

## One Planet 203

### Chapter 203: The explosion begins! The first record of the college entrance examination..... is born!

After a short period of silence, the female examiner spoke: "What is the diameter of the planet that you have scouted!"

There was a hint of shock in her tone.

She was not connected by consciousness.

Instead, they spoke directly in the room.

This would not affect the exploration of other consciousnesses either.

When just probing the size of the Blue Star, the female examiner thought that something was wrong with her own consciousness.

The two male examiners looked at each other.

Both were seeing the hint of shock and confusion in each other's eyes!

The young male examiner took the lead and said, "What I found is 725 kilometers! After several investigations, it is indeed this value, what about you?"

"I scouted the same 725 kilometers." The older male examiner nodded his head and said.

The female examiner was slightly stunned and then said: "Mine too, it turns out that it's the same, I thought there was something wrong with my consciousness."

Consciousness was divided into many ways, there was a small probability that problems would occur.

This had happened before.

All three examiners were silent.

This fact was too bizarre and unbelievable!

The full score of this subject was only 200!

Historically, no one had ever reached it!

It was hard to even get close!

Now, there was actually a candidate whose planet size directly crosses this standard!

In addition, it was still more than 200 kilometers!

"Let's get together and check it out again."

After a few moments, the older male examiner offered.

"Fine."

The other two examiners also had no opinion.

Three of them, once again checked.

This time, they scouted the whole five times!

Finally, the older male examiner took a deep breath and said, "It seems that we have met a genius, an unprecedented supreme demon!"

"725 kilometers! I'm afraid no one will believe it."

The young male examiner shook his head.

"Surely no one will believe it."

The female examiner took over and said, "Something like this has to be reported to the chief examiner for him to confirm!"

"That's also right."

The older male examiner and the younger male examiner both nodded their heads.

Full marks in the college entrance examination.

It was necessary to be more cautious!

Soon, the three of them reported what happened there.

Not long after that, a middle-aged man with a powerful aura walked in.

This person was in this college entrance examination, Jiangcheng examination area.....

He was a Chief Examiner!

He was a powerful level five planet master!

"You scouted a candidate planet that reached 725 kilometers in diameter?"

After coming in, the middle-aged man directly asked.

He was also quit surprised but he didn't question directly.

After living for so many years, he had seen a lot of shocking things!

"Yes."

The older male examiner nodded and said, "This time the three of us have repeatedly confirmed the result, which is unbelievable, so we are here to report this result to you, the chief examiner!"

"Which candidate?"

The middle-aged man asked.

"This one."

The female examiner pointed to the projection in front of her.

It had a map of the location of each candidate!

The female examiner was naturally referring to Jiang Fan!

“I’ll check it out, and you guys come along.”

The middle-aged man said.

Followed by, their consciousness was divided and they went directly into the Blue Star.

The three examiners followed!

“It is indeed a level 1 planet.”

The middle-aged man nodded as he checked.

According to his previous speculation, the middle-aged man was not convinced.

There was such a presence among the candidates.

He also thought that a level 2 planet master came to pretend to be a college student to cheat!

If that was the case, that would be a dereliction of his duty but he didn’t expect that this was not the case.

After probing it three times, the middle-aged man brought his consciousness back and exhaled gently.

Looking at the three examiners, he said, “You scouted correctly, this planet is indeed 725 kilometers, also a level 1 planet. It is confirmed. Therefore, there is no question. Put the rating on it!”

“Yes.”

With the chief examiner’s word, no matter how unbelievable this matter was, it was all the same!

A perfect score of 100!

The young male examiner did it.

He wrote down this subject evaluation for Jiang Fan.

He and the other two examiners plus the chief examiner signed this evaluation!

This was also a requirement of the college entrance examination.

If it was a perfect score, it must be confirmed by the chief examiner’s signature!

The morning theory exam of “Planetology”.

The middle-aged man’s hands got a little sore!

“It’s unimaginable that such a demonic candidate would appear in Jiangcheng? I wonder which one it is? It’s definitely not Bu Jing Yue.”

After the middle-aged man left, the young male examiner couldn’t help but speculate.

“We’ll find out later.”

The female examiner answered: “If such results are announced, it is bound to explode in all directions and when the time comes, we will definitely be able to find this candidate. Originally, I thought that the one from Tianjing City had the possibility of breaking the record this year, but I didn’t expect.....”

The young male examiner smiled softly and said, “He encountered an even more demonic existence.”
