

## **One Planet 221**

### **Chapter 221: Overall Top Ranking..... Jiang Fan! Crushing all heavenly pride!**

All parties were concerned.

It was not just the general public, there were also those big shots and powerful planet masters who were staring one by one.

There was absolutely no possibility of such a big New: leak!

In other words, the fact that there were full marks in the second and third subject was real!

The geniuses were naturally mentally strong.

After the initial shock, another very important question came to their mind!

“This Jiang Fan scored a perfect score in the second subject and a perfect score in the third subject! How did he get it? It is not critical, now the floating leaderboard has recognized the score, adding up the two subjects is 200 points!”

In Amber City’s College Entrance Examination Square, for the first time, Lei Xun showed a hint of worry and talked with Wang Shan next to him.

Both of them also did very well in the third subject.

One ranked in the top 20 and Wang Shan was even in the top five!

It was all expected but suddenly, Jiang Fan appeared, letting the two men’s previous plans be forced to change!

“And, I looked into it.”

Lei Xun glanced at the crowd around him and continued.

Beside the two men, there was also a large crowd who was listening curiously and attentively.

Everyone knew that Lei Xun was very well-informed.

After the results of the previous second subject came out, it was Lei Xun, the first to find out about Jiang Fan’s origins!

“This Jiang Fan also got a perfect score on the “Planetology” subject exam in the morning, which means, he got a perfect score in three subjects!”

“The total score is now a perfect score!”

“The total score of the three subjects on the first day is three hundred and fifty points!”

“And this Jiang Fan has already got it all!”

Hearing this, each of the surrounding geniuses frowned.

It was not that they were worried about themselves, instead, they were worried about Lei Xun and Wang Shan, the two most outstanding geniuses in Amber City.

Especially Wang Shan.

He was considered by many teachers.....

He was very promising to win the overall top prize of the province!

This year's performance was also considered very good.

He got full marks in the morning's theory subject.

He got a 95.2 in the second subject in the afternoon and scored 87 points in the third subject!

Both of these subjects were highly scored.

Even if it was not ranked first, the gap with several other competitors was not that big either!

It was as expected.

Couldn't close the gap!

However, when Jiang Fan's two perfect scores came out!

The third subject, directly pulled out the gap of ten points!

Plus the second subject was close to 20 points!

"Luckily it was Jiang Fan who got the perfect score in both subjects and not those other big demons."

Wang Shan gently breathed a sigh of relief, and his face was still relatively calm.

"Haha, if it's those big demons....."

Lei Xun smiled and said, "Then there's no suspense about the overall top student in this year's college entrance exam but this Jiang Fan is not to be underestimated either."

With a hint of solemnity on Wang Shan's face, he said, "He has pulled us by nearly 20 points now, and it can be said that it's..... far ahead!"

"This point difference is not so easy to catch up with."

"That's true, but....."

Lei Xun shook his head and said indifferently, "According to the results of my investigation, this Jiang Fan was at the Jiangcheng Grand Tournament back in the day. The planet he built is the one that already has tens of thousands of people! So I'm guessing that he may have bred certain plant species that produce higher yields! That's why the third subject's assessment score is so high."

"Maybe."

Wang Shan nodded slightly.

According to the scoring rules of previous years, the examiners, for plant species.

Especially those useful plant species.

For example, plants that have never appeared and can produce food.

Such plants were highly favored.

Then scores would be much higher!

“So.....”

Lei Xun continued, “Your worries are unnecessary. This Jiang Fan should have obtained good scores in these two exams through the cleverness of ordinary people’s civilization, but.....”

Lei Xun smiled lightly and said, “In tomorrow’s exam, it’s not that easy! What is the real strength of a planet? It can’t be judged by the second and third subjects! Tomorrow is the real test!”

“Tomorrow?!”

Wang Shan glanced at the list in the sky.

A hint of anticipation flashed in his eyes!

.....

On the eighth floor of the Planet Association, one by one, the teachers looked weird after the initial weird look.

They were also slowly coming to terms with this fact and discussed it!

After all, this was the first time in history that someone got a perfect score in the third subject of the college entrance examination.

Plus a perfect score in the second subject.

That’s a double perfect score!

Breaking two college entrance examination records in a row!

No one was left unshaken.

“Interesting, interesting.”

A teacher showed a smile on his face and said, “I didn’t expect that I would be able to gain so much from this trip to Dongyang Province. I actually..... witnessed history with my own eyes!”

“That’s right!”

Another teacher nodded and said, “No matter what the final score of this candidate named Jiang Fan is, but by getting full marks in these two subjects, he has been engraved in the history of the college entrance examination. Now it should also be famous throughout the Dongyang Province!”

“I was told that this Jiang Fan built a civilization of ordinary people and that there are no transcendent species on the planet.”

An old teacher said: “The civilization of ordinary people seemed to rely on the advantage of many people at the beginning, but..... there is no potential in the future.”

“Indeed, when other transcendent civilizations develop later, it will be difficult for ordinary people to fight.”

A teacher nodded in agreement.
