

One Planet 236

Chapter 236: The Undead Knight! Fantastic way to pass!

Immediately, all of them looked at the floating leaderboard in front of the examination room!

That's right.

After the first wave was over, it was not only in the college entrance examination square?but also in the examination room of each candidate.

There were real-time leaderboards!

The real-time results of each candidate were listed above!

This result was arranged according to the time of passing the first wave.

The shorter the time, the higher the ranking!

The reason why the college entrance examination had such a setting was to stimulate a candidate to reach his or her greater potential!

In addition, this ranking was not just to stimulate candidates.

In case, there was a draw later, ranking would play a big role.

But since in the second wave, they were facing these strange and unpredictable undead knights, all candidates were fully committed.

How could they be bothered to pay attention to this ranking?

Now this prompt sound made many people complain directly.

“Damn you, you scared me, I thought I was eliminated!”

“I already knew there was a prompt, but I was too focused and still got surprised!”

“No way, someone actually passed so quickly?”

“I can't beat these damn undead knights at all, how can anyone pass!”

“.....”

One by one, they were shouting.

Followed by, looking towards the leaderboard, they couldn't tell which one it was.

“It must be one of the great demons.”

Inside an examination room, Bai Jiao Yang secretly thought.

Then he looked at the situation on his own planet.

He couldn't help but frown slightly.

“How in the world are we going to solve these things that can't die?”

Jiang Fan also noticed the leaderboard?but he only took a look.

He no longer cared.

What he wanted was never to be number one in the rankings, instead, it was the first place in this subject and the first place in the final college entrance examination!

As for who was temporarily first and who was second, he didn't care.

A final surprise attack.....

Isn't that more fragrant?

In front of the position of the Great Desolate Army, the undead knights continued to advance.

They had already approached the 400-meter perimeter!

Beyond this range, the people of the Transcendent Research Group generally agreed that it would pose a threat to the Great Desolate Army!

In addition, artillery at close range was also not launchable.

“Don't stop the artillery, keep blasting for me!”

Chang Yu Chun shouted.

It was not just the bullets, there were also a lot of artillery shells stored in the warehouse in the back but they did not dare to use all the star vibration alloy to make shells because that would be too consuming.

Only normal shells were used earlier.

Their power was also sufficient.

Another new round of artillery fire went down.

The bombing caused rumbling!

The smoke was thick!

It was all dusty!

Yet, when the smoke cleared, everyone found out that nothing happened to these two thousand undead knights!

Not even a single thing happened!

“Am I seeing ghosts?”

One scholar couldn't help but spit out a comment.

“No, that's not right.”

At this time, a scholar with binoculars next to him suddenly stared wide eyed and said, “Look guys, the position of these undead knights has changed!”

“Position?”

Almost everyone looked over, bringing an unprecedented level of focus!

Several more careful soldiers stared at a certain position.

There was a glimmer in their eye!

“They really changed positions!”

Le Yi slowly said, “The undead knight who was just hit by the cannon fire changed places with the undead knight next to him!”

Others also gradually found this.

Immediately, doubts arose.

“Why are these undead knights changing places!”

“Are they…….”

A scholar frowned slightly and guessed: “They thought our target was that undead knight, so they changed positions!”

“So, the undead knights are not invincible. They must have been injured in the artillery fire just now. Although I don’t know how they defended it, changing positions means…….”

This scholar excitedly analyzed, “The defense of the undead knight is weakened by the cannon fire!”

“In order not to be completely weakened, they changed positions!”

Hearing this scholar’s analysis, everyone else was stunned.

After that it all seemed to make sense!

“I think you should give it a try, strike all the undead knights in all directions, and see what’s going on!”

This scholar suggested.

Chang Yu Chun pondered for a moment and nodded.

Then he shouted loudly: “Full firepower coverage, try to bomb every undead knight, don’t stop the rifle, keep shooting!”

With a clear plan, the targets of the artillery were well allocated.

One orientation for each side.

It was covering it all!

There was a boom with another round of bombing!

With this round of artillery fire, everyone made a surprise discovery.

The formation of the undead knights was slightly disorganized!

They seemed to be unsure whether to change positions or not!

“Keep bombing!”

Chang Yu Chun’s expression was very excited, and he shouted loudly!

The shells rained down.

Dozens of guns fired at the same time!

They fell on the Undead Knights?like a blossoming flower.

A blast of dust exploded!

In the thick smoke, Le Yi seemed to have found something.

Suddenly he said, "Continue to bombard with full force, don't stop, aim at all the undead knights, and the same goes for the rifles!"

Everyone else was a little confused?about why Le Yi ordered this.

Chang Yu Chun also slightly frowned?but he believed in Le Yi's ability.

There were no objections.

Immediately, all the artillery fire and bullets rushed toward all the undead knights!

After a few moments, many people were surprised to find that?the flames in the undead knight's brain were reduced!

"What's going on with this!"

Some scholars and soldiers were a little confused!

It was fine just now.

Now this round of gunfire went down.
