

## **One Planet 421**

### **Chapter 421 : Bloodshed of 100,000 heavenly wolves! Advance to the top four!**

Compared to the ordinary continuous speed gun.

This kind of continuous velocity machine gun mounted on the fighter jet was.....

What brings out its greatest power!

Ignore the orientation, ignore terrain.

Using the high mobility of the warplane, it swept down from the air.

Since the Wolf Pack had nothing that could threaten the jet.

The jet could soar at will!

Swooping down over the heads of the 100,000 wolf packs.

Frantically, an armor-piercing bullet..... poured out!

As the wolf pack was from all sides.

Surrounding Jiang Fan's side.

So the twenty rainstorm fighters also divided them into four directions.

Five units in each direction.

Speeding through the sky!

Sudden burst.....

Throughout the game.

All that remained was..... The roar of the fighter planes and the bursting sound of the machine guns!

When the five warplanes cut through a whole wolf pack.

Over fifty thousand rounds of bullets were poured out.

All four directions combined.

That's two hundred thousand rounds!

The heavenly wolf pack was on the ground.

Didn't know how many of them were hit with dozens, or even ..... Hundreds of armor-piercing bullets.

Killed on the spot!

The dead couldn't die anymore.

Completely unable to do the slightest bit of resistance.

They also wanted to jump up and shoot down these terrible things flying at high speed.

But they couldn't reach them at all!

And because of the high obedience of the heavenly Wolf Pack.  
As long as the heavenly Wolf King did not give an order.  
They simply wouldn't scatter in all directions and flee.  
This was originally the heavenly Wolf Pack's ..... the most superior thing.  
At this moment .....  
But it has become their fate!  
A densely packed heavenly Wolf Pack became a living target.  
Jets didn't need to be aligned at all.  
Just dash across.  
The machine guns were opened wildly .  
Hundreds of wolves were hit.  
One by one, they fell down!  
Just after less than a minute.

There were already more than 5,000 Wolf corpses lying on the ground.  
The wounded were countless!  
It far exceeded the total casualties of the previous two matches of the Sirius Academy!  
However .....  
The storm fighters were not disposable.  
The strafing of the machine guns continued.  
The slaughter was not yet complete!  
Seeing the densely packed dead heavenly wolves on the ground.  
The countless people watching the battle were stunned.  
They were able to guess that this new flying thing that Jiang Fan had come out with ..... would be very unusual.  
But it was completely unexpected.  
It was so powerful?!  
How was it still a sparring match?  
It was completely ..... A one-sided massacre now!  
Under such terrifying firepower.  
Witnessing the tragic death of companions around them.  
Even if the remaining wolves were well disciplined.

They couldn't help but panic.

“Disperse! Quickly let the wolf pack disperse!”

Only then did the Sirius Academy's team members reacted and hurriedly gave the order.

They had just densely formed a pack.

It was completely a living target for others.

Ow.....

The wolf howl of the heavenly Wolf King sounded again.

But this time, the sound carried a hint of anger and trembling!

The remaining heavenly Wolves immediately scattered and separated in all directions in panic!

“Still not giving up?”

Seeing that, the heavenly Wolf pack just scattered and did not retreat.

Xue Rengui's gaze sank as he barked out an order, “Continue the attack and shoot the remaining Wolf pack as fast as you can!”

Since they didn't admit defeat.

Then we will beat them to surrender!

Twenty storm fighters joined hands to activate.

They continued to chase after the fleeing heavenly Wolves.

The speed of the wolves was very fast.

But how could it be faster than the fighter planes and bullets?

Once it caught up.

It was a dead end!

Besides the machine guns.

The artillery shells fired by the warplanes shouldn't be underestimated.

Although there was no way to directly kill the wolves on the spot like armor-piercing bullets.

But it could injure wolves!

Blitz

In the entire competition field.

It was the sound of machine guns continuously pouring out.

Although the efficiency of shooting was reduced a bit.

But there was enough ammunition.

In less than two minutes' time.

There were another 5,000 Wolf corpses ..... fell horizontally on the ground.

Up to this point!

This match had just started recently.

The heavenly Wolf pack had lost more than ten thousand of them in battle!

Even if the heavenly Wolf pack was well disciplined.

But in front of this rapid casualty rate.

It still quickly collapsed.

One by one, they didn't dare to have any more defensive resistance.

They exerted all their strength.

Fleeing backward at full speed!

Fleeing all over the mountain!

The twenty jets in the sky were following behind, chasing after them.

-The exchange race.

In an instant .....

It turned into a wolf pack version of the Battle Royale!

It was dazzling to watch!

**"We admit defeat."**

Finally .....

After another heavenly Wolf was shot into a hornet's nest.

The captain of the Sirius Academy's representative team spoke helplessly.

Couldn't fight anymore.

It was completely impossible to fight!

More than ten thousand Sky Wolves had died in this battle.

And they were all slaughtered without resistance!

**"The Sirius Academy team concedes defeat, and the Bei Dou University team wins this match!"**

The referee's voice rang out in the sparring room and the viewing room at the same time!

In the sparring room, Lin Youhe and the others were not cheering at this time.

Instead, .....

There was some disbelief in their eyes!

This victory came too suddenly.

You could say!

They did nothing.

Only relying on the aircraft Jiang Fan had built alone.

It would be the heavenly wolf pack that numbered over 100,000 heads.

Like the autumn wind sweeping away the falling leaves ..... quickly took out!

Jiang Fan stood up first, embraced each person.

Walked out of the sparring room.

According to the usual practice.

It was mandatory to have a friendly handshake with your opponent.

“Jiang Fan, that thing you built ..... What is it?” The Sirius Academy captain asked as he shook hands with Jiang Fan.

The others also looked over.

There was a hint of curiosity in their eyes!

For this kind of thing that could fly at the same time.

A terrifying thing with very terrifying firepower.

There was no one who wasn't curious.

“Airplane pilot.”

Jiang Fan had long thought of something to say, and then explained, “This is a brand new race created after the second level of my planet, capable of innately awakening an airplane!”

“Airplane pilot? An airplane?”

The Sirius Academy captain nodded slightly and said, “Next time ..... For us to battle again!”

“If there's a chance.”

Jiang Fan responded.

After shaking hands, Jiang Fan walked outside with his teammates.

A large group of people, including Su Jicheng and the school leaders, were already waiting there.

The young vice principal was almost in tears.

Won this one as well.

It was in the top four!

This was in the top four!

In the entire history of Bei Dou University.

Few had passed the first round.

Let alone the top four.

Not so few.

But it was also a few times!

This game, between Bei Dou University and the Sirius Academy.

It was still the fastest to finish.

The other three matches were still in progress.

This time .....

Su Jicheng and the others did not have the heart of being able to pass one game before.

Instead, they were already looking ahead to winning the next game.

While studying the tactics.

While watching the other games.

Especially the game that might become the next opponent of Bei Dou University.

People around.

One by one they also paid attention to Bei Dou University for the first time.

Especially Jiang Fan!

Many people cast curious glances.

“Is he the only Great Mythologic level freshman of this year’s Bei Dou University, the varsity team captain Jiang Fan?”

“Did you see the match just now? This Jiang Fan has created an extremely terrifying new race ..... Airplane Pilot!”

“Airplane Pilot? What is that thing?”

“Airplane pilot could awaken a plane, the plane was ..... The ability to fly in the sky, but also had a terrifying firepower. I can’t tell you the specifics. You can see it by watching the video of the game!”

“Extremely terrifying indeed, tsk, just now the 100,000 heavenly wolf pack of the Sirius Academy, instantly shot by these aircraft, killed tens of thousands of heads, no fighting back ah.”

“So terrifying? Then I’ll have to inspect it later. It sounds interesting, this new species.”

Many people were discussing.

While Jiang Fan and Lin Youhe and the others were standing in the viewing room.

Watching a match projected in front of them.

The two sides of the match were .....

Tianzhao University, one of the six academies of Starlight, and Zhongda Academy, an old school!

The winner of these two academies was the next opponent of Bei Dou University.

The two sides were equally strong.

The fight was hard to separate.

The battle was very intense.

And dragged on for half an hour.

They were tentatively attacking each other.

No real fight.

## **Chapter 422**

### **422: Bloodshed of 100,000 heavenly wolves! Advance to the top four!**

Jiang Fan and the others were a little bored.

Finally .....

Tianzhao Academy's people couldn't hold back and attacked Zhongda Academy!

"Tianzhao Academy is impulsive and is going to step into Zhongda Academy's trap and lose." A bystander said.

Lin Youhe also saw that Zhongda College had set a trap.

They were waiting for Tianzhao Academy to come in.

The result was no surprise.

Tianzhao Academy fell into the trap.

The race created by Zhongda College ..... Frantically surrounded and killed!

Not long after that.

Tianzhao Academy had no choice but to admit defeat!

"I wonder who laid out Zhongda Academy's tactics. That was something."

A teacher exclaimed in admiration.

"It should be their captain and chief freshman, nicknamed Fatty Luo, quite famous."

The vice-principal explained to everyone and said, "I also had contacts, but people didn't like our school."

"This person is superb at tactics and clinical scheduling!"

After saying that.

The vice-principal looked at the five Jiang Fans and warned, "Wait, pay special attention to the traps on the other side!"

"This fat man likes to set traps for other teams!"

And on the other side.

In the battle room of Zhongda College.

The five who won the game just took a breath.

And heard shocking news.

“What? Sirius Academy ..... lost!?”

The five people, including the captain Fatty Luo, all revealed an incredulous expression.

“Not only did Sirius Academy lose, they weren’t even able to survive for ten minutes.”  
The lead coach said.

“Doesn’t Bei Dou University only have one mythical level and one legendary level, and the other three are still epic level? Even our school team’s second team is not strong. Is there such a strong one?”

A team member questioned.

“How did Sirius Academy lose?”

Fatty Luo asked the key point.

“Sirius Academy lost to Jiang Fan, the only Grand Mythology-level freshman at Bei Dou University, to be exact, to the brand new race Jiang Fan created, the Airplane Pilot.”

The lead coach put out a projection and said, “This is the video of the match, take a look for yourselves!”

“Airplane Pilot? A brand new race is that strong, the power of one clan ..... Just defeated a hundred thousand heavenly Wolves’ pack?”

The five players were all a little curious.

Each one pooled their spirits to look.

When they saw twenty storm fighters.

With an astonishing speed, they crossed the heavenly wolf pack.

After firing tens of thousands of armor-piercing bullets at the same time.

All five were silent!

With their eyesight.

Naturally saw .....

This kind of scary thing was called ..... “Airplane”!

At the same time, they also understand.

Why would Sirius Academy be defeated under this one thing?

“This ..... The Sirius group died so miserably.”

A team member lamented.

“This is much more troublesome than the Sirius Wolf Pack, although the heavenly Wolf Pack is large. It is at least on the ground. This thing flying in the sky is still so fast. How are we going to deal with it? Our long-range output is not enough, right?”

Another team member asked the key.

The others also frowned.

“It’s indeed tricky.”

Fatty Luo rubbed a creased brow and said, “We can only go on with that new race of mine that I just built recently.”

Hearing that.

Everyone else’s eyes lit up.

They were all aware ..... Fatty Luo after the second level of the planet.

Built a very powerful species that could perform long-range attacks!

After a half hour break.

The final four began!

After three rounds of elimination of thirty-two superlative academies.

Only four remained in the tournament field!

But no one expected it.

Of these, four spots.

There was a shabby lineup, previously thought to be at the bottom of the Bei Dou University!

In previous years, the top four were all in the top ten and top five in the super-first-class

One was stronger than the other.

Beidou University came in.

It made people feel a little strange.

At the same time, it also received unprecedented attention!

“Win this game, it’s the final! Record the school’s history, come on!”

Before the game, the vice principal gave the crowd a cheer!

In previous exchange competitions.

Beidou University’s most brilliant record .....

But it barely made it to the final.

And only that one time!

“There is hope that we can win this match, right?”

In the void of Bei Dou University.

A group of elders had some slight nervousness and anticipation in their hearts!

The last time they reached the final.

That was ten thousand years ago!

It was very, very far from now.

“There is a significant chance.”

An old man nodded and said, “It depends on whether the other side has a way to target the brand new race Jiang Fan has created ..... aircraft pilot.”

It wasn’t just the elders’ group.

The other people watching the battle were also very clear.

This battle was not so much a duel between Zhongda College and Bei Dou University.

It was better described as a test to deal with Jiang Fan’s building of planes!

This required a prerequisite.

There must be long-range output.

Otherwise .....

It would be the same as the heavenly wolf pack.

So many numbers were helpless against the jets flying around in the sky, being completely suppressed!

For Jiang Fan.

In fact.

The front of the game could get on the storm fighters.

But it was impossible to let the four Lin Youhe on the sidelines just watching it.

The game soon began.

This one’s game field was a weed field.

No complicated terrain.

Still the same as before.

The four species of demonized people, water cannon turtles, goblin chiefs and maze puppets, looked for the Great Desolate Army to rendezvous!

However.

Unlike the previous one.

The race of the Zhongda Academy on the opposite side has shrunk!

Shrunk tightly.

Away from them, they avoided five kilometers away.

“Are they ..... trying to fight a defensive war?”

Wan Yunsheng raised his eyebrows.

“Should we take the initiative to attack over?”

Lin Youhe looked at Jiang Fan and asked.

“There’s no rush. Let’s talk about it later.”

Jiang Fan didn’t interfere.

This kind of situation would be fine to leave to Xue Rengui and Su Dingfang and other generals of the Great Desolate Army.

Xue Rengui and Su Dingfang and the others deliberated for a while.

They made a preliminary approach.

First dispatched a few drones overhead.

Fly to the other side’s position to observe the situation!

Although the drones were small.

But they were still spotted by the sharp-eyed transcendent species.

“What’s that?”

One by one, the people of Zhongda Academy were shocked.

Thinking it was a plane from Jiang Fan’s side running over.

But on a closer look.

They realize that .....

It was a small plane that had shrunk in size several times.

“Is this the plane where Jiang Fan’s pilot’s awakening wasn’t successful?” A team member guessed.

“Pay attention and monitor this kind of small plane, don’t be attacked.”

Fatty Luo’s face was gloomy as he admonished.

Through the observation of the drone.

The situation of the opposite position was also in the form of a picture.

Transmitted to Xue Rengui’s hands!

“The opposite side shrinks so excessively, it completely does not want to come out!”

Su Dingfang could not help but shake his head.

“The opposite built race is mainly plant-based, really better at defensive warfare, extremely powerful life force. Our artillery shells and armor-piercing bullets are not fatal, I’m afraid.”

Xue Rengui said.

“Is there far superior firepower?”

Su Dingfang asked.

“There is a star-devouring vine that can grow to nearly a hundred meters long.”

“That is a range of up to a few hundred meters, which is not enough to be feared.”

After thinking about it, Su Dingfang added, “I’m afraid that the other side has hidden a secret weapon.”

“Let the storm fighter group be ready to bomb and strafe directly, since the other side is cowering in their positions, then this time just go over one by one. Just be careful.”

Xue Rengui thought thoughtfully and carefully.

A cautious tactic was immediately laid out.

“This is an excellent method.”

Su Dingfang also nodded his head.

-Minutes later.

From the planet passage entrance.

A storm fighter flew in again!

“Look! It’s coming!”

“Here it comes! Here it comes! This is ..... Is this the brand new race Jiang Fan built?”

“Not accurate enough, the brand new race is the pilot. These are the pilots’ awakened planes!”

One by one, the people watching the battle were boiling up.

All were curiously watching this very peculiar brand new species!

“Our ground teams should also move to cooperate with the airplane swarm.” Jiang Fan ordered, “All teams move forward in the original formation!”

“Good.”

Lin Youhe and the others all nodded their heads.

There was a hint of confidence in their eyes!

They didn’t want to do anything either.

Jiang Fan didn’t do this for insurance.

In fact .....

Xiang Zhifei’s demonized man and Wan Yunsheng’s water cannon turtle output was very good!

Against plant-based transcendent races.

Perhaps it would come in handy!

Rumble .....

Twenty rainstorm war machines.

One by one flew over the head of the Great Wilderness Army.

Roared towards the enemy positions not far away.

Continue to start a fresh round of bloodbath!!!

### **Chapter 423: The Power of one person! Dueling Five Myths!**

On Jiang Fan's side, the maze puppet walked in the front and the Goblin Chief followed closely behind.

Even though the Water Cannon Turtle was a transcendent species, it was the slowest.

As the Great Desolate Army had all-terrain off-road vehicles, there was also a tank.

Tanks and buggies run at full speed.

It was not slower than the Goblin Chief.

The demonized people stayed at the end.

These guys were gigantic, but their defense was a little too low.

The Great Desolate Army was at least protected by tanks and battle suits.

The entire group of tens of thousands of numbers ..... moved forward with no hurry.

Above the sky, twenty rainstorm jets swept by.

Because of the other side to guard against surprise attacks.

So the altitude was pulled to a thousand meters above!

But at this distance, the machine guns could not function.

"The first jet rushed down to test. The other jets will cover from the rear." Xue Rengui ordered.

Hoo .....

The first warplane swooped down.

It rushed towards the opposite position of the Transcendental Plants!

The outermost one was .....

A mega tree that was over thirty meters tall.

Not only high.

The tree was also very wide.

The branches spread out, covering the sky .

Covered the other plant races in it!

Against plant races, Armor-piercing bullets would not be of much use.

Instead, artillery shells were better.

This rainstorm fighter jet swept over these mega trees.

Dropping a cannonball!

Rumble .....

The shells landed on the ground.

Explosions rang out one after another.

The branches and leaves of the super large trees blocked a considerable portion of them.

Exploded directly on the tree.

-After the series of sounds.

Through the drone footage from the air, they could see .....

The branches and trunks of these mega trees.

The tiny ones were blown apart.

The larger ones were just charred and blackened.

Not much happened!

“The shells are ineffective. They can’t blow through these large transcendental trees.”

Seeing this scene, Su Dingfang said somewhat helplessly.

“This kind of transcendental tree itself is not much combat power, they specially used it for defense. If the defense piece is no longer strong, what use is it?”

Xue Rengui was calm in his expression.

In the sparring chamber, Jiang Fan and the others had also expected this.

This kind of mega tree also belonged to super civilized species.

The movement was very slow.

Basically, there was little attack power.

It could be recognized as a super civilization.

Relying on its too powerful defense!

They wanted to break through.

I’m afraid we have to let the Great Desolate Army use ..... The ultimate killing weapon!

But this was only an exchange match.

Totally unnecessary.

“Yeah, stop.”

In the sparring room of Zhongda Academy.

The five players just looked uplifted!

In their opinion, as long as they defended against the most powerful plane of Bei Dou University's side.

Then there would still be a chance!

Hoo .....

The second fighter plane flew over again.

Continuing to throw shells.

There was nothing that could be done about it.

Although the previous shell attack was not effective.

Keep throwing shells.

There was no way.

Maybe wait until a certain number, it will have an effect.

Anyway, the Great Desolate Army was not short of ammunition.

And at this time.

Wan Yunsheng suddenly spoke out, "Be careful!"

The words fell.

The others were seeing .....

Underneath the super large trees, a turquoise unidentified object flew out.

Straight towards the warplane in the sky!

The speed was very fast.

They encountered a sudden situation.

The fighter pilot slightly panicked, but immediately reacted.

Immediately pull the fighter plane higher.

The turquoise unidentified object below thundered loudly, but rained a little!

At first, the speed was still fast.

But further up, affected by gravity and air resistance.

The speed was getting slower and slower!

Finally .....

Stopped at a height of over 300 meters.

Then it fell down.

Then the drone detection.

Xue Rengui and Su Dingfang also clearly saw the appearance of this turquoise object.

Surprisingly, it was a huge leaf half a meter long!

The shape was very similar to that of a willow leaf.

“Willow leaf grass.”

Wan Yunsheng recognized this huge leaf and said, “This is also a super plant race, although it is a grass, it is very strong!”

“Able to fire the leaves as if they were bows and arrows!”

“This should be a brand new race created by Fatty Luo on the other side.” Lin Youhe also speculated.

“Luckily the plane flew high enough. There was no danger.”

Jane Ziqiang said with a palpitating heart.

“Even if just now Jiang Fan’s plane did not pull up high, this willow leaf grass can not hit.”

But Xiang Zhifei laughed and shook his head.

Jane Ziqiang faintly froze and immediately reacted.

Speed!

Willow-leaf grass and the plane’s speed was quite different.

It was impossible to hit.

“It’s a pity.”

There was a burst of regret at Zhongda Academy’s side.

“Let’s fight defensively. Look for opportunities to eliminate the opponent.”

Fatty Luo was also helpless and could only give such an order.

“Let’s go straight to those transcendental incendiary bombs.”

Great Desolate Army’s side.

Su Dingfang proposed.

Transcendental incendiary bombs.

It was not quite the same as the ordinary incendiary bombs.

They added a transcendent substance that the Great Desolate Army had plundered from the outer planets.

Adding it in.

Let the incendiary bomb had a very terrifying power!

Once ignited.

It would quickly burn.

It was difficult for water and sand to extinguish it.

“Use the Transcendental Incendiary Bomb.”

Xue Rengui decided at once!

They already hung the Transcendental Incendiary Bomb on top of the storm fighter.

But it was in another specially made hatch.

At the same time, above the ground.

The Great Desolate Army and other racial alliances had approached the opposite position.

But didn't dare to get too close.

There weren't just super large transcendental trees at the opposite side.

There were others like willow grass.

A very aggressive plant!

“Water Cannon Turtle and Demonized Man prepare to attack, and Goblin Chief on standby.” Jiang Fan commanded.

In this battle, there was nothing good to do.

The Great Desolate Army prepared to attack from the top, middle, and bottom.

Rumble .....

Twenty storm fighters flew over again.

This time, it was the transcendental incendiary bombs that were dropped.

One by one, the incendiary bombs were falling on the super large trees.

Immediately it was burning up! Emitted a sky-rocketing fire and dense smoke!

“Fire attack?”

Fatty Luo and the others were stunned.

These were transcendent trees.

Not at all afraid of ordinary flames.

But then they found out .....

It ignited the branches and trunks of the super large trees.

It really burned up.

“No, the opposite side is not an ordinary flame.”

Fatty Luo's face changed, and he immediately said, “Hurry up and put out the fire!”

The other transcendent plant races hurried to help.

But the rainstorm fighter was still overhead!

Seeing the plants below pop up.

Immediately, Armor-piercing bullets and cannonballs fell down.

The defenses of these transcendent plants were not that strong!

By the shells hit.

It was still very dangerous.

Especially the musketeers and demonized people outside.

Also took this opportunity.

They started to output like crazy!

Boom! Boom! Boom! .....

The water cannon turtle that finished storing power.

On the playing field.

For the first time, it sent out a complete water pillar!

In the water pillar, with the force of a spiral, the power was extremely powerful!

The water pillar with fully stored power was.....

More terrifying than demonized people output!

But it was the demonized people who were a greater threat to the super large trees.

There was a trace of penetration in the demonized people's attack.

Able to break their own energy into the opponent's body.

This was also the weakness of the demonized people, so obvious.

But it was still a reason for the transcendent species.

Rumble .....

Jiang Fan's side.

All kinds of attacks came together!

Cannonballs, incendiary bombs, water pillars, and demonized attacks .....

Shaking the mega trees in the way!

Especially demonized attacks and incendiary bombs.

Even the mega trees couldn't stop it!

During the period, Zhongda College also sent several counterattacks.

But those were useless.

Fatty Luo just built willow grass range, and its attack power was good.

But the number was too small.

It was also easy to be targeted by the warplanes in the sky.

Three minutes passed.

Finally .....

A super large tree after being subjected to a whole unknown number of attacks.

-With a loud sound.

It fell to the ground with a bang!

See this mega tree to the ground.

The five members of the Zhongda Academy .....

all sighed helplessly!

Didn't they have any output?

There must be something.

They weren't that weak!

But the long-range, high-powered output was rather lacking.

Only the willow grass that had been bred for a short time.

And these output-type transcendent plants showed up.

It was easy to be found and targeted by the storm fighters in the sky!

They could only hide under the shelter of mega trees.

Passively beaten!

"Admit defeat."

Fatty Luo scratched his head. He has always been too wise to do anything good.

He could only choose to surrender.

#### **Chapter 424: The Power of one person! Dueling Five Myths!**

"The Zhongda College team concedes defeat. The Bei Dou University team wins this match!"

As the referee's voice rang out, the Bei Dou University team .....

With a dark horse stance that no one expected, they made it to the final!

They created the best result in history!

This time, the crowd did not cheer loudly.

But the smiles in their eyes were even stronger!

They hugged each other and walked out of the sparring room.

Found that the people from Zhongda Academy had already come out.

"You must be Jiang Fan."

A chubby boy looked at Jiang Fan and asked.

“You’re that Fatty Luo?”

Jiang Fan also guessed who this guy was.

“Go for it. Go for Xinghe Academy!”

Fatty Luo waved his hand at Jiang Fan.

“Why Xinghe Academy? You have a grudge against Xinghe Academy?” Lin Youhe asked curiously.

“In the last final, we lost to Xinghe Academy.” Beside Fatty Luo, a team member explained.

“Xinghe Academy has dominated the exchange tournament for two years in a row, and this year’s lineup is even more terrifying, ready to complete their magnificent feat of winning three consecutive titles!”

Fatty Luo said somewhat helplessly, “We can’t stop it. Let’s see if your rainstorm plane can have some hope.”

After the five of the Jian Fan’s team members left.

A team member next to him asked, “Is there really hope for Bei Dou University?”

“It’s hard.”

Fatty Luo shook his head and said, “Xinghe Academy has no weaknesses. It has both offensive and defensive, both melee and long-range. They have enough long-range output to deal with planes!”

“Good job, lads.”

The most happy was the vice principal who led the team.

The smile on his face was a big one.

Although he had no actual power.

He was at the bottom of the vice principal’s ranking.

But with the team leading to the final.

It was enough to leave a name in school history.

If only they could go further .....

Didn’t even think about that.

“The opponents in the finals below are Yaoguang University or Xinghe University, both of which are very powerful.”

Su Jicheng and the rest of the coaching staff were not as relaxed as they were after the last game.

Zhongda Academy was still weaker.

The most important thing was that ..... There was no way to solve Jiang Fan's airplane pilots!

“Not so for these two academies. Both have terrifying long-range output, and both sides of the lineup are balanced, with basically no flaws.”

Su Jicheng said while looking at the image in the projection.

Inside the projection.

It was the two academies with the highest call to win the exchange tournament this time – Xinghe Academy and Yaoguang University!

Both academies had .....

The five mythical rank lineup!

Eight people had made it to the Heavenly Ranking!

The strengths were also relatively close.

Jiang Fan's side of the game was over.

This side was still dawdling, watching out for each other!

“The two academies are all five mythical grades. Even if they look at the entire Federation, they are ranked first.”

Lin Youhe shook his head and lamented, “It's also the face of our superb academy.”

“Of course .....”

Lin Youhe smiled slightly and said, “They can also consider us in ranking, too!”

“You guys?”

A freshman from another college immediately showed a hint of disdain and said, “If it weren't for luck, you guys could reach the finals? If you ran into these two teams in the top four or eight, you would have gone home long ago.”

“What did you say?” Xiang Zhifei's temper was explosive.

Just wanted to have a moral theory with someone.

But Jiang Fan pulled him back.

“Watch properly, don't pay attention to these people.”

Jiang Fan said.

“Humph.”

Xiang Zhifei snorted coldly and stopped paying attention.

“This time ..... There is indeed some luck involved.”

In the void of Bei Dou University .....

The gray-clothed old man smiled and spoke, "If we had run into Xinghe Academy or Yaoguang University earlier, I guess we would have been eliminated long ago!"

Because it's already in the final.

The dozen elders of the elder group were also in a very happy mood.

Talking was also more casual.

"Luck is part of it, but what's more important is strength."

Another old man laughed: "Zhongda Academy, Sirius Academy, these are not weak."

"Don't think too much, getting to the finals is already enough."

The old man in black also said.

"This year Xinghe and Yaoguang, these two are too exaggerated ..... both are five myths, especially Xinghe, almost able to compare with those top sects."

The old man in gray shook his head.

Some helplessly said.

"Let's see who makes it to the finals. If it's Yaoguang University, maybe there's still some chance."

-An old man said.

In front of the crowd.

It was a huge projection.

The image in the projection was none other than .....

Xinghe Academy and Yaoguang University, two of the strongest colleges this year, were facing off at the top!

The fight was very careful.

It was also very scorching!

"Jiang Fan, who do you think will win?"

Lin Youhe asked.

"I guess it's Xinghe, don't you?"

Jiang Fan asked rhetorically.

"Although I don't want to admit it, Xinghe Academy seems to be ..... The strength is a bit stronger. Don't look at the fact that Yaoguang University can still stalemate now, but it is bound to not be able to hold up."

Lin Youhe said with a flurry of analysis.

It's not just Jiang Fan and Lin Youhe.

Basically .....

Most people were clear.

Xinghe Academy was stronger than the others!

It's only a matter of time before we win this game.

Let's see if Yaoguang University had a secret weapon!

For example .....

Like the airplane pilot that Jiang Fan suddenly took out!

But!

Not everyone was Jiang Fan.

This kind of anxious game, any secret cards had long been taken out.

It was unlikely to hide until the end.

The time passed little by little.

As expected.

After resisting for a whole hour.

The host Yaoguang University had weaknesses in succession.

A flaw was revealed.

Seized the opportunity by the more powerful Xinghe Academy.

Directly broke open the defense line!

It weighed the scale of victory down.

Not long after that.

Yaoguang University reluctantly conceded defeat.

They considered this battle to be the pinnacle of the "early championship matchup".

The more powerful Xinghe Academy ..... The last laugh!

"Our next opponent is ..... Xinghe Academy!"

Lin Youhe and the others gnashed their teeth.

But there was nothing they could do!

On the competition field.

Nothing fancy.

Strength to speak!

The more powerful team goes farther!

In this way, the two finalist teams were all chosen –

No one was optimistic about Bei Dou University and the biggest favorite to win the championship, the Xinghe Academy!

At once.

This led to many people's discussion!

So many sessions of the exchange tournament.

It was the first time they saw such a scene.

"This should be the history of ..... The biggest black horse, right?" Someone asked a question.

"It should be. Look at the lineup of Bei Dou University, a mythical level, a legendary level, three epic level? Not even the second team of other varsity teams can compare, but they can break into the final? I feel like I'm fucking dreaming!"

"It's mainly because that big mythical level of Bei Dou University – Jiang Fan is too powerful, creating a terrifying new race of airplane pilots."

"You can't say that. The opponents in front of Bei Dou University, Sirius Academy, Zhongda Academy and so on don't have long-range output and can't restrain this plane's walker, but it's different for Xinghe Academy!"

"The final will not be one-sided, right? What the hell is there to see?"

"They estimated it to be completely abused. If Jiang Fan's teammates are stronger, they estimate that there is still something to fight, even one more mythical level is good."

One by one, they were discussing.

Many people were feeling sorry for Bei Dou University.

Now Jiang Fan because of the extra airplane pilot.

Many people considered it to be the ..... The strongest freshman!

Even if it's not the strongest.

It was still one of them!

Almost on his own.

With such a shabby lineup to reach the final.

It was something unprecedented.

"Is it the strongest freshman?"

The Xinghe Academy's representative team, hearing the crowd's chatter.

All of them had a hint of displeasure flashing in their eyes.

“I’ll deal with that Jiang Fan later.”

-A white-clothed young boy stood out and said.

“No need to be influenced by these people. Jiang Fan’s plane is still tricky. We need to work out a strategy.”

The captain of the Xinghe Academy said.

And on this side of Bei Dou University.

Su Jicheng and the rest of the coaching team were all tense and quickly laying out tactics.

There was no way.

Previously, they only collected the information of the Xinghe Academy.

But they didn’t study it at all!

Who could have imagined?

Bei Dou University could reach the final.

To meet with Xinghe Academy?

There was an hour break for the finals!

After an hour of waiting.

This much-anticipated final of the exchange tournament, which was .....  
officially started!!!

## **Chapter 425 : Hell Mode! Four down! The only seedling.....Great Desolate Army**

The final of this year's exchange tournament had.....attracted countless eyes!

Especially this year also appeared the Xinghe Academy and the Yaoguang University, both of which were five mythical super top teams.

Considered by many people.

Able to fight with those top sects and top dynasties!

All the time.

Although the thirty-six super top schools were also notorious.

But at the highest level.

It was difficult to compete with sects or dynasties!

And this year's Xinghe academy and Yaoguang university.....

Let them see this hope!

So that was the attention of this session.

A few points more than before.

One by one, school leaders, teachers, students.

Including those who were already eliminated from the thirty school teams.

All gathered in the viewing room.

Watching this final!

Even.....

Many powerful existences were also paying attention.

“It's a pity for Yaoguang. If they didn't meet Xinghe in advance, the final would be the peak battle between the two, unlike now... Xinghe is fighting with Bei Dou? What else is there to see?”

A teacher of other schools watching the battle shook his head. A trace of regret appeared on his face.

It wasn't just this teacher.

Many teachers, leaders, and students all thought the same way.

The original expectation in their hearts was .....

Xinghe Academy and Yaoguang University in the final ..... The summit showdown!

The fierceness of Mars hitting Earth!

Didn't want to see a one-sided match.

“We are ..... shame.”

In the host team of Yaoguang University.

-The team member said helplessly.

“If we had played Bei Dou University in the semifinals, we should have been able to solve it, even though Jiang Fan's plane was very powerful.”

Another team member also agreed.

“A loss is a loss, luck is also part of strength, no need to mention it”

The captain of Yaoguang University spoke up, “Let's see the final, there won't be any weaklings who can make it to the final!”

“The strength of these two sides is still too much different.”

A team member shook his head and said, “This side of the Xinghe Academy is a five-myth formation. All five are at the Great Myth level!”

This is the main reason many people think that the Xinghe Academy could rival those top sects!

All five players were at the Great Mythic level!

Although Yaoguang University also had a five-myth formation!

But only three were at the Great Mythic level.

The other two were at the Minor Mythic level.

Big mythical level and small mythical level .....

The difference was still very obvious.

“And this side of Bei Dou University .....”

This team member couldn't bear witnessing it, covering his face with his hands and said, “Only Jiang Fan is a Great Mythic level, a legendary level, and the other three are actually still Epic levels!?”

“How dare you believe it!”

“All relying on Jiang Fan alone is holding up. His plane is indeed somewhat powerful.”

“But unfortunately ..... Ran into the Xinghe Academy!”

“Fatty, does Bei Dou University really have no chance at all?”

Zhongda Academy's side.

A team member asked Fatty Luo.

“The match hadn't even started yet. It was impossible to say that there's no probability at all about anything.”

Fatty Luo shrugged his shoulders and said, “But ..... Xinghe Academy's lineup is too perfect!”

“There's output, there's defense, there's melee, there's long-range.”

“You saw the semi-final just now, right? In fact, they also configured Yaoguang University in the same way, but the depth and thickness of the lineup is not as good as Xinghe Academy.”

“Five big myths are worthy of five big myths, they can rank this lineup in history. This year they should take the championship!”

And on this side of Bei Dou University.

Su Jicheng and other coaching staff were all frowning and thinking hard.

Including the vice president and school leaders.

One by one, they all came around.

For the next final, to come up with a plan.

But think about it.

There was no good strategy.

“The Xinghe Academy lineup was very well rounded, basically there was no weakness.” Su Jicheng shook his head somewhat helplessly and said to Jiang Fan's

team, "In that case, in the final, continue to follow the previous strategy and focus on defense!"

"Wait for the Xinghe Academy's people to come and attack!"

After a few explanations.

Jiang Fan, Lin Youhe and the other five walked into the battle room.

"Go for it!"

Before the match, all five of them had their hands folded together.

Cheering each other on.

Although Xinghe Academy was unprecedentedly powerful.

None of the people outside were optimistic.

But Lin Youhe and others would not easily admit defeat.

There was a look of dissatisfaction in all of his eyes!

We have gone all the way through, and eliminated four powerful teams one after another!

Thus .....

Made it to the final!

In this.

There was not a trace of luck!

No fight with Xinghe Academy at all?

No one would be convinced.

"According to the previous strategy, the terrain of the competition venue this time should not be any special either, you guys come in and lean directly towards my side."  
Jiang Fan also briefly arranged!

To the opponent of this final ..... Xinghe Academy.

Jiang Fan did not dare to be careless.

The strength of the opponent was indeed very strong.

The lineup was very balanced.

Unlike the previous ..... all had obvious weaknesses.

And in the Xinghe Academy's sparring room.

Five players were watching the video projection of the previous games of Bei Dou University.

Focusing on Jiang Fan's airplane pilot.

As for Xiang Zhifei's Demonized Man or Jane Ziqiang's Maze puppet, etc.

They didn't even bother to care.

“The only threat we have is the brand new race Jiang Fan created ..... pilots.”

The captain of the Xinghe Academy was also the tactics maker.

A tall young man pointed at the projection and said, “The output is very high. The 100,000 heavenly wolf pack of Sirius Academy and Zhongda Academy in front of them were both defeated by these planes.”

“The speed is also very fast.”

A tall and beautiful girl nodded slightly and said, “The flight altitude is also very high, if it is the Yaoguang University, I guess they have nothing to do, but .....”

“Meet us at Xinghe Academy!”

The tall girl smiled gently and said, “We just have weapons to deal with such high speed airborne creatures.”

“And did you guys notice?”

This girl pointed to the image on the projection and continued, “The biggest killing power of these planes is a small projectile shot out, but to launch these small projectiles, swoop down and the altitude will be very low!”

“This way, we can take advantage of these planes flying at low altitude and shoot them down!”

“That’s right, that’s probably the tactic.”

The tall young man, the captain of Xinghe Academy, took over, “I will take care of Jiang Fan’s plane and Mo Yao personally, and you guys will quickly take care of Jiang Fan’s other four teammates!”

“Is there any problem!?”

“Of course not.”

The white-clothed boy smiled and said, “Jiang Fan’s four teammates in his place, to be honest .....”

“We only need to put out two to be enough to solve it, and three would be more than enough.”

“Good.”

The tall young man nodded in satisfaction and said, “Although the other side is not an enormous threat, we should not be careless. Remember that the lion fights the rabbit, but also needs all its strength!”

“This is the final and our school’s upcoming third consecutive championship, so everyone gives it your all and shows the world your strongest strength! Take this third consecutive championship!”

Time passed little by little.

Finally!

The much-awaited final of the exchange competition officially began.

The Great Desolate Army didn't hide this time.

It came straight up with .....

Twenty rainstorm warplanes all go out with the army!

Of course.

The forefront was still using drones.

Looking for the teams of demonized people, water cannon turtles, maze puppets and goblin chiefs.

Chapter 426

**426: Hell Mode! Four down! The only seedling ..... Great Desolate Army**

Let these four races close in on the side of the Great Desolate Army!

Seeing the drones in the sky.

All four races followed even faster than before.

“Speed, speed, follow them as fast as you can. Don't save your energy.” Lin Youhe was shouting to their goblin chiefs.

The other planet masters were different from Jiang Fan.

All of them were directly down to command the field.

Planet owners were the ones who had absolute control over the planets they built.

Don't look at the physical qualities.

The average second level planet master was just that much better than an ordinary person.

It was nothing compared to the extraordinary races on the planet!

But as long as the planet master had a thought.

All life on the planet ..... would die immediately!

Of course.

No one would do that.

Planet life was extinct.

It would mean that the planet became a direct death star!

It would go backwards rapidly.

Then what's the point of playing?

The planet owner and the transcendent races on the planet could be said to be a grasshopper on the same line.

Mutually beneficial.

A taste of life and death together.

“Hurry up, don’t dawdle, and don’t store up your power to spit blisters, just rush over to the musketeers.”

Even Wan Yunsheng, who was always calm, was shouting.

The tone was a little impatient.

Somehow, he always felt some uneasiness in his heart.

It goes without saying that Xiang Zhifei and Jane Ziqiang.

Both were desperately urging their respective demonized people and maze puppets.

Frantically rushing!

Not only was this the final.

All four of them vaguely felt in their hearts that they had to be faster.

Only then could they be more secure!

And the demonized people, goblin chief and other four transcendent races did not need to be urged.

Also made the best of it.

A point faster than their usual speed!

“Hm?”

Seeing this scene through the drone.

Xue Rengui and Su Dingfang both frowned slightly.

Feeling that something was wrong.

Suddenly .....

In the drone’s field of view.

A small black dot appeared.

Behind this small black dot, more and more black dots appeared.

Immediately after that!

These small black dots were getting bigger at a speed visible to the naked eye.

“Be careful, enemy attack!”

Jiang Fan also saw the same.

Immediately shouted!

At those words.

Lin Youhe and Wan Yunsheng’s and the others faces suddenly changed.

The transcendent races under their hands also turned their heads to look.

Instantly, they spotted these black dots that suddenly appeared in the sky.

A serious look.

It was a huge flying creature with the body and sharp claws of a lion, but with the head and wings of an eagle!

“Griffons! It’s the Xinghe Academy’s griffins!”

Jiang Fan’s team immediately recognized it.

Naturally, they had done their homework well on the race built on the opposite side.

“Not exactly.”

Wan Yunsheng frowned slightly and said, “How did these griffins find us so quickly?”

The others were also a bit puzzled and confused.

It was now less than half a minute before the match started.

That means .....

As soon as the race started.

As soon as the five races came into the channel.

The other side knew the location.

They sent griffin directly.

This was what enabled them to come over so quickly!

At the same time, not only Wan Yunsheng’s Water Cannon Turtle.

The demonized people, the goblin chiefs, and the maze puppet’s team were in the sky.

All of them spotted a griffin’s figure!

Su Jicheng and the others who were watching the battle outside even had their faces turned pale!

“Xinghe Academy’s side, is it hiding a bottom card? This should be a special ability of some special race, right?”

-A teacher guessed.

“This race still has a strange effect.”

In the Xinghe Academy’s sparring room.

The white-clothed man looked at the fifty peculiar races he had built that were only less than a meter tall.

The corners of his mouth flushed with a smile.

These short, fat, strange creatures.

It was the white-clothed man’s after the second level of the planet .....

It created another transcendent species.

Not quite the same as other transcendent races.

This strange creature was cultivating spiritual power!

Just now, the location of Jiang Fan's side of the team was discovered.

It was because .....

These fifty peculiar creatures joined forces and unleashed a majestic spiritual power!

Thus detected the movements of the Demonized Men, Water Cannon Turtles, and other teams!

This was also the strategy formulated before the Xinghe Academy match – surprise attack tactics!

As soon as they came up, the four species of Demonized Man were the first to be dealt with!

“Ignore how the other team found us? Defend in place and wait for support from the pilots.”

Jiang Fan reacted really quickly and made a decision!

The griffin was a creature that could fly in the air.

Another terrifying creature with great power.

But griffins alone weren't that threatening.

The key was .....

On the griffin's back.

It was carrying a head whose whole body skin was green ..... Trolls!

The ears were long and pointed.

Lean body type and holding two axes in their hands!

“These are ..... Forest Trolls!”

The people watching the battle let out a shout of surprise and said, “Forest Trolls don't look enormous, but they are little invincible in melee combat. Even Demon Apes and Golden Behemoths are no match for it.”

Jiang Fan and the others naturally knew very well.

If the forest troll fought with the demon ape.

The loser would definitely be the demon ape.

Because .....

When the forest troll fights.

There was a probability that the opponent would be stunned for 0.1 seconds!

Although only a short zero point one second.

But for this kind of super race.

It would be enough.

Lin Youhe and the others also knew that the situation was urgent.  
Immediately let the respective races stop.  
Hastily, they did a good defensive stance.  
There was no way.  
If it was to escape ..... Surely they couldn't escape the griffins in the air.  
The result would be ..... The chase was overwhelming!  
A huge-sized griffin on the back carried two forest trolls!  
These griffins flew over the four races, including the demonized people.  
Slowed down their speed.  
Swooped down!  
Among the four races.  
Only the Demonized Man and the Water Cannon Turtle had long-range strike capabilities.  
The Demonized Man immediately transformed.  
The Water Cannon Turtle also urgently stored its strength.  
A water cannon was fired!  
But there was no power at all.  
There was a crash .....  
When the griffin was only a few dozen meters above the ground.  
A forest troll jumped down from its back.  
It landed quickly.  
The output of the demonized people was not weak.  
The forest trolls that jumped down directly ..... killed a lot of them.  
But .....  
The other side had obviously been prepared for this.  
They dispatched more griffins and forest trolls to the side of the demonized people!  
After paying the price of some of the forest trolls' casualties.  
The rest of the forest trolls fell into the demonized position unharmed!  
The weakness of the demonized people was very obvious.  
Defense was extremely poor.  
An ordinary bullet could not stand.  
Not to mention this small, invincible forest troll in close combat.  
One axe struck!

A tall, demonized man screamed miserably.

Then .....

He fell down heavily!

The forest troll rushed into the team.

The advantage of the demonized man was completely gone.

Long-range versus melee combat.

What was most feared was being close to the opponent!

Although when falling in the air.

A few hundred forest trolls were killed or injured.

But the fall of over four thousand forest trolls .....

It was enough to deal with the tens of thousands of demonized people!

-The axe down was one!

It was called a quick kill!

In a flash, numerous demonized people have fallen.

Tens of thousands of forest trolls.

In order to solve the demonized people.

Chapter 427

**427: Hell Mode! Four down! The only seedling ..... Great Desolate Army**

Five thousand of them were directly dispatched.

The other three races – Maze puppets, Goblin Chief and Water Cannon Turtle.

Each just sent two thousand trolls!

But these two thousand were already enough.

They fully displayed the talent of the Great Mythic level at this time.

Especially the maze puppet and the goblin chief here.

There was no long-range output capability.

Griffons ..... could fly to very low places.

Then let the forest trolls jump down without panic.

Forest trolls and also Lin Youhe's goblin chief.

Bump into the forest troll.

Simply encountered ..... Super enhanced version of itself!

The goblin chief was also outstanding in close combat.

Sturdy body shape with lots of strength.

But the forest trolls were not at all comparable.

Instead of one-on-one.

It was five to one.

Also completely unable to beat!

Couldn't break the other side's defense.

On the contrary, on his own side.

One axe by a forest troll was easy and freehand to destroy them!

Even the griffin in the air.

Also, from time to time, swoop down to give the goblin chief a hard blow!

Not to mention the maze puppet.

Completely a supporting transcendent species and it had no fighting power itself.

The only advantage was that .....

Not dying so fast!

And the water cannon turtle was also helpless.

With insufficient water cannons.

There was not much power at all.

Hitting the forest troll was like tickling.

The shell of the water cannon turtle was hard.

But under the constant slashing of the axe of the forest trolls.

Eventually .....

It was difficult to avoid the end of being broken open!

Four positions.

Four races.

All were being slaughtered by the forest trolls almost unilaterally!

The scene was unbearable.

The demonized people with the lowest defenses were falling the fastest!

In less than a minute.

Nearly a thousand casualties!

At this time, the rainstorm fighters dispatched by the Great Desolate Army were also ..... rushed to the scene!

But looking at the battle situation down here, fighting into a ball.

It was also very difficult to do!

A cannonball down.

They estimated that forest trolls did not die.

And the demonized people would suffer in large numbers!

The other three places.

It was the same situation.

The storm fighters hovered overhead.

But there was nothing they could do!

Witnessing four transcendent races being massacred by forest trolls!

“The tactics are going well. Even Jiang Fan’s planes can’t do much but watch.”

On the side of the Xinghe Academy.

All five team members revealed a smile!

This was a surprise tactic they had developed earlier!

A surprise attack on the weaker teammates of Jiang Fan!

Raid tactics were not uncommon.

Why did team competitions put the entrances to the five teammates in different locations?

It was to enrich the playing style.

And make the game better.

In many previous games, there was raid play!

On the way to the rendezvous of the teams.

Make a surprise attack!

But the conditions for a surprise attack were harsh!

Must know the location of the opponent.

There must be a highly mobile transcendent race, like the Griffon.

Against the Bei Dou University.

Also had to consider the rapid support of Jiang Fan pilots!

But the Xinghe Academy had its own balanced lineup.

Still managed to do it!

“This is also a weakness of Jiang Fan’s pilots, unable to strike with precision.”

The young man in white said with a smile: “As it is now... the enemy and us are fighting together, there’s not much the planes can do!”

“Don’t be happy yet.”

The captain, the tall young man, said in a gruff voice: "Let the rest of the races rush over and support the forest trolls and griffins!"

"Wait until the four races, the Demonized Man, the Water Cannon Turtle, the Goblin Chief and the Maze puppets, are resolved ....."

"Then besiege Jiang Fan's musketeers with all your might!"

"As for the pilots ....."

The tall young man turned to the pretty girl beside him and said, "Mo Yao, it's okay for your Siren to deal with it, right?"

"Of course, no problem?"

Pretty girl smiled gently and said, "I have almost completely mastered the characteristics of Jiang Fan aircraft. Do not look powerful and fast, but the weakness is still very obvious! That is ....."

"The defense is not good. I am afraid it is more fragile than the demonized person!"

"With one hit, it is the end of the machine destroyed!"

And this time.

In the four directions, the battle intensified.

Demonized Man, Maze Puppet, Water Cannon Turtle and Goblin Chief.

All of them were fighting with the forest trolls like crazy!

Although they were no match.

But definitely not resigned to their fate, either!

"Kill, kill, great goblin warriors. Show your courage and finish these abominable green-skinned trolls!"

Lin Youhe was screaming frantically.

At this point he had completely ignored it.

He shouted directly in the battle room.

Because .....

Tens of thousands of Goblin Chiefs.

Two thousand of them had already fallen under the Forest Troll's axe!

The goblin chiefs were also just transcendent species.

Naturally, the discipline was not too high.

Even if it was an army.

The casualty rate exceeded twenty percent.

All might collapse.

Not to mention these untrained goblins.

Not only Lin Youhe.

Wan Yunsheng, Xiang Zhifei and Jane Ziqiang were also desperately trying to encourage the race they had built.

Keep fighting on!

“Demonized people, don’t be afraid. If you accidentally hurt your companions, you will accidentally hurt them. Kill a few more forest trolls, just a few less!”

Xiang Zhifei clenched his hands.

The whole person almost stood up!

The look was very tense!

All four of them knew... that they definitely could not beat the forest trolls.

But before dying, you have to bite off a big bite of each other’s flesh!

Not willing to give up in vain.

Jiang Fan couldn’t look down and spoke, “You guys quit, don’t let the races you each built suffer too many casualties.”

“It’s not time yet.”

Lin Youhe immediately shook his head and refused, “My Goblin Chief can still hold up, kill a few more Forest Trolls and you’ll be under much less pressure later.”

Rumble .....

At this time.

Not far away on the ground.

A violent trembling sound rang out.

A large black and huge figure rushed towards this side.

The griffins and forest trolls were just two races.

This time, the Xingher Academy had sent over five transcendent species!

“You guys hurry up and exit!”

Jiang Fan shouted directly.

Lin Youhe also knew it wasn’t good and gritted his teeth, “Jiang Fan, let your pilot’s output, ignore my Goblin Chief and finish these green-skinned trolls!”

“Are you crazy?”

Jiang Fan looked at Lin Youhe.

Once the storm fighters fired their cannons.

It was an indiscriminate attack!

It wasn't just the forest trolls at the bottom.

There were also goblin chiefs who would suffer!

The number of goblin chiefs was still several thousand!

Even if the forest trolls could be eliminated.

How many goblin chiefs had to die?

"I'm not crazy. Even if all these goblin chiefs die, there are still some on my planet, and it can be re-bred soon."

Lin Youhe gritted his teeth and said fiercely, "I'm also part of the Bei Dou University team. I have to do something!"

"Yes, Jiang Fan, get your pilot out."

Xiang Zhifei also said with a determined face, "We have to do something. We can't be of no use at all!"

Although Wan Yunsheng and Jane Ziqiang said nothing.

But the expression on their faces already said everything!

"No need."

Jiang Fan, however, refused and said in a deep voice: "You guys hurry up and quit, don't worry, these guys from Xinghe Academy, I'll ..... Finish them!"

As he spoke.

Jiang Fan slightly narrowed his eyes.

Exchange tournament played until now.

The first time!

A hint of anger and battle intent rose in Jiang Fan's heart!

Since you guys are coming for real.

Then ..... Come on!

He looked toward the Great Desolate Army.

It was estimated that the Great Desolate Army at this time.

Witnessed his teammates being slaughtered like this.

They were also really pissed off!!!

### **Chapter 428: One vs. Five! Desperate situation! The real Great Desolate Army!**

It was indeed as Jiang Fan had thought.

After seeing the scene of the demonized people being slaughtered by the forest troll.

The generals of the Great Desolate Army were all quite annoyed!

“Still a step too slow!”

Su Dingfang smashed his fist heavily.

Very annoyed, he said.

“It can’t be helped. The other side must have the means to discover our position and planned in advance. What can we do about it?”

Xue Rengui said comfortingly, “Next time ..... Just pay attention!”

“Although they are transcendent, they are also our teammates. Watching like this, I...”

Su Dingfang clenched both fists and said, “What an abomination!”

“Don’t worry.”

Xue Rengui also narrowed his eyes, said: “The other side sneak attack, but ..... Our Great Desolate Army is still there!”

“The opposite side will have to pay for this sneak attack .....!”

Both of them were angry!

Dared to attack their companions right under their noses?

Wait for the wrath of the Great Desolate Army!

At this time, the battle in four directions ..... had come to a white heat!

Although the forest trolls were very powerful in close combat.

But demonized people, goblin chiefs, water cannon turtles and maze puppets were not pigs either.

There was no resistance.

The numbers were still dominant.

Under the Jedi counterattack at any cost.

The Forest Trolls also suffered casualties!

“Crush, hit them hard. What are you afraid of? Show your courage.”

Lin Youhe still didn’t give up.

Still commanding loudly!

Both eyes were red.

The Goblin Chief on the field had just been raided by the Forest Troll.

There was still some panic.

But gradually .....

Also fascinated!

Totally did not care.

Some of them directly dragged to see the forest trolls and crashed into them.

Several surrounded a troll.

Attacked at any cost!

Let themselves be slashed by other forest trolls!

It was a life-for-life fight!

Other places.

The demonized people, water cannon turtles and maze puppets also did the same.

Desperately fighting with the forest trolls!

Often five fell down.

Also, could pull a forest troll to die together!

“Come here guys, these guys ..... Crazy!”

The young man in white shouted.

If this continued.

Even if his Forest Trolls could take care of these transcendent races.

In the end, there wouldn't be many left!

Not waiting for the young man in white to warn.

The other Xinghe Academy members saw this situation.

Immediately let the transcendent races underneath speed up.

And sent the griffin's back.

Quickly transporting a powerful transcendent reinforcements over!

Rumbling .....

The trembling sound of the ground became louder and louder.

The huge reinforcements team in the back gradually approached!

They also divided it into four directions.

Supporting the Forest Trolls in the four directions, respectively!

The battle between the four races and the forest trolls was completely killing each other.

Difficult to solve.

The scene was miserable!

The demonized people built by Wan Yunsheng were also already hot and bloodied.

Seeing the forest trolls was .....

Attacked with full force!

Totally did not care whether it would hurt their companions.

The forest trolls caused significant damage.

But the demonized people's bodies were the most fragile.

The speed of falling was also the fastest!

In just a few minutes.

There was already the forest troll's axe that had chopped three thousand demonized people to the ground!

The battle of the goblin chiefs was the most tragic.

A tall goblin chief was hammering with a wolf's tooth stick.

Slamming with shoulders.

Even .....

Gnawing with their teeth and fighting with forest trolls.

The fight was fierce!

The cost was also extremely heavy.

Nearly two thousand fell.

In comparison.

The more defensive water cannon turtles and maze puppets were better.

But basically it was a one-sided defeat!

Especially the maze puppets.

There was nothing offensive.

Not much of a threat to forest trolls either!

"Quit, you guys quit immediately. This is the captain's order!"

Seeing Lin Youhe and the others still refused to give up.

Jiang Fan directly ordered in a deep voice.

"Damn it!"

Lin Youhe slammed his fist on the table with hatred.

A hint of helplessness and self-reproach flashed across his eyes!

If only his race had been a little stronger ..... It wouldn't be like this now ..... powerless!

Instead, it became a breakthrough point for the other side!

The other three were in a similar mood.

"Give up the battle and withdraw from the race."

Finally!

Lin Youhe and the four still reluctantly gave orders to the transcendent races underneath.

But the Demonized Man, the Goblin Chief, and the other four species were red-eyed.

Didn't listen to them at all.

Blitz .....

The storm fighters strafed from above.

This awakened both sides of the battle.

Demonized people and the other four races raised their hands.

It meant surrender!

Seeing this.

The side of the Xinghe Academy also made the Forest Trolls give up their attacks!

This was also an unwritten rule of the group competition.

Once the other side gave up resistance.

The other side would not continue to attack either.

But this also meant that .....

The four transcendent races, Demonized Man, Goblin Chief, Water Cannon Turtle and Maze Puppet had ..... completely withdrawn from this final match!

Under the watchful eyes of the crowd.

The four transcendent species gathered the remaining teams.

Walk back to their respective planet passages.

Officially left .....

This competition venue!

The side of Beidou University.

At this moment, only one team of the Great Desolate Army was left.

"So tragic."

Seeing the dense patch of corpses on the field.

A member of the Xinghe Academy couldn't help but let out an exclamation.

"I've lost almost four thousand of my Forest Trolls."

The young man in white also shook his head and said, "I didn't expect the opposite side to be so desperate!"

"It's okay."

The captain of the team, the tall young man, comforted, "You don't need to participate in the next match with your Forest Trolls. When the match is over, I will request the school for the Fountain of Life."

"The Fountain of Life?"

The white clothed young man's eyes instantly lit up.

This was a good thing.

A product from the High Elves could cultivate transcendent species more quickly!

Increase cultivation efficiency.

With the Fountain of Life.

The forest trolls he lost would be made up for quickly!

"Here ....."

The captain, a tall young man, swept a glance at the others and said, "It's the last step of the plan – besieging Jiang Fan's musketeers and pilots!"

"The musketeers on the ground will be taken care of by us!"

"Mo Yao, you will deal with the pilots in the sky!"

"Remember ....."

"To take one step at a time, you have just seen the situation, and the other side will definitely not easily admit defeat."

"It's likely to be a struggle. Don't let the opponent's counterattack cause too much loss!"

Under the unified command of the tall young man.

The army of transcendent races on the ground gathered.

And from all sides .....

Step by step, they approached the Great Desolate Army!

In terms of numbers.

The transcendent races of the Xinghe Academy were also close to one hundred thousand!

It was similar to the Great Desolate Army.

But the individual battle power was much stronger.

The Great Desolate Army didn't dare to be careless.

Because the opposite side had long-range output.

So the rainstorm war machine also did not easily move out!

Just shrink the defensive line.

Quietly waiting for the other side of the siege!

Inside the battle room.

Lin Youhe and the other four people who quit the match sat on the chairs blaming themselves unwillingly.

They could only watch Jiang Fan continue to play the game alone!

One person facing five people from the other side!

-At the same time, The Great Mythical Army had to deal with ..... at least five teams of Great Mythic level talent races on the other side!

Seeing this scene.

Outside, Su Jicheng and the others were silent.

### **Chapter 429: One vs. Five! Desperate situation! The real Great Desolate Army!**

They wanted to let Jiang Fan admit defeat.

But after seeing the demonized man just now, the goblin chief's desperate resistance.

Again, they all stopped the idea!

Although this was only a game.

But sometimes it was not just a competition!

"You can admit defeat."

A teacher from another school next to him shook his head and said, "There's no point anymore. Time has passed ten minutes too. Holding on for so long and taking out so many forest trolls is already enough to be proud of!"

"Yes, what else can this persist?"

Another teacher also agreed: "There is little point except to pay more casualties."

"Originally we fought normally, there may be a slight chance, but I did not expect ....."

A teacher said, "Xinghe Academy went all out and didn't give a little chance to Bei Dou University's side, as soon as it came ..... took advantage and raided the Bei Dou University side!"

"Directly get rid of Jiang Fan's four teammates first!"

"They also see that only Jiang Fan has fighting power on the side of Bei Dou University. Remove the others first and then deal with Jiang Fan with all their might!"

"A lion fighting a rabbit also uses its full strength. The Xinghe Academy really isn't careless at all." Another teacher laughed: "This is also their third consecutive championship. Few schools in the history of three consecutive championships have been able to do it, so it's not too much to ask how careful they are."

"Let's see, I guess Jiang Fan shouldn't resist for long before he admits defeat!"

Many people were talking.

There was nothing to feel sorry for.

After all .....

Bei Dou University's strength and the Xinghe Academy were still too far apart.

To go this far.

It was already more than everyone's expectations!

It was considered very, very good.

"Hahahaha!"

And in Ao Xiong's villa.

-The crowd laughed very happily.

Originally .....

Seeing the Bei Dou University school team, eliminating one powerful opponent after another.

Continuously going into the top sixteen, top eight, top four, and final!

A person's face was like hanging up with his father and mother.

Ugly as hell!

This was also human nature.

Not saying that they have a grudge against each other.

Even if not.

But who would be happy to see the neighbor's children's grades better than their own children?

Earn more than their own?

Especially .....

Married daughter-in-law being more beautiful than you?

Originally, people were very distressed.

The atmosphere in the villa was extremely stiff.

But seeing Lin Youhe and Wan Yunsheng and the other four people who built the race were raided.

Finally had to withdraw from the game.

The atmosphere was alive again.

"This should be the most suspenseful final in history, it's just after ten minutes and there's no suspense left."

A teacher chuckled.

"It sure is."

Li Zihao picked up, "There was no suspense before the game, but no one could have imagined ..... Jiang Fan and the others fell so quickly!"

"Xinghe Academy didn't even make much of a push. Just by relying on one race of Forest Trolls, Lin Youhe and the four couldn't carry it."

“It can’t be helped, the two sides are too different in talent. Lin Youhe and the four people combined are not as good as the other side with a big mythical level.”

Wang Yiteng smiled gently.

“By the way.”

Li Zihao suddenly thought of something and looked at Prince Qing, “If we didn’t withdraw from this competition, instead of the two of Jane Ziqiang and Lin Youhe, could we beat Xinghe University?”

“Yaoguang University is estimated to be possible.”

Prince Qing thought for a moment and said, “But Xinghe Academy would not have a chance. The other side has five big mythical level. The lineup is too solid. The strength exceeds the other teams by at least a notch!”

“Hey, look guys.”

Wang Yiteng pointed to the image in the projection and said, “This Jiang Fan’s pilot is so scared that he doesn’t dare to move.”

“Oh, he doesn’t know what else he’s holding on to?”

Li Zihao laughed softly and said, “Still not hurrying to admit defeat, does he still want to fight five by himself?”

Inside the void of the Bei Dou University.

The group of elders was also silent.

“Is there still a chance?”

An old man opened his mouth and asked.

“It’s impossible.”

The gray-clothed old man shook his head and said, “Still not prepared enough. I didn’t expect Xinghe Academy to have this surprise attack.”

“In fact, even if this move was prevented, the difference in strength is still too big. At most, it will delay some more time.”

Another old man said.

“It’s a pity .....

The old man in black said with some emotion: “If our school’s lineup could be a little stronger, such as one more big mythical level, it is estimated that ..... Maybe this year with Jiang Fan in, I’m afraid it’s the closest to the championship!”

Everybody was silent.

No way.

Bei Dou University was still nothing attractive.

It was hard to recruit even a top student.

Prince Qing was such a gifted genius.

They also recruited him only through various connections.

The champion of the exchange competition!

Everyone here was thinking a lot.

Looking at the finals!

Seemed like the trophy was ...very close.

But .....

There was no longer any hope!

“It’s enough to come this far. Keep working hard in the next term. There’s still a chance in the future.”

The oldest elder comforted.

Although the words were said.

But the crowd all understood.

A freshman as demonic as Jiang Fan.

It was almost impossible to recruit behind Bei Dou University.

The crowd silently watched the competition’s projection.

Cherished the last few minutes left.

Inside the screen.

The team of the transcendent race of the Xinghe Academy.

Already scattered into several teams, heavily encircling the Great Desolate Army from all sides!

“The firepower of the musketeers Jiang Fan built was also very strong, with a very long range of over four kilometers.”

The captain, a tall young man, said, “There is no danger if we don’t cross this boundary!”

“And the pilots have even more firepower, and there are two main types of output.”

“One is a large projectile, and the other is a smaller one.”

“Large projectiles are more powerful, but not much of a threat.”

“Instead, the small-sized projectile that can pierce the bodies of transcendent races, including the previous flying demon apes and heavenly wolves, which our transcendent species wouldn’t be able to stop!”

In response to Jiang Fan’s creation of a brand new race.

The Xinghe Academy took it very seriously.

The characteristics of musketeers and pilots were .....

Research was almost done!

“But the output of the pilots is unstable.”

The tall young man continued, “They can’t target specific units and rely on coverage strikes.”

“As you have just seen, if the enemy and us are in a battle, the planes can’t do anything but watch.”

“But there’s no point in talking about it.”

“If we can break through the defensive line and get close enough to get in front of the musketeers, then we’ll win!”

“Next, go all out, try not to cause too much damage, and force Jiang Fan to admit defeat!”

And on the side of the Great Desolate Army.

Xue Rengui and Su Dingfang were both quickly making various arrangements.

The four Transcendent Race teammates were out.

It was also somewhat unexpected for them.

But the Great Desolate Army had always had a fine tradition, that was –

Do everything for the worst!

Several pre-plans had already been made.

There were no more maze puppets.

But the Great Desolate Army still had the Tank.

They placed it around.

Rendered in a circle.

Added another three thousand units of continuous speed guns.

Densely arranged on the outermost edge!

Although the Xinghe Academy’s team was far away from four kilometers.

The speed guns couldn’t hit.

But the Great Desolate Army had more than just the speed gun.

**Chapter 430: One vs. Five! Desperate situation! The real Great Desolate Army!**

There were also many tanks and artillery guns.

“Attack to your heart’s content, put some pressure on the opposite side.” Su Dingfang said in a cold voice.

-A cannonball poured out!

Aimed at the opposite side with weaker defenses ..... The Siren clan!

Sirens were gigantic creatures with snake tails and human faces.

The body was over five meters tall!

There were four hands on the left and right!

Although they usually live in the sea.

But it can also move on land!

Sliding on the ground by the tail of the snake.

The speed was very fast!

“Get down, bury your head in the sand. Desert trolls make a good defense.” The tall young man immediately commanded.

On this side of the team.

There were not only forest trolls.

But also even bigger desert trolls!

This kind of troll was not as powerful as the forest troll in close combat.

But the physique was stronger!

It even had the natural ability to turn the surrounding dirt and rocks into sand!

Seeing a cannonball flying over.

A group of desert trolls immediately launched this ability.

Turned out a pile of sand.

Let the Sirens in the back stick their bodies in the sand.

The shells fell down.

Successive explosions opened up.

But .....

After the smoke.

Besides the explosion injured a small number of sirens.

No one was seriously injured.

“The Xinghe Academy seems to have found the Musketeer’s weakness.” A teacher watching the battle said, “As long as you put your body as close to the ground as possible, the power of these projectiles will be dispersed a lot!”

Lin Youhe and Su Jicheng and the others frowned.

They could obviously feel it .....

Xinghe Academy had made a thorough deployment in advance against Jiang Fan!

Just got rid of the four of them to create the race.

Its main purpose lied in .....

Let Jiang Fan's musketeers have no helpers!

Although the demonized people, water cannon turtle and other four races' strength were not top-notch.

But it still played a protective and buffering role for the musketeers!

And unlike now .....

Musketeers had to face the opponent's attack directly!

"The killing power of the musketeers was still a bit weak."

Seeing this scene.

Xue Rengui and Su Dingfang were not anxious at all.

This was completely within their expectation.

Firing artillery was only a distraction.

The real killing move was not on the ground.

"Storm fighters, go ahead and test."

Xue Rengui ordered.

"Roger!"

Above the sky.

A storm warplane glided out!

Towards the frontal ranks of Sirens and Desert Trolls, ..... swooping down!

"Here it comes!"

The tall young man's pupils shrank slightly.

The others also raised their attention.

To the Xinghe Academy.

Bei Dou University or rather Jiang Fan's side.

The only thing that was a threat to them was .....

These twenty planes in the sky!

"Mo Yao, have your Sirens get ready to shoot this plane down for me!"

The tall young man ordered.

"No problem!"

The pretty girl smiled gently.

Immediately, she gave orders to the Siren race she had built.

“Jiang Fan, tell your pilots to be careful. The opposite Siren is capable of long-range output.”

Lin Youhe spoke up and reminded him.

“Don’t worry.”

Jiang Fan said nothing.

A storm fighter flew swiftly, descending quickly from high altitude!

Came to a low altitude.

Start the engine gun!

Burst .....

Countless armor-piercing bullets pour out like a rainstorm!

Towards the desert trolls and sirens below!

A tall and lanky desert troll blocked the siren.

Poof poof poof .....

Hundreds of armor-piercing bullets came in an instant.

They hit this desert troll!

There was no suspense.

Even if the Desert Troll’s physique was powerful.

But it couldn’t stop the penetrating power of the armor-piercing bullets.

It was directly pierced!

It densely packed the body with bullet holes.

Like a hornet’s nest.

The immense body also ..... fell down heavily!

“Sure enough.”

Seeing this scene.

The five members of the Xinghe Academy were not much surprised.

They had long expected it.

The Desert Troll also could not stop the terrifying firepower of the pilots.

But ..... At the same time.

The corners of the five team members’ mouths all showed a smile.

This was the result they wanted.

Attract the planes to fly to low altitude.

Then .....

The sirens could then find an opportunity to output!

Among the thousands of huge siren colonies.

Ten of them were even bigger and very eye-catching!

These ten were the leaders of the siren clan!

In their hands.

It was holding a huge longbow!

The length of these longbows exceeded ..... Three meters!

Through the screen monitored by the five people machine.

The Great Desolate Army and the others also saw these ten longbows!

“Poseidon Bow, the Sea Demon Clan created by the Xinghe Academy has this.”

Lin Youhe and the others were both startled and somewhat helpless!

Only to watch the ten sea demons take out a huge arrow!

On top of the longbow!

These arrows were not the same as ordinary arrows.

They had a pattern engraved on them!

With a whoosh!

An arrow rose up in the air!

It went straight for the storm fighter flying above.

The speed was amazing.

And surprisingly.

As the distance rises.

Not only did the speed not slow down, but it got faster and faster!

But still not as fast as the warplane.

The pilot of the fighter plane immediately turned higher.

He wanted to dodge the arrow.

But what made it more shocking was .....

This arrow seemed to track.

It was chasing tightly!

“Be careful. This is an enchanted arrow!”

Lin Youhe immediately shouted.

“Enchanted arrow?”

Jiang Fan raised his eyebrows.

He had also heard of this thing.

But it engraved a magic circle on the arrow, making the arrow have incredible effect and power!

This was what made this arrow .....

Able to chase down warplanes in the sky!

A thud!

The enchanted arrow caught the fighter up and hit!

There was a dull sound.

The people on the Xinghe Academy side just wanted to cheer.

But soon found out.

The warplane was actually unharmed.

Only the exterior of the fuselage had turned a bit darker.

They naturally made the storm warplane from an alloy of star meteorite iron, vibranium and tearstone!

This new alloy .....

The name has now been changed.

It was called ..... Star tear alloy!

It inherited all the effects of vibranium.

There were also enhancements.

Not only was it sturdy.

It could also absorb the kinetic and potential energy of the opposite attack!

But .....

This time the fighter was fine, though.

The energy absorption effect of the alloy was depleted.

“Warplane speed return!”

Xue Rengui did not dare to be careless.

Immediately ordered.

The warplane raised its altitude and flew back!

It had just been hit by the enchanted arrow.

It was also a deliberate act by the warplane!

In order to test the power of the enchanted arrows!

“As expected, the other side should be the most powerful with this kind of arrow.”

Su Dingfang nodded and said.

And after seeing the warplane slipping away.

The five people from Xinghe Academy showed a smile.

“There’s no need to shoot these warplanes down, just scare them!”

The tall young man spoke: “Mo Yao, your Sirens will be specifically responsible for these twenty planes, the other races .....

The tall young man swept a glance at the crowd and said, “Prepare for a full siege! Break down these musketeer positions on the ground!”

“No problem!”

Several of the white-clothed young men responded loudly.

The next moment.

One by one, the transcendent groups surrounding the Great Desolate Army began to ..... move!

Ready to attack in a big way!

“It’s time for a quick battle. Give the other side a direct destruction attack.”

The Great Desolate Army’s side.

Xue Rengui also ordered at the same time.

Just witnessed four teammates being eliminated.

It made even Xue Rengui’s heart hold back a surge of anger!

He was going to use the most powerful weapon of the Great Desolate Army!

With the power of thunder .....

Take down these aggressive opponents!!!
