

One Planet 208

Chapter 208: Consecutive explosions! Unprecedented in history! The record terminator..... Jiang Fan!

This subject was bound to be no match for Bu Jing Yue!”

“The two sections add up, she and Bu Jing Yue should be almost the same.”

Qiu Yunfei paused for a moment and said, “Together with the theory test in the morning, both of them scored full marks, which means that the two are evenly matched! We can only see the most critical section of the next day.”

In the conference room, the focus of most teachers’ concern was on Tang Qingqing.

After all, Tang Qingqing’s ranking was in the top five thousand of Heavenly pride list.

What’s more, she had a brother who was a teacher at Star University!

Acquired resources, it won’t be much less than Bu Jing Yue!

It was just that there was a gap in the rankings after all.

“If these two subjects do not split the gap, then.....”

A school leader frowned slightly and said, “In tomorrow’s exam, Tang Qingqing is bound to fail Bu Jing Yue!”

Everyone else nodded.

In the final subject of the next day, basically, there was no suspense to defeat Bu Jing Yue.

Looking at the current situation, basically, there was nothing possible.

“Tang Qingqing can also go and fight for the top 500 if she plays well, so that she will be able to get a place in a superb university.” A teacher said.

There were thirty-six super-class universities.

In Dongyang Province, there were a total of more than one thousand eighty enrollment places!

Finally, the ability to get into super-class university was just a handful.

Most geniuses could only go to the next level of universities!

There was a huge difference between super-class universities and other universities.

In order to compete for these less than six hundred precious places in the annual high school entrance exam, candidates and the forces behind them, would be down for blood!

They were doing whatever it takes!

For example, the teacher of Bu Jing Yue.

Everyone was surprised but it was also understandable that if the heart of the stars was not used, it was possible that Bu Jing Yue couldn’t even get the top spot in Jiangcheng!

The same was true for other genius demons.

They were all doing their best!

This was also the competition that makes the college entrance exam very cruel!

“It’s okay to spell the first 1,000, but the first 500 would be too difficult.”

Qiu Yunfei shook his head.

He was not one to say nice things either.

He liked to be realistic.

He knew what kind of demons were ranked in the first 500.

Hearing Qiu Yunfei’s words, teachers and school leaders were somewhat silent.

Indeed, just as Qiu Yunfei said.

Tang Qingqing was hopeful of ranking in the top 500 to take a place in a super-class university.

It was just that the probability of this was pathetically low.

In theory, it was just a hope.

“Isn’t there still Jiang Fan!”

Liu Yue spoke: “I watched the projected video of the last big competition, the number of people on the planet of Jiang Fan was very large.”

“Jiang Fan?”

Qiu Yunfei thought for a moment and said, “It is true that there are many beings on the planet Jiang Fan, but they are all ordinary people, not a single transcendent. That’s a big loss in the ratings!”

There used to be candidates who built the civilization of ordinary people to take the entrance exam.

The cultivation of ordinary people was much simpler than the Transcendents.

The number of life on ordinary planets was naturally much higher but in the final rating, it was not satisfactory.

The examiner was not going to let you have more than one.

Just give you a high score.

It was just that Jiang Fan’s situation was a little different.

He did not just have a high number of ordinary people, the scariest thing was that other species were also very numerous!

Qiu Yunfei, the school leaders and others only thought that Jiang Fan only had a high number of ordinary people.

After all, on a level 1 planet, how many more species could there be?

“Well, at least there are tens of thousands of lives counted.”

Teacher Liu smiled and said: “Can also make up for the gap in this area.”

“It’s being able to make up for it.”

Tong Zhensheng nodded and said, “Jiang Fan’s third subject score can’t be too high, but it won’t be low either! The two subjects combined should be not too far from Bu Jing Yue and Tang Qing Qing.”

Tong Zhensheng was clear about the diameter of Jiang Fan’s planet.

The third subject might be weak, however, his second section was definitely better than the two competitors!

“The results are coming out!”

At this time, a teacher who had been staring at the projection shouted out!

Hearing this, everyone stopped talking and looked ahead!

At the same time, all over the province, in each college entrance examination square, a huge floating leaderboard slowly appeared!

Seeing this scene, everyone knew the results of the afternoon exam were coming out!

The official announcement time was six o’clock!

There were less than three minutes left.

Everyone couldn’t help but get nervous!

.....

In Tianjing City, on the college entrance examination square, as a big city for high school entrance exams, the number of candidates here was over a million!

It could be said to be crowded.
