secret techniques are all 'natural' exercises and can be used for synthesis.

They are "The Great Method of Disintegrating the Immortal", "Chengtian Immortal Body", "The Secret Technique of Red Heart Shedding Weight and Regeneration", "The Seven Secrets of Broken Love", "The Jackdaw Breaks and Killing the Immortal Jue", "The Treasure Scroll of Immortality", "Chengtian Xian" "Record", "Shining Ying Ding Tianxian Jue"

Among them, Su Lang is not very interested in "The Seven Secrets of Love".

From Juanqing Wuxian, it can be seen that practicing this secret technique is as emotional as a facial paralysis.

This is detrimental to the image and is a huge shortcoming!

In addition, the rest of the immortal level exercises and secret techniques Su Lang are very interested.

"Tsk tut!"

"I have too many exercises!"

Su Lang licked his lips, chose a holy level exercise called "Tiantao Lingshu" and put it in the sixth practice villain, and began to practice.

This exercise focuses on improving vitality and spiritual power reserves, which Su Lang chose to make up for his shortcomings.

Immediately after.

Su Lang's gaze fell on those newly acquired techniques again.

"Synthesize again and again."

Su Lang thought, "The system combines the god-level exercises with the holy-level exercises!"

"Ding! After the synthesis is completed, you will get the immortal level technique "Canglang Xiaoyao Xiandian""

"Ding! The synthesis is complete, you get..."

"Ding! After the synthesis is completed, you will obtain the Holy-level technique "Brahma Hanmei Hegemony"."

"Ding! The synthesis is complete, you get..."

[Chapter 726: Synthesis](#)

Soon, the newly-obtained exercises were combined to a level of ten to one.

In the end, one hundred and sixty synthetic saint-level exercises and 23 synthetic immortal-level exercises were obtained.

"By the way, the number of non-synthetic fairy-level exercises is enough!"

Su Lang's eyes lit up, "Now I can completely synthesize an emperor level exercise technique!"

Immortal level exercises are already extremely rare on the Canglan Continent.

Regardless of the many immortal-level exercises on Su Lang, there are only fifty-five kinds of immortal-level exercises.

But in the outside world, any immortal-level exercise can become the town-clan exercise of a large immortal clan.

A Wuxian who has lived for millions of years has only one or two copies.

This shows how rare the immortal level exercises are, and the emperor level exercises are even more rare!

In the Canglan Continent today, the total number of emperor-level exercises in the entire continent is only a dozen.

These emperor-level exercises are basically in the hands of Emperor Wu, and they are the foundation of their lives.

It can be said that each emperor-level exercise technique represents an emperor-level powerhouse overlooking the entire continent!

Once an emperor-level exercise is born, the entire continent will be a **** storm.

The fierce battle is definitely more terrifying than the chance of becoming an emperor in the forbidden land of the emperor.

After all, the emperor's forbidden land, the Mingmian God Race cannot participate, but the birth of an emperor-level exercise technique is enough to make Emperor Wu come and beat his blood!

At this moment, Su Lang was about to synthesize an emperor-level technique!

From a total of more than sixty immortal level exercises, natural exercises were selected.

The first is the eight immortal level exercises of the four people including Duanqing Wuxian.

Then there are the "Nine Turns of the Immortal Sun True Art" from Li Xianyang, the "Illusive Sea Breaking Wave Immortal Art" from Qian Zihou, and the "Sacred Book of Reincarnation Immortal Pupil" from Cai Liao.

Finally, there is a book called "Praying for Immortals", but it is not a practice, but a classic.

"The Seven Secrets of Broken Love are eliminated directly."

"So, just use the remaining ten immortal level techniques to synthesize it."

Su Lang thought silently, and even gave a synthesis order.

"Ding! After the synthesis is completed, you will get the emperor-level exercise "Emperor Heart Samsara"!"

Inside the storage space.

A dark disc suddenly appeared.

This disc is very small, with only the palm of the hand, covered with golden lines like annual rings.

At first glance, only a dozen golden patterns can be seen, but a closer look reveals that the golden patterns are so densely packed that even if they are mentally observant, they are completely unclear!

As for this "Reincarnation of the Emperor's Heart", Su Lang could only feel extremely obscure, and he was dizzy at first glance.

"Fuck, it's an emperor-level technique, I'm also an intermediate martial artist anyway, so I can't even look at it!"

Su Lang was speechless, and his heart was extremely excited, because this awesome emperor level exercise technique belongs to him.

Moreover, when the one-click martial arts function is upgraded in the future, you can practice it in minutes!

"Big baby!"

"If Emperor Wu saw it, I'm afraid he would take it away at all costs!"

Su Lang's eyes gleamed slightly, "Then tut tut, hide it!"

The successful method actually took a few minutes.

Su Lang once again focused on system functions.

After upgrading a training function and a one-key martial arts function, his fairy jade cost less than a fraction.

Now, after the balance, it is shown that there are more than one billion sixty three million left in the lower-grade jade!

"There are so many low-grade immortal jade!"

Su Lang licked his lips excitedly, "The system, upgrade me to level 25 with the clone dispatch function!"

"Ding! Consumes 10 million lower-grade jade, the clone dispatch function is upgraded to level 24, the number of clones is +1, and the current number of clones is 24!"

"Ding! Consume 100 million lower-grade jade, the clone dispatch function is upgraded to level 25, the number of clones is +1, and the current number of clones is 25!"

"Ding! Congratulations on upgrading the clone dispatch function to level 25, and you have obtained the new bonus function 'Cool Down'!"

"Cooldown drops: After the clone's death, the cooling time is shortened from 24 hours to 1 hour!"

[Chapter 727: Improve system functions!](#)

"Is the new feature a cooling drop!?"

"Reducing the cooling time by 24 times is also a great ability!"

"The cooldown of the clone is only 1 hour, which means that the cooldown of my swallowing clone is shortened to one hour!"

"Haha, in this way, I will be able to repeatedly use the 'Swallowing Clone' in a short time and maintain the strongest combat power state!"

Su Lang is very satisfied with the new bonus feature of Cool Down!

"Next."

"It's the one-click treasure hunt. I wonder what kind of surprise this feature will bring me?"

"Could it be... Forget it, don't guess, the system has upgraded the one-click treasure hunting function to level 25!"

"Ding! Consumption of 10 million lower-grade jade, the one-click treasure hunting function has been upgraded to level 24, and the number of treasure hunting flying flying gliders has increased to 44,695,552!"

"Ding! Consumption of 100 million lower-grade jade, the one-click treasure hunting function has been upgraded to level 25, and the number of treasure hunting flying flying gliders has increased to 89,391,104!"

"Ding! Congratulations on upgrading the one-click treasure hunting function to level 25. You have obtained new bonus functions, 'The Golden Body of the Immortal' and 'Indiana Jones'!"

"The Golden Body of the Immortal: The Treasure Hunting Flying Flying Drifter's damage immunity level is raised to the Wuxian level, and it is immune to the Wuxian level and below!"

"Indiana Jones: The treasure hunt flying glider's ability to search for and collect treasures has been greatly increased, and can ignore the barriers of formations!"

"The injury-free level has been raised to the fairy level!"

"Does this mean that my treasure hunt flying flying glider can do whatever he wants on the territory of the fairy clan!?"

Su Lang grinned at the corner of his mouth, revealing a wicked smile, "Furthermore, the fairy clan's treasure hunt flying flying gliders can still ignore the barriers of the formation, once they are sent out, I am afraid that even the immortal clan's nest will be emptied!"

The one-click treasure hunt function is getting more and more perverted!

There are too many to say, you can't kill you, you can only watch your treasures!

Just ask if you are angry, hahahaha!

Of course, Su Lang knew that the treasure hunt flying gliders had shortcomings.

That is the Valkyrie, Martial Saint Realm, Wuxian Inner Realm, Emperor Wudi's life universe, and other similar alien spaces. Treasure hunting flying flying gliders cannot enter.

Once the opponent hides the treasure in the body space, the treasure hunting flying flying flying will be impossible.

"Hey, since the **** of war, no storage ring is needed."

Su Lang sighed, "My treasure hunting flying flying glider can only go out to jungle, and can only **** weak creatures when he goes to other people's turf, and disgusts others by the way. I don't know when I can break this restriction."

With a trace of regret.

Su Lang continued to upgrade system functions, and now there are still a lot of fairy jade left.

"System, upgrade the one-key empowerment function to level 4 for me!"

"Ding! Consumption of 10 million lower-grade jade, the one-key empowerment function has been upgraded to level 3, the current empowerment efficiency has been increased to 30%, and the number of initiations per day has been increased to 3!"

"Ding! Consumption of 100 million lower-grade jade, the one-key empowerment function has been upgraded to 4, the current empowerment efficiency has been increased to 40%, and the number of initiations per day has been increased to 4!"

After the system prompt ended, Su Lang nodded slightly.

The increase in empowerment efficiency to 40% is already close to half, which is pretty good.

"The balance is more than 620 million, and it can't be upgraded."

Su Lang looked at the balance, the corner of his mouth twitched again.

The system function is upgraded to advanced level, the ability is getting more and more abnormal, but the funds consumed are getting more and more scary.

For the next upgrade, every system function needs a full 1 billion inferior jade!

This number, even an ordinary fairy clan can't bear it!

It can be said that every system function is a super gold swallowing beast, and it is still the kind that is missing.

"Next time you raise enough money, you will upgrade the one-key empowerment function first."

"I don't know if this function reaches level 5, what terrifying ability can it have."

While thinking about it, Su Lang took out three hundred pieces of sacred artifacts, as well as the Fei Xian Ming Yuan halberd that he had seized from the hand of Wuxian Junqing.

These weapons are all obtained by killing the martial artist of Slaughter Heaven Tower.

Take it out at this time, naturally it is the old rule-all decomposition!

Including that fairy artifact, it must be broken down!

[Chapter 728: Decomposition of sacred and fairy artifacts](#)

"System, decompose these sacred artifacts!" Su Lang ordered.

"Ding! Decompose the high-level sacred tool, Qingshen Qianjijian*1, and you will get the soul of Wusheng*8, fairy-level materials...holy-level materials...divine-level materials, the soul of Valkyries*23..."

"Ding! Decompose the intermediate sacred tool Xuanfeng Tianwen Knife*1, and you will get the Soul of Martial Saint*5, immortal-level materials...holy-level materials..."

"Ding! Decompose the elementary sacred tool, Cloud Piercing and Wind Sword*1, and you will get the Soul of Martial Saint*3, holy material..."

A series of system prompts sounded, and the three hundred sacred artifacts were all broken down into raw materials.

And Su Lang also obtained more than 1,600 copies of the Soul of the Martial God, and more than 7,300 copies of the Soul of the Martial God, plus hundreds of previous immortal-level materials and countless saint-level materials and materials.

These sacred artifacts, even if they are treasures that have been circulated for thousands of years.

I don't know how many warriors have spent much effort and financial resources to create it.

If anyone knew that Su Lang had destroyed more than three hundred sacred artifacts in an instant, he would probably curse and violently curse the heavenly objects on the spot!

However, for Su Lang, the decomposing of these sacred artifacts was to give them a new life!

Soon, their raw materials will be refined by Su Lang into a part of super humanoid weapons!

"The dismantling of the sacred objects is complete, it's your turn!"

Su Lang looked down, and the dragon head of the Jixian Cannon opened its big mouth and firmly bit a weapon similar to Fang Tian's painted halberd, making it immobile.

But this is the immortal weapon Fei Xian Ji Yuan Ji.

Except for special circumstances, all fairy artifacts basically have artifact spirits.

Fei Xian Ji Yuan Ji is no exception.

Moreover, it has existed for a long time, and its spirit is relatively mature.

At this time, its spirit was very angry, and was struggling constantly, trying to escape!

But it is only a one-tribulation immortal weapon, and the Jixian Cannon is a four-tribulation immortal weapon. It's strange that it can run away.

"Loyalty is okay."

"It's a pity you followed the wrong master, then, bye!"

Su Lang ticked the corner of his mouth and gave the order to disassemble the Fei Xian Ji Yuan Ji!

"Ding! Decompose the elementary fairy weapon Fei Xian Ji Yuan Ji*1, you will get the soul of Wuxian*2, the soul of Wusheng*86, fairy-level materials...holy-level materials...shenzhen Grade material..."

The materials consumed in refining this immortal artifact were too much!

The system prompt sounded for a long, long time, at least tens of thousands of materials were mentioned!

And the quantity of each of these tens of thousands of materials is huge!

Su Lang felt his heart beat faster when he looked at it.

"The material of this fairy artifact alone is enough for me to refine dozens of fairy artifacts!"

"I don't know who made the immortal weapon. It's a stupid man with a lot of money!"

"Hey, you can't say that to them. After all, they can't imagine that there is such an unreasonable refiner like me in the world."

With a smug smile on Su Lang's face, he was in a great mood.

Next.

Su Lang left the battlefield directly.

It was not that he had never thought of tidying up the battlefield, he was really helpless.

Because the battlefield is too tragic, there are space holes, cracks, and rules turbulence everywhere.

As soon as Su Lang entered, he was afraid that it would trigger the 'death substitution'.

The only way is to let nature heal by itself.

Fortunately, the world's healing ability on the Canglan Continent is very powerful. No, after so many wars on the continent, it's all fine.

Leave the battlefield.

Su Lang did not return to the holy city of Yaochi.

Because within a hundred million li, there are still a large number of Cangkong Phantom Alliance Immortal Array that have not been removed.

These immortal formations are refined with a lot of materials, so you can't just keep them.

After spending a little time, Su Lang disassembled most of the immortal formations, and left the immortal formations that guarded the great city.

In this way, the Yaochi tribe has a full 13 cities with immortal formations guarding it. For ordinary immortal tribes, this is completely generous!

After decomposing and recovering the fairy formation, Su Lang sent a message to Chu Xiaobei, and then returned to the fairy palace in the sea of sky.

Because the previous ravages of the Killing Sky Tower killers destroyed a lot of places and killed a lot of creatures, Yaochi Yan Fa and other servants were taking people out to deal with things at this time.

After the war, there were a lot of complicated things, which reflected the role of Yaochi Yanfa and the others.

[Chapter 729: More than just pass it, kill it all!](#)

In the fairy palace.

The first thing Su Lang saw was Ji Ruxue and Murong Xianxian.

Because Chu Xiaobei took the pill given by Su Lang to Blue Star to practice, it will take a while to come back.

"Two beauties, look pretty!"

Su Lang looked at the two sisters, one big and one small in front of him, with the corners of his mouth slightly raised, showing a gentle smile.

At this time, both of them are Wu Zun, and their cultivation base has been consolidated a lot.

"Brother Su Lang, are you okay!"

"I heard Li Xianyang say that a lot of quasi immortals and martial sages from Slaughter Sky Tower came outside!"

While Ji Ruxue said eagerly, she circled Su Lang several times, looking for a wound on Su Lang's body.

However, Su Lang didn't lose a single hair, of course she couldn't find any wounds.

But she was still worried and went to untie Su Lang's clothes to see if there were any wounds.

"Don't look for it."

Murong Xianxian smiled dumbly, "Brother Su Lang is definitely not injured!"

"Isn't it just some quasi immortals, I killed them all."

"Not only that, I also killed four real Wuxians!"

Su Lang rubbed Ji Ruxue's head with a smile, only to feel that the hair was smooth and soft, very comfortable.

"Just not hurt!"

Ji Ruxue breathed a sigh of relief and patted his chest, making waves a little.

"If you don't pay attention, the little girl has grown so big!"

Su Lang glanced, a hint of playfulness was outlined at the corner of his mouth.

Ji Ruxue didn't know Su Lang's thoughts, with a lovely smile on her face: "I'm only thirteen years old, and I will grow taller and bigger in a few years!"

"Yeah!"

Ji Ruxue bounced happily, bringing another wave of waves.

"Hehe!"

Seeing this, Su Lang couldn't help but smile again.

"Huh, big pervert, dead pervert!"

A cold snort came from a distance, and soon the streamer Chu Xiaobei had turned flying over and fell in front of the three Su Lang.

Chu Xiaobei was watching the scene just now, so he was looking at Su Lang with contempt.

However, there seems to be a little concern in the contempt.

"Dead pervert, I received news before that there is another person in the Slaughter Tower."

Looking at Su Lang up and down, Chu Xiaobei hesitated and said, "You, did you send them all?"

"It's more than just passing it."

Su Lang laughed, "All killed, two hundred martial sages and four martial sages."

"Really!?"

Chu Xiaobei froze there like thunder, his face full of disbelief.

Those are four Wuxians, and they are definitely stronger than Qian Zihou!

The combined force of four powerful martial arts is not as simple as two plus two, and the comprehensive threat is simply exploding.

But this combination was all killed by Su Lang!

This guy is at the level of Valkyrie!

"of course it's true."

Su Lang curled his lips, "I am a man who can create miracles at hand. It's nothing to kill a few Wuxians. I will kill Wudi in the future."

"..."

Chu Xiaobei was speechless.

She really didn't know what to say about Su Lang's abnormality.

Paused.

Chu Xiaobei took a breath: "Since you are okay, then I will return to Blue Star to practice, and I will soon break through to the nine-star level."

"Wow, sister Xiaobei is about to break through to the nine-star martial arts, so amazing!" Ji Ruxue exclaimed excitedly.

Murong Xianxian also said with emotion: "Yes, Sister Xiaobei may soon become a Wuxian!"

"Oh, it's just so-so, as for the achievement of Wuxian, it's still early..."

Chu Xiaobei was very happy after receiving the praise from Ruxue and Slim.

"It won't take long for you to become Wuxian."

Su Lang's voice came from the side, his tone very serious.

"what!?"

Chu Xiaobei was stunned, "But even with the pill that Blue Star and you gave me, I won't be able to become a Wuxian in a short time."

"Didn't I tell you before that it will give you a surprise." Su Lang smiled faintly.

"You mean, cultivation base initiation?"

Chu Xiaobei hesitated and asked, "However, although you have a lot of combat power, you are only at the level of the Valkyrie in your true realm. Give me all your cultivation bases, isn't it useful?"

"Haha, I am indeed a good Valkyrie level."

"However, when I inject my cultivation base into your body, you will know how much I have accumulated over the past few days of suffering!"

The corners of Su Lang's mouth rose slightly.

[Chapter 730: Let you do it together!](#)

"amount!"

"Only a few days, not many?"

Chu Xiaobei looked at Su Lang's faint smile and asked hesitantly.

The reason he hesitated was not because Su Lang was so capable of creating miracles.

All incredible things can happen to him.

"Only a few days?"

"That was three full days."

"How unbearable it is for me, a man who is four times a day!"

A wicked smile appeared on Su Lang's face, "I can't live it anymore, I'm gushing out!"

"..."

"Dead...dead pervert!!"

"Brother Su Lang is really bad, haha!"

"I didn't expect Brother Su Lang to have such a bad side, but I really like it!"

"..."

Seeing Su Lang's evil smile, Chu Xiaobei's three daughters reacted differently, but they all blushed invariably.

"bring it on."

"Let you feel carefully how much stock I have in stock!"

Su Lang chuckled, stepped forward to hold Chu Xiaobei's wrist, and walked to the small room not far away.

"You you you, you let me go!"

Chu Xiaobei screamed with blushing face and gently twisted his body.

In fact, she also knew that Su Lang was only joking, but she felt very ashamed.

"Coco!"

"Sister Xiaobei has such a cute time too!"

Standing in place, Ji Ruxue and Murong Xianxian covered their small mouths and let out a sweet laugh like a silver bell.

"Aw, you two come too!"

Su Lang suddenly turned his head and raised his brows, revealing an evil smile.

"Wow! One is not enough, I want three more!"

Ji Ruxue and Murong Xianxue looked at each other and smiled, joking with Su Lang with their reddish faces.

"Tsk tsk."

"Someday we will do it together!"

Su Lang smiled dumbly, beckoned immediately, and continued to lead Chu Xiaobei to the room.

Ji Ruxue and Murong Xianxian also hurriedly followed.

quickly.

In the room, there are three lone men and three women, and four of them share a room.

The atmosphere is slightly warm.

Of course, what the four of us have to do is very healthy and not dirty at all.

"Ruxue, you should come first."

Su Lang's eyes turned around Ruxue and Xianxian's body, and finally fell on Ruxue's body.

Anyway, with so many cultivation bases accumulated, Ji Ruxue and Murong Xianxian are in the bottom of their realm, and I'm afraid they will fill up a little bit, so it is better to upgrade them again.

"it is good!"

Ruxue nodded obediently.

Of course Murong Xianxian and Chu Xiaobei had no objection.

Soon.

Su Lang put his hand on Ji Ruxue's smooth forehead, and then used the function of 'cultivating base and empowering'.

After the one-key empowerment was raised to level 4, the instillation efficiency increased to 40%.

Therefore, Su Lang was very careful, for fear of accidentally exerting too much force and causing Ji Ruxue to be injured.

This time the indoctrination was very fast.

It took more than ten seconds.

However, Ji Ruxue's cultivation level instantly reached the level of Quasi-God to the elementary Wu Zun!

Moreover, the cultivation base consumed during the indoctrination has not been replenished faster than Su Lang himself.

After all, he can now accumulate the cultivation base of the junior Valkyrie to break through to the intermediate Valkyrie in 36 seconds!

If it weren't for Ji Ruxue's guide to condense the space, it would be okay for Su Lang to directly break through to the Quasi-Sage level.

"Well....."

Ji Ruxue accepted the cultivation base that Su Lang instilled, and the whole person was filled with a sense of fullness, and even his surroundings were filled with powerful energy aura.

She closed her eyes tightly and was trying to get acquainted with the powerful force.

The last time I was familiar with power was only three days ago, and now I am familiar with power again.

All this is just like a dream.

Immediately after.

"Xianxian, it's your turn!"

Su Lang looked at Murong Xianxian with a gentle smile.

"Hmm."

Murong Xianxian nodded and closed his eyes.

After consuming the number of inoculations once again, Su Lang raised Murong Xianxian's cultivation to the realm of quasi-god.

Then Murong Xianxian also fell into a state of familiar power.

"Would you like to give them a space guide?"

Su Lang touched his chin, muttering hesitantly.

If you don't give the two girls the space guide, they must spend a long time to condense the space guide to become the **** of war.

But if they give them space, they are afraid that it will affect their future martial arts.
