

## One Planet 238

### Chapter 238: The Terrifying Fish People! The collapse of the students!

On the college entrance examination square, the candidates who quit were blacked out, not as many as those in the first wave but there were quite a few!

Just there in Jiangcheng, there were over 100,000 people, who got eliminated in this wave!

Even Ma Songtao, Wang Teng, such outstanding students who ranked in the top five in their respective schools, were also not able to survive this!

They fell at the feet of these bizarre undead knights and on the heavenly pride list, it was not just Wang Yue of Blue Moon City, there were several other geniuses as well who were eliminated!

It was very surprising!

.....

In the conference room of No. 7 middle school.

“This year’s competition is really a sea of blood, so many geniuses are actually eliminated in the first two waves!”

A teacher was lamenting!

“Yeah, in previous years, the first two waves were just like warming up.” Another teacher chimed in.

“This should be the most difficult actual combat test in history, right?” A teacher asked.

“There should be no doubt. Anyway, after watching it for decades, this one is the hardest!”

An elderly teacher nodded!

“Even Xiang Junhao, Ma Songtao, our school’s top ten, etc. are eliminated, and few others are left, I guess.” A leader looked at the projection.

There were the real-time results of every candidate of the No. 7 middle school but because there were also a lot of candidates in the No. 7 middle school, they did not pay attention to all.

They could only focus on the most promising ones!

In the first two waves, everyone thought that passing should not be a problem with the strength of Tang Qingqing and Jiang Fan.

Instead, they paid more attention to other students!

“It’s almost a total loss.”

While projecting, teacher Liu Yue shook her head and said, “Our school is ranked in the top thirty, and after this wave, there are only three candidates left.”

Hearing this, other teachers and leaders were helpless.

That was the sad thing about small schools.

Most of the students were not of good quality.

This year's test was particularly difficult, even in the previous years, the students of No. 7 middle school were able to survive the third wave the most but it was different from previous years.

This year, everyone's expressions were not so depressing.

After all, three other students were still there.

Among them, there were even two candidates who had great hopes of going far ahead.

"Let's check out the ranking list."

Tong Zhensheng instructed.

Liu Yue immediately cast the projection.

At the same time, in the college entrance examination square, a huge ranking containing all the candidates in the province was out in front of each candidate's position.

From top to bottom, the grades and rankings of all candidates were displayed!

The first place was very dazzling.

The results would be shown 1 hour 02 minutes 10 seconds later!

This was the clearance time, including the first wave and the second wave together.

Naturally, the higher the ranking was, the less time it would take.

The second place went 1 hour 05 minutes 13 seconds later!

Third place went 1 hour 06 minutes 39 seconds later!

.....

Top 10 rankings were all under 1 hour and 10 minutes!

It could be said that the competition was very fierce.

The top 100 were also within 1 hour and 30 minutes.

Seeing this ranking, Teacher Liu Yue said with a smile: "This year is really a bayonet. Everyone has fought hard, and the first two waves were so fierce!"

"This year not only has the most talent, but it is also the most difficult year in history."

Qiu Yunfei nodded and said, "According to this trend, the further you go, the more difficult it will be!"

"Naturally, the demonic genius can also see it, so they have to fight more to widen the gap ahead."

"Who would dare to keep the trump card? If they encounter a more difficult wave later, who can guarantee that anyone can control the clearance time?"

At that time, everyone saw the passing scene of many famous geniuses.

Almost all of them were on fire!

“Look at Bu Jing Yue.”

Liu Yue flipped the projection.

Immediately, the results of Bu Jing Yue were displayed!

Of course, the charts only had results and rankings!

There were no names of individual candidates.

It was up to the people out there to sort out the specific information.

For the people of No. 7 middle school? Bu Jing Yue had always been the object of attention.

Once the leaderboard comes? out, they’ll know which one was Bu Jing Yue!

“1 hour, 52 minutes, 45 seconds, ranked 250!”

After that Liu Yue read out Tang Qingqing’s rank again:

“2 hours, 01 minutes, 08 seconds, ranked 560!”

“Tang Qingqing has a good score.”

Qiu Yunfei nodded and said, “Bu Jing Yue still didn’t use the third race created with the heart of the stars, right?”

“It’s true that it’s not used, maybe? he saved it? for the later waves.” Liu Yue said.

“It’s not that urgent. It’s enough to be in the top three hundred in the first two waves.”

Qiu Yunfei also understood what Bu Jing Yue did, and then said, “By the way, what about Jiang Fan?”

“Yes.”

Teacher Liu Yue looked a bit odd as she flipped out the projection and pointed to a ranking on it, saying, “This is Jiang Fan’s result!”

Seeing the results and rankings above, the teachers were slightly stunned.

“This kid, what is he? doing? Why is he? so behind?”

Qiu Yunfei couldn’t help but complain.

At that time,? Jiang Fan in the examination room,? also found his own ranking.

“Nine thousand eight hundred and eighty-one?”

Jiang Fan blinked slightly.

Why is this ranking so familiar?

After thinking carefully,? he speculated that? it was? his ranking on the Heavenly Pride List?

If this was not the college entrance examination space, Jiang Fan thought that the two rankings were mistaken together, but?Jiang Fan was not surprised.

On the contrary, he still felt that this ranking was a bit high.

After all, he just faced the undead knights in the second wave.

The last act of capturing them by the Great Desolate Army wasted too much time, resulting in poor performance.

The ranking was not high enough either?but Jiang Fan didn't stop it either!

For Jiang Fan this ranking was determined to compete for the overall championship.

It was not much use at all!

According to the grading standard of the assessment.

This subject had a total score of 400 points!

Each wave was 50 points!

As long as the candidates passed the first two waves, they?got 100 points!

The rankings were?just the?distinction under the same score!

In other words, if the high school entrance exams were over now, the first place in the province was?for?the candidate who ranked first!

The back was the key!

Hence, the crowd outside only had a very little attention for this leaderboard.

They didn't care.
