

One Planet 183

Chapter 183: Great Harvest! The shock of the association! The unification of the Xia Kingdom begins!

“First, the rifles of the Great Desolate Army have a shorter range and a lower hit rate. Every time we shoot, we have to pull the bolt. After eight bullets are fired, it is more troublesome to change the bullet. In a high-intensity battle, it is a waste of time!”

Everyone else nodded because this was something obvious.

As the Cassius of the card planet had no long-range attack capability, they were easily crushed by the Great Desolate Army.

However, if they were to encounter Amazonian female warriors who were all the Archers, it was hard to tell but even if the Great Desolate Army won, there would be a lot of casualties!

Chang Yu Chun continued: “There is a lack of means to deal with the main characters of the opponent.”

Yan and Ghost Buster both nodded.

In the end, they solved Tang Hanpei by depleting his energy card with a large number of troops!

“There is a need to develop a weapon that specializes in dealing with powerful transcendents!” Yan said.

No one else objected to it.

This was something more urgent because Tang Hanpei and the others were difficult to deal with.

Not to mention, in the future, they might encounter more powerful transcendents!

“There is one more thing.”

Han Xin looked at everyone and added, “A simple rifle is too simple. It needs more layers, so even if the enemy comes to our side, we can also target them with weapons!”

Because of his great deeds in the battle, Han Xin’s current status in the Great Desolate Army, went straight up!

It had already surpassed Le Yi and others.

“That’s something to consider as well.”

Yan nodded and said, “Everyone can speak freely and ask any questions they have.”

The seminar was very lively.

After this meeting, the Great Desolate Army had basically set its future direction.

They were aligning themselves to the era of Qi!

They mainly focused on the research and development of military industry.

At this time, everyone realized that it was the same as in the era of Qi.

Once the general conquest began, the battle for glory was not far away.

For Qi, it took years to prepare.

They also needed to prepare well in advance, in order to make this preparation even more effective!

After some deliberation, Yan ordered many forces all over the Xia Kingdom and conducted a conquest!

The Great Desolate Army rested for a month and then it was in action again!

This time, the whole army was on the move.

Chang Yu Chun, Chu Tian De, Han Xin and Le Yi were four great generals!

Each led 10,000 soldiers and horses respectively!

At the same time they were conquering the four directions!

.....

In Southwest Bajiao City, inside the City Lord's Mansion, Zhuge Ming and Xia De's other advisor, Fashui, were standing on a high place, looking north!

Today's Southwest was already completely Xia De's territory.

All resistance forces here had been suppressed.

Relying on one of the many forces with one of the sharpest firearms in the world and the identity of the emperor's uncle, Xia De had a great reputation.

In addition, there were two great advisors, Zhuge Ming and Fa Zheng.

"I don't know why, but I've been feeling a little uneasy recently." Fa Zheng said.

Zhuge Ming smiled faintly.

"Mr. Zhuge, have you recently deduced the heavenly opportunity?" Fa Zheng asked.

"The secret cannot be leaked. Recently, it seems to be blinded by something, and it is becoming more and more unpredictable."

Zhuge Ming said indifferently.

.

"Mr. Zhuge seems to have something to say?"

Fa Zheng looked at Zhuge Ming.

There was a flash of doubt in his eyes!

"Do your best, obey the destiny, that's all."

Zhuge Ming shook his head and sighed.

Fa Zheng frowned slightly.

He wanted to say something else but suddenly, a rush of footsteps came from outside.

Fa Muzheng and Zhuge Ming both turned their heads to look.

They discovered the red-faced Guan Changyun walked over quickly.

There was also a hint of panic on his face.

“Two gentlemen, something is bad.”

Guan Changyun spoke before he even approached.

“What’s the matter?”

Fa Zheng asked.

“I just received the message.”

With a dignified expression on Guan Changyun’s face, he said, “At the border of the Xichuan Plain, an army of ten thousand people appeared, headed by the general of the Great Desolate Army: Han Xin.”

“The Great Desolate Army? Han Xin?!”

Zhuge Ming and Fa Zheng were both slightly stunned!

“What is the direction of their action?” Fa Zheng asked.

“It’s not clear yet, but it seems to be coming toward us.” Guan Changyun said.

“They’re not going to attack us, right?”

Fa Zheng had a strange look on his face and said, “But they only have 10,000 troops!”

Zhuge Ming, who was beside him, pondered for a moment and said, “Anyway, call the lord back first, just in case!”

“Yes.”

Guan Changyun led the order and went away.

At the same time the Great Desolate Army appeared in Northwest, Jiangdong, Southeast and other places.

This matter once again stirred up the world that had been calm for a long time.
