

One Planet 301

Chapter 301: Endless vs Endless! Hope from the biologists!

After taking the super virus, all transcendent zombies had one thing in common, that was.....

The teeth in their mouth were sharpened?but against the hard shell of the royal insects, it did not bite open!

The flame giant had not forgotten his talent.

With a boom, there was raging fire on his body!

It spewed straight out!

Straight towards the royal bugs!

At such a close distance.

This one royal bug couldn't dodge at all!

It was sprayed right in its face!

Chi Chi Chi.....

The power of this fire was terrifying!

The Great Desolate Army had already experienced it!

Even if the shells fly past quickly.

It would all be burned up!

Not to mention the dark golden armor of the royal bugs!

Only a few moments later.

It was burnt open!

The zombie flame giant opened its mouth wide!

And bite down again!

Bite into the flesh of the royal bug!

And ripped out a piece of it!

The royal bug felt a sharp pain.

But these injuries were nothing to them, who were extremely resilient!

Its just that.....

The royal bug faintly felt that something was wrong!

It immediately broke free from the big hand of the flame giant.

And flew back out!

Tu tu tu tu.....

The sound of rapid-fire guns rang out frantically from the walls!

The royal bug army behind was getting closer!

Swish!

The sound of breaking air rang out!

A flying sword!

It flew out!

This was the flying sword of that pseudo Foundation Establishment female cultivator!

Even after zombification.

The female cultivator did not forget her the family skills!

In addition.....

Her power was even a little stronger!

This flying sword.

It raced through the air.

Straight for a royal bug in the bug army!

Because it could bend.

Flying sword also pinpointed the weakest armpit part of the royal bug!

One Strike.....

Hit directly!

Flying sword could be considered the most powerful single weapon that had ever appeared on this battlefield!

Except for the heaven splitting cannon.

Its one strike was able to make a shield directly scrapped!

It was also naturally able to break through the dark golden shell of the royal bug!

And on the flying sword.

The sharp-eyed people saw that.

It seemed to be coated with something else!

That's right.

On this flying sword.

It was already coated with a super virus by the bald scholar!

Swish!

There was another cracking sound.

The Elf Queen behind the walls also made her move!

The meteoric bow she was holding had broken.

Now she was using the meteor bow of the other elves that was still in good condition!

Three arrows!

Like a meteor from the sky!

They rushed to the royal bugs!

Although the power of a single arrow was not as good as a flying sword.

But the elf queen could shoot three arrows at once!

Her shooting skills were amazing.

She could also aim for one goal from start to finish!

Dong Dong Dong.....

The constant sound of hitting rang out.

After six arrows.....

Finally!

A royal insect had its dark golden shell broken by a meteor arrow!

And these arrows.

They were also coated with super virus!

Rumble!

A total of more than a dozen flame giants who were all turned into zombies..... came stepping on big feet!

Squeezing out the city gates!

Rushing out!

Because of the consideration of the transcendentals!

This city gate was also built big!

Just enough to accommodate the entry and exit of these flame giants!

The army of royal bugs outside had forced its way in!

They came within 50 meters!

This distance!

It was only a matter of a second or two!

The Great Desolate Army was still throwing hand-thrown bullets and shelling continuously!

Trying to stop the approach of these royal bugs.

In front of a tide of thousands of royal bugs.

A dozen of flame giants.

It looked very small and powerless!

Seeing this scene.

Many planet masters in the hall of the city lord's mansion.

All of them were shocked!

“These are..... the flame giants from the sixth wave from earlier?”

“How did Jiang Fan's musketeers capture them alive and were able to command them?”

“No, why does it look a little different from before!”

Everyone was discussing.

Feeling a little surprised!

In the actual combat assessment of the college entrance examination.

Nothing like this had ever happened before.

Who would think to capture the invading transcendent alive?

Even if they had the strength to catch it alive.

But what's the use?

A transcendent as powerful as the Flame Giant couldn't just follow their command!

“These musketeers may have other talents.” A planet master speculated.

“That's possible.”

An old man next to Jiangcheng City Lord nodded and said, “These musketeers have given us quite a few surprises, but.....”

“Even if these flame giants are individually stronger than the royal bugs, their number is still too small!”

“It can only last a minute or two more!”

Another big shot agreed.

“It should be able to survive this second ten minutes at most!” An admissions teacher said, “Raising the original record by a large chunk, enough to keep the later out of reach!”

“It's already possible.”

Jiangcheng City Lord spoke, “Being able to come this far is enough to gain applause and admiration from all of us!”

There was no objection from the crowd!

Even if it was them!

Travel back in time to the year on the high school entrance examination.

It was impossible to do better than Jiang Fan!

Its just that.....

What these big shots didn't expect was that.

The goal of the Great Desolate Army was not.....

Try to last a few more ten minutes!

Instead.....

It was to solve this endless mode once and for all!

When Jiang Fan saw the flame giant who walked out and had blacked out.

There was also a slight look of dismay on his face!

He knew it well!

If these royal bugs.

If they could really get infected.

Then!

It was not just about holding on for a few more hours.

He would get full marks in this section!

Even.....

This endless mode that everyone thought was impossible to pass.....

It would also end!

For the first time, there was a way to crack it!

That was.....

Endless vs endless!

Thinking of this.

A hint of anticipation surfaced in Jiang Fan's eyes!

“This endless mode is not really going to fall to these oddball biologists, is it?”

Chapter 302: Witnessing the miracle! The despair of the bug army!

Boom! Boom! Boom!.....

On the battlefield, the sound of artillery fire and the sound of speed guns kept on ringing!

Bullets and shells frantically poured out towards the rushing royal insect army!

The soldiers of the Great Desolate Army all forced the fastest speed of their hand?to stop these royal bugs from closing in?but there were still too many royal bugs!

The dark golden shell on their body was somewhat unreasonable!

Even if the Great Desolate Army was loaded with alloy bullets, it still required several shots to break it.

100 meters!

90 meters!

80 meters!

.....

The army of the royal bugs was approaching little by little!

Unlike earlier.

100 meters behind this!

It was really covered by the firepower of the speed gun!

A total of 100 speed guns.

They didn't have to move.

Each one was only responsible for a small area!

Completely covering this small area!

No matter how agile these royal bugs were!

But there were alloy bullets everywhere.

Running faster won't help!

It could only be stopped with their life!

In addition!

The team of scholars had also discovered the weakness of these royal bugs!

That was.....

Their armpits!

But their armpit was extremely difficult to hit.

At the cost of one royal bug after another!

For the army of bugs.....

It was difficult to approach a little bit!

“General Han, make preparations.”

Seeing the army of royal bugs closing in to almost 50 meters range!

Chang Yu Chun said to Han Xin with a gloomy face.

“Yes!”

Han Xin’s face was also more solemn than ever!

Followed by.....

He led the people to the city wall.

Ready to go inside the tunnel!

Yes!

This was the ultimate plan of the Great Desolate Army!

A large amount of gunpowder would be planted in the tunnels!

And then set it off!

It was not just about shattering the army of bugs on the ground!

There was another purpose.

That was to blow up this city wall!

Once the city wall was down, it would briefly slow the advance of the bug army!

The Great Desolate Army was ready.....

To retreat to the second wall.

Continuing the defensive preparation!

But just as Han Xin was about to lead the men down the tunnel!

Outside the city gates.

Suddenly.....

A bizarre scene appeared!

The royal bug that was bitten by the flaming giant earlier!

Suddenly, its whole body trembled slightly!

Followed by.....

The dark gold stripes on its armor.

Gradually turned to gray-black!

Even the two huge scythes like forelimbs..... turned black!

Their expression also became a little strange!

Especially their eyes.

A trace of blood began to appear!

There was also a layer of dark circles on the top!

It looked weird and scary!

“Hiss!”

This royal bug let out a long whistling sound!

It was like the sound of huge front teeth scratching on the wall.

Very harsh!

Its other companions thought that this guy was excited.

But in the next moment.

They were surprised to see that.

This royal bug actually.....

Pounced towards them!

That speed and agility.

It was one point stronger than before!

Click!

A companion royal bug a didn't pay attention.

And it was cut into the weakest armpit by this Royal Insect!

With a cut!

A dark golden liquid flowed out!

Other royal bugs for a while.....

All of them were stunned!

Are you fucking crazy?

You're beating your own bug?

But it was not over yet.

This royal bug continued to charge at the other weaker companion beside it!

Also with a slash down!

It opened a big hole!

Only then did his peers react.

There seemed to be a problem with this royal bug!

The flame giant behind it stepped on his big feet.

It also jumped up!

It was much easier for them to attack and kill the royal bugs!

A direct flame was sent out!

And then bite down hard!

And it worked!

With the addition of the first mutant royal bug and more than a dozen flame giants!

Beneath the city walls.

The scene suddenly became chaotic!

“It worked!”

When the bald biologist saw this scene.

A hint of joy flashed in his eyes!

This positively demonstrated that the super zombie virus he developed worked on bugs!

Even if it was an elite royal bug!

After being infected.

It was still able to turn into a zombie bug!

Then it was no longer a royal bug!

It would only rely on the zombie’s instincts.

Attack the living creature around!

].

These royal bugs were naturally.....

The first target!

This first zombie royal bug was very active!

It was very energetic!

Its two scythe-like forelimbs.

Charged into the army of bugs.

Stabbing crazily!

Soon.

It cut a lot of royal bugs.

And the wisdom of the royal bug was not low.

They immediately stopped!

It was just surprising to them.

Basically.

No attack was effective against this zombie royal bug!

Even after attacking the weak armpits!

The result was still the same.

This was also a major feature of zombies.

Against physical attacks.....

They were almost immune!

In order to stop the crazy random attack of this zombie royal bug.

All the bugs came around!

The pressure on this side of the wall suddenly..... eased!

Chapter 303: Witnessing the miracle! The despair of the bug army!

The Great Desolate Army and the team of scholars looked stunned?but soon, the team of the scholar was the first to react!

This can't be the success of that crazy Dr. Chen's research, right?

Yan also let out a long sigh of relief!

Looking at the bald scholar next to her, she asked: "After these bugs become zombies, do they have any weaknesses?"

"The same weakness as ordinary zombies!"

The bald Dr. Chen replied, "Fear of flame and fear of being burst in the head, but these bugs have no means of fire attack, and it is difficult to attack the head!"

Yan nodded slightly.

There was a contradiction here!

The head of the royal bug was very hard!

Their weakness was.....

Armpit!

And after turning into a zombie.

Their armpit was no longer a weak point!

Instead, it turned into a head!

Attacking the armpit.

It wouldn't work!

On the battlefield not far away.

The first zombie royal bug was attacking crazily!

Finally, it was caught by many bugs!

Surrounded to death!

Sanctioned!

However.....

It didn't wait for these bugs to breathe a sigh of relief.

They just found out that.....

There was another change in the front group!

The bugs that were just bitten by the flaming giant and scratched by the first zombie royal bug!

One by one, they actually started to change!

Their dark gold stripes turned black!

As for the color of the forelimbs and eyes.

The same change had happened!

Exactly the same as the first zombie royalty bug!

“Hiss.....”

These few bugs that had become zombies let out a long howl!

Followed by.....

There was a bloodthirsty light in their eyes.

And they frantically pounced on their kind beside them!

After turning into a zombie.

There was a small increase in the fighting power of the royal bugs!

The other royal bugs were no match at all!

They were quickly stabbed!

But royal bugs had armpits as a weakness!

While zombie bugs didn't!

This was extremely unfair!

For some time.

The battlefield became even more chaotic!

A few zombie royal bugs were frantically dashing left and right!

Wielding huge scythes.

And attacking everywhere!

The flame giant slowly followed behind!

Attacking every now and then!

A large number of bugs were affected!

Either get cut!

Or get bitten!

“Dr. Chen's research..... has been successful?”

At this time.

Only now did Chang Yu Chun dare to ask out loud.

His eyes stared at this scene in disbelief!

“It looks like it worked.”

Yan replied!

“But don’t be careless!”

Yan continued, “Tell the Great Desolate Army to get everything ready!”

“Yes.”

Chang Yu Chun naturally understood this!

Until the last minute!

Never let your guard down!

Claptrap.....

An army of thousands and hundreds of royal bugs!

By these zombie bugs!

It made the bugs tumble!

These few zombie royal bugs.

Basically!

After rushing out several hundred meters!

It was only then that they were surrounded by an army of bugs!

However.....

At this time.

The ones in the back were scratched.

Furthermore, the other royal bugs that were infected..... had mutated!

And turned into terrifying zombie royal bugs!

Their number reached dozens!

“Hiss, Hiss, Hiss.....”

A long, piercing whistle rang through!

These zombie royal bugs madly rushed towards the closest companion!

Taking one down with a slash!

Dozens of zombie royal bugs didn’t bring chaos!

Instead.....

What they brought was an amazing destruction!

One of the same kind was scratched!

And at this time.

The remaining royal bugs.

They seemed to have seen through it!

After a bug was scratched.

It would become infected and mutate!

One by one, they began to become frightened!

They were the great royal elite bugs!

They did not want to become ghosts like this!

They covered the weak position of their armpit!

Surprisingly, no bugs went against it!

Behind the zombie royalty bugs after them.

There were still flame giants out there!

The fire was bubbling up from them.

It didn't matter who they were!

It was a direct shot up!

Breaking the shell!

And then bite hard!

With the passage of time!

More and more royal bugs were getting bitten or scratched!

On the battlefield.

There were more zombie royal bug!

And the army of insects was far from the position of the Great Desolate Army!

It was also getting farther.

They were actually forced to retreat by the army of zombies that gradually emerged!

And Jiang Fan, who was sitting in the examination room.

He saw it with his own eyes.....

How an army of zombie bugs started to form from a tiny one!

Basically.

There was just a few of them!

Interest rolled in generally!

The more their number, the more they got!

All it took was one bite!

The super zombie virus could be infected!

This virus that had been refined by Dr. Chen, infects even faster!

In less than one minute!

It was a complete success!

No more chances of reversal!

.....

At this time!

In City Lord's Mansion Hall!

In the conference room of No.7 middle school.

On the college entrance examination square!

Including the crowd watching Jiang Fan's test in the entire Dongyang Province!

All of them were silent!

They were looking at this scene in astonishment!

Chapter 304: Witnessing the miracle! The despair of the bug army!

All of them were dumbfounded!

Who would have expected that.

Such a bizarre scene would actually happen!

The army of royal bugs actually.....

Out of a single mole!

Attacking and killing your own companions in turn?

“Nope! Look guys!”

A powerful planet master pointed at the zombie royal bugs on the screen and said, “The combat power and appearance of these bugs are obviously different from other royal bugs!”

Many planet owners naturally saw through this!

It was indeed different!

“It's not just these bugs, but also those flame giants, look carefully.”

The powerful planet master continued: “Their appearance has also changed a lot, isn't it...”

“It's very similar to the zombies we encountered in the first wave!”

“Zombie!!”

After this reminder.

Everyone suddenly reacted!

The appearance of these flame giants and royal bugs.

It was exactly the same as those infected zombies!

“These flame giants and royal bugs turned into this after being bitten by the zombies!”

One planet master wondered.

“Not very likely!”

Another planet master, however, shook his head and said, “The zombies are powerful, but they can’t possibly be able to mutate both the flame giants and the royal bugs, right?”

This was something that everyone knew!

Otherwise.

Someone would have already thought of using this method.

To deal with the insects’ army!

If it wasn’t for Dr. Chen’s skill and courage!

Suddenly mixed the serum of female cultivator, elf queen, flame giants, etc.!

It was impossible to make ordinary zombie viruses so terrifying!

“Perhaps it has something to do with some unknown talent of the Musketeers?”

One planet master speculated weakly.

But at this time.

No one speculated about anything anymore.

All of them were focused!

Staring at the situation on the Blue Star without blinking!

Because.....

With the passage of time.

On the battlefield.

The number of infected royal bugs was growing!

It was increasing with time!

At the end!

They were densely packed!

Surprisingly, they outnumbered the royal bugs that hadn't been infected yet!

This..... this.....?

One by one, the people watching were dumbfounded!

Even with so many years of experience!

It also felt completely unbelievable!

At the same time.

An absurd thought popped into many people's heads.

That was:

If this kept going.

Wouldn't Jiang Fan pass this hour without a hitch!

The seventeenth hour!

That was, the last hour is in sight?

And the seventeenth hour.

Just make it through 40 minutes!

Then.....

He would get the perfect score in endless mode!

100 points!

Achieving a legendary full score!

It would create an unprecedented record that no one had ever seen before, and I'm afraid no one would ever surpass this!

Time went on.

No one dared to speak.

They were all staring at time and the projection on the Blue Star.

End of the twentieth minute!

Over the passage entrance.

More powerful royal bugs appeared!

But it was useless!

They were still besieged by an army of crazy zombie royal bugs!

Scratched!

Then soon.....

They were also infected by zombie bugs!

Turning around!

And going crazy against their comrades!

Time continued to move forward!

The third ten minutes were over!

The same scene as before was staged again!

The fourth ten minutes!

The fifth ten minutes!

Until.....

The sixth ten minutes!

At the beginning of every ten minutes!

It was all exactly the same!

The newly emerged royal bugs came charging in very aggressively!

Then.....

They were thrown to the ground by an even more ferocious army of zombie bugs!

A dozen or so!

Pressed hard!

Tearing and scratching!

Infecting these new royal bugs!

That's right.

Now, near the entrance of the passage!

Almost all of them were the zombie royal bug army!

They were firmly guarding the planet passage entrance!

Like a hungry wolf that had been hungry for a long time!

Their eyes were blazing with bloodthirsty light!

As soon as a royal bug came in.

They just scrambled and jumped on it!

"It can't be?"

"No way!?"

"Could it be that those of us really going to witness a record, the birth of an unprecedented miracle!!"

At the end of the sixth ten minutes!

A similar thought popped up in everyone's head!
In City Lord's Mansion Hall.
All of the planet masters!
Everyone stood up!
Including the city lord of Jiangcheng and the big guys around him!
All of them were on their feet!
With a hint of excitement and anticipation in their eyes!
They knew it well!
As long as Jiang Fan can pass the first ten minutes of the seventeenth hour!
Then.....
There will be no problem after that!
It would set an amazing miracle:
Passing the endless mode with a perfect score!
This was for all the examiners for the college entrance examination!
A scene that was completely unexpected earlier!
Originally, this year's actual combat assessment was the most difficult in history!
In the last endless mode.
It even used a crazy insect army!
However.....
No one expected that.
Not only was it not difficult for the candidates!
Instead, a miracle was performed here!
The record had long been broken!
Now.....
There was only one question!
That was whether he could pass all the waves!
Get all the perfect scores!
The sixteenth hour was over!
The seventeenth hour also officially started!
Jiang Fan also stood up!
Cheering up for the royal bugs who had turned into zombies!!

Chapter 305: The college entrance examination is over! Contemporary legend! The whole province is alarmed!

Endless mode was said to be endless!

In fact, this level only had 100 points!

It meant that candidates only had to survive the 40 minutes of the seventeenth hour to get a perfect score!

However, it was impossible for the examiner to give them such an opportunity!

The royal bugs later would be stronger and more hard to deal with!

Earlier, none of the candidates were able to go through even the first minute of the sixteenth hour, let alone the seventeenth hour.

Even with the terrifying firepower and full preparation of the Great Desolate Army, it would only last until the first thirty minutes!

It was absolutely impossible to enter the seventeenth hour!

This was only a theoretical hope!

It was just an idea.

However, at that time, it was really happening!

Under the influence of a super-zombie virus, the royal bugs were transformed into zombies!

They attacked their own kind!

In addition, because of the immortality of zombies, they were extremely hard to kill!

Finally, there were more and more zombie royal bugs on the battlefield!

Their number was still increasing!

They were densely packed.

Almost the entire battlefield was occupied by them!

This was also the most terrifying point of the zombie virus!

It was infinitely infectious!

When the seventeenth hour officially started, over the planet passage, there was a much stronger aura!

Royal bugs with dark golden strips rushed in!

The dark golden stripes on the body were more than the previous royal bugs.....!

It meant that they were a lot stronger!

However, as soon as they came in, they just found an amazing scene!

At the passage entrance, they were already infected zombie royalty bugs!

There were still a few normal royal bugs left.

Being besieged by dozens of zombie bugs, these were some of the more powerful royal bugs.....

They hadn't responded yet!

Then they were targeted by the zombie bugs with bloodthirsty eyes!

Immediately after that, they were surrounded!

They were pouncing frantically!

These royal bugs that just came in were drowned by endless zombie bugs!

Click, click, click

There came the sound of an unknown scythe scratching?or the sound of biting something.

Not long after that, the zombie bugs scattered.

People just saw that?the royal bugs below were covered in scars!

The one who was bitten was miserable!

The other more powerful royal bugs pouring in from behind met the same fate!

They were completely submerged by the dense and terrifying sea of zombies!

One minute later, the few royal bugs that were attacked first.

They also started to mutate, showing a hideous expression.

Then they turned around?and started attacking their own kind!

Seeing this scene, Jiang Fan knew that it was stable!

Although the royal bugs of the seventeenth hour?were?one point stronger,?they still couldn't stop the sea of zombie insects!

For example, the?bugs that might appear at the eighteenth and nineteenth hours would be more powerful.

There were ways to deal with the zombie bugs.

However, that was no longer possible!

In the seventeenth hour, the exam was coming to an end!

.....

Everyone in the conference room of the No. 7 middle school, in City Lord's Mansion Hall?and each one of the peerless geniuses in the college entrance examination square witnessed?what?happened? on Blue Star!

After seeing the newly arrived royal bugs being submerged by the sea of the zombie bugs, anyone could tell?that?a seemingly impossible miracle was about to be born!

In East Star City's City Lord's Mansion, in an incomparably huge space that did not seem like a real space, two people were hovering above the starry sky.

There was a coffee table in front of them!

There were two cups of tea!

In front of two people, there was a projection of immense size!

On the projection, it was the scene of the army of zombies and bugs on Jiang Fan's Blue Star!

Among these people, it was the East Star City Lord who was recognized as the strongest city lord in the Dongyang Province!

The other one was a man in blue with a somewhat unique temperament!

"I didn't expect that."

The City Lord of East Star City smiled and said: "In order to deal with this year's most monstrous class in history, you have given the most difficult exam in history, but instead of stumbling a few geniuses, on the contrary..... Haha, even the records have been broken by others!"

"It's worth it to witness such a miracle with your own eyes."

The man in blue gently sipped his tea.

His expression was indifferent!

He was the actual examiner of this entrance examination!

The college entrance examination management here was not so strict!

After all, it was impossible to pass information into the college entrance examination space from the outside world!

"Instead, it's you."

The man in blue looked at the Lord of East Star City and said with a faint smile, "Your East Star City has not only had its overall top spot taken away, it can't even keep the second place, so you'll have a headache next year!"

"There's no difference between second and third."

The lord of East Star City said leisurely: "I have nothing to say if I lose to such an unprecedented demon who can get full marks!"

"Besides....."

The lord of East Star City raised his tone and said: "The college entrance examination is not everything, there is a planet upgrade war after it, that is the real decisive, maybe, there might be a few candidates who have not performed well in the college entrance exam who can defy the heavens and change their lives in the leveling battle!"

"Change your life against the sky?"

The man in blue, however, shook his head and said, "Throughout the ages, there are so many planet masters, how many of them are able to change their fate against the sky!"

.....

In the first ten minutes of the seventeenth hour!

All of the new royal bugs that came in were overwhelmed by a sea of zombie bugs!

The second ten minutes were still the same!

The third ten minutes were also the same!

In the fourth ten minutes, almost everyone stood up!

They were staring at the projection on the Blue Star, while constantly watching the countdown!

Time passed little by little.

Finally, it came at the last minute!

New incoming royal bugs were still not able to break through the sea of zombie insects. They were beaten very badly!

“Ten, nine, eight, seven, six, five, four, three, two, one, zero!”

The fourth ten minutes passed completely!

With a boom, the entrance to the planet passage was slowly closing!

Chapter 306: The college entrance examination is over! Contemporary legend! The whole province is alarmed!

The sea of the bugs, including the new royal bugs that came in and turned into zombies, instantly disappeared!

An ethereal prompting sounded through the examination rooms and various high school entrance examination squares!

“Congratulations to the candidate for passing all levels of the endless mode and getting the first perfect score in history!”

In the sky, a seven-colored light emerged.

It kept falling down!

It seemed to be celebrating this unprecedented record!

After the examination was over, Jiang Fan was also transported out of the examination room!

On the college entrance examination square, not a single examinee remained!

It was empty!

Jiang Fan took a look at the floating leaderboard in the sky.

The final list had been formed!

Overall ranking of Jiang Fan, total score: 750 points!

It was also the first perfect score ever.

Jiang Fan walked in the direction he came from.

A few moments later, his figure disappeared from the square!

He came back to the passageway set up on the playground by No. 7 Middle School!

As soon as he came out, he found out that something was wrong!

It was densely packed with people!

There were not only candidates who had just left, all of the school leaders and teachers of the No.7 middle school, including Tong Zhensheng, Qiu Yunfei and Liu Yue gathered there!

The eyes of all people were on Jiang Fan who walked out!

“Whoo!”

I don't know who shouted first.

Followed by.....

Clap! Clap!

A huge round of applause!

Principal Tong Zhensheng walked over and said, “Student Jiang Fan, congratulations on your achievement of a perfect score in this year's college entrance examination and breaking the record in Dongyang Province!”

After these formal words, Tong Zhensheng blinked and pointed to a spot in the front!

He was indicating Jiang Fan to walk over!

Jiang Fan looked forward and discovered that opposite the exit, there was a large group of planet masters with uncommon breath!

The one in the lead was officially the City Lord of Jiangcheng!

At this time, he was looking at him with a smile on his face.

Jiang Fan was a bit helpless.

This seemed to be an unwritten rule in this world!

The college entrance examination champion would have a process similar to a red carpet walk!

Jiang Fan could only walk over!

This section was about 50 meters away!

The surroundings were empty.

.

There was not a single person!

Everyone consciously backed away, leaving enough space!

All eyes fell on Jiang Fan!

This scene was broadcasted in the entire Dongyang Province one by one!

All those who were concerned about the entrance examination were all staring at Jiang Fan in the projection, including those peerless geniuses!

“Isn't that a little envious?”

Outside the entrance examination square of Amber City, Lei Xun looked at Jiang Fan, who was walking towards the city lord of Jiangcheng in the projection, and asked with a smile.

“It’s definitely impossible to say that you don’t envy that.”

Wang Shan didn’t deny it either!

In fact, there was no difference between the total number one in the college entrance examination and the top four!

Why did the four super demons still have to compete?

If not for the glory of getting everyone’s attention!

In the East Star City’s City Lord’s Mansion, Wu Ning, the girl in black, lowered her head slightly.

She came into the star space!

“Father, I want to go to..... Babel Tower.”

Wu Ning said with a hint of determination in his eyes.

Babel Tower!

It was a very magical treasure.

Each floor had a special space inside!

There was a huge reward for passing each floor!

However, it was also very dangerous!

“Know the difference.”

The city lord of East Star City smiled slightly and said, “If you really want to go, I will naturally not stop you!”

“I’ll go tomorrow.”

The black-clothed girl, Wu Ning, gritted her teeth and said.

After that, she turned around and left!

Looking at Wu Ning’s departure, the man in blue laughed and said, “It’s good for your daughter to have such an opponent. She might be able to force out her potential and lay a good foundation for the upgrade battle soon in the future.”

The city lord of Jiangcheng was next to many planet masters.

Tang Yushu was also standing with Tang Qingqing.

Looking at Jiang Fan who came over, Tang Qingqing’s eyes were still red at this time.

She apparently cried!

If she could just get a little closer, she would be able to get a place in a super-first-class university!

It was a known fact that in first-rate and second-rate universities, there was just a gap in reputation!

In fact, the difference was not that big.

But super-first-class universities and the other universities had qualitative differences!

The impact on a planet master was huge!

“The college entrance examination is not everything.”

Tang Yushu comforted: “There is also a planet upgrade war. If you perform well, you can change your life against the sky!”

“I know, I will not be discouraged and will definitely work hard.”

Tang Qingqing gritted her teeth and said.

However, Tang Yushu sighed slightly in his heart!

Those are all words to deceive these young people to get their blood pumping!

Throughout history, there were countless planet masters.

How many of them could do it?

If that was really the case, people would not pay so much attention to the college entrance examination.

On the other side of the playground, Bu Jing Yue and a middle-aged beautiful woman were standing together!

They were also quietly looking at Jiang Fan in the middle of the field.

“The college entrance examination is over.”

The middle-aged beautiful woman said: “But for you level one planet masters who have just awakened the planet, the real journey has just begun! Dongyang Province is still too small! In the university, you’ll meet great demons from all parts of the Federation, and even some from those legendary places! It’s your real stage!”

“Hmm.”

Bu Jing Yue nodded slightly with a complicated expression on her face!

.....

Finally, after fifty meters of this section, which gathered too many eyes, Jiang Fan came to the front of Jiangcheng City Lord and the big guys!

The city lord of Jiangcheng did not come up to pat Jiang Fan on the shoulder this time.

Instead, he formally extended his hand to shake hands with Jiang Fan!

After some simple congratulations, this year’s Dongyang Provincial College Entrance Examination was officially over!

Whether it was the top student of Jiangcheng, or the overall top student of the province, all unexpectedly fell on an unknown candidate!

For a while, it shocked the whole province!

Chapter 307: The college entrance examination is over! Contemporary legend! The whole province is alarmed!

For Jiang Fan, fame was meaningless.

The number one winner of the championship and the admission places of the super first-class universities were the real deal!

The overall top position was more than just an honor.

It also represented a lot of rewards!

This was what Jiang Fan really valued!

There were a lot of celebrations.

All were rejected by Jiang Fan.

Under the personal escort of the school, Jiang Fan returned to the relief community, in his own room and came into the awakening space.

He was browsing through the situation on the Blue Star.

The Great Desolate Army was also on a long vacation at this time!

There was also a super grand celebration!

Everyone was smiling!

Defeating an ordinary person and defeating a transcendent were two different things!

“Congratulations, well done.”

Jiang Fan left a message.

Yan was slightly stunned.

After that, a smile appeared on the corner of her mouth.

For her, the greatest appreciation was the praise from the Father!

After the celebrations, it was the conference for the division of merit!

Merit must be rewarded!

Faults must be punished!

This was also the rule of the Great Desolate Army!

Jiang Fan watched it with interest because the first credit for this glory conquest was given to the person who developed the super zombie virus at the last moment..... Dr. Chen!

Although this Dr. Chen was only in his early thirties, his head was bald!

He was full of ambition at that time!

He was in high spirits!

His gaze swept over the entire venue without restraint!

That look on his face was pretty much just saying.....

How's that?

How dare you underestimate our biology students?

Who says biology is one of the top 10 garbage majors?

I'm here to prove it to you!

The upcoming century was the century of biology!

The merit of everyone else was also clear!

There were no exceptions!

From the scholars and generals to the ordinary soldiers, even the logistics staff got great rewards!

After making the horse work, it had to be given some grass to eat.

In terms of rewards, Yan had never been stingy!

After the celebration and division of rewards, the old tradition belonging to the Great Desolate Army: The post-war analysis meeting had also started!

The meeting was attended by Yan, Ghost Buster, Zhuge Ming, Chang Yu Chun, Han Xin, Dr. Chen and others!

They were all the top and elites of the Great Desolate Army!

Because of the super zombie virus, Dr. Chen's reputation was now not only as strong as ever, he was also appointed by Yan as the general director of the biological research team!

After that, this research group was given unprecedented attention!

"I have one thing to say."

Seeing the happy faces of everyone.

Dr. Chen poured cold water and said: "Super zombie virus is not invincible, even zombies are not invincible! They also have a fatal weakness! The transcendent people of the outer planets are more special than each other! If you encounter a nemesis, then the zombies will die a horrible death too!"

"Dr. Chen is right."

Han Xin nodded and said with conviction: "We can't put all our hopes on the zombie virus! Other weapons need to be developed as well! Now we need richer, more comprehensive weapons!"

Everyone else nodded.

This time, the glory conquest was a big victory, but it also exposed a lot of problems!

For example, speed guns were still not powerful enough!

Although artillery was powerful, its accuracy was a problem!

Sniper rifles could only be used in certain situations, as for the most powerful heaven splitting cannon and poison gas!

Again, there were considerable restrictions!

It felt like their hands were tied.

“The industrial base and technical theories are still weak.”

Yan was naturally aware of these issues, but this was the limit of what the Great Desolate Army could do at the moment.

Following up, it would take technological and industrial progress to make it happen!

“These weapons will continue to be improved, with a focus on the development of single-unit mass destruction weapons!”

Yan scanned the crowd and said, “Judging from the glory conquest! The individual strength of the transcendentals we face will get stronger and stronger. In the future, it is likely that there will be some transcendentals with extremely terrifying individual strength! So sniper rifles are not enough!”

“The hit rate of the Heaven Splitting Cannon is also a problem!” Han Xin spoke up at that time: “Although the heaven splitting cannon is more accurate than the artillery, if the transcendent is fast enough and reacts in time, it can be dodged in advance! At least it’s possible to avoid the most powerful center of the explosion! We may need to develop a weapon with a higher hit rate!”

“I’ll add one too.” Chang Yu Chun also spoke up and said, “This time, the Glory Conquest was a defensive battle, so we basically had no casualties among our soldiers! However, if it is an offensive operation in the future, the defensive nature of the fighter is a problem! It is difficult to deal with the surprise attack of those ultra-high mobility transcendentals in the wild at all times! We need a temporary fortress-like thing! This fortress needs to be able to move!”

“You mean something like a steam car?”

Xu Tiande asked.

“Not a steam car.”

Chang Yu Chun shook his head and said, “Steam cars are still too bulky. We need more flexible ones!”

As the meeting progressed, opinions and ideas were thrown out one by one!

The discussion was very lively!

The main thing was that, this time in the glory conquest, there were too many transcendent species to face!

There were all kinds of them!

From low-level civilization races to super-civilization races!

It was an eye-opening experience!

They also found their own shortcomings!

This meeting was also carried out for several days.

There were too many opinions.

It needed to be fully discussed and argued!

Finally, it was up to Yan to make the decision herself!

It was impossible to take every idea and implement it!

After some calculations, Yan would finally work out a preliminary policy!

This policy was also to determine the direction of development of the summer country in the next decade, or even decades!

Jiang Fan also saw that.

There was basically no problem!

As for the specific things, Yan and these professionals naturally considered very carefully!

After three days of rest, Jiang Fan met Tong Zhensheng again!

At that time, Tong Zhensheng didn't come for pleasantries, he was here to take Jiang Fan to the provincial city of East Star City!

Admissions teachers from thirty-six super-first-class universities gathered there!

They were conducting the recruitment process for 1,080 places!

Jiang Fan was also up to his own judgment to decide which university to attend!!!

Chapter 308: Offer of all parties! Choice of the university!

The luxury talisman car leading to the provincial city of East Star City could fly in the air!

It was also the treasure of Principal Tong Zhensheng!

Usually, it was kept at home and would not be taken out easily!

He would only use it when there was something important like this.

Jiang Fan is also "honored" to board this talisman car!

Inside, except for Tong Zhensheng, there was also teacher Liu Yue.

This one needed no explanation.

Jiang Fan was also aware that Liu Yue was a graduate of Aurora University!

It was also one of the thirty-six super-first-class universities.

There was more or less some connection over there!

"The school's reward has been credited to your card. You can check it!"

Tong Zhensheng said very boldly and viciously.

Jiang Fan checked it and discovered that there was an extra 50 million federal dollars in the account.....

He raised his eyebrows slightly.

That was a lot of rewards from the school.

“Thirty million of them are the rewards for originally getting the top prize in the Jiangcheng college entrance examination!” Tong Zhensheng explained, “And twenty million is the reward for getting the overall top prize in the province, as well as creating the historical record of the college entrance examination! Don’t mind the small amount, our seventh high school is small and can’t compare with those big high schools, so we can only offer these rewards!”

“It’s already more than I expected!”

Jiang Fan smiled faintly.

50 million was a lot of money!

It was enough to buy fifty pieces of the origin power.

“And there’s also this thing.” Tong Zhensheng took out a sealed crystal and handed it to Jiang Fan.

Jiang Fan took a careful look and discovered that this sealed crystal was a little different from the ordinary one!

It was empty inside.

“This is.....”

Jiang Fan naturally knew that this was definitely not an ordinary sealed crystal!

“This item is a reward for you from the Jiangcheng City Lord.”

Tong Zhensheng showed a smile on his face and said, “This old guy is really not stingy this time. This is a good thing he has treasured for many years. This time, he is willing to give it to you!”

That being said.

Tong Zhensheng was very clear.

Compared to this thing, the face and fame that Jiang Fan earned for the city lord of Jiangcheng, that’s a treasure that can’t be bought with anything.

Looking at the last few days, one could tell how happy the city lord of Jiangcheng was!

Jiang Fan took it and looked around!

But it was the first time he had seen something like this.

He never even heard of it.

“This is also a type of sealed crystal.”

Teacher Liu Yue smiled and said, “It’s just a little bit special, it’s called a Sealed crystal blind box!”

“Crystal blind box!?”

Jiang Fan blinked.

Is there such a thing in this world?

“As the name implies.”

Liu Yue explained, “You can get all kinds of items from inside, but it depends on your luck!”

“If you’re especially lucky, it’s possible for you to obtain a heaven-defying treasure! However, it is also possible that if you are unlucky, the item obtained might be an ordinary stone. Anything is possible!”

“There is also a difference in sealed crystal blind box.”

Tong Zhensheng interjected: “This sealed crystal blind box has been treasured for many years by the city lord of Jiangcheng. It is impossible to open ordinary stones in it. At least, there will be treasures worth hundreds of millions!”

“Interesting.....”

A hint of interest flashed in Jiang Fan’s eyes, but he was not in a hurry to open it.

It was not too late to go back and do it slowly!

Although the speed of the talisman car was not as good as that of the spirit spaceship, it was also very fast.

After about half an hour, the luxury talisman car slowly landed over the East Star City!

It landed in the City Lord’s Mansion of East Star City!

This year’s admissions process for 36 super-first-class universities was held!

Under the guidance of the staff of the City Lord’s Mansion, the talisman car was parked in a special location.

Jiang Fan and the others walked out of the charm car.

While looking around, they saw that there were a lot of talisman cars parked around!

Following the lead of the staff, they moved forward!

On the way, they met many young people of the same age as Jiang Fan.

It was estimated that they were also candidates for the college entrance examination this year and still successfully got the admission places of the super first-class universities!

“There are a total of 1,080 places in the super-first-class universities.”

While walking, teacher Liu Yue said to Jiang Fan, “Five hundred and eighty of the seats have the scholarship that is distributed to each city’s top student, but because the quality of these people is uneven, the ranking is outside the 1080th is based on the method of drawing lots, and the average admission follows!”

“I had good luck that year and was assigned to Aurora University!”

Teacher Liu Yue smiled and continued, “But for you guys who are ranked at the top. Naturally, they wouldn’t use this method! You can choose your own university! Especially the top ten in the

rankings will be fought over by all universities!?” Jiang Fan, I’m afraid you will be besieged by universities one by one!”

“You don’t have to pay attention to that.”

Tong Zhensheng said with a smile: “With your grades, it’s easy to go to any university!”

Chapter 309: Offer of all parties! Choice of the university!

“My advice is, try to choose the top ten!”

“Top ten ranking? Do these thirty-six universities have rankings too!”

Jiang Fan asked.

This was information that could not be found outside!

“Where there are schools, there must be rankings, not to mention that these are the top-ranked universities that receive peerless geniuses.”

Tong Zhensheng smiled and said, “But this is also inside information!?” Among thirty-six super-first-class universities!?” There is also an internal ranking list every year!?” The ranking will also change every year, but the top few basically don’t change much!”

“Especially, the Six universities?of Starlight has been in the top ten for the past hundred years!?” Teacher Liu Yue added.

“The Six universities?of Starlight?”

Jiang Fan also heard this title for the first time.

“The Six universities?of Starlight refer to.....”

Liu Yue teacher explained: “Nebula University, Tianzhao University, Shining Light University, Sirius University, Shooting Star University, Immortal Queens College. These?six super-first-class universities!?” Because of the stable ranking all year round, they are called the Six Houses of Starlight by the outsiders.?” There are countless powerful planet masters that have come out of these six universities!?” Like the City Lord of East Star City?who?graduated from Sirius University!”

“I see.....”

Jiang Fan nodded, and then asked, “What about your Aurora University, Mrs. Liu Yue? What’s their ranking?”

“Aurora University?”

Teacher Liu Yue smiled and said, “Although it’s my alma mater, I don’t recommend you choose it. It can’t compare with the top-ranked super-first-class universities!?” Of course, if you really don’t have a better choice, you can also consider it.”

Speaking of which, Jiang Fan and the three of them had arrived at the entrance of a hall!

They stepped inside!

Inside was a vast and unbelievably wide hall!

It was almost a hundred meters long and more than ten meters high!

At this time, inside this hall, a number of admissions teachers from major schools had already arrived.

For candidates like Jiang Fan, there were also school leaders, teachers, etc. of the middle school behind each candidate!

When Jiang Fan and the others walked in, there was a lot of talking, all of a sudden it was quiet!

Brush!

Brush!

Brush!

One by one, they turned their heads.

Their eyes were on Jiang Fan!

After that, conversations erupted!

“He is this year’s overall top student in the college entrance examination, Jiang Fan, from a small town like Jiangcheng!”

“He created a brand-new super civilization that has cracked the endless pattern of demonic monsters!”

“He looks quite handsome!”

One by one, they were talking.

Hearing these murmurs, Jiang Fan was fine.

The smile on the faces of Tong Zhensheng and Liu Yue, beside him, couldn’t be concealed at all!

After walking in, Jiang Fan noticed that there were four eyes that were particularly sharp!

He turned his head to look and found four young men and women.

A girl in black, a girl in green, an old-faced boy and a slender young man in white!

“These four were the four recognized super great demons this year, Wu Ning, Wei Qing Qing, Wang Shan and Chi Yun Chen.”

Teacher Liu Yue also noticed this and explained: “They were originally considered to be the most popular candidates for the overall first prize. Who would have thought...”

“Ha ha ha.”

A laugh sounded at this time.

Jiang Fan looked over.

It was an old man with silver hair who came striding over, with a smile on his face.

First, he swept a glance at Jiang Fan and then said to Tong Zhensheng: “Old classmate, this time you have to consider our school first.”

“I can’t make the decision on this, I’m just here for company, it’s up to the students to choose what university they want.”

Tong Zhensheng laughed.

“Hello, student Jiang Fan.”

The silver-haired old man turned to Jiang Fan and said, “Let me introduce myself. I’m from the Devil Eye University, and my specialty is to cultivate all kinds of new and strange civilizations. You can.....”

“Stop talking big.”

A middle-aged man came over from behind.

He interrupted the silver-haired old man directly and said, “The one who is best at cultivating talents should be our Behemoth University!”

“Behemoth University? Oh.”

Another middle-aged man in black came over and said disdainfully, “Don’t you dare talk about cultivation, when it comes to the ability to teach students, the top one is naturally ours.....”

There were still quite a number of recruitment teachers rushing over!

Immediately, they started arguing with each other!

All the students who saw it were dumbfounded.

Tong Zhensheng, however, took it for granted: “The thirty-six super-first-class universities are also competing with each other, and they will quarrel every year at such times!”

“Teacher Liu Yue, you take Jiang Fan to sit over there first.”

Tong Zhensheng said, then looked at Jiang Fan and said, “You don’t need to care about these! I’ll stay here and wait for what each school offers, and after they all come out, I’ll summarize them for you! Remember, never agree to an invitation from a certain school in advance!”

“Okay, thank you Principal.”

Jiang Fan smiled faintly.

Then he went to the rest area with Teacher Liu Yue to sit back and watch the bickering of admissions teachers!

“There’s a lot to learn about this choice of university too.”

Ms. Liu Yue said, “It’s not necessarily the case that the higher ranked school is the better. We must consider it comprehensively, according to the characteristics of our own planetary civilization!”

Chapter 310: Offer of all parties! Choice of the university!

“Like the behemoth academy behind the admissions teacher just now, it’s specialized in training students who build a new civilization! It’s very much in a league of its own when it comes to new civilization! If it is a student who has created a new civilization,

there is nothing wrong with choosing them! And the admissions teacher at the forefront who is an old classmate with Principal Tong, behind him is Demon Eye University, also a university with a very unique training system.....”

Listening to Ms. Liu Yue’s detailed introduction, Jiang Fan couldn’t help but nod slightly.

This was the advantage of having acquaintances who had studied in a super-first -class university!

Otherwise, for ordinary people, this information was difficult to access.

“I built a musketeer civilization, and there doesn’t seem to be a school that is particularly well suited for it.”

Jiang Fan said.

He also knew that people outside called his planetary civilization the Musketeer civilization!

“You have a brand new civilization that has never existed before, so it’s really hard to choose!”

Teacher Liu Yue smiled and said, “But as the saying goes, if you don’t choose the right one, choose the expensive one! It’s the same thing about applying for university! If there is no best choice, then just pick the top ranked one!”

Listening to Ms. Liu Yue’s words, Jiang Fan had his own calculations in mind!

In fact, what he created was the civilization of ordinary people!

It had never appeared before and there was nothing to refer to!

After about half an hour, Tong Zhensheng quickly walked over.

He directly opened a projection, and said to Jiang Fan: “These are the offers provided to you by the thirty-six universities, you should take a look first. You can initially set five or six or three or four universities. After that, look for the admissions teachers at these schools and make the final negotiation!”

Jiang Fan looked over with some curiosity.

After scanning around, he discovered that the offer of all universities were not low!

“This is much higher than any previous year’s top scorer. It looks like they really value Jiang Fan.”

Teacher Liu Yue laughed.

After looking at it for a while, Jiang Fan discovered that most of these universities were very straightforward.

Their offer was for federal dollars!

Basically, it was around 300 or 400 million!

For the average university, this money could be a significant amount of money, but for a super-first-class university, it wouldn’t count at all.

The gap between super-first-class universities and other universities was very, very big!

Just like Jiang Fan imagined, the more highly ranked universities offered fewer enrollment incentives!

For example, the Sixth Academy of Starlight was basically around 200 million!

Other universities offered a little more!

“In addition to the top-ranked schools, others can also be considered.”

Tong Zhensheng suggested: “Like Demon Eye University. The admissions teacher is my old classmate and he revealed it to me! I’m very optimistic about you. This time the offer is at most? 600 million admission rewards! There is also the best treatment for all kinds of freshmen! If you have any conditions, you can still mention it!”

“Wait principal!” Liu Yue interrupted Tong Zhensheng and said, “The highest bidder this time is not Magic Eye University!

“It’s not the Demon Eye University?”

Tong Zhensheng took another look at the projection and immediately discovered.....

Sure enough, in an inconspicuous position in the bottom right corner, another university had offered one billion dollars!

“One billion!!”

Even Tong Zhensheng looked a bit dumbfounded!

He felt that the 600 million of the Demon Eye University was a lot and this university was actually 400 million higher than that!

“No wonder you ignored it, principal. Even at first glance I thought I was wrong.”

Teacher Liu Yue shook her head and said, “This Beidou University also is too crazy, isn’t it?”

Jiang Fan also looked over and discovered the offer of this super-first-class university called “Beidou University”.....

It was indeed one billion!

“Beidou University is also a very old university.”

Tong Zhensheng explained: “It has a long history, but its ranking in recent decades is quite low! In addition.....”

Tong Zhensheng paused and said, “This university is also the only university among the thirty-six super-first-class universities that has not admitted a single provincial champion of the college entrance examination in the past 100 years!”

“No wonder the offer is so high!”

Jiang Fan understood at once!

This was to grab people regardless of the cost.

Rather than robbing Jiang Fan as a genius, it would be better to say that they grabbed Jiang Fan's fame as the provincial champion!

"Although Beidou University has a high bid, I don't recommend it." Tong Zhensheng continued: "It's not just ranked at the bottom. Their background is still worse than other schools, and the resources in all aspects will be weaker! Of course, it's up to you to choose which university you want. No one knows the respective planets better than the parties involved!"

For Jiang Fan, the cultivating ability of each university was not the most important!

Anyway, the development of Blue Star was already on track!

Even if it was Jiang Fan, it was also hard to intervene!

Does Jiang Fan know all that complex scientific knowledge better than scientists like Yan?

It just had to stay on track to continue the evolution!

Hence, for Jiang Fan, the difference in school rankings was not critical.

It was fine as long as they were all super-first-class universities.

After thinking about it for a while, Jiang Fan already made a decision!

"I've decided!" Jiang Fan said.

"Hmm?"

Tong Zhensheng and Teacher Liu Yue both looked over.
