

## One Planet 231

### Chapter 231: Eliminating half! Passing smoothly!

The owner of this martial artist's planet was a candidate named "Yuan Hua".

He tilted his head upward.

His hands were wide open.

He was watching the martial artists on his own planet get bitten on one by one and then assimilated!

He was disappointed but he could only accept the reality.

He reached out and slowly pressed the "Exit" button!

His journey to the entrance examination was over!

It was not just Yuan Hua, other candidates who had created a martial artist's planet also had the same experience!

In the end, most of the Martial artists on the planet were assimilated by the zombie hordes!

For these candidates, there was only an opt-out option.

After exiting, they were wailing and screaming.

"What kind of creatures are these? My martial artist slashed them so desperately with his long sword, and he can't do anything to them?"

"No matter how you attack, you can't kill them! What's even scarier is that martial artists become just like them after being bitten by them!"

"No, I can't believe I didn't even get past the first wave, there's no hope for college, my dad is definitely going to scold me severely!"

"Who gave the exam questions this year? The first wave is so difficult, it's killing people!"

"Don't blame him for not trying, it's really because this test is too hard."

"It's gone, it's gone, I can't get into college, it's all over!"

"Can you not ask such difficult exam questions in your next life?"

"....."

Every one of them was complaining madly about this practical test!

The first wave was really too hard!

More and more candidates were being eliminated.

Even in the hall of the city lord's residence, those big shots were looking a little bit down.

"Looking at this situation, nearly half of the candidates will be eliminated in the first wave of this year."

A powerful planet master could not help but say.

“It can’t be helped, it’s not known which examiner would choose the zombie’s transcendent species, as the first wave of invaders!”

Another planet master said.

“The zombies do not look strong in combat, they are even worse than ordinary people, but in fact they are?very scary.”

An admission teacher from a super-first-class academy also nodded.

“It’s scary, but there’s an obvious weakness. It’s up to these candidates to see if they can find it!”

Tang Yushu also spoke up.

He had a relaxed expression at this point.

These zombie hordes were tricky, but for the dual civilization of magicians and Dou Qi warriors created by his sister Tang Qingqing, it was not a lot of trouble for them.

The warriors were holding the front?and the magicians were releasing super fireball techniques.

It almost directly emptied the herd of zombies!

Correct.

This was the first weakness of the zombies!

Fear of fire!

At the same time, on the side of the Great Desolate Army, there were also scholars who had discovered that the zombies were not quite the same.

“Look.”

A young scholar pointed to a zombie that was lying on the ground and couldn’t get up for a long time in the zombie group and said: “This creature is just shot in the head by a bullet?and it can’t get up,?I don’t know why!”

Other scholars looked over.

After that, an experienced scholar suddenly had a flash of insight and said, “Could it be that these creatures will not survive if they are hit in the brain?”

“Like most transcendent species, there is a fatal weakness and the weakness of these creatures is their brain!”

Guessing it was just?guessing?but Chang Yu Chun immediately let the soldiers aim at the brains of the zombies!

After a round of bullets fired in unison.

They discovered that?it really worked!

The zombies who were hit in the head,?fell to the ground and couldn’t stand up anymore!

“The brain is indeed their weak point!”

Chang Yu Chun was also excited and immediately ordered, “All soldiers, aim at the heads of these creatures and shoot!”

In the next moment, ten thousand guns fired in unison!

Countless bullets poured out!

All bullets aimed at the brains of the zombie horde!

**Puff! Puff! Puff!.....**

Immediately, zombies were blown up one by one!

What a splash!

After being hit in the head, each one of them did not move again.

Seeing this, Jiang Fan knew that there was nothing wrong with this first wave.

Under the terrifying firepower of the Great Desolate Army, even though the number of zombies was very large, it even reached several thousand people, it was also just a marker.

Not a single zombie came close to the range of 400 meters.

Just by the ferocious rain of bullets, all of them were blown to the ground!

After 10 minutes, the battle was over!

All of the zombies fell to the ground.

“The first wave of invasion is over, congratulations on passing, in one hour, the second wave of invasion will take place, please prepare yourselves!”

The ethereal prompt sounded.

One hour in here, referred to the time on the planet.

The flow of time done earlier was for this purpose that the arrangement was made in advance.

In reality, it was just ten minutes!

At the same time, the other candidates’ resistance against the zombie swarm attack was also all over.

To the surprise of many people, in this first wave of zombie swarm invasion, many students surprisingly choose to quit!

According to the preliminary estimation, this wave eliminated nearly half of the candidates!

Just some geniuses with good grades remained.

They also panicked because of nervousness.

They couldn’t find the weakness of these zombies.

Thus, a large number of transcendents were assimilated by the zombie horde.

In the end, they could only opt out with a reluctant face.

Since then disqualified from continuing the entrance exams!

Of course, for most of the demonic geniuses, there was no danger.

They smoothly passed this hardest first wave in history!

No break was given to the candidates.

The second wave of attack came right up!

After a countdown of ten minutes, the ethereal voice rang out:

“The second wave of Transcendental Invasion will begin in one minute, please prepare yourselves!”

“Here we go! Second wave!”

Jiang Fan secretly thought, “I wonder what kind of transcendent species will be in this second wave?”
