

One Planet 451

Chapter 451: The craziest times! Endless applicants!

At the same time, Jiang Fan applied for another copy of the Water of Life from the school because Jiang Fan won the exchange tournament championship.

Now there was no need for any review.

The school was very quick to give a copy.

Jiang Fan put this Water of Life.....directly to the third land.

The Yukon kangaroos live on the land.

The reproduction of these bouncing guys was accelerated.

Yukon kangaroos were not slow to reproduce.

About one to two babies a year.

With the blessing of the water of life.

More than twice as fast!

As for the side of the electric mound.

He didn't have to worry about it.

These guys were as fertile as rats.

There were several births a year.

Now it had become a big scourge.

If it weren't for the small appetite.

Besides, it was just a little naughty, not much damage to the surrounding environment.

I'm afraid the second land would suffer.

Quantum cat needs no words.

There were still only a few.

All day long not knowing what to do.

And the pile of metal in the middle of the second land.

There was more and more life appearing.

The first batch of life-giving metal.....had begun to thrive.

They curiously surveyed the world around them and developed abilities of their own.

“These little things might have potential later, but they won't come in handy for now.”

Jiang Fan looked at them for a few moments.

Consciousness returned to reality.

Because

He hadn't made the registration yet.

Open the communicator.

Tap out the registration page for the Group Star Competition.

The number of registrants at the bottom..... made even Jiang Fan feel a bit staggered.

This was less than a day's work.

It had already exceeded ten billion people!

“I wonder what kind of astonishing number will there be at the end?”

Jiang Fan muttered to himself.

It was easy to sign up.

Click the sign up button.

Select your region.

Fill in the gender, name, and age and you're done.

Naturally, there was no need to pay any registration fee.

“Region: Long Sky Star Region, gender male, name Jiang Fan, age eighteen, strength: second level planet master, eligible for registration, congratulations on successful registration!”

A moment later.

Among the pages, this paragraph was displayed.

“How did the officials of this competition determine my strength?”

Jiang Fan raised his eyebrows.

Then he looked at this communicator.

He couldn't help but blink and said, “It can't be through a communicator, then the strength of this group of star councils is really..... It's terrifying.”

After signing up.

Jiang Fan continued to go into the awakening space.

Observe the development of the Blue Star.

Here in Xia Kingdom, waiting for the hundred-year plan to be formulated.

Huo Qubing immediately flew to the Great Desolate Army base in the second land.

Continued to supervise the development of melee weapons!

This weapon

After a long time of research and a lot of manpower and money invested.

It had come at a critical moment.

At any time there might be a breakthrough!

Other aspects also need not be said.

A variety of new weapons had been invented.

Some were in development.

For the sake of this conquest of the highest glory.

The Xia Kingdom was once again in full swing.

Mobilized a large number of people.

Full preparations made!

And in the outside world.

Whether it was the Federation, the Empire or other regions.

This time

Basically, they were all silent.

All the way the supreme heavenly pride, or the old guys who have been dormant for hundreds of years were doing the final impact.

In order for this upcoming star competition to adjust to the best state!

Time was like water.

A month's time.....passed in a flash!

Many people felt that they were not yet ready.

The most awaited competition, especially for the level 6 planet owners, the most concerned competition – the Group Star Competition!

Had quietly arrived.

Jiang Fan detached himself from the Awakening Space.

After washing his face.

The communicator rang.

He picked it up and took a look.

It was Su Jicheng calling.

“Jiang Fan, you should have signed up for this time’s Group Star Competition as well, right?”

Su Jicheng asked.

“Yes, by the way, I want to learn more about it.”

Jiang Fan said with a smile.

“That’s good.”

Su Jicheng nodded slightly and said, "It's a rare and good opportunity for you second-tier planet masters who have just recently been promoted."

"To be able to meet the most demonic geniuses of each year for hundreds of years, as well as a single heavenly pride from other places and the unique race they have created."

"Do your best, but don't force yourself, you still have a long way to go." Su Jicheng explained.

"I'm clear about this, do your best."

Jiang Fan blinked and said.

In the villa where Su Jicheng was.

There were several other teachers and school leaders present.

"How's that? Jiang Fan has also signed up, right?"

A school leader asked.

"Definitely."

Su Jicheng nodded and said, "Most of the new students in this class have signed up."

"Hahahaha, another big pile of extra cannon fodder."

-A teacher laughed.

"Actually, those second level peak planet masters are the same."

Su Jicheng smiled and said: "Most people are also cannon fodder. No matter how strong you are, it is useless if you cannot qualify in the end. In the end, only a small group of people are really capable!"

"Don't talk about the entire huge federation, just talk about our thirty-six super first-class universities."

Su Jicheng's face gradually became serious and said, "This time the competition, there are only a few people who have hope."

"If only there could be more places out of the line."

A teacher lamented.

"It can't be helped."

Su Jicheng shook his head, and said, "It seems that there are not many places in Long Sky Starfield, but if we count the entire Endless Starfield, there are not many."

"Let's see, let's see which lucky ones will be able to stand out again this year and become the next candidate for the rank six planet master?"

Inside the villa.

After hanging up the communication, Jiang Fan exhaled gently.

Everyone else thought that Jiang Fan was a demon.

He was even hailed as the strongest freshman in the Federation this year.

But probably not beyond the category of epoch-making demons.

The diameter of the planet was estimated to be only a little over two.

Only

Only Jiang Fan knew.

Now the Blue Star has become much larger again.

In particular, the level of technology in Xia had improved by an unknown amount compared to a month ago.

The hundred-year plan has only just gone to one-fifth of it.

Jiang Fan's goal this time in the Stars Contest was not about seeing the world and gaining insight.

It was not just for a winning spot.

The higher the ranking of the competition, the more generous the reward was.

So

Jiang Fan intended to create an unprecedented miracle!!!

"Is it going to start?"

At the same time.

One place after another.

One by one, the supreme geniuses who carried so many expectations on their backs came out from their respective places.

Stepping onto this event that belonged to all the heavenly pride of the Endless Star Field, The supreme event!

Chapter 452: Competition Opening! Point Ranking!

Since the endless star field was extremely huge.

It was nearly boundless.

A star area and a star area were very far apart from each other.

The time zone was certainly also different.

So the start time of each star area would also be adjusted.

It did not start at the same time.

But all were set at 8 pm in each place!

Twelve hours before the start of the competition, the specific groupings only came out.

This time, the registration period would close.

The final number of registrations showed a horrible number.

Once again, it was a record high!

It made many people secretly staggered.

Just like everyone else.

Jiang Fan also boarded the official tournament page to check his grouping.

The page showed

Name: Jiang Fan.

Region: Long Sky Star Field.

Location planet: Planet Area No. 81.

Here was the grouping tournament

They actually divided it into individual planets.

These planets were naturally the product of the Group Star Council.

Especially used to hold the tournament.

They would uniformly divide each planet into an equal number of participants.

These contestants would fight each other.

Only those who rank in the top are eligible to qualify!

To get the few places that appear.

The competition was very scary!

Every session.

Most of the participants were in the group stage and fell down!

“Is it the 81st planet?”

Jiang Fan wasn’t worried about the strength of this group.

With the ability of the Group Star Council.

This grouping didn’t come simply by lottery.

Rather,

They calculated the strength of each participant in advance.

Then the grouping was done.

There would not be any “group of death”.

It was also not going to let the top contestants meet in advance.

Of course.

Even with the depth of the Star Council.

I’m afraid that Jiang Fan’s Blue Star would also be predicted wrong.

After all

The diameter of the current Blue Star was not even close to that of those second-level peak contestants.

But in terms of population.

That was completely and utterly crushed.

At this time, the communicator rang.

Jiang Fan looked.

There was no surprise.

It was Lin Youhe calling.

After answering, Lin Youhe's figure appeared in front of him and he said straight to the point, "Jiang Fan, which planet area are you in?"

"Eighty-one, and you guys?" Jiang Fan asked.

"I'm in number one hundred and fifty-six, Xiang Zhifei is number thirty-five, Wan Yunsheng is number two hundred and twenty-five, and Jane Ziqiang is number four hundred and six, haha, we're all not together." Lin Youhe said regretfully.

"This is not very normal, although the group star competition is not so prescriptive, but the same place will try to avoid being divided into the same group." Jiang Fan said.

"That I know." Lin Youhe shrugged and said, "But there are so many people from the same school, and many of them are grouped together, so the four of us aren't so lucky."

"If we're lucky, they divide all five of us into a group, we can still"

"Still able to cooperate with each other like the exchange competition, maybe we can get an excellent result!"

"The luck is indeed not too good."

Jiang Fan faintly nodded his head.

He also understood what Lin Youhe said.

Bei Dou University alone had over 100,000 participants.

And there weren't that many in the group.

Naturally, there would be many people who would be assigned to the same group.

According to the situation in previous years.

Many people would join forces to fight together against others in the group!

Some schools were lucky.

There were even several people in the same group to join forces.

And also able to deal with more powerful contestants!

But Lin Youhe and others were not so lucky.

Did not touch a piece to go.

“Go for it. Try not to finish at the bottom.”

Lin Youhe shook his fist towards Jiang Fan.

It wasn't just Lin Youhe here.

Each of the other forces, no matter how big or small, were grouped out.

They negotiated!

Especially those participants who were grouped together by the same force.

Also, they joined hands!

.....

Long Sky Star Area.

Above an immense and incomparable planet.

In a lofty and vast divine hall.

There were rows and rows of second-level planet masters standing here.

It was black and dense.

The number was at least one hundred thousand or more.

These were all the participants in this year's Group Star Competition!

At this moment

Listening to the top of the temple.

A yellow-clothed middle-aged man's lecture.

And around the shrine.

There were six-level planet masters with powerful auras standing there!

But these planet masters did not dare to make a sound.

All were standing respectfully.

Because

This yellow-clothed middle-aged man was the most powerful existence in the Long Sky Star Area –

The lord of the Long Sky Star Kingdom!

He started with nothing.

He founded this Long Sky Star Kingdom with his own hands.

The most powerful power in this region today!

The Federation, the Empire, the Free Realm and many other powers.

None of them could compare to the Long Sky Star Kingdom.

Even

The star competition directly used the word “Long Sky”... as the name of the competition area!

This was clear.

“When I saw you all, I remembered the group star competition that I participated in 10,000 years ago.”

The Long Sky Lord looked at the hundreds of thousands of second-level planet masters at the bottom, and his voice boomed: “It has always been said outside that the winners are most likely to be those within a hundred years of age, but This is not a certainty!”

“I is the best example of this!”

Hearing this.

Many old people with white hair clenched their fists slightly.

They certainly knew the deeds of the Long Sky Country Lord.

The Lord of the Long Sky Country came from a poor background.

His qualifications were top-notch.

But it was not the top.

In that era, there were many geniuses who were more demonic than the Lord of Long Sky.

Because of jealousy.

The Lord of the Sky offended a core disciple of a great power that lead to the destruction of families.

Even survival was very difficult.

But the Lord of the Long Sky bore down.

He endured for over three hundred years.

Until 10,000 years ago when that group star competition

Only then, he reappeared.

Participated in the event!

Finally

The Lord of the Long Sky Kingdom unexpectedly won the winning spot.

He was given the opportunity to be trained by the Group Star Council!

From then on!

The Lord of the Long Sky Kingdom was unstoppable.

The road was unimpeded.

He has grown smoothly from a small second-level planet master to... a powerful sixth level!

The Long Sky Country Lord was clear in his grudges.

As soon as he became a level six planet master.

He came straight back and destroyed that year's enormous power!

And created this Long Sky Star Kingdom!

Why this year's contestants...

Were there so many secondary planet masters who were over a hundred years old?

Part of the reason was this legendary deed of the Lord of the Long Sky Kingdom!

"It's not just you old people."

The Long Sky Country Lord continued, "There are others who must also give their all and believe in their beliefs, your first goal this time is to get the right to qualify for the group!"

"Don't think much about the rest!"

"When it's time to put down face, put down face, when it's time to join forces, join forces!"

Chapter 453: Competition Opening! Point Ranking!

"The geniuses out there are not much worse than you."

"Especially the ten of you."

Long Sky Kingdom Lord looked down the divine hall, standing in the front row of ten young men and women, said: "With your talent and strength, as long as you are not arrogant, you will be in the top 50, or even... the top 20."

"Teacher, don't worry."

A white-clothed young man spoke up: "This time in the competition, we will try our best to win the top ten!"

Of course, he was talking about the top ten of the Long Sky Star Area.

If it was the entire Endless Star Region

Then forget about it.

The entire Endless Star Region.

There were more powerful forces than the Long Sky Star Kingdom don't know how many.

In the depths of the endless star field.

There was an extremely unique huge planet.

This planet was full of rolling hot magma.

There were also erupting volcanoes.

Not even a single life could survive.

On a volcano's top.

There was a young man in red sitting on his back.

Hair long draped down, covering most of his face.

Although the surroundings were searingly hot magma.

Even the ground was over 50 degrees hot!

But this red-clothed long-haired youth was Not affected in the slightest.

Sitting here quietly for an unknown period.

Until a unique shape of the airship approached.

Only then did he open his eyes faintly.

"Your Highness, it's time."

A voice came from inside the airship.

The young man in red with long hair slowly stood up.

Boarded the flying boat.

His eyes looked towards the depths of the endless starry sky.

A hint of determination flashed in his eyes.

"This time in the competition... I must get in the top ten! That way, only then will I have the chance to enter a powerful existence, and only then will I be able to restore my country! Take revenge for my father and mother!"

In another place far away from this lava planet.

There were seven immense stars here.

And in the middle of these seven stars.

There was also a living planet that is many times larger in volume.

If there were outsiders passing by.

Most people would recognize

This was the famous power of the endless star field –

Ice Moon Sacred Land!

Even if you look at the entire Endless Star Domain.

This was a huge thing!

Of course, compared to the Council of Stars.

That still had a gap.

In the middle of the Ice Moon Sacred Land.

A cold pool shrouded in a layer of smoke was at the edge.

There was a clatter.

A stunning woman with a cold appearance walked out of the cold pool.

At the side of the cold pool, four maids were already waiting.

Waiting for a cold and beautiful woman to come up.

Immediately gave her a white dress.

The cold woman came to a small pavilion by the cold pool.

Inside the small pavilion.

At this time, a middle-aged woman with a majestic face was sitting.

“Teacher.”

The cold woman respectfully said.

This middle-aged woman with a majestic face was the The Holy Lord of the Ice Moon Sacred Land!

It was also the strongest person.

It was prestigious outside.

This generation was

Relying on the powerful methods of this middle-aged woman.

The name Ice Moon Sacred Ground.

Let countless people feel fear and dread.

The middle-aged woman had taken many registered disciples, but...

The only direct disciple was a cold woman.

Nothing unexpected.

The next Ice Moon Saint Lord was this stunning cold woman!

“Are you ready?”

The middle-aged woman looked at the cold woman and asked.

“I am ready. My body and mind are at their peak.”

The cold woman replied.

“Very good.”

The middle-aged woman nodded slightly, with a slight hint of softness in her eyes, and said,

“Although you are the most demonic Saintess our Ice Moon Sacred Land has ever seen, carrying the expectations of countless people, Don’t be too burdened in your heart, just do your best.”

“I know, teacher.”

The cold woman said coldly, "This time the group star competition, I will definitely bring back first place to our Ice Moon Sacred Land!"

Although the Ice Moon Sacred Land was ancient and powerful.

But on top of that, the previous Group Star Competition never once won the first!

This was something that had caused the successive generations of Saint Lords to feel extremely regretful.

"First place?"

The middle-aged woman, however, shook her head and said, "The number of participants in this edition is at an all-time high, and there are many, many demons, not just epoch-making demons, but even more exaggerated than that!"

"Some of them are monsters in talent, some have unbelievable luck, some have top-notch resources, and some have a singularly high level of enlightenment"

The middle-aged woman laughed and said, "The Endless Star Domain is so big, and there are so many demons one by one."

"There are also many previously unknown, but are waiting specifically for this competition to come out."

"You have perfectly inherited the heritage race of our Sacred Land though."

"And built very outstandingly, but also must not be careless!"

"Be aware of"

"Every star contest, there is a saying that if you are popular, you will die."

"The more popular the contestant is, the more likely it is to be targeted by other contestants."

"I know, teacher."

The cold woman nodded her head and responded, "I will pay careful attention."

"Having said that, you should not be stressed."

The middle-aged woman looked at the shocked cold woman and said, "Your talent is something I have only seen in my life, and I can't give you more advice on the future, but there are more powerful existences than me in the Star Council!"

"They can give you a fuller training!"

"You play well, striving for the top ten is enough!"

Because the top ten

The first group of stars was able to enter the first batch of the council's training list.

"Yes, teacher."

The cold woman immediately answered: “This time I will definitely take the top three rankings!”

It wasn't just the Ice Moon Sacred Land.

All the top powers in the entire Endless Star Domain.

All of them were doing their best to carry out the final training of the second level planet masters under their respective doors.

The purpose was to be able to obtain a good result in this time's Group Star Competition.

The best was to obtain the winning spot.

And then being included in the training candidates by the Council of Stars!

Just so you know, the group star competition only comes once in 10,000 years!

If it's missed, even if you were more demonic, more genius.

People would not bother with you!

This competition was not only for the secondary planet owners and the forces behind them.

Even for other people who were not related.

It was also a rare event!

The competition had not yet begun.

Many people were already calling friends.

Gathered together.

Prepare to pay attention to this battle of geniuses that only took 10,000 years!

One by one school.

That was why it was a day off.

A superb institution of learning.

The atmosphere was even more enthusiastic.

All of those who could enter here were all the heavenly pride of various regions.

Naturally very enthusiastic about this genius competition!

Not to mention.

This time many of the participants were their classmates or friends.

In Bei Dou University.

The campus was silent.

The atmosphere was even more enthusiastic.

The school also opened up a huge arena.

Chapter 454: Competition Opening! Point Ranking!

As a temporary viewing place for this competition.

In the center of the venue, there was a huge unparalleled projection!

Even in their own dormitories.

They were able to watch the competition live.

But many people still came in groups.

Together with other student teachers to watch this competition.

At the same time.

In a special void of the Xinghe Academy.

Dozens of figures with amazing auras also gathered together.

Among them was a blue figure.

It was the sixth-ranked planet master of the Bei Dou University.

Sitting next to him was a green-clothed old man.

It was also the extremely well-connected Level 6 Planet Master of the Yaoguang University.

“Everyone!”

A stout man in the middle swept a glance at the crowd and spoke.

“This is the first time in how many years that so many of us have gathered together?”

“It must have been at least a few hundred years.”

A tinge of reminiscence appeared in the eyes of a level six planet master as he said, “The last time so many of us met was..... when one of your academy was promoted to become a level six planet master!”

“That's not true, in a flash, it's been a few thousand years.”

The old man in green laughed and looked.

Many people also lamented.

“I don't know where the one from your academy has gone now? I heard that he went to the endless star field to explore the road.”

A rank six planet master asked with a smile.

“How should I know?”

The stout man shook his head and said, “This guy really does whatever he wants, he can leave as soon as he wants.” It's been thousands of years since he left, and we haven't heard a single word from him, and even.....Even don't even know whether he is dead or alive.”

“Don't worry about this.”

The old man in green laughed and said, “This one had such unbelievable luck, and was able to get that kind of heaven-defying treasure before the big day, and stepped into the sixth level in one fell

swoop, which can be considered the only one in the Federation for tens of thousands of years.”

“Still worried about his life and death, maybe.....”

“This one has some great opportunities outside again, and does not want to return.”

“Hahahaha.....”

In the void, there was a sound of laughter.

“Speaking of which.”

The man in blue from Bei Dou University spoke: “This one also participated in the Group Star Competition back then, but almost didn't even make it out of the group stage, and went back early in the elimination rounds later.”

“Who ever thought that...”

“He actually became a level six planet master!?”

“No way, who told people to be lucky.”

The old man in green shook his head and said, “For so many years, he is the only one who is as lucky, others still have to participate in the competition honestly and with their feet on the ground.”

“Strive for the winning spot.”

“That's..... the only path to level six!”

“That's right.”

The stout and stable man nodded and said, “Luck is illusory and no one is sure what will happen next, but strength can be grasped.”

“Well..... Without further ado, the competition is about to start, let's see together, which heaven defying demons this year..... can stand out!”

Everyone else smiled.

Everyone knew that this year.....

Xinghe Academy had produced several extremely demonic trainees!

Promising to get the winning spot!

Time passed little by little.

It was getting closer and closer to the start of the competition at eight o'clock in the evening!

This time.

Naturally, no one rushed to disturb the participants.

And Jiang Fan had also closed the Star Space for the time being.

With the star space in.

As long as Jiang Fan did not allow it.

Others couldn't get inside.

The communication function of the communicator was also temporarily turned off!

To prevent people from harassing.

The heart of the defense could not be free!

In previous years, there were many people with red eyes and twisted hearts.

They would use various methods to influence the participants.

The school had long been on guard against this.

In the villa area around.

Not only they arranged a teacher patrol.

That planet spirit was also watching the campus happenings.

Of course.

This was within the planet of the sixth level planet master.

No one would be stupid enough to cause trouble here.

Time passed by second by second.

Finally.....

Eight o'clock officially came!

The group stage of the group star competition officially begins!

This tournament did not have any messy opening ceremony.

The vision just got blurry and the next moment.

Jiang Fan found himself..... from the original villa.

Came to a special place surrounded by emptiness.

It felt very similar to the examination room during the college entrance exams.

But the atmosphere was more unique and comfortable!

It was even better than in the star space.

“This should be an enhanced version of the Star Space.”

Jiang Fan secretly thought, “With so many contestants, billions of them, providing a star space for each of them, I'm afraid that only the Star Council can do that!”

At the same time.

Above the Blue Star, outside of the Royal Tomb Mountain Range.

The planet channel slowly opened again.

It was Jiang Fan who had thrown in the official channel seal given to him in advance.

When it was time to start the competition.

It would be open since.

And at the other end of the channel.

It was the eighty-first planet where the group stage was held.

At the same time, there were countless contestants on the planet.

Passages were also opened one after another.

An army of Transcendents.....passed through this passage and entered the respective planets they were assigned to.

And after the passage opened.

-A voice resounded in the mind of every participant.....

“For this group competition, the channel will only last for one hour, and after one hour, it will be closed whether or not the individual participants have sent their teams into the competition planet!”

“Until the individual contestants choose to withdraw, the planet channel will not open again, and the teams of the individual contestants will be transported back to their respective planets.”

“In front of the individual contestants, there is an exit button.”

“Please pay attention! Once you press this button, you will be opted out by default, and your team will be transported out of the competition planet.”

Jiang Fan looked to the front.

Sure enough, he found

There was an exit button on the left!

Once the transcendent race he built was not an opponent in the race.

Then one could press this button to exit.

But because the group stage was a point race.

Therefore

Even if you quit.

It didn't mean that you would be eliminated!

The group's ranking was determined by the final points.

And on the right.

There was a points panel.

It showed the following –

Participant: Jiang Fan

Planet: Planet Area 81

Points: 0

Ranking: None

Jiang Fan naturally knew that.

This was his own group score panel.

Only he can see it.

If people outside wanted to know the points of each participant.

That was impossible.

But on the official page, there was the ranking of each planet area!

“The competition begins!”

Along with the complete opening of the planet channel.

The voice sounded again.

This meant that

This time, the group competition of each planet area of the group star competition also officially started!!!

Chapter 455: Human and Behemoth Allied Forces! Points Sweeper!

According to the rules of the competition.

Jiang Fan's group wasn't just the Federation.

Rather, it was all the participants in the entire Long Sky Star Area!

It would make a more even distribution.

Basically..... participants from the same place were guaranteed to be evenly distributed in each group.

This tournament system was also roughly similar to the previous group star competition.

Jiang Fan had long ago told the Great Desolate Army many details.

Outside the planet passage, the Great Desolate Army had also made preparations early on.

Because the passage lasted only.....One hour!

Therefore!

Even if the Great Desolate Army could mobilize millions of people now!

It would not be possible to get through in time.

Moreover, it wasn't that the more people, the better!

Today's Great Desolate Army was practicing the “lean army strategy”!

Making a big fuss about improving the ability of individual soldiers.

Individual soldiers accounted for a large part of the various weapons developed.

It could be said that

The current Great Desolate Army warriors were like one person.

It could solve a platoon of 30 people in the age of Yan.

This time, the group competition.

The Great Desolate Army sent only 50,000 people!

Of course, the entire team was more than just the Great Desolate Army!

Not long after, the passage opened.

Suddenly.....

Jiang Fan noticed.

A change had occurred on his own points panel.

The ranking on it had changed –

Participant: Jiang Fan

Planet: Planet Area 81

Points: 1

Ranking: 2 (tied)

“Tied for second place!?”

Jiang Fan raised his eyebrows.

Immediately.....

He reacted to what was going on.

This was a contestant who had been eliminated!

According to the tournament's rules.

Each participant's team started out with a Star Fragment!

When eliminated, it would drop half of the Star Fragments.

One star fragment represented a point.

That means, someone had already received another participant's Star Fragment!

“This should be some special transcendent species that ambushed someone near the entrance of their passage and directly eliminated that participant.”

Jiang Fan thought about it.

It wasn't surprising.

In past competitions.

There were many more eliminations that were faster than this.

But this kind of special transcendent species was naturally very few.

And the Great Desolate Army side.

The first group to go in was not the Great Desolate Army.

Instead, it was

Mini drones!

The size was very small, and the shape was similar to a dragonfly.

This was the..... The most advanced drone!

Comprehensive reconnaissance, monitoring, early warning, automation and many other functions in one!

The speed was also very fast.

The most important thing was.....

It was tiny.

Hard to be noticed by other teams.

Micro drones took the lead into the passage.

Detecting everything around.

After ensuring that, it was safe and secure.

Only then did the Great Desolate Army, led by Xu Ji and Huo Qubing.

Passed through the passage in an orderly manner.

Stepped into this immense competition planet.

The number of participants in the Long Sky Star Area this time.....exceeded one billion!

It was divided into a thousand and one groups.

Each group had over one million participants.

In other words.

On this planet.

At this moment

There were already more than a million transcendent teams.

According to Jiang Fan's estimation.

The number of transcendent species on each team would not be less than 30,000!

Because this was a fierce competition.

There were too many teams.

So too much was not good.

But too little combat power was not enough.

Each participant can only make the trade-off himself to decide.

At the front of the Great Desolate Army.

There were no scouts.

Rather

A giant-sized Giant gorilla!

That's right!

This time for the conquest.

The Great Desolate Army brought all the giant gorillas.

And named them King Kong!

The giant gorillas had been staying right next to the base of the Second Land with the Great Desolate Army.

The relationship with the Great Desolate Army was very good.

In recent years, the ethnic group has increased a lot.

Wisdom was also very high.

Hearing the Great Desolate Army was going to fight the Transcendents.

It immediately screamed to join.

The army did not want to bring these big guys too.

But

The development of melee weapons was still in progress.

Although there were some results.

But it was not yet perfect.

Later!

A scholar had a sudden idea put the target on these giant gorillas.

“Do you guys think we can unite our developed armor with these super gorillas, and make the gorillas become powerful melee weapons? Fight for our Great Desolate Army?”

This was this scholar's proposal.

Everyone was slightly taken aback.

Immediately afterwards

All of them slapped their brains violently.
They prided themselves on being scholars among scholars.
They were too smart.
How come they didn't think of such a simple idea!
Compared to the complex and difficult melee weapons.
This giant gorilla was completely ready-made and good to use!
Soon after that, the original armor was not very practical
It was put on the body of the giant gorilla.
It surprised the crowd to find
This was quite suitable.
And so it was!
At this time of the group stage.

The Great Desolate Army was the one who brought all the giant gorillas.
But for the sake of caution.
There were only a hundred of them.
Each giant gorilla was heavily armed, wearing thick armor!
A team of scholars specially tailored this armor for the giant gorillas.
It was mixed with a lot of high-tech materials.
Of course.
The most critical or
The alloy was synthesized by vibranium, star meteorite iron, tear stone and deformation metal!
Officially called – deformation alloy!
As the name implied.
The biggest difference between it and the previous alloy was
It could be deformed!
The whole also had the characteristics of liquid metal.
Not only would it not be uncomfortable for a giant gorilla.
Instead, it could also increase their defensive power.
Besides the deformation armor.
Each giant gorilla was also holding an axe in its hand!
No way.

The scholars tried several weapons.

Only the axe was the favorite of these giant gorillas!

These axes

Naturally, it wasn't the giant gorillas who built that rough stuff themselves.

Rather, Xia Kingdom used deformed alloy-based materials.

The most advanced technology for the current super high-tech products.

After the giant gorilla tried it and was satisfied with it.

Soon.

A giant gorilla, guided by a micro drone, opened the way in front.

The warriors of the Great Desolate Army followed closely behind.

This time the Great Desolate Army.

There was no such thing as a tank.

Because it was a transcendent that was being dealt with.

Tank was useless at all.

It was just a transitional product.

Now it has been eliminated and has become history.

It was replaced by

Transformation chariot!

This was a heavily armored chariot with a spider-like shape and four legs.

The main use was defense and mobility!

Not just on the plains.

In most terrain, such as caves, jungles, alleyways, hills and other places where Tank was difficult to function.

It could easily pass through.

The speed was very fast.

There were two main types of this transforming chariot.

Chapter 456: Human and Behemoth Allied Forces! Points Sweeper!

One was for carrying soldiers.

The other was as a ground fire point.

Because that day's Great Desolate Army's main firepower came from the air.

There was not so much need for the ground.

Besides, the single soldier's combat power was already very strong.

The same as the transforming armor.

Transformation chariot also could be deformed, but because of the limitations of the process, it could only change three postures.

Usually it was spider shaped.

Therefore

Many people also call it – spider chariot!

In the middle of the battle.

It would vary according to the terrain to make a posture shift.

Great Desolate Army warriors were not walking in.

Instead, riding directly in the spider chariot, fast and flexible in the competition planet.

Huhuhuhu.....

Above the sky.

Fighters lined up in a dense formation and flew in.

This was Tempest II!

Compared to the decades-old Stormwater generation.

Both the airframe performance and combat power were greatly improved.

In the development of fighter aircraft.

The Great Desolate Army was very cautious.

With every update, there must be a tremendous improvement.

So.....

For several decades.

The storm fighter had only come to the second generation.

Although the material also contained the deformation alloy.

But the storm fighter wouldn't be able to morph.

“Is this the planet for this conquest? We are going to compete with over a million transcendent teams..... competing in the same field?”

After entering the passage.

Huo Qubing surveyed the environment in front of him, and his eyes couldn't help but reveal a hint of anticipation.

On the outside of the passage entrance.

It was the outside of a building.

Surrounded by a block of tall buildings.

Almost all of them were hundreds of meters high.

But these tall buildings had fallen into disrepair.

It covered the surface with huge vines and moldy spots.

Between the tall buildings.....

There was a wide street that went in all directions.

But they paved these streets with unknown stones, which have also been mostly damaged by now.

Huge weeds and wildflowers sprouted their heads from the stones!

Growing very lush.

And on both sides of the street, gigantic trees block out the sky and the sun.

Some grew to the same height as tall buildings.

What was the situation of the game planet? No one knew before the race.

Only when you get inside you will find out.

So it was impossible to make targeted measures in advance.

Of course.

They could still guess the general situation.

It was nothing more than those types of terrain.

The group star competition was unlikely to suddenly give many participants a “special” terrain.

“Act as planned.”

Huo ordered.

A miniature flew high into the sky.

They detected a ten kilometer radius.

The 50,000 Great Desolate Army entered the passage.

Temporarily stopped in place.

They made no rash moves.

One hundred giant gorillas were on guard outside.

Just a few moments later.

The micro-drones sounded an alarm.

Through the footage captured by the drone.

Both Huo and Xu Ji saw

At a distance of two kilometers from this side.

There was a transcendent team that was silently encircling over.

“Transcendent species have very sensitive ears and a sense of smell. It's normal for them to be discovered at such a close distance.”

Huo thought nothing of it.

“Since the other side sent us to the door, let's settle them.”

Huo Qubing and Xu Ji gave one order after another quickly.

At this moment, this transcendent team..... completely failed to notice.

Above their heads, there were several miniature drones hovering.

Their every move was completely captured!

This was a group of giant Tauren covered in yellow skin!

The number was about 30,000 heads.

Because of their vast size.

It was naturally impossible to avoid bringing up a tremendous commotion while marching.

“Charge, take out all these little ones!”

Seeing that their team has been exposed.

This yellow-skinned Tauren belonged to the contestant A big man immediately barked out an order.

“Yellow-skinned Tauren, a mid-level civilization species.”

Jiang Fan had also read a lot of information about various civilization species during this time.

Naturally, he recognized it at a glance This transcendent species wasn't a partial one.

Because the competition could be registered by any second-level planet master.

Therefore

The level of transcendent species that appear in this varied!

From low level to super!

It could be seen from the entry level of the second level to the peak of the second level.

These yellow-skinned Tauren were over five meters tall.

They belonged to the product of the middle to upper level II planet build.

Rumble

The bull's hooves trampled down.

The huge footsteps sounded like a thunderclap.

It pounced fiercely towards the location where the Great Desolate Army was.

“The storm fighters are moving out, and the Great Desolate Army warriors are cooperating in the battle.”

Huo Qubing commanded calmly.

-Tablets of Tempest II quickly activated.

It flew over the 30,000 yellow-skinned Tauren.

They deployed the two machine guns on the warplanes.

Blitz

Just an instant.

Thirty warplanes fired over 100,000 armor piercing explosive shells!

Armor Piercing Explosive

It was a fully developed version of the armor-piercing ammunition.

Not only was the armor piercing ability a step up, but

The bullets penetrated the body's surface of the transcendent species into the body.

It could also explode.

Although the body of each transcendent species was very strong.

Especially outside the body.

Most had thick skin armor and hair.

Only armor-piercing bullets could break open.

But the internal organs in the body had not so powerful defense.

It was still difficult to resist the power of the explosion.

This was also because of the emergence of deformed alloys.

Able to make armor-piercing explosives to have a deformation in the air.

Eventually burst out with amazing energy!

Ta-da-da

Just for a second.

There are dense groups of yellow-skinned Tauren below.

I did not know how many heads were hit by the armor-piercing explosive!

It differed from the previous armor-piercing bullets.

Previously, armor-piercing bullets needed several, or even dozens, of simultaneous hits.

To kill a transcendent species.

And now the armor-piercing ammunition.

Only one was needed.

One explosion in the body could basically take away a transcendent species!

Boom!

An armor-piercing explosion hit a yellow-skinned Tauren.

It instantly exploded.

The internal organs were blown apart.

It returned to the sky on the spot!

Under the intensive strafing of warplanes.

The bottom did not know armor-piercing explosive shells pierced how many yellow-skinned Tauren!

Immediately after that

Explosions occurred in the body.

On the spot, it was blown up, seriously wounded or directly hanged.

— Within seconds.

There were over a thousand yellow-skinned Tauren casualties!

Blitz

Machine gun strafing continued.

The soldiers of the Great Desolate Army on the ground were not idle either.

Raised assault burst guns in their hands.

Towards the yellow-skinned Tauren within range Firing wildly!

This batch of the Great Desolate Army already had a brand new generation.

This was the first time to participate in the Glory Conquest.

All of them were very excited.

Looking at a yellow-skinned Tauren that kept falling.

Huo could not help but sigh: “That year’s Dahuang Chemistry Award should have been given to this scholar who invented the armor piercing explosive.”

Chapter 457: Human and Behemoth Allied Forces! Points Sweeper!

“The strength of these yellow-skinned Tauren should not be considered much stronger.”

Xu Ji splashed a pot of cold water.

Not long after that, on the street, the dead bodies of the thick yellow-skinned Tauren were piled high.

There were an unknown number of casualties.

“Damn it!”

The builder of the yellow-skinned Tauren – the big man hammered the air hard.

He heavily pressed the “quit” button!

No way.

There was no way. If the fight continued like this.

They estimated that the yellow-skinned Tauren did not even touch the opponent's shadow.

It would all die.

After pressing the exit.

The yellow-skinned Tauren that was still alive on the street... was directly teleported out of here.

Back to the original planet.

And after the yellow-skinned Tauren left.

On the ground appeared a bright..... star fragment.

A giant gorilla's eyes lit up.

Immediately crawled over to pick it up.

A star fragment represented a point!

According to the tournament rules.

The yellow-skinned Tauren was eliminated.

It would drop the usual star fragments.

But because there was only one.

So it dropped only this one.

Jiang Fan looked at his points panel.

There had been a change in it –

Participant: Jiang Fan

Planet: Planet Area 81

Points: 2

Ranking: 977652

There was no need to think, Jiang Fan knew it.

In this short period of ten minutes.

There were already over 100,000 participants eliminated from the competition.

Not even one point.

After finishing the yellow-skinned Tauren.

Huo Qubing, Xu Ji and others were discussing the next step quickly.

“Although we now have all-around upgraded weapons, our mobility is still a weak point compared to those powerful transcendent species.”

Huo said while looking at the images taken by the miniature drone.

“This is surrounded by cities dense with tall buildings, at least a hundred kilometers in circumference.” Xu Ji was also staring at the image and said, “I'm afraid we'll have to fight in the city next.”

For the Great Desolate Army.

Because there were vast buildings on the way.

City combat was not so convenient.

The plains were the most advantageous.

But.....

If you really want to fight, you won't be afraid!

“Then prepare to fight in the city.”

Huo Qubing pondered for a moment and said, “Our advantage is our aerial vision and our ability to detect the movements of other transcendent teams in advance, so.....”

Huo Qubing paused, the corners of his mouth showed a smile and said, “We can wait for the enemy and play ambush war, or.....conduct fishing!”

Compared to the calm and steady Xu Ji.

Huo Qubing's way of thinking was very detached.

Often think of some incredible strategies.

“Ambush is better.”

Xu Ji was very steady and rejected Huo Qubing's idea of fishing.

“All right then.”

Huo Qubing knew that this was the supreme glory conquest and could not be careless, so he said, “Then we will find a good terrain for ambush warfare, and we will lurk on the sidelines, as hunters, waiting for the prey to take the bait!”

With the help of micro drones.

Soon

The Great Desolate Army found an ambush spot with very favorable terrain.

It was a square in this city.

The area was not big but not small either.

Surrounded by tall buildings and large trees.

There were a few roads in and out.

There were no rivers, holes in the ground or other terrain.

The army of the Great Desert enclosed three sides of the square.

They released only one side.

Originally, according to Huo's idea.

It should put the dead yellow-skinned Tauren on the square.

As a decoy.

Such a strong smell.

It would certainly attract other transcendent species around.

But

Because of Xu Ji's opposition.

They could only give up on these "fishing tactics".

Follow a safe ambush.

Doing this, they wasted time.

After about half an hour.

Only then did a transcendent team pass by.

It was a mid-level civilization race that numbered over 30,000 –

Blood Skeletons!

The size was worse than the yellow-skinned Tauren.

Only about three meters in height.

But the Blood Skeleton had a peculiar ability, that was

They could resurrect it once!

Skeletons did not have any pain.

There were also no internal organs.

Even with broken limbs, it couldn't die.

Still had fighting power.

"Hit their skeletons."

After careful observation, a scholar shouted, "Look, is there a light blue flame in their skulls?"

The crowd looked.

Sure enough, they found

In the heads of these blood skeletons.

There was a blue flame that was burning.

The larger the body size.

The darker the flame color!

Chug chug...

The close Great Desolate Army warriors were the first to attack.

Now the accuracy of the assault burst gun was several times higher than before.

An armor piercing burst instantly broke through the white bones of a blood skeleton.

Breaking through the brain.

One even went through the pale blue flame.

The next moment, everyone saw that this blue flame gradually became faint.

“It’s really effective.”

Huo Qubing clenched his fist slightly and said, “Everyone, focus on attacking these guys’ brains and kill them completely!”

Hoo hoo

One of the storm fighters ambushed around them and quickly took off.

Coming over the square.

Once again, the terrifying machine guns were unleashed.

The Great Desolate Army warriors on the ground followed suit.

Even the giant gorillas stared wide-eyed.

A look of eagerness to try.

If Xu Ji hadn’t stopped them.

I’m afraid they might rush up and fight these blood skeletons!

Chug chug

Although the blood skeleton was very difficult to be completely extinguished.

But under the terrifying firepower of the Great Desolate Army.

All of them had broken bones.

Almost completely fell apart.

After three minutes of violent blows.

Over thirty thousand fell down Nearly five thousand of them!

And at this time.

They even didn’t knew what they were up against.

Under the helplessness.

The contestants who created the Blood Skeleton could only choose to withdraw.

Another star fragment fell from the ground.

It was that giant gorilla again from before.

It rushed out immediately, faster than anything else.

Picked up this star shard.

Showed a circle towards the surrounding crowd by taking credit.

With this!

The third point was..... in hands!

Jiang Fan looked at the panel again.

The ranking rose again.

But because there was only one more point.

The rise in ranking was small.

The Great Desolate Army continued to do ambushes around the square.

It was a bit like waiting for a rabbit.

Taking advantage of the free time.

Jiang Fan also opened his communicator.

Went onto the official page of the tournament.

Found the ranking of the other participants on planet eighty-one, where his group was located.

The number of points displayed after the first place was –

256!

It was not just the first place.

The points of the first ten places were all over a hundred!

“The competition is fierce.”

Jiang Fan looked at it.

And paid no more attention.

Although it was ranked hundreds of thousands of places later.

But there was no rush at the moment.

Behind

This was the outbreak period of the Great Desolate Army!!!

Chapter 458: Crazy Points! Drifting up the rankings!

After finishing off, Blood Skeleton.

It didn't take long.....

Another transcendent team came!

This time the transcendent species was a giant creature with the appearance of a porcupine.....

Tusked steel pigs!

This kind of giant pig not only had a bunch of long and sharp tusks.

The body's surface was also covered with a thick layer of pig hair.

These pig hairs were as hard as steel!

Plus the back side of the pig's hair..... That layer was also extremely thick pig skin.

The two stacked together.

Armor-piercing explosive shells were extremely strenuous.

But the good thing was that this group of giant tusked steel pigs were not very intelligent.

It was full of viciousness!

After seeing the Great Desolate Army, it would only rush up in a mess.

— Rushed upwards with all its might!

They became the targets of the Great Desolate Army.

Thirty rainstorm warplanes strafed wildly.

On the ground, the machine guns set on the spider chariot were also.....firing ferociously!

An armor-piercing explosion could slightly break through a layer of skin of the long-tusked steel pig.

The explosion remained on the surface of the body.

Since one couldn't kill it.

Then two, three, four

Dozens of armor-piercing bursts down after.

These long-tusked steel pigs could not suffer.

And fell on the way to rush over.

Not long after.

On the square, on the side of the street, in the woods... and so on.

The corpses of the tusked steel pigs were piled up.

Although the number of these Tusked Steel Pigs was even more than the previous Blood Skeletons and Yellow Skinned Tauren.

Reaching over 40,000!

But in front of a storm of armor-piercing explosive attack.

It was still blocked three hundred meters away.

Did not even see the shadow of a Great Desolate Army warrior.

Just one by one fell back and forth.

This time, it took a little more time.

Ten minutes later.

It only killed and wounded over four thousand long-toothed steel pigs.

But this was for the whole.

It was nothing much.

There were also about forty thousand intact tusked steel pigs left in the large group.

The contestant who built the tusked steel pigs.....

Immediately ordered.

The tusked steel pigs turned around and ran!

They ate this piece of meat up to the mouth.

How could it be allowed to escape again?

“Warplanes chase after it, quickly crush these herds of steel pigs.”

Huo ordered immediately.

The Great Desolate Army on the ground was also taking advantage of the spider chariot. They chased after it.

Blitz.....

Thirty storm warplanes were chasing after them while strafing wildly.

As they fled.

The weakness of these tusked steel pigs lacking intelligence was exposed.

One by one, they crowded together.

They always flocked to the places where there were more pigs.

The pig's eyes were full of panic.

Even the command of the contestants didn't work.

The storm fighters strafed the group almost without pressure.

A shuttle of armor-piercing bursts went down.

There were several more corpses of tusked steel pigs on the ground.

Especially after being familiar with the characteristics of the long-toothed steel pigs.

The pilots of the fighter planes also drove all the tusked steel pigs around them.

Driven to a wide road.

And then

Then gather and shoot!

Chug chug

Around the road, the sound of armor-piercing bursts was everywhere.

Just ten minutes ago.

Only 4,000 tusked steel pigs were killed.

And within less than five minutes.

Another four thousand fell!

At this time, the tusked steel pigs had still escaped less than three kilometers.

The angry contestant who built the tusked steel pigs was gnashing his teeth!

“What a bunch of pigs. If there was another life, I definitely wouldn’t build these stupid things again.”

The contestant spat out with hatred.

With that

He pressed the button to quit.

The remaining herd of tusked steel pigs disappeared.

Star fragments fell down on the ground again.

Only

This time, there were two pieces.

According to the tournament rules.

If the number of star fragments in the opponent’s hand is an odd number.

For example, three pieces.

Then it would be rounded up.

After being eliminated.

They would drop two pieces!

“Looks like this person defeated two contestants before.”

Jiang Fan thought darkly.

He continued to look at his points panel.

There was another change in it –

Participant: Jiang Fan

Planet: Planet Area 81

Points: 4

Rank: 877652

Next, the Great Desolate Army continued to “hunt” in the square.

But this time it was not so lucky.

Ambushed for nearly half an hour.

Only when a transcendent team came over.

Stepped into the trap.

This Transcendent team was not strong, only about 30,000 in number.

The Great Desolate Army easily solved it.

A Star Fragment arrived once again.

“The smell of blood here is too heavy.”

A scholar sniffed the air and spoke, “Most of those transcendent species have a keen sense of smell. Once they smell such a heavy blood smell, they will definitely be wary and unlikely to come over.”

“Makes sense.”

Huo Qubing was as good as others.

Immediately said: “We have to change to another place and continue to ambush.”

After detecting the surroundings with the small drones.

The Great Desolate Army moved.

It moved to a place that resembled a park.

The area around here was relatively wide.

The field of view was also extremely open.

The drones and the Great Desolate Army soldiers’ reconnaissance would not be disturbed.

Very suitable as an ambush site.

Sure enough.

Not long after that.

There was a transcendent team rushing over quickly.

It seemed to be being chased.

They rushed to the park.

Before they could even take a breath.

Immediately, they were set on fire by various weapons of the Great Desolate Army and attacked frantically!

In a short while.

The team could not resist anymore.

Over five thousand people were killed and wounded!

At this time, a voice suddenly sounded in Jiang Fan's ears –

“I admit defeat. I have six star fragments. Here, I'll give you half of them, and you let me go?”

Jiang Fan was slightly taken aback.

Then he remembered that

In this contest, in order to make the competition more intense and exciting.

So if the two teams meet.

The creators behind each could directly carry out sound transmission.

Of course, they could not meet.

This voice could not be conveyed.

This made this special space so powerful!

Jiang Fan looked at the situation.

He replied, “Five star fragments.”

“Five? You're robbing it openly.”

The voice was a little startled.

Jiang Fan said nothing.

He sat back and watched as the Great Desolate Army continued its all-out pursuit of this Transcendent Mortal team.

Another moment passed.

This person couldn't take it anymore and sent another voice: “Okay, okay, five star fragments for five. I throw them at you, and you tell your team to stop attacking!”

“Too late.”

Jiang Fan smiled faintly.

Because

Just now Jiang Fan saw that this Transcendent team was relatively fast.

In order to avoid accidents.

He was ready to agree to the other party's request.

But now found out.....

The Great Desolate Army could wipe out the opposite side!

There would be no need for that.

“You

The other side was furious.

But there was nothing that could be done.

They could only watch as the transcendent team they had worked so hard to build was chased and slaughtered overwhelmingly by the Great Wilderness Army!

Finally!

He helplessly pressed the quit button.

From this, Jiang Fan had six more star fragments in his hands.

The total points came to ten digits.

Jiang Fan took another look at his ranking.

Found that

He was still outside the 500,000th place!

He was at the bottom of the official page.

But the remaining contestants were already less than 700,000!

That means

Only one hour has passed.

Nearly half of the contestants were eliminated!

It did not surprise Jiang Fan at all.

There were many who were the same as Jiang Fan.

Just recently promoted to second-level planet master.

Their strength was naturally not much stronger.

There were some who have been promoted for a long time.

But the second-level planet masters with mediocre strength were happy to join in the fun.

Chapter 459: Crazy Points! Drifting up the rankings!

The Great Desolate Army has learned its lesson from the past.

Now the strategy was

One shot for another place!

After the park, they moved to another ambush site.

This way, they wasted more time.

Hunting for star fragments was also less efficient.

But the victory was more secure and safe!

Because it was the first time to go out to the highest glory conquest, neither Xu Ji nor Huo Qubing dared to be careless.

They were as stable as they could.

And on the outside.

Although the official did not have a real-time view of each participant.

But also would specially select some of the more exciting screens out.

Conduct a live broadcast.

In Su Jicheng's villa.

Su Jicheng and a large group of people gathered here.

Watching this once-in-a-million year's event together.

Not only were there many teachers and school leaders.

Even the vice principal who led the exchange competition last time came.

Because of the exchange competition.

The vice-principal, who had little power in the school and was relatively ostracized, was now getting closer and closer to Su Jicheng and others.

In front of the crowd, it was the projected image.

Next to it, there was a ranking of each planet area.

At this time

This ranking was changing rapidly every second.

One by one, the names kept dropping and turning gray!

Turning gray meant being eliminated from the competition.

"It's so intense. This one group, half of them, has already been eliminated."

A young teacher couldn't help but shake his head.

"Most of those who were eliminated are those who came to join the fun. Like the freshmen in this class, they are basically out now."

A school leader said.

"Teacher Su, look at the 81 planet area. Jiang Fan shouldn't have been eliminated yet, right?"

A teacher asked.

Su Jicheng nodded his head.

With that, the ranking of the eighty-first planet area.....

Tuned to the middle.

At once.

Everyone's eyes converged.

“More than half a million rankings?”

Upon seeing Jiang Fan, who was ranked very far back.

Su Jicheng, the school leaders and others showed no surprise on their faces.

“Not bad, worthy of being the strongest freshman in this class, he hasn't been eliminated yet.”

The vice principal smiled and said.

“With Jiang Fan's strength, it's estimated that around 200,000 is about right.”

Su Jicheng also nodded his head.

The other teachers also had no objection.

With their knowledge.

Naturally, it was clear that.....

How big the gap was between those who had just been promoted to the second level planet and those who had been there for over ten years!

In the student dormitory area.

In Lin Youhe's villa, several figures showed up almost simultaneously.

Lin Youhe, Wan Yunsheng and Xiang Zhifei all reappeared in the villa.

All four of them were together in Lin Youhe's villa before.

They came to participate in the group competition this time.

After being eliminated.

Naturally, they returned to their original positions.

“Have you guys been eliminated as well?”

Lin Youhe asked with a smile.

“No way.”

Wan Yunsheng shrugged depressingly and said, “As soon as I went out, I encountered another team of Water Cannon Turtles, one was almost twice as big as mine, and there were even five or six times more of them, so it was impossible to fight, and after not holding on for long, I had to admit defeat.”

“Hahaha.”

Lin Youhe and Xiang Zhifei burst out laughing.

Meet the same kind.

This was considered..... extremely unlucky!

“What about you?”

Wan Yunsheng looked at Lin Youhe.

“I didn’t meet the goblin chief. I found a place to hide as soon as I entered, ready to stall for time, but who knows

Lin Youhe also said helplessly: “I met a race with an extremely sensitive nose, and then I was eliminated.”

“So do I.”

Xiang Zhifei sighed and said, “There is no way, the strength and those old secondary planet owners are still too far behind.”

“Fortunately, I didn’t count down to the bottom, ranked in the top one million.”
Xiang Zhifei sighed.

“That’s for sure.”

Lin Youhe laughed and said, “There are a lot of freshmen participating this year, and there are other freshmen who put us at the bottom, so our ranking won’t be that bad!”

“By the way, where is Jane Ziqiang? Hasn’t this guy been eliminated yet?”

Lin Youhe suddenly remembered something.

He just wanted to find the ranking of Jane Ziqiang’s group.

And just then

-A figure appeared.

Who else could it be other than Jane Ziqiang?

“You kid...how did you persist for so long?”

Lin Youhe immediately asked.

“I built the maze puppets.”

Jane Ziqiang explained, “As soon as I entered, I immediately had the maze puppets form a maze, and it would take quite a bit of time for the other transcendent teams to break through, so many of them ignored me.”

“It wasn’t until I ran into a peak level two planet master later and was quickly defeated.”

“Hey, four of the five heroes of our Beidou school team fell down.”

Lin Youhe smiled to himself.

“Isn’t there still Jiang Fan? He shouldn’t have been eliminated yet, right?”

Jane Ziqiang said.

“That’s for sure.”

Lin Youhe was very confident.

Then he pulled up the ranking of Jiang Fan’s eighty-first planet area.

Turned it over.

He quickly found Jiang Fan’s name and the ranking behind it.

“Over half a million rankings?”

Lin Youhe and the four of them, all frowned slightly.

According to their expectation.

Jiang Fan shouldn’t be in this ranking.

“This side of the Dao Sect’s Daozi’s ranking is over 300,000, how come Jiang Fan is only over 500,000?”

Jane Ziqiang couldn’t help but ask.

“I think

Lin Youhe blinked and said, “Jiang Fan probably hasn’t fully exerted his strength yet.”

“That’s right.”

Wan Yunsheng nodded and said, “The venue of this group match is not friendly to Jiang Fan’s musketeers and pilots, especially the musketeers, which are weaker in mobility, so it’s slower to solve the enemy.”

“Let’s see, in another two or three hours, Jiang Fan’s ranking should be able to break into the top 500,000.”

“The points have finally broken one hundred.”

Jiang both looked at his points panel.

He exhaled faintly.

The ranking had also finally squeezed into the top 500,000.

Relying on the Great Desolate Army’s tactic of hitting one shot for another.

There were already more than a dozen transcendent teams fell at the feet of the Great Wilderness Army.

Here was one Transcendent Mortal team.

It provided Jiang Fan with nearly half of the points.

And at this time.

The Great Desolate Army also discovered

Instead of spending effort to ambush a Transcendent Mortal team.

It would be better to choose a fat sheep to kill all the time!

“Our Great Desolate Army is just ordinary people, physically no match for those transcendent beings.”

Huo Qubing looked at the crowd and said, “So It is still necessary to minimize the number of ambushes and increase the efficiency of the ambush.”

“You mean to specialize in slaughtering fat sheep?”

Xu Ji asked.

“That’s right.”

Huo Qubing nodded seriously and said, “Generally, those transcendent teams that are powerful have more Star Fragments in their hands.”

“We should mainly choose these teams to attack next.”

The crowd also had no opinion.

Under the successive ambushes.

The Great Desolate Army warriors were also a bit tired.

After some deliberation.

Finally!

They set the location of the next ambush at

A spacious road on the east side of this high-rise city.

This road is the only way in and out of the city from the east!

Whether it was inside the city.

Or an outside, transcendent team wanted to enter and exit from this side.

All must take this avenue.

The ambush lasted for about ten minutes.

There was a team of transcents coming over.

Huo and Xu Ji both slightly squinted their eyes and observed the team.

The number was not large.

Only about 50,000.

The race was a high level civilized race.

It was not a fat sheep.

Huo Qubing immediately ordered the Great Wilderness Army to maintain an ambush.

Let this transcendent team pass by.

Another ten minutes or so passed.

This transcendent team suddenly returned.

A panicked look on their faces.

Chapter 460: Crazy Points! Drifting up the rankings!

It seemed to be being chased by something.

According to the detection of the micro drone.

The crowd saw

At the back of this transcendent team.

Followed by an army of lizardmen that was almost doubled in size and size!

In a mad chase this way.

“Fat sheep are coming.”

Both Huo Qubing and Xu Ji’s were refreshed.

This was the transcendent team they wanted to see.

“Get ready to attack when these Lizardmen enter the ambush circle.”

Huo Qubing ordered in a deep voice.

But before the lizardmen entered the ambush circle.

The micro drones that were showing images for detection around the area.

Suddenly

Small black dots appeared one by one.

Huo Qubing took a closer look.

His face changed slightly.

Because

Besides the lizardman army to the east.

To the north, west and south of the Great Desolate Army.

There is an extraordinary team with a huge number and a huge size!

Four directions, four teams.

They were rapidly surrounding towards the Great Desolate Army.

It was as if they had surrounded the Great Desolate Army.

“We’ve been discovered?”

Huo Qubing and Xu Ji still didn’t understand.

These teams of Transcendents

There should be Transcendents with particularly strong detection abilities.

And discovered them ahead of time.

They were ready to take out the Great Desolate Army!!!

“Everyone, get ready to defend.” Huo ordered immediately.

Four vast numbers of transcendent teams surrounded the Great Desolate Army.

This big operation.

Naturally, it couldn’t be silent.

It soon drew the attention of the other Transcendent Mortal teams around.

Some transcendent teams even stopped to watch.

“It’s Wang Keyong from Giant Frog Island!”

“Although these four are not peak level 2 planet masters, they are not far behind. When the four join hands, even the second-level peaks will not dare to steal their edge!”

“These four people are really lucky to have been assigned to a group.”

“Just now these four people joined forces and took out dozens of teams, including several powerful transcendent groups.”

“This guy is unlucky! He ran into these four people!”

“.....”

The Transcendent Mortal teams met up.

The contestants who could carry on a conversation one by one were communicating with each other.

And at this time.

The four directions of the southeast and northwest.

Four extraordinary teams headed by Lizardmen were approaching the Great Desolate Army.

Jiang Fan’s Great Desolate Army was firmly surrounded in the middle.

“Admit defeat, you’re no match for us.”

A voice rang in Jiang Fan’s ears and said, “Throw the star fragment you’re holding over, I’ll save you one for you and let you go again!”

“Oh?”

Jiang Fan smiled gently and said, “If you can throw down all the star fragments, I can also give you a way out.”

“Seeking for death!”

The voice was suddenly cold as it shouted coldly, "Toast to the wine, since you want to die, let's make you whole!"

The words fell.

Jiang Fan saw

The lizardman army to the east took the lead and rushed over.

The other three directions.

The three transcendent teams also followed closely behind.

One after another, they attacked the Great Desolate Army that was surrounded in the middle.

"Are we being underestimated here?"

Seeing this scene.

A smile appeared at the corner of Huo's mouth and immediately ordered, "Unmanned fighter jets out, wipe out these four teams as quickly as possible!"

On the spider chariot.

There was already an unmanned fighter that had been assembled.

These unmanned fighters were smaller than the storm fighters

The size was much smaller.

And it could still be temporarily assembled.

But the function was also relatively single.

There was a cannon on it.

The main purpose was to deal with the large number of transcendent teams.

Thirty unmanned fighters quickly took off!

Together with thirty storm fighters, they rose into the air.

Separately, they came to the four directions of southeast and northwest.

Facing the fiercely attacking Lizardmen army.

They unceremoniously poured out an armor-piercing explosive bomb!

There were sixty warplanes, fifteen in each direction.

This firepower was totally enough.

It could fire more than tens of thousands of armor-piercing explosive shells per second.

And the Great Desolate Army fighters didn't stay idle.

Staring at the back in four directions.

As long as there was a fish that slipped through the net and broke through the defense line of the fighter.

Immediately set fire to shoot!

Chug chug.....

Crazy strafing sounds rang out.

The first few of the lizard army that rushed over were directly beaten into a hornet's nest.

The one who was blown up by the explosive bomb was badly beaten!

Blood splashed!

Just for a second, over 3,000 lizardmen have fallen.

Jiang Fan also saw it.

Although these lizardmen were strong individually.

But their strength was strong in speed and agility.

Not so good in terms of defense.

Compared with the previous tusked steel pigs, it was worse!

The other four directions of the transcendent group.

They were also amphibious transcendent species like the lizardmen.

Very quick.

But the defense was not very good.

Facing the dense firepower of sixty fighters.

They couldn't resist at all.

Hadn't rushed a few steps yet.

They fell down in rows.

Ten seconds later.

On the wide road.

It is already full of corpses of lizardmen and other groups!

At a glance, there were at least 20,000 to 30,000!

The other participants watching the battle were dumbfounded!!!

Originally, they thought that

Four powerful transcendent teams surrounded the Great Desolate Army's side.

The situation must have been one-sided.

But no one expected that.

The situation was indeed one-sided.

Only

But it was in the opposite direction.

They slaughtered the lizardman side unopposed!

The faces of the four contestants behind them changed drastically.

“Withdraw!”

The voice that had threatened Jiang Fan earlier rang out with a hint of fear.

The other three had no doubts.

Immediately, they told their respective transcendent teams to retreat.

They were clear

This must have hit the iron plate.

This seemingly insignificant and small number of teams.

It was so terrifying!

“Want to leave!?”

Seeing the lizardman army wanted to retreat.

Huo Qubing raised his eyebrows and immediately shouted, “Chase them at full speed, don’t let any of them go!”

Although the speed of the lizardmen was fast.

But how could it be compared with warplanes?

Not even a drone could match.

It quickly caught them up.

Divided fifteen warplanes into various directions.

Shoot the lizardman fleeing frantically below in all directions and without any blind spots!

chug chug...

Ten seconds after, the terrifying sound sounded.

On the ground, another pile of lizardmen fell down!

“My friend, spare me and I can give you half of the star fragments.”

The voice once again sounded in Jiang Fan’s mind.

“It’s too late to regret it now...”

Jiang Fan said.

“We are from Giant Frog Island, and there are our senior brothers in other groups. With your strength, there is no problem in qualifying from this group. And if you run into someone from our Giant Frog Island in the future with this favor, they won’t lay a hand on you.”

The voice continued to ring out and said.

“Heh

Jiang Fan didn't bother to pay attention.

Quietly, he watched as dozens of warplanes were rapidly chasing the four teams fleeing below.

In order to avoid the warplanes overhead.

These four transcendent races fled all over the mountain.

But they specially set this race planet up.

There wouldn't be any sewers or caves for you to drill!

In that intensive strafing sound.

One by one, the transcendent species fell, one after another.

“Damn it! Damn it

The man who spoke to Jiang Fan earlier gritted his teeth in anger.

But there was nothing he could do.

Jiang Fan didn't even bother to pay attention to his request.

Finally!

With great reluctance, he pressed the quit button.

The other three did the same.

The four teams were all eliminated by the Great Desolate Army!

Clatter

On the ground.

A pile of star fragments also fell down.

The four giant gorillas had long been waiting for this moment.

Immediately ran over and picked them up!

The amount of star fragments in this pile

Jiang Fan's eyes could not help but shine.

What a big harvest.
