"How? Dare to bet?"

Yang Shi smiled contemptuously, he also had the same idea, so he proposed this bet.

"Why not dare?"

Su Lang laughed, "However, the bet has to be changed!

If you lose, not only do you have to give me 50 gold coins, but you also have to run three laps around the Martial Arts Alliance Building, while running and shouting "I am a genius", how about? "

"Okay, that's it!"

Yang Shi's face is full of victory, and after speaking, he will return to the team.

"Hold on."

Su Lang smiled and waved.

"What? Repented?"

Yang Shi sneered, "It's too late to regret now, Su Lang genius!"

"No no no!"

Su Lang smiled faintly, "I think the verbal agreement is not formal enough, and it is safer to sign in black and white."

"what!?"

Yang Shi was stunned with a smile, and immediately looked around,
"Signature and bet? Does he really think he will win?"

"Yeah, it's too ridiculous, you still sign it?"

"When I met this Su Lang, I have a long experience!"

"He is a waste product, dare to bet with a quasi-martial artist, and now he has to sign and bet, it is simply the world!"

"Oh, what are you laughing at, people are so serious, they will definitely win."

"..."

More and more people were onlookers.

Everyone's faces are either unbelievable or sneered...

No one thinks that Su Lang can win.

"Well, since you are so serious, I promised you compassionately."

Yang Shi smiled and spread his hands, came to the window, and said to the woman with heavy makeup, "Beauty, borrow a pen and paper."

"Ok, no problem!"

The attitude of women with heavy makeup towards Yang Shi is different, that is called flattery.

She took out a pen and paper to Yang Shi, and pretended to use the back of her hand to rub Yang Shi's fingers inadvertently.

"Haha."

Yang Shi laughed and took the pen and paper to write down the game.

After signing the name, he handed it to Su Lang: "It's your turn, our genius!"

The people around them burst into laughter again when they heard this sentence.

"Ah."

Su Lang smiled noncommitantly, and took the paper and pen to sign the name.

"That's how this bet is done."

Yang Shi didn't even read Su Lang's name, "I'm waiting for you to fulfill the punishment, haha!"

"For the same, I will pay you back."

Su Lang smiled faintly, "I am also waiting for you to fulfill the punishment, and it is now!"

"what!?"

Yang Shi and the onlookers were taken aback when they heard this, and they all sneered.

at this time.

"System, give me a breakthrough!"

Su Lang's thoughts moved, and a wave of fluctuations peculiar to his breakthrough instantly spread from his body.

Because the medicinal properties deposited in Su Lang's body have not yet been absorbed, his cultivation speed at this time is still faster than a genius with no flaws!

And it has been three or four hours from the breakthrough to the primary body tempering, and the white villain has already turned golden.

If it weren't for a few words with Yang Shi, Su Lang had broken through before.

"Huh? How does it feel?"

"It seems that the waste material broke through to the intermediate tempering body?"

"No, what are you kidding?"

"..."

Su Lang's breakthrough phenomenon is obvious. The onlookers know it well, but they just don't want to believe it because it's incredible.

"What the hell!?"

Yang Shi also stared at Su Lang in disbelief.

"Hey, I am willing to bet."

Su Lang smiled and waved the agreement, "Please take the 50 gold coin bet, and then take it off and run three laps around the Martial Arts Alliance Building, while running and shouting'I am a genius', let everyone know Know you!"

"No, it's impossible. How could you break through the Intermediate Tempering Body so quickly?"

Yang Shi's face was green and white, and he said in a lithe manner, "You must have cheated. What method did you use to simulate the fluctuations during the breakthrough!"

"Cheating? Keep your dog eyes open!"

Su Lang sneered and put his hand on a spar by the window, two white light spots suddenly lit up on the spar.
