

One Planet 229

Chapter 229: The most difficult in history! The new version of the Great Desolate Army's attacks!

Their eyes were hollow and lifeless?and their hairs were all messed up.

The?more exaggerated thing?was that some of the skin on the face was still bad.

They were twisting in strange gestures.

Step by step, they leaned toward the side of the Great Desolate Army!

“This..... what is this?”

All the soldiers were a little confused!

In the past years, they had experienced many planetary expeditions.

They also saw all kinds of transcendent species!

However, this was the first time they had met.....

It was such a strange thing!

They looked like people?but then again, they were not.

On the other hand, Jiang Fan slightly raised his eyebrows.

He probably guessed what species this was.

“Zombies?!”

“It's really a zombie! This is an extremely rare transcendent race.”

“This year, the first wave actually used zombies? This year's candidates have something to cry about.”

“Zombies are an extremely powerful type of low-level civilization! Especially when it comes to dealing with these planets that have just awakened for three months, it's simply not too easy!”

“Which planet master is in charge of the exam questions this year? To be so “capable” that he took out such a weapon of mass destruction at the first wave.”

After seeing the transcendent species in the first wave, each of the big shots and planet masters watching the battle outside couldn't help but talk.

Some people even started spraying!

Tong Zhensheng, Qiu Yunfei and others as school leaders and teachers?didn't have a very good mood!

“The difficulty of this first level has increased more than a little bit compared to previous years.”

Qiu Yunfei shook his head and said somewhat helplessly, “This year’s genius is the most numerous session but there is no need to make it so difficult!”

“These zombies, placed in previous years.....”

Liu Yue also echoed: “It must be placed in the second wave!”

“This year, the first wave came out.”

“I feel that this first wave, I’m afraid?that a?large number of candidates will be eliminated!”

“Zombies are really hard to deal with.”

Even Tong Zhensheng nodded and said, “It depends on the coping ability of each candidate!”

“Luckily, all candidates are facing the same invaders, so it’s fair!”

“It’s really a zombie.”

After Jiang Fan observed these “people” with strange postures.

He couldn’t help but raise an eyebrow.

He didn’t even give any hints to Yan.

Just giving a name was not of much use either.

Besides, the Great Desolate Army had?a 100-member transcendental research team.

There was nothing as a free meal!

Each one had its own ability!

“No matter what these things are, fight according to the original plan!” Chang Yu Chun shouted loudly.

All of the soldiers around were ready to go!

The gun in their hand aimed at the zombie army not far away!

The black mass of zombies was continuously passing through the passage of the planet.

They were walking for a long time.

There was still no end in sight!

In just three minutes, more than a thousand people had come in!

Their speed was not fast as they were walking forward in a strange manner.

Suddenly, when they were about a thousand meters away from the Great Desolate Army, these zombies seemed to smell the smell of humans.

Their nose twitches a little.

Followed by, their eyes widened one by one.

Then they screamed, opened their teeth and claws.

They excitedly pounced towards the city wall.

That speed and agility directly went up a lot.

Looking at these crazy zombies above the city walls, Chang Yu Chun and Xu Tiande, the general of the First Army of the Great Desolate Army, did not panic.

They looked very calm.

When the herd of zombies came close to about six hundred meters from the walls, he ordered loudly: "Fire!"

Immediately, 10,000 soldiers of the Great Desolate Army pulled the trigger of all the rifles in their hands!

The bullets made of Star Vibration alloy rapidly launched out, straight into the running crowd of zombies!

Since Jiang Fan used the tenfold amplification card, the amount of vibranium on the Blue Star had already reached 100 tons!

There were even more reserves of star meteorite iron.

These were two metals with extraordinary properties.

There was something, when building alloys, there was almost nothing to lose.

It was close to 100 percent utilization!

Therefore, Yan ordered the creation of a large number of alloy bullets in the past few years and let all the soldiers of the Great Desolate Army use alloy bullets.

Ordinary bullets were eliminated!

It was reserved for use by other armies.

It was not just the bullets, even the rifles in the hands of all the soldiers of the Great Desolate Army were all made of Star Vibration alloy!

Their range was longer and the accuracy of shooting was also higher!

Bang! Bang! Bang!.....

Countless bullets poured out!

Ten thousand soldiers of the Great Desolate Army kept firing!

With thousands of bullets, a rain of bullets rained down in the air!

It was quickly rushing towards the thousands of zombies, like a black mass of locusts.

It was completely covering these zombies!

Puff! Puff! Puff!

Zombies running at the front were fast but they were also about the same as ordinary people.

They couldn't dodge so many bullets at all.

By the looks of it, it seemed that they didn't realize the power of this weapon and didn't dodge it!

Immediately, they were directly hit by dozens of bullets at the same time!

Their bodies were trembling!

However, something that surprised Chang Yu Chun and others happened.

Zombies who were hit by bullets, were back on their feet again, after shaking in place a few times.
