

One Planet 237

Chapter 237: The Undead Knight! Fantastic way to pass!

Why the flames in the minds of these undead knights started to change again!

“These undead knights have the power of immortality!”

Le Yi spoke up at this time.

“Immortality?”

Everyone else was stunned.

“Their immortality is able to withstand a lethal attack while having a protective shield!”

“That means, the flame represents the protective cover. Once the damage received exceeds the range of the protective cover, the immortality ability will be activated to resist this damage?but?this immortality ability has a cooldown.”

“No wonder!”

A scholar clapped his palm and suddenly realized: “We just had two rounds of artillery fire. In the first round, the immortality power of these undead knights was passively activated, but not in the second round!”

“Only energy shields can be consumed!”

“There’s one more thing.”

Le Yi added: “It’s not just the flames in the brain, these undead knights can also transfer their immortality abilities to each other!”

“That is, if we hadn’t just covered them with full firepower, they could have used this to never take casualties!”

“So that’s how it is!”

The crowd was in a daze!

This ability was also too weird and unbelievable!

If it were not for Le Yi, I’m afraid it would take a lot of effort.

It was only possible to know this!

Jiang Fan, who watched all this,?was not worried at all!

The artillery fire of the Great Desolate Army was too powerful.

Even if you couldn’t figure out what the undead knight was capable of, under the horrific artillery fire,?the two thousand undead knights could be wiped out!

Of course, it was impossible for the Great Desolate Army to do so.

In every single battle, there was a certainty to capture some transcendents alive for research!

This time, there was no exception.

Soon, under a heavy artillery barrage, the undead knights' shields and undead abilities were all consumed!

Boom!

A cannonball fell and blew an undead knight straight to pieces!

The undead horses below were not much better.

The same went to heaven!

Not a moment later, most of them were wiped out and the Great Desolate Army began to move out.

They surrounded the remaining undead knights tightly to capture them alive!

It took some time to capture it alive.

After all the undead knights were eliminated, Jiang Fan looked at the leaderboard at the front.

There were already two results listed on it!

Undead knights were like a nightmare for most of the candidates but for the top geniuses, they were not a problem.

They just directly crushed it with strength.

There was no need to dwell on it!

Boom!

With a loud noise, under the fifth round of bombardment by the magician's legion, the undead knights began to suffer casualties.

"This sister of mine."

Seeing this scene, Tang Yushu could not help but shake his head.

Tang Qingqing also did not discover the undead knight's undead ability and the ability to transfer it to each other!

She directly used the immense power of magic and bombarded the undead knights to destruction!

Most of the other geniuses did the same thing!

Rather, it also aroused the approval of some of the planet masters.

"Actually, this is also the best way. The college entrance examination has to compete with other people. How can there be so much time for you to study?? No matter what method, you can pass it."

A powerful planet master said.

It was just that, not all of the heavenly geniuses passed smoothly.

There were some of the top geniuses who fell under these undead knights whose abilities were too bizarre!

Thus they lost.

There was a chance to keep competing!

.....

“Sister!”

Wang Yao, who had cheated on Jiang Fan once, looked at the situation on his sister’s planet, and her heart twitched!

Her sister Wang Yue was the second top genius of Blue Moon City.

The created civilization race of giant bear race also had great potential.

However, it just happened to be restrained by the Undead Knight’s ability.

On her planet, there was still a fierce fight.

Looking at the giant bears who kept falling in front of the undead knights, Wang Yao knew that her sister’s journey to the entrance exams was over!

Shortly after that, Wang Yue gloomily opted out.

She originally predicted to be at least in the third wave.

However, she didn’t even pass the second wave!

“If only I could get that ten-fold amplification card back then, I could have defeated the second wave of the Transcendental Invasion.”

A trace of unwillingness and regret flashed in Wang Yao’s eyes!

“Please take a ten-minute break and prepare for the start of the next round.”

The ethereal prompt sounded.

Second wave was over!

Many candidates breathed a long sigh of relief.

This wave was simply too difficult!

It was too hard!!!

Few were able to find the undead knight’s weakness!

Most of them were run over by hard power.

In the college entrance examination square, there were a whole lot more candidates who were eliminated early.

In this wave included more geniuses, even the geniuses ranked in the Heavenly Pride List were also eliminated from the game!

“Lost.”

Wang Yue’s eyes were dull, and she looked around numbly.

Her original goal was at least to be in a top-ranked university.

But now, she could only go to the worst grade of the university!

“Sure enough, it’s still not strong enough.”

Jiang Fan’s classmate, Ma Songtao, sighed helplessly but he had already anticipated his strength, and his expression was not so heavy.

“Let’s see how Jiang Fan did.”

Ma Songtao looked up.

Looking toward the list in the sky, many of the candidates who were eliminated, were also looking up.

They were looking at the leaderboard above!

“I don’t think I’m ranked very well right now.”

Jiang Fan also glanced at the ranking with interest.

In the next moment, his eyes slightly widened!
