Chapter 741: Fairy Youtian Sword, Xiaoyou!

"It's quite expensive!"

"To evolve all the Youtian swords into primary immortal weapons, it will consume more than a thousand souls of the martial **** and more than two thousand souls of the martial god."

"The key is that the soul of Wu Sheng is not enough, I have to refine super humanoid weapons."

"Now evolving all Youtian Swords into primary fairy weapons, it will not raise the upper limit of combat power, so let's leave it for now."

Su Lang frowned, and handed out the remaining quasi-xian-level Youtian Swords, leaving only a fairy-craft-level Youtian Sword in his hand.

At this moment.

This fairy weapon level Youtian sword has already given birth to its spirit.

Its shape is different from the Jianxian Cannon and Sky Sea. It is the shape of a sword, and it can also be called a sword spirit!

The appearance of the sword spirit is almost exactly the same as the Youtian Sword, with black stripes on the white background, mysterious and unpredictable.

But there is an eye in its sword grid!

The sword grid is double-sided, one for each, and two eyes in total.

These two eyes looked quite agile, turning around, like a newly born baby full of curiosity about the world around them.

It can be seen that this sword spirit's natural intelligence is much higher than that of Xiaohai and Xiaopao's two 'mentally retarded' devices.

"After all, it consumes so much of my Wusheng Soul and the Soul of the Valkyrie."

"If I refining a mentally retarded device spirit, I will doubt if the system is intentional."

Su Lang grinned, with a slight smile on his face.

Immediately after.

He held the Youtian Sword in front of him, and looked at each other with the eyes on the Youtian Sword's grid: "From now on, you will be called Xiaoyou, don't you know."

"Xiaoyou?"

"You know! Xiaoyou knows!"

Youtianjian's eyes moved cleverly, making a crisp sound like a bell.

"You know how to communicate from the beginning."

"In addition, I learn languages very quickly. It's much smarter than the two spirits that only know how to call Ma Ma Ma Ma and fire cannons!"

Su Lang showed excitement and was very happy, "Great, I want to teach this Xiaoyou myself!"

With excitement, Su Lang taught Xiaoyou Lanxing the language.

Xiaoyou learns very fast, and he can learn the language at almost one point. He has directly mastered the language of Blue Star and has reached the level of Chinese level ten!

His communication ability instantly reached a level similar to that of Su Lang!

"Xiaoyou!"

Su Lang weighed Youtian Sword and shouted.

"I'm here, does the master need anything?"

"Master, don't play with Xiaoyou's body, it's itchy!"

"Master, stop it, does the master want to be hacked?"

"..."

Xiaoyou was very excited just as soon as he learned the language of Blue Star, so when Su Lang asked, he began to answer and answer continuously.

"Uh....."

"Xiaoyou turned out to be like this?"

"Answer more than a dozen sentences as soon as you ask? And it's saucy and sturdy, want to cut me?"

Su Lang stared, and the corners of his mouth twitched, feeling that the sword spirit also had a bit of sand sculpture.

"What is the master staring at?"

"Don't stare at people like that, it's so shy!"

"Does the master want to be poked blind?"

"Can Xiaoyou want to pierce the master's second generation body?"

"..."

Xiaoyou and Su Lang looked at each other, each sentence after another, perfectly interpreting what is called Huatang!

"My day."

"This sword spirit is too showy!"

Su Lang couldn't help rolling his eyes fiercely.

Immediately, he quickly put the Youtian Sword into the storage space to prevent it from continuing to talk.

Immediately after.

Su Lang turned his eyes, took back all the clones from the Biyu clan, and gave Li Xianyang an order.

"Li Xianyang, the Martial Fairy of the Colchicum tribe is dead."

"You immediately go to subdue the saints near the Biyu tribe."

"There are also the Qiu Shui Xian Clan, no, now it is the Qiu Shui Saint Clan. If they are conscious and take the initiative to vote, then they will accept it. If they are not moved and wait for me to come, then they will be destroyed!"

This series of orders appeared on Li Xianyang's jade card of transmission.

"The servant must complete the Lord's order!"

Li Xianyang received the order and immediately knelt down in the direction of Su Lang.

His expression was full of gratitude and a hint of guilt.

Because he was favored by Su Lang, his combat power reached the immortal level, but he fell into a disadvantage in the first battle. In the end, he needed the Lord's rescue, and he suddenly felt sorry for the Lord's favor.

[Chapter 742: Choice of Colchicum](#)

"The first order was not executed well."

"I must meticulously complete the orders the Lord is giving now, otherwise I can only apologize with death!"

Li Xianyang was secretly ruthless in his heart, and immediately returned to the Biyu Saints, gathered all the Saints, went to the surrounding Saints, and included them in the territory of Su Lang's rule!

Su Lang was not interested in what Li Xianyang would do.

With Li Xianyang's Wuxian-level combat power, there is no threat around them. Those holy races either surrender or perish. There is no third choice!

"Just broke through three small realms."

"It is now a nine-star level cultivation realm."

"It's a pity that the skills I practice are limited now, which delays the understanding of the rules and is unable to enter the martial arts for the time being."

"The rules are not perfect. Even if the cultivation level is sufficient, I can't choose to be promoted, otherwise the foundation is not strong, and it will become a big problem in the future."

"The most urgent task is to practice the exercises. The cultivation level can be temporarily put on hold."

"Well, I don't know what is going on in the Slaughter Tower. Will a more powerful Wuxian be sent next time?"

"Should I upgrade the Jixian Cannon? And the sea of sky?"

"Forget it, upgrading the fairy weapon requires more materials than the Evolution Youtian Sword, so let's talk about the super humanoid weapon first."

"..."

Thinking in his mind, Su Lang adjusted the flame, looked at the state of the materials in the furnace, and continued to refine the parts of the super humanoid weapon.

In fact, sending an avatar to help Li Xianyang kill Dingbo Wuxian and Huanyu Wuxian took a dozen breaths.

At this time, Su Lang didn't delay the refining of parts.

Time is fleeting.

Chu Xiaobei, Ji Ruxue and Murong Xianxian have consolidated their cultivation bases.

Originally the three women were excited to find Su Lang, but Chu Xiaobei discovered that after Su Lang was refining the equipment, she took Ji Ruxue and Murong Xianxian to Blue Star to practice.

At this time, Chu Xiaobei's cultivation level has also reached the nine-star martial sage, only one step away is the quasi immortal. What is needed most now is the power to understand the rules.

She chose not to use the rule fairy crystal, so this process will be more difficult for her.

But Ji Ruxue and Murong Xianxian had reached the quasi-shen and possessed the space guide given by Su Lang. At this time, they had to go to the blue star to refine the space guide and achieve the position of the Valkyrie.

at the same time.

On the Biyu clan's side, the fall of the two great martial immortals caused a tremendous panic.

All the holy races were plunged into fear, for fear that the mysterious person would get angry and kill himself.

However, when the people were in a panic, they saw an envoy from the Biyu clan.

The messenger of the Biyu tribe gave them two choices, surrender to Young Master Su or perish.

Without exception, all the saints chose to surrender the first time.

Originally, the envoy of the Biyu clan planned to throw out the benefits of surrendering to Young Master Su, but he didn't expect that all these saints would surrender directly without thinking about it.

All of a sudden.

The neighboring races of the Biyu tribe, the Hundred Wars Saint Clan, the Feishuang Saint Clan, and the Lianhua Saint Clan, as well as the three major Saint Clan of the north and east respectively, surrendered

and presented countless treasures of heaven and earth, rare and exotic animals, plus books The most beautiful group of women in the tribe!

Immediately, the name of Li Xianyang spread to the nine great saints and the Qiu Shui saints, and the name of Su Gongzi, the lord of Li Xianyang, made everyone feel thunderous.

The various miracles about Su Gongzi were passed from the mouths of the martial sages of the Biyu tribe and turned into various versions, which made people admire and worship.

In the end, the Colchicum clan finally lost its breath.

Their Martial Immortal was directly beheaded, which was the most feared force in this incident.

Wuxian, almost the figure at the top of the Pyramid of Canglan Continent, it is extremely difficult to kill!

At this time, the martial celestials of their Coliseum clan fell all together, without even a chance to escape!

The death of Wuxian and the mysterious murderer, like a sword on his neck, could destroy their Qiushui tribe at any time.

Of course, there are people in the Qiu Shui clan who are unwilling to surrender and want to resist with the help of the immortal formation.

But these people were quickly killed in the Qiu Shui clan's internal struggle, and the Qiu Shui clan quickly completed the change of power in just one day.

By this time, all the senior leaders of the Qiu Shui clan are people who intend to surrender.

After the internal fight was over, the Qiu Shui tribe immediately sent an envoy to the Biyu tribe without delay, and saw Li Xianyang.

The last time the direct descendants of the Colchicum tribe came, they were arrogant, defiant, pretentious, and lofty.

But this time, the ten quasi immortals who came as messengers all knelt in front of Li Xianyang, and gave their souls and hearts very humble.

Chapter 743: Create a quasi immortal in an instant!

"These soul fires, I will pass on to the Lord."

"Whether you live or die is only a matter of the Lord's thoughts, but I estimate that you have escaped with your life."

"No, no, no, not just escaped with a life, but got a great opportunity, your choice will make your future smooth!"

Li Xianyang looked down at the ten quasi-immortals below and said lightly.

"Yes!!"

"Master Xianyang, I will serve the Lord wholeheartedly, crush my bones, and do whatever I can!"

'''

The quasi-immortals hurriedly patted their hearts and assured.

In fact, from the changes in the Biyu clan, they had long seen that submitting to that mysterious Su Gongzi would gain great benefits.

After all, it is a character who can reward a set of Three Tribulations Immortal Array at will!

Thereupon.

Su Lang, who was refining a super humanoid weapon, soon received the soul fire transmitted back by Li Xianyang.

This time, there were a total of one hundred and thirty-six soul fires.

Among them, there are thirteen quasi-immortal levels, which are ten quasi-immortals of the Autumn Water Narcissus Clan, and one of the three neighboring Saint Families of the Autumn Water Narcissus Clan.

In addition, all of them are martial saint levels, from one-star martial saints to nine-star martial saints.

"It's all veteran martial saints!"

"And there are many Great Sage levels among them, and one is comparable to dozens of new young Martial Saints!"

"Not bad, this time the harvest is very good!"

Su Lang showed a satisfied smile on his face, and then put all these soul heartfires into the sea of knowledge.

Immediately afterwards, he collected the furnace and materials in front of him and stood up.

In this day, Su Lang refined more than five hundred immortal-level materials!

At the same time, he has accumulated countless cultivations!

One day's time is equivalent to a nine-star great saint meditating for more than ten million years without auxiliary means!

If you are not restricted by the rules, you can be promoted to a martial immortal.

Su Lang estimated that he might not only be able to reach the Martial Immortal level, but also break through several levels in succession and reach the peak of the Primary Martial Immortal, the Three Tribulations Martial Immortal!

"With so much cultivation, it is estimated that many quasi-immortals can be created!"

The corners of Su Lang's mouth were slightly hooked, and he immediately took out the transmission jade card and gave the order, allowing Huangfu Qin, Yaochi Yanfa, Chiri Muzhu, and Tianyunzhi to enter the Immortal Palace.

"Wait to meet the Lord!"

Huangfu Qin and the other four knelt on the ground, respectfully kowtowing and saluting, their eyes full of fanaticism.

"You are the servants who have followed me the longest, although it really hasn't been long."

Su Lang smiled lightly, "Today, I intend to give you the opportunity so that you can quickly improve your cultivation realm without much effort."

"What!?"

"The Lord will give the servants and other opportunities!"

"This time, what a mysterious means is this to directly improve the cultivation realm for the servants and others!?"

""

Huangfu Qin, Yaochi Yan Fa and the other four had thoughts flowing in their hearts, and they couldn't help themselves.

Moreover, in their hearts, they never doubted whether Su Lang's means had any side effects, and they completely trusted and worshiped one hundred percent.

"Huangfuqin."

Su Lang smiled and said, "As my first soul fire servant, you come first." "

"Yes, Lord!"

Huangfu Qin knelt on the ground and moved his knees to Su Lang.

"Close your eyes and calm down." Su Lang said.

Huangfu Qin immediately complied.

Immediately afterwards, Su Lang put a hand on Huangfu Qin's heavenly spirit and used the cultivation empowerment function.

Suddenly, like a dam discharging, terrifying cultivation directly poured into Huangfu Qin's meridians and dantian.

These cultivations naturally became Huangfu Qin's cultivation, and there was no need for any refining process at all.

As a result, Huangfu Qin's cultivation realm began to skyrocket!

He was originally just a one-star Martial Saint, not much better than the New and Nennian Martial Saint.

But at this time, the realm of cultivation soared wildly, and the two-star, three-star, and four-star directly reached the quasi-immortal!

With such a scene, Yaochi Yanfa, Chiri Muzhu, and Tianyunzhi on the side were stunned, and their jaws were about to fall.

Only then did they understand how terrifying the opportunity the Lord was about to give this time!
A one-star martial saint turned into a quasi-immortal in an instant, which was really too exaggerated!
However, the opportunity given by Su Lang is not over!

[Chapter 744: Wuxian's chance to give away](#)

"This is a regular fairy crystal."

"When Wuxian sits down, it is a fairy-level treasure with a small probability of being able to condense."

"With this rule fairy crystal, you must be more likely to make up for your lack of rules."

"Huangfuqin, I hope you can arrive at Wuxian soon and do things for me."

While talking, Su Lang threw the rule fairy crystal down.

"Master!"

"Woo, sir, I will definitely work hard to cultivate and be promoted to Wuxian as soon as possible!"

Huangfuqin burst into gratitude, and his whole person was almost crazy with excitement.

He was originally an enemy of Su Lang, but was later coerced and had to become a servant.

But now, he has been a blessing in disguise, not only reaching the level of a quasi immortal, but also having the opportunity to break through to a martial immortal!

This is no longer being promoted in the slightest, but an even more unspeakable gift.

If possible, Huangfuqin almost wanted to give Su Lang his soul first to show his loyalty!

Simultaneously.

Yaochi Yan Fa and others on one side also looked stupid.

What they are about to get is the chance to become a fairy!

Achieving Wuxian was originally an unattainable goal in his whole life, but now because of the Lord's gift, an unimaginable opportunity can be obtained so easily!

This is simply the blessing of not knowing how many years of cultivation have come!

"Don't froze!"

Su Lang waved his hand faintly, "Huangfuqin, you go to consolidate your cultivation, and then you can go back to Fengling Clan to take a look."

"Yes, Lord!"

Huangfuqin held the rule immortal crystal and retreated respectfully.

"Yao Chi Yan Fa, you will come next."

Su Lang turned his eyes and looked at Yaochi Yan Fa.

To upgrade Huangfu Qin from a one-star martial sage to a quasi-immortal level, the realm span is indeed very large, and the instillation efficiency is only 40%, but it only consumes a quarter of Su Lang's cultivation.

This quarter of the cultivation base is equivalent to the nine-star martial sage meditating for more than two million years, even if it is half, it will have more than one million years, which is completely enough to raise Huangfu Qin's cultivation base.

At this time, Su Lang still had three quarters of his cultivation left.

The remaining Yaochi Yan Fa and others are six-star martial sages and seven-star martial sages, and these cultivation skills can't even be used up!

At this time, Yao Chi Yan Fa stepped forward and knelt down with a fanatical expression.

Use the same method.

Su Lang gave Yaochi Yan Fa a cultivation base initiation and directly raised him to the quasi-celestial level.

Subsequently, another piece of regular fairy crystal was dropped.

Next, Chiri Muzhu and Tianyunzhi also had to go straight to the quasi-celestial level to obtain regular fairy crystals.

Immediately, Su Lang had four quasi-celestial confidants.

As for the quasi immortals who have just surrendered to the Qiu Shui tribe, they can't simply reward them.

A certain contribution must be made to be rewarded!

Raising all the four of them to the quasi-immortal level, Su Lang's accumulated cultivation is still about one-fifth.

"Today's count runs out, save it."

Su Lang stood up, ready to go to the Biyu clan.

The purpose here is to harvest the wealth of the nine saints and the Colchicum.

And what Su Lang valued most was the fairy-level formation of the Colchicum tribe!

"With this celestial formation, my sky phantom and immortal formation can be improved!"

Su Lang smiled and looked forward to it.

And at this moment.

System prompts came one after another.

"Ding! "Sacred Sword of Sky Fire and Breeze" has reached the founding level!"

"Ding! "Shaoying Sword Record" has reached the founding level!"

"Ding! "Ferocious Demon Sword Array" has reached the founding level!"

"Ding! "Qingyun Point Star Sword Art" has reached the founding level!"

"Ding! "Xuanguang Changhong Sword Picture" has reached the founding level!"

"Ok?"

"Has the five sacred sword arts reached the founding level?"

Su Lang looked happy, and immediately felt the five warmths flowing out of his body, blending into his limbs.

A kind of hot spring-like comfort comes, which makes the pores relax and the mood is refreshing.

At the same time, the unnamed Wanfa Integrating Cultivation Technique was once again integrated into the Five Saint-Level Cultivation Techniques, and the rank was improved a lot!

But the unnamed exercises still haven't reached the immortal level.

"Although I haven't reached the immortal level, I will definitely be promoted to the immortal level next time!"

Su Lang thought to himself, and then opened his property panel.

[Chapter 745: Across the sky, the power of martial arts!](#)

"Properties panel!"

"In the realm of the nine-star martial sage, across the sky, has it reached the attack realm of the Second Tribulation Wuxian?"

The corners of Su Lang's mouth raised slightly, quite satisfied.

The gap between Wu Sheng and Wu Xian is really too big!

On the Canglan Continent, from ancient times to the present, it is estimated that no one can have the real combat power of the Wuxian level at the Wusheng level, even those Tianjiao who have only shocked the ages!

"Next, first choose six exercises to practice."

"This time, I don't see whether the exercise is strong or not, but whether it can make me understand the new rules."

Su Lang whispered, and immediately selected a holy level technique from the storage space.

At this time, Su Lang possessed a large number of holy-level exercises, and the combined number of natural exercises and combined success methods reached about 500!

Among them, there are many new techniques from the Colchicum tribe.

Su Lang's gaze first fell on these newly acquired techniques.

The first is a fairy-level exercise method, called "Tianze Luming Immortal Jue", which is a relatively low-level fairy-level exercise method.

Although low-level, it is a fairy-level exercise method after all, and it is a natural exercise method, which can be used as a material for synthesizing low-level exercise methods, which is very precious.

In addition to this immortal level exercise method, there are a total of fifty natural saint level exercise methods.

From these exercises, Su Lang found several holy-level exercises he needed.

The first book, titled "The Forbidden Book of Bliss in the Sky", is a rare space-based exercise technique, a type that Su Lang urgently needs.

The second book, titled "Sacred Jue of Illusion Yang Aspires the Ding," is a special yang attribute rule that interacts with the yin attribute.

The third book, titled "Mingyuan Tianji True Method", is a mysterious and mysterious technique of the 'fate' attribute, which is very rare.

The fourth book, titled "Sacred Scroll of Diluo Mountain and Sea", is the main rule of heaven and earth- the attribute of gravity, which can be regarded as one of the basic structural rules.

The fifth book, titled "The True Book of the Dead and Cold Years", can make Su Lang comprehend the mysterious and mysterious rules of death!

Except for this, I didn't find any special attributes.

Most of the remaining exercises are derived from the main attribute, allowing Su Lang to comprehend the derived rules.

Derivative rules are of course also very important. Each additional one will make the inner boundary more perfect.

"The first five books are all main attributes."

"The sixth book, please choose one at random."

Su Lang turned his eyes and chose a 'rock' system exercise method, one of the main derived attributes of the earth system.

"System, immediately place these six exercises!"

"Ding! The exercise is successfully placed, and it has started to practice automatically!"

The system prompt came.

The six martial arts villains in the mysterious black space immediately moved.

"After completing these exercises, you can continue to comprehend the rules!"

Su Lang muttered silently, a glimmer of expectation flashed in his eyes.

Soon.

He moved his body, replaced it with a clone, and came to the holy nest of the Biyu clan.

[Chapter 746: Go to see the Colchicum](#)

As soon as he appeared, Li Xianyang immediately felt something and came to see him.

Of course, Bi Yulin and the others also immediately followed, for fear that they were a step slower.

In addition to them, there are the main members of the nine saints and the Colchicum.

Because Li Xianyang knew that Su Lang would definitely summon these people, so he simply left them behind.

"Servants wait to see the Lord!"

Headed by Li Xianyang, a group of quasi-celestial martial sages knelt on the ground, their heads crushed in black.

These are all strong men standing on the upper level of the Canglan Continent Pyramid, but they are as humble as a bug.

The quasi-celestial warriors of the Colchicum and the Nine Great Sages tremble, for fear that they will make a little mistake and cause dissatisfaction with the new master.

Therefore, not only did they dare not even look at Su Lang, but they did not even dare to breathe. They were all tense as tight as a rubber band.

Of course, they could still feel the fluctuations in the cultivation base of the Nine Star Martial Saint on Su Lang.

I couldn't help but feel a little strange.

The master I'm waiting for, the realm of cultivation is only nine-star Martial Saint level?

Could it be, what kind of person is the Lord?

Is it the direct blood of the ancient immortal tribe, or simply the direct blood of the emperor tribe?

Everyone thought in their hearts, and felt more and more that an extremely terrifying force was standing behind Su Lang. When they were frightened in their hearts, there was a contradiction in joy.

The power of the Lord is strong, so of course they have a lot of benefits!

"All get up."

Su Lang sat on the head and waved his hand faintly.

Immediately after a glance, Su Lang's attribute panel of the strong men was called out, and everyone's information was immediately clear.

"You made the right choice."

Su Lang said to the newly surrendered quasi-martial sages, "As long as I do things with my heart, I will ignore the predecessors and reuse your wait."

"Yes!"

"Thank you Lord Longen!"

"The Lord is the master of virtue and virtue!"

"The servants will do their best to do things for the Lord, even if they give their lives, they will not hesitate!"

"..."

The thirteen newly surrendered quasi immortals took the other martial sages and bowed their heads one after another.

"Don't talk nonsense."

"I want to see your actions."

"Now, Hyun Level Immortal, you will lead the way. I'm going to see you Qiushui Clan."

Su Lang pointed a finger and hit a glamorous female quasi fairy.

"Yes, Lord!!"

Xuan Jiuxian was flattered at once, suppressing his ecstasy, showing a charming smile, instantly showing a variety of amorous feelings.

Seeing this scene, the other quasi immortals were immediately envious.

It is a great honor to be ignorant by the Lord, and the future is boundless!

But they didn't even know that Su Lang was not interested in the appearance of Xuan Lianxian, just because her cultivation base was the highest among the people.

This Xuan-level immortal has almost half-footed into the realm of Wuxian, and he is considered a talent.

"Let's go."

Su Lang got up and said lightly.

"Yes!"

Everyone got up one after another, Li Xianyang and Xuan Xiaoxian led the way, while the others followed behind.

A large group of people surrounded Su Lang, passing through the teleportation array one by one, across the three saint race areas, and came to the territory of the Qiushui tribe.

The territory of the Colchicum tribe is very large, almost the total area of the ten holy tribes including the Biyu tribe.

And the aura here is stronger and more abundant.

Four cities stand, the strong are like clouds, and the overall strength is a realm higher than the saints.

But Su Lang is not interested in this.

He directly asked Hyoshui Wuxian to join him to the headquarters of the Colchicum tribe.

The headquarters of the Colchicum tribe is a huge lake named Colchicum.

This lake occupies a large area, and the edge is not visible at a glance, just like a sea.

But Su Lang's spiritual power was so majestic, it instantly enveloped it.

I saw Qiuxian Lake like a bright moon falling down on the ground, with autumn waves rippling and fairy aura overflowing.

The headquarters building is built on the bottom of the lake, and it is white all over, and it is natural at first sight.

It has to be said that although the Colchicum clan is a Xinnen clan, after two million years of accumulation and precipitation, the foundation is still much deeper than that of the holy clan.

[Chapter 747: Waving and arranging the Five Tribulations Immortal Array](#)

Su Lang stopped on the edge of Qiuxian Lake.

Everyone behind him also stopped, bowed their heads, and dared not make noise.

In the distance, a large number of martial artists of the Colchicum tribe formed a guard of honor and formed a welcoming team, but they did not dare to move forward, and could only greet them silently with an uneasy mood.

Su Lang was not interested in these people either, and directly began to observe the fairy formation.

The fairy array of the Colchicum tribe is the mist that evaporates around the lake.

These mists condense the rules of the water system and some derived rules of the water system, and the defense is strong and endless.

It also has the ability to counterattack in the dark, which can consume the body and soul of the enemy, erode its intelligence, and is extremely insidious.

But this immortal formation was vulnerable to Su Lang's eyes.

Even if you don't need the ability to control the formation, you can get rid of it directly!

"Is this the Three Tribulations Immortal Array of your Immortal Clan?"

Su Lang smiled and shook his head, "It's...the flaws are continuous, you can break it with one finger!"

This statement came out.

Xuan Xiaoxian and the others were at a loss and were afraid to speak.

Immediately afterwards, they saw Su Lang stretch out a finger, and with a single tap, a group of terrifying force of rules condensed and fell into the formation.

"this is!?"

"It's a Wuxian-level attack! And it's not just a Wuxian!"

"The master seems to have only a nine-star martial sage in the realm of cultivation, but it is incredible to be able to perform a Wuxian level attack at will!"

"Look! Under the Lord's attack, the fairy array started to collapse in an instant!"

"Our immortal formation has gone through millions of years of perfection, and we think it has no flaws, but it has been found out by the Lord!"

"One finger can break through the Three Tribulations Immortal Array, the master is also superb in the formation of the second generation of attainments, maybe the Biyu Clan Immortal Array was refined by the master!"

"Strong combat power and extraordinary formations. The lord I waited for must be the most talented genius for thousands of years. If there are no accidents, I will be the throne!"

"..."

When everyone was discussing, they saw that the immortal array collapsed under Su Lang's fingers, and finally vanished into ashes.

This scene directly saw the guard of honor warriors in the distance dumbfounded.

A good fairy formation, which has been standing in Qiushixian Lake for millions of years, was broken by a finger of the new master! ?

God, what a powerful Lord this is!

Some warriors could not help kneeling on the ground, buckling their heads frantically.

At this time.

Su Lang stretched out his hand, and a large amount of material was taken out from the Colchicum Lake and fell into his hands.

When Su Lang destroyed the formation, he deliberately did not destroy these formation materials, otherwise it would be too wasteful.

Most of these immortal array materials are immortal!

It can be said that most of the accumulation of two million years of the Colchicum tribe has been used in this fairy formation.

Therefore, Su Lang has gained a lot!

However, after seeing Su Lang destroying the immortal formation, the Xiu Xiaoxian and others of the Qiucian tribe directly collected the materials and sighed in their hearts.

The formation of the immortal clan's two million years of accumulation only at night, is that just destroyed.

After the Qiushui tribe, is there no fairy formation for protection?

After all, he was forced to surrender, and he was not treated by the Lord!

The Colchicum and others were a little depressed.

But at this moment.

Su Lang suddenly waved his hand, and an overwhelming array landed from the sky, directly covering the entire Qiushixian Lake!

This formation is gleaming, with faintly inky colors, sometimes turning into illusory mist, sometimes condensing into a silky thin barrier.

This immortal formation, called the Phantom Sky Lingbo United Immortal Formation, on the basis of its original defensive power, illusion concealment and concealment capabilities, and counterattack capabilities have reached a very terrifying level.

Even if a martial immortal of the Four Tribulations came, he would be trapped in it.

If it were the Wuxian of the Five Tribulations, it would not be able to break free gradually, but it would not be possible to break the formation at all, unless some powerful external force was used.

After seeing the Three Tribulations Immortal Array of the Qiucian Clan, Su Lang immediately grasped it, and merged with the former and Cangkong Phantasmal Immortal Array to create this more powerful Five Tribulations Immortal Array.

[Chapter 748: Otherwise I will not forgive you](#)

The original two Three Tribulations Immortal Array could not become a Five Tribulations Immortal Array no matter how they were made.

But Su Lang's formation skills had reached the supreme level.

The Three Tribulations Immortal Array of the Qiucian Clan is a combined formation of five celestial formations and a large number of quasi-celestial formations.

Therefore, after Su Lang perfected the flaws in these formations, he used each immortal formation as the skeleton, using the quasi-immortal formation and the powerful holy formation as flesh and blood, to construct this powerful Five Tribulations Immortal Formation.

"this is!?"

"The fairy formation is a stronger fairy formation!"

"Oh my god, I have seen this kind of heavy aura and vision in ancient books. I'm afraid this immortal formation already possesses the defensive ability of the Five Tribulations Martial Immortal!"

"The Lord demolished our immortal formation, and then gave us a Five Tribulations Immortal Formation. From the beginning to the end, the Lord is rewarding us, not beating!!"

"The new master I'm waiting for, really don't care about the predecessors, the master, the master, I will kill the stubborn people in the clan and take refuge in the master. This is the most correct choice!"

"The Lord has set up a Five Tribulations Immortal Array in an instant. On his surface, the cultivation base of the Nine Star Martial Saint is afraid of false appearances, and the Lord is at least an ancient immortal-level power!"

"Even if it is powerful, you can't set up an immortal formation in an instant, no, even an emperor-level array mage can't do it! What is the identity of the Lord? It's really mysterious!"

"..."

When the Qiu Xian Clan and others were in ecstasy, they were shocked by Su Lang's formation skills, which caused a flurry of thoughts and brain supplements.

"This Five Tribulations Immortal Array can keep your Colchicum tribe safe."

Su Lang said lightly, "I hope you don't let me down."

"Thank the Lord for the generous gift!"

The warriors of the Colchicum clan kowtowed one after another, doing their best to show their loyalty.

The other nine saints were envious, even their eyes were red!

Five Tribulations Immortal Formation!

A powerful formation that can only be possessed by the real ancient immortals!

The Colchicum tribe has actually received such a great reward!

"This Colchicum Lake is indeed in a good environment."

"From now on, the martial sages of the ten saints can freely enter and exit the fairy formations to come and practice."

"Furthermore, the nine saints can build residences in it. In times of trouble, this is a shelter for everyone."

Su Lang said, "Li Xianyang, next you send someone to build a teleportation array, and you must connect most of the cities of all the saints."

"Servant!"

Li Xianyang immediately knelt down and took his orders.

The quasi-sage martial arts of the nine saints were excited.

This Five Tribulations Immortal Array is not just for the Colchicum! It is common!

Although the fairy formations are here, they are basically common to all races.

"One more thing."

"Establish an exchange system in this fairy formation."

Su Lang continued, "You do this, Bi Yulin, and I will be rewarded after it is done."

"You will not shame your life!"

Bi Yulin knelt immediately, the joy on his face could not be concealed.

He knew that once the Lord gave a reward, it would at least be a quasi elixir of perfect quality!

"Hyun Level Immortal."

Su Lang gave a soft drink.

"Slave!"

Xuan Xiaopingxian came to Su Lang in surprise, and slowly knelt down, a pair of brackets trembling slightly, causing ripples.

Su Lang didn't even look at it: "I'm going to refine a fairy artifact recently. You go down to collect materials, down to the king rank, and up to the immortal rank. You need them all. The larger the quantity, the better."

"But you must remember, don't make all races mourn, otherwise I will not forgive you."

Nine saints, and a Colchicum, with a vast area and countless creatures, they will surely be able to scavenge a lot of materials.

Although most of them are low-level materials, Su Lang has a synthesis function, which can synthesize high-level materials in a unified manner.

One hundred god-level materials can be used to synthesize a lowest-level fairy-level material, which is simply beautiful!

[Chapter 749: You are developed!](#)

"Yes, Lord!"

"If the servant can't do it, I will apologize with death!"

Xian Xiaopingxian bowed his head and solemnly accepted the task.

It is also necessary to collect a large amount of materials without making a wailing voice. This requires everyone to voluntarily hand over their wealth, which is a huge problem.

But Xuan Xianxian had no choice.

This was the first order and request that Su Lang issued to them, and it was an order issued after the Five Tribulations Immortal Array was granted.

If they can't handle it well, they will end up miserably.

Of course, they also know that if it is done well, there will definitely be benefits!

At the same time, everyone got a new message from Su Lang, that is, the Lord can make immortal artifacts!

Immortal refining skills, another terrifying ability.

Everyone couldn't help but admire and convince them more.

"come here."

At this time, Su Lang ordered another quasi fairy of the Colchicum tribe.

This quasi immortal is known as Duize, and it is the strongest quasi immortal except for the level of Xuan.

"Servant knock on the Lord!"

Zhunxian Duize came to Su Lang's side, knelt down cautiously and kowtow, for fear that any wrong move might arouse Su Lang's dissatisfaction.

Su Lang said faintly: "All the maps and forces around the Qiushui area will be sorted out, and the map will be handed to me."

"Servant obey orders!!!"

Duize Zhunxian immediately knocked on the leader's order.

In fact, there is already a map that Su Lang wanted among the Colchicum tribe, but Zhunxian Duize believes that the map is not accurate anymore.

In order to perfectly complete the task assigned by Su Lang, Duize Zhunxian intends to personally lead people to explore and draw the latest, most complete and accurate map!

"Ning Yuan Quasi Immortal."

Su Lang spoke lightly again.

"Here!"

Ning Yuan Zhunxian immediately stepped forward to kneel, trembling, respectful.

"You go to gather all the quasi-sages and pinnacle martial gods of the ten races, such as Qiushui, Baizhan, and the next time I come again, I hope you won't miss one."

Su Lang's indifferent voice fell into Ning Yuan Zhunxian's ears, making his heart tense.

"Please rest assured, the servant must complete the order!"

Ning Yuan Wuxian also knocked on the leader's orders.

He secretly said in his heart that all quasi-sages and pinnacle martial arts must be called together.

Even those high-ranking warlords must be summoned and cost a price to make them break through to the peak martial god, so as not to suddenly break through to the peak martial **** after the summoning is completed, isn't he bad?

Simultaneously.

The rest of the quasi immortals and martial sages heard this order from Su Lang, and couldn't help but feel a little nervous.

Especially the people of the Colchicum tribe, their Martial Immortal has a history of using martial arts.

But everyone didn't dare to speculate about Su Lang secretly, so they could only wait for the opportunity to inquire about the members of the Biyu tribe.

Thinking like this, someone couldn't help but look at Bi Yulin and the others, but they met the eyes of Bi Yulin and other martial sages.

That look is like saying-you are developed!

"!????"

The martial sages of Qiushui and other tribes were surprised, but their hearts were also relieved.

They decided to find Bi Yulin and others to find out the news as soon as possible.

"Okay, all go away."

Su Lang waved his hand, threw a large number of formation keys to Li Xianyang, and immediately disappeared from the spot.

And this trick inevitably made Hyuna Leveling Immortal and the others horrified.

The methods used by the Lord when he leaves are completely invisible. What a terrifying move! ?

Regardless of what Hyoshui Wuxian and others think.

Su Lang directly returned to the sea of sky.

Recently, he has been vigilant against the counterattack of Tuantianlou, so he definitely will not stay outside for a long time.

After returning to the sea of sky.

Su Lang immediately began to improve the formation of the sky sea.

After some operation.

The formation of the sea of sky has been updated iteratively and has become the Five Tribulations Immortal Formation!

This layer of immortal formation was built on the body of the sea of sky, integrated with this immortal artifact, and almost pushed its defense force to the peak of the Five Tribulations Martial Immortal!

At this level, even the Six Tribulations Martial Immortal could hold back a long time.

After improving the formation of the Sky Sea, Su Lang thought about it and returned to the space-time crack between the Wind Spirit Race and the Blue Star.

Chapter 750: Blue Star again!

Changes with each passing day.

The big city here has now become another larger and more refined main city.

As for the original Fengling Clan main city, it was completely reduced to a secondary city.

People come and go in the city, and the Fengling and Terran warriors live in a harmonious atmosphere.

In addition, the average strength of these warriors has improved a lot, and they have gained a lot of benefits from the exchange system.

Su Lang didn't have the mind to play the world, and with a big wave of his hand, in the horrified eyes of countless people, he replaced the formation with the Magic Sky Lingbo United Immortal Formation.

With this formation, there is basically no need to worry about the cracks in time and space.

After all, no Wuxian from the Six Tribulations would go to this poor country to wander around boringly.

The emergence of the new formation method has caused an uproar in the new main city, but this naturally has the warriors below to calm down.

Su Lang directly entered Blue Star through the time-space crack.

At this time, Su Lang of the Nine-Star Martial Saint level stepped onto the land of Blue Star, and suddenly felt the power of rules that were extremely prominent.

The power of these rules manifests from the void from time to time, and it is easy to feel and comprehend.

Su Lang felt a lot of rules that he hadn't understood at the time. Of course, most of these rules were derived from the main rules.

"Unfortunately, if I want to comprehend these techniques now, I need to comprehend them from scratch just like ordinary martial artists. I cannot use convenient system functions unless I practice the related techniques."

Su Lang shook his head regretfully, then smiled again, "I don't know what benefits I can get after I get out the inner boundary and put the blue star in. By the way, there are also planets such as Mars and Venus. Even-the sun!"

Thinking of this, Su Lang couldn't help but feel a glimmer of anticipation in his heart.

In the inner boundary of the ordinary Wuxian, all the ordinary mountains and rivers on the Canglan Continent were absorbed.

The blue star and other planets are part of the core of the Infinite Realm!

The level is different!

With a slight smile, Su Lang descended on the small island in the sea.

At this time, Chu Xiaobei was taking Ji Ruxue and Murong Xianxian to practice here.

She wants to understand the rules, and Ji Ruxue and Murong Xianxian need to refine the space guide from Wuxian.

Su Lang spread out his majestic spirit and carefully observed the three women, and found that they were still in retreat.

However, looking at Ruxue and Xianxian's breath and fluctuations, they should soon be able to break through to the level of the **** of war.

After they break through, using the cultivation base empowerment can directly promote their cultivation base to the quasi-sage!

By then, the two sisters were initially able to protect themselves.

Looking at Chu Xiaobei again, her beautiful eyes are closed, her eyelashes are slender, and her body is full of tranquility, like a jade fairy.

"Sister to become the emperor, come on."

Su Lang smiled faintly, then cast his gaze on the tens of thousands of warriors.

Since the last time Su Lang took away two hundred martial sages, a long time has passed by this time. Therefore, a large number of martial arts have emerged from these tens of thousands.

The number of Wu Sheng has reached two thousand people!

In addition, all have broken through to the quasi-sage level, and none of the peak martial gods has been seen.

No way, Su Lang's pill is too powerful!

It is a quasi elixir of perfect quality, a holy pill, and it will be infinitely useful after digesting one!

"All martial sages, come up to see me."

With a thought, Su Lang accurately informed every new martial artist with spiritual power, and the rest of the people who were in retreat were not disturbed.

"The Lord is calling me!"

"I finally lived up to the master's expectations and broke through the martial sage level. This is the time when the master is serving!"

"Everything I have is bestowed by the Lord, and I must be a useful person to the Lord!"

"..."

A martial sage opened his eyes, revealing extremely enthusiastic gazes.
