[Chapter 971: Emperor Wuyou Qingxiao](#)

This statement came out.

Su Lang suddenly frowned slightly.

Because he is very annoying for people in the same way, enthusiasm in the old way, and so on!

"It's true."

"These formations are all arranged with special formations."

Su Lang panicked and said, "Presumably Qingxiao Wudi has also seen it. I can set up and cancel the formations with a wave of my hand. It's all because those formations are arranged with formation plates."

Emperor Wudi Qingxiao is a master of formation. In order to discuss formation formation with Qingxiao, the general formation mage can kneel and kowtow.

But Su Lang is an array mage of the Primordial Realm. Is it to teach Emperor Qingxiao Wu?

Su Lang didn't want to give up his strength.

The value of Emperor Qingxiao Wu, and even Qingyou Emperor Realm, to Su Lang was only those emperor rank formations.

At this time, the emperor-level formation has been obtained, still discussing a hair?

Emperor Qingxiao Wu listened to Su Lang's words, his face was stunned, and his face was immediately disappointed.

"That's it."

Emperor Qingxiao Wu put away his disappointment, "Dare to ask Emperor Lang, who made that formation?"

Obviously, he has not given up all expectations.

"This....."

"It's okay to tell fellow daoists."

A weird smile appeared on Su Lang's face, "All my formations come from the Lord Tongtian.

He is best at "Zhudi Sword Array", "Shi Jue Emperor Array", "Ten Thousand Emperors Array", "Jiuqu Yellow River Emperor Array" and other formations.

He can arrange almost all formations of other types, and he is particularly proficient in the formations of space, metal, thunder, water, and spirit. "

This statement came out.

Qing Xiao's old eyes suddenly widened, full of confusion and shock.

Confused, because he had never heard of the name "Tongtian Guru".

The shock was because of the formations such as "Zhudi Sword Formation". When I heard the name, I knew that they were all the imperial killing formations, and it was a very extraordinary one!

In the mind of Emperor Qingxiao Wu, a terrifying emperor-level formation power has been made up!

This emperor-level formation is powerful, and a single person has mastered many emperor-level killing and cutting formations.

Not to mention the formations like "Zhu Di Sword Formation", the killing formations used by Su Lang alone were more powerful than their Qingyou Emperor Realm.

Of course, he didn't know that Su Lang was just taking out the hierarch of the Hierarch in the Conferred God List to Hu Kan and fooling him.

"Dare to ask fellow Daoists, this Master Tongtian..."

After the emperor Qingxiao Wu was shocked, he immediately asked excitedly, "Here, is there a chance to see it?"

"Emperor Qingxiao Wu can't see it anymore."

Su Lang smiled secretly in his heart, with a regretful look on the surface, "Master Tongtian, he has disappeared in the long river of time."

"what!?"

"This... this is really a shame!"

Qingxiao Wudi couldn't help but feel heartbroken when he heard that the master of the sky had fallen.

"Yes."

Su Lang also expressed regret, "It disappoints fellow Daoists."

"Ugh."

"The array is dead, when can we go further."

Qing Xiao sighed, and immediately resigned to Su Lang, and left desperately.

So far.

All the Wudi clones left Luoyou Emperor City.

With a wave of his hand, Su Lang first arranged a set of emperor-level defense formations to guard the Luoyou Emperor City that had lost its protection.

That Sun Moon Fairy Spirit Emperor Formation Su Lang was not destroyed from the beginning, but there was no need to rearrange it.

Finish it all.

Su Lang looked underground, as if he could see through the entire city.

At this moment.

Below Luoyou Emperor City, under the deep sea, a stable space has been opened up.

This space is exactly the new lair that Luo Youjing opened up for the dead soul warriors.

Moreover, in this lair, there are also various buildings transformed by Luoyou Mirror, which are exactly the same as the real Luoyou Emperor City. It is the Luoyou City in the mirror for the dead soul warriors to live in.

"The Luoyou City in the mirror, the land of eternal life, is a great temptation for ordinary warriors."

A faint smile was drawn at the corner of Su Lang's mouth, "In addition to accepting dead soul martial artists, it is also a good way to encourage martial artists in the clan to work hard."

After feeling.

Su Lang's gaze fell on Zhou You: "The warriors in Luoyou Emperor City have accepted the fact of returning, but the rest of the city has not yet. You should do it immediately."

[Chapter 972: Emperor City Gives Beckham](#)

"Yes, Lord."

Huang You didn't dare to disobey, so he took a group of dead soul warriors and left Luoyou Emperor City to do propaganda work in other big cities.

Su Lang looked around Luoyou Emperor City and shook his head.

The overall tone of this city is too dark and too heavy, which is far from the bright and soft red scenery that Su Lang imagined.

Of course, it is an imperial city after all. Luoyou is characterized by mystery, solemnity, dignity, and grandeur. It seems that every brick and tile carries natural coercion and is awesome.

This is also another unique landscape.

"Although it is not satisfactory."

"But it's time for Xiaobei to come and see this gift for her."

Su Lang smiled, he didn't forget what he said before.

At that time, he promised that if Chu Xiaobei wanted it, he would call Luoyou Emperor City and give it to her.

Chu Xiaobei, who has always been arrogant, was all touched by this surprise, and his eyes were colorful.

Next.

Su Lang used space rules to locate the Xuanyu Fairy City and opened the space channel.

Wow!

The sky of Xuanyu Fairy City, endless space metric lines form a channel, connecting the unknown and mysterious distance.

Countless people in the city were horrified and terrified.

But then, Su Lang walked out of the space channel and appeared in front of everyone.

The warriors of the Xuanyu immortal clan who were originally terrified suddenly stretched their beautiful eyes, revealing surprise, and screaming wildly.

"It's a mysterious emperor!"

"Save the benefactor of the Xuanyu Fairy Clan!"

"..."

Countless people bowed down one after another, even if they only bowed down to Su Lang not long ago.

Su Lang smiled faintly, and disappeared directly with a movement.

When he appeared again, he had already come to Chu Xiaobei.

"Su Lang, how are you?"

Chu Xiaobei was pleasantly surprised when he saw Su Lang, and immediately rushed to the left to look at the right to see if Su Lang was injured.

"Tsk tsks."

"So anxious, I take it off, can I take it off?"

Su Lang showed a playful look and immediately pretended to take off his clothes.

"Go away, pervert!"

Chu Xiaobei became stiff, then rolled his eyes severely, "You ran back so quickly, did you fail?"

"failure!?"

"I will fail?"

"It's just a small Emperor Luoyou clan, what's the difficulty?"

Su Lang's face was speechless, and then there was a trace of complacency, "The Emperor Wu You who tried to take your unparalleled posture, I beat him to kneel to beg for mercy and become a slave.

I've got the Luoyou Emperor City too, now, isn't this coming back to show you, after all, it is the city for you? "

"Really!?"

Chu Xiaobei glanced suspiciously at Su Lang.

"Hahahaha!"

"Hearing is fictitious, seeing is believing, just walk with me and you will know!"

Su Lang laughed, and immediately stretched out his hand to condense a space channel again.

Immediately after.

Holding Chu Xiaobei's weak boneless hand, he rushed into the passage.

Chu Xiaobei only felt pitch black before his eyes, and then suddenly lit up, and came to a strange place.

"look down!"

Su Lang's playful voice came.

"look down!?"

Chu Xiaobei instinctively looked down, and suddenly saw the boundless and majestic Luoyou Emperor City!

The entire imperial city exudes a strong majesty, mystery and solemnity, and the feeling of towering and majestic has a violent impact on Chu Xiaobei's senses.

This made her stunned for a while, only one pair of beautiful eyes revealed shock and surprise.

"Su Lang, is this Luoyou Emperor City?"

"Sure enough, this feeling is the same as the rumors!"

Chu Xiaobei turned to look at Su Lang, with surprise in his eyes becoming more intense, and a touch of emotion arose.

"From now on this will be your site."

Su Lang nodded faintly, "How about it, do you still like this gift?"

"Of course I like it!"

Chu Xiaobei nodded heavily.

"nice! You love it."

Su Lang smiled, "By the way, I called Emperor Luo Youwu over, the culprit hasn't apologized to you yet!"

Talking.

Su Lang contacted the avatar of Zhou You and told him to roll back quickly.

Poor Zhou You just ran out with a group of dead soul warriors, before the propaganda work for a city was finished, he was about to be called back again.

This feeling of being called back and forth really made him want to cry without tears.

[Chapter 973: This is too fake!](#)

Not long.

The avatar Zhouyou returned to Luoyou Emperor City and met Su Lang and Chu Xiaobei.

"You are...Chu Xiaobei!"

Of course Zhou You knew Chu Xiaobei, and when he saw her at this time, he suddenly exclaimed.

At the same time, combining the cause and effect, he also guessed that Su Lang came to clean up himself, probably because of this Chu Xiaobei!

"Don't kneel down yet!?"

Su Lang looked cold and murderous.

"what!?"

Zhou You is struggling, he is a martial emperor, how can he kneel to a weak woman who is not a martial immortal?

"I will kill you without kneeling."

Su Lang sneered, killing even more.

"I, I kneel!"

After being threatened with death by Su Lang, Zhou You, who had lost his bottom line, suddenly became frightened and immediately knelt down to Chu Xiaobei.

"Chu...Chu Guliang, I am obsessed with my heart, I have no eyes and have offended you, please forgive me, my lord!"

Kneeling in front of Chu Xiaobei, Zhou You's face became thick and he began to beg for mercy.

"I go!"

"Su Lang, this is too fake!"

Chu Xiaobei looked incredulous, "How could Emperor Luo Youwu be so weak and kneel down to me for mercy!?"

"Haha."

"It's incredible."

"However, this Qianyou is indeed Emperor Wuyou Luo. Although he is only a clone of him, his will is one."

Su Lang smiled lightly, and immediately told Chu Xiaobei the whole story.

"Wow!"

"You can even come back to life, even immortal!"

Chu Xiaobei's eyes glowed, but soon dimmed, "Unfortunately, the side effects of the incense are too great. Instead of immortalizing in this way, it's better to just die."

To live forever with incense is simply to make yourself worse than dead!

Zhou You already knows it deeply, but from the moment he makes a choice, he can no longer regret it.

Without Su Lang, when he couldn't survive, he could kill the members of the Black Fu and Luoyou Emperor clan with his own hands, and let himself be slowly annihilated.

But with Su Lang, he didn't want to die.

"Facing the culprit, what are you going to do?"

Su Lang looked at Chu Xiaobei and asked with a smile, "If you want to kill him, I will kill him."

"No, no, no."

"Will it be cheaper to kill him?"

Chu Xiaobei looked black and cruel, "I'm happy if I keep him and let him die."

"Ok."

"Then keep him."

Su Lang nodded and waved to make Zhou You get out.

Zhou You suddenly got out of it like an amnesty.

"I want to take a good stroll around this city!"

Chu Xiaobei's eyes fell on Luoyou Emperor City, seemingly interested.

"Okay, I will let Zhou You send a female dead soul to follow you."

Su Lang smiled, and then called Zhou You back again, asking him to take a picture of the dead soul to protect Chu Xiaobei.

Zhou You was humiliated, but he had to work hard.

Next.

Under the protection of the female dead soul, Chu Xiaobei went to the city to wander around.

Su Lang found a quiet room and sat down.

It's time to count the spoils!

"First of all, the subordinate Xianyuan!"

Su Lang's eyes are hot, "Deposit all the spiritual jade fairy jade source!"

"Ding! All spirit jade fairy jade sources have been saved in the system!"

Wow!

In the mysterious black space, the balance of the subordinate Xianyuan began to soar!

Originally there were only five digits, but it soared to seven digits, and finally the number stayed at 1568642!

You know, the unit is a subordinate Xianyuan!

A subordinate fairy source is equivalent to ten thousand best immortal jade, this more than one million subordinate fairy source, but more than 10 billion best immortal jade!

have to say.

Zhou You is really too fat!

However, Su Lang still felt a little bit on the low side.

"I thought there were nearly ten million immortal sources."

Su Lang curled his lips in dissatisfaction, "Unexpectedly, it was only 1.5 million."

But he quickly figured it out.

Emperor Wu is indeed in charge of a large emperor family, and the universe of life, with countless resources in his hands.

However, Emperor Wu's own cultivation costs are huge and outrageous. Not only is the life universe not helpful, but it is a super gold swallowing beast.

Therefore, after a large amount of consumption, the resources that Emperor Wu could save were really not many.

[Chapter 974: Upgrade system function](#)

"Fortunately, it is barely enough to upgrade system functions."

Su Lang took a look at the system functions that can be upgraded and nodded.

Except for the 31-level clone dispatch and the 10th-level one-key enlightenment, which requires 100,000 inferior Xianyuan, the rest require only 10,000 inferior Xianyuan.

"The system, with one-key training, one-key martial arts, and one-key treasure hunting, will be upgraded to two levels!"

Su Lang began to issue upgrade orders, "Clone dispatch, one-key empowerment, each level up!"

Immediately after.

It is the endless system prompts.

"Ding! Consumes 10,000 lower multiplication source, the one-key training function is upgraded to level 32, and the training speed is increased to 572.8 billion times the speed of the basic training without lack of qualification!"

"Ding! Consumes 100,000 lower multiplication fairy sources, the one-key training function is upgraded to level 33, and the training speed is increased to 1,145.6 billion times the speed of the basic training without lack of qualification!"

"Ding! Consumes 10,000 lower multipliers, the one-key martial arts function is upgraded to level 32, and the training speed is increased to 5.728 billion times the speed of the basic training without missing qualifications!"

"Ding! Consumes 100,000 lower multiplication fairy source, the one-key martial arts function is upgraded to level 33, and the training speed is increased to 11.456 billion times the speed of the basic training without lack of qualification!"

"Ding! It consumes 10,000 lower Xianyuan, the one-click treasure hunting function has been upgraded to level 31, and the number of treasure hunting flying flying gliders has increased to 5.728 billion!"

"Ding! It consumes 100,000 lower Xianyuan, the one-click treasure hunting function has been upgraded to level 32, and the number of treasure hunting flying flying gliders has increased to 11.456 billion!"

"Ding! Consumption of 100,000 lower multiplication sources, the one-key empowerment function has been increased to 11 levels, the current empowerment efficiency has been increased to 100%, and the number of daily empowerments has been increased to 11!"

"Ding! Consumption of 100,000 lower multipliers, the clone dispatch function is upgraded to level 32, the number of clones is +1, the current number of clones is 32, and the number of clones is 32!"

After a series of system prompts, all major functions have been improved.

Let's talk about the changes in the one-key training function and the one-key martial arts function.

The two functions respectively increase the rate by four times.

It only takes 6 hours to save the cultivation base from Yijie Wuxian to Zhundi!

It only takes 6 hours to practice a fairy-level technique, and you can go from ignorance to founder level!

And to upgrade these functions, it consumed 530,000 Xianyuan Xianyuan, leaving 1.086442 Xianyuan Xianyuan.

"It's still enough to choose a feature to raise one level."

"However, I don't need it for the time being, I still keep it in case of urgent need. After all, I am not alone now, half of the Canglan Continent."

While thinking about it, Su Lang dispelled the idea of continuing to upgrade system functions.

Finish it all.

Su Lang took out a bunch of exercises from the storage space.

These are all techniques derived from Zhouyou, including Luoyou Heart Sutra, Shenyou Dilu, Dark Days and Long Night Fairy Sutra, Wumingxianjing, Dead Soul Immortal Jue, Heaven and Earth Comes to Chaos Immortal Code, Huafang as World Immortal Figure and other exercises.

Naturally, Luoyouxin Su Lang would not use it.

The Boundless Heart Sutra, a technique from the Boundless Realm, is stronger than any Heart Sutra on the Canglan Continent.

In addition, Shen You Dilu and other exercises can be appreciated by Zhou You, and practiced day and night, it should be one of the best exercises.

Among them, Shen Youdilu possessed the original technique, which looked like a pitch-black drop of water and a gouache, quite strange.

Su Lang planned to select these exercises for practice in the future.

His top priority is to practice three hundred and sixty rules, and first break into the realm of martial arts.

The exercises obtained from Emperor Luoyouwu are not just those high-end exercises.

Zhou You informed the Emperor Luoyou for so long that almost all the exercises in the clan had been collected.

He has 300 copies of the Immortal level exercises alone, which is nearly 80 more than the collection of Emperor Honglian Wu!

There are as many as tens of thousands of holy level exercises, and there are various exercises!

God-level exercises are too numerous to count, and Su Lang doesn't bother to count them one by one.

And the greatest value of these exercises is that they can be synthesized!

"Three hundred immortal level exercises can be combined into thirty emperor level exercises!"

"Thousands of holy-level techniques can be collectively called thousands of immortal-level techniques!"

"Go up and synthesize it, and you can also get a five-digit holy technique."

Su Lang couldn't help but stunned to himself, "Plus the exercises I already have, I can be a wholesaler of exercises!"

[Chapter 975: Emperor level exercises to feed sentient beings](#)

After some emotion.

Su Lang didn't get muddled, and started to succeed.

The first is the synthesis of emperor level exercises. After synthesis, thirty emperor level exercises have appeared in front of Su Lang.

The situation was similar to the previous large-scale synthesis of emperor-level exercises.

The avenues contained in these thirty emperor-level exercises include power, five elements, wind and thunder poison, darkness, yin and yang and other attributes.

What made Su Lang's eyes bright was the incense avenue exercise called "Feeding All Living Beings".

This "Feeding All Living Beings" is composed of "Heaven and Earth Coming to the Kingdom" and "Dead Soul Eternal Life" as the main body, supplemented by other incense-like immortal-level techniques.

"Feeding All Living Beings" is divided into two parts, one is the main part and the other is the supplement.

The exercise was originally divided into two parts, two concentric circles. The smaller one is inside, which is the main chapter, the big one is outside and the auxiliary chapter. There are faintly visible runes on the top.

The main part is of course for Emperor Wu to practice, while the auxiliary part is for the cultivation of sentient beings being raised.

Well known.

Incense is mixed and has a deadly 'toxic'.

The main and auxiliary chapters of "Feeding All Living Beings" happen to have the effect of purifying incense.

The supplementary chapter purifies the incense and desire power from the source, that is, all beings.

The sentient beings in the supplementary chapter will provide incense aspirations to be more pure.

Moreover, although the supplementary chapter is an emperor-level exercise method, it is very special, easy to understand, and can be practiced at the martial artist level.

The main part is from the end point, that is, the feeder Wudi who accepts the incense aspiration power, and once again performs a more powerful purification filter on the incense aspiration power that has been purified to make it less complicated.

After the double purification, the miscellaneous toxicity in the incense aspiration has been greatly reduced, and the impact on the feeders will also be greatly reduced.

Except besides.

The creatures who practice the supplementary chapter of "Feeding All Living Beings" will provide more powerful incense and aspirations, which is more than a thousand times stronger than that of wild stocking!

In short.

This "Feeding All Living Beings" is countless times more high-end than the "Dead Soul Immortal Technique" and "The Immortal Code of Heaven and Earth".

of course.

Su Lang was interested and interested, he would not die to practice this emperor level exercise.

Although the incense aspiration power has been purified, it cannot be completely purified at all, but the toxicity of the incense is weakened. In the long run, it can still "poison" people to death.

"Even the emperor-level exercises can't get rid of the disadvantages of incense."

Su Lang shook his head helplessly, "It seems that I am afraid that only the emperor's rank can have a perfect incense technique."

But soon.

Su Lang smiled again.

"This "Feeding All Living Beings" is not useless."

Su Lang was playful, "The supplementary chapter can be given to the Heifu tribe in the Zhou You Life Universe for cultivation."

The supplementary chapter of "Feeding All Living Beings" has the function of "increasing the output of incense", which will greatly increase the operating speed of Su Lang's "incense laboratory".

Although the auxiliary chapter has the ability to purify the incense aspiration power, the intensity is far less than the main chapter.

The amount of incense produced has increased, but the reduction in 'toxicity' is not so great, which makes the overall 'toxicity' on the contrary become larger.

Therefore, as the 'end point', the erosion will become more and more terrifying as it grows.

This is also the reason why Su Lang took out the supplementary chapter with confidence and handed it over to the Heifu Clan for cultivation.

then.

Su Lang called Zhou You back again.

"Master..."

Zhou You, who was called back for the third time, did not dare to complain.

"Take this exercise and practice it for the Heifu tribe."

Su Lang ticked the corner of his mouth and handed the ring of the supplementary chapter "Feeding All Living Beings" to Zhou You.

"This is... the emperor... the emperor level technique!"

Zhou You looked at the original emperor-level technique in his hand, and instantly thundered, stunned!

He has controlled the Luoyou Emperor Clan for six to seven million years, and has never obtained a second emperor level exercise.

But now, Su Lang actually gave him an emperor grade exercise technique, and it was the original exercise technique, which is really incredible.

and.

He Zhou You and Su Lang are deadly enemies, and he is still Su Lang's servant, prisoner, and experiment!

Su Lang is not so tolerant, so he will let go of his past, give him such a treasured exercise!

"Zhou You."

The corner of Su Lang's mouth outlines a playful smile, "Let's take a closer look."

[Chapter 976: Large-scale synergy](#)

"Yes....."

Zhou You looked at the original emperor level technique in his hand with anxiety.

He is a martial emperor, even if his cultivation base is lowered, his nature has been eroded, but he still has the ability to ponder the emperor-level exercises.

quickly.

"This...this is incredible!"

Zhou You's face appeared in horror: "This turned out to be an incense-like emperor-level exercise, and it is an emperor-level exercise for low-level warriors!"

The emperor-level exercises practiced for low-level warriors are simply unheard of!

Not to mention the Canglan Continent, even if you add the surrounding continents such as Jingtian, you will never find a second one.

In Zhou You's eyes, this exercise completely violated common sense.

How can there be an emperor-level technique that a low-level warrior can practice! ?

It's too fantastic!

However, with the facts before him, Zhou You had to regain the shattered Three Views and accept this fact.

"You are now Emperor Wu of Xianghuo."

"Presumably this emperor-level exercise technique is of great benefit to you."

Su Lang smiled, "I look forward to the day when you return to the realm of Emperor Wu."

"Yes... I thank the Lord for your great grace!"

Zhou You bowed his head to thank you, but his heart was very bitter.

He knew why Su Lang had no fear, because he also saw the shortcomings behind this exercise.

But what can Zhou You do besides following his fate?

"Go ahead."

Su Lang smiled and nodded, waving his hand to make Zhou You get out.

After Zhou You mellowly left, Su Lang took out more than 10,000 holy level exercises and began to synthesize.

quickly.

More than a thousand immortal level exercises were all synthesized.

What made Su Lang very satisfied was that he happened to need a lot of these thousands of synthetic immortal level exercises.

"Let me count."

"Well, there are thirty-two books in total."

"Counting the 168 rules I have understood, there are already two hundred."

"My goal of three hundred and sixty points is one hundred and sixty points away."

Su Lang can only hope that the synthesized holy rank technique can collect these one hundred and sixty remote and unpopular rules.

With a hint of anticipation.

Su Lang began to synthesize holy-level exercises with god-level exercises.

The six-figure god-level exercises finally combined more than 20,000 holy-level exercises!

Most of the power of the rules corresponding to these holy level exercises are repeated.

But fortunately there were enough, Su Lang successfully obtained 189 much-needed holy level exercises, corresponding to 189 remote and unpopular rules!

Yes, one hundred and eighty-nine. This number is twenty-nine more than one hundred and sixty.

This allowed Su Lang to comprehend the power of the rules, reaching 389, exceeding the minimum bottom line!

"Three hundred and eighty-nine rules."

"Although it is still not satisfactory, it is completely enough to lay the foundation!"

An excited smile appeared on Su Lang's face, "When I have practiced the newly acquired technique and understood the rules, I can be promoted to the immortal level."

Actually.

Su Lang still has a little regret.

Because there are thousands of immortal-level exercises, there are no 'time' exercises in more than 20,000 holy-level exercises.

This led to Su Lang temporarily unable to practice the time rules.

Back then.

When Huangfuqin introduced the realm of Emperor Wu in front of Su Lang, he specifically mentioned the time rules.

Emperor Wu has a living universe. Generally, the time flow of the living universe is the same as that of the endless universe.

But understanding the rules of time can change the flow of time in the universe of life, accelerate its development, and never quickly improve its own strength.

This can be seen.

The time rule is the most terrifying 'plug-in' in Emperor Wu's realm!

If there is a Emperor Wu who has become an emperor with the "Road of Time", as long as this Emperor does not collapse in the middle, then the realm of the Great Emperor is almost at hand.

However, the time rule is the most difficult rule in the world, and almost no one can understand it, even Emperor Wu is no exception.

As for the time avenue? That's even more when you can only think about it when dreaming!

The difficulty of comprehending the rules of time can also be seen from Su Lang.

Su Lang has two super plug-ins, one-click martial arts and exercise synthesis, but even so, he can't comprehend the time rules, let alone other people.

"I really hope I can get the SSR orange card of 'Time Rules'."

Su Lang murmured, and then randomly selected seven immortal-level exercises for the martial arts villain to practice.

[Chapter 977: Goodbye Xiao Lutian Li Feilou](#)

You can practice one round of Xian-level exercises in six hours.

With the thirty-two immortal level exercises, Su Lang could finish all the training in just over a day.

Until then.

Then you can continue to practice the holy level exercises, and finally hit the real martial realm!

"There is still more than one day, it's really long!"

Su Lang touched his chin and shook his head helplessly.

Soon.

Su Lang planned to take out the cauldron and continue to refine the parts of the 'super humanoid weapon'.

But at this moment.

However, he changed his expression and used 'perfect leaning' on a clone.

Central and southern Canglan continent.

Among the Guantian Emperor Clan that is adjacent to the Honglian Emperor Clan, Emperor Guantian Wu is trading emperor grade materials with a clone incarnation of Su Lang.

Not bad.

Although the battle with Zhou You is over, Su Lang's avatar is still playing a mysterious merchant, trading with Wudi everywhere.

Of course, the goal of the exchange is not limited to the materials used to upgrade the Youtian Sword.

Su Lang's avatar and the Emperor Guantian Wu traded, they were the souls of Wuxian, Wusheng, and Valkyrie.

Emperor Guantian took out all the souls of Martial Immortals, Martial Saints, and Spirits of Valkyrie that had been accumulated by the entire Guantian Emperor Clan, and traded a piece of emperor grade material that Su Lang had readily synthesized.

After the transaction is completed.

Emperor Guantian Wu and Su Lang became avatars, chatting on a high platform overlooking the whole city in Guantian Emperor City.

Just like when Su Lang and Emperor Wu Lian wandered side by side, Emperor Wu Guan's purpose was to discover the details and origin of Su Lang's avatar.

Just while talking.

Su Lang's avatar found two interesting people, which caused Su Lang to use a perfect leaning to control this avatar.

Su Lang's consciousness descended on this clone incarnation, and in front of him appeared the boundless Guantian Emperor City.

However, for Su Lang, who was used to seeing the Emperor City, Guantian Emperor City was just like that, nothing special.

The Emperor Guan Tian Wu around him is a middle-aged scribe, with a high crown and robe, talking freely.

He narrated the history of the Guantian emperor clan, and also deliberately brought up topics such as fragments of continents outside the territory, hoping to guide Su Lang clone, the 'pseudo emperor from outside the territory' to give some information.

This is what every Emperor Wu who trades with Su Lang's avatar will do.

"Tsk tsk."

"Everyone is deliberate, trying to find that powerful transcontinental organization."

"But I don't know at all, behind the fifty pseudo-emperors, I am the Southern Lang Emperor!"

Su Lang smiled secretly in his heart, and did not accept Emperor Tianwu's words, his mental power had already locked two old friends.

Xiao Lutian, Li Feilou!

These two guys were chased by Su Lang outside the territory of the Red Lotus Emperor.

Then, in order to fight for the key to the emperor's forbidden land, he walked and hit all the way, and at this time he appeared in Guantian Emperor City.

and.

These two guys actually came straight at Su Lang and Guantianwu Emperor.

"I don't know what these two guys are going to do."

Su Lang raised his eyebrows and wanted to laugh in his heart.

At the same time, there is some emotion.

At the beginning, he could only frighten the two quasi-emperors Xiao Lutian and Li Feilou by treasure hunting flying flying gliders and clones.

But now, with just this avatar, they can be killed with one finger.

quickly.

Xiao Lutian and Li Feilou came not far from the high platform.

Still the same, the two walked side by side, with the floating emperor forbidden key in the middle.

"Junior Xiao Slutian!"

"Junior Li Feilou!"

"See you, Lord Guantianwu!"

Xiao Lutian kneeled and saluted at the same time.

But even when saluting, don't forget to beware of the other party to prevent the other party from stealing the key.

"You two came to see me, what's the matter?"

Emperor Guantian took a look at Xiao Lutian, his tone indifferent.

Having stayed in Guantian Emperor City for a while, Guantian Wudi knew it too.

Moreover, Emperor Wu Guantian also knew that Xiao Lutian and the two jointly held the key to the emperor's forbidden land.

Out of respect for Emperor Wudi Nine Revolutions.

And due to the tacit understanding and unspoken rules among the various emperors, Emperor Guantian had no idea about Xiao Lutian.

Xiao Lutian and Li Feilou got up from the ground.

Gazed at each other, then moved their eyes away, and then their eyes fell on Emperor Guantian and Su Lang respectively.

The incarnation of Su Lang made a disguise, Xiao Lutian and Li Feilou did not recognize it.

[Chapter 978: Where to fight](#)

After hesitating for a few breaths.

"For me."

Xiao Lutian winked at Li Feilou.

"Humph!"

Li Feilou gave a cold snort, and fell silent.

"Dare to speak up, Lord Guantian Wu."

Xiao Luntian took a deep breath and bowed to Emperor Guantian Wu again, and said, "To see Lord Wu today is for the emperor's forbidden land key!"

This statement came out.

"Isn't the key with you? What did you come to see me for?"

Emperor Guantian Wu smiled noncommittantly: "Use the emperor's forbidden land key in my place for good, let me take over the key? I don't want to be the target of public criticism."

"It's not that I want to invite Lord Guan Tianwu to take over the key to the emperor's forbidden land."

Xiao Lutian shook his head and continued, "Presumably Lord Wu also knows that Li Feilou and I are vying for the key to the forbidden land, but neither of us can distinguish between the two of us.

The two of me also thought about not fighting each other again, and combining the strength of the two to go to the emperor's forbidden land.

However, as soon as I was alone, we were alone, and we didn't have the confidence to deal with the danger of the emperor's forbidden land.

Secondly, the two of me were on guard against each other and didn't have a trace of trust, so we both worried about being stabbed by the other party in the process of exploring the forbidden area.

After thinking about it, there is really nothing we can do, so we plan to..."

Speaking of which.

Xiao Lutian's gaze fell on Su Lang after the disguise: "Sell the forbidden land key to a mysterious merchant in exchange for emperor-level resources, thinking that you will become an emperor!"

The words came out.

Before Su Lang and Emperor Guantian Wu had time to speak, Li Feilou beside Xiao Lutian shouted loudly.

"fart!"

"Xiao Lutian, this is different from what we discussed before!"

"We have clearly negotiated, and dedicated the forbidden land key to all the Wudi adults in Canglan Continent in exchange for resources!"

Li Feilou said angrily, "But now, why has it become a deal with a mysterious merchant?"

This statement came out.

Su Lang and Emperor Guantian Wu also looked at each other.

Su Lang couldn't help but smile dumbly.

The two guys, Xiao Luntian and Li Feilou, really fought wherever they went, and even the things that had been discussed in advance could be turned around immediately.

"Li Feilou!"

"Originally, we had no choice but to dedicate the forbidden land key to Emperor Wu."

Xiao Lantian looked at Li Feilou with a foolish look, "But have you ever thought that the forbidden land key will cause internal fighting in the Canglan Continent!"

Now the battle of the mainland may start at any time, what if all the emperor-level forces are fighting in the forbidden area of the emperor's head, but the Jingtian Continent suddenly hits the door.

And now, we have better buyers, mysterious merchants from cross-continental commercial organizations!

The mysterious merchant is generous and will definitely give us a good price, and it will also save the worries of the Emperor Wu in the Canglan Continent! "

Something seems to make sense.

But Li Feilou didn't listen, and even sneered: "You are just farting!"

The emperor's forbidden land is the inheritance left by the Ninth Rank Wu Emperor of our Canglan Continent. How can it be bought by outsiders who don't know the details?

In addition, all the great emperors obtained the key and opened the forbidden area of the emperor's head, and sent the quasi emperor to explore.

Emperor Wu won't end up personally. At most, his subordinates are fighting. How could it affect the battle of the mainland? "

"You fart, and you fart wet!"

Xiao Lutian immediately slammed back, "Mysterious merchants can trade fairly and trade with others!"

The implication is that the great Wudi will bully others and give the emperor's forbidden land key a severe price.

Of course Emperor Wu Guantian didn't like to listen to these words.

"Xiao Slutian!"

Guantian Wudi said coldly, "Are you questioning the morality of the great Wudi?"

"No, dare not!"

"It's definitely not the intention."

Xiao Lutian also realized that he had said the wrong thing in a hurry, and quickly remedied it.

"Humph!"

"Xiao Lutian, you are really a frog at the bottom of the well."

"The wealth of Emperor Wu, can you actually imagine it?"

Guantian Wudi snorted coldly, "How can you measure the mind of Emperor Wu?"

This statement came out.

Xiao Lutian suddenly didn't dare to speak.

He looked at Su Lang eagerly, hoping that Su Lang could be moved by the emperor's forbidden land key and bought it.

But Xiao Lutian couldn't think of breaking his head. What he watched eagerly was Su Lang who played him and Li Feilou around!

[Chapter 979: Su Lang's rejection](#)

Seeing Xiao Lutian staring at Su Lang.

Li Feilou and Emperor Guantianwu also understood that the right to choose fell into the hands of this 'mysterious businessman'.

Because the 'mysterious merchant' not only had the power of an emperor, but also had extremely terrifying organizations behind him, so Emperor Guantian didn't want to offend him.

Once Su Lang really intends to buy, Emperor Wu Guantian will not stop him, and will only inform the other Emperor Wu.

In Guantian Wudi's thoughts, the rest of the Wudi might also be afraid of the forces behind the 'mysterious merchant', so they pinched their noses and tacitly agreed.

At this moment.

Everyone's eyes fell on Su Lang.

"I also heard about the forbidden land of the emperor of Canglan Continent."

Su Lang smiled faintly, "It is rumored to be one of the inheritances left by a Ninth Rank Martial Emperor, quite tempting."

"Not bad!"

"Nine-turned Emperor Wudi is one of the strongest Wudi in the history of Canglan Continent!"

"After getting the inheritance of the emperor, your lord will surely soar into the sky and advance by leaps and bounds on the road of Emperor Wu, like a broken bamboo!"

"Or, I can also give it to my younger generation to add an emperor-level helper to you!"

Seeing that Su Lang seemed to be moved, Xiao Lutian immediately shook his lips and bulged his tongue, vigorously promoting the emperor's forbidden key.

Seeing Xiao Lutian's appearance, Su Lang suddenly came up with the word 'Amway'...

At this time.

Li Feilou on the side could not sit still.

"The Emperor Wu!"

"The inheritance of Emperor Wudi of the Ninth Revolution was specially left to the descendants of the warriors of Canglan Continent."

"Even if an adult spends a lot of money to obtain the emperor's forbidden land key, most of it will not be inherited."

Li Feilou said sincerely, "By then, the emperor's forbidden land will become a trash shelved."

This statement came out.

Xiao Lutian glared at each other suddenly, wishing to kill Li Feilou on the spot.

But Li Feilou and Xiao Tutian had been fighting for so long, and he was afraid that Xiao Tutian's eyes would fail?

He glanced at Xiao Lutian, looking ashamed to be with him.

"Do you mean?"

Emperor Wu Guantian didn't bother to watch Xiao Lutian and Li Feilou fighting, and directly asked Su Lang.

"Although the emperor's forbidden land key is good, I have no interest."

Su Lang smiled and shook his head, "First, this is indeed the inheritance of the Canglan Continent, and secondly, the lowest-level members of our organization are like me...so there is no quasi-emperor to fight for the inheritance."

This statement came out.

Xiao Lutian and Li Feilou, who were secretly fighting, thundered in an instant.

Emperor Guantian Wu's face remained unchanged, but unavoidable stormy waves rose in his heart.

Tianle!

The lowest level in the organization is the pseudo-emperor, and even the quasi-emperor is not qualified to enter!

How terrifying is such an organization, and what realm should its controller be?

Not to mention Xiao Lutian and Li Feilou, even for Emperor Guantian Wu, it is hard to imagine.

After the shock.

The three people realized that Su Lang had rejected Xiao Lutian's request and was unwilling to purchase the emperor's forbidden land key.

Suddenly.

Li Feilou breathed a sigh of relief.

Xiao Luntian's expression was pale, desperate, and said nothing.

Emperor Guantianwu was a little happy in his heart, but on the surface he was calm.

And Su Lang refused to purchase the emperor's forbidden land key, of course for a reason.

Ask him to pay for the emperor's forbidden land key?

Go crazy!

That seal entrance is useless in Su Lang's eyes. Once the formation is controlled, the control of any formation can be usurped.

For Su Lang, the entire forbidden area is equivalent to an open door, allowing him to enter and leave casually.

The biggest reason why I didn't explore the emperor's forbidden area before was because I didn't have time.

The second reason is that he is not strong enough. After all, Su Lang's real combat power was only on this day from Wuxian to Puppet Emperor level.

If you are not at home, it will be dangerous to break into the forbidden area.

And once the forbidden ground was opened, Su Lang didn't believe there was no movement.

When the time comes, everyone will run over, and this guy who sneaks into the forbidden area will become a target.

The strength is not strong enough, and it is the target of public criticism. It is very likely that the gutter will capsize.

The ship capsized in the gutter, what a shame it was, Su Lang couldn't afford to lose that face.

A combination of various reasons.

As a result, Su Lang did not explore the forbidden area of the Emperor's Head for the time being.

However, by now, Su Lang could easily explore the emperor's forbidden land.

But Su Lang did not intend to explore secretly by himself.

Why?

Anyway, others can only send a quasi-emperor into the forbidden area, and Su Lang himself randomly sends a clone to be a pseudo-emperor-level combat power.

With such a big gap, are you afraid of not getting the inheritance?

What are you doing sneakily?

[Chapter 980: Twenty-three Emperor Wu Qizhi](#)

At this time.

Emperor Guantian Wu smiled: "So that's it, the organization of Daoists is really powerful..."

"Nothing powerful."

"It's very ordinary in the entire infinite universe."

Su Lang smiled and shook his head, and pointed to Li Fei's corridor, "Your emperor's forbidden land key, give it to Fellow Guantian."

"Yes!"

"Much...thank you, sir!"

Li Feilou stammered his thanks, and immediately saluted Emperor Guantianwu, but didn't speak, just stared at it eagerly.

"I will contact you Wudi Dao friends."

Emperor Guantian's expression remained unchanged, "Presumably they will all be interested."

Talking.

He used some kind of communication method to contact a group of Wudi.

quickly.

A avatar of Emperor Wudi came to Guantiandi City one after another.

Su Lang glanced at him, he was happy, so he met again with Emperor Wu Zunsheng, Emperor Ling Juewu, Emperor Qingxiao, Emperor Wudi in Blood.

Immediately after.

The White Moon Emperors arrived.

They are a pair of heroic twins, with their heads high and ponytails, decorated with the view of the jade moon, wearing tight-fitting shirts, cloaks, and combat boots.

Su Lang's gaze silently swept across the chests of the two empresses, and he secretly said that he was worthy of the word "White Moon".

Soon.

Some Wudi clones arrived.

In the end, twenty-two Wudi clones came!

You know, the entire Canglan Continent has twenty-nine Wudi on the surface.

Now Luo You has fallen into the realm of Emperor Wu, and has become Su Lang's prisoner and experiment.

In other words, there are only 28 Wudi on the Canglan Continent.

Now there are twenty-two!

For example, in the north-central part of the mainland, apart from the fact that Luoyou couldn't come, the emperor Guantian, Honglian, Wanshan, Qingtian, and Muhan came together.

Su Lang had seen all these Wudi.

Emperor Qingtian had an intersection with Su Lang a long time ago. To be precise, it was a chamber of commerce under Emperor Qingtian, the Qingtian Chamber of Commerce.

At the beginning, Su Lang approached the Yaochi holy city Qingtian Chamber of Commerce branch to shoot the pill, which had an intersection with a quasi-sage named Jiang Buli.

However, afterwards, Jiang Bufa was sanctified and directly gave Su Lang his soul and heart and became Su Lang's person.

Coupled with the establishment of the sea of sky, the Yaochi branch of the Sky Chamber of Commerce completely lost contact with the headquarters.

Therefore, Su Lang's message did not reach Emperor Qingtian.

As a result, Emperor Qingtian's understanding of Su Lang was no different from the other Emperor Wu.

In addition to the imperial forces in the north-central part.

Five emperors from the Baiyue clan in the northwest, the Yaojin clan, the Tianyin clan, and the blood-clothed emperor clan in the north also came.

The Yaojin emperor and the Tianyin emperor were the patrons of Xiao Lutian and Li Feilou's quasi-emperor forces respectively.

Honglian Wudi Ni Qianzhou once reminded Su Lang to be careful of them.

Three Wudi came from Xuandaotai, namely Zunsheng, Chiyu, and Huangshen Wudi.

The one that didn't come was called Broken Sun, and he had secretly traded with Su Lang's clone, maybe it was to keep his family home, so he didn't come.

The four emperors of the Qingyou Emperor Realm came to Qi, namely, the old man Qingxiao, the female emperor Suwen, the emperor Cangkong Wu, and the emperor Fuchen Wu.

Not to mention Qingxiao Wudi.

Among them, Emperor Wudi Cangkong and Su Lang also have intersections.

Because Su Lang's first immortal formation, Cangkong Phantom Immortal Formation, was developed by this Emperor Wu.

Finally, there was Wudi Palace. Five of the nine Wudi came, namely Jiaoqin, Liuli, Huixuan, Tianliang, and Renguang Wudi.

Those who did not come were the four martial emperors Yihua, Qiongyun, Qingqiu, and Chongshuang.

The Zi Ming emperor clan has always been mysterious, and it did not appear this time.

The emperor Wu from the whole continent has arrived.

It can be seen that the emperors of Wu still attach great importance to this emperor's forbidden land.
but.

There is one person in the future!

That is-Su Lang himself!

Outside Guantiandi City.

A large number of spatial rhythm lines condensed into a channel silently, and the deity of Su Lang slowly walked out of it.

His body exudes a strong fourth rank martial emperor aura, obviously using the swallowing clone!

Now the cooldown of the clone is only one hour, and the swallowing clone is no longer a very luxurious skill for Su Lang.

The appearance of Su Lang immediately attracted the attention of all Emperor Wu in Guantian Emperor City.

"That's...Southern Langdi, Su Lang!"

"Southern Langdi turned out to be the Fourth Rank Wudi!? Is that strong?"

"I originally thought that the Southern Emperor Langdi was just a junior who had just broken through the realm of Emperor Wu. I didn't expect it to be higher than my cultivation base!"

"The Emperor Lang is very powerful. You didn't know that he was in retreat before. The Emperor Lang just defeated Emperor Wu You, and also conquered Luo You!"

"What? That's impossible, right? Emperor Luoyou Wu is about to enter the fourth-turn realm, and he also has imperial soldiers. He is also very arrogant. How can he succumb to the Southern Emperor Lang?"

"This matter is a long story. I have witnessed the entire battle between Emperor Langdi and Emperor Luoyouwu, and listen to me slowly."
