### [Chapter 941: Even the realm of Emperor Zhun is fake](#)

But this is the ignorance of the world.

Except for Xiaobei, Ruxue and other insiders, how many people know that Su Lang is an unreasonable threat?

"Zhou You."

"My method of beheading you, you will see it soon."

Su Lang smiled faintly, "Now, you can enjoy the happiness brought to you by the Three Kills Prison Emperor Array!"

"Humph!"

"When death is imminent, I'm not ashamed."

Zhou You snorted dismissively, no longer looked at Su Lang, and concentrated on fighting the Three Kill Prison Emperor Formation.

The two three-kill prisoner formations united, and the attacks continued.

Even if Zhou You held the Emperor Weapon, he also controlled the space rules, the thunder system rules, and the gold system rules, and he could eliminate the three-kill Prison Emperor's attack to a certain extent, but he was still very sad!

To be honest, he can survive until now, except for the last hole card, he has used all the methods he can use!

And that one hole card is not a last resort, Zhou You won't use it...

The battle was at a stalemate again.

Su Lang sat in the barrier of the emperor rank formation, silently resisting the siege of hundreds of thousands of dead soul warriors.

In the three-kill prison emperor formation, Zhou You held the network mirror in his hand and resisted endless attacks.

Ten minutes passed quickly.

The accident happened suddenly!

I saw that Su Lang's quasi-emperor-level aura suddenly disappeared!

Instead, the weak aura of the Five Tribulations Martial Immortal was even mixed with an extremely weak quasi-celestial aura.

Such a change directly stunned Zhou You.

"This guy, even the quasi-emperor realm is fake!?"

"This, this, this...this guy actually used Quasi Wonderland to provoke me, the Third Rank Martial Emperor!?"

"This is so crazy, how can there be such mad people in this world!?"

Lu You who discovered the truth was stunned and dumbfounded!

Compared with Tianle, Zhunxian and Emperor Wudi Sanzhuang, it is almost like a bacteria. Compared with Taishan, the gap is almost beyond description!

At first, Zhou You thought he was wrong.

Then he used more willpower to run his eyes, clearly see through Su Lang's cultivation base, completely stunned.

It's really just a quasi-xian-level realm!

This guy who is known as the Emperor Lang, who rules the South is really just a quasi-fairy-level yellow-haired kid!

Once again, Zhou You couldn't help but opened his mouth wide in horror!

This is so special, it's simply the most incredible thing in his life...no, it's the entire Canglan Continent...no, it's the most incredible thing in the history of several continents including Jingtian Continent.

Simultaneously.

Zhou You was also very surprised and delighted.

That kind of sentiment is like the inexhaustible fight after the start of the group. When the situation is very tense, the other party suddenly clicks to surrender!

"Hahahaha!"

"Su Lang child, I can't even think of breaking my head, you are just a little quasi-immortal!"

"Haha, I laughed to death, really laughed at me, a quasi immortal dare to offend me Luoyou Emperor Clan!"

"Furthermore, I dare not brazenly ask me to wait, and use unknown means to kill me, my big teeth are really going to laugh!"

"Children Su Lang, you are really the most crazy, rampant, and boldest person I have ever seen. I actually have a kind of admiration for you, hahaha!"

Zhouyou Yangtian laughed, even tears burst out.

The admiration in his mouth is true!

Su Lang's madness and boldness, in the eyes of Zhou You, really reached the extreme!

The key is that Su Lang still really fought him for several rounds.

Although the Canglan Continent is a trillion people, no one can compare it!  
at the same time.

"Zhou You, I don't agree with you."

Su Lang also faintly smiled: "Crazy? No, I am clear and bold? No, I am cautious and presumptuous? No, killing you is just a common thing."

"Hahahaha!"

Zhou You was still laughing wildly, "Now that your secret technique has failed, and you have fallen from the original cultivation base, how long can you trap me?"

You talked and laughed happily with me, just to cover up your inner fear and despair. "

"How long will you be trapped?"

Su Lang shook his head, his expression unchanged, still smiling, "I can trap you to death!"

"Still saying that I am not crazy?"

Zhou You smiled dumbly, "Well, you die with a hard mouth, I don't bother to talk nonsense with you."

#### [Chapter 942: The noisy martial emperors](#)

Talking.

Zhou You controlled some of the dead soul fighters to evacuate from the battlefield, and went to the remaining cities to gather the fighters to besiege Su Lang.

Luoyou Emperor City is a very special place for the Luoyou Emperor Clan. Without permission, the warriors in the rest of the city must never step into it.

Even if there was a great chaos in the city and hundreds of thousands of people were killed by Su Lang, the warriors of the Luoyou Emperor clan in the remaining cities did not dare to come to rescue.

Only Emperor Luo Youwu spoke in person, and the rest of the city dared to support him.

This is true even for the own race, and the rest of the races are even less likely to participate in this war.  
at this time.

The war also passed for half an hour.

The well-informed emperors already knew about the battle, but they did not come to support it unless Qian You spoke.

In fact, this is also an unspoken rule among the great emperors.

There was something wrong on one side, and the rest of the emperors could not break in without authorization. As a result, many bloodsheds occurred in the history of Canglan Continent.

Zhou You sent a dead soul warrior to order warriors from other cities in Luoyou to come over, probably because he wanted to take advantage of Su Lang's illness and demand Su Lang's life, so that Su Lang would be consumed here earlier.

Su Lang didn't care about it, and even didn't care about those dead soul martial artists.

He is now paying close attention to the martial arts villain in the mysterious black space.

The seven martial arts villains are practicing the seven immortal-level exercises of "Bro Life and Death", "Bro Yin Yang", "Bro Five Elements", "Bro Sun Moon", "Bro World", "Bro Void" and "Bro Shen Xing".

According to speculation, it should be completed in six hours.

After these seven exercises are completed, Su Lang's next series of methods can be unfolded.

"Hopefully this plan alone can kill Zhou You."

Su Lang secretly said in his heart, "If it doesn't work, you can only use other expensive methods."

at the same time.

A Zunwu Emperor is paying attention to the battle here.

They didn't enter the territory of Emperor Luoyou Clan, they just used some methods that didn't cross the bottom line to observe.

There are those who use magic weapons, those who use rules have them, and some have also activated the undercover in Luoyou Emperor City, and directly started the live broadcast with things like video stones.

In short.

The great majority of Emperor Wu knew about the battle between Su Lang and Zhou You.

Just like Emperor Red Lotus, or those who practice in retreat or refine alchemy at a critical juncture, they didn't pay attention.

The emperors who were observing the battle also sent clones to gather together and communicate with each other.

"It has been inferred that the Emperor Wu who is fighting against Zhou You is the Emperor Lang Nan, Su Lang!"

"This Su Lang is really bold. He broke into the Canglan Continent from mere fragments of the mainland and seized the barren land. As soon as he got a firm foothold, he dared to fight Zhouyou!"

"This Su Lang still doesn't know which continent fragment it came from. He is unidentified, and he is suspected of being an undercover agent in Jingtian Continent.

He tried to kill Zhou You in vain, wouldn't it be the conspiracy of Jingtian Continent? "

"It should not be. As far as I know, the conflict between Su Lang and Zhou You comes from a woman named Chu Xiaobei.

This woman is an incomparable asset, and is admired by Zhou You, who has to use special means to transfer her aptitude to his emperor.

But unfortunately, Chu Xiaobei became Su Lang's Taoist companion. How could Su Lang give up, and of course he had to call the door. "

"It turns out that it's because you don't have any reason to use that inferior method to obtain unparalleled capital, and you are in vain as Emperor Wu."

"Emperor Qingxiao Wu, you can't say that. The Xuanyu Immortal Clan is originally under the command of Emperor Luoyou, and everything belongs to Qianyou."

"Hehe, Emperor Ling Juewu, you and Zhou You have a relationship, of course you will say so."

"Hmph, I am waiting for Emperor Wu to be the overlord who slaughters the world. Everything under his command is private property. Use it whatever you want. It's not right for others to dare to interfere!"

"So arrogant and wanton, I am ashamed to talk to you!"

"Don't quarrel between the two. I don't know who will win this battle."

"Of course it was Zhou Youneng who won, but he has emperor soldiers, and he is about to break through to rank four soon!"

"It should be the Zhou tryst that won. After all, Su Lang is a fledgling, unknown name, and no emperor."

"Then, after Zhou You wins, he will kill Su Lang. Now the battle of the mainland is coming, should we save Su Lang?"

"What did he do to save him? The origin of this person is unknown and rebellious. After he died, using his inheritance, it may not be impossible to create an obedient Martial Emperor."

"I don't think Su Lang can die. This son has great talents in the formation. I want to pull him into the Qingyou Emperor realm. In the future, I will be a good helper against the Jingtian Continent!"

#### [Chapter 943: I'm already smiling](#)

"..."

A group of Wudi quarreled, almost opened up another battlefield, and fought.

But everyone thought that Su Lang should lose in this battle.

Time just passed by a little bit.

The war of attrition between Su Lang and Zhou You continued.

The warriors besieging Su Lang, in addition to the dead soul warriors, there were also a large number of powerful men from the Luoyou Emperor clan.

Although Su Lang was unscathed under the protection of the imperial formation, the energy consumption has indeed increased a lot.

and.

Su Lang did not do anything to the new warriors.

From Zhou You's point of view, this was due to the sequelae of the occult surgery, and was unable to do anything!

"Su Lang child."

"Today is your death date."

Zhou You sneered all over his face, he was already confident, and he was ready to win.

But at this moment.

Su Lang's aura suddenly soared, and he directly restored the quasi-emperor level!

"what!?"

Zhou You's mouth twitched in shock.

"This kind of secret technique against the sky cannot be used continuously for a short time!"

"Now it's only half an hour since his combat power has fallen back. He actually used secret techniques again!"

"Moreover, the side effects of this secret technique are absolutely terrifying. Is he really crazy? He dare to use this secret technique!"

How could Zhou You dare not believe that Su Lang actually used that kind of heaven-defying secret technique again!

On the contrary, the group of noisy Emperor Wu, because they couldn't feel the changes in Su Lang's breath, they didn't know what happened.

At this time.

Zhou You suddenly had a clear mind: "Su Lang's child must have wanted to escape! That's why he used the secret technique regardless of it!"

But as soon as this idea came to him, it was broken by Su Lang.

I saw Su Lang holding the Slaying Sky Sword Sheath, launching a sword aura, killing all the living warriors!

Rumble!

Wow!

A large number of Wu Shengwuxian fell like meteors!

"You still dare to do it!?"

Zhou You really couldn't understand.

Su Lang is clearly in short supply of energy and his defeat is imminent, but he does not want to flee, but consumes his strength to kill some warriors!

In the eyes of Zhou You, this is simply a way to die.

"Ha ha!"

"Why don't I dare to do it."

"Zhou You, I also hope you send more warriors to attack me!"

Su Lang smiled all over his face, without the slightest frustration about losing.

"Humph!"

"bluff!"

Zhou You smiled contemptuously, "Since you want to die faster, then I will fulfill you!"

Talk about it.

Some dead soul warriors left the team and moved to bring reinforcements.

however.

Zhou You didn't know that Su Lang was already laughing.

The warriors who came to support later were all Wu Shengwuxian, and each of them was rich in wealth.

Su Lang beheaded them all and gained a lot, and the fairy jade spirit jade he obtained could support the formation for a while.

of course.

Zhou You had no idea that Su Lang possessed the incredible ability of 'perfect plundering'.

He also thought that the treasures of the inner space of those dead warriors would be directly crushed by the power of space!

As a result, Zhou You continued to make enemies of Su Lang, and he was complacent, thinking that Su Lang would soon be consumed.

This move.

It wasn't until Zhou You lost a lot of his subordinates that Su Lang's formation did not weaken in the slightest, and doubts arose.

However, Zhou You still didn't think that those dead men had not played the role of consumption, only when Su Lang's reserve of immortal jade had not been used up.

The war of attrition continued.

Zhou You's own energy has also been consumed a lot.

After all, he maintains the imperial soldiers all the time, and has to use the power of the dark avenue and various rules to resist the three-kill prison emperor formation, which is not a big consumption.

But as Emperor Wu, he has no idea how rich he is.

The energy in the body was consumed a little, and Zhou You took out the subordinate immortal source to make up, not afraid of the war of attrition.

"Wait for you to disappear this time."

Zhou You's face was full of sneers, "Your death date is here! Hahahaha!"

#### [Chapter 944: Just laugh](#)

Time passed by every minute.

Zhou You no longer sent the people of Emperor Luoyou to consume Su Lang.

Because if this continues, the entire Luoyou Emperor Clan martial arts and above will be killed.

Especially Wuxian, even Qianyou couldn't bear to take them all to death.

Moreover, Zhou You believed that even the weakened dead soul martial artist could cause huge consumption to Su Lang and accelerate his death.

After half an hour.

Su Lang's swallowing clone effect disappeared again, and his combat power returned to a normal level.

Seeing this, Zhou You couldn't help his eyes shining, and he was extremely happy.

"Su Lang child!"

"The second time the secret technique disappeared, I think you have any means to sustain it!"

Zhou You did not hide the smile on his face, looking at Su Lang's eyes as if he was looking at a dying person.

"Just laugh, you won't be able to laugh soon!"

Su Lang curled his lips in disdain, then threw a large number of subordinate Xianyuan into the formation.

The defensive formation supported by energy maintains the same power as before, constantly resisting the attacks of hundreds of thousands of dead soul fighters.

It was the three-kill prison emperor formation, but gradually slowed down the attack, and Su Lang cancelled one.

Since the formation can no longer kill Zhou You, and the war of attrition cannot be sustained, it is enough to reduce the investment in the Three Kill Prison Emperor Formation and make it enough to besiege Zhou You.

But from Zhou You's point of view, it was clearly Su Lang's failure!

"Su Lang child!"

"Hahahaha!"

"You have even revoked the formation, and it seems you will not be able to maintain it anymore. You dare to speak up."

Zhou You let out a wild laugh, and immediately showed disdain, even more sure that Su Lang would soon be unable to hold on.

The group of Emperor Wu who watched the battle between Su Lang and Zhou You also discovered the changes in the battlefield.

Although everyone couldn't see through Su Lang's three-kill prison emperor formation in a short time.

However, the superposition of the two three-kill prison emperor formations has anomalies and characteristics, and this characteristic makes the formation look very powerful.

At this time, the characteristics of the vision disappeared, and the three-kill prison formation became thinner.

This kind of change could not be hidden from Emperor Qingxiao Wu from Emperor Qingyou realm.

The other Emperor Wu, with the exception of the Emperor Ling Juewu, had basically dabbled in the formation, and also saw the changes in the Three Kill Prison Emperor formation.

Suddenly, everyone looked different.

Some have a sneer, and some have a pensive expression.

"The formation of Emperor Lang has become weaker!"

"It is estimated that the consumption is too large, and it can't be maintained anymore!"

"I'll just say, how can the only formations be able to trap Qianyou who has the emperor soldiers?"

"This Langdi is afraid that he will soon lose. If he can't escape..."

"Hmph, I won't help. Since I dare to cause trouble, I must be prepared to face death."

"Our Qingyou Emperor Realm will protect Langdi. His formation looks similar to our Qingyou City formation, but it seems more advanced and mysterious. Such talents should not be allowed to fall."

"..."

Everyone talked a lot, all waiting for Su Lang to be defeated.

however.

In a blink of an eye, another half hour passed, but Su Lang was still alive.

The martial emperors onlookers couldn't help but stare at each other, quite surprised, Qian You also frowned slightly, a little surprised.

"Humph!"

Zhou You took a deep breath and snorted coldly, "I want to see how long you can last!"

then.

Everyone waited like this again.

Su Lang didn't bother to use Devouring Clone either.

With the quasi-xian realm, the Five Tribulations Wuxian-level combat power controls the formation, and the consumption is high, but Su Lang can afford it.

The point is that Su Lang also noticed that someone was watching.

He controls the rules of fate, involving the mysterious rules of cause and effect, and it is not difficult to achieve this.

In Su Lang's view, most of the Wu Emperors who were spying secretly were enemies and not friends, after all, he was a newcomer.

A group has an innate rejection of newcomers and is prone to hostility.

Therefore, Su Lang still intends to keep the Devouring clone to deal with the accident.

His choice made Zhou You's heart sure again!

"Humph!"

"Can last so long, it is indeed somewhat capable."

"But since you can't use the secret technique anymore, then you are really incapable of guilt, the end of the battle."

The pressure of the Three Killing Prison Emperor Array became less and less, and Su Lang showed no support again, and Zhou You completely relaxed.

The hole card that I was hesitant to use before was also deeply hidden again.

#### [Chapter 945: I'm dozing off](#)

however.

What happened next, whether it was Zhou You, Qingxiao Wudi and the others, were a little surprised.

Because more than two hours passed.

Su Lang did not even retreat, and even dozed off in the formation!

Seeing that chin looks little by little, it really seems to be falling asleep!

Tianle.

This is a battle of Emperor Wu level!

In this level of war, I can still sleep, and I have to fall asleep!

Qingxiao Wudi and the others looked at each other, speechless.

And Zhou You's mouth twitched, feeling a deep shame.

Su Lang didn't even care about such a high-end battle. He simply looked down upon him!

Simultaneously.

Zhou You also felt a little bad.

Emperor Qingxiao Wu and others also felt the strangeness in the battlefield.

Su Lang clearly couldn't hold it back and he was about to retreat, but this state lasted for more than two hours without any deterioration.

Moreover, Su Lang didn't worry about being defeated at all, so he sat cross-legged in the emperor-level defense formation.

Is this a big-hearted or well-informed one?

"This son must be a bluff."

"He must be looking for an opportunity to escape, but he hasn't found a good time or the means are not enough, so he didn't act rashly!"

"Yes, it has been so long. If you can launch a counterattack, you will have counterattacked long ago. It is absolutely impossible to wait until you are consumed weaker before counterattacking."

"It's so pitiful, he must be very scared at this time, very panicked, very desperate!"

"..."

The Wu Emperors who were watching in secret talked in a low voice.

The strangeness in the battlefield was also "see through" by everyone, thinking that Su Lang would eventually retreat in silence and despair, or even defeat!

Zhou You is not stupid, and his thoughts coincide with those of the onlookers Wudi.

His slightly surprised face slowly showed a sneer.

But at this moment!

Su Lang who was dozing off suddenly shook his whole body, and his eyes opened suddenly, revealing unpredictable eyes.

"Ding! "Breaking Life and Death" has reached the founding level!"

"Ding! "Broken Yin Yang" has reached the founding level!"

"Ding!....."

"..."

"Ding! "Broken God Form" has reached the founding level!"

The seven system prompts are exactly the reason for Su Lang's vigor!

"Finally, is all the training finished!"

"Lieyou, I'm done dozing off, and your death date is approaching."

There was a slight light in Su Lang's eyes, and a smile was drawn at the corner of his mouth.

The next moment.

The seven strands resembled the same origin, but completely different energies appeared in his body out of thin air.

When these energies merged into Su Lang's limbs, every cell, and even his mind.

Su Lang immediately felt that he had mastered seven extremely terrifying swordsmanship!

And his real attack level has also soared from the Five Tribulations Wuxian to the Nine Tribulations Wuxian!

The increase of the attack level by four small realms is the gain brought to Su Lang by the seven immortal swordsmanship.

However, this is not what makes Su Lang the most excited.

What makes him happiest is that the seven immortal-level swordsmanship training is completed, then the follow-up plan can be launched!

"The next plan."

"It's very simple...continue to practice the exercises!"

Su Lang hooked his mouth and immediately selected seven holy level exercises.

These seven saint-level exercises are relatively ordinary, basically not worth mentioning for Su Lang at this time.

But they correspond to rules that Su Lang has never practiced!

Su Lang's goal is to understand the power of these rules!

At this moment.

The level of the one-click martial arts function is 31, and the training speed has reached 2,864 million times that of ordinary Wuxian martial artists.

It only takes half an hour at most to practice a holy level exercise to the founding level.

Ordinary, easy to practice exercises, this time will be greatly shortened.

"let's start!"

Su Lang narrowed his eyes, placed the technique on the seven martial arts villains, and then slowly waited.

The other side.

When Zhou You saw that Su Lang suddenly moved, his expression was shocked, and he thought that Su Lang was finally about to make the final resistance.

But he discovered that Su Lang immediately recovered his previous appearance, as if he was asleep.

## [Chapter 946: Deduction, break a sword!](#)

"Humph!"

"Are you planning to make the final resistance, but then backed down?"

Zhou You showed contempt, "In the face of death, the previous rampant, the previous wanton, the previous boldness are gone, it really laughs at me."

After sneer.

Zhou You continued to lie dormant.

He believed that the moment when Su Lang gave the lead was not far away!

Time passed slowly.

In a blink of an eye, the seven system prompts appeared in Su Lang's mind again.

"Is the practice finished?"

"Then, continue to practice other exercises."

While thinking, Su Lang placed the new seven exercises, and at the same time did not forget the rules of comprehension.

Su Lang understood the seven remote and weak rules in only ten minutes.

It just so happened that a few newly placed holy-level exercises were finished, and Su Lang began to comprehend the rules again.

In this way, Su Lang practiced the exercises intensively.

Basically, you can comprehend 30 unfamiliar rules in one hour!

In this way, time passed quickly, and four hours passed quickly.

In addition to the more important basic rules and mysterious special rules that he had previously understood, Su Lang had already understood one hundred and sixty-eight rules at this time!

And the practice of the exercises and the comprehension of the rules are over here.

Firstly, because Su Lang has no exercises to practice, all exercises that can add new rules have been practiced.

Secondly, it was because Su Lang's reserve of Xianyuan was running out, and it would last for another hour or two at most.

"To break through Wuxian, the bottom line I set for myself is to comprehend three hundred and sixty rules."

"Now the number of rules is far from enough, don't think about breaking through Wuxian, you have to wait for a while."

"In the original plan, there was no breakthrough in Wuxian, but another method."

"I don't know what kind of moves can be deduced with my current immortal-level unnamed practice."

With a hint of expectation, Su Lang focused completely on the system function that had never been used.

The source of power!

How perverted can this one-key martial arts exercise only after reaching level 30! ?

"The system, use the source of the exercises, and perform deductions!"

Su Lang did not hesitate at all, and directly issued the order.

"Ding! Start deducing the source of the exercise!"

As the system prompt came, I saw that the various energies of the colorful streamer began to converge in the middle of Su Lang's martial sage domain, and in the chaotic area.

These colorful streams of energy are the source of the various exercises Su Lang practiced.

They will gather together, merge, transform, and sublimate into extremely powerful and terrifying moves!

Hundreds of energy streamers finally merged together, forming a strange transparent sphere.

The sphere looks transparent, but its interior seems to reveal countless different colors.

Moreover, the surface of the sphere is constantly flowing and distorting, and it seems that endless conflicts are erupting on it, so that it cannot be calm.

But at this point, the deduction of the source of the exercise is not over.

I saw the light inside the transparent sphere gradually turned white, and the twisted and fluctuating surface finally calmed down.

The whole sphere sinks and floats in Su Lang's Wusheng realm, like a beautiful pearl.

But this is still not the end!

The beautiful orb suddenly burst out, forming a white torrent, surging in all directions, blending into the martial arts realm, limbs and skeletons, and even the sea of knowledge of the brain!

"I seem like... an extra instinct!?"

Su Lang's eyes widened, only to feel that his body had undergone tremendous changes.

After the white torrent merged into the body, every cell of him seemed to have mastered an ability!

This ability is like blinking, stepping, punching, breathing, it can be called an instinct!

And the name of this ability is called-"Broken One Sword"!

This is what the system prompts to tell Su Lang. The move he deduced is called "Po Yi Jian".

"Broken One Sword" is a super move that integrates hundreds of Su Lang exercises and perfectly integrates them into one.

Of course, powerful exercises such as immortal level exercises accounted for the majority.

For example, "Broken Life and Death", "Broken Sun and Moon" and other fairy-level swordsmanship can be called the predecessor of "Bro Yijian".

#### [Chapter 947: Emperor level attack realm!](#)

'Baoyijian' is an extremely powerful attacking move.

As the name suggests, this is a sword technique.

The "one" in it represents both "one" and "all".

The so-called Tao begins with one, and does not produce one. Therefore, it is divided into yin and yang in a broad sense. The combination of yin and yang produces all things.

Therefore, one life two, two beget three, three beget all things.

In popular terms, the 'one' represents the source and all things.

Source refers to the origin of heaven and earth, the power of rules, and even the heavens condensed by three thousand six hundred imaginary rules!

And the "one" in Poyijian has this meaning.

However, it also has a literal meaning, which means 'unity', that is, one's efforts to make it break.

Simply put, it is a very strong single skill.

And the first is 'all', which means breaking a sword to restrain everything.

All things here refer to different kinds of all things, but also to the superficial meaning, ten thousand things.

In other words, breaking a sword is a range skill and can restrain countless things.

Well, sum it up in human terms.

Breaking a sword is not only a super single skill, but also a super AOE range skill. It can restrain the origin and all things.

In short, it is a very strong, invincible, and perverted sword move!

Goose at this time.

Su Lang has mastered this Wudi level abnormal sword move, and it almost turned into instinct.

"This is a sword technique that has entered the realm of Tao!"

"With this sword technique, I can cut all the way and restrain any Emperor Wu!"

"The man in front of you, who controls the dark road, can easily restrain him with a broken sword!"

"Moreover, this trick can continue to be deduced, perhaps one day, it can reach the point where the sword slashes the sky and truly destroys the world from its origin!"

Feeling the abnormal energy in his body, Su Lang couldn't help but stunned to himself. At the same time, he was very excited and opened the attribute panel.

"Properties panel!"

"Lying down!"

"The Realm of Emperor Wu!"

Su Lang's eyes widened suddenly, staring straight at the attack level of the fifth column!

His attack level, after deducing "Po Yi Jian", has reached the real state of Emperor Wu.

Although it is "One Transition Wudi -", it is also the real Wudi realm, far surpassing Zhundi by many times!

"The symbol of Emperor Wu's realm is the realm of condensing the great road, the universe of life, and the realm of emptiness."

"At this time, I have the realm of empty nirvana, and I also got a sword that can cut the avenue, so there is no living universe, and my combat power has crossed the sky and entered the realm of Emperor Wu!"

Su Lang was beaming with joy, with Po Yijian, and with the strength of Emperor Wudi, he had already succeeded in killing Qianyou for the most part.

You know, Su Lang hasn't used the normal state of Devouring Clone now, but he already has Wudi level combat power.

If you use the Devouring clone, you can't rush up!

And the reason it was said that it was mostly successful was because across the two major bottlenecks of Wuxian and Emperor Wu, the effect of swallowing the clone was uncertain for Su Lang.

"In order to be safe, we must increase our combat power."

Su Lang's eyes flickered, "Although I am strong now, I am bare-handed, unable to exert the greatest power of Po Yi Jian."

Swordsmanship, naturally, is to be performed with a good sword.

Although Su Lang's flesh and blood body can also use a broken sword, but the power is not satisfactory.

"It seems that we have to pick up the second plan that was shelved and promote Youtian Sword!"

Su Lang pondered for a moment, but did not think of any other way, so he made this decision.

Speaking of it, the characteristics of this Poyi Sword and Youtian Sword are a bit similar, and they both have an invincible taste.

#### [Chapter 948: Play as the clone of a mysterious businessman](#)

After making a decision.

Su Lang took the Youtian Sword out of the storage space.

"Wow!"

"The cute Xiaoyou has appeared!"

"Master, do you miss me? It's so uncomfortable to be locked up in a dark room, hug!"

"..."

As soon as the Youtian Sword was taken out, Qi Ling Xiaoyou ran out and talked about tuberculosis.

"..."

Su Lang looked speechless, "I'll give you a personal lift!"

"Yeah!"

Xiaoyou looked longing and looked like she wanted.

"headache....."

Su Lang held his forehead with his hands, covering his head with black lines.

Xiaoyou didn't realize Su Lang's helplessness, or didn't care at all.

She was chattering non-stop, a good fairy sword, alive and well turned into a whispering bird.

"Okay, stop talking."

Su Lang rolled his eyes severely, "If you dare to speak, I will turn you back into raw materials."

This time.

Xiaoyou suddenly ran into the main body aggrieved, and while getting in, she said: The master is fierce to me.

"call!"

Su Lang let out a long sigh, feeling that Xiaoyou was more of a headache than the opposite Qianyou.

Immediately after.

He looked straight and gave the order to evolve the Youtian Sword.

"System, evolve Youtian Sword into Emperor Soldier!"

"Ding! Insufficient materials, Youtian Sword evolves into Emperor Soldiers and lacks the imperial level material Chihun fake jade\*2, Daitiantu\*3..."

The system gave a response, and lacked a lot of materials.

Su Lang didn't have much surprise, after all, he was building an emperor, he was already mentally prepared!

He immediately began to initiate corresponding countermeasures.

The first is to continue to synthesize materials, all with the goal of emperor level, for synthesis!

The second is to send clones, change into various appearances, play as mysterious merchants, go to the major cities through Baiyue Imperial City, and trade the necessary emperor-level materials!

Because of the tight time, all the major clones were openly shouting to trade emperor grade materials.

He even held the Emperor-level materials used for trading and showed them to everyone.

At the beginning.

Everyone held that Su Lang's clones were liars.

When the clones took out the emperor-level materials used for trading, they shocked the big cities!

After the shock, everyone felt that Su Lang's clone was a fool and a lunatic.

Because Su Lang's clone only had a quasi-xian-level aura, and he dared to show off all over the place with imperial-level materials. Isn't this the way to die?

As a result, many clones were coveted, and some even attacked Su Lang's clone directly.

then.....

Everyone kicked on the iron plate and was directly killed by the clone counterattack.

Even those powerful ancient immortals, and even the quasi emperor, secretly attacked and were directly killed by Su Lang clone!

No way, the clone at this moment has the same combat power as Su Lang!

What kind of combat power is Su Lang now? Emperor Wu!

Although the attack level alone has reached the Emperor Wu level, it is also Emperor Wu!

The warriors below Emperor Wu came to cut a stubble, just like cutting leeks.

What's more, Su Lang still has the spiritual power of the realm of emptiness!

With one thought, the warriors in the city will turn into corpses!

Su Lang is kind-hearted, so he will adopt a fair and harmonious way of trading.

If you change to other black-hearted warriors, if you suddenly have such strength, you can't kill and rob innocent people everywhere?

A group of black-hearted warriors tried to kill people and steal treasures, but after being killed by Su Lang's clones, no one suddenly jumped out to do bad things.

One by one, the ancient immortal quasi-emperors with strength and financial resources found Su Lang's clone carefully, respectfully, tremblingly, and tried to trade.

at the same time.

The mysterious merchants played by the major avatars of Su Lang were naturally known by the major Wudi.

Suddenly, all Emperor Wu was dumbfounded and dumbfounded.

I won't talk about selling imperial materials everywhere, it's shocking.

But even more shocking and palpitating are the mysterious merchants selling imperial grade materials!

All of these mysterious people who suddenly appeared had Wudi level attack power, and the most important thing was that the number was as many as fifty!

Fifty Wudi level powerhouses!

What is this concept?

You know, in the entire Canglan Continent, there are only 29 Emperor Wu on the bright side!

These sudden emergence of Wudi, where did they come from, and where they belonged, it is extremely terrifying to think about it!

[Chapter 949: Where did they come from](#)

An unpleasant feeling spread among the martial emperors.

Emperor Wu even felt that Canglan Continent had been invaded by unknown forces!

As a result, a retired Emperor Wu walked out of the quiet room, and the background of the major forces was temporarily awakened. There were also emperor soldiers from all sides, all waiting.

Emperor Wu, the twins of the Baiyue Emperor clan, left the pass halfway.

The existence of Qingyou Emperor Realm, Xuandaotai and even Wudi Palace have also gathered together to discuss countermeasures.

Even in a corner, the Ziming Emperor Clan, who has always been mysterious and mysterious, also got in touch with Wudi Palace.

The emperors who sent their avatars to gather together to watch the battle between Su Lang and Zhou You also looked at each other instantly, their faces solemn, and even implied fear.

That is fifty emperor martial level powerhouses.

Where did they come from, and what purpose do they have! ?

At this time.

Another news came.

The two emperors of the Baiyue Emperor City left the pass to meet the Wudi who appeared out of thin air in the White Moon Emperor City.

Immediately after.

A lot of information about those mysterious Wudi also came back.

First of all, each of the mysterious Wudi only had the strength of the First Rank Wudi, no, they were a bit weaker than the First Rank Wudi.

Moreover, only the attack aspect reached the Wudi level, and the other aspects did not reach the Wudi level.

It can be said that these newly-appearing emperors are all imperfect emperors.

The two emperors Baiyue called these imperfect emperors pseudo-emperors.

Then, the two emperors tried to make a deal with the pseudo-emperors, and attacked side by side, trying to find out the origin of these pseudo-emperors.

However, the pseudo-emperor remained silent except for the transaction.

Even the pseudo-emperor used spiritual power to cover his face, as if he did not want to be exposed.

The two emperors Baiyue didn't dare to act rashly, killing the pseudo-emperor without authorization, and could only trade with that pseudo-emperor.

Immediately, the wealth of the pseudo-emperor made the Baiyue emperors dumbfounded!

Most of the materials that the Baiyue Emperors wanted could be obtained by the Puppet Emperors.

You know, the materials requested by the White Moon Emperors are all Wudi-level treasures.

Moreover, they are the strongest among Emperor Wu. The Emperor Baiyue has a long history and has accumulated a lot of materials that they don't know, even the materials they lack, so you don't need to think about how rare they are.

However, even if it is rare, the pseudo-emperor can take out most of it, and he said that he can find it after a little time.

It can be found, not nothing!

Light from this point.

The two emperors of Baiyue had made up for the huge terrorist forces behind these pseudo-emperors.

What a powerful force that can be sent out one by one pseudo-emperor to trade! ?

Only by possessing so many imperial treasure materials and channels for searching for those materials! ?

The Emperor Baiyue was stunned on the spot, and even more dare not move!

However, through the pseudo-emperor, they actually exchanged a large amount of treasures they urgently needed, and the price paid was completely affordable, and even earned.

After the transaction is completed.

Another thing happened that shocked the White Moon Twin Emperors.

Because the pseudo-emperor who traded with them disappeared directly.

Using a method that they couldn't see through, disappeared out of thin air, unable to find any remaining traces.

This is another mysterious method that cannot be detected!

At this moment.

The two emperors of Baiyue have already shared their experience of contact with the pseudo-emperor and the information they have found to communicate with all the emperors.

Some ancient immortals and quasi emperors who had traded with the pseudo-emperor were also summoned, hoping to learn more about the pseudo-emperor.

Those Martial Emperors who were watching the battle between Su Lang and Zhou You temporarily turned their attention to the pseudo-emperor.

But more information is no longer detectable.

As far as we know, the fifty false emperors that appeared suddenly came with the purpose of trading.

The emperors speculated that these pseudo-emperors may belong to a transcontinental superpower.

Wandering between the continents like Canglan and Jingtian, engaged in high-end business activities, specializing in doing business with Emperor Wu.

Of course, it does not rule out that these pseudo-emperors have other purposes, and the vigilance of the Wudi has not decreased at all.

#### [Chapter 950: Don't use this word to me](#)

but.

The White Moon Twin Emperors, as well as those ancient immortal and quasi-emperors, indeed traded many rare items from the pseudo-emperors.

Therefore, other Wu emperors, or those with financial resources, are also tempted.

After all, at their level, already standing at the top of Canglan Continent, these treasures that can't be found yet, basically don't want to find them on Canglan Continent.

Now those pseudo-emperors have what they want, the opportunity is rare, no one will let it go.

Everyone including Emperor Ling Juewu, Emperor Qingxiao Wu, etc., began to send subordinates, clones, or simply go out in person to contact the pseudo-emperor and conduct transactions.

When the great Wudi was very vigilant, but carefully looking for Su Lang's avatar to trade, Su Lang couldn't help laughing.

At this time, Su Lang had already contacted more than twenty emperors of Wu, and had known most of them in Canglan Continent.

From the actions and attitude changes of these Wudi before and after, it is not difficult for Su Lang to guess their thoughts.

"It must be my clone as the manpower of some transcontinental superpower!"

"They must be a little wary at this time, some panicked, and a little curious, and can't help but trade with my clone."

"How can all this be a bit like on the Blue Star, after the discovery of the New World, the attitudes and reactions of the primitive natives on it towards visitors from the civilized world!"

Su Lang thought about it, but couldn't help but laugh a few times.

The other side.

Although Zhou You was resisting the Three Kill Prison Emperor Formation, he had been observing Su Lang's reaction.

Since Su Lang went from dozing off to waking up suddenly, Lu You became alert.

But just when Zhou You thought that Su Lang was going to die, or find a chance to escape.

Seeing that Su Lang's expression changed, sometimes he was shocked, and sometimes he smiled inexplicably.

Zhou You was confused, and then determined that Su Lang did this deliberately, and wanted to use his 'scheming' to confuse him, so he slowly sneered.

Later, Su Lang took out the Youtian Sword again, and Zhou You became vigilant again.

However, Su Lang held a long sword in his hand, but his eyes flashed, not knowing what he was thinking.

Zhou You sneered even more, and secretly said: Su Lang child, you can't be scheming, you can only fight with me, are you hesitating at this time?

But it didn't take long for Su Lang to smile again, and he still couldn't hold back his smile, as if he saw a big joke.

Seeing this, Zhou You was taken aback for a moment, and immediately laughed.

"Hahahaha!"

"Su Lang child, are you completely out of tricks? You have used this trick of mystery many times!"

"I never expected that you actually put your hope on this useless strategy, you really laughed at me!"

Zhou You laughed, while unscrupulously despised Su Lang.

Hear this.

Su Lang raised his eyebrows and smiled faintly: "Zhou You, are you a frightened bird?"

Any of my actions may be threatening in your eyes, and you have to deal with it with a strong spirit?

Even if I look at you, I can make you think so much. How afraid of me are you?

He also said that I am ridiculous, who is the ridiculous person, it is very clear! "

The expression of Zhou You's expression stagnated, and then he sneered even more: "I am too lazy to fight with you, a dying man."

"Lying down."

"Please don't fight me with this word, disgusting!"

Su Lang looked like he was vomiting and rolled his eyes severely.

"Humph!!"

Although Zhou You didn't understand the meaning of Su Lang's words, he also knew that Su Lang was scolding him, so he sneered again and stopped talking.

Just like what he said, Su Lang was a dying person in his eyes, and quarreling with the dead was a waste of saliva.

Zhou You didn't speak, and Su Lang didn't bother to scold him. In Su Lang's eyes, Zhou You was not a dying person! ?

At this moment.

It is not only Su Lang himself who is constantly producing synthetic materials.

There were also more than 20 Emperor Wu and a large number of ancient immortal quasi emperors who found Su Lang's clone for trading.

Those Wudi, ancient immortals and quasi emperors, but accumulated wealth for most of their lives.

They come from all corners of the Canglan Continent, and they have a variety of local specialties!

Even if Su Lang does not have the materials that these people need, he can still use medicinal pills and other materials to induce them to trade!

Therefore, the materials for the Evolution Youtian Sword are being quickly gathered!

Finally, at a certain moment!

The materials needed to evolve the Youtian Sword are gathered!
