

## One Planet 228

### Chapter 228: The most difficult examination in history! The new version of the Great Desolate Army's attacks!

Actual combat assessment method of the annual college entrance examination was not possible to leak out in advance?but?after all these years, there were just a few of them, so?every student was prepared in advance!

Teachers,?family and friends behind them also reminded them too!

Jiang Fan naturally didn't know either?but after seeing several assessment methods that have appeared, he gave all tips to Yan.

Therefore, for this possible kind of actual combat assessment, Yan had made enough arrangements!

In actual combat assessment, there were mainly two situations.

One was offense,?the civilization races of each planet would go to the planet through the planet passage where the actual combat assessment was located and they would attack and fight?while the other one was defense!

As compared to the offense, for example, the "Transcendental Invasion" this time,?the location of the defense was this planet.

So, it was easy to destroy the environment and ecology, which would greatly increase the difficulty of the assessment.

It was a test of the mentality of each student!

Before the transcendent invasion, Yan and everyone in the Great Desolate?Army was ready!

At this time, in the Royal Tombs Mountains, there were more than 100,000 soldiers!

Inside this army of 100,000, there were 50,000 of the regular soldiers?while the other 50,000 were reserved in case of emergency ahead.

These 50,000 would make up for it!

In addition to the large army, there were still more logistics.

There were tens of thousands of people in the logistics.

They were responsible for all aspects of the army's clothing, food, housing and transportation.

After learning about the examination method, Jiang Fan directly informed Yan.

Yan put on the armor?and held the longsword left by Qi in her hand!

She personally climbed onto the city wall!

She did not have the power of words to give motivation like Qi?but she could also lead them by giving examples.

Behind her there were generals and strategists, including Ghost Buster, Zhuge Ming, Zhang Liang, Chang Yu Chun, Le Yi, Han Xin and others!

They all climbed the wall themselves!

Everyone knew the importance of today's battle!

They were going to fight on behalf of the gods!

Around them, the dark mass was overwhelming, and all of them were soldiers of the Great Desolate Army!

Each one had a brand new uniform on their bodies.

Their formation was neat and consistent!

Their eyes were solemn and determined!

50,000 troops were hot-blooded like Yan but they still remained sensible.

The whole army was not dispatched directly as soon as they came up.

Instead, 10,000 people were sent first!

50,000 people were divided into five groups!

If the first group was tired or damaged, the second group would fill in to make up the difference.

Over the past few years, one of the most important preparations made by the Great Desolate Army was this tall city wall beneath the crowd!

At this time, wall building materials had long been developed by scholars.

It was not hard to build a tall city wall!

This was also an order from Yan for a possible defensive battle!

Today, it came in handy.

This city wall was located in front of the Royal Tombs Mountains, not far from the planet passage.

It was up to 30 meters high!

That's right.

That's 30 meters!

It was not just high.

Whether it was width, thickness or length, it was extremely amazing!

This was also only on Jiang Fan's planet that it was possible to build such a wall!

In addition, there were millions of people in the Xia Kingdom!

There were not enough people on other planets either.

They couldn't build it at all.

At most, a small earthen wall was built with stones and clay.

Even if it was very good.

When the people who were paying attention to Jiang Fan, saw such a large and thick city wall through the projection, they could see that.

Their eyes were wide open!

They almost said a foul word!

From the Planet Passage, a large group of transcendent species came out.

After seeing that there was such a large wall ahead.

They were also slightly stunned!

“The battle has begun, General Chang, you will command.....”

Yan ordered in a deep voice!

Professional matters were left to professionals!

Chang Yu Chun nodded solemnly, swept a glance at the soldiers of the Great Desolate Army around the city walls, and shouted, “Fire according to the original plan, don’t let these Transcendents step within 300 meters!”

With the current technology of the Great Desolate Army, the latest models of semi-automatic rifles were already in use.

There were also a few automatic rifles!

The effective range was also greatly improved!

From the original four hundred meters increased to six hundred meters?and that was just a regular rifle!

Thanks to the presence of vibranium and star meteorite iron.

The quality of the gun was better than the Earth in Jiang Fan’s previous life.

At this time, Jiang Fan and others,saw the true face of this first wave of invaders!

According to the exam regulations, all candidates.

The first wave of transcendent invaders faced by all candidates?was the same!

After a strong breath, the passage’s light flashed.

Each one resembled a person?but a creature with a strange posture walked in!

Yes, it was walking in.

Their number was black and overwhelming!

Just looking at these in front of the channel.

There were at least a thousand of them!

These Transcendents were not fast?but their movement was a little weird.

The clothes on their body were torn and tattered, their faces were pale?and their tongues were sticking out.
