

## One Planet 227

### Chapter 227: The real decisive battle! The last test!

“I hope that Jiang Fan and Tang Qingqing can relax and compare themselves to Bu Jingyue first and fully display their strength! As long as today’s results are not too bad, going to a good college should not be a problem!”

That being said, each of the teachers was not optimistic!

They all knew that Jiang Fan and Tang Qingqing were going to a first-class university.

That’s definitely no problem.

However, to go to a super-first class university, they had to squeeze into the top 500 in the province!

That was truly going to be a bloody path among the trillions of examinees, and tens of thousands of heavenly geniuses!

Easier said than done.

Even after the exam was finished yesterday, the most powerful planet masters thought that in today’s practical test, Jiang Fan’s results would be more average!

“Okay, don’t discuss it, let’s wait for the actual combat assessment to begin.”

Tong Zhensheng said.

The discussions ended one by one.

Everyone held their breath.

Turning their attention to the projection in the front, there was also a countdown timer similar to that in the examination room.

At last, after a countdown of ten minutes! That ethereal reminder sounded:

“The actual combat test has officially started. This year’s test will be conducted in the form of a transcendent invasion. Please prepare yourself!”

“Transcendent Invasion?”

“This year is actually using Transcendent Invasion?”

“This is..... the most difficult one among several practical tests.”

At one place after another, after knowing the assessment method, many people were shocked.

“It should also be because there are too many geniuses this year.”

In the conference room of the No. 7 middle school, Qiu Yunfei guessed, “Only this most testing test for candidates can be used!”

“Transcendent invasion.”

Teacher Liu Yue's eyes flashed with a trace of memory and said: "If I remember correctly, the last time this approach was used, it was three years before I gave entrance exams! Generally speaking, this type of assessment should not be used!"

Other teachers also nodded.

Transcendent Invasion!

The crowd knew what it meant.

The degree of testing for each candidate was very high!

It was not just about planetary strength and their decision-making power, willpower and judgment, etc.!

A single mistake may lead to the loss of dozens of points!

"This year is really going to be a bloodbath!"

Tong Zhensheng also smiled with emotion.

He had lived his entire life, being a principal for decades but he hadn't seen the assessment method of "Transcendent Invasion" many times!

"In one minute, the first wave of transcendent species will pass through each candidate's planetary channel and invade their respective planets!"

In the examination room, the ethereal voice continued to sound: "Every candidate, please prepare! If any candidate wants to withdraw from the assessment, they can withdraw at any time. There is a button in the middle of each candidate's desk. By pressing this button, you can simply exit the examination room. Please pay attention! If the exit button is pressed, then you will be directly transported out of the examination room, which is equivalent to giving up the next test. Your grades will also be fixed, and there is no chance to enter again."

There was a pause.

The ethereal voice had a hint of warmth, and said, "Because the assessment method of transcendent invasion is adopted this time, all candidates are requested to pay attention to the situation of the civilization race they have created. Don't blindly persist, and don't give up in advance."

"Good luck to all candidates!"

"This voice suddenly humanized?" This was Jiang Fan's first reaction when he heard these words.

He looked ahead.

Sure enough, in the middle of the table, there was an extra button but there was no touching it.

If this was pressed, it would be directly transported out.

It was the same as saying zero points for this practical test!

There will be no do-over!

It was not just this college entrance examination, someone's whole life was the same!

This world's college entrance examination was the dividing point of everyone's life!

It was almost..... one step to heaven!

One step to hell!

At the same time, in various places in the province, inside one examination room after another, all the candidates were sitting upright!

Some of them were even nervous and sweaty, especially after knowing that the test method was "Transcendent Invasion".

Jiang Fan on the other hand was observing the Blue Star.

The Royal Tombs Mountains not far from the capital of the Xia Kingdom.

Jiang Fan, naturally informed Yan in advance about the transcendent invasion thing.

Yan and a bunch of others had also made preparations early on!

Time passed by second by second.

One minute passed in a flash!

When the countdown went to zero, the ethereal prompt sounded.....

**"The first wave of transcendental invasion begins!"**

Awareness of each candidate.

At this time, they all probed into their own planet.

Outside, live streaming from one place to another, also showed the actual combat assessment of each candidate on the projection!

Outside the Royal Tombs Mountains, the planetary passage slowly opened.

A large group of breath belonging to the transcendents rushed over!

**"Here it comes!"**

Jiang Fan raised his eyebrows.

The actual combat test has really begun!
