

One Planet 195

Chapter 195: The Great High School Entrance Examination! The Battle of 100 Cities! Billions of geniuses!

“In previous years, it was one or two at most, but this year it’s four at once! One is more terrifying than the other! Aren’t you also a demon, young master?”

The beautiful maid hid her mouth and smiled.

“There is still a difference between demons.”

The handsome young man picked up a tissue, wiped his mouth gently, and said, “It is said that this year’s session is the most terrifying and demonic session in history!”

“If you can take the overall top spot this year, wouldn’t you be the most demonic genius in history?”

The beautiful maid asked.

“That’s right!”

The handsome young Mu man ate a poached egg and said, “Unfortunately, it has nothing to do with me!”

“Go for it, young master.”

The beautiful maid said: “In previous years’ college entrance examination, all kinds of demonic geniuses did not perform well but it happens quite a lot.”

“That’s an ordinary genius.”

The handsome young man smiled gently and said, “Like the top demons, especially those four super demons. It’s impossible to perform badly! The old man said it all that in the college entrance examination this time, I will be able to get the top five overall rankings in the province, even if it’s not bad!”

.....

The provincial capital of Dongyang Province, in the East Star City, it was also one of the largest out of several hundred cities in the entire province.

It was the City Lord’s Mansion covering an area of ten kilometers.

In an enormous hall, young men and women were standing in rows.

Everyone had a good temperament.

They looked to the front of the hall.

A burly man with an amazing aura was on the top of the ladder!

That man was the Lord of East Star City!

It was also among the hundreds of cities and hundreds of city lords in Dongyang Province, recognized as one of the strongest!

“You are all the supreme geniuses of East Star City!”

The city lord of East Star City looked at the young men and women below and said loudly: “I have no other requirements for you, but out of the top 100 positions, you guys are going to take fifty of them!”

The expressions of the young men and women were the same.

This was the East Star City’s bottom line!

As the provincial capital of Dongyang Province, East Star City had the most resources and the best cultivation!

Two months before the college entrance examination every year, East Star City’s City Lord personally led a bunch of geniuses to train!

In each year’s high school entrance exam, East Star City’s genius’s performance was the best!

In the last ten years, East Star City could get at least fifty admission places for super-first-class universities!

Even the position of the overall championship fell to East Star City!

Like the other top-ranked cities:

Amber City, Tianjing City, Purple Star City, etc. were big cities for college entrance examinations.

None of them could compare with East Star City!

.....

The talisman car was flying rapidly in the air.

Soon it landed right in the parking lot of the No. 7 middle school!

Jiang Fan stepped down from the talisman car and followed the crowd.

He walked to the middle of the school playground!

There were staff to maintain order.

Behind the staff, there was a transparent passage entrance.

It was very similar to the planet passage on the Blue Star!

Here’s the high school entrance exam.

It was not held at the school, instead there was a separate independent space dedicated to entrance exams!

Following these passages, they could get in.

After some inspection the geniuses went into that passage.

Inspection was to confirm that there were no prohibited substances.

For example, a communicator or something like that.

Of course they couldn't bring it in.

Jiang Fan walked smoothly into the passage.

It was the same as the planet channel on the Blue Star.

In the next moment, a change took place right before his eyes.

It became clear.

Jiang Fan discovered that he came to an immense square by himself!

Looking over, there was no end in sight!

In the square, a large number of candidates had already arrived at that moment.

It was bustling with activity.

There was still more than an hour before the start time of the college entrance examination at nine o'clock.

Many geniuses came in groups of three or five.

They were gathering together, talking and joking with each other.

Jiang Fan also knew that.

This square was the college entrance examination square belonging to Jiangcheng!

There was one for each city.

The area was extremely large.

It could accommodate millions of candidates.

According to what Jiang Fan learned, every year's candidates in Jiangcheng, all were at least in the hundreds of thousands.
