

## One Planet 216

**Chapter 216: First in Double Subjects! The whole room is lying down! The crowd of heavenly pride is boiling over!**

“Huh?”

Bai Jiao Yang looked in the direction indicated by the beautiful maid with some suspicion.

The smile on his face instantly froze.

“What the hell?!”

Even the very well-bred Bai Jiao Yang couldn't help but burst into a foul language!

At this time, other people in the exam room also found a certain amazing number on the list!

“No way!!!”

“Did I read it wrong? After that candidate named ‘Jiang Fan’, it says..... 100?”

“A perfect score? Are you kidding? There are still full scores on the college entrance exam?”

“It should be impossible to be wrong. Since the release of this floating leaderboard, there has never been a mistake!”

“That means this 100 points is true!?”

“You are crazy! This candidate named Jiang Fan actually got a perfect score?”

“Who knows who this Jiang Fan is? How come I've never heard of it!”

“I don't know, I've never heard of him either.”

“This is also..... This is unbelievable! Where did this person come from!”

A series of discussions sounded.

Earlier, the focus of everyone's discussion was on themselves or the demons on the Heavenly Pride list but by the end, all of it turned to Jiang Fan!

“Young master, who is this Jiang Fan?”

The beautiful maid asked.

“I don't know either.”

Bai Jiao Yang thought about it for a long time, but still shook his head and said: “I only care about the evildoers at the top of the Heavenly Pride list. How can I expect that a guy with full marks will suddenly appear!”

“But.....”

Bai Jiao Yang looked at Wei Qingqing, whose face had changed slightly not far away, and the corners of his mouth curled up in a smile and said, “This will be interesting, haha. The four super

demons are wary of each other, competing, no one thought that this first place would be taken away by an unknown person in the end!”

Almost at the same moment, in other college entrance examination squares, there were also people who kept noticing Jiang Fan on the list!

All the discussions instantly..... turned around!

“Jiang Fan!?”

in the East Star City’s college entrance examination square, the girl in black stared at the name and the blinding “100” number behind it!

There was a hint of doubt in her eyes!

.....

In Amber City’s Square, Lei Xun hurried over and said loudly, “Shanzi, I heard, this Jiang Fan is a candidate from Jiangcheng!”

Immediately everyone focused.

“Jiangcheng?”

Wang Shan frowned slightly and said, “Jiangcheng after the 300th place?”

“That’s right, it’s this Jiangcheng.”

Lei Xun nodded and said loudly: “He is also a member of the Heavenly Pride List! He’s ranked among the bottom few! I heard that his awakening broke the historical record of Jiangcheng and he built a civilization of ordinary people!”

“Civilization of ordinary people?”

Wang Shan was a little surprised, and after some slight thinking, he said with some clarity, “If it’s an ordinary human civilization, then..... breeding is a lot less difficult.”

“That’s right.”

Lei Xun nodded in agreement, “That’s what I thought. Among level one planets, the gap between ordinary people and transcendents is not that big, so the life force provided by an ordinary person is not much different from the life force provided by a transcendent. If this candidate named Jiang Fan has cultivated a large number of ordinary people then it is possible to make the planet more than five hundred kilometers in diameter!”

After listening to Lei Xun’s explanation.

The people around also understood!

The original surprise was that it was also eliminated a lot!

Those who could be ranked in the list of heavenly pride were not stupid people.

After the initial surprise, they all thought of this!

.....

“Interesting, this second subject actually exploded into a cold one, and the first place was taken by this Jiang Fan.”

On the eighth floor of the Planet Association, a teacher looked at Jiang Fan’s results on the projection.

He couldn’t help but say it with a smile!

“I heard that this candidate built a civilization of ordinary people, so it’s no wonder.”

“Ordinary human civilization? If there is enough luck and resources, there is really hope to cultivate a lot of numbers, thus..... allowing the planet to break through five hundred kilometers in size!

“I thought it was a hidden peerless demon. Since it is a civilization of ordinary people, the subsequent development will be difficult!”

“It’s okay, at least he won first place and broke the historical record of the college entrance examination. This candidate is well known to everyone!”

One by one, teachers were talking.

With their venomous eyes, more than that, they could see at a glance what was really going on.

In the conference room of No. 7 Middle School, the atmosphere was just great!

“It was kind of unexpected.”

Tong Zhensheng’s smile was written on his face, and he said, “I originally thought that the size of his planet could be compared with the one from Tianjing City at most, but actually.....”
