

One Planet 321

Chapter 321: Freshman Challenge! The most precious treasure! Star Space

“Of course!”

“There are also conditions!”

“This star space can only be used by Emperor Qing during his time at the university and cannot be taken out of the university.”

“If that’s the case, then why say it’s a reward for the Freshman Challenge?”

Jiang Fan asked.

“Well, this.....”

Su Jicheng smiled slightly and said, “Of course it’s for first place!”

“If it’s ten billion that’s fine.”

“However.....”

“Star Space is a treasure that money can’t buy!”

“You said that it was as a bargaining chip for the freshmen, which will definitely trigger the discontent of other students!”

“So.....”

“It is to use a situation like the Freshman Challenge!”

“To let this Emperor Qing win this prize fair and square!”

“Aren’t you afraid that there will be an accident and the championship will be taken by someone else?” Jiang Fan raised his eyebrows and asked.

“There is naturally no need to worry about this.”

Su Jicheng smiled and said, “Although this year’s freshmen are of good quality, there are also many planets with a diameter of more than 500 kilometers, but.....”

“But it’s a long way from Prince Qing!”

“You should know that too!”

“After more than 500 kilometers, every kilometer is much difficult!”

“As a freshman, I should be able to participate in this freshman challenge as well, right?”

Jiang Fan asked with a smile.

If it was another prize.

Then.....

Jiang Fan might not be very interested.

However!

This was Star Space.

The effect on Blue Star in these days.

Jiang Fan had seen it with his own eyes.

And the effect of this star space reward will be..... an enhanced version!

For Jiang Fan.

It was a must have!

It doesn't matter what Prince Qing you are, of if it's a bargaining chip.

Since the loophole was given to him, then he'll exploit it.

It must be drilled.

"Haha, you've been staying inside for the past few days, and now you're getting interested too."

Su Jicheng smiled and said, "However....."

"In addition to the championship, the first eight places in the Freshman Challenge will be rewarded, so there's no harm in participating!"

"You can also meet some super demons from other provinces!"

"I came this time."

"It's also to inform you of the rules of this new Challenge. Each province can have at most two candidates!"

"The exact number of places is determined by the admissions teacher in each province. "

"As the champion of Dongyang Province, if you want to participate, I can directly report your name!"

"Then I'll join it."

Jiang Fan said with a smile.

"Okay."

Su Jicheng paused for a moment, and then said, "That's right, there is no Heavenly selection this year. Have you chosen your other teachers yet!"

"Not yet?"

Jiang Fan thought for a moment and asked, "Does Mr. Su have any suggestions?"

“Suggestions, well.....”

Su Jicheng’s tone became a little strange and said, “If you don’t have a mentor of your choice, you can choose me!”

“Choose you, Teacher Su!”

Jiang Fan raised his eyebrows.

“Right, I’m not just an admissions teacher.”

Su Jicheng smiled and said, “I am also a mentor in university!”

“Although it can’t be compared with those famous mentors, but.....”

“If you choose me.”

“The resources that should be given will definitely not be less for you!”

“Okay, think about it, if you want to choose another mentor, you can ask me, feel free to do so.”

Then he hung up the communication.

Jiang Fan couldn’t help but rub his chin.

“I must participate in the Freshman Challenge, let’s get the star space first, as for the mentor.....”

Jiang Fan had no idea about his mentor!

He turned on his communicator.

Jiang Fan began to look up the directory of mentors at Beidou University.

There were a lot of mentors!

Young and old.

Both male and female!

For a while.

It was hard to choose!

“I wonder how Su Jicheng is?”

Jiang Fan’s impression of Su Jicheng was still good.

Although Su Jicheng didn’t look like the kind of person who could get along well in school!

But Jiang Fan didn’t need this either.

After thinking about it.

Jiang Fan directly used the deduction system.

To make a deduction!

Then he discovered.....

Whichever mentor he chose was pretty much the same!

There were even some mentors.....

That would drag him back!

“Let’s go with Mr. Su Jicheng.”

Jiang Fan thought for a while.

Finally, he decided on the choice of his mentor!

Then he sent a message to Su Jicheng again.

“Teacher Su, I’ll choose you!”

After hearing that he really chose himself.

Su Jicheng was very happy.

Although Dongyang province was only a small province.

However.....

Jiang Fan was the top student.

For the sake of that title alone.

There must be many mentors who want to recruit Jiang Fan.

He didn’t expect Jiang Fan to choose himself.

“Next, you can prepare for the Freshman Challenge with peace of mind. As for the resources.....” Su Jicheng said with a hint of joy: “Some resources that freshmen can get, I will try to arrange them in advance for you!”

After hanging up Su Jicheng’s communication.

After a few moments.

Jiang Fan then discovered.

On his communicator.

He received a lot of information from Su Jicheng!

There were all kinds of them!

All of which were difficult to obtain outside.

“It seems that I have chosen the right mentor!”

Jiang Fan smiled faintly.

Followed by.....

He re-entered the awakening space.

Now that he had decided to participate in the Freshman Challenge, then.....

He definitely needed to prepare well!

.....

On Blue Star.

With the birth of theoretical knowledge one after another.

Various technologies were also showing an explosive attitude!

It was very similar to the earth in the previous life!

After a long period of basic development.

In just a few hundred years.

Technology just soared ahead!

It exceeded the level of previous thousands of years!

Inside the Great Desolate Army.

All kinds of new weapons were constantly being born!

Some were new and strange.

But not practical.

While some of them were really eye-catching!

For example.....

A research team had upgraded the sniper rifle.

They made a heavy sniper rifle!

It was faster.

It's range was longer!

It's power was also greater!

And the material science scholar who was called "Xiong Crazy".

Because his research project was too far ahead of its time!

In more than ten years.

There was not much progress.

When he saw that the much younger Lai Te's aircraft project were successful.

He was heartbroken!

He changed the direction of his research.

Even.....

An unbelievable humanoid armor was invented by him!!!

Chapter 322: First contact between the two continents! Ten years of evolution! Amazing results!

Inside the huge laboratory.

Yan, Ghost Buster and other high-level officials.

They all looked up at the huge incomparable.....

Humanoid armor!

Its height was more than ten meters!

It looked very impressive.

But after actually taking a careful look.

Then you will find out.....

This thing was extremely simple in appearance.

There was nothing too complicated in it!

Instead of iron armor.

One might as well say that it was a giant iron frame!

After a few moments.

Then someone raised a question.

“Can this thing..... move?!”

A scholar asked.

“Ahem, ahem.....”

Crazy Xiong coughed a few times, and said, “It’s currently..... not able to move.”

While saying this.

He was slightly embarrassed!

“Then what’s the use of that!?”

This scholar asked again.

“Right now..... it’s useless.”

Crazy Xiong’s expression became even more unnatural.

“Oh.”

All the scholars who came to visit nodded slightly.

The original glint of interest in their eyes.

It was gone right away.

It turned out to be a decoration.

It was useless.

A weird project like Crazy Xiong.

Inside the Great Desolate Army.

Now there were quite a few.

The atmosphere was.....

Naturally, it started with Dr. Chen who developed the super zombie virus!

“Although this thing is useless at the moment, but.....” Seeing everyone’s disapproving expressions, Crazy Xiong hurriedly explained: “It will definitely be able to exert a very powerful role in the future!”

“Just give me a little more time.”

“I’m sure I’ll be able to create something that can move!”

“With all due respect,” a new scholar said, “Even if this thing can move, but with such a large size.....”

“What kind of power do you think will get it moving fast?”

Crazy Xiong was slightly taken aback.

He did overlook this issue.

Although he was very knowledgeable about the materials.

One could say that.....

Within the Great Desolate Army, he was second to none in this area!

But in terms of power.

It had a lot to do with energy.

And he didn’t know much about it!

With the current technology of Xia Kingdom.

The energy sector was just getting started.

The main source of energy was still coal.

Oil was also only initially smelted out.

“I think.....”

This scholar paused for a moment and said, “You might consider shrinking this thing a bit.”

“Build a smaller version.”

“It’s a little..... unrealistic to be so big all at once.”

“A shrunken version!?”

Crazy Xiong was stunned.

Suddenly, in his head.....

It was like being struck by lightning.

Many rays of light flashed!

“Yeah, why didn’t I think of that? Wouldn’t a scaled-down version be more feasible.”

Crazy Xiong clenched his fists.

He almost cried at his own stupidity.

All along.

Because inside the glory conquest.

He saw a huge variety of transcendent species.

So.....

Xiong crazy was envisioning the day when.....

He’ll be able to make machines of the same size!

To fight these transcendent species.

Its just that.....

Not to mention these professional scholars.

Even if it was Jiang Fan.

He also knew.

According to the current technology level of Xia Kingdom!

These ideas were still too far from reality and ahead of time!

“Thank you for the reminder.”

A new hope was sparked in the heart of Crazy Xiong!

No matter how many people were there.

He just turned around.....

And started another research!

The people watching him looked at each other.

“Ahem.”

At this time.

Han Xin coughed lightly and said, “I called everyone here today, not to see this big iron frame, but to have other research results.”

“Everyone, please look.”

Looking in the direction indicated by Han Xin.

Everyone saw a piece of.....

Silver and white alloy clothes!

“All along, we have not studied the two metals, star meteorite iron and vibranium, deeply enough.”

Han Xin tried his best to speak in a professional tone.

For today.

He had been preparing for a long time!

For fear that he was not professional enough.

And made a joke of it.

Hearing this.

Everyone nodded.

“I want to tell you.”

A scholar spoke up: “Even in the face of the various transcendent materials of those transcendent species, these two metals are not the least bit weak!”

“However.....”

“We are still using it superficially!”

“We haven’t fully utilized their true abilities!”

Yan and the others were deeply convinced!

Star meteorite iron and vibranium.

One could say that.....

Currently, inside the Xia Kingdom.

These were the only two things that could be called magical.

“Earlier, we all used the smelting method.”

Han Xin continued: “However, we ignored their internal molecular structure!”

“And the Xiong scholar realized it!”

“To really get the most out of these two metals, you have to start with their internal structure.”

“These armors are the product of Xiong scholars’ research.”

Han Xin put on a set of silver and white clothes.

It was sent to Yan and others.

Yan took it in her hand.

Her eyes lit up slightly and she said, “The weight should be less than twenty kilograms, so it can be worn by some soldiers!”

“How’s the defense? Does it inherit the effect of the alloy?”

“Complete inheritance.”

Han Xin said with great certainty, “The reason for making such an alloy coat is that although our Great Desolate Army has strong firepower, its defense is a bit too weak.”

“Once you let those transcendents close in on you.”

“That’s how easy it is to create a one-sided massacre!”

“This alloy coat.....”

“We’ve tested it.”

“It can deflect large caliber bullets and.....”

“The consumption of the alloy is also much less!”

Next.

In a few typical experiments.

There were no surprises.

The effect of the alloy coat.

It was better than a shield!

The only problem might be.....

Its weight was still a little too heavy!

Yan immediately gave the order.

And a special alloy coat research group was formed!

Which was responsible for making..... further improvements to this alloy coat!

And from this moment on.....

On the guards.

The Xia Kingdom began to have a huge difference from the Earth in the previous life.

Something like bulletproof vests.

It simply disappeared.

It was replaced by.....

The current alloy coat.

And something else even scarier behind it!

It also started with this project.

The Great Desolate Army had started the research and development of the “Individual Combat Project”!

Earlier.

Almost everyone agreed that.

Against transcendents.

They should rely on the number and cluster advantages.

However.....

With the release of new materials.

It allowed the emergence of powerful individuals.

It became a possibility!

Time continued to move forward.

Improvements to the alloy coat were slow.

When Yan got 42 years old.

Finally, the weight was reduced to less than ten kilograms.

Meanwhile.

There was a new development in the project of Xiong Crazy.

He succeeded in creating.....

The first humanoid armor that could be activated.

Of course.

The size was much smaller than the previous behemoth of over ten meters!

But it was still not very practical.

Only one person could celebrate alone.

Lai Te's aircraft research group.

It was progressing fairly quickly.

The second generation of the jet was developed!

Letting people fly.....

It had truly become a possibility.

Dr. Chen's biological weapons research group.

Some useful and useless research and development.

Like mushrooms after a rain.

All of them were released one after another!

These were the items that attracted the most attention.

One of the other research groups.

There were also a lot of unremarkable researches.

But later it was proved that..... it was a very important new invention!

When Yan got forty-three years old,

The second technological frenzy came to an end!

Brand new inventions.

Similar to the previous epoch-making products of the automobile, electric light, telegraph, airplane, etc.

Chapter 323: First contact between the two continents! Ten years of evolution! Amazing results!

Basically, they were gone.

In its place,.....

There were improvements to these inventions!

At the same time.

It was the Xia Kingdom's Great Navigation Age.

After the first steel ship went to sea.

Only then did it start "backward".

Across the rough sea.

The crew of the giant steel ship named "The Great Desolate".

Through the telescope.

They found that on the opposite side..... the second continent!

Immediately.....

Each one of them got excited!

"The legend turned out to be true!"

A scholar who came with the team was very excited!

All along.

There were rumors that.....

On the opposite side of the ocean.

There was another piece of land.

But because of the lack of shipbuilding technology.

Few people had ever been to the sea before.

After a short period of excitement.

The crowd found a big problem.

That was.....

How were they going to get past!

With such rough waves.

Even this steel ship might not be able to get through.

After discussion.

The crowd decided to fight it out!

They have a glimmer of wild hope inside them.

They wanted to be the first to set foot on the Second Continent!

The captain personally formed a team of ten!

To drive a smaller boat.

Boldly charging towards the raging waves!

The result, well..... it naturally could be imagined.

Almost a total loss of troops!

Only one sailor survived.

It just happened to be rolled onto the beach of the second continent by the waves.

“Ha ha ha.”

The sailor looked at this strange land.

And laughed out loud with excitement!

He was an insignificant little man.

He turned out to be the first person to set foot on this land!

It was a supreme glory.

Under the excitement.

The sailor didn't even bother to observe anything.

He recklessly rushed to the dense woods behind the beach!

As a result.

He was not even 100 meters away.

Just by a violent bear that had been hungry for several days.....

It gave a slap on his wrist.

So far.

The first contact between humans and the second continent was over before it began.

Its just that.....

The people on the boat outside would naturally go back.

To spread the news.

The second truly large-scale exploration.

It was not too far away.

After observing for a while.

Jiang Fan detached himself from the awakening space.

Ding-dong!

The doorbell suddenly sounded.

Jiang Fan stood up.

He opened the door and saw that.

A strange man in uniform was found outside.

“Hello, is this student Jiang Fan? I am the delivery person of the school mall, here are the things you bought from the school mall.”

The uniformed man brought in a large box.

After waiting for the uniformed man to leave.

Jiang Fan opened the big box.

Inside it was.....

One hundred pieces of the origin power that Jiang Fan bought from the school mall earlier!

At school.

There were only one million pieces sold!

And if it was outside.

Then it was more than that price.

This was also one of the hidden benefit of super-first-class universities.

With so much origin power.

Jiang Fan naturally accelerated Blue Star faster!

One year in Blue Star.

It was one day outside.

Time passed day by day.

This morning.

It was the day of what Su Jicheng called the so-called “Freshman Challenge”.

Jiang Fan woke up early.

He made himself a simple breakfast.

His villa naturally had a kitchen.

As for the cooking ingredients.

It could be delivered by the school mall.

Of course.

He had to pay a shipping fee.

Compared to eating in the cafeteria.

Jiang Fan was still more used to cooking for himself!

Not long after breakfast.

There was a knock on the door outside.

Jiang Fan opened the door and saw that.

Standing at the door was Lin Ke'er and a large group of people behind her.

All of them were freshmen from the Dongyang Province.

Although there was one month of summer vacation.

But not many candidates would really let themselves go that far.

The break did not last long.

It'll be over.

Especially the super-first-class universities with the star space.

One day in here.

It was completely incomparable outside.

“You are.....?”

Jiang Fan asked in confusion.

“We're specifically here to wait for you.”

Lin Ke'er clenched her fists slightly and said, “This time, the two representatives of our Dongyang Province are Bu Jingyue, and the other one is you.”

Jiang Fan nodded slightly.

This matter.....

Su Jicheng had already told him.

Among thirty freshmen from the Dongyang Province.

He and Bu Jing Yue had the highest ranking.

The last two to be reported were the two of them.

“There are some very strong freshmen from other places, and they got full marks on the planet diameter in the entrance exam.”

Lin Ke'er continued, “So..... our province's hope is you.”

It was well known that.

Generally, among level one planets.....

The talent of each planet was judged according to its diameter.

Basically, there was nothing to exaggerate!

“Those people from other provinces were a little too much.”

A freshman spoke up and said, “We haven't won a single sparring match in the past few days.”

“Jiang Fan is also from our Dongyang province, so what is there to be ashamed to say that not only did he not win, but he also lost badly.”

Another freshman said with a helpless face.

“Oh.”

Jiang Fan did not respond.

He closed the door.

And went straight through the crowd.

Moving forward.

Others don't mind either.

They followed behind!

And treated Jiang Fan as the leader.

The crowd took the talisman car.....

They arrived in front of arena of the Beidou University!

The arena was very large.

There were continuous large venues inside!

Each one was bigger than the Jiangcheng Center Stadium!

When Jiang Fan and the others arrived.

A lot of people had already come here!

Outside the square.

It was bustling with activity.

It was not just the freshmen who entered this year.

There were also those senior students who came to watch after hearing the news.

Because they were years apart from the Freshman Challenge.

So.....

It attracted a lot of attention!

Especially since there was a legendary level demon.

More than that, it aroused the interest of many people.

“There are so many people.”

Looking at a square full of vibrant young students.

Many people sighed.

“Hahaha, Lin Ke’er, you guys came early enough.”

At this time.

A gruff voice came out.

Jiang Fan turned his head to look.

It was a tall boy with a big body.

A large group of people followed behind.

Looking at that appearance.

It should also be a freshman of this year.

“It’s a freshman from Tianhai Province. This guy is called Wang Yiteng. He is their leader. It is said that the diameter of his planet during the college entrance examination exceeded 500 kilometers.”

Lin Ke’er lowered her voice and said in Jiang Fan’s ear.

“You should be the one who is the top student of the Dongyang Province this time, right?” The tall boy, Wang Yiteng, looked at Jiang Fan and grinned.

A white tooth was revealed.

Jiang Fan nodded slightly and asked, “What’s the matter?”

Wang Yiteng and the others were all speechless.

How could this guy not follow the rules.

He didn’t even say hello.

“If there’s nothing, I’ll go first.”

Jiang Fan spoke up.

He just turned around and left.

Leaving a stunned crowd behind.

For Jiang Fan.

The main reason for this visit was the “Star Space”.

What other geniuses and so on.

He was too lazy to pay attention!!

Chapter 324: Planet Ranking! Challenge starts!: Planet Ranking! Challenge starts!

Seeing that Jiang Fan didn't pay much attention to Wang Yiteng.

Lin Ke'er and the others were slightly taken aback.

But they soon followed!

“This guy is really arrogant.”

Behind Wang Yiteng.

One student said indignantly.

“The top student, well, is proud enough.”

Wang Yiteng grinned and said, “I hope he can be that arrogant in the challenge!”

Jiang Fan went inside.

He first came to the rest area.

There was still some time before the start of the challenge.

Jiang Fan naturally wanted to sit down for a while first.

Glancing around.

He discovered.....

Su Jicheng had actually arrived already.

He was standing with some teachers.

“Teacher Su, I wonder how many students you've taken in this year? There should be quite a few, right?”

A young teacher spoke up and asked.

Hearing this.

The teacher next to him looked a little weird.

Here it comes!

Here it comes again!

It's that time of year again when Su Jicheng becomes embarrassed.

Because.....

Just like any other university.

There were also factions within Beidou University.

This young teacher was part of the.....

Beidou University's most famous mentor – Ao Xiong's faction.

But Ao Xiong and Su Jicheng didn't deal much with each other.

When Su Jicheng first came into the university.

He was more straightforward.

He directly reported a student who cheated on a test.

And this student.....

He happened to be under Ao Xiong.

Thus!

Su Jicheng offended Ao Xiong.

He had been targeted every year since then.

It was not just on-campus suppression!

The main thing was that.....

As long as Su Jicheng takes a fancy to a freshman.

Ao Xiong will use various means.....

To grab it by force!

This also made Su Jicheng at this time of year.

Extremely embarrassing!

Usually others had already recruited dozens of students.

But Su Jicheng didn't even have one.

"I did hear that Teacher Su is in contact with a talented student from the Tianhai Province, so it should be almost done, right?" The young teacher asked again.

The other teachers were stunned.

This was too mean.

Su Jicheng was indeed in contact with a genius from Tianhai Province.

And they had been in contact for a long time.

However.....

Just yesterday.

A teacher of Ao Xiong's faction, used a method to snatch it away!

It also drew a lot of comments from teachers.

"It didn't work out."

Su Jicheng smiled faintly.

He didn't seem to care.

“Well, that’s a shame.”

The young teacher shook his head regretfully and said, “Mr. Su, if you can’t recruit any more students, I’m afraid your qualifications as a tutor will be revoked in the coming year!”

“You don’t have to worry about that.”

Su Jicheng smiled and said, “I already found a student.”

“Oh, really? Which genius demon is it?” The young teacher asked with some surprise.

The other teachers were also quite curious.

Su Jicheng offended Ao Xiong.

With the push of those who had a mind to do so.

It was all spread among the freshmen.

In this situation.

Which freshman would still dare to apply for Su Jicheng as mentor?

“He’s already here.”

Su Jicheng turned his head.

And looked in one direction to the left.

The other teachers also turned their heads to look.

Only to see that.....

Jiang Fan walked over step by step.

“Good morning, Teacher Su.”

Since Su Jicheng was here.

Jiang Fan naturally had to come over and say hello.

“Jiang Fan, you are also quite early.”

Su Jicheng nodded slightly.

“Jiang Fan?”

Hearing this name.

The other teachers were slightly taken aback.

They felt somewhat familiar.

Followed by.....

A teacher observed Jiang Fan for a few moments and said in a daze, “Is that the provincial top student from Dongyang Province who broke the record this year?”

Hearing this.

Others are also thinking about it.

Others also thought about it.

But because, for nearly 100 years in the Beidou University.

Jiang Fan was the first provincial champion who was recruited.

So.....

Jiang Fan's reputation was not small!

Everyone had at least an impression of him.

“Provincial champion!?”

That young teacher heard what the teachers were talking about.

He frowned slightly.

Not to mention how qualified Jiang Fan was.

Relying on the name alone.

He would certainly be able to enter the eyes of each teacher!

“Damn it, how did this Su Jicheng get so lucky this year and recruited a provincial top student?”

The young teacher felt a little unbalanced.

“Jiang Fan, go and rest first, keep your spirits up and wait for the competition to start.”

Su Jicheng exchanged a few words and said.

“Okay.”

Jiang Fan nodded.

He was about to turn around and leave.

Suddenly.....

A domineering voice sounded behind him and said, “Not bad young man, why don't you come and be my disciple?”

Hearing this.

Jiang Fan turned his head to look.

It was a tall, very dominant-looking middle-aged man!

“Teacher Ao.”

“Teacher Ao!”

“Teacher Ao is here.”

Seeing this domineering middle-aged man.

Every teacher spoke up.

He greeted with a smile.

This domineering middle-aged man was.....

Ao Xiong, currently the most famous and strongest instructor inside Beidou University!

“Teacher Ao, aren’t you going a bit too far, Jiang Fan is my student!”

Hearing Ao Xiong’s words.

Su Jicheng directly frowned.

There was a hint of anger in his tone!

“Teacher Su, that’s not the right thing for you to say.”

The young teacher behind him immediately stood up and said, “It is necessary to make sure that the mentor is selected at the start of school. Now you have at most an intention. Classmate Jiang Fan is not your student yet.”

“Besides.....”

The young teacher smiled gently and said, “The choice of a mentor is very important, it is related to the future of a student!”

“If you meet a mentor who is of average level and has little resources!”

“Then.....”

“This student is just about as good as wasted!”

“You don’t have to worry about that.”

Su Jicheng’s voice turned cold as he said, “As my student, the resources that he should get and the training that he should have will definitely not be less than others!”

“Student Jiang Fan.”

The young teacher turned to Jiang Fan and said, “You have to think about it, Mr. Ao is our Beidou University’s best mentor, and he has the most abundant resources, which cannot be compared by an ordinary mentor!”

“If you join me, I can double the resources that Su Jicheng promised to give you!”

Ao Xiong also spoke up.

There was a hint of dominance in his tone.

All the teachers around didn’t dare to make a sound.

They were shaking their head in secret!

All of them were aware.....

Now Ao Xiong was not doing this because he was very fond of Jiang Fan.

Rather, he wanted to snatch him from the hands of Suji Cheng.

Su Jicheng slightly clenched his fist.

But he was also very helpless.

Every year.

He was almost always robbed of students like this!

“Sorry, I don’t have the habit of changing mentors, besides.....”

Jiang Fan smiled slightly and said, “I don’t think Teacher Su is worse than others.”

“Goodbye, teacher Su.”

Jiang Fan said to Su Jicheng.

Then he turned around and left!

All the teachers behind were.....

Somewhat stunned!

This year’s little guy actually didn’t eat Ao Xiong’s trick!

He didn’t even consider it.

Jiang Fan returned to the rest area.

Glancing around.

He suddenly saw a familiar figure – Bu Jing Yue.

She was walking in with a middle-aged woman.

After the two said something.

Bu Jing Yue was also walking towards this side of the rest area of the Dongyang Province!

In fact.....

The rest area was not divided.

Chapter 325: Planet Ranking! Challenge starts!

But people from every province were sitting together in a group!

Bu Jing Yue glanced at the crowd.

She nodded slightly toward Jiang Fan.

Jiang Fan pointed to the chair beside him and said, “Sit here.”

Bu Jing Yue also did not refuse.

She came over and sit down!

“Hmm?”

At this time.

There was a sudden commotion in the venue.

The crowd looked towards the entrance of the arena.

Only to see.....

Another group of freshmen walked in.

There was a hint of confidence on their faces.

At the head of the group was a boy in black.

“It’s someone from Anhu Province!”

“I heard that Anhu Province is one of the top ranked provinces among the many recruiting provinces this year.”

“The one at the top..... should be Xiang Zhifei, who ranked third overall in this year’s college entrance examination in Anhu Province, right?”

“That’s right, it’s him. Although Xiang Zhifei ranked third overall, in fact..... he is less than one point away from the first place. It is said that the diameter of his planet exceeds 550 kilometers!”

“Five hundred and fifty kilometers? Wouldn’t that be in the top five of this year’s freshmen?”

“More than that, the top three are also possible!”

Everyone was discussing.

In the eyes of the crowd.

The boy in black, Xiang Zhifei.

With the people from Anhu Province behind him.

He walked to the right side of the rest area.

A group of freshmen with rather bland faces.

They talked to a rather handsome looking guy!

“This boy is the chief genius from East Floating Province – Lin Youhe.” Lin Ke’er introduced Jiang Fan to the side: “East Floating Province is right next door to our Dongyang Province!”

“However.....”

“East floating province is a big province!”

“This Lin Youhe ranked second in the province’s college entrance examination!”

“It is said that the diameter of his planet is also more than 550 kilometers!”

“It’s the big favorite for the top eight this time!”

Jiang Fan nodded slightly.

“This year, it seems that Beidou University has been very aggressive in recruiting, and recruited many talented freshmen.”

Lin Ke’er continued: “Like a planet with a diameter of more than 500 kilometers.....”

“Now as far as I know.....”

“There are at least fifty people!”

“Well..... of course, including you Jiang Fan!”

“So.....”

“The competition for the top eight is very fierce!”

Jiang Fan was also aware that.

According to the rules of the challenge.

Only the top eight will get reward!

In general.

On a level one planet.

Everyone was differentiating their talents by the size of the planet!

This distinction was also the most accurate and widespread!

of course.

For a second level planet or above.

There were many more factors to compare!

Especially the third level planet.

That was even more complicated.

According to the world’s classification of planetary levels!

The first-level planet and the second-level planet..... both belonged to the primary planet!

While the third-level and four-level planets..... were set to be intermediate planets!

Extrapolated in order.

For level 5 planets and above.....

It belongs to the advanced planet!

Every level planet.

The most obvious one was.....

The difference in the size of a planet!

For every level up!

There was a huge improvement!

Over time.

More and more people were coming in.

It was not just freshmen from every province.

There were also teachers and leaders of the university.

And the senior students who came to watch the fun!

After a short time!

Just when Jiang Fan was a little bored of waiting.

All of a sudden.....

The arena went quiet!

The voice of everyone.....

It all stopped.

One by one, they turned their heads.

Including teachers and leaders.

All of them turned their heads to look at the entrance of the arena.

Jiang Fan also looked curiously.

Only to see that.....

At the gate of venue.

A lot of people came in!

A slender, long-haired young man surrounded by stars like the moon!

This young man looked quite handsome.

He was wearing a bright yellow dress.

The shape was somewhat antique!

There was a faint smile on his face.

He walked in like a dragon!

After this handsome young man walked in.

Inside the arena.

An unprecedentedly fierce discussion erupted.

“He..... is that Emperor Qing!?”

“It’s Prince Qing. It’s better to see each other when you’re famous. He’s a man of talent, a dragon among men!”

“Prince Qing is the Yongyang Dynasty from the Yongyang Region. He ranks third among many princes, and he is also the most incredible demon recruited by our school this year.”

“In that case, even if we count up a thousand years, Emperor Qing is still good enough to be ranked second among all the students!

“Then who is in first place!?”

“You don’t even know this? Go back and check it out yourself.”

“It is said that the school has spent a lot of money to win Prince Qing this time.”

“You don’t understand this, right? Actually..... This freshman challenge is specially held for Prince Qing, and the others should earn second place at most!”

One after another, there were discussions.

All eyes and attention were placed on Prince Qing who walked in.

Even geniuses like Xiang Zhifei and Lin Youhe.

They also frowned.

“This Prince Qing is indeed good-looking, but why do I feel..... he is still a little worse than Jiang Fan.”

Lin Ke’er glanced at Prince Qing.

And looked at Jiang Fan again.

She couldn’t help but mutter in her heart.

As soon as Emperor Qing walked in.

Dean of Education at Beidou University.

He led someone to greet him and said, “Haha, welcome Prince Qing to our school.”

“Director Zhou is kind, my current status is just a student, not some prince Qing.”

Prince Qing responded with a smile.

Followed by.....

He said respectfully to Ao Xiong, who was next to the head teacher “Teacher”.

Ao Xiong nodded slightly.

There was a look of satisfaction on his face!

The other teachers were quite envious!

They had also tried to recruit this famous Emperor Qing who was famous all over the world.

However.....

Naturally, they could not enter the eyes of others.

In the end, he was recruited by the most powerful Ao Xiong!

After more than one hour of waiting.

Freshman Challenge.....

It was finally time for it to officially start!

As the representative of Dongyang Province.

Jiang Fan and Bu Jing Yue also stood up.

And walked toward the interior of the arena.

Others could only come to the large viewing room.

By projection.....

They could watch it!

Bu Jing Yue returned to her mentor, the middle-aged woman.

This was also the norm in college games.

Before each student advanced.

Mentors would give pointers!

Jiang Fan naturally also walked towards Su Jicheng.

It had to be said.

Su Jicheng was a little miserable.

Beside other instructors.

There were at least a dozen freshmen standing at this time.

And Su Jicheng.....

Yet, it was empty!

There was not even a single one.

After seeing Jiang Fan walk over.

A smile appeared on his face, and he said, "Jiang Fan, this time it's just a practice match, don't think too much about competing for a place."

"Do your best."

Jiang Fan smiled faintly.

Jiang Fan and Su Jicheng walked toward the interior of the competition arena.

In an immensely wide hall.

A large number of people came in darkly!

They were all the freshmen participating in the challenge and the mentors behind them!

After a brief opening remarks by the dean.

This Freshman Challenge also officially started!

The first was the announcement of the rules of the competition.

Its just that.....

What made Jiang Fan a little surprised was that.

It wasn't the rules of the usual competition!

Instead, it was a whole new way of doing things!!!

Chapter 326: New Tournament System! The first battle against a strong enemy!

After the Dean announced the start of the challenge!

Rumble.....

Inside the arena in an unbelievably vast hall.

The ground slowly rose up and sixty-four battle rooms appeared!

Among them, thirty-two were red and were located on the left.

The other twenty-two were blue and were located on the right!

The appearance of these sixty-four battle rooms caused a huge uproar!

“This is..... the mode of the ring battle?”

“Haha, it's interesting, this year's challenge is actually adopting this mode?”

“That's the only way to make it interesting, otherwise it will be boring in the earlier group stage.”

“.....”

All of them were discussing while their eyes full of anticipation!

The mode of the ring battle!

It was also a relatively old and traditional tournament system!

Individuals had to go up first as the ringmaster!

And others had to go as challengers!

The specific tournament system would depend on the number of participants to make adjustments!

The details were different as compared to the group stage tournament system.

It was more intuitive and exciting!

“This year's Freshman Challenge will use the ring tournament mode.” Director Zhou said loudly, “As you can see.”

“There are sixty four battle rooms in total!”

“Among them.....”

“Thirty-two are ringmasters!”

“The other thirty-two are challengers!”

“As long as someone wins five matches in a row first, or no one challenges for more than ten minutes, then.....”

“Then you can get in the list of those who made it to the Top 32!”

“Its first come, first serve, until there are enough people in the top thirty-two!”

“If you lose a match, you will be eliminated directly, and there is no second chance!”

As Director Zhou’s voice fell.

The discussion at the scene immediately grew louder!

“Tsk, this is really exciting, one is sure to be out!”

“Even if you win four matches in a row, but as long as you lose the fifth match, you are directly out of the match, and the previous four victories are all in vain!”

“This tournament system looks good.”

“.....”

One by one, teachers were also talking about it.

“In this case, there are both pros and cons for the students who go up to the arena first.” A teacher beside Su Jicheng said with a smile: “It is possible to take the lead and quickly get a place in the top 32, but.....”

“A careless person may also make wedding dresses for others!”

“The main point is.....”

“There are nearly sixty freshmen with a planet diameter of more than 500 kilometers this year, but.....”

“There are only thirty-two places in the top thirty-two!”

“It’s up to the individuals to choose!”

“How many freshmen are participating this year in total?”

One of the teachers asked.

“Nine hundred in total.”

Su Jicheng looked back and said.

“Nine hundred people? Then it’s not really that difficult to win five matches in a row.”

“No, that’s not how it works.”

Su Jicheng smiled and said, "According to this rule, if you lose one match, you will be directly eliminated! So....."

"If it were me, I certainly wouldn't stand by and watch some ringmaster win five matches in a row."

"When he wins four matches in a row, there are bound to be powerful spectators coming up to stop him."

"That's true."

The other teachers nodded.

It's the kind of competition that makes it interesting!

Strength alone was not enough to win this.

It was also a test for the choice of each participant!

"Let the competition begin!"

As Director Zhou's voice fell.

The scene suddenly quieted down!

They all stared at the center.

Those nine hundred freshmen!

These were all.....

The most outstanding genius of each province!

The diameter of their planet was at least 400 kilometers or more!

Not one of them was weak!

Anything was possible in actual combat.

The diameter of the planet doesn't always tell the whole story!

"I'll go first."

A tall boy glanced at everyone and took the lead..... and walked up!

"It's Wang Yiteng of the Tianhai Province!"

Someone shouted.

Jiang Fan also recognized him.

Isn't this tall boy he met outside the arena, Wang Yiteng!

As the first freshman went up.

The geniuses behind him also couldn't hold back anymore.

They were also out in force!

Geniuses were naturally high-minded and arrogant.

No one thought that they were inferior to others!

They were very confident.

Especially for those with planets with a diameter of more than 500 kilometers!

More than that, they thought that they should be the leaders.

Right after Wang Yiteng.

Lin Youhe from East Floating Province and Xiang Zhifei from Anhu Province also walked toward the red battle room almost at the same time!

Other geniuses also followed without fear!

Nine hundred freshmen entered the competition.

Soon.

They almost filled up the thirty-two rings!

“Hoo.....”

At this time.

Inside the field.

Suddenly a cheer rang out.

Because.....

Prince Qing from the Dongyang Domain also came to the field!

There was a warm smile on his face.

He also went to one of the battle rooms!

“Prince Qing? No one will dare to challenge him, right?”

A new teacher asked suspiciously.

“I don’t think so, that won’t grow the momentum.” An elderly teacher shook his head and said with a faint smile, “Just take a look, someone will definitely come up to challenge him later!”

The other teachers also had an inexplicable smile on their faces.

Everyone knew.....

This time, Prince Qing was here to walk through the competition!

Whether it was the school or Prince Qing’s mentor Ao Xiong..... There was no way this could be allowed to happen!

“Jiang Fan, when do you plan to go up there?”

Su Jicheng asked as he watched the situation on the field.

His brows furrowed slightly!

He was developing the best strategy for Jiang Fan!

If he went up early.

He would soon be challenged by others.

There were too many opponents.

It was easier to be eliminated in that case!

But if he went up too late!

It might be that the other 32 people would be the first to win five matches in a row.

Thus missing the promotion spot!

“Five wins in a row?”

The corners of Jiang Fan’s mouth curled up in a smile as he said, “That can be faster.”

That’s all he said.

And then Jiang Fan then stepped out.

He walked toward one of the rings.

Seeing that Jiang Fan actually went up to be the ringmaster!

Su Jicheng and a bunch of teachers were a little surprised!

“Teacher Su, the student you accepted..... has good guts!”

An old teacher appreciated it.

“If you are brave, it is possible to be eliminated first.” The previous young teacher sneered.

“That’s not for you to worry about.”

Su Jicheng said indifferently.

He couldn’t help but mention it in his heart!

As the first ringmaster to take the stage.

He was bound to be targeted!

If he was the first to be eliminated.....

That wouldn’t be good!

Outside the battle room.

For many freshmen who saw this scene.

It was also quite surprising!

After coming to the battle room.

Jiang Fan comfortably sat down.

Followed by.....

He entered the awakening space.

Inside the Xia Kingdom.

At this time, Yan was 46 years old!

Wrinkles had appeared on Yan's face!

The air shook slightly!

Yan subconsciously raised her head.

A hint of joy appeared on her face and she said, "Father?"

"The Little Glory Conquest will start in a month, so get ready."

Jiang Fan left this text.

Then he slightly adjusted the time flow.

And let the time between reality and Blue Star match.

"Little glory conquest?"

Yan's eyes flashed again.

Chapter 327: New Tournament System! The first battle against a strong enemy!

She immediately dropped what she was doing.

She gathered all the top brass of the Great Desolate Army into the conference room!

This was in addition to the regular annual meeting.

It was the first time that she got such a specification!

Everyone was very excited.

They had a vague feeling that something interesting would happen!

"The Little Glory conquest will start in a month, everyone..... get ready!"

When Yan's words fell.

Each one had a hint of excitement in their eyes!

Even for scholars.

Compared to boring research.

Fighting with the Transcendents was more exciting!

"The Great Desolate Army still has fifty thousand people. This time, we won't arrange for a general. Each match will be led by a different general, and the scholar team will also have a hundred people. This time....." Yan swept her gaze over the crowd and said in a clear voice, "We want to win cleanly and beautifully!"

"We'll show the latest results of our research and development over the years!"

As the command went down.
The Great Desolate Army got busy again!
It had been more than ten years since the last Glory Battle!
Some of the soldiers had retired.
But most of them haven't changed much!
Generals of the Great Desolate Army.
Except for Chang Yu Chun who chose to retire because of old age.
Other people were at their peak!
For this first team leader.
There was quite a bit of quarrel!
Finally.....
The most senior of them, Xu Tiande, got this spot!
And on the military division.
Of course, there were no surprises.
Ghost Buster personally led the team.
Zhuge Ming, Wang Meng, Guo Jia, Zhang Liang and others followed!
Su Qin, who didn't participate in the Glory Conquest last time..... also left out this time.
He managed to get a spot.
With the experience of the last time.
This time, the preparation period was naturally much shorter.
The crowd did not feel rushed.
One month was enough time!
On the flat ground in front of the planet entrance.
The Great Desolate Army was ready to go!
The current Great Desolate Army had already changed into the latest model of uniform!
Its appearance was somewhat similar to the camouflage uniform of his previous life!
It was not just the uniform.
There were also more changes in other areas!
With the invention of the automobile.
It brought unprecedented mobility to the Great Desolate Army!
And larger and more powerful artillery had also been developed!
Jiang Fan just swept a glance.

He knew that.....

The first challenger to come up was estimated to suffer.

In the scene!

In less than one minute.

Thirty-two ringmasters' positions were already filled up!

As for the other people.....

They just had to go up and act as a challenger!

In fact.

The first group of ring masters and challengers.

Except for their title.

It was not much different!

Whoever loses would be eliminated immediately!

In addition to these thirty-two ring masters.

The remaining eight hundred or so freshmen who participated were not reckless either!

They were all observing carefully.

And the mentors behind them were also helping them to check the information of their opponents!

Everyone wanted their students to be able to get good results in this freshman challenge!

"I'll go."

The first challenger appeared.

It was a genius with a planet diameter of more than 500 kilometers.

The one he was going to challenge.....

Naturally, it was not Jiang Fan.

It was the ringmaster who was not far from Jiang Fan, a planet with a diameter of only more than 480 kilometers!

That's right.

Thirty-two ring masters.

Not all planets were more than 500 kilometers in diameter!

Some of them had a diameter of less than five hundred kilometers.

They were very confident too!

On the bright side.

He was a planet with a diameter of only more than 480 kilometers, so he should be the weakest!

He was also the easiest to challenge!

“I’m also in.”

“I’ll challenge one too.”

After the first challenger appeared.

The second, and the third, naturally followed!

“Jiang Fan in the twenty-eighth arena is from Dongyang Province. You can use him as your opponent in the first battle.”

A mentor said to his students.

“Jiang Fan? The overall top student of Dongyang Province? The only provincial top student in this year’s freshman class? Very well, let’s go for him first.”

There was a smile on the corner of the burly student’s mouth.

After that.....

He stepped out.

And headed toward the No. 28 arena where Jiang Fan was!

“Is it Lie Wudi from Galewind Province?”

“The diameter of his planet was more than 500 kilometers, the third place in Galewind Province this year?”

“It is said that it was not originally called Lie Wudi, but he changed it himself later. He is very strong and confident!”

“Teacher Su, your students met Lie Wudi in the first battle. I’m afraid it’s a bit tricky.”

“This Lie Wudi has participated in several competitions before, and the race he created is very powerful, and it is not easy to deal with.”

Beside Su Jicheng.

One of the important teachers saw Lie Wudi on stage.

They were all talking about it!

“I’m afraid it’s because of Jiang Fan’s reputation as the top provincial student, that he became a target.”

An experienced teacher said.

While the other teachers nodded.

Su Jicheng also frowned.

Sometimes, this top student title was really not a good thing!

And the other freshmen from Dongyang Province who were in the watching room.

Each one of them was also nervous.

The first place in their Dongyang province.....

He won't be eliminated in the first round, right?

Outside the battle room.

Lie Wudi came up.

Glancing at Jiang Fan, he said loudly, "You should have guessed it, the reason why I chose you is because you are too annoying!"

"There are so many geniuses but you're the only one who's a provincial top student!"

"I'll go ahead and kick you out for everyone!"

"That is, if you're as strong as your mouth is."

Jiang Fan smiled slightly.

"You'll see it later."

There was a dangerous light in Lie Wudi's eyes.

The two of them separately walked into the battle room!

A projection appeared in the arena and in the viewing room.

Everyone could view several matches at once!

Among them.....

The one that attracted the most attention was..... this scene between Jiang Fan and Lie Wudi!

Among the first few matches.

This was the only match where both sides had planets with a diameter of more than 500 kilometers!

The duel between geniuses.

It was naturally going to be intense!

One by one, leaders and teachers.

Almost all of their eyes were focused on this.

The match started soon.

On Blue Star.

The long-lost planet passage slowly opened again!

Everyone in the Great Desolate Army who was watching..... had a burst of excitement!

Xu Tiande was standing at the forefront.

He waved his hand!

Immediately!

All the teams of Great Desolate Army's soldiers and scholars marched forward!

They once again walked into this dream-like passage!

Yan was also with the team at the back.

In the competition arena.

There were no surprises.

It was located on a deserted planet.

The flow of time naturally had a fixed ratio to the outside world!

Jiang Fan glanced at it.

There was nothing special about this competition arena.

It was a very common flat land.

After the Great Desolate Army slowly entered the arena.

The transcendent race created by the Wudi on the opposite.....

It also walked in as well!

With the disappearance of a translucent barrier in the middle!

This match officially started!!

Chapter 328: **Blitz mode! Blowout! Winning five matches in a row!**

When the translucent barrier disappeared.

The Great Desolate Army then saw the other side's transcendent race!

It was a ferocious creature with flames all over its body!

“The Flaming Beast.”

Jiang Fan recognized it.

During this time.

Su Jicheng sent him a lot of information about other talented freshmen.

This was among them.

Naturally, this also included the transcendent species they created!

This Lie Wudi.....

What he created was a kind of beast called “Flaming Beast”!

Almost their whole body was on fire.

Their bodies were tall and burning with fire.

Their appearance was hideous!

“It's a foreign beast!”

The scholars of the Great Desolate Army immediately judged it.

After the previous conquests.

Also within the Great Desolate Army.....

There was a preliminary division of each transcendent species!

Most of the transcendent beasts were classified as foreign beasts!

“How does a flaming beast compare to a flame giant?” Xu Tiande asked.

“Their size is a lot worse, and the flame on their body should not be more powerful than the flames of the flame giant.”

One scholar answered.

Xu Tiande nodded slightly.

He immediately ordered: “Directly cover with full firepower, quickly solve this first battle, don’t let the people of other legions look down on us.”

Between the five legions of the Great Desolate Army.

There was a lot of competition.

Especially when the head commander position was vacant.

The Flame Giant!

At the time of the glory conquest.

Except for the Heaven Splitting Cannon.

There was no effective way to kill them!

But now

That was not a threat!

During these years.

Xia Kingdom did not just have a big bang in the electrical age!

Weapons enhancements were also very great.

All kinds of special weapons for transcents were invented one by one!

Especially.....

With Xiong Crazy’s transformation of Star Meteorite Iron and Vibranium Alloy!

There were even improvements in molecular structure!

That was a qualitative leap!

It took the power of alloy bullets to the next level!

And after the crazy Xiong!

Another research group developed a scarier bullet!

It could even pierce through the Tank made of star vibranium alloy!

This bullet was the famous armor-piercing alloy bullet within the Great Desolate Army!

Jiang Fan was also paying attention!

Its structure was more similar to the armor-piercing bullets of the previous world!

But its material was different.

The armor-piercing bullets in the previous life mainly used.....

It was made of steel alloys, depleted uranium alloys, etc.

It relied on bullet strength, weight and speed to penetrate armor!

It had a range of two kilometers.

And it was able to penetrate thick armor with a thickness of more than 700 mm!

And the material used by the Great Desolate Army.....

Naturally, it was the new version of the new vibration alloy!

Its power was even more terrifying!

While the Great Desolate Army was observing these fiery beasts.

On the opposite side, Lie Wudi was also observing the Great Desolate Army.

“There are quite a lot of them, but it looks like each one has a aura similar to that of ordinary people, and the ones in their hands are the unique weapons of these people!”?

Lie Wudi’s vision wasn’t weak.

He saw it right away.

The biggest threat from the Great Desolate Army was the dark weapons in their hands!

“Long-range output? It shouldn’t be very good in melee combat. Just rush over quickly and you can break it.”

Lie Wudi immediately thought of a way to deal with it.

Then he ordered.....

Let the Fiery Beast charge through at full speed!

This group of fiery beasts numbered more than six thousand!

When they charged up.....

Even the earth was trembling!

“Cover them with cannons and shoot them with speed guns. Don’t let them get within 500 meters!”

Xu Tiande immediately ordered!

Thirty cannons!

All of them were activated!

This high-powered gun was capable of flat firing.

It was much more powerful than the previous college entrance examination!

A round of shells was fired flat!

It directly hit the rushing..... flame beasts!

The flaming beasts that were rushing at the forefront.

Dozens of them were killed and injured on the spot!

Seeing this, Lie Wudi frowned!

But he also knew.

While facing the long-range attack

A few casualties at the beginning were inevitable.

Its just that.....

The main force of the Great Desolate Army was not the cannon.

Rather, it was a group of speed guns in the position.

This was the newest type of four-barrel speed gun!

After hundreds of improvements over the years!

Finally.....

This terrifying killer machine was born!

It could fire four bullets at the same time!

In addition!

The main thing was.....

These four bullets were all..... Alloy armor piercing bullets!

Their initial speed had reached more than 1500 meters per second!

One hundred four-barrels speed guns covered the position in its entirety!

At various locations.

All angles were available!

Tu tu tu.....

These one hundred four-barrels speed guns were activated at the same time!

Because of the limitation of the size of the playing field!

These speed guns almost covered the entire area!

When one sees that the caliber of the speed gun is relatively small.

Both Lie Wudi and the flame beasts!

They didn't care much.

And yet!

In the next moment.....

They noticed that something was wrong.

Dense alloy armor-piercing bullets fired over!

Through the flames of the flaming beast's body!

It broke through that thick skin.

It directly penetrated the huge body of the flame beast with a thickness of more than..... one meter!

And it was not just one!

One hundred quadruple-speed guns were fired at the same time.

In an instant!

There were four hundred alloy armor-piercing bullets!

The flame beast didn't dodge at all.

Most of them directly hit the huge flame beasts!

In addition to the destructive power of armor-piercing bullet!

The alloy bullet itself had inherited the original energy absorption function!

The flames on the surface of the flame beasts.....

It was also decreasing little by little!

In just one second!

The dozen or so flaming beasts rushing at the front.....

There were bullet holes all over their body!

If their body was not tough.

They would have shattered on the spot!

But after taking so many armor-piercing attacks!

After a few moments.

It was..... One by one, they fell down with a bang!

Tu tu tu.....

The firing of the four-barreled speed guns continued!

The flame beasts that were rushing over at high speed.

The flame beasts in the back couldn't stop at all!

They were following closely!

Chapter 329: Blitz mode! Blowout! Winning five matches in a row!

But still they stepped into the same fate!

They were shot by the dense rain of armor-piercing bullets..... into a hornet's nest!

Even if it was a single armor-piercing alloy bullet.

These flame beasts were not good either.

Not to mention this much!

Among them was a tall flame beast rushing in front.

It was even more miserable.

It got hit with most of the dozens of bullets.

There was not even a scream!

It just hung up!

Tu tu tu.....

Ahhhhh.....

The entire arena was full of the sound of the rapid-fire speed guns and the screams of the flame beasts!

One after another!

Like a bizarre symphony.

People who listened to it felt their skin tingling!

More than six thousand tall fiery beasts swiftly rushed over.

But in only less than three minutes.

Hundreds of them fell!

Even.....

They couldn't even get within a kilometer of the Great Desolate Army's position!

Live and in the viewing room.....

There was a silence!

They originally thought that it was Mars hitting the Earth!

But no one expected that.

The truth was King Kong vs Godzilla!

The collision between the geniuses.

It had become a one-sided situation!

Lie Wudi in the battle room was even more dumbfounded!

He hadn't even warmed up the seat yet.

The flame beasts that he had worked so hard to cultivate fell down..... by nearly a thousand! ?

If it was on the high school entrance exam.

He might hold on a little longer.

And see if there was a chance to save the defeat.

However.....

It was just an irrelevant challenge.

There was no need to pay a bigger price.

“I admit defeat.”

Lie Wudi took a deep breath and chose to surrender.

With that, he stood up.

Looking in Jiang Fan’s direction, he clenched his fist and said, “Jiang Fan is it? I’ll remember you!”

“Three minutes and seven seconds.”

With Lie Wudi’s admit of defeat.

The first match of this challenge was over!

To everyone’s surprise.

This one was actually a battle between Jiang Fan and Lie Wudi, which was thought to be very intense before the match!

But the result was almost the same as an adult hitting a kindergarten child!

Berserk and fierce flame beasts were pressed against the ground!

They died very tragically!

“Teacher Su, what kind of race did this Jiang Fan create that can create such a terrifying weapon!?”

One of the teachers asked.

“It is said to be an unprecedented race – Musketeers!?” Su Jicheng replied.

“Musketeers?”

Many teachers were slightly taken aback.

This race.....

Not a single person had heard of it.

“This kind of musketeer can naturally awaken a musket. The levels of muskets are ordinary, elite, king, etc. What you just saw should be the king musket.”

Su Jicheng naturally knew more about Jiang Fan.

This was the time to introduce it to the crowd.

Basically, these were also recognized by many planet masters!

Everyone agreed on a new transcendent civilization like the Musketeers and the corresponding class divisions!

“Ohhh.”

All of the teachers nodded.

“What about the kind of musket that has a larger caliber?”

One teacher asked curiously.

“It’s not called a musket, it’s called a cannon, and only a few musketeers can awaken it.”

Su Jicheng explained.

“A very powerful civilization of musketeers.”

Another teacher sighed with emotion and immediately asked, “I don’t know this student Jiang Fan. How many kilometers is the diameter of his planet? It shouldn’t be too small.”

Hearing this.....

Others also turned their heads to look over!

For a level one planet.

Everyone was still used to using the diameter of the planet to determine talent!

Jiang Fan’s musketeers were so powerful.

It couldn’t be an ordinary 500 kilometers.

“Well, this.....”

Su Jicheng said with some uncertainty, “It should be more than 500 kilometers.”

How much exactly.

Su Jicheng couldn’t help but remember the time when he asked the staff of the examination institute.

The other side said that they can’t just disclose the private information of the candidates!

They didn’t tell him directly.

At that time, Su Jicheng also did not think too much.

He also thought that the responsibilities of the examination college in Dongyang Province were in place.

In addition!

Jiang Fan’s performance in the college entrance examination.

Su Jicheng also had some concerns.

But it was more than that.

Even the thirty flame giants felt troublesome.

The current strength of the Great Desolate Army was stronger.....

It was more than just a little bit!

Su Jicheng thought of another possibility.

That was.....

The exam college had issued a seal order.

They didn't let Jiang Fan's information be revealed!

"That should be unlikely."

Su Jicheng didn't look deeper.

Unless Jiang Fan's planet's diameter exceeded that incomprehensible limit!

That it made an examining college to do that!

Within the scene.

Lie Wudi walked out of the battle room with a bad look on his face.

Originally.....

He was thinking of stepping on Jiang Fan, the provincial top student, to gain some fame.

But he didn't expect that.

In the end, the person who was stepped on became himself.

He was eliminated in the first match!

"Lie Wudi, it's better to change your name."

A skinny boy mocked.

Lie Wudi glanced at him and snorted coldly, "You can do it."

"Then watch me."

This skinny boy smiled gently.

Followed by.....

Then he walked towards the No. 28 arena where Jiang Fan was!

It attracted everyone's attention once again.

Because this skinny boy was also a.....

A genius with a planet diameter of more than 500 km!

His name was Night Lord!

What he created was a very rare transcendental race –

Shadow clan!

“Why did this guy, the night lord, go up? Can’t you see that even Lie Wudi lost so badly?”

“You don’t understand, the Night Lords’ Shadow Race is very restrained to Jiang Fan’s race, and the race Jiang Fan built is indeed powerful in firepower, but it is not invincible.”

“Take a good look, and we’ll see later.”

Many people were talking.

But the teachers were not very surprised.

They saw at once that how powerful the musketeers were!

But they also saw the weakness of the musketeers at a glance!

That was.....

Weapons were strong.

But their own strength was mediocre!

They seemed to be no different from ordinary people!

“This one is a little dangerous.”

One teacher said.

And on the Blue Star.

Xu Tiande’s 1st legion was handed over to the 2nd legion led by Le Yi!

“Three minutes and seven seconds?”

Chapter 330: **Blitz mode! Blowout! Winning five matches in a row!**

Le Yi read the end time of the first scene out of his mouth.

There was a flash of light in his eyes.

“in this second one, let’s try to settle it within three minutes!”

Le Yi said coldly to the two lieutenants below.

“Yes.”

The two lieutenants were also eager to try!

They wanted to prove that.

Although they were ranked second.

But the Second Legion was no worse than the First Legion!

The planet passage opened again.

Le Yi brought 10,000 soldiers of the Great Desolate Army into the arena.

This time.

It was also on a flat surface.

After the translucent barrier disappeared.

The competition officially started.

“Hmm?”

Yi Le and the team of scholars were surprised to discover that.

On the opposite side!

Surprisingly, it was a group of.....

The quantity was small, about three thousand.

But they were all shrouded inside the shadows.

A race whose size and face could not be seen.

It was very fuzzy!

“A brand new transcendent species!”

Le Yi immediately raised his guard.

In the next moment!

This group of shadow people was.....

Their speed was extremely fast!

Such speed!

It was the fastest one among all the transcendent species that the Great Desolate Army had ever seen!

“Open fire!”

Le Yi didn’t care so much and gave the order at once.

Tu tu tu.....

The four-barrel speed guns poured out bullets frantically again.

However!

When these bullets were about to hit the opposing shadow race.

The other side suddenly disappeared into thin air!

The entire field!

It was empty!

Not to mention the three thousand shadow people.

There was not even a shadow!

“Not good!”

Le Yi was shocked.

He subconsciously turned his head to look.

Only to see.....

Behind the soldiers of the Great Desolate Army on the right.

Blurry figures appeared!

Who was it if not the Shadows?

Each of these Shadows was holding a sharp dagger in their hands.

They were placed on the neck of the Great Desolate Army warrior!

In the battle room.

Seeing this scene the corners of the night lord's mouth could not help but curl up in a cold smile!

This was.....

The innate ability of the Shadow people!

They were able to jump behind the enemy for a sneak attack!

They were natural born assassins!

If it was not known in advance.

It was easy to be sneaked up on!

And he could see that.

The physique of the Great Desolate Army's soldiers was very weak!

It was similar to ordinary people.

Once you get close.....

It was a dead end!

The hearts of the other supporters of Jiang Fan on the scene were lifted!

But only Jiang Fan himself was not much worried.

Because.....

All the time.

The top officials of the Great Desolate Army were considering the issue of the soldiers of the Great Desolate Army being approached.

The alloy suit research team led by Han Xin personally invested a lot of resources!

The soldiers of the Great Desolate Army on the field.

Each one of them was wearing an alloy battle suit!

Especially for weak spots like the neck and eyes.

It was equally defensive!

When the daggers in the hands of the shadow people.
After cutting viciously on the neck of the Great Desolate Army's soldiers.
They were surprised to discover that.....
It was completely useless!
The alloy battle suit was not even scratched!
This was also one of the weaknesses of the Shadow people!
Their ability of frontal attack was insufficient.
It couldn't be helped.
There was no perfect race in this world.
The Shadow people were fast and had high agility.
And there was the terrific talent of backstabbing.
If their frontal combat power could still be the same as the flame beasts.
Then.....
Other races didn't need to play.
Since the sneak attack didn't work.
The Great Desolate Army had already reacted.
Holding the submachine guns in their hands, they directly shot frantically!
The current equipment of ordinary soldiers of the Great Desolate Army.
It had also been changed!
Their original rifle was basically replaced by a submachine gun!
After a series of bullets passed.
These brittle assassins.....
One by one, they were all shot down!
There was no need to use any armor-piercing alloy bullets.
Just regular bullets were enough.
Tu tu tu.....
On the battlefield.
Again, there was the sound of intense gunfire!
The three thousand shadow people.
In less than one minute.
Hundreds of them died right away!
The rest were not fools either.

Get the hell out of there!

“Damn it!”

In the battle room, Night Lord slammed the table hard.

Followed by.....

You could only choose to admit defeat!

But it was because he smashed the table.

So he was a few seconds slower.

Dozens more of the Shadow people had died!

That was because the Shadow people race’s ability was only enough to restrain the Great Desolate Army!

They were thinking of making a surprise attack on Jiang Fan!

But they didn’t expect that.....

They stole a chicken but lost the rice!

The Shadow people had lost nearly a third of their own!

“Two minutes and 52 seconds!”

The lieutenant next to Le Yi.

He gently read the number.

That’s how long this second match took!

With the defeat of the Night Lord!

Jiang Fan won another game!

And became the fastest freshman to win two games in a row.

Inside the scene.

Everyone’s gaze.

Both students and teachers.

For the first time, they focused on..... Jiang Fan!

The next match was even more unpredictable!

Third match!

A very confident freshman came up to challenge the firepower of the Great Desolate Army!

Results for that were just like he wanted!

This one ended even faster.

Fourth match!

Because there were matches in other arenas.

There were 900 freshmen participating in the competition.

In addition, the weakness of the Great Desolate Army was very obvious.

There was no shortage of confident geniuses who wanted to take advantage of these weaknesses.

Another person came up to challenge him!

But the loss was also very bad!

This one lasted for more than three minutes!

The face of Han Qin Hu, who was leading the team, was not very good.

Fifth match!

The last and most important one!

Not many people wanted Jiang Fan to be the first to advance!

After some discussion.

A freshman who created an underground race.....

He walked up!

He wanted to rely on underground raids to destroy the Great Desolate Army!

Its just that.....

This time!

He lost even worse.

The Great Desolate Army used another tragic weapon!!!
