

One Planet 184

Chapter 184: Drastic change in the Xia Kingdom! The world is shaken! Epoch-making invention!

All the forces were alarmed while they were facing this sudden move of the Great Desolate Army but all of them were feeling a little confused!

The number of soldiers in the Great Desolate Army at this time was only about 50,000 while there were many forces in the world and the army of either side far exceeded that number.

How dare the Great Desolate Army take the initiative to attack us?

In addition, the most unbelievable thing was that they still dared to split into four branches and aimed at each of the four majestic forces!

At this time, there were a total of more than four recognized heroes, namely Cao Meng in the northwest, Xia De in the southwest, Sun Quan in Jiangdong, Zhu Chongba in the southeast, and Li Er in Guanzhong and each of them had a majestic army.

There were so many talented people in their hands!

This made the situation in the entire Xia Kingdom complicated.

No one could say which side would win in the end?

At this time, the actions of the Great Desolate Army gave many people a whiff of something different like the Northwest.

As for the other forces, they also took precautions against the Great Desolate Army but there was not much of a concern in their heart.

Most people were thinking that the Great Desolate Army should be practicing or performing a special mission.

Amidst the diversity of opinions, the Great Desolate Army began to attack as originally planned!

The first target was Cao Meng of the Northwest!

Northwest was nearest to the capital because of its geographical location.

The Great Desolate Army was able to arrive there within a day, therefore the Great Desolate Army took Cao Meng as the first combat target.

Ten thousand soldiers of the Great Desolate Army that were led by Chang Yu Chun quickly ran to the northwest.

Cao Meng was not given any notice and they directly launched the attack.

In one day, they broke through three cities in a row!

Cao Meng, who heard the news, was shocked!

He rushed out of the room without wearing shoes and gathered a group of subordinates to discuss countermeasures.

“My lord, the Great Desolate Army is obviously aggressive. Based on my understanding of the Great Desolate Army, they usually keep a low profile, but move like a storm.”

Chief strategist Guo Jia said, “They have broken three cities in a row this time, so they must be coming toward us. We have to make preparations for a showdown!”

“Showdown?”

Hearing this word Cao Meng felt a headache because the Northwest was developing well today but there was not enough preparation.

He gritted his teeth.

In the end, Cao Meng was still ruthless in his determination.

He mobilized the 100,000 strong soldiers of the army of the northwest and led it personally.

Facing the fast-approaching 10,000 soldiers of the Great Desolate Army, the two sides collided at a place called “Chibi”!

During this time the eyes of everyone in the world were fascinated by this great battle!

This was also after the great chaos in the Xia Kingdom.

The first head-to-head battle between the majestic powers!

No one expected that it would come so quickly!

Southwest, Jiangdong, Southeast and so on were watching this big battle.

10,000 vs 100,000!

Cao Meng’s side could be said to have a crushing advantage!

If the Great Desolate Army was defeated, it was estimated that the position of the Lord of the Central Plains would be shaken!

When the time would come, it would be impossible for the four heroes to miss this opportunity

Unexpectedly, both sides actually did not fight directly at Chibi, but stalemated!

Cao Meng’s side was out of caution.

They still couldn’t figure out the purpose of the Great Desolate Army until now.

If the Great Desolate Army sent more reinforcements over, Cao Meng would also get a headache.

The Great Desolate Army naturally could not be afraid of Cao Meng.

At the same time as the confrontation, another large army went straight to Guanzhong, under the leadership of Le Yi.

The distance between Guanzhong and the capital was not much but now, Li Tang was one of the many majestic forces in the world but the weakest of all!

Why?

Li Tang was in fierce infighting, Li Er and several brothers tore each other's skins for the position of successor!

Several brothers originally could not be Li Er's opponents.

However, after adding the secret support of the Great Desolate Army and taking advantage of the most chaotic time of Li Tang, Le Yi led the army straight in, replicating the previous glories.

In the time of one day, he destroyed 17 large and small cities!

Li Er and the others had not responded yet and they were already under siege.

Subsequently, with the cooperation of the spies, they broke through the city gates.

Seeing that there was no hope, Li Er took poison and killed himself.

Yuan Gang and Shi Xuan, on the other hand, were killed on the spot!

After doing all this, the Great Desolate Army did not rest and went straight to Chibi.

After waiting until Cao Meng received the news from Guanzhong, Le Yi's army had already rushed to the rear.
