

One Planet 207

**Chapter 207: Consecutive explosions! Unprecedented in history! The record terminator.....
Jiang Fan!**

“In previous years, this is the section that has been the most likely to produce dark horses. Like that one time five years ago. It was a candidate who was ranked after the fiftieth in the Heavenly Pride Ranking and got first place in the third subject!”

“I’m afraid it depends on the examiner’s mood.” Tang Yushu sipped his tea, smiled and said, “If the examiner is in a good mood, he will give an extra one or two points, or even three or four points are possible.”

“It’s really hard to say.”

The other teachers also laughed.

The third section was not like the second section.

There was no standard for rating, besides the civilization of every candidate was different.

It was hard to achieve a uniform standard!

Each examiner had his or her own opinion.

If the examiner was more positive about the civilization of this planet then it was possible that there would be more points for you!

The final score could only be based on the three examiners’ scores, to make a comprehensive rating!

“This third subject, your sister should be able to get a good grade.”

The middle-aged supervisor lost no opportunity to speak.

“Yes, your sister has a dual-energy civilization, building two transcendent races that are bound to not lose out on this subject.”

Another teacher took over.

“Let’s just say that..... she’s not pulled too far apart by other demons.”

Tang Yushu waved his hand and said rather modestly, “This year’s candidates have hidden dragons and crouching tigers, I don’t know how many demons are hidden.”

That’s what it says.

However, Tang Yushu knew very well in his heart that the dual transcendental race of Tang Qingqing was inevitable to be in the third subject.

She would get a good score, even a little higher than Bu Jing Yue!

After all, magicians and Dou Qi warriors were two complete systems of transcendent species.

The tree person of Bu Jing Yue could not be considered.

.....

Finally, just as Jiang Fan was about to fall asleep, the ethereal voice rang out:

“The exam is over, please retire from the room.”

In the next moment, Jiang Fan was transported out of the examination room.

He returned to the square’s location where he came in.

There was a black mass of candidates all around.

Unlike the morning, after the afternoon exam, many people no longer looked relaxed.

There was a hint of frustration and loss on their faces!

They knew it themselves.

In the two subjects in the afternoon, the results should not be very good.

There were also candidates who just lost their opportunity to go to college after these two subjects!

The college acceptance rate in this world was not very high, not to mention first-rate universities.

Even if it was a normal university, there was only a 50% acceptance rate!

In other words, out of hundreds of millions of candidates in the entire Dongyang Province, half of them would be eliminated outright!

Thus losing the opportunity to compete with other people of their age.....!

“Jiang Fan.”

Fang Zhenting’s voice came.

Jiang Fan turned his head to look.

Fang Zhenting’s face did not change much, it was relatively calm.

“How was the exam? You are the record-breaking existence of our Jiangcheng Awakening Planet, these two subjects should not be a problem for you!”

Fang Zhenting looked at Jiang Fan and asked with a smile.

“It was okay.”

Jiang Fan simply responded and asked: “What about you? It looks good?”

“I know how many points I have in the second subject, but.....” Fang Zhenting’s expression was a bit grave. “I’m not sure about the third subject. I built an advanced civilized race. There are some species too but the transcendental races are relatively cold and unappealing. If you meet a female examiner, it’s likely that just a few points will be deducted.”

“Won’t you get a few more points for meeting someone like you?” Jiang Fan chuckled.

“Haha, I’ll borrow your blessing.” Fang Zhenting smiled and said, “My score for the third subject is probably around 70. There shouldn’t be any major differences!”

Same as in the morning, in the afternoon exam, the results would come out directly at the end but at this time, it was possible to directly leave the examination room.

The place did not allow staying overnight.

Candidates must spend the night outside!

Naturally none of the candidates did so.

All were standing in a huge square, waiting for the results to come out!

Many people looked nervous.

It was not just the candidates in the square, even in various places outside, many people were in a slightly suffocating atmosphere, waiting for the test results to come out!

.....

In the Conference Room of No. 7 middle school, compared to the morning, school leaders and teachers were standing up in advance.

They were staring nervously at the projection in the front!

“In these two subjects, the second and the third, Tang Qingqing should be able to get a good grade, right?”

Liu Yue voiced out to liven up the atmosphere.

“There are two transcendent species on Tang Qingqing’s planet.”

Qiu Yunfei nodded and said, “The second subject is hard to say, but the third subject, without surprise, it should be rated higher than Bu Jing Yue!”

“The second subject is.....”

One of the surrounding teachers picked up: “Generally speaking, you can refer to the diameter of the planet when it has just awakened. Bu Jing Yue exceeded thirty-three kilometers and Tang Qingqing had not yet reached 30 kilometers.”
