

One Click 931

[Chapter 931: You remembered my name Su Lang](#)

Looking at the property panel, it is also between the electric light flint.

At this time, Emperor Luo Youwu's voice just fell.

Su Lang, who has seen the details of Emperor Luoyou Wu, smiled faintly: "Zhouyou, when we first meet, there is nothing to give you. I can only kill a few of your subordinates and give you a gift!"

Talking.

Su Lang threw the three heads of Luoqu, Luoji, and Luoqi to Zhou You with a look of disdain and provocation.

Zhou You looked indifferent and didn't even look at the three heads.

But he was also a little surprised, because Su Lang actually said his real name.

The name Zhouyou, except for a few Wudi knows, even the warriors of his clan are very few.

But Su Lang said it!

this is.

Su Lang's laughter came again.

"Zhou You, why don't you even thank me, is it because my gift is not heavy enough?"

Su Lang raised his brows and smiled, "In that case, I will send you to death, you should be satisfied!"

Hear what Su Lang said.

A trace of killing intent flashed in Zhou You's eyes, he didn't talk nonsense, and directly urged the terrifying mental power to kill Su Lang fiercely.

Under Emperor Wu, all were ants.

In the eyes of Zhou You, no matter who Su Lang is, he is a small martial immortal, and if he offends himself, then he is guilty of death.

Even if the other party really has a background, Zhou You is completely fearless.

Not to mention that it was the other party who came to the door, even if he didn't care about it, no one would say anything to kill a Wuxian.

This is the supreme position of Emperor Wu.

At this moment.

It's close to the point.

Zhou You's mental power had fallen on Su Lang's body, and he slayed fiercely towards the sea of knowledge.

At the same time, he turned around and wanted to leave. In his eyes, the opponent was already dead.

However, something unexpected happened.

Zhou You realized that his mental power had encountered a strong obstacle and was unable to penetrate the opponent's sea of consciousness.

Not only that, but there is also a horrible counter-attack force, like a wave, following his spiritual power to counterattack the sea of knowledge!

"The realm of Kongni, you are Emperor Wu!"

Zhou You finally changed his expression, and turned half of his body back!

He finally understood why the other party dared to fight against Emperor Luoyou clan over and over again, and even dared to hit the door and send three heads to humiliate him!

It turned out that the other party was just like him, the Supreme Wudi standing at the top of the Canglan Continent!

"Who are you and why are you against me!?"

Zhou You frowned and stared at Su Lang, with a hint of surprise in his murderous eyes.

Canglan Continent has so many Martial Emperors, and everyone is familiar with them.

But the Emperor Wu in front of him was extremely strange and had never seen him before.

So, is this person disguised by a certain Wudi? Still new? Or crawled out of the grave?

"Hahahaha."

"I finally met someone who is qualified to ask my name."

Su Lang looked up to the sky and laughed, "Zhou You, you remember, my name is Su Lang, Emperor Lang!"

"Langdi!"

"You are Langdi!"

Yunyou suddenly realized!

In the Wudi circle, of course he had heard of the Langdi who had just appeared.

But in the eyes of Zhou You, that was the Tu nationality who came from the mainland fragments to the Canglan Continent, and was lucky to break through Emperor Wu with the Universiade.

At the same time, the weak Emperor Wudi in the Barrens was not worth mentioning compared to him, who was close to the intermediate Wudi level.

Therefore, Zhou You never thought that it was the little Langdi who dared to help the Xuanyu Immortal Clan, and dared to hit the door to humiliate him!

"unfortunately."

The corner of Su Lang's mouth raised, "Although you have heard of me, you haven't seen my portrait. You still can't get rid of the label of ignorance."

"Hahahaha!"

"I am ignorant?"

Zhou You sneered, "Just you, a lucky Tu nationality who ran over from mainland debris, dare you say I'm ignorant?"

Just you, a newly promoted Martial Emperor, dare to humiliate me many times, kill my subordinates, and blatantly want to send me to death?

In my opinion, you really don't know how high the sky is, thinking that if you dominate the small fragments of the continent, you will be invincible in the world?

Today, I will let you, the frog at the bottom of the well, understand how big the gap is between the new Emperor Wudi and the old one!

Of course, the moment you understand it is the moment you die! "

Speaking of the end, Zhou You's face was already full of ice, like the immortal mysterious ice.

[Chapter 932: Fight for the quiet!](#)

"cut."

"Zhou You, who do you think of as a fool?"

"Not sure, I will run over to kill you?"

Su Lang looked at Qianyou like a silly roe, his face was full of sarcasm.

"Humph!"

"I want to see what you mean by grasping."

Zhou You's eyes condensed, he looked down on Su Lang, but the other party was Emperor Wu no matter how, he still wanted to show three points of seriousness.

"Haha."

"Zhou You, don't be scared to cry later."

Su Lang laughed loudly, and his expression faded as cold as ice.

Both sides are ready to fight.

The atmosphere became more solemn, and almost all the space of hundreds of thousands of miles was frozen.

The terrifying aura deterred Luoyou Emperor City, making the warriors inside dare not show up.

Through the detection of the formation, these warriors also knew that Emperor Luoyou Wu was about to go to war with another Emperor Wu who created the door!

"Lord Luo Youwu is invincible in the world, and he will definitely be able to kill the invader!"

"I don't know which Martial Emperor it is, but he even hit the door. I really don't put the Luoyou Emperor Clan in his eyes!"

"Our Lord Luoyou Wu controls the dark avenue, and we also control the death Luoyou City. We don't know how rich the background is. The Emperor Wu who breaks in will undoubtedly die!"

"I just hope that Lord Luoyou Wu can kill the servant as soon as possible, and don't let Luoyou Emperor City be affected, otherwise we don't know how many people will die."

"Don't worry, none of us will die!"

"..."

Each of the warriors whispered, and in their words, they were full of confidence in Emperor Luo Youwu.

Also, Emperor Luoyouwu ruled the Emperor Luoyou clan for six million years, and its strength has long been carved into everyone's heart.

No one thought that Emperor Luoyou Wu would lose to Su Lang.

And at this moment.

After confronting Su Lang for a dozen breaths, Zhou You finally made a move!

"Dark Avenue!!"

It resounded through the entire secluded sea like the sound of a deep hell.

The world was suddenly enveloped by a terrifying force, there was no light in all directions, and it was completely plunged into darkness.

Su Lang was in the secluded dark avenue, and only felt that she could crush the body of the Wuxian of the Five Tribulations by simply squeezing the huge force.

Not to mention, the Dark Avenue also carries extremely terrifying abilities such as seals, erosion, deception, confusion, and weakening.

Every negative buff can torture a powerful quasi emperor to death!

Fortunately, Su Lang had already put on an emperor-class defense formation on his body, and he could hardly block the power of the dark road.

However, the emperor-level defense formation is constantly eroding and eroding, and the speed is very fast!

"Swallow the clone!"

Su Lang did not hesitate to use the swallowing clone instantly, swallowing 30 clones directly, leaving only one as a substitute for death.

Rumble!

A powerful aura erupted from Su Lang, and his combat power soared from the Wuxian Wuxian of the Five Tribulations to the Quasi-Emperor level, and it was constantly improving.

Fifteen clones are enough to make Su Lang reach the rank of quasi-emperor, thirty minutes, a full double.

However, this did not allow Su Lang's cultivation to break through to Emperor Wu's level.

It just made his combat power far surpass the average quasi emperor, greatly shortening the gap with the real Wudi.

But this is enough for Su Lang.

What he relied on against Emperor Luoyou Wu was not his own combat power, but the formation!

"Three Kill Prison Emperor Formation!"

With Su Lang's heart moved.

The ultimate move that had been prepared for Luo You appeared in an instant.

Even under the cover of the dark avenue, Su Lang was a little dizzy, but after all, he was the spiritual power of the state of emptiness, and he also understood the rules of space.

Therefore, there is no problem finding the location of Luoyou.

I saw the power of endless space abruptly overflowing from the darkness, instantly forming a space prison, separating the dark avenue, trapping Emperor Wuyou Luo in it.

The purple sky thunder domain and the golden blade forest also directly filled the entire triple-kill prison space.

The sudden scene directly changed Zhou You's expression.

"This is an emperor-level killer formation!"

"And the level is not low, it has reached the realm of Rank Four Wudi!"

"What method did the Emperor Lang use? Such a terrifying formation was arranged in an instant, and I have no time to dodge!"

"Moreover, I seem to have seen this formation in Qingyou City. What is the relationship between Emperor Lang and Emperor Qingyou!?"

[Chapter 933: Emperor Bingluoyou Jing!](#)

A lot of thoughts suddenly appeared in Emperor Wu You's mind.

In the next moment, countless space cracks were torn apart, and thunder dragons bite down in groups, and countless golden blades pierced the sky from below!

"space!"

"Thunder Element! Gold Element!"

"Do you think I have not mastered these three rules?"

"Turn squares into boundaries, gold, thunder, earth, rock...!"

Facing the fierce formation beyond his own realm, the power of a large number of rules surged out between the waves of Zhou You.

Among the power of these rules, there are also space rules, gold lightning systems, and other rules for restraining gold lightning!

Under this trick.

The space cracks, the purple thunder dragon and the golden blade that have been besieged over have slowed down, as if pressing the slow key, they can't be instantly added to the secluded body!

but.

Although the speed has slowed down a bit.

But it was only for Emperor Wu's level.

The three terrorist attacks are still advancing, and the speed is still extremely fast, it seems that Emperor Luo You Wu will be crushed to pieces in the next moment.

And just now!

"Luoyoujing!"

Zhou You flicked his hands at the same time, and a round black mirror appeared on his chest.

This black mirror is double-sided, with a smooth surface that can be seen by light. It is thin as soft as ice, decorated with simple edges, and exudes a powerful atmosphere.

"The real imperial soldier!!"

Su Lang's expression changed and he couldn't help exclaiming.

Emperor soldiers are the strongest weapons in Canglan Continent!

Like the genius of Emperor Wu Lian, they can't own them, they can only use their own rules and treasures.

The Emperor Slaughter on Xiao Slaughter's Ancestor can only use the quasi-emperor soldier of Slaughter's Sheath.

From the beginning to the end, Su Lang had only seen one real imperial soldier, that was the Baiyue Emperor Gate of the White Moon Emperor City!

An emperor soldier is almost equivalent to a martial emperor!

"Luoyou·Endless Abyss!"

With the movement of Zhou You's thoughts, one side of the Luoyou Mirror burst out with black light, forming a huge black hole around Zhouyou.

Just in the next moment.

The terrifying Fourth Rank Wudi attack of the Three Killing Prison Emperor Array fell on Zhou You viciously.

The giant black hole waved with waves, as if it would disintegrate in the next moment.

But it abruptly held on, and was still devouring the attacks of the Three Kill Prison Emperor Array.

It seems that the abyss behind the black hole is really endless!

Three kills the prison emperor outside the array.

Su Lang's entire body was equipped with an imperial defense array, resisting the attack of the Dark Avenue, and his expression was a bit solemn.

I originally thought that when the Three Killing Prison Emperor Array came out, Luo You would surely punish him, but I didn't expect that this guy would have an emperor!

This means that Su Lang is equivalent to facing two emperors, and they are two emperors who cooperate closely and seamlessly.

"The Three Killing Prison Emperor Array cannot directly kill Zhou You, it can only enter a protracted battle!"

"Although I can set up a three-kill prisoner king array again, but..."

"I have several emperor-level formations on me, as well as the three-kill prison emperor formation. The consumption is too terrifying!"

"If the two three-kill prisoner formations can't kill Zhou You instantly, then I will be stretched out."

"We must find a way to solve the energy problem!"

Su Lang narrowed his eyes, a sneer gradually appeared on his solemn face.

at the same time.

In the three-kill prison emperor formation, Zhou You also showed a deep sneer.

The previous battle changed rapidly, and a wrong step was the death abyss, but the battle situation at this time was slightly settled.

Zhou You was also able to discover that Su Lang's true combat power turned out to be only the quasi emperor!

Although it is very close to Emperor Wu, it is still a quasi-emperor!

"A mere quasi emperor, dare to call himself emperor, and dare to come to my troubles. I really can't help it!"

"This formation is really powerful, but how long can you support it? The moment you run out of energy is when you die!"

"Now, let me speed up your energy consumption! Luoyou·Dead Soul Immortal!"

Zhou You's face was full of sneers and sarcasm, and when his thoughts moved, the other side of Luo Youjing also burst into intense black light.

[Chapter 934: Luoyoucheng in the mirror!](#)

The black light on the other side of Luo Youjing is quite strange!

It unexpectedly passed through the blockade of the Three Killing Prison Emperor Formation and landed on the entire Luoyou Emperor City.

"This is...willing force!?"

Su Lang's expression changed, and he felt the special energy from the black light.

This kind of energy that passes through the Three Kills Prison Emperor Array is a 'willing force' with omnipotent attributes!

Su Lang suddenly remembered that among the exercises Zhou You practiced, there were two exercises named Dead Soul Eternal Life Immortal Jue and Tian Di Lai Chao Immortal Code.

At this time, after careful consideration, these two exercises are really like the wish power exercises, which are incense-type exercises.

Su Lang also practiced a practice called "The Secret of the Immortals" and clearly knew the characteristics of the force of the wish.

Although Yuanli has very difficult side effects, it cannot hide its horror.

At this time, in the realm of Emperor Wuyou's Third Transformation, the means of urging Willpower to display must be extraordinary!

Su Lang thought about it.

I saw that the entire endless Emperor Luoyou City had undergone strange changes under the black light of Yuanli.

The whole city seemed to be turned into a mirage, twisted and hazy, becoming more and more illusory.

However, under the city, on the sea like a mirror, the shadow of Luoyou Emperor City was reflected.

The shadow of the imperial city was reflected on the sea, but it became clearer, just like a real city.

And the real Luoyou Emperor City has become its shadow!

This weird scene of virtual reality conversion was completed in an instant.

In the next moment, hundreds of thousands of shadow warriors flew out of the Luoyou Emperor City in the mirror, densely packed and overwhelming, each with a powerful aura.

The most trash inside are all senior martial sages, the backbone is all Wuxian, there are eight quasi emperors, and a powerful existence that is infinitely close to Emperor Wu.

The terrifying aura swept the world, as if to completely wash away any enemy!

"These shadow warriors have no breath of life, nor souls, they are not alive!"

Su Lang saw the details of the shadow warriors at a glance, "It should be a method similar to 'I think, therefore I am' to resurrect the powerful men who died in the history of the Luoyou Emperor!

It's just that they are not the real resurrection, they are the powerful in the minds and thinking of the people of the Luoyou Emperor clan today.

The living warriors of the Luoyou emperor clan remember, commemorate and worship them.

Supplemented by Emperor Luoyou Wu, Emperor Bingyou Mirror, and Cultivation Method Dead Soul Eternal Life, they condense aspiration and make them recast the body of the dead soul. As long as the incense and aspiration power is endless, they will be immortal forever!

Unexpectedly, the method I expected was actually displayed by someone, Qianyou, you are really extraordinary! "

After thinking about it, that powerful dead soul warrior has rushed to Su Lang's side!

One by one, they have no intelligence, only the instinct to fight.

After approaching Su Lang, all the dead soul warriors launched an attack.

Hundreds of thousands of martial sages, thousands of martial immortals, and nine quasi emperors all shot together. That momentum and power really seemed to destroy the world!

Especially the quasi emperor who was infinitely close to Emperor Wu, between the hands and feet, the space was distorted, and the rules roared, like the existence of terror that suppressed the ages.

The power of countless rules flew all together.

Obviously it was an attack method, but because of the large number, a huge wall was formed that was advancing quickly, and he slayed at Su Lang.

"Lying down!"

"Zhou You, you are so awesome!"

The corner of Su Lang's mouth twitched, and immediately stretched out his right hand and tapped gently, "Five elements unite the imperial formation!"

A formation barrier gleaming with colorful light slammed up and collided with the attacks launched by hundreds of thousands of dead soul warriors.

"Boom!"

The horrible crash sound seemed to penetrate the earth and the clouds. Apart from the violent crash, there was no other sound in the entire world!

But the impact sound has not yet disappeared.

Hundreds of thousands of dead soul fighters launched another attack!

"Boom!"

Another extremely terrifying crash sounded, connected with the previous one, like a heart beating violently from the sky and the earth!

Of course, no matter how many people there are, and there are nine quasi-emperors, they can't break the formation of the emperor-level rain shield.

[Chapter 935: Treasure hunt flying flying](#)

Su Lang's five elements united imperial formation steadily blocked the attack of hundreds of thousands of dead soul warriors.

However, in the storage space, countless celestial jade is being consumed rapidly, and Su Lang has to take out the system balance and use it for array consumption!

"No, we must fight quickly!"

Su Lang looked solemn, his right hand flicked, and his heart moved, "Three Kills Prison, Emperor Array!!"

The countless material treasures in the storage space disappeared out of thin air, creating the second three-kill prisoner formation.

Hundreds of thousands of dead soul warriors had not launched the third attack, they were all enveloped and captured by the three-kill prisoner formation, and sealed in the three-kill prison space.

The purple sky thunder dragon roars, the golden earth sword is like a forest, and countless space cracks are like the big mouth of an unknown terrifying monster.

The Three Killing Prison Emperor Array instantly launched an attack, killing hundreds of thousands of dead soul warriors.

Under the attack of these four-turn imperial formations, even if the number of dead soul martial artists reached hundreds of thousands, they were still vulnerable.

The vast majority of the dead soul martial artists were annihilated in an instant, and the eight quasi emperors also persisted for a few milliseconds before they died.

Only the dead soul Zhundi, who was infinitely close to Emperor Wu, persisted for half a breath before being wiped out.

It can be said that this army of hundreds of thousands of terrorists was wiped out within Su Lang's fingers.

However, Su Lang was not happy.

Because he knows.

anyway.

Zhou You's purpose has been achieved, and Su Lang has consumed a lot of energy!

Moreover, those dead soul fighters are not really gone.

"Hahaha!"

"Can you really kill my dead soul warrior!?"

In the three-kill prison emperor formation, Zhou You Yangtian, who was holding a Luoyou mirror, laughed.

Immediately after.

I saw that Emperor Luoyou City in the mirror flew out of hundreds of thousands of troops again.

The army is exactly the same as before, hundreds of thousands of martial sages, thousands of martial immortals, eight quasi emperors, one infinitely close to Emperor Wu!

As soon as this group of troops appeared, they pounced on Su Lang fiercely.

With the lessons learned, they no longer formed in groups, but scattered and fought against Su Lang.

"ridiculous."

"My Three Kills Prison Emperor Formation has spatial attributes!"

The corner of Su Lang's mouth raised, and his thoughts moved, and the three-kill prison emperor array suddenly spread, like a huge mouth that suddenly opened, directly engulfing all the dead soul warriors.

In the next moment, the attacks of Rank 4 Martial Emperor level descended, killing all the dead soul martial artists.

"Hahahaha."

"Langdi, I see how long you can hold on!"

In the three-kill prison emperor formation, Zhou You sneered and stared at Su Lang as if looking at a dead person.

In his opinion.

Even if Su Lang is the lord of the South, how many immortal jade and energy can a quasi emperor have?

It's so stupid to fight a protracted battle between the realm of the quasi emperor and the emperor of the third revolution!

"Ha ha."

"Zhou You, you are too happy too soon!"

Su Lang smiled disdainfully, "In the realm of Emperor Wudi of Third Transformation, against my Three Kill Prison Emperor Formation, even with Emperor Soldiers in hand, it must be uncomfortable."

"Humph!"

Zhou You sneered again and again, "It's still that sentence, you can't beat me!"

Talking.

In the Luoyou Emperor City in the mirror, hundreds of thousands of dead soul warriors flew out.

After being killed twice, their aura has declined, but they still maintain their previous realm.

"Is it!"

"Then, let you see my methods!"

Su Lang curled his lips contemptuously, raised his hands, and shouted, "Treasure Hunting Flying Flying Drifters!"

I saw that there were countless golden-patterned honey gliders in the sky and the earth. They were chirping, flying around, as fast as electricity!

"What's the use of small things?"

After seeing the treasure hunting flying flying fly, Zhen You showed disdain.

"Ha ha."

Su Lang smiled faintly, waved his hand, and the treasure hunt flying flying flying towards Luoyou Emperor City abandoned.

Although the real Luoyou Emperor City became hazy, it did not hide in the other space.

Su Lang could easily locate the true location of Luoyou Emperor City based on spatial rules.

This huge imperial city contains huge wealth of Luoyou Imperial City, once plundered, countless resources can be obtained.

"Want to deal with my imperial city, delusional!"

Although Zhou You seemed to disdain those little golden flying squirrels on the surface, he didn't intend to let them wreak havoc in his heart.

After all, Langdi is really weird, who knows what use these mice are?

Under the control of Qianyou, hundreds of thousands of dead soul warriors rushed over and intercepted the treasure hunting flying flying gliders.

The lead quasi-emperors launched a range attack one after another, and the power of destroying the world covered a large number of flying flying flying flying treasures.

[Chapter 936: Plunder the Imperial City!](#)

In the eyes of Zhou You.

Although these treasure hunting flying flying gliders are numerous, they are absolutely vulnerable.

however.

Something that horrified him happened.

I saw the seemingly weak and fragile treasure hunting flying flying fly, in the overwhelming terrorist attack, there was no damage!

Not even one!

The treasure hunt flying flying flying through the blockade of the dead soul warriors, instantly broke into the real Luoyou Emperor City.

"how is this possible!?"

"These little flying squirrels have not lost even a single hair!"

"I am an army led by hundreds of thousands of martial sages, thousands of martial immortals, and nine quasi emperors!"

Zhou You was stunned. His life span is measured in millions of years, but he has never seen such an incredible thing!

at the same time.

In Luoyou Emperor City.

The countless Luoyou Emperor Clan warriors who were watching the battle were shocked and panicked.

I thought that under Emperor Wuyou's hands, the other party had no power to fight back, but I didn't expect that the other party not only dragged him down, but also used strange methods to attack Luoyou Emperor City.

These densely packed weird flying squirrels are monsters that even hundreds of thousands of dead souls cannot stop!

"Run away!"

"Once caught by these flying squirrels, we will undoubtedly die!"

"Can't escape, gather together and resist these monsters!"

"..."

There was chaos in Luoyou Emperor City, some people fleeing everywhere, and some people gathered together to resist the treasure hunting flying flying gliders.

Immediately after.

The swift flying flying hunters caught up with countless yelling Luoyou emperor martial artists.

"No, I don't want to die!"

A warrior showed despair, tears and nose muddied.

But then, he was stunned.

Because the treasure hunt flying flying swan who caught up with him did not kill him, but took away his space ring, and then quickly left!

The same thing is happening everywhere.

Especially those shops were immediately looted.

"These flying squirrels don't kill people, they only grab treasures!"

One by one, the escaped warriors stopped and hid their treasures strictly.

However, no matter how they hide, they will be found by the treasure hunt flying gliders.

The point is, whether it is Wu Sheng or Wu Xian, there is no way to deal with these little flying squirrels. at this time.

Someone found that the treasures hidden in the inner space would not be robbed, and they immediately told each other.

One by one, the gods of martial arts and martial arts began to open their inner space to rescue the treasures left in the city's shops. n//O-(V-/ε--I-/β--(I-)n

But they didn't open the inner space. Once opened, the treasure hunt flying flying rushed in and swept the treasures away.

There was even a quasi-emperor who was hit and donated more than 10,000 yuan to Su Lang.

In just such a few breaths, countless warriors went bankrupt, and the wealth accumulated over the years was robbed.

When everyone reacted, almost one-tenth of the wealth of the entire Luoyou Emperor City was plundered.

Don't underestimate this one-tenth of the wealth, which can be compared to several quasi emperors.

Although not all of these wealth are immortal jade or spirit jade, only a small portion is.

But even so, Su Lang had harvested a full 20,000 inferior immortal sources, which was able to support the three-kill prison emperor formation for not a short time.

The scene of Luoyou Emperor City being looted in the eyes of Zhou You made him extremely shocked.

These treasure hunt flying gliders are really terrifying.

It's simply a big killer for aggression!

"Unexpectedly, you still have this method."

"It seems that you can dominate the mainland fragments, and even occupy the barrens of the south, you have some ability."

Zhou You looked at Su Lang and slowly sneered, "Unfortunately, your flying squirrels have already been used, and I know their weaknesses. Your flying squirrels are no longer useful!

No matter how many immortal jade you rob, it is no more than a few hundred million to support the four-turn imperial formation. "

"Ha ha."

"The one who will die is never me!"

Su Lang smiled faintly, and soon dispatched the treasure hunt flying flying gliders to other cities of Luoyou Emperor Clan.

He hadn't been idle on the way to Luoyou Emperor City, he had already visited many big cities of Luoyou Emperor Clan.

At the same time, he secretly synthesized the looted materials.

He also controlled the exchange shops in Baiyue Emperor City and Qingyou City, and began to sell these materials at low prices.

[Chapter 937: Is it really immortal?](#)

no way.

Judging from the current situation, Su Lang could not make a quick battle, and could only continue to fight the war of attrition.

This requires a lot of fairy jade.

And the high-level materials synthesized by Su Lang, because of their high quality and low price, were loved by countless powerful people, and caused a huge sensation in the Baiyue Emperor City and Qingyou City.

In particular, Su Lang even took out the emperor grade materials for sale, which shocked countless people's eyes.

The quasi-emperors of the Baiyue emperor clan rushed over, wanting to take in all the emperor grade materials.

Unexpectedly, dozens of quasi emperors popped up and asked for purchases, so that they had to form a bidding trend.

The situation is similar in Qingyou City.

Even the four martial emperors of the Qingyou Emperor Realm sent clones to buy them.

The four martial emperors, who had always been harmonious, were quarrelsome because of the low-level materials sold by Su Lang.

It's not that no one tried to probe the forces behind Su Lang.

But after inquiring, there was no trace at all, so I felt uncomfortable and gave up.

In just ten minutes.

Su Lang relied on plundering Luo Youdi City and selling materials, and obtained a full 150,000 Hinayana source.

This has been able to support all the formations currently deployed by Su Lang to operate for a long time!

But Su Lang has to face another problem.

The duration of devouring the clone is about to end!

"How can this be good."

"Zhou You has the power of wish, and can clearly see my movement and state in the Three Kill Prison Emperor Array."

"If the devouring clone is over, he will definitely discover my true cultivation."

"But if the formation is arranged to cover up, it is no different from having no silver three hundred taels here."

"Forget it, it's not a big deal to be known to him, anyway, the Three Kills Prison Emperor Formation has been set up."

Su Lang frowned, did not think of a way, and could only let the true cultivation base be exposed.

but.

Other preparations are required.

"The clone dispatch has the function of 'cooling down', and it can be completely cooled in one hour."

"During this period of time, we must ensure that Zhou You cannot escape, otherwise I will lose this battle!"

While thinking about it, Su Lang disintegrated the three-kill Prison Emperor Formation that had previously besieged hundreds of thousands of dead souls.

Immediately after.

"I said before, one set is not good, then two sets!"

Su Lang looked at Zhou You in the Three Kills Prison Emperor Formation, smiled coldly, and his heart moved, and another set of Three Kills Prison Emperor Formation was embedded in the previous set of Emperor Formation.

Su Lang's formation skills are so advanced. Although they are two separate formations, they have also formed a force of alliance, greatly enhancing their combat power.

The roaring Thunder Dragon, the cold golden blade, and the terrifying space cracks are becoming more and more!

"what!?"

"You can even arrange such a formation!!"

Zhou You's expression changed, and the black hole formed by Luo Youjing's black gloom turned out to be faintly unstable.

Su Lang was also somewhat delighted to see this scene.

The three-kill prison emperor formation is worthy of the fourth rank martial emperor level, and the two sets of forcibly combined, even making the emperor holding the emperor's army show instability.

"Unfortunately, bears and fish palms are not available."

"If I want to maintain the Three Kills Prison Emperor Array, I have to sell materials. I sell the materials, but I can't set up a third Three Kill Prison Emperor Array."

"For the current plan, we can only see who can't hold on first!"

"However, just dragging like this is not a solution. The second set of Three Kill Prison Emperor Array is used to deal with Zhou You, and those dead soul martial artists must find another way to solve it, otherwise it will be enough to cause huge consumption to me."

Su Lang looked at hundreds of thousands of dead soul warriors outside the emperor-level defense formation.

After they intercepted the treasure hunting flying flying wing to no avail, they ran back under the control of Qian You to consume Su Lang's imperial defense formation.

Those powerful attacks fell on the emperor rank formation, constantly consuming Su Lang's subordinate fairy source.

"Humph."

"Dead souls live forever...Is it really immortal!?"

Su Lang sneered coldly. He, who was familiar with the rules of willingness, clearly knew the weakness of these dead soul fighters.

And this weakness is not in the dead soul warriors, but in Luoyou Emperor City.

To be precise, not only in Luoyou Emperor City, but the warriors of the entire Luoyou Emperor Clan!

[Chapter 938: Cut a hundred thousand with a sword!](#)

It is precisely because of countless Luoyou Emperor Clan warriors' longing, worship, and awe, condensing a steady stream of incense and aspirations, that allows the dead soul warriors to survive forever.

The stronger the living warriors are, the more incense will they provide and the stronger they are.

Especially those Wu Shengwuxian and quasi emperors, one person is worth a million weak and small warriors.

"Then, to kill these warriors is to draw a salary!"

Su Lang chuckled, even if the powerhouse in Luoyou Emperor City is like a cloud at this time, can he stop him?

Zhou You was trapped by the Three Killing Prison Emperor Array.

Su Lang was not trapped by the dark road of darkness!

"Luoyou Emperor City, I'm here!"

With a faint smile on his face, Su Lang supported the emperor-level defense formation, lined up the suppression of the dark avenue, and flew towards Luoyou Emperor City.

Even though the Dark Avenue suppressed Su Lang's speed very slowly, there were still a large number of dead soul fighters blocking it.

But Su Lang still quickly arrived at the real Luoyou Emperor City!

Seeing Su Lang's arrival, countless warriors in the city were so scared that their souls were dissipated, and their hearts and guts were torn apart.

The remaining three quasi emperors who contacted You Emperor Clan were all trembling, their hands trembling.

In their eyes.

Su Lang is a martial emperor!

And they still suppressed Emperor Wu You, how could they be opponents! ?

"Stop him!"

"A bunch of trash, what are you afraid of, he is only in the realm of Quasi-Emperor!"

"What's more, even if you die in battle, you can still enter the Luoyou City in the mirror and be immortal!"

Zhou You's voice resounded through the ears of the powerful, with irreversible majesty and domineering!

"This person is just a quasi emperor!?"

"How could Emperor Zhun suppress Master Zhou You!"

"..."

The three Luoyou Emperor Clan Zhundi showed bitterness, but they still had to stand up.

They brought a hundred thousand strong and an army of hundreds of thousands of dead souls, one after another, surrounded Su Lang.

Regardless of the dead soul army, they have been attacking Su Lang's imperial defense formation.

The three quasi emperors of the Luoyou emperor clan also gradually suppressed their fears, condensed their fighting spirit, held immortal weapons, and killed Su Lang!

"Kill kill kill!"

Qi Qi's sky-shaking roar was mixed with the chaotic roar of the dead soul army, and it drowned Su Lang at the same time.

At this moment, Su Lang is simply fighting thousands of troops alone with his own power!

But he was not afraid.

"Slaughter Sky Sword Sheath!"

With a thought in his heart, a scabbard appeared in Su Lang's hands, simple and mysterious, with a powerful aura.

Immediately after.

An invisible field radiated from the scabbard, covering the entire Luoyou Emperor City.

This is the Swordless Domain that can be obtained by practicing the Swordless Immortal Sutra, but it is also one of the characteristics of the Slaughter Sky Sword Sheath!

The swordless realm rejects all existences without sword hearts!

In today's world, there is only Xiao Lutian a swordman with a sword heart.

at this time.

In Luoyou Emperor City, all the sword weapons buzzed like a mouse and a cat, shivering.

At least half of the warriors of the Shiwanyou Emperor Clan used sword-like treasures.

At this time, they couldn't even control the weapons in their hands.

Even at the level of the fairy sword, its spirit is too scared to shrink!

The sacred and immortal weapons of the warriors are their own reliance, the weapon is gone, and the combat power is directly destroyed by a half.

"Before the war has started, the weapons I'm waiting for will no longer be dictated!"

"Gudu, can we really stop this powerful enemy!?"

"..."

Each warrior trembled physically and mentally, and couldn't help slowing down.

But the battle between the strong is in a flash.

When they hesitated, Su Lang waved his scabbard, and thousands of sword auras had already rushed down the sky.

The weakest of these sword auras is also the Nine Tribulations Martial Immortal level, and the strongest is infinitely close to Emperor Wu!

Moreover, these sword auras don't care about those dead soul martial artists, they all attack the living people with the breath of life.

Even if there are three quasi-emperors taking the lead in the army of one hundred thousand warriors, where is Su Lang's opponent!

Ten Dao infinitely close to Emperor Wu's sword energy besieged and killed the three quasi-emperors first!

The remaining Wuxian and Wusheng were directly defeated, and they were harvested by sword energy like leeks.

Every sword qi disappeared without killing one person.

As long as it is not exhausted, you can continue to kill the enemy!

A hundred thousand army, a dozen breaths, all will die!

"Hahahaha! Refreshing!!!"

Su Lang was very happy. After killing one hundred thousand Luoyou Emperor clan powerhouses, he gained more than forty thousand lower fairy sources!

[Chapter 939: Cut another 300,000!](#)

"Vertical!!!"

After seeing this scene, Zhou You, trapped in the Three Killing Prison Emperor's array, saw his eyes cracked, his eyes were blood red, and his pores were so angry that smoke would be emitted from his pores.

Counting the previous Luo Ji, Luo Qi and others, five quasi emperors have been beheaded by Su Lang.

In addition, there are nearly a thousand martial gods and countless martial sages who died in a united battle.

That was the accumulation of most of the Luoyou Emperor Clan over the past millions of years, and they all died in a few breaths! !

Zhou You could hardly wait to cramp Su Lang and eat his meat!

However, he was trapped in the three-kill prisoner emperor formation and couldn't get out of it for a short time. He blocked Su Lang!

And at this moment.

"Do you think I'll be finished by killing you 100,000?"

Su Lang turned around and smiled coldly at Zhou You in the three-kill prison space: "Your Emperor Luoyou is so big, killing a few hundred million more is not too much, hahahaha!"

"you dare!!!"

Zhou You's forehead bounced with blue veins and his face was twisted.

"Hehe, why don't I dare?"

"You can secretly support the Xuanyu Immortal Clan of the Six Dao Immortal Clan Formations, and you want to destroy it."

"Why don't I dare to kill your widowed and cold-blooded race?"

Su Lang sneered, with a hint of killing intent, and waved his hand gently.

Suddenly.

A large amount of sword energy flew out from the Slaughter Sky Sword Sheath, like a fairy sword whizzing past.

The dense sword qi shuttles through Luoyou Emperor City, and all those above the realm of Martial God will die!

Even the thirteen clans including the Qiu Xian tribe can raise more than one hundred thousand martial **** quasi-sages. In this Luo Youdi City, the martial **** is more than one hundred thousand?

Although the powerhouses above the Martial God of the Emperor Luoyou are distributed in the major cities, the city of Luoyou Emperor is only a part, but it is still 300,000!

And most of the wealth of this imperial city is in the hands of Emperor Luoyou Wu, and the rest is hidden in the inner space of these warriors and above.

These wealth have escaped the plunder of the treasure hunting flying flying squirrels, but they can't be avoided by Su Lang personally!

Suddenly.

Su Lang has a lot of celestial jade in his hands, which can be used to support the operation of the Three Kill Prison Emperor Array!

"Su Lang child!"

"You bastard, how dare you slaughter our people like this!"

"Unexpectedly, I want you to survive, not to die, to make you want to live, it is better to die!"

"I want to hit your southern land, and slaughter all the creatures in your southern land, from Wuxian to Mayfly, all weeds and roots!"

Seeing that the warriors in his imperial city were killed one by one, Zhou You was so angry that he vomited blood and cursed.

He was a high-ranking third martial emperor who was abruptly frustrated by Su Lang!

"Hahahaha!"

"Zhou You, I only killed some of you who are strong, which is less than one-hundredth of the total number of Luoyou Emperor Clan."

"And you, you want to kill all the creatures in my southern land? You are so cruel, and I can't compare it with a horse."

"Unfortunately, your cruelty will dissipate with your fall. You can't make me feel bad for life, life is better than death, and you can't kill me on the southern land!"

Su Lang looked at Zhou You in the Three Killing Prison Emperor Array, calmly and calmly, unmoved by the threat of Zhou You.

At this time, he obtained a large number of subordinate fairy sources.

In addition, the exchange shops of Baiyue Emperor City and Qingyou City are enough to consume with Qianyou!

The formation is able to continue to operate, and the time for the 'swallowing clone' is approaching, which is not to be feared.

The big deal, without the support of Su Lang's infinite proximity to Emperor Wu, the consumption of the formation would increase a lot.

But even so, it can last a long time!

Not to mention.

Those dead soul warriors have lost most of the strong people's incense aspirations, and they have become weaker and weaker.

I saw that those dead soul warriors who kept besieging Su Lang's emperor-level defense formation became weaker.

First of all, those of the martial sage level, they are not well-known, and they get very little incense power.

At this time, the source of the incense's aspiration power was reduced, and even the realm could not be stabilized.

What's more, it drops directly into the Martial Saint realm, turns into fly ash, and disappears completely.

Without the support of the incense willingness, the immortality of these dead soul fighters is a joke.

The dead soul martial artist of the martial arts level is also unstable, and all have slipped.

Only the nine quasi emperors, in the vast territory of the Luoyou emperor clan, were praised and worshipped by countless people, in order to maintain the quasi emperor realm, but their combat power also weakened a lot.

Due to the consumption of the dead soul martial artist, Su Lang took his salary from the bottom with a single move, which reduced a lot.

[Chapter 940: Will i keep consuming it](#)

But at this moment.

The anger on Zhou You's face gradually disappeared, turning to a sneer.

"Su Lang child."

"Do you think you can really kill me?"

"With my cultivation base of Emperor Wudi of Third Rank and millions of years of background, you want to play a war of attrition with me, what a joke!"

Zhou You looked at Su Lang disdainfully, "It looks like I am trapped at this time, and you can wreak havoc everywhere, but how long can you support such a situation?"

Killing my subordinates is nothing but ants biting and itching to me.

I have won this war before it is fought. I only need to wait slowly, and your death will come slowly! "

Disdain for Zhou You.

Su Lang didn't sneer, but only faintly admitted: "I have an emperor formation, and there are hundreds of thousands and hundreds of thousands of immortal sources, but you have my accumulation ten times a hundred times.

If the current situation is maintained, then I will definitely not be able to consume you. "

In the world of warriors, great strength is concentrated in one person, like the Emperor Luoyou clan, everything is quiet.

The Luoyou Emperor Clan is located in the north-central part of the Canglan Continent. Although its chassis is only one-tenth of the Sulang territory, its resources are super rich.

After millions of years of accumulation, Zhou You's wealth is really not comparable to Su Lang at this time.

"Hmph, you understand."

"No matter what's strange about you, you are just an ant."

"In the body of an ant, fighting against me, Emperor Wu, is simply overwhelming."

"Unfortunately you understood it too late, even if you run away now, or even surrender, I will not let you go!"

Zhou You's cold eyes fixed on Su Lang, full of violence and killing intent.

"Zhou You."

"You are so funny."

"You're right if I can't consume it, but I said, will I continue to consume it?"

Su Lang shook his head, with a faint contempt at the corner of his mouth, "Fleeing? Still surrendering? It's ridiculous!"

When the two three-kill Prison Emperor Array failed to kill Zhou You.

Su Lang had already begun to find another way to kill Zhou You, and thought of several ways.

The first method is the Tai Chi meteorite **** thunder!

This hole card, Su Lang had already gotten out of the Battle of the Wind Spirit Clan, but it was never used.

As the enemy became stronger and stronger, the Tai Chi Meteorite Thunder was also evolved to the fairy weapon level by Su Lang.

Moreover, this one-time weapon does not produce weapon spirits, and the materials required for upgrading are much less than normal weapons.

As long as Su Lang consumes materials, he can evolve into a sufficiently powerful imperial soldier.

Then shove it into the Three Kills Prison Emperor Formation to have a deep-fried turtle in the urn, which will blow you up abruptly!

However, this method is quite expensive.

The key is that once the Taiji Meteorite God Thunder explodes, the material will definitely be lost seven or eighty eight.

Therefore, Su Lang intends to temporarily shelve Tai Chi Meteorite Thunder.

The second method is similar to the first method, but the upgrade target becomes Youtian Sword.

Yes, it is the Youtian Sword, not the Slaughter Sky scabbard.

Slaughter Sky Sword Sheath needs to grow sword energy, it takes a long time, even if it breaks through to the emperor soldier, it can't kill Zhou You in a short time.

But Youtian Sword is different.

Although the consumption of materials must be more, as long as it is raised to the point where it can break through a trace of defense, then Zhou You will undoubtedly die.

However, the consumption of this method is also very large, and the materials are not necessarily enough.

Wouldn't it be embarrassing if you run out of materials, but Youtian Sword still cannot break through the defense of Qianyou?

Therefore, Su Lang plans to use the third method first.

This method is to delay for a while and wait for the completion of the practice of the Seven Immortal Sword Techniques, then there is a lot to do.

of course.

Zhou You didn't even know that Su Lang still had many methods, and thought he was too poor.

"Su Lang child."

"In my opinion, it is ridiculous that you are right!"

"You don't plan to fight a war of attrition with me, is there a way to kill me like a bamboo shoot?"

"If you had such a method, you would have used it long ago, kill me!"

"Now, what is the use of you fooling around? I will kill you in the end!"

Zhou Yousi didn't believe that Su Lang could have thunder means and directly beheaded him.

If anyone comes, I'm afraid I won't believe it.

No way, the gap between Su Lang and Zhou You was too big.

One is the quasi immortal who mentioned the realm of the quasi-emperor by secret technique, and the other is the Emperor Wuyou Luo who has dominated billions of creatures for millions of years.
