

One Planet 431

Chapter 431: Completely destroyed! Unstoppable! Shocked everyone!

Above the competition field.

The side of the Xinghe Academy launched the final full-scale offensive!

From the few defeated opponents in front of Bei Dou University.

They were also aware of it.

It had to be done in one go!

Break through the Great Desolate Army's defenses in one breath.

Otherwise It would be easy to be a musketeer's long-range sniper!

Resulting in a loss of merit!

Rumble

The ground was trembling.

Desert Trolls, Sirens and other transcendent group hordes advanced towards the Great Desolate Army's position!

Although there were over 10,000 forest trolls.

But on this side.

There were still several tens of thousands of transcendent creatures.

And the most powerful in the position battle were

Not the Sirens and Desert Trolls.

Rather, it was another transcendent species –

Desert lizard!

The body length was over seven meters!

Huge body, the surface was covered with a thick layer of scale armor.

In the desert like a fish in water.

The speed was amazing!

The lineup of the Xinghe Academy Obviously it was well thought out in advance!

Desert trolls and desert lizards were an excellent combination!

Desert trolls could turn the surrounding dirt and rocks into sand.

It became the home turf of desert lizards!

Just like other lizards.

Desert lizards could also dig pits.

In order to reduce the damage of the continuous speed gun.

The desert lizard buried its body directly into the sand.

– Crawling forward little by little!

Chug chu

The cannonballs and speed guns of the Great Desert Army were bombarding non-stop!

Puff puff

Countless rounds of armor-piercing bullets fell on the ground.

But through a layer of sand.

It weakened the power a lot.

There was also a thick layer of scale armor.

This reduced the lethality of armor-piercing projectiles to desert lizards!

Half a minute passed.

Only shot and killed less than a hundred desert monitor lizards.

And this time.

Desert lizards had advanced nearly two hundred meters!

As for the shells fired by the artillery.

That was painless.

There was basically minor damage.

“At this rate, when these Desert Lizards close in on the Musketeer’s position, it will only cost a couple of thousand.”

Inside the battle viewing room.

Su Jicheng and the others were all frowning.

“It’s not just desert lizards, there are also desert trolls and sea demons in the back, and above the sky, there are also griffins.”

A teacher shook his head and said, “Not only is Xinghe Academy’s talent high, this created racial lineup is also quite a perfect match!”

“There are Sirens for long-range output, Forest Trolls for melee combat, Desert Lizards for charging the formation, and Griffons for mobility.”

“There is everything. There is not much weakness at all!”

“It’s more than that.”

Another teacher helplessly said: “Their Siren race also has ten Poseidon bows with enchanted arrows, the most powerful pilots on Jiang Fan’s side

has a very strong restraining effect!”

“Look at Jiang Fan’s pilots, they are now shrinking in the sky in fear Don’t even dare to come down!”

As this teacher said.

Tens of thousands of sirens in the colony.

Ten huge-sized siren leaders.

Didn’t care about the battle on the ground at all.

Their attention wasall placed on the twenty storm fighters above the sky!

The Poseidon bow in their hands was always drawn.

Enchanted arrows ready to be fired!

In order to avoid being targeted by the musketeers.

These siren leaders were hiding five kilometers behind!

Surrounded by several thousand sirens and desert trolls for protection.

The rest of the sirens followed the large group.

Charging forward towards the formation!

“Although the Desert lizard’s attacks weren’t strong against these musketeers. If they are close, I’m afraid there’s not much the other side can do with even more numbers.”

Seeing that everything was going well.

A member of the Xinghe Academy team laughed and said.

“We can’t be careless, either.”

The captain, tall and young man said with a serious expression, “I’ve seen the video of the previous matches of Bei Dou University and some information about Jiang Fan, his musketeers can also store up the energy of all the musketeers

“And thus instantly explode with astonishing power!”

“We have to guard against this. Don’t rush up in a swarm!”

“Long-range strike first, Mo Yao.”

The tall young man looked at the pretty girl beside him and said, “Have your siren colony get ready, and when the distance is closed, destroy these musketeers’ for me!”

“No problem.”

The pretty girl made an OK gesture.

Immediately commanded several thousand sirens to follow.

But it was hiding behind the Desert Lizards and Desert Trolls.

The speed was not fast either.

Very cautious!

Didn't want to give the other side any chance.

“Although the ordinary Sirens didn't have the Poseidon bow and enchanted arrows, the range was more than a kilometer and the accuracy was very high.”

Seeing this, a spectator said: “And Jiang Fan's musketeer basically has no defensive power. If the Sirens rushes into a one-kilometer range...”

“Musketeers are basically going to be slaughtered one-sided!”

“Failure is only a matter of time. Let's see how long this Jiang Fan can last? Can he last for twenty minutes?”

“If he can't even last twenty minutes, it's probably the fastest losing final in the last few decades!”

“Jiang Fan, there's no need to hold out.”

Inside the battle room.

Lin Youhe spoke up and advised.

“It's just an exchange tournament. We've already reached the final anyway, setting a school record and exceeding our previous goal.”

Lin Youhe continued, “Look at those Ao Xiong people. Their faces must be very dark now!”

“Even if we lose, it's nothing!”

“Yeah, you should give up when it's time to give up.”

Wan Yunsheng, Xiang Zhifei and Jane Ziqiang also advised.

All four of them could see that

The Xinghe Academy was too targeted.

It completely targeted Jiang Fan to death.

The strength was also too strong!

The lineup was highly talented and balanced.

What did they want?

Without such a good lineup, even if they wanted to target, they couldn't target!

“Don't worry, guys.”

Jiang Fan showed a smile at the corner of his mouth and said, “Watch well, my pilots are more than that. The real power of the plane is just about to be shown!”

“The real power of the plane!

Lin Youhe and the four people were all slightly stunned.

This

The strength of the aircraft displayed in front.

The crowd was watching it with their eyes.

It was really powerful!

Fast and flying high, the output was also terrifying!

Even

Some people said Even if Jiang Fan did not have a musketeer, only this one plane!

He could also be the strongest freshman in this exchange competition!

That's right!

For Jiang Fan's strength.

Now there was no doubt.

Everyone thought that...

Jiang Fan lost because his teammates were too bad.

However, now Jiang Fan was saying that ...

There was a more powerful side of the plane?

The Great Desolate Army's side was already prepared.

"According to the speed of the other side, in less than ten minutes, they will be able to burst into the one kilometer boundary of our position."

Su Dingfang said while watching the movement of the desert lizards with binoculars.

"The range of the opposite siren is more than one kilometer."

Xue Rengui nodded and said: "The other party should use Sirens to... attack our team from a distance!"

Chapter 432: Completely destroyed! Unstoppable! Shocked everyone!

"If there is no warplane this time and just sparring position battle. There is really not much to do with the opposite side."

Su Dingfang smiled helplessly.

"No way."

Xue Rengui also sighed and said, "The future is the era of warplanes and the space for ground teams to play will become smaller and smaller!"

"Let's not talk about that. Let's settle with these guys first."

Xue Rengui's face gradually became cold and solemn.

His voice was bitter: "All warplanes, get ready!"

Above the sky dome.

Twenty storm fighters flew a thousand meters high in the sky.

Neatly lined up.

They were ready to launch!

Inside the warplanes.

One by one, the pilots were all narrowing their eyes.

There was a fire in their heart!

Just now they were in the sky watching the demonized people, goblin chiefs and the teammates being killed quickly by the forest trolls!

"Attention all fighters, target Siren leaders. Destroy all ten Siren leaders from the other side!"

Xue Rengui ordered in a cold voice.

The ten Siren leaders with Poseidon bows and enchanted arrows.

There was a certain threat to the storm fighters!

Especially at low altitude.

Naturally, this threat had to be removed first!

The voice fell.

Twenty rainstorm warplanes quickly start.

Swooping down!

Divided into five batches.

Because the team on this side of the Xinghe Academy was surrounding the Musketeers from all sides.

The ten Siren leaders were also in groups of two.

Divided into five positions!

A group of four fighters solved the opposite group of Siren leaders!

The Siren leaders who had been watching out for Jiang Fan's side of the plane immediately discovered the movement of the storm fighters!

"Jiang Fan's planes are trying to solve our Siren leader?"

The Xinghe Academy team.

The white-clothed young man directly guessed the purpose of the warplane.

"The opposite side only has this one solution."

The pretty girl smiled faintly and then barked the order, "Siren leader, shoot these planes!"

At the same time, the griffins that originally stayed on the ground.

Also took off into the air!

Trying to cause some trouble for the warplanes!

"What is Jiang Fan doing? So reckless. How can his plane kill these giant Siren leaders?"

The spectators saw this scene.

All eyes widened.

Immediately, there were regrets.

"Xinghe Academy has long thought of this. There are so many desert trolls and sirens around these Siren leaders to protect them. It is impossible to shoot them! And once the plane itself is at risk of being shot down by the siren leader's enchanted arrow!" Another person said: "These pilots' cultivation is also more difficult, twenty, less one is a tremendous loss!"

"Pointless, completely pointless!" A teacher shook his head and said, "It is simply impossible to win, directly admit defeat and no one will say anything. There is no need to take the risk!"

However!

The next moment!

It surprised everyone to see.

Twenty rainstorm warplanes this time

Actually started firing weapons from the high altitude!

It was not the previous shell that was fired, but...

-It was about four meters long.

The appearance of a long oval-shaped strange object.

One of the twenty warplanes was the first to fire such a thing.

Intended to test it.

This was also the most advanced and the most powerful conventional killing weapon of the Great Desolate Army at present – missiles!

There were various types of missiles.

The ones fired from the warplanes now were

Air-to-ground missiles!

They mounted each warplane with fifteen of them.

And these were only the smallest of all the missile families in the Great Desolate Army!

But it was enough to deal with the giant Sirens leaders!

“What is this?”

The five members of the Xinghe Academy were all slightly stunned.

They recalled all the records in their heads.

But they couldn't recall that Jiang Fan's pilots had built this kind of weapon.

“Be careful. This might be the other party's secret bottom card.”

The tall young man wasn't careless and immediately ordered, “Have the siren leader hide behind the sand, the desert troll and other sirens protect around, and try to shoot this thing down!”

Whistle

After a slight wind whistling sound.

This air-to-ground missile shot out from the bottom of the plane!

Whistling and coming down!

Straight towards a giant Siren leader!

The speed of the air-to-ground missile would be slower at first!

But as soon as possible...

It would be one kilometer per second!

The maximum range was over fifty kilometers!

When this one air-to-ground missile fell from the air and came within one thousand meters.

A bunch of Sirens on the ground shot arrows with their bows!

Ready to shoot this thing down.

The griffins also rushed over at the same time.

But!

How could it possibly hit?

Under the super high speed.

The missile was like a phantom.

They aimed the target straight at the giant siren leader hiding behind the enormous pile of sand!

To be on the safe side.

The desert trolls around the big siren

Also quickly transformed a large amount of sand.

Heaped up into a huge sand pile!

The air-to-ground missiles didn't care that much.

No matter where you hide.

It could still find.

“Be careful, get down!”

Seeing the amazing speed of the air-to-ground missile that was even faster than the wind.

The tall young man immediately shouted!

They could naturally see.

This thing was bound to be even more terrifying than the previous shells!

The giant siren leaders behind the sand pile also felt something bad.

Quickly buried the entire vast body in the sand.

Seeing a giant siren leader took a defensive posture.

The five members of Xinghe Academy are all...slightly relieved!

However!

The next moment.

They were wide-eyed.

Because they found that

These strange things actually bend the air!

It raced past the huge pile of sand.

Spare from behind.

And the speed didn't slow down at all.

Under that super high speed.

It was just a matter of a split second.

Then it hit the giant siren leaders whose body was already buried in the sand!

Boom!

-An unprecedented loud sound.

Even more than the thunder in the sky.

Boom!

Immediately after

A horrible explosion happened!

The entire ground.

All of it exploded!

Countless dirt, rocks, and the huge pile of sand

All flew out!

An extremely terrifying wave was generated in the center of the explosion.
Quickly swept away in all directions!
Within a hundred meters radius.
All life and things were reduced to nothing!
The ground was shaking in the field of vision.
Even the air was trembling violently!
That amazing and terrifying power!
Even if only through the projection.
It made people tremble!
This was the power that could destroy a whole building!
That was used on giant siren leaders.
Even if the opponent was a transcendent species.
It was like killing a chicken with a bull's-eye!
When the smoke cleared.
In the view of the crowd

There was a huge pit!
The original sand pile and the giant siren leaders were gone.
In front of this terrifying power.
The giant siren leader that was also at the very center of the explosion.
How could it still be left behind?
In fact!
No need for gunpowder explosion.
Relying on the huge impact of the missile alone.
It was enough to take out this giant siren leader!
Not only that.
The ordinary sirens and desert trolls that surrounded the great siren were also killed and injured!
Because it was too dense.

Chapter 433: Completely destroyed! Unstoppable! Shocked everyone!

Just that one time, a few hundred died on the spot!
The remaining thousands were more or less affected by the ripple.
Dozens of sirens were mutilated.
Four hands were broken into half!

Desert trolls were not much better.

Their faces were scorched and black.

They could not help but spit out a mouthful of blood even though their defenses were extremely strong.

The rest of the companions.

Looked at the stump and the broken arm on the ground.

They were all dumbfounded!

They had seen the continuous speed gun of the Great Desolate Army.

Had also seen the cannonballs!

But

Even these added up.

It was far from the terrifying power of this weapon this time!

That was simply not something that could be imagined.

It completely exceeded the level of this competition!

Should not exist.

In the viewing room.

A silence!

Everyone stopped talking.

Dumbfounded, they watched this terrifying scene!

Many teachers had their mouths slightly open.

Their hearts were shocked!

Su Jicheng and other teachers and school leaders were also wide-eyed.

They couldn't believe their eyes.

And on this side of the Xinghe Academy.

The smiles that the five team members originally had on their faces were completely disappeared!

They were able to think that this strange thing should be a secret weapon on Jiang Fan's side.

The power should be relatively large!

But absolutely never thought

It was so terrifying!!!

-Falling down.

Even the siren leaders hiding in the sand were destroyed on the spot!

Even more, along with thousands of ordinary sirens and desert trolls were killed and injured by the explosion!

After a short silence.

As the captain, the tall young man was the first to react.

He quickly said, "Be quick, let the remaining siren leaders quickly retreat. The farther the better, and the other species did a good job of protecting them!"

"Hurry up, let them retreat."

Pretty girl also reacted and ordered in an anxious tone.

Just a scene.

Although the brain was a little confused.

But it was clear.

The strange weapon's speed was very fast.

Just too powerful!

Absolutely not to be resisted head-on!

And in the back of two kilometers.

There was a small pool of water.

Tall young man's brain spinning fast, immediately he thought of letting the giant siren leaders hide in the pool of water.

To avoid the attack of this terrible weapon!

"Combat successful, target destroyed!"

The pilot of the warplane reported the results!

Through the drone's shooting.

Xue Rengui and Su Dingfang were also able to see the scene where the giant siren leader was destroyed.

They both breathed a slight sigh of relief.

Don't be afraid of one thing or the other.

Let a missile test the water first.

It was to see if there was a secret weapon on the side of the Xinghe Academy.

Obviously.

There might be.

But it would definitely not have an impact on the Great Desolate Army.

"Combat continues, destroy all the remaining nine giant siren leaders, don't let any of them go!"

Xue Rengui gave a deadly order!

A tooth for a tooth, an eye for an eye!

This was the style of the Great Desolate Army!

“Roger!”

The pilots of the nine storm fighters were all immediately launched.

Whoosh, whoosh, whoosh

Nine voices rang out.

Nine air-to-ground missiles were sent out from underneath the warplanes!

Divided into nine directions.

Fiercely swooping down on the remaining nine giant siren leaders!

And at this time.

These nine great sea demons were already under the command of the pretty girl.

Turned their huge bodies.

Began to desperately flee to the rear!

Behind them

There were thousands of ordinary sirens and desert trolls covering them!

Even the griffin group flew into the air.

A black pressing mass!

Zhen wanted to intercept these nine terrifying guys with amazing speed.

Although the speed of the griffins was also very fast.

But how could they compare with the missiles?

They could only watch the nine missiles.

Passing through their side.

Towards the nine heads desperately fleeing sea

The more to the back.

Faster!

Soon they came behind the siren leaders.

“Hurry up, hurry up.”

Pretty girl was completely anxious, hands clenched and shouted!

The ordinary sirens on the ground were still shooting arrows with their bows.

But all of them were useless.

Huhuhuhu

Nine missiles with a terrifying power.
They were coming!
Nine giant siren leaders also felt the great disaster.
All the strength they could muster was exerted.
The huge snake tail slid quickly on the ground.
At this moment, there was only one word in their mind...
Run!
But it was already too late.
Boom!
-a huge sound!
A nearby siren leader was caught up by the missile.
There was no suspense.
A direct hit!
It hit the spot!
A violent explosion.
Again, it was earth-shattering.
The ordinary sirens and desert trolls around were so shocked that they flew out!
Hundreds of companions bodies were torn!
Broken into several pieces.
The smoke dissipated.
There is another big hole in the ground!
And that giant siren leader
No surprise!
Had completely disappeared!
Not even a piece of residue left.
A giant siren leader nearby was terrified.
Unable to stimulate the potential.
The speed was even faster.
But it was of little use.
Compared to the missile, it was still too slow.
Seeing that it was about to be caught up.
This siren leader turned out to be in a hurry.

The giant snake's tail swung.

The body slid and turned in a direction.

Towards the next huge sand pile to hide over.

But!

This giant siren leader was completely unanticipated.

The terrifying thing that was coming straight towards him also... turned in a different direction.

Continue to rush over!

Hit it head-on!

Boom!

There was another deafeningly loud sound.

Both the sand pile and the giant siren leader became ashes!

This time.

There were seven other missiles.

Still in pursuit of each looking at the remaining seven giant siren leaders!

The crowd watching was amazed!

This

In less than a minute.

The situation had completely flipped over.

The original Bei Dou University team was suddenly attacked by the Xinghe Academy!

Lin Youhe and the four others were forced to be eliminated from the tournament!

Only Jiang Fan was left.

The Xinghe academy was very cautious from all sides.

Surrounded by Jiang Fan's musketeers!

And the Desert Lizard that charged the formation very powerfully.

However!

Not many people thought about Jiang Fan's pilots.

There were still some cards left behind!

What's more, no one expected it.

This kind of bottom card weapon was actually So terrifying!

Completely beyond common sense.

Not only was it powerful and fast.

Also able to turn around and precisely hit the target!

Let the siren leader be chased and have nowhere to run!

The five people from the Xinghe Academy in the sparring room.

It was even harder to accept this scene in front of them!

They watched the remaining seven giant siren leader being chased by the missiles.

Yet there was nothing they could do.

Was there still a bottom card?

Yes, there were.

But at this time, it was completely unable to help.

At this moment.

The unanimous thought in the hearts of the five players was –

This exchange championship they might not be a winner anymore!

The great cause of the three consecutive championships was hanging! !

They would not They won't lose, will they?

Chapter 434: Champion! Jiang Fan's name! Son of the age! Although there was nothing good to be done

But the five members of the Xinghe Academy couldn't just stand by and watch the remaining seven giant siren leaders being blown to death in one go like this!

“Run away, run away! Get inside the sand, the other Sirens block, block that thing!”

The pretty girl hurriedly gave orders there.

Her face was no longer the same as before.

Very anxious.

Even

In the end, there was some language confusion.

But the effect of words was really weak.

It stimulated the seven giant siren leaders with all the potential.

They were fleeing frantically at a speed that they couldn't even imagine themselves!

Looking for all kinds of cover.

Some buried their bodies in the sand.

Some just came across an earthen ditch.

Simply jumped in.

All kinds of things!

The ordinary sirens at the back also desperately wanted to block the seven giant siren leaders in front of them.

Deflecting the missiles for them.

But!

The speed of the missiles was still too fast!

Seven air-to-ground missiles.

Like seven shooting stars.

Rapidly swooped down.

One after another, they hit the seven terrified siren leaders!

Boom! Boom! Boom!

As seven violent explosive sounds rang out.

Inside the competition venue and outside the competition venue.

There was A piece of silence!

Waited until the smoke gradually dispersed.

The crowd looked again.

There was nothing unexpected.

The seven hard-bred siren chiefs had been turned into ashes!

Not a bit of scum left.

The siren beside him wanted to block the sword for the giant siren leaders.

But it was useless

The dead died.

Wounded.

The scene was full of broken limbs and into a mass of black charcoal body.

Diffused with the smell of meat being roasted.

Looked extremely tragic!

Xinghe Academy battle room was unprecedentedly silent.

The pretty girl watched with her own eyes as the seven siren chiefs that she had cultivated were taken out like this!

Both hands clenched up tightly.

Fingernails were almost sunk into the flesh of the palm.

“Report, mission completed, all targets have been destroyed!”

The fighter pilot reported.

“Continue with the next attack plan, completely crush the opposite side!”

There was no smile on Xue Rengui's face, and he said coldly: "The siren, desert troll, and desert lizard on the opposite side are all targets!"

"You guys Strike freely!"

Except for that only threatening siren leader.

The other transcendent races weren't that important.

So Xue Rengui gave an order to strike freely!

For dealing with ten giant siren leaders.

The Great Desolate Army only used Ten air-to-ground missiles!

And a storm fighter could carry fifteen!

In other words.

There were twenty rainstorm warplanes in the sky.

The entire load was three hundred!

Besides, the ten used up.

There were still two hundred and ninety pieces left to use.

This was also the Great Desolate Army's small glory formation battle.

The adequate missiles prepared.

And that was not all.

In the secret warehouse of the Great Desolate Army.

There were more missiles in reserve!

What was the concept of two hundred and ninety pieces?

Only Xue Rengui and Su Dingfang had a rough idea.

Because

The Great Desolate Army had not actually used so many missiles either.

But they could imagine it.

That power was absolutely heaven-destroying!

It was enough to clear the playing field The power was enough to annihilate this competition site !

"Don't give up, don't give up."

In the Xinghe Academy battling room.

The white-clothed young man opened his mouth to encourage: "Don't look at such a powerful secret weapon like Jiang Fan's pilots, but you should also know that"

"The more powerful something is, the smaller the number must be!"

“They estimated that after solving the siren leader, there won’t be anymore.”

“Even if there are still, they estimated it to be just a few.”

“Right!”

The captain, a tall and young man, also nodded and exclaimed, “We still have a chance, as long as we are on the ground and break through the opponent’s musketeer’s defense line!”

“This victory is still ours!”

“Don’t be intimidated by the scene just now!”

“The other side definitely doesn’t have many of these weapons.”

The taller young man said, the clearer his mind became, and he quickly made a tactic: “Next... we have to pay a certain price to deal with this powerful weapon.”

“Wait until the opposite side of weapon is used up, that’s”

“Our chance!”

“That’s right.”

The pretty girl also took a deep breath and said, “My siren army can still have tens of thousands of them. What are you afraid of? Rush over!”

“I don’t believe it, there are still a lot of weapons like this...”

The words have not finished yet.

The five people saw

The sky dome above.

Twenty rainstorm warplanes again launched.

A piece of that long oval terrifying weapon from the bottom of the warplane launched out!

Rapidly towards the ground at various locations!

In all directions, from all angles.

And it was still continuous.

Each plane carried fifteen missiles.

Now get ready for another volley!

-One, two, three.

Eight, nine, ten!

In the horrified gaze of the five members of the Xinghe Academy.

The warplanes fired missiles without stopping at all.

More and more.

Getting bigger and bigger!

Looking at the sky that kept approaching falling down the long oval-shaped terrifying weapon.

The frightened eyes of the five members of the Xinghe Academy.

The more powerful the weapon, the smaller the number?

The other side must not have many of these weapons?

This thought

It was no longer necessary.

Any corresponding tactics also didn't need to think much in the past.

Hoo hoo hoo

Ten missiles whistled.

Swooped in ten different directions.

Aimed at the three groups of Sirens, Desert Trolls and Desert Lizards, respectively!

As for the griffins in the sky.

It was terrified by the scene where ten sea monsters were just killed.

Dodge far away!

Who would dare to go forward to intercept?

The three groups of sirens were on the ground.

They tried to be smart this time.

Knew to disperse ahead of time!

But it didn't work either.

The speed of the missiles was still too fast.

Almost instantly.

It came to the head of the three groups.

And fell down violently!

Several successive violent explosions rang out one after another!

The ground shook like a mountain.

The ground seems to have turned over.

Only the transcendent beings who experienced it.

Only then would they realize

What a terrible power this was!

After the seven terrifying bombardments.

In the playing field, there were seven big pits!

Inside and outside the pit.

The remains of the limbs and trunks of the Sirens, Desert Trolls and Desert Lizards were everywhere.

The blown up debris was everywhere.

It filled the entire field with an unpleasant smell.

Let people want to vomit!

Even though it was covered with thick scale armor.

A desert lizard was hiding in the sand.

Couldn't stop this horrible power.

And blown up on the spot to the sky.

Not to mention the low defense of the siren group.

Didn't know how many died.

It could be judged from the stumps that could be seen everywhere on the ground...under the bombardment of the missile just now.

At least four thousand casualties!

Desert trolls and desert lizards were not much better.

Added up, the number of casualties was tens of thousands!

And in the sky.

Twenty rainstorm warplanes bottom.

There were still two hundred and eighty missiles hanging!

"Shall we continue?" Su Dingfang asked.

"Let's see what the other side decides."

Xue Rengui's face was calm as he said.

"This This"

In the sparring room.

Lin Youhe, Wan Yunsheng and the others saw this amazing sight of Twilight.

All of them were speechless with shock.

Jiang Fan just said that

Pilots still had actual power yet to be exerted!

All four people had guessed.

But they completely did not expect it.

This actual power was so terrifying!

The strength of the strong siren leader, the enormous size of the desert troll, the desert lizard with amazing defense.

Not even a little defensive resistance!

Even

Couldn't even escape and blasted completely and utterly!

Not even a little remnant was left.

"Don't stand still."

Jiang Fan spoke; "Get ready, we are going to take the championship!"

Chapter 435: Champion! Jiang Fan's name! Son of the age! Although there was nothing good to be done

There were no surprises.

After witnessing the devastating scene.

The five members of the Xinghe Academy were even more reluctant.

They couldn't believe it at all.

But also could not continue to hold on!

This was a completely one-sided slaughter.

Especially after seeing that there were still hundreds of densely packed at the bottom of the storm fighter After such a terrible weapon.

A team member's confidence almost collapsed.

"Captain!"

The shell-dried girl looked at the tall young man.

A very reluctant look flashed in her eyes.

The tall young man shook his head.

A bitter smile appeared at the corner of his mouth.

He also did not know what to say.

Their Xinghe Academy varsity team.

Five great mythical level talent players were considered to be one of the strongest lineups in the history of the Xinghe Academy.

There was even the name "Team of Stars" outside.

The biggest championship favorite of this exchange tournament!

Surprisingly

One person defeated the opposite side?

It was a complete and utter blowout!

“We admit defeat.”

Finally

The tall young man still sensibly chose to surrender.

Even though there were still tens of thousands of transcendent races on the ground, and the griffins were unharmed.

But there was no longer any point in fighting any longer.

“The Xinghe Academy team concedes defeat, and the Bei Dou University team wins this match.”

“Congratulations to the Bei Dou University team, which has won this superlative academy exchange tournament Champion!”

Along with the referee’s voice.

Many people just woke up like a dream.

But the shocked look on the face still remained.

“Yeah! We won.”

Lin Yuhe didn’t care so much.

The first one jumped up.

Then

They realized something.

And tightly hugged Jiang Fan.

Hot tears flowed from his eyes.

It was not easy!

It was so not easy!

Wan Yunsheng, Xiang Zhifei and Jane Ziqiang also came over.

They also embraced Jiang Fan.

“Thank you!”

The four of them said excitedly.

They were all very clear.

This year’s exchange tournament.

To go all the way from the top thirty-two to now.

The main reliance was on Jiang Fan.

Especially on the final!

The five of them were dragging the legs!

“Don’t say that. We’re teammates. The victory belongs to the five of us.”

Jiang Fan said with a smile.

Then he looked at Lin Youhe.

Lin Youhe froze slightly.

Then he reacted.

Taking a deep breath, he shouted, “We are the Champions!”

After a simple celebration.

The crowd walked outside the sparring room.

The outside was already abuzz with excitement.

At this moment.

Everyone’s eyes.

The eyes of over a million people watching this match in the thirty-six academies.

They all gathered around Jiang Fan and the other five people.

There was excitement, envy, and joy in the eyes of the people.

But more than that, there was shock and disbelief!

“This should be the biggest dark horse in the history of the exchange tournament?

The biggest one of the cold ones, right?”

A teacher marveled.

“Definitely.”

Another teacher nodded and said, “The lineup of the Xinghe Academy, even if placed in any session, would be the strongest contender for the championship, but who would have thought that”

“Surprisingly, they were defeated by one person!”

“The pilots Jiang Fan built are just too terrifying, too horrible.” A teacher couldn’t help but shake his head and lament, “Just now I felt that even if Xinghe Academy’s team was a few times more, they still couldn’t resist.”

“No need to feel, it’s definitely unstoppable.”

An elderly teacher said: “There are twenty planes in the sky but There are at least two hundred more of those terrifying weapons, if all blasted down, it will wipe the Xinghe Academy out!”

“In short Xinghe Academy’s three consecutive wins, broken.”

The same as before.

Jiang Fan and the five people and the Xinghe Academy team members still held a friendly handshake.

The mood of the five players of Xinghe Academy was very low.

Disappointment was clearly written on his face.

Before the exchange match, no one thought highly of them.

The only one that could bring trouble was the host, Yaoguang University.

Or even themselves.

They also thought that they were only here to go through the motions.

They have already placed their eyes on those top sects and dynasties!

But who could have imagined that Jiang Fan would emerge from Bei Dou University, a demon of all demons!

-The power of a man!

Beating them without any temper at all.

“Congratulations.”

The tall young man shook Jiang Fan’s hand and said, “We’ll have the chance to meet again in the future, and next time we won’t lose so badly.”

“If there’s a chance.”

Jiang Fan smiled faintly.

After shaking hands.

What followed was the

Award ceremony!

The exchange competition also had a trophy!

Su Jicheng and other leading teachers all gathered around.

The joy was overflowing!

The eyes couldn’t hide the color of excitement.

Especially the vice principal who led the team.

The tears of excitement could not stop.

Not easy.

It was not easy!

This was the history of Bei dou University The only exchange tournament championship trophy!

And probably the only one ever since.

And achieved victory over such a strong opponent!

The five members of this class.

The coaching staff and he, the vice president of the team.

They would stay in the history books of the school.

The crowd was very happy.

Crazy celebration.

Of course, not everyone was happy.

In Ao Xiong villa.

A bunch of people's faces were completely black.

"Damn it!"

Li Zihao slammed his fist heavily on the wall and said hatefully, "These losers from Xinghe Academy, they're really wasted!"

"There's only one person over here, Jiang Fan, five against one, and he still Lost?"

"Shame on you. What five super trashes!"

"Don't be angry."

Ao Xiong narrowed his eyes and said, "Jiang Fan led the team to win this championship and is destined to have a much higher voice in the school in the future, so you should pay attention in the future."

"Don't mess with him!"

"Of course, we won't be foolish enough to take the initiative to mess with him, but what if he comes looking for trouble with us?"

Li Zihao was a little angry and a little worried, "We quit the school team on our own initiative, if he wants to find trouble with us, he has plenty of reasons!"

"Even if it's a bit too much, will the school still deal with him? I'm sure they'll just turn a blind eye!"

"Don't worry about that."

Prince Qing spoke up and said with a faint smile, "With the blessing of the Crown Prince, Jiang Fan can't do anything to you guys."

"Right, there's still the Crown Prince."

Only then did Li Zihao and Wang Yiteng breathe a sigh of relief.

Within the void of the Yaoguang University.

There was a huge projection.

Inside this incomparably wide projection screen.

What they displayed was exactly

The scene of the Bei Dou University team holding the trophy and celebrating excitedly!

Not far from the projection.

A semi-transparent and semi-void-looking tea table was placed.

On top of the tea table.

They placed a pot of tea and two teacups.

At the back of the tea table.

There were two old men sitting.

-one dressed in green and one dressed in blue.

“Bei Dou.”

The old man in green looked at Jiang Fan in the picture and laughed: “I never thought that your school this year actually recruited such a demonic student.”

“I heard that it still came from a small place in Dongyang Province.”

“It can’t be helped. Who told you that one of the top ranked schools has no vision?”

The blue-clothed old man laughed harshly.

If you let the vice presidents of Yaoguang University and Beidou University saw it.

It would surprise them to recognize it.

These two old men were

The powerful existences high in their respective schools –

The actual controllers of the two schools!

Two level six planet masters!

As level six planet masters.

Both of them have lived for an unknown number of years.

Even

Few people outside knew their names.

Each was called by their own name.

Also directly called with each other’s school name.

Chapter 436

436: Champion! Jiang Fan’s name! Son of the age! Although there was nothing good to be done

“Dare to say it?”

The green-clothed old man shook his head and laughed: “I’ve inquired, your school is crooked, and it cost a lot of money in the first place, just for Jiang Fan’s provincial top student status!”

“Luck is also a part of strength.”

The old man in blue smiled faintly.

“This Jiang Fan

The green-clothed old man said with some emotion: “The musketeer he built at level one is nothing, but this level two built pilot is

Very scary!”
“Even if you look at history, in terms of output alone, at this time, few can compare with it.”

“Historically, that’s too long, I’m not sure.”

The old man in blue picked up his cup of tea and gently took a sip, “But with what I’ve seen in these ten thousand years.”

“In terms of output, there is no race that can rival the pilots when they have just been promoted to the second level soon!”

“It’s just that

The defense is still short.”

“Hahahaha, you’re being too strict.”
The old man in green laughed: “With this output ability alone, Jiang Fan is already enough to be compared to those epoch-making geniuses in history.”

“I can’t imagine that. We’ll still be able to witness the birth of an epoch-making demon in our remaining time!”

The blue-clothed old man smiled faintly.

Not much to be said.

“But

”
The blue-clothed old man seemed to think of something and looked at the blue-clothed old man and said, “It’s a bit of a pity, if Jiang Fan could have been born ten years earlier, or even five years earlier.”

“Plus, the prince of your school, you will not have to worry at all about the lack of successors behind!”

“That can’t be helped.”

The blue-clothed old man put down his teacup and said, “You and I both understand that the more demonic a person is, the less favor the heavens will have.”

“Well, Yaoguang, I have to go back too.”

The old man in blue stood up.

“Sit down for a while, today is the big day for your school to win the championship.”

The green-clothed old man retained his words.

“No way.”

The blue-clothed old man sighed and said, “I guess the time for that big event is coming soon, I still have to train the prince more.”

“Our school is not like you guys, there are so many demons!”

“Then I also have to monitor those little guys who don’t let people worry, Bei Dou, I’ll see you next time.”

.....

A very distant territory from Beidou University.

It was in a tall mountain range with an extremely unique aura.

This was precisely the location of the clan of the top clan, the Dao Clan!

-In an ancient and simple building.

A young man in white was sitting with his knees crossed.

Meditating on strengthening his planet.

Stepping

The sound of footsteps rang out.

A black-clothed young man walked in with quick steps and shouted, “Daozi, the thirty-six superlative academies exchange competition is over.”

The white-clothed young man glanced at the black-clothed young man and said unimpressed: “Seeing how excited you are, the so-called super-first-class universities can only be seen by Xinghe University and Yaoguang University, other schools... and other sects. It’s far worse than that!”

“Then guess which school got the exchange championship break this time?”

The black-clothed young man’s eyes flashed a trace of an inexplicable smile.

“The champion is definitely the Xinghe Academy.”

The white-clothed young man said without thinking.

“This time You guessed wrong, the champion is not the Xinghe Academy.”

The black-clothed young man had a smile at the corner of his mouth.

“Not the Xinghe Academy?”

The white-clothed young man faintly froze and said, “Can’t it It’s the Yaoguang University?”

“It’s not Yaoguang University either.”

The smile on the black-clothed young man’s face became even stronger.

Hearing that.

The white-clothed young man blinked in some surprise and asked, “Then who is it? I remember that this year, there are no strong super-class academies apart from Xinghe University and Yaoguang University, which are not as strong. Could it be that these two schools have released water in the competition?”

“That’s not true.”

The black-clothed young man did not hide and explained, “Xinghe Academy and Yaoguang University met in the semi-finals.”

“As we guessed, Yaoguang University is still less powerful than Xinghe University, and was eliminated by Xinghe University.”

“Xinghe Academy has five great mythical level.”

The white-clothed young man nodded and said, “Their lineup is very balanced, Captain Gao Sheng and that beautiful-looking girl named Mo Yao created the race and are very powerful, even against our Dao Sect also has a battle to fight!”

“And then You mean they actually lost?”

“Yes.”

The black-clothed young man nodded and said, “In the final, they ran into the not-so-famous Bei Dou University.”

“Bei Dou University.”

The white-clothed young man frowned slightly and said, “I remember that it was ranked at the back of the thirty-six super-class academies, can’t it be that they still have hidden their strength and also have five Great Mythic level?”

“You may not believe me when I say it.”

The black-clothed young man laughed and said, “The lineup of the Bei Dou University team has only one Great Mythic level, the other four people are legendary level, three are epic level, if placed in our clan, even the fifth echelon can not be selected.”

“This lineup”

The white-clothed young man was also shocked. His eyes showed a trace of doubt and said, “You mean Xinghe Academy lost to such a lineup?”

“It’s true. See for yourself.”

The black-clothed young man opened the communicator in his hand and projected out a page.

It was the report about this exchange tournament.

On it was the image of Jiang Fan and the others holding the trophy.

“The finals have just ended.”

The young man in black continued, “I’ll play you the match video. I couldn’t believe it just now.”

The black-clothed young man clicked quickly.

The video of the match between Bei Dou University and Xinghe Academy was projected.

The white-clothed young man was also staring with wide eyes.

When he saw that, the Xinghe Academy came up.

They used a surprise attack tactic.

Lin Youhe, Wan Yunsheng and four others were forced to admit defeat and leave the game.

When only Jiang Fan was left alone.

The white-clothed young man frowned and said, "You're not mistaken, are you? How else can this Bei Dou University fight?"

"Keep looking down."

A mysterious smile appeared on the black-clothed young man's face.

The projection sped up the playback multiplier.

Wait until the warplanes on the side of the Great Desolate Army were ready to make a move on the big sea demon.

Only then did it return to the original speed.

When a missile was seen whistling.

It blew a siren leader up the Yu Fei!

The white-clothed young man could not help but stand up, with shock in his eyes.

With his eyes.

He saw

How terrifying this long oval weapon was!

He wanted to watch all the match footage.

It was even more straightforward to be silent.

"What is the name of this student from Bei Dou University?"

After a moment.

The white-clothed young man asked.

"Jiang Fan, the only Grand Mythology level freshman from Bei Dou University this year, built a brand new race like never before."

The black-clothed young man explained, "Built the Musketeer at the first level."

"The ones you just saw are the brand new race he built at level two – the Pilots."

"Pilots?"

The white-clothed young man nodded slightly and said, "A very powerful race, especially in terms of output, I can't match it."

"Haha, it's rare to hear you say something like that."

The young man in black laughed.

"Although I am arrogant, I also know myself. If I were to challenge this Jiang Fan now, I would definitely lose."

The white-clothed young man looked serious and said, "I never thought there would be such a genius in this era. Hmm, I'm going to continue my seclusion!"

After saying that.

The white-clothed young man directly rushed away!

Seeing the ancient building doors that were closed again.

The black-clothed young man shook his head and muttered: "Dao Sect and Jiang Fan are both amazingly talented and can be considered epoch-making geniuses, but it's a pity Time waits for no man, that once-in-10,000-years event is expected to start soon."

Chapter 437 : Triumphant Return! Attention from the Empire! Amazing Rewards

After the award ceremony.

The dozens of people from Bei Dou University also had a simple small celebration.

Thanking the warm invitation from Yaoguang University.

The next day, they took the airship..... and returned to Beidou University.

As soon as the airship landed.

Jiang Fan felt outside, the unprecedentedly warm atmosphere!

"So many people."

Looking out through the window.

Lin Youhe couldn't help but marvel.

Jiang Fan turned his head to look.

Then he saw.....

A black crowd.

The school's principal, school leaders, instructors, staff, students, and so on.

All that could come.

From a high place to look over.

They estimated that there were at least ten thousand people.

There were also various slogans and banners in their hands.

This was the first time in the history of Bei Dou University to win..... The championship of the exchange competition!

There was no element of luck.

The school side naturally held a grand triumphal ceremony!

The vice president and Su Jicheng and others walked in the forefront.

Got off the airship.

Immediately move aside.

There was a large space in the middle.

Left for the five team members at the back.

Jiang Fan was very helpful.

But there was nothing he could do.

He could only hold the trophy.....

The first walked down.

He walked to a red carpet specially laid at the school's concubine gate.

“Jiang Fan! Jiang Fan.....”

Many people were shouting excitedly.

More excited than even the five players themselves.

Waiting for Lin Youhe and the others to walk over.

Again with the same old rules.

Raise the trophy high once again.

Once again, there were a lot of cheers in the audience.

Jiang Fan found out.

The school celebrated this hard-won exchange championship.

We could say that they spared no effort.

All kinds of tricks were used.

In a crowd of people.

Ao Xiong and others didn't want to come.

But also had to come.

There was a forced smile on his face.

Looking at Jiang Fan, who is like a star holding the moon.

These few people were not feeling good in their hearts.

“You all keep a low profile in the future. Try not to go out and develop your respective planets properly.”

Ao Xiong lowered his voice and explained, “Hang in there for a few months first, wait until after the Crown Prince officially becomes the successor.”

“We know.”

Next to him, Li Zihao nodded and said, “Just let Jiang Fan be complacent for a while. Anyway, the successor of the school is the Crown Prince. It’s useless for him to be in the limelight now!”

Ending the fussing triumphal ceremony.

They brought Jiang Fan and the other five team members inside an office.

From a crystal box, the vice principal took out five sealing crystals and said, “This is the reward the school will give you for getting the championship this time.”

Jiang Fan and Lin Youhe took the five one by one.

Curiously, they looked at them.

“You guys should have heard of this stuff.”

The vice principal smiled and explained, “It’s the famous Water of Life.”

“The Water of Life!?”

Even Lin Youhe, who had a strong family history, revealed a hint of joy.

“The Water of Life is a treasure that the High Elf civilization can make, capable of accelerating the reproductive efficiency of transcendent races.”

Lin Youhe said in surprise, “This is..... good thing.”

“Is it very precious?”

Jane Ziqiang, who came from an ordinary person, asked in disbelief.

“Of course it’s precious.”

Lin Youhe explained, “When this is placed outside, it will be auctioned for at least one billion.”

Then.....

Looking at Jane Ziqiang, he said, “If you don’t want it, you can sell it to me, I can give you the best price.”

“Then I’m not selling.”

Jane Ziqiang immediately tightened the Water of Life in his hand.

When Lin Youhe and the four people left.

Jiang Fan, however, was left alone.

“Headmaster, is there anything else?”

Jiang Fan asked.

“The championship this time...”

The vice-principal looked at Jiang Fan with a hint of kindness on his face, and said, “Actually, there’s no need to say that everyone understands that it’s almost all thanks to your ability alone that you got it.”

“For your reward, one serving of the water of life would not quite be enough.”

“But if we give too much, it’s inappropriate, so”

The vice principal paused for a moment and said, “After deliberation, we added three billion to the strongest freshman input, in addition give you the key prize of this exchange competition.”

“Prize only for me. Isn’t that appropriate?”

Jiang Fan wasn’t the type to eat alone either.

Since it was a group tournament.

Then we have to follow the rules of the team competition.

Just like soccer, basketball, e-sports and other team events in the previous world.

Even if the individual ability was powerful.

The credit was greater.

But in the end, the prize money was shared equally.

“No no.”

The vice principal immediately explained, “This is not the result of our discussion, but Lin Youhe, Wan Yunsheng, Xiang Zhifei and Jane Ziqiang and the four of them decided.”

“After all”

“As you know, there is only one copy of this championship reward.”

“Alright then.”

Since they all said so.

Jiang Fan could only accept it.

.....

At the same time.

In another vast territory extremely far from the Federation!

It was also almost boundless.

Incredibly vast!

This was

Another super tremendous power that was on par with the Federation –

The Empire's territory!

It was different from the Federation.

The Empire adopted the monarchy!

There were strict rules from top to bottom.

Management was very strict.

Underneath a power.

It was completely under the rule of the empire.

Unlike the Federation, it could be said that it was only a loose alliance of forces.

In the inner city of the imperial capital, in the center of the empire.

Chapter 438 : Triumphant Return! Attention from the Empire! Amazing Rewards

There was an enormous area of the palace complex!

But because of the very large number of imperial family personnel.

And only a few were valued.

And qualified to live in it.

Inside one of the gloriously luxurious palaces.

A tall, oval-faced young blond woman of only eighteen or nineteen years old was enjoying her lunch under the service of a servant.

Several servants were slightly lowering their heads.

They didn't even dare to lift it up.

At this time, there was a sound of footsteps from outside.

An old man in black walked in and said slightly respectfully, "Princess."

"Master Bis, have you had your lunch yet? If not, come and eat together."

The blonde smiled and invited.

If it was someone else.

The blonde beauty didn't have this kind of expression.

Because.....

This old man in black was a powerful planet master at the peak of the fifth level.

But such a character.

Now it's just the bodyguard of the blond beauty.

This showed the power and depth of the empire!

"I've already used it, Your Highness Princess Elu."

The old man in black returned.

“Then what is your business here?”

The blonde beauty named “Elu” looked at the old man in black.

“The latest news is that the exchange tournament between our empire and the federation has been cancelled.”

The old man in black said.

“Canceled?”

Princess Elu blinked and said, “Is that true?”

“Definitely.”

The black-clothed old man affirmed.

“Then it’s a pity.”

Princess Elu’s face showed a trace of regret, said: “I was thinking of abusing those so-called heavenly pride of the federation, I heard that this year, the federation side has also produced many supreme demons, like Dao son of the Dao Sect, the Li Huo Dynasty’s Prince Zhe has a great reputation.”

“Now the geniuses on the Empire side are no longer much of a challenge, so why cancel it?”

Princess Elu thought about it, and then suddenly thought of something and asked in disbelief, “It can’t be Because of that event, right? But that event is estimated to be a month later at the earliest. It has nothing to do with us, the younger generation.”

“Nothing to do with that one event.”

The old man in black paused and said, “According to the information I have inquired privately, it is said that the Federation has a Extremely evil character!”

“Extremely evil?”

Princess Elu blinked again and said, “Don’t tell me that the exchange competition was cancelled because of this person?”

“It seems that way.”

The black-clothed old man also said somewhat helplessly: “This demon is named Jiang Fan, a student of the superlative academy Bei Dou University over in the federation, relying on his own strength, defeated the five mythical Xinghe academy and got the champion of the superlative academy exchange tournament!”

“Now the rumors are going around outside”

“Jiang Fan should be the strongest freshman of this session of the Federation!”

“More powerful than any previous class!”

“Is it that strong?”

Princess Elu’s eyes showed a hint of shock, then she leapt a bit and said, “It seems I’ve met my match. No, I’ll go beg Father, say whatever it takes to keep the exchange tournament going.”

“Don’t.”

The old man in black immediately blocked: “Forgive me

The black-clothed old man glanced at Princess Elu, hesitated and said, “Your Highness is afraid that You’re not a match for this Jiang Fan!”

Hearing that.

Princess Elu was not angry.

Instead, she suddenly thought of something and asked: “In that case, is it possible that this Jiang Fan’s talent can he still rival my sister?”

“Princess Shia?”

The black-clothed old man faintly froze and said, “Princess Shia already ranked above the Star Ranking. So it can’t be compared like that, but if we talk about talent, it’s hard to tell the difference.”

“That’s a bit of a pity.”

Princess Elu blinked, with a hint of expectation in her eyes and said, “This Jiang Fan would have been better if he could have been born a few years earlier. Maybe he would have been able to see a match with my sister!”

.....

The school had a special car for transportation.

Sent Jiang Fan back to his villa.

Came to the front of the villa.

Jiang Fan took a look.

And found that

The outside of his villa seemed to have been carefully taken care of.

The lawn, trees, flowers, etc. had obviously been trimmed once.

The ground was clean.

It was spotless.

Jiang Fan knew without thinking.

It must be the school’s doing.

Returned to his villa.

After taking a shower.

Jiang Fan took out a big box.

Inside the box was the prize for the winner of this exchange competition!

Took it out and looked at it.

There was no surprise.

It was a sealing crystal.

Only

This sealing crystal was a bit large.

Inside the seal was a cube of things.

The side length was about half a meter.

There were some unknown language symbols and pictograms on the surface.

The whole presents a regular cubic moment!

“According to the Yaoguang University, this thing was called The Object of Strange Action.”

Jiang Fan couldn't help but recall what the Vice Chancellor had just told him, “As the name implies, like the Strange Creature, it's a mysterious thing that can't be seen through its origin!”

“But This thing?”

Jiang Fan observed the symbols and patterns on the exterior of this cubic unidentified object.

A strange look gradually emerged on his face.

This strange walking thing.

How does it look

Like the thing seen in the film and animation works in the previous life.

Chapter 439 : Single Allspark! Quantum Cat's ability!

Allspark!

These three words instantly came to Jiang Fan's mind.

“This thing.....It can't really be an Allspark, right?”

Jiang Fan blinked his eyes.

There was some disbelief.

Immediately afterwards, Jiang Fan asked the deduction system.

“System, deduce the origin of this championship prize?”

A moment later.

The result of the deduction came out – a single fire seed source, from a natural birth.

“A single fire source?”

Jiang Fan faintly stared.

It seemed a little different from the one from his previous life.

But.....

Jiang Fan wasn't surprised.

Both the atomic dinosaur in the front and the electric mound in the back.

All were different from the previous life in the movie.

But it didn't matter.

As long as it works.

Jiang Fan pushed his consciousness into the awakening space.

At this time on the Blue Star.

Inside the Xia Kingdom.

The Great Desolate Army was holding a post-war meeting.

The fine tradition of the past was inherited.

The little glory conquest of this time..... Post-war summary was conducted!

The meeting was attended by the seven senior members of the cabinet.

As well as a group of generals and scholars.

“This time the preparation..... is still not sufficient.”

Su Dingfang said directly, “Or rather, the weaknesses of our Great Desolate Army were exposed in this conquest.”

“You should all have seen it as well.”

Su Dingfang swept the crowd and added: “In the last battle, when our teammates were raided by the other side, we could only watch, helpless, unable to help anything!”

“Even if the warplanes were right overhead, they didn't dare to shoot.”

“General Su is right, our Great Desolate Army is still extremely weak in close combat.”

A gray-haired old scholar agreed: “This was nothing before, but”

“In future conquests, it will become more and more obvious.”

“Once it is specifically targeted, it will become the death point of our Great Desolate Army!”

“Of course, there will be less and less space for the ground team to play in the future, it will be the world of air weapons, but the ground team is still indispensable.”

“This shortcoming..... must be filled!”

“This problem was actually thought of decades ago.” Xue Rengui added, “But it's very difficult!”

“Compared to the transcendents, we are just ordinary people, even with the aid of equipment, but our individual strength is still much worse.”

“But.....we still have to make up for it.”

“There is no possibility, but we also have to create the possibility!”

The focus of this meeting was on the last game in the Glory Conquest.

In the match with Xinghe Academy.

The four teammate teams were raided at the beginning.

It made the Great Desolate Army's thirst for melee weapons stronger than ever.

After some deliberation.

Finally, they reached a unanimous idea.

That was.....

Immediately increase the investment in this area.

Must strive to come up with the results of research and development as soon as possible.

But!

This would be very difficult.

With Xia's current level of technology.

They couldn't imagine what kind of melee weapons they could make.

And could fight with the transcendent close to the fight.

This kind of weapon, the team of scholars have been studying instead.

Back in Yan's time.

There was a scholar, crazy bear.

He was trying to develop a tall robot.

But limited by the time.

Not much substantial progress at all.

They also considered the latter to be impractical.

Most of the scholars now were.....developing the ability to wear on the body.....Exoskeleton armor!

It sounded more plausible.

Technically, it was also more realistic.

The difficulty was not too high.

The most important thing was that.....

The cost was not too high either.

“But..... was this thing really able to spar with those terrifying melee transcendent?”

After Xue Rengui inspected the products of these scholar teams.

Couldn't help but issue a question.

Next to him, Su Dingfang also frowned slightly.

Exoskeleton armor was not yet a mature technology.

After a warrior wore it.

He could even tear the tiger and leopard by hand.

But their real opponents were transcendents.

Both heads couldn't help but think of

The glory of the conquest encountered in the demon ape, wolf and forest trolls these melees' ability was a terrifying transcendent race!

There was no doubt.

Exoskeleton armor in front of these transcendent creatures.

It was a matter of a slap on the wrist.

“Gotta change my mind, its Not very good.”

Su Dingfang shook his head.

A look of dissatisfaction was evident on his face.

“But This is already the most advanced armor we have at the moment.”

The head of the scholar team said.

“It's not enough. You guys don't need to hide it, publish the results.” Su Dingfang said bluntly, “To tell you the truth, these things are still far from our requirements! Far, far away!”

The truth was very hurtful.

But it could also motivate the scholars who were not convinced in their hearts.

After witnessing one of the so-called “advanced products” of the scholar team.

Xue Rengui and others held a meeting again.

Decided to increase the investment in such projects.

Same as nuclear fusion.

Included in the key projects.

This was something without a doubt.

The Great Desolate Army would never put their eggs inside the same basket.

The deficiency of melee combat ability.

Xue Rengui and Su Dingfang, who have participated in the conquest, both knew it very well.

Every time there must be defensive combat!

Even if there was a rainstorm war machine.

But the defensive power of the war machine was also a problem.

Also, it could only output from afar!

Simply did not dare to approach!

This made both of them feel a little stifled in their hearts.

“There’s no need for me to guide this.”

Seeing this, Jiang Fan revealed a small smile of relief.

According to the deduction of the deduction system.

Melee weapons were a must.

They could not put all the hope on the war machine.

There were many, many amazing magical races in this world.

Let’s say

Under the ground.

What was the use of a powerful missile?

After watching the progress of the Great Desolate Army.

Jiang Fan began the placement of a single fire source.

According to the results of the system projection.

This time

Jiang Fan divided the Single Allspark into two parts!

He put one part into the third land.

And the other part was put into the first land, which was inside the Xia Kingdom.

On the third land.

After the fire seed source landed on the ground.

Surprisingly, it turned into a pile of silvery gray unknown metal.

At first, it was only the size of a stone.

But with the passage of time, slowly and gradually it become larger.

Spring and autumn.

Wind and rain

A few months later.

This silvery gray metal had grown to several meters.

An electric mound passing by.

Curiously looked at these metals.

With that

Prickly sound.

It released strong electricity.

But there was absolutely nothing to react.

This electric mound tried a few more times.

Found it was really just a pile of metal.

Then bored away.

After a short time.

A silver falcon flew down.

Seeing these silver gray metal, sharp hawk eyes showed a trace of curiosity.

Pecked a few times with a sharp beak.

Found that it could not peck at all.

A hundred puzzled.

Finally, had to leave.

A few days later.

A quantum cat came over.

-While walking.

While looking at the sky with cat eyes.

Seemed to think about something.

But it passed the group of metal.

Suddenly stopped in its tracks.

Turning the cat's head, the star-like eyes looked over.

After seeing the silver gray metal.

The stars in its eyes shone.

Knock knock

At the same time.

These silver gray metals that had been motionless, unexpectedly trembled faintly.

A trace of life seemed to emerge inside.

Even if it was still very faint.

Seeing this amazing change.

A few cat whiskers on the mouth of the quantum cat faintly curled.

Turned his head away.

Deeply hidden!

“So that’s how it is.”

Jiang Fan had been observing the changes in this single fire source.

He happened to saw this scene!

Some realization dawned on him.

Chapter 440 : Single Allspark! Quantum Cat's ability!

“Could this be the Quantum Cat's ability?”

Jiang Fan had a guess, but the results of the system's deduction all said “unknowable”.

Jiang Fan couldn't be sure exactly..... Which specific ability does it possess?

He turned his vision.

Looked at the first land's side.

There were no quantum cats here.

So then.....

That part of the single Allspark also transformed into silver gray metal.

But it stayed in a mountain range.

The number was increasing.

But it was still a dead thing.

Jiang Fan's heart also lost expectation.

“It is estimated that these two parts of the fire source will take two different paths.

Jiang Fan thought secretly.

Not long after that.

A scientific research team that came into this mountain range.

By chance, they found these strange silver gray metals.

Out of curiosity.

This research team knocked off a piece of these silvery gray metal.

Brought back to the Institute.

And handed over to a scholar specializing in mineral research.

This scholar studied some.

He found this silver gray metal extraordinary place.

Immediately reported up.

Passed layer by layer.

Soon

Transcendental Research Institute received this silver gray metal.

After a simple test.

An unprecedented importance.

Even..... alerted both Xue Rengui and Su Dingfang!

“This newly discovered metal was.....able to flow and deform!?”

Hearing this news.

Su Dingfang was very surprised.

“The preliminary test results are just that.”

A scholar said very excitedly, “It's not a liquid metal, but it's more like a liquid metal, possessing the properties of both liquid and solid metals, very incredible!”

“If paired with vibranium, star meteorite iron and tearstone, I think we can create a magical metal that has never been seen before!”

Another scholar clenched his hands into fists and said with a look of anticipation.

Jiang Fan didn't look so much next.

Because of obtaining this metal made from a single allspark.

The Great Desolate Army's melee weapon project had a new idea.

At the same time.

Other aspects didn't fall behind either.

The nuclear fusion project has progressed to a critical period.

Various projects were also proceeding in an orderly manner.

Compared to the previous life.

There were fields here..... that have been exceeded greatly.

But some were still very far behind.

For example, the cultural and entertainment industry.

Jiang Fan had nothing to do.

He simply put his consciousness into it and walked on the streets and alleys of Xia Kingdom.

At this time, the Xia Kingdom and the previous life was not much different.

There were high-rise buildings everywhere.

People's clothing was also mainly fashionable and light.

The streets were full of cars and horses.

The means of transportation.

Cars were still in the mainstream.

The streets were also very lively.

Neon lights, street lights, car lights and other kinds of lights were intermingled.

Pedestrians on the road were like a shuttle.

Most of them were holding a cell phone in their hands.

Cell phones had been around for more than a decade.

Now it has also developed to the point of smartphones.

Jiang Fan looked at this somewhat familiar scene.

There were no emotions.

Continued to walk forward.

Jiang Fan saw an Internet cafe.

To be precise.....

It was an electronic reading room.

Mainly for ordinary people to use the Internet.

This world also had online and handheld games, and there was not much difference in technology.

But the specific game content was.....much worse.

There wasn't much variety.

There were just a few that could be played.

Because the scale of the game market was not yet large.

E-sports competition or something.

They were still far from it.

Not to mention the short video, 2-dimensional and so on.

Yes, there was.

There was still a certain distance from the formation of scale.

On the contrary, in the biological field, development was in full swing!

A company was entering this field.

Compared to the lively biological world.

Next door, artificial intelligence was another hotspot.

Almost every day there was a company clamoring to announce...that it has developed practical artificial intelligence.

After attracting everyone's attention.

Only then explain It was only a certain small area that was more practical.

The crowd was speechless.

Seeing strange things in the back with the current technology.

They estimated the real emergence of true artificial intelligence to be far away.

This was the mainstream of the civilian industry.

And within the Great Desolate Army.

Especially the Transcendental Research Institute.

Now represented

The highest level of technology in the entire Xia Kingdom!

There were all kinds of strange and weird inventions.

Thanks to the emergence of more and more scholars.

The Transcendental Research Institute was expanding its human resources every year.

Although none of these huge numbers of scholars now reached Yan's talent.

But the average level was extremely high.

It greatly surpassed Yan's era.

This also made all walks of life continue to develop.

The development of Xia Kingdom.

It was still moving forward in an overall smooth and orderly manner.

Jiang Fan's gaze turned to the second land.

There was basically nothing unexpected.

After Su Dingfang left.

The Great Desolate Army was all shrunken in the base.

There was no more big action.

The giant gorilla was living comfortably with its back to the Great Desolate Army.

It no longer had to worry about the giant three-headed snake's chase.

Instead, one by one, offspring were born.

These offspring continued to reproduce.

The giant gorilla's family grew again!

And the giant three-headed snake while watching out for this base of the Great Desolate Army.

On the other hand, it had to think about the atomic dinosaurs that were starting to clump together!

Not so comfortable

“Let’s take a look at the third land.”

Jiang Fan’s gaze turned back to the third land.

The electric mound was simply a local tycoon.

There were no natural enemies.

They themselves were the natural enemies of other creatures.

Once encountered these guys who could discharge electricity.

It scared all animals to run away.

For fear of being offered a full set of electrotherapy services by electric mounds.

Electric mound community, with the development of offspring.

The further back, the more powerful the discharge of electricity.

Even

It also developed some seemingly powerful abilities about electricity.

A large number of electric mounds were densely packed.

Dense on the east side of the third land.

And migrated in the center’s direction.

Where the 100,000 volt army passed

That was outrageous!

Hated everything!

Quantum cats lived in the north of the third land.

It was not affected.

Until now.

The entire colony was only about ten!

Compared to the electric mounds that have exceeded 100,000, it was simply less than pitiful.

And the Yukon Kangaroo located in the west.

Because of the existence of the silver falcon.

Reproduction was greatly limited.

The growth was not fast.

But not slow either.

Yukon kangaroo offspring produced by the nursery space were also growing.

Contained more than just baby kangaroos.

Even food and other things were able to fit.

For this land.

Too many kangaroos were simply not useful.

Instead, it was a tremendous burden.

Because the Yukon kangaroo's food was very amazing, each ton could eat several pounds of leaves and fresh grass.

They chewed some of the ground up in potholes.

Unlike the electric mound.

Although it liked to eat fish.

But the amount of meals was not large.

“This should be another manifestation of the Blue Star Eternal Grade talent.”

Jiang Fan had a glimmer of clarity.

The appearance of the Silver Falcon wasn't without a reason.

It was mainly to limit the development of these Yukon Kangaroos too quickly and become a disaster.

The ecology was prevented from being destroyed.

These four groups all developed smoothly.

And in the middle of the third land.

It was also the place where Jiang Fan had cast the single allspark.

The silvery gray metal after being looked at by the quantum cat The amount increased faster and faster.

And!

It also gave birth to a trace of life.

With the passage of time.

This trace of life became bigger and bigger.

More and more intense!

The wind and sun could not stop it.

Jiang Fan quietly watched it.

Finally!

After a month or so.

In an inconspicuous corner of this pile of silver gray metal.

-A small piece of metal suddenly detached itself!!!
