

## One Planet 187

### Chapter 187: Blue Star's Evolution! Ten years of development! Changes in the Heavenly Pride Ranking!

After the Great Desolate Army defeated Cao Meng and Li Tang, the first thing they did was not capture cities and towns everywhere but they took away all the scholars gathered by Cao Meng and Li Tang!

Over the years, with the emergence of a variety of new inventions, all forces were paying more and more attention to scholars!

The reason why Xia De was considered to be the most likely candidate to unify the Xia Kingdom was mainly because the southwest was one of the five major forces and the one with the most scholars.

Cao Meng and Li Tang collected a lot of them as well.

Hundreds of scholars were accepted by the Great Desolate Army, willingly or unwillingly.

They brought back all of them.

Yan personally selected them.

Some of them were sent to Kewu College.

A part of them stayed at the Institute of Technology!

The current scholars on this side of the Royal Tombs Mountains were mainly divided in two places.

Most were in the College of Science and Technology and a few were in the Transcendent Research Institute!

In the current capital's region, there were four colleges in total:

Kewu College, Tiangong College, College of Medicine and the newly established College of Science and Technology.

Among them, the identity of Kewu College was a little embarrassing and in the research of Tiangong Institute and the Institute of Science and Technology there were some conflicts!

The Institute of Science and Technology was the "biological son" of the Great Desolate Army.

It naturally got the best treatment.

A large number of elite scholars were staying there.

Shortly after the birth of the steam engine, some people began to imagine using it to replace the horse.

When Yan got twenty-three years old.

The first steam car came out.

However, it was not practical enough.

After satisfying everyone's curiosity it was abandoned!

When Yan got twenty-four years old, the first steam train was introduced!

Train was much more practical as compared to the previous steam car.

It was using coal or firewood as fuel.

It could run for a long time!

After watching the test run of the steam train, Yan personally ordered a research team for steam trains to be set up and people were sent near the Royal Tombs Mountains to start laying the track.

Under the day and night research of a large number of scholars, soon the steam train was further improved.

It became a practical means of transportation!

The first run of the train was hosted by Yan herself.

It attracted a large number of people to watch!

**“A creature like a horse should be eliminated from history with a high probability.”**

Watching the steam train blowing smoke and moving slowly, Su Qin sighed.

At this time, the cavalry had almost disappeared.

The only big role for the horses was carriages but once the steam train was out, it seemed that the effect was not so great and for Yan, this steam train brought her an inspiration that hadn't appeared in a long time!

She had a strong sense of curiosity.

Last time, when she was curious about the forces acting between all things, she was still at the age of eleven.

This time, this curiosity changed to energy!

Yan was keenly aware of all things.

Energy seems to be interchangeable!

After dropping most of her current work, Yan plunged into the extremely important and endless field of energy.

At the same time, Xia De accepted the imperial decree and became a disease-free and powerless king of the southwest!

Beside Zhang Feiqiao, Guan Yunzhang and a few personal guards, there was no one left.

The other armies were disbanded one by one to join the Great Desolate Army or retire.....  
Everything was acceptable.

Zhang Feiqiao rejected the imperial decree and traveled around the world to an unknown location.

Zhuge Ming, on the other hand, asked to meet with Ghost Buster, the wisest man in the world.

Ghost Buster agreed to his request.

After a brief meeting, Zhuge Ming also became a strategist of the Great Desolate Army.

He had only one request, and that was he wanted to join the real Great Desolate Army!

With the wisdom of Zhuge Ming, he had long realized that there was something wrong with the Great Desolate Army.

He didn't want to betray Xia De.

However, the fact that the planet went out and fought the alien conquest was too fascinating.

In the entire world, only Jiangdong and Southeast were left!
