### **One Planet 219**

# Chapter 219: First in Double Subjects! The whole room is lying down! The crowd of heavenly pride is boiling over!

The difference was not large.

In the third subject, the highest in history was only 90 points!

Most of the top students were around 85 points!

Eighty points was a very good score!

"Bu Jing Yue, score....."

Liu Yue at this time, turned to the results of Bu Jing Yue, slightly froze, and then said, "85 points."

Once again, the conference room was silent!

The excitement on each face disappeared immediately before it could be thickened.

It was not much of a surprise to Tong Zhensheng.

Instead, he shook his head, smiled and said, "No way, people have: a heart of stars! A very exceptional race must have been bred! Together with the original Xiu Ling Clan and the Spirit Tree People, the third subject's results are bound to be no worse!"

#### "That's also true."

Qiu Yunfei nodded and said, "We all underestimated the effect of the Heart of the Stars. This is known as the most precious treasure of a level 1 planet. Looking at the effect of Bu Jing Yue's use, it is indeed very amazing!"

"Let's see Jiang Fan's."

Tong Zhensheng said.

## "Jiang Fan has hope to get a score of 70 or more, right?"

A teacher opened his mouth and said, "With the full score of the second subject, he can at least be guaranteed to rank in the top 10,000 and be admitted to a first-class university!"

## "Let's hope so."

The other teachers all nodded.

At this time, after seeing the amazing achievement of Bu Jing Yue again, in the hearts of all people the last glimmer of the idea of competing for the top spot in the college entrance exam has disappeared!

They started to calm down and think things through.

The first prize could not be taken.

They couldn't get into the top universities.

Then retreat to the next best thing.

It was also good to get into a top university.

For the No. 7 middle school, there were only a few students who could go to top universities every year!

. . . . .

On the eighth floor of the Planet Association, the atmosphere was very subtle.

After seeing Tang Qingqing's result, once again, it was pulled away by Bu Jing Yue!

All the teachers were silent.

Tang Yushu's face was also not very good.

This was the one subject for which he had the greatest hope for Tang Qingqing!

Tang Qingqing's results were not bad.

There were 80 points but it was not expected.

Bu Jing Yue's score was even more exaggerated!

It came straight to 85 points!

It was almost ready to go for first place!

In this way, it was almost certain that the top student in the Jiangcheng entrance examination, Tang Qingqing, had already lost the competition.

Thus, she had to deal with hundreds of geniuses to compete for those 500 spots!

Tang Yushu found it very difficult!

"Let's see the results of the major talents in the province."

The middle-aged supervisor flipped the projection page and broke the dull atmosphere saying, "First, let's look at the results of Jiang Fan, another genius from Jiangcheng, I don't think it should be bad!"

The middle-aged supervisor could be said to be the one who knew the most about him!

So, at this time, he judged that Jiang Fan's score in the third subject would not be bad.

#### "Let's take a look."

Tang Yushu forced out a smile.

He knew that he couldn't let his emotions stir up the atmosphere too much!

After a few moments, Jiang Fan's results appeared in front of the crowd.

A teacher who just drank the water, sprayed it out!

. . . . . .

In the Tianjing City's College Entrance Examination Square, Bai Jiao Yang looked at the results on the list.

He couldn't help but curl a smile at the corner of my mouth and said, "As expected, my score was 85, nothing unexpected and not much different from the other heavenly pride demons."

"Young master, Wei Qingqing got 87 points."

The beautiful maid next to her reminded.

"There's still no comparison."

Bai Jiao Yang sighed and asked, "What about the others? Are there others who are better than me!"

"I've looked at it."

The beautiful maid said, "There are four of them who surpassed you."

"The one from Eastern Star City also got 87 points, the one from Amber City also got 87 points, and the one from Purple Star City was the highest, getting 88 points!"

"It's not surprising that these three surpass me, who is the other one!" Bai Jiao Yang asked.

"A candidate named Ye Han, who is also from Purple Star City, got 87 points."

The beautiful maid replied.

"This year really has hidden dragons and crouching tigers."

Bai Jiao Yang lamented, "First, a candidate from Jiangcheng got a perfect score, and now this is another nobody who is actually able to compete with four great demons!"

"By the way....."

Bai Jiao Yang suddenly remembered something and said, "Where is Jiang Fan, who scored full marks in the second subject before? What did he do on the third subject?"

"Let me see."

The beautiful maid looked at the list on the right.

There were the results of all candidates in the entire Dongyang Province!

After a few moments, there was a hesitant voice from the beautiful maid: "Master, he seems to have a full score again?"

"Huh?"

Bai Jiao Yang was slightly stunned.

Then he looked up.

Subsequently, another foul language!

"F\*ck, did you make a mistake? Is there a problem with this list?"

. . . . . .

In other college entrance examination squares, most people were mourning.

The sound of wailing and sighing kept ringing out.

This year's scoring standards had been raised considerably, which caused a lot of people's grades to be less than ideal!

Rather, it was one of the top heavenly pride.

The face did not change so much.

As expected!

The best result was the one from Purple Star City!

It was only 87 points and other demons could not pull the gap!

However, someone noticed something wrong with the list!

In the Jiangcheng College Entrance Examination Square, which was the first to notice, there was already an uproar!

Everyone was staring at Jiang Fan's name and the extremely dazzling figure behind it was 100!
