

## One Planet 222

### Chapter 222: Overall Top Ranking..... Jiang Fan! Crushing all heavenly pride!

Tang Yushu, who was sitting beside him, had a strange expression on his face.

He was still glancing at the projection from time to time.....

His mind flashed back to the time when he was at the Grand Competition.

At that time, Jiang Fan was still just a very insignificant student, following Qiu Yunfei.

Except for being handsome, he was not different from other ordinary students.

“This Jiang Fan.....”

Tang Yushu thought to himself and said, “Every time he can give me a big surprise, I thought it was Tang Qingqing who could compete with Bu Jing Yue this time, but I didn’t expect..... this little guy has appeared again! ”

“Whatever.”

The middle-aged supervisor spoke up.

He was now in a very happy mood.

Speaking for Jiang Fan, he said, “Now Jiang Fan’s total score is far ahead, not compared to those supreme demons, but within Jiangcheng, it has pulled away from Bu Jing Yue by more than twenty points.”

When the other teachers heard this, there was a slight silence.

It was Tang Yushu who nodded and took the lead in responding, “This score is considered great, and if Jiang Fan hadn’t built a somewhat special civilization, it would have basically determined the Jiangcheng top student in advance.”

“Twenty or so points is okay.”

A teacher, however, objected, “The first day of the exam is not that critical, the most important is the second day!”

Most of the other teachers nodded in agreement.

The total score of the college entrance examination was 750 points!

Adding up the score of three subjects on the first day, it was only 350 points!

In the next day’s exam, there was only one subject but this subject accounted for a full 400 points!

In addition, this subject was the easiest subject to pull apart in the previous years!

A single carelessness could make the difference of several tenths of a point.

One could say, this last subject was only a subject that determines the outcome and decides the champion!

.....

In the conference room of the No. 7 middle school, everyone was just excited!

After seeing Jiang Fan's amazing achievement, at first they were all in dismay.

All of them couldn't believe it.

Some teachers thought it was an error in the floating leaderboard but after a few minutes nothing changed.

One by one, they clenched their hands and almost jumped with joy!

**"A perfect score!"**

Teacher Liu Yue was also very excited.

**"Good kid, he really caught us off guard."**

Qiu Yunfei was exhilarated.

The joy was overwhelming!

The crowd started off.

Their hope was that Jiang Fan could get more than 70 points and earn a spot at a top university.

However, no one expected that an explosive result would directly come out!

This made a lot of school leaders and teachers.

While being happy.

They saw the glimmer of hope of winning the top spot in Jiangcheng's college entrance examination again!

It was not the same as before.

Earlier, as Bu Jing Yue's ranking on the Heavenly pride list was too high, everyone thought that there was hope for Jiang Fan and Tang Qingqing but the hope was not too high.

However, at that time it was different!

**"All three exams on the first day are over."**

Teacher Liu Yue was compiling data on all the candidates from the No. 7 middle school.

The college entrance examination square just announces everyone's results.

There was no specific ranking.

There was no summary either.

There were overall scores and associated rankings.

Every force needed to do it by themselves.

The first thing that came with it was naturally the performance comparison between Jiang Fan and Bu Jing Yue, which everyone was most concerned about!

**"Jiang Fan scored a perfect score in all three subjects! Total score..... 350!"**

“And Bu Jing Yue.....”

Teacher Liu Yue paused for a while, then quickly calculated: “The theory is a perfect score, the first subject is 92 points, the second subject is 85 points, which adds up to.....”

“327 points!”

“On the first day, the two of them got twenty-three points away from each other!”

Teacher Liu Yue’s tone had a hint of joy!

She was also someone who had taken the entrance exam and won the top prize.

She was naturally clear.....

This gap represented something.

There was a flurry of excitement in the conference room.

“It’s still the first day.”

Tong Zhensheng pressed his hand and said calmly: “Everyone knows that Bu Jing Yue obtained the heart of the stars and created a brand new race!”

“So, the next day’s exam is not that easy to say.”

“Hey, it’s a pity, if Bu Jingyue didn’t have the heart of the stars, then..... Now basically, we could look forward to the position of top prize.” A teacher said with some emotion.

“It can’t be helped. She has a good teacher.”

Qiu Yunfei laughed and said, “But let’s not dwell on this top student, with Jiang Fan’s current grades, it shouldn’t be a problem for him to get into a top university. The key is the exam for the fourth subject tomorrow! As long as it’s not too bad, the top 10,000 in the province should be no problem.”

“Okay, it’s getting late, everyone should leave first, go back and have a good rest, tomorrow will be the main battlefield!” Tong Zhensheng said finally.

After everyone left, Tong Zhensheng and Qiu Yunfei looked at each other.

Both saw the gaze in each other’s eyes!

The next day of the exam was not that easy!

The test was about real strength!

Once lost, even if you did well on the first day of the exam, it would be useless.

.....

Click!

A huge stack of books was dropped on the ground.

Immediately after that, a roar sounded in the “Heavenly pride News” branch of East Star City.

“You bastards, what are you doing? A genius who can get double perfect scores and break two records is actually ranked over 9,000 by you and almost fell off the list?!”

Inside the conference room, a middle-aged fat man was furious.
