

One Planet 461

Chapter 461: Climbing Swiftly! The only freshmen! Surprised elders!

These four transcendent teams from Giant Frog Island

After being eliminated from the competition, they dropped nearly three hundred Star Fragments.

This was by far the largest harvest of star fragments by the Great Desolate Army!

It was also conceivable.

These four Transcendent teams had taken out at least a hundred of their participating teams before.

But Jiang Fan was not surprised.

The lizard men led by these four transcendent species.

They were all fast and agile.

The mobility was very strong.

Once caught by them.

It would be hard for other teams to escape.

Jiang Fan took a moment to look at his points panel.

There was another change on it –

Participant: Jiang Fan

Planet: Planet Area 81

Points: 425

Ranking: 255358

“Squeezed into the top 300,000.”

Jiang Fan’s face was calm.

The Great Desolate Army’s mobility was still not strong enough.

The drones and storm fighters were fast, though.

But the ground teams couldn’t keep up.

— Once they try to advance aggressively.

It was easy for the entire formation...to expose its flaws and be charged by a powerful transcendent!

But Jiang Fan wasn’t worried.

After all

For the entire group stage, there were five full days.

Only less than half a day has passed now.

There was still plenty of time to collect points.

And!

For the competition to be more intense.

The venue of this competition planet was going to change over time.

Constantly shrinking.

Basically, you could imagine.

The more you get to the back.

There would be fewer, and fewer teams left.

Strength would also become stronger and stronger.

The probability of meeting would also become greater and greater.

Eliminating a team now.

At most, get a few hundred points.

But at the back.

It might be several thousand, or even Tens of thousands of points were possible.

“What kind of race has this contestant created? It’s so strong?”

“There is also a team on the ground. This gigantic machine in the air is still so terrifying. Air and ground combined, this should also be a very powerful second level planet master.”

“Retreat, retreat, hurry up and retreat. It’s not good to have this guy on your radar.”

“.....”

The ten contestants watching the battle on the side were communicating with each other.

Got away soon.

Afraid of being chased over by the Great Desolate Army.

But these teams were of average strength.

It was estimated that the star fragments they possess would not be much.

The Great Desolate Army was simply too lazy to make a move.

“So many teams will definitely leak our situation. I’m afraid that other teams will not dare to come over.”

Xu Ji frowned slightly and said.

“We can’t stay in this place either. Let’s switch to the south.” Huo suggested.

The others didn’t object.

The Great Desolate Army quickly moved to the city’s southern zone!

An ambush was set up in a flatter place.

Same as before.

Leaving out small fish and shrimp.

Specifically looking for trouble with those powerful teams.

chug chug...

A team of over 50,000 goblin chiefs passed by.

The Great Desolate Army directly ambushed it.

Armor-piercing explosive shells frantically strafed.

For the goblin chiefs who have worked together.

The Great Wilderness Army was too familiar.

This was also the Great Desolate Army's so far

One of the most favorite transcendent species!

Because the goblin chief had a strong physique.

But it was not top-notch.

Neither slow nor fast.

There were no weaknesses, but no strengths either.

Facing the Great Desolate Army, there was only one end to be a living target.

From the goblin chief team.

The Great Desolate Army got dozens more star fragments.

After they eliminated the Goblin Chief.

Another transcendent team passed by this place unprepared.

It also became the prey of the Great Desolate Army.

After they eliminated the two transcendent teams.

The Great Desolate Army did not move towards the east this time.

Instead,

They returned to the city again.

In the middle of this vast city.

There could be at least hundreds of Transcendent Mortal teams still existing.

Many teams were frantically fighting each other to kill.

There were also many teams ready to sit back and reap the benefits.

But the Great Desolate Army relied on the advantage of the micro drones to take it all in.

Huo Qubing had an enormous appetite this time.

He wanted to take these hundreds of teams at once

All of them were solved!

The people deliberated a well thought out plan.

Toxic smoke was lit around the city.

This poisonous smoke was actually

The toxicity was not that big.

But a participating transcendent team was cautious.

They didn't dare to break through easily.

All of them ran towards the open space where there was no poisonous smoke.

This was also the ambush site of the Great Desolate Army.

This time

The Great Desolate Army was in full firepower.

They sent another fifty unmanned fighter planes out.

Eighty unmanned fighter planes plus thirty storm fighters.

Turning this empty square into an ashram!

Under the overwhelming rain of terrifying bullets.

Within a minute, the ground was piled up with the corpses of one huge-sized, various transcendent creatures.

The rest hurriedly fled.

They scurried around in a panic.

There were millions of transcendent creatures.

It was impossible to chase and kill them all.

Only choose the strong ones among them.

And the surrounding tall buildings had become the best helper of the Great Desolate Army.

With the help of these buildings.

The Great Desolate Army laid out a simple encirclement.

As long as the ten or so entrances and exits were fortified.

They could make it difficult for the transcendent teams that came in to get out.

Even though the number was very large.

But each time, it could only accommodate a few transcendent creatures through.

These hundreds of transcendent teams.

It was also completely unexpected

There were teams that were so bold.

Relying on one team.

It dared to surround and ambush them in such a large number.

The siege lasted from noon to afternoon.

Barely ended.

-Some weak teams.

The Great Wilderness Army simply let them go.

A huge transcendent creature in the open space The corpses were all over the place!

Blood flowed in rivers.

One by one, the participants were angry and gritted their teeth.

Terrified and angry.

But there was nothing much they could do.

They could only watch as the transcendent race they had built was slaughtered.

Finally

Also had to quit.

This big siege battle brought thousands of points to Jiang Fan.

His ranking was also instantly

surged into the top 50,000!

The time came in the evening.

This competition planet was the same as the outside world.

There was also darkness.

After all

Some contestants build races just in the dark to play more powerfully.

But the difference with the outside world was that the darkness here only lasted for four hours.

Huo and Xu Ji also did not dare to be careless.

They found a place with good terrain.

Let the Great Desolate Army reorganize and rest.

It didn't matter if other extraordinary people didn't eat or drink for a day.

But the Great Desolate Army was ordinary people.

This could not be done.

The competition planet and the outside world naturally also had a time flow rate.

Because the city was basically emptied by the Great Desolate Army.

So there was not much danger.

But the other cities were not quite the same.

At night.

Instead, more battles would break out.

Night was the best time for raids.

Many special transcendent teams took advantage of this rare time of darkness.

And launched a crazy attack against other teams!

-The night passed.

By the time the Great Desolate Army finished resting and reorganizing.

Another hundred thousand contestants were eliminated from the competition.

“How crazy.”

Looking at the less than 300,000 contestants left.

Jiang Fan couldn't help but lament.

These four hours of darkness became a nightmare for many transcendent teams!

Because all the Transcendent Mortal teams in this city had been resolved.

Chapter 462: Climbing Swiftly! The only freshmen! Surprised elders!

After some deliberation.

The Great Desolate Army headed towards the east.

To the east, there was another much larger city.

Here, the terrain was more complex.

There were tall buildings, streets, squares, parks, rivers, lakes, meadows, and so on.

There were also more transcendent teams.

Through the observation of the micro drone.

They could clearly see

A team of transcendent beings was fighting.

There were quite a few transcendent creatures hidden inside the water.

Not only in the water and on the ground.

It was the air as well.

There were also many unknown transcendent creatures hovering.

But all this

Rarely escaped the detection of the micro drones.

“In this city There are at least thousands of transcendent teams.”

Huo raised his eyebrows slightly.

“It’s much bigger than our previous city. There are all kinds of terrains. Those who fly in the sky and those who swim in the water can find a place.”

Xu Ji also nodded.

“If you want to obtain as many star fragments as possible, this is the best place to do so.”

Huo Qubing said with slightly narrowed eyes.

There was no doubt.

The next target of the Great Desolate Army was this vast city.

“Avoid the waters as much as possible, and don’t clash with the airborne transcendent groups either, and look for the ground-based transcendent teams first.”

The strategy of the Great Desolate Army was clear.

This time before the conquest.

They made a lot of advance response guidelines.

The transcendent race in the water was directly given up.

Because the Great Desolate Army didn’t carry torpedoes and other underwater attack weapons!

Jiang Fan was also aware of that.

The number of transcendental teams underwater could not be large.

There was no need to prepare for this.

As long as the ground ones were taken care of.

Naturally, there were numerous points.

Just as soon as they entered the edge of the city.

There was a small, but fast, white bird swooping over.

“Lightning Pigeon!?”

Jiang Fan recognized the type of this extremely fast white bird.

It was a kind of transcendent pigeon.

The battle power was not strong.

But the speed was amazingly fast.

The role was similar to that of a micro drone.

Mainly used for reconnaissance and messaging.

A few moments later, this lightning pigeon rushed in.

A man’s voice rang in Jiang Fan’s ears and said, “New friend, don’t get me wrong. I’m not here to test you.”

“Which one are you?”

Jiang Fan asked.

“Introduce yourself. My transcendent team is also in the city, but do not intend to participate in the struggle.”

The voice responded: “Have you seen my Lightning Pigeon? This is the species I created. It’s not that strong, but it’s good at detection!”

“Friend, if you want to join the fight for this city, I suggest you buy a copy of the information from me.”

“It can make you more aware of the situation in this city...”

“Intelligence!?”

Jiang Fan couldn't help but raise his eyebrows.

Somewhat speechless.

In this game

There was actually intelligence for sale.

“The tournament is not about fighting and killing, but human affairs.”

Jiang Fan instantly remembered this phrase.

But then he thought about it.

It wasn't much of a surprise.

This guy should rely on this to get star fragments.

“How many fragments for one intelligence?”

Jiang Fan asked directly.

“Depends on what kind of information you need, my friend. But I was here as soon as I came in, there are all kinds of information. The more valuable it is, the higher the price!”

The voice responded.

“In this city, what are the more powerful teams?”

Jiang Fan asked.

“This information, I can simply disclose it for free.” The voice said: “There are no second-level peak planet masters here. There are very few such powerful characters.”

“All of them will qualify for the group stage, but there are still some teams that are weaker than the second-tier peak.”

“Exactly how much would have to be purchased with fragments.”

“Yes, I need this information. As long as it satisfies me, the star fragments are naturally no problem.”

Jiang Fan said.

“Good.”

The voice suddenly perked up and said, “I have detailed intelligence of the top fifty teams in this city here. Thirty star fragments!”

“Twenty!”

Jiang Fan counter-offered immediately.

“Okay, twenty is okay.”

The voice thought for a moment and agreed.

The transaction process was simple.

The Great Desolate Army threw twenty star fragments to the lightning pigeons in the sky.

Then

Lightning Pigeon threw down another piece of information.

It was a map marked with a large group of dense red dots.

There were fifty of them in total.

These fifty red dots

Naturally, they were the fifty Transcendent teams at the top of the rankings.

Swept the map.

And through the detection of the micro drone.

Huo Qubing and Xu Ji suddenly discovered that

These teams seemed to have discussed and staggered one from another.

Towards the other transcendent teams, to kill them!

“They’re”

Huo Qubing thought for a moment and said, “Let’s take care of the other weaker teams first!”

“That should be the case.”

Xu Ji nodded and said, “Eliminate the weak ones out first, and then the strong ones will compete with each other!”

“Then let’s wait first. There’s no rush.”

Huo Qubing discussed it with a few more people.

A decision was soon made that was to find a hidden terrain.

Sitting on the mountain and watching the tigers fight.

Prepare to wait for the top ranked Transcendent team to take care of the other teams.

Then step in to deal with them.

This looked like a whole day.

No way.

There were thousands of teams.

It wasn't so easy to solve.

The more to the back.

The strength of the remaining teams was not weak.

Also, more and more cautious.

Every time they fight, they set up a lot of posts on the outside.

To prevent the other team from sneaking in.

This also made the phenomenon of reaping the benefits of the fisherman less and less.

“Next is the hard battle.”

Huo Qubing exhaled and said.

As time passed

They eliminated more and more contestants.

Although the Great Desolate Army didn't get a single star fragment.

But the ranking was steadily rising instead!

By the time the night came.

All ranked in the top 150,000.

But at this time the remaining contestants

The number was also only a little over 150,000.

And Jiang Fan was at the bottom of the pile.

At the back mountain of the Dao Sect.

Daozi's figure reappeared.

At a glance, he saw the black-clothed young man waiting on the side.

When he saw Daozi being eliminated, he immediately said, "You've finally been eliminated. I thought you were going to break into the top 100,000."

"Thinking too much."

Daozi breathed a slight sigh of relief and said, “It’s good to squeeze into the top 150,000. How can I compete with those second-tier planet masters who have been building planets for decades and centuries?”

“My prediction was correct. Your grades are similar to that of Jiang Fan’s.”

The young man in black said.

“Has Jiang Fan been eliminated as well?”

Dao Zi couldn’t help but ask.

“That’s not yet, but

The black-clothed youth paused for a moment and said, “It’s almost time. His ranking is at the bottom of that group of his, and he is probably struggling to hold on now.”

.....

Outside the federation, the imperial capital city.

A tall and slim figure appeared.

It was the owner of this palace, Princess Elu.

At this moment, Princess Elu was unhappy.

The servants around her hastened to bow their heads respectfully.

Only the old man in black, Bis, held back his laughter.

The blonde Princess Elu beamed and huffed, “What bad luck, to run into a powerful planet master of the second level who has created two transcendent species of land and air, otherwise my ranking I could move up a bit, and there was no problem squeezing into the top 100,000!”

Chapter 463: Climbing Swiftly! The only freshmen! Surprised elders!

The black-clothed old man Bis laughed and said, “The top 100,000 is not that easy to enter. This time the empire is reborn, princess, you are the highest ranked!”

Hearing that, Princess Elu's complexion improved slightly.

After that she suddenly remembered something and asked: “By the way, that Federation's Jiang Fan? What ranking is he in?”

“Jiang Fan hasn't been eliminated yet.”

The old man in black said.

“What?”

Princess Elu was launched.

Immediately, she took out her communicator.

Logged into the official tournament page.

She looked up Jiang Fan's group.

She was secretly very concerned about Jiang Fan.

Because

Not just the federal side.

Even here in the Empire.

There were many people who watched the video of the final of the exchange match between Xinghe Academy and Bei Dou University.

Jiang Fan was considered to be the strongest freshman of this year.

There was no one on this side of the empire that could surpass him.

Even Princess Elu, who was considered the pride of the sky.

To this

Princess Elu was extremely unconvinced.

In passing, she paid extra attention to Jiang Fan.

Naturally, Princess Elu had already found out.

Jiang Fan was in planetary area No. 81.

Soon

She found Jiang Fan who was at the bottom of the rankings.

“The bottom of the ranking, it's not that far from elimination.”

Princess Elu then took a long breath and revealed a smile and said.

“The final ranking..... It is estimated that it is similar to mine.”

Another night of restoration.

It's the third day of the group stage!

Jiang Fan glanced at his points panel.

The night passed.

There has been another significant change –

Participant: Jiang Fan

Planet: Planet Area 81

Points: 1515

Ranking: 135621

Relying on the elimination of others.

Jiang Fan with no change in points.

Rushed into the top 140,000!

But Jiang Fan was also aware.....

There were over 100,000 remaining contestants.

Each one of them was not bad in strength.

Those who were eliminated in the front, most of them were here to play the sauce or to join the fun.

Couldn't be considered a real competitor at all!

At the same time.

In this vast city.

After a day of killing over a thousand teams.....

Almost a thousand were eliminated!

There were only a hundred or so left.

One group was the strongest of the strongest.

“Starting today, within these two days, it should be decided..... the king of this city.”

Huo Qubing looked at the map, his face slightly gloomy!

“If I could, it would still be like yesterday, watching these teams fight first, but it's no longer possible.”

Xu Ji glanced at a flying transcendent creature above the sky.

A hint of helplessness flashed across his eyes.

Yesterday, because the fight was very tragic.

No one paid attention to the Great Desolate Army hiding over here, either.

But today was different.....

The remaining teams were more cautious than the other.

Especially the teams with aerial species.

They sent one to scout into the sky.

The Great Desolate Army also had tens of thousands of people.

Such a large target.....Naturally, it was impossible to hide from scouting.

“There's no need to hide either, today.....Hmm?” Huo Qubing hadn't finished speaking.

He suddenly looked in a direction to the right.

It was because the micro-drone had sent out an early warning signal.

A huge, transcendent team was rapidly coming this way.

The aura was very powerful.

It was the strongest one the Great Desolate Army had ever encountered!

“You guys are sneaky. I noticed you guys yesterday, but I didn't have time to spare my hands, so today I'll come and clean up properly.”

“Come on, piercing beast!” A rough voice sounded in Jiang Fan's ear.

Immediately after that Jiang Fan saw.

A group that looked a bit like mountain piercing beasts.

But with sharper claws and thicker scales and armor rushed towards the Great Desolate Army ferociously.

The crawling.

The formation was not scattered.

Obviously, it was well-trained.

“Mountain-piercing beasts?”

Jiang Fan raised his eyebrows.

This transcendent creature had terrifying defenses.

The scale armor was tough!

But

It still couldn't resist the Great Desolate Army's armor-piercing explosive shells!

This was the latest type of armor-piercing ammunition!

It could be said!

It was also the pinnacle of gunpowder ammunition.

Relying on the power of gunpowder, the effect of armor-piercing had reached its limit.

For a stronger effect, then they had to switch to new technology!

And that technology

The Great Desolate Army had already produced it.

Just now, the cost of construction was still a bit expensive.

They only brought a few spares!

Under the frantic strafing of dozens of fighters and the combined strikes of the warriors of the Great Desolate Army on the ground.

The 60,000 mountain-piercing beast army

In less than ten minutes.

It completely collapsed.

One by one, they hurriedly drilled the ground to escape.

But drilling was only an ability that comes with the mountain piercing beast.

In fact, the drilling speed was not fast.

During the drilling process, the Great Desolate Army wiped nearly 10,000 of them out with armor-piercing explosives and gas bombs!

Thus eliminated!

They dropped thousands of star fragments.

Allowing Jiang Fan's ranking to squeeze into the top 100,000 for the first time!

The battle between the Great Desolate Army and the Armor Piercing Beast army.

The movement was extremely loud.

Naturally, it attracted the attention of other teams.

From here on.

The great battle in the city broke out again.

Each team was very confident.

Many teams saw that each of the Great Desolate Army had a small and thin body, almost like an ordinary person.

Thinking it was a soft persimmon.

Immediately rushed up!

Blitz

Boom boom boom

All day and all night.

It was full of the violent sound of machine guns and armor-piercing explosive shells!

Because there was no battle yesterday.

So the Great Desolate Army warriors were still in high spirits, routing one transcendent team after another!

Eliminating them one after another.

The star fragments obtained were also getting more and more!

Jiang Fan's points climbed steadily.

Five thousand.

Ten thousand.

20,000.

Thirty thousand.

Fifty thousand.

Eighty thousand.

One hundred thousand.

For the first time, the ranking has surged within three thousand!

It could be said.

The transcendent teams in this city.

The Great Desolate Army eliminated most of them.

The teams that were eliminated this day were a lot more.

The ones that were still left within the tournament planet There were less than 30,000!

— In a piece of void.

The level six planet masters of the thirty-six superlative schools were gathering to watch the tournament.

One by one, they were naturally concerned about their own school's participating trainees.

Some school students performed well.

There were also some school students who played poorly.

The blue-clothed old man, the sixth-ranked planet master of Bei Dou University, did not look very good.

Because

The participating trainees of Bei Dou University.

Besides the Crown Prince.

Every other one that he valued was now just struggling!

“Hmm?”

A level six planet master suddenly noticed something and said, “Bei Dou, there’s another cadet from your school that made it to the top two thousand!”

The blue-clothed old man looked up.

The others also gazed over.

This level six planet master projected the group ranking of the eighty-first placed in the middle.

The crowd then saw the line in the middle –

Participant: Jiang Fan

Ranking: 1801

“Jiang Fan!?”

Many people were slightly stunned.

This name was quite unfamiliar to them.

Thinking carefully.

They didn't think of it either.

Which demon was called this name?

Able to rank in the top two thousand.

It was very hopeful to break out from the group stage!

Definitely one of the best of the key training of each school.

“Could it be the strongest freshman who came to prominence at this year's exchange tournament
..... Jiang Fan!?”

An old man blurted.

“The strongest freshman? This year's class of trainees!?”

One by one, the level six planet masters were all slightly wide-eyed.

Chapter 464: The group stage comes to an end! Jiang Fan's ranking!

“You guys can't be mistaken about this freshmen, right?”

A rank six planet master shook his head.

It was completely unbelievable.

It wasn't just him.

Each of the other rank six planet masters also had a questioning look in their eyes.

After all, the name Jiang Fan was more common.

It might be the same name.

“This is indeed the new student of my school this year.”

The man in blue spoke.

“It's also true that the one who is known as the strongest freshman in the federation this year Jiang Fan!?”

One by one, these masters were a bit incredulous.

To know that this freshman

But it had been less than half a year since he was promoted to the second-level planetary master.

The diameter of the planet would not be over three thousand kilometers at most.

The race created was not yet fully formed.

And those veteran second-class planet masters were far beyond.

Even the freshmen in the top two of the Daozi and the Empire's Princess Elu were difficult to squeeze into the top 100,000!

Now they were told that this Jiang Fan ranked in the top two thousand!

There was a moment of silence in the room.

Then

An old man opened his mouth and asked: "In the previous Group Star Competition, have any freshmen come out of the group stage and make it to the elimination rounds?"

"I don't know about the entire Endless Star Region."

A level six planet master replied, "But In our Long Sky Star Area."

"It's good to be able to squeeze into the top 100,000. It's not possible to get out of the line."

"If this Jiang Fan can make it out of the group this year, then"

"It would have made history."

"Yes, history is indeed made."

Another level six planet master nodded slightly.

"Let's see, it's not easy to say."

The blue-clothed man's face was calm as he said, "There are only a hundred spots for each group to come out, and the ones left at the back are the best in the second level planet masters, so the competition will be extremely frightening."

As the man in blue said.

Although each group was allocated more than one million participants.

But the number of places out of the line was only

-One hundred!

It could be said to be one out of ten thousand.

The more you get to the back.

The more intense the competition!

By the fourth day, the competition field was further narrowed.

It is impossible for the remaining tens of thousands of teams to hide.

A branch was basically created the existence of two transcendent species!

None of them was weak.

Especially those few second level peak planet owners.

One by one, they all got tens of thousands of points.

Ranked at the top of this group.

The Great Desolate Army was also getting a bit of fame.

“I heard that this is the strongest freshman of the Federation this year?”

Next to the Great Desolate Army.

A transcendent team was monitoring this side.

Behind the participants, a white-haired man was also observing.

Although they were in a competition, everyone's communicators were still able to work.

The characteristics of the Great Desolate Army were again very obvious.

Soon

One by one, they all found out where the Great Desolate Army came from.

"Having built two races, musketeer and pilots, a freshman can actually rank in the top two thousand?"

The white-haired man also felt a little incredible.

"Maybe it's just a matter of luck. How could a freshman be so strong!"

The white-haired man had also lived for hundreds of years.

He had seen hundreds of freshmen.

But never one as strong as Jiang Fan demon!

"Hmph, I don't believe that this freshman's true strength can be ranked in the top two thousand, since I've run into it, then"

The corner of the white haired man's mouth curled up in a smile, "Even if you are unlucky!"

The white-haired man felt that he was lucky to have met a fat sheep.

Immediately let himself build the transcendent race.

And charged towards the Great Desolate Army!

The result

As usual, he couldn't even break through the firepower net of the warplane group.

And was killed and wounded by an unknown number of transcendent creatures.

In the end there was nothing suspenseful.

The white-haired old man was shocked and angry.

And could only choose to admit defeat!

Clattering

A large pile of star fragments fell on the ground.

Several giant gorillas immediately ran over to pick them up.

At a glance, these star fragments at least There were several thousand of them!

This was still half of the white-haired old man.

Jiang Fan's ranking rose once again.

Climbed to the top one thousand.

With the passage of time.

The Great Desolate Army's took out more and more opponents.

The fame was also getting bigger and bigger.

Now the people in this group were basically aware.

There was a freshman from this year's federation rushed into the top 500!

Some didn't believe it.

There were even more transcendent teams that came to challenge the Great Desolate Army.

But all of them became star fragments.

The fourth day ended.

Jiang Fan's ranking had come to the top two hundred.

And at this time

There were already less than 10,000 players in the group!

This day.

Again, a large number of contestants were eliminated.

The fifth day!

And the last day of the group stage.

It was the craziest time.

Regardless of your strength.

As long as you don't get enough points before the 8:00 p.m. deadline.

Then there was only one way to be eliminated.

This made each of the lower-ranked contestants... fully activated!

Attacking other transcendent teams at all costs.

The Great Desolate Army sat steadily on the sidelines.

No active attack was made.

But if someone comes to commit a crime.

Naturally, it was impossible to sit back and do nothing.

And the Great Desolate Army had now become a fat sheep in the eyes of many people.

Many people were thinking of fishing for a big star fragment from the Great Desolate Army.

But like the transcendent team in front of them.

They were defeated.

One by one, the star fragments were unceremoniously collected by the Great Desolate Army.

By the time noon came.

The number of Star Fragments obtained by the Great Desolate Army had already exceeded twenty thousand!

And the total number of participants in the group was just over one million.

That means

Even if the Great Desolate Army was next.

And did not obtain any star fragments.

They still locked a place in the top 100.

Jiang Fan looked at his own points panel at this point.

Compared to the first day.

There had been a huge change on it.

Jiang Fan's name was very close to the front –

Participant: Jiang Fan

Planet: Planet Area 81

Points: 20312

Ranking: 57

But the Great Desolate Army didn't dare to be careless.

There were thousands of remaining contestants, all of whom were very desperate.

Huo Qubing discussed it with Xu Ji.

And choose good terrain.

Made preparations for defense!

There was no way.

After the previous battle, the Great Desolate Army also felt that the opponent was getting stronger and stronger.

The means in hand were gradually somewhat inadequate.

“The armor piercing effect of armor piercing bullets is already for some transcendent creatures not quite applicable.”

Xu Ji said with a serious face: “I’m afraid we have to make early preparations to change the new generation of that thing!”

“Let’s talk about surviving this group stage first.”

Huo Qubing rubbed his brow, and said with a headache: “The performance of the new firearm is fine, the main problem is... the energy problem, otherwise it would have been mass-produced!”

That’s right.

Chapter 465: The group stage comes to an end! Jiang Fan's ranking!

An important point that limited the current Xia technology..... It was energy!

The source of energy for all walks of life in Xia were oil and coal.

The nuclear fusion project was still in intense research and development.

Although there had been significant progress, there was still a distance from the large-scale practical.

“It doesn't work, let's use missiles first.”

Huo Qubing made the final decision.

For this time's glorious conquest, the Great Desolate Army had naturally prepared a very large number of missiles.

Bring in a lot of them too.

But the cost of missiles was much more expensive than armor-piercing explosives.

If they used it all the time, they couldn't finish the group stage.

The Xia Kingdom was going to run out of money.

That's why...

The group game lasted until now.

The main reason why the missiles have not been used once.

The group star competition was still long.

And they couldn't use as much as possible.

Wait until the critical moment and then use it!

The good thing was that after the morning fight.

The Great Desolate Army was famous.

No one came over to challenge anymore.

And it was naturally impossible for the ones ranked higher to deal with you for no reason.

Mainly those who were ranked after one hundred... would be desperate.

Like crazy.

Caught in sight of the transcendent team would directly rush over.

Time was passing slowly.

Jiang Fan saw one of the surrounding transcendent teams fighting each other like their lives depended on it.

-One after another was eliminated.

There were less than a thousand left.

This last half day..... entered the most intense moment of the group stage.

Every remaining participant.

Almost all were the best of each session of the year.

There was not much difference in strength between each other.

The fight was fierce.

Some people even..... Completely blinded!

Simply didn't care.

Almost on the verge to wipe out the transcendent race they built!

But no one dared to mess with the Great Desolate Army.

Now the crowd was also aware.....

This was the musketeer and pilots that Jiang Fan built!

With extremely terrifying long-range output firepower.

Set up under a defensive formation.

No one would be stupid enough to come over and charge the formation.

Although the whole afternoon.

The Great Wilderness Army didn't have a single battle.

Points have not moved at all.

But the ranking was up by two more.

This was naturally because of.....

The transcendent team of participants ranked in front was attacked by other teams and were eliminated out.

The star fragments fell by half.

The ranking also dropped.

It was after seven o'clock at night, close to eight o'clock.

The sparring was still going on.

There were still more than a hundred contestants left in the venue!

One by one, they were incomparably crazy.

But it was already too late.

“Ten, nine, eight, seven, , four, three, two, -, zero!”

Many of the spectators outside were shouting the countdown.

Waiting for the time to return to zero.

Inside the competition planet.

All the transcendent teams, whether they were fighting each other.

Or the ones who were peacefully still.

Everything was transported out.

Back on their respective planets!

This also meant that

The five-day group competition..... officially ended!

The final ranking of each group was also set.

Long Sky Tournament.

A total of one thousand and one groups.

Each group had a quota of 100 people.

Add up

A total of one hundred thousand and one hundred people successfully advanced to the elimination round.

Didn't look at the number of people.

Because this was from the second-level planetary masters with more than one billion in the entire long sky star region... rushed out!

Each and every one of them was the strongest of the second level Planet masters.

The quota occupied by the entire Federation was less than one tenth.

Falling in the thirty-six superlative academies was even less.

Jiang Fan's ranking was also completely determined –

Participant: Jiang Fan

Planet: Planet Area No. 81

Points: 30312

Ranking: 55

A medium ranking.

Jiang Fan wasn't surprised by this.

If he used his full strength, he could rank higher.

But it didn't mean much.

Out of the line was completely enough.

At the same time.

The people outside watching the battle, some were happy and some were sad.

Thirty-six superb schools didn't have any mood swings.

The group stage results were basically the same as they expected.

The old man in blue from Bei Dou University was the same.

Together with Jiang Fan.

This year's Beidou University did have ten people..... managed to get out of the group.

It's barely satisfactory!

“This Jiang Fan actually.....really killed his way into the elimination rounds?”

Princess Elu quickly starred at Jiang Fan's ranking.

It was still unbelievable, to this day.

“This should have created a historical record for our Long Sky Star Area, the strongest freshman in history I'm afraid there's little doubt.”

The black-clothed old man beside him, Bis, said.

And in Su Jicheng and Lin Youhe's villa.

That was a boil.

“Miracle! This is really a miracle!” A school leader said excitedly.

“I had previously predicted that Jiang Fan would be ranked in the top 100,000 at most, but I didn't expect..... It's surprising that he was still able to come out of the line, this is a good face punch.” An older teacher also laughed.

But not everyone was happy.

In Ao Xiong's villa.

A group of people were just half happy and half worried.

The happy ones were

The prince was killing it in the group stage.

He ranked first without a doubt and made it out of the line without a hitch.

The sad thing is that

It was not on their mind at all.

Jiang Fan, who they thought would be eliminated soon.

Surprisingly, he also killed his way into the elimination rounds!

“Is this Jiang Fan really that strong? This is the entire Long Sky Star Area, the group stage where hundreds of the strongest level 2 planet masters have participated, and he was able to break out?”

A trace of awesome passed through a teacher's eyes.

There was still some disbelief.

“If Jiang Fan was in the same class as the Crown Prince, or even born two or three years earlier, then the Crown Prince would be in big trouble.”

Another teacher also said.

The others were slightly frowned.

But no one spoke out against it.

Even if they did not want to admit it.

But they also knew...

Just talk about talent and this growth rate.

The prince couldn't compare with Jiang Fan at all!

“There's no need to talk about this.”

Ao Xiong waved his hand and said, “The group star competition doesn't care what talent or age you have, what is being compared is the current strength!”

“Jiang Fan is good, but the ranking is only more than fifty in the group, and the Crown Prince is far from it!”

“The elimination round will definitely not go too far, you guys don’t need to worry about him, and cheer for the crown prince!”

“That’s right.”

The corners of Li Zihao’s mouth curled up into a smile and said, “In the entire Long Sky Star Area, there are only one thousand final winning spots, and most of the 100,000 and 100 people in the group have no chance, even the first place in the group may be overturned, what is a mere Jiang Fan!”

And in the Lin Youhe villa.

Four people had turned over the sky.

Throwing the things in the house everywhere.

Their hearts were full of joy!

“No matter what, no matter how far Jiang Fan can go behind, I have to go support him.”

Lin Youhe took a deep breath.

Chapter 466: The group stage comes to an end! Jiang Fan's ranking! Part3

Part3

Dialing his communicator, he said, “Dad, book me a box ticket for the elimination round.”

“What? There's no more? Then pay the price for it, my brother has killed his way into the elimination round, I have to go and support him.”

Hang up the conversation.

Wan Yunsheng and the three looked over.

Xiang Zhifei asked, "What about it?" Did you get the tickets?"

"It should be no problem."

Lin Youhe was quite confident and said, "My dad originally refused to do it, but when he heard it was Jiang Fan's elimination match, he immediately agreed to do it!"

"Should we go to Jiang Fan's place to celebrate?"

Jane Ziqiang suggested.

"No need."

Lin Youhe shook his head and said, "The elimination tournament starts in three days and the time is urgent, so we'd better let Jiang Fan settle down and prepare properly!"

After the group stage was over.

Each participant was teleported back to their original locations.

Jiang Fan returned to his villa.

Faintly exhaled.

He opened his communicator.

Sure enough, he found

There were a lot of communications and messages inside.

During the competition, Jiang Fan was turning his communicator off.

Most of these communications and messages were from friends and teachers.

There were also some strangers.

Jiang Fan looked at a few.

Most of them were celebrations.

He replied to Su Jicheng and Lin Youhe.

Then he turned off the communicator again.

He devoted himself to preparing for the elimination rounds.

“According to the situation in the group stage, the power of the armor-piercing explosives is no longer enough.”

Jiang Fan rubbed his chin and thought, “The main thing is that the armor-piercing ammunition has reached its limit, and there's no more place to improve it.”

“The new type of weapons must start moving!”

No way.

Jiang Fan knew.....

This was also the upper limit of gunpowder.

The current armor-piercing ammunition still relied mainly on the kinetic energy generated by gunpowder to fire!

Relying on Xia's advanced technology.

The speed was also nearly two thousand meters per second.

But this was already the limit.

The latter wanted to improve.

Only by a small margin, a large magnitude would be very difficult.

The good thing was that the Great Desolate Army had long been developing other weapons decades ago.

Now this new type of weapon was.....

Technically almost more practical.

The only difficulty was.....

Energy source!

It needed a lot of electricity!

Now Xia's battery was only capable of firing this new type of weapon five times at once.

Then it was deleted.

It needed to be recharged.

This would be a huge waste of time.

But battery technology was unlikely to advance anytime soon.

The next step in graphene batteries.....

There won't be a breakthrough for a few years.

That left a lot of headaches.

That's why...

Only then did the Great Desolate Army made a lot of missiles.

Prepared as a last resort.

Conducted a bombardment of missiles!

But this was not a conventional tactic after all.

At first it might be okay to use.

Those transcendent creatures in the back would surely scatter quickly!

Let the missiles hit at most one at a time!

In the next elimination round.

So many opponents to kill out of the Long Sky star area.

At least millions of transcendent species would have to be faced.

Should we have to use millions of missiles?

Besides.....

The more you get to the back.

The stronger the opponent was.

The missiles were not foolproof!

“The main problem is battery charging?”

Jiang Fan thought about it.

Something suddenly came to mind.

Immediately went into the awakening space.

The eyes were directed at the third land, a very naughty electric mound.

“These guys.”

Watching the two electric mounds released terrifying electricity.

It directly exploded a boulder.

Jiang Fan couldn't help but have his eyes lit up.

After decades of reproduction.

Now the size of the electric mound colony has reached millions.

Spread across the third land half of the region.

And like normal rats, electric mounds were also able to give birth to several nests every year.

One generation was stronger than another!

The weak power of the first generation of electric mounds was still fresh in Jiang Fan's mind.

And now hundreds of generations later, the electric mound.

It was completely terrifying.

“I wonder if this will work?” Jiang Fan pondered for a while.

He decided to give it a try.

Using his identity as a planet master, he sent up millions of electric mounds.....

There was a wave of fluctuations.

In these fluctuations, carried the will belonging to Jiang Fan.

“Well.”

As this fluctuation swept through the electric mound colony.

One by one, the electric mounds stopped their hand movements.

Involuntarily, they lifted their heads.

Blinking their eyes.....

Looked at the sky.

They were not sure where exactly this fluctuation came from.

But roughly accepted the meaning of it –

The great conquest was about to begin, and the electric mounds were ready to cooperate with humans in the conquest!

“Humans!?”

A single electric mound cocked its head.

Unsure of what to do.

And on this side of the Xia Kingdom.

Inside the star house.

Jiang Fan also revealed a line of text once again.

“Hm? Over on the third land..... There's still such a magical animal?”

After seeing these words.

Xia Ning, Huo Qubing and Xu Ji were all wide-eyed.

The Third Land had naturally been discovered by Xia's side long ago.

But because they were busy with the Supreme Glory Conquest.

There was no time to explore it either.

“That's an obvious hint.”

A hint of excitement appeared on Huo's face as he said, “This way, we might have a temporary solution to our recharge problem, I guess!”

For Jiang Fan's hint.

The seven members of the cabinet naturally had no doubts.

After a short deliberation.

Soon

The team was led by Huo Qubing himself.

Going forward to the third land.

Ready to bring back a batch of electric mounds.

“There shouldn't be any problems.”

Jiang Fan muttered to himself.

Uneasy, he chose to use the extrapolation system.

Extrapolated a bit.

The results put Jiang Fan's mind at ease.

The will of his own planet master was still working very well.

A single electric mound was also extremely intelligent.

It soon understood the general meaning.

The next thing

It was not necessary for Jiang Fan to intervene.

There were still three days until the elimination round.

Jiang Fan adjusted the time flow rate to one year.

Huo Qubing brought back the electric mounds very smoothly.

These electric mounds were also very cooperative.

Three days passed in a flash.

The Great Desolate Army and Jiang Fan were also ready.

It was different from the group stage.

The elimination round was completely open live and

There were tickets and spectators, If you wanted to see it with your own eyes!

Buy a ticket and you'll be able to get in above the competition planet to watch it live!

At the same time.

Long Sky Star Area.

-Every single power.

They were all performing live.

For many people.

Compared with the group stage with a large number of people and uneven strength.

The elimination rounds were worth watching!

Each and every one of them was the top existence among the second level planet masters!

Just like the group stage.

The elimination rounds started at eight o'clock in the evening!

The entire Long Sky Star Area was already abuzz with excitement.

Many of the forces behind the players who had made it to the elimination rounds.

Naturally, they had purchased many tickets.

Many people were sent to cheer for their own people!

Bei Dou University was no exception.

This year, although there were only ten people out of the line.

But there were many spectators watching the battle.

Tickets have long been booked out.

Even

Some people spent several times the price to grab the tickets from some special channels.

According to the rules.

The players who made it to the elimination rounds must enter an hour in advance. 7:00 PM!

Jiang Fan was the same as the other contestants.

Stepped onto the stage of this elimination round!

Chapter 467: The elimination round begins! A crazy melee!

“So many people.”

Looking around at the dense audience, Jane Ziqiang couldn't help but let out a sigh of relief.

Although the start time of the elimination match was eight o'clock, there were already many impatient spectators came to the site early.

The competition venue for the elimination match was also on a specially located planet.

In the sky above the planet, separated by a barrier, outside the barrier, there were hundreds of millions of seats densely packed!

Whether sitting far or near, relying on the special effect of the barrier, they could see the situation in the field below Clearly!

Even with so many seats.

But it was still snatched up long ago.

“Our school alone is in the Bei Dou province and has tens of billions of people, let alone the entire Federation. This is the entire Long Sky Star Area. Everyone is concerned about the competition, 100 million seats It's still not too bad.” Lin Youhe also said with some emotion: “If it weren't for my father's relationship, I wouldn't be able to get the ticket for the box, and there are too many people grabbing it!”

“Growing up, it's the first time to watch the duel of various transcendent communities live.”

A hint of anticipation came out of Xiang Zhifei's eyes.

“We all are.”

Lin Youhe smiled and said, “This kind of competition planet's forfeit is not something that any power can come up with, and only a behemoth like the Group Star Council Only then would they spend so much money to let everyone watch the battle live!”

“No way, this is the group star competition.”

Wan Yunsheng also smiled and said, “Relying on these ticket fees, the Group Star Council won't even lose money!”

In fact, like the previous exchange tournaments and other competitions.

The Federation could also set up a live spectator.

But this cost was very big.

Since, the cost was very high.

So naturally, it was impossible to set it.

“Watching the game live...it's just so different.”

Jian Ziqiang was amazed at the astonishing noises around him.

Although it was over the specially set up planet.

But the surrounding environment was the same as in an ordinary ground-based competition arena.

It was almost exactly the same.

It was all about being able to hear other people talking in the vicinity and the commotion inside the venue!

What was the experience of a scene with 100 million people in the field?

Even if everyone deliberately lowered their voices.

But it added up to like the waves of the sea churning.

“This is okay, wait until the real competition starts That’s what’s exciting.”

Lin Youhe said with great anticipation: “That is a hundred transcendent teams of mixed battle, one from each group, the strength of the top, that scene Just thinking about it makes people’s blood boil!”

According to the rules of the tournament.

The first round of the elimination round

The competition site was on a flat piece of land with no other life.

This flat area wouldn’t be large.

They divided it into one thousand and one games.

Each game would have a hundred teams of participants.

“One hundred Transcendent Mortal teams with only three advancement spots, the competition is very terrifying.”

Lin Youhe couldn’t help but shake his head.

After a pause, he added: “But There are two chances for the elimination round, and the loser will enter the loser’s group.”

“But the competition in the loser’s group is even more terrifying, that’s tens of thousands of people competing for hundreds of spots for the final winner.”

Wan Yunsheng also shook his head.

According to the rules of the Group Star Competition.

In total, it was divided into the sea qualifiers, regional qualifiers and the final main event!

The sea qualifier was also known as the group stage!

Those who come out of the group would go to the regional qualifiers.

That was the elimination round.

In the Long Sky Star Region.

The participants who would advance to the elimination round were One hundred thousand and one hundred people.

These people were divided into one thousand and one groups.

Each group had one hundred people.

And there were only three advancement spots!

In other words

There would be 3003 contestants advancing.

And the remaining 97,097 eliminated contestants would not be eliminated directly, but

They would go into the loser's bracket.

In the loser's bracket, 997 places will be determined in a round-robin format.

Together with the previous 3003, that adds up to 4,000!

Then a final elimination round!

To determine the final 1000 winning spots!

According to the rules of the Group Star Competition.

Each star area has only 1,000 qualifying spots for the qualifiers

The finalists would advance to the Star Council and participate in the final main event!

“So try to advance as much as you can. The loser's bracket round robin is a waste of time and energy, it's simply torture.”

Lin Youhe said.

“Only three of the one hundred participants can advance. Everyone else has to be eliminated to the loser's bracket, which is difficult, Quite a lot!”

Wan Yunsheng frowned slightly and said: “It can be said... that those who can advance are basically the second-level peak planet masters, and some are even the peak of the peak!”

“Let's see the overall ranking.”

Lin Youhe projected a page from the communicator.

This was the end of the group stage.

The full ranking of all those who came out on top!

It was ranked according to the points earned by each participant.

“The ones ranked in front are all Level 2 peak planet masters. Their fame was huge before the competition, and they are also the favorites to come out of the qualifying round.” While scanning the rankings, Lin Youhe said.

I watched the previous ranking a little bit.

Just flip directly to the back to find Jiang Fan’s ranking.

Soon!

Jiang Fan’s ranking showed up –

Participant: Jiang Fan

Points: 20312

Total ranking: 526554

“Jiang Fan’s ranking is in the middle of the pack, and his grouping is also in a group that’s not too strong or too weak.”

Xiang Zhifei said.

“The Star Council uniformly divided these groups according to the points. The overall strength of each group is similar, not too weak or too strong.”

Lin Youhe explained, “It doesn’t make any difference which group you are in. The key is to see how strong each participant is!”

“Right.”

Wan Yunsheng nodded and said, “There are a hundred players in each group, and none of them will be weak. It all depends on how they perform on the spot.”

“What else can I say, Jiang Fan, fighting!”

Xiang Zhifei said loudly.

Unfortunately, these words, Jiang Fan couldn’t hear them.

At this moment, he was resting at the venue specially prepared by the tournament officials.

It was a huge space similar to the previous virtual space.

The difference was that

They arranged it like a hall.

There were rows and rows of chairs inside.

And it wasn’t just Jiang Fan alone.

The first game of Jiang Fan’s Long Sky Star Area regional qualifier

It was assigned to the 28th group!

More forward.

It will also appear soon.

This group of one hundred players had come to this rest hall in advance!

One by one, they were sitting with their eyes closed.

Waiting for the start of the game.

Jiang Fan also found a position.

Closed his eyes and adjusted his spirit.

Waiting until it was almost eight o'clock.

Jiang Fan reopened his eyes.

The others were also ready.

Time passed by second by second.

Eight o'clock came quickly.

All the hundred people in this group instantly disappeared.

Chapter 468: The elimination round begins! A crazy melee!

They were transported inside the competition venue.

Clap

Deafening sounds rang out all around.

Jiang Fan turned his head to look.

He found that he was already in the venue and around actually sat rows and rows of dense audience.

You couldn't see the end at a glance!

The number was unknown!

Hoo

Seeing the contestants make their appearance, all the spectators on the scene were boiling up.

The sound once again became much louder.

There were also many people shouting the name of some contestant at the bottom.

After all, most of these spectators were from the location of the forces behind the contestants in this group.

“Look, it's Jiang Fan.”

Jane Ziqiang was very excited and pointed to Jiang Fan's position in the venue.

Lin Youhe, Wan Yunsheng and Xiang Zhifei and the other three also looked over.

Immediately, they spotted Jiang Fan among the hundred players.

It wasn't just Lin Youhe and the four of them.

In another box next door, not far away.

Su Jicheng, other school leaders and teachers were also sitting here.

Watching this game.

But they were very relaxed.

Jiang Fan could break out of the group stage and kill his way into the qualifying round.

Already exceeded the expectations of many people.

On the outside.

Today's fame spread throughout the entire federation.

Even those high and mighty level 6 planet masters were of the opinion that Jiang Fan was the strongest one!

To come this far.

That was enough!

As for going farther?

Everyone didn't have that in mind.

After all, Jiang Fan's group stage ranking was still low.

Shortly after entering the field.

A pleasant woman's voice rang out and said, "Welcome, one hundred contestants, to the regional qualifiers of the Group Star Competition, this is the 28th group!"

"These one hundred contestants are all from the Long Sky Star Region The most outstanding secondary planet masters!"

“Here, please get ready. The game will officially start in ten minutes!”

Immediately after

There was another burst of transmission.

Jiang Fan found himself being transported into a single sparring room.

It was different from all the previous battling rooms.

This sparring room was actually in the star space.

And!

The surroundings were still transparent.

Watching the battle outside can see the situation in the battle room!

But Jiang Fan didn't care.

The ten-minute countdown passed in a flash.

One hundred contestants' respective planet channels opened!

-A team walked in.

The Great Desolate Army also made early preparations.

This time

Not only did they bring along a full three hundred giant gorillas.

And there were also thousands of electric mounds.

The number of the Great Desolate Army warriors was still fifty thousand.

But the storm fighters increased significantly.

One hundred came directly!

As for the unmanned fighters.

Then there were even more.

Hoo hoo

A micro drone was the first to enter through the passage entrance.

Flying above the sky.

Observing the situation of the entire competition venue.

“Today’s field is much smaller than the group stage, and it’s also all flat.”

Huo Qubing noticed this after observing for a while.

“There are only one hundred teams today, and it’s a knockout tournament, the fight is about strength.”

Xu Ji was not surprised.

In the group stage, the Great Desolate Army had also encountered participants who sold information for star fragments.

And in the elimination round.

There was no chance for you to fish in troubled waters like this!

Boom, boom, boom...

At this time.

Not far away from the Great Desolate Army.

There came a huge trembling sound.

Huo Qubing, Xu Ji and the others looked over quickly.

Then they saw it.

At the entrance of a passage a kilometer away.

Walked out of a gigantic giant with black flames all over his body!

Although the number was not too many.

But the breath was extremely terrifying.

The appearance of these black flame giants.

Immediately caused the audience to exclaim.

“Black Flame Giants! It’s the Black Flame Giant that was created by Hess!”

“Is that demon Hess from Giant Island? The one with the highest points in this group?”

“Yes, it’s him! Ranked 856 overall, a strong contender for the 1,000 spots in the Long Sky Star Area this time!”

One by one, they were discussing.

And the audience from Giant Island were shouting the name of “Hess”.

“Hess! Hess

Tens of millions of people shouted in unison.

They drowned almost all the other voices in the room out.

“There are so many audiences on Giant Island.”

Xiang Zhifei slightly frowned.

“No way, who is said to be strong, and there are many people who have entered the knockout round”

Lin Youhe shrugged his shoulders, and said helplessly, “In this group stage, Giant Island got tens of thousands of places. In this group alone, besides Hess, there are about a dozen people who are also from Giant Island!”

Giant Island was also a behemoth of the Long Sky Star Area.

Although the population was not as large as the Federation.

But it was more united!

The vast majority of those cultivated were Giant race!

The race of giants.

Most of them were super civilizations!

This made the individual strength of the planet master of Giant Island much higher than any other power!

Even the empire that placed extreme importance on elite training was no match.

After all

Inside the empire, there were still a lot of royal sons with mediocre talent.

On the other hand, Giant Island only selected talents with outstanding talent.

They will directly expel the poorly endowed from the island.

Regardless of life or death, the competition on the island was also very, very cool!

It was almost like raising a compulsion type.

It also happened every year

Giant Island would be born of a lot of both talented, but also has the strength of the planet Lord!

This time the group star competition.

Giant Island's performance was exceptional!

The number of overall advancement to the group stage was

Second only to the most powerful Long Sky Nation!

Ever since, the number of cheering spectators sent was also one of the largest.

Of course, it wasn't just Giant Island.

The forces behind the other contestants also sent numerous spectators.

Cheering for the transcendent teams built by their respective players!

Momentum was sometimes very important.

“Jiang Fan, Jiang Fan

Lin Youhe and the others were also shouting desperately, cheering for Jiang Fan.

Because this group only had one student from Bei Dou University, Jiang Fan.

So there were few spectators from Bei Dou University.

The voices of Lin Youhe and the others.

The shouts of others soon drowned them out.

Of course, Jiang Fan still heard it.

He heard it in a flash.

“These four guys.”

Jiang Fan glanced at the box where Lin Youhe and the four people were.

Turned back.

He concentrated on the situation on the tournament field.

A virtual space barrier separated the competition venue and the audience.

So the cheering sound from the outside.

The transcendent teams inside could not hear it.

But they were also clearly able to feel

There seemed to be something different today.

Rumble

Hula hula

One by one, the transcendent teams kept coming out of one passage after another.

What differed from the group stage was.

This passage entrance was not closed.

They could open it anytime.

But once you exit the competition venue.

It was impossible to come back.

Soon, one hundred transcendent teams met on this narrow field.

After a short scuffle.

A large lizardmen team took the lead.

The other teams responded.

And followed suit.

And next door to the Great Desolate Army.

A transcendent team also moved towards the Great Desolate Army and attacked!

Chapter 469: Crazy elimination! The Great Desolate Army's new move! In the middle of the venue.

Jiang Fan didn't recognize the first team that rushed towards the Great Desolate Army.

It was just because it was closer to the Great Desolate Army.

Although Jiang Fan had some fame now, it was only in the federation.

Some people were just talking about it.

More people might have just heard the name but simply didn't bother to care.

For the participant who could advance to the elimination rounds

Jiang Fan was only a mid-level qualifying player.

He was ranked in the middle of the pack.

Many people didn't care at all.

Naturally, it was impossible to study it in advance.

This was the case with this transcendent team that was rushing over now.

It was ranked in the top 500,000.

Looking at the Great Desolate Army like looking at a big fat sheep.

“Mandela!?”

Jiang Fan had done his homework in the past three days.

Su Jicheng and Lin Youhe and others had also sent him a lot of information about the other ninety-nine players in this group!

Seeing the tens of thousands of giant black snakes rushing over.

Jiang Fan instantly recognized it.

This was among the snakes

A rare super civilized race.

Named “Mandela”!

The body was dark in color.

The body length was over thirty meters.

The most terrifying thing was its immense strength and the poison in its mouth!

This was not a python.

Stripes of Mandela crawled across the ground.

The speed was so fast!

But the formation was still very elaborate.

The opponent also saw that the Great Desolate Army was using long-range output

It simply surrounded them from all sides.

“Crush the incoming enemy.”

The Great Desolate Army would naturally not be polite.

Huo Qubing ordered directly.

One hundred storm fighters had long been ready to launch.

Hearing the order.

They were instantly activated.

But for insurance, they still sent out fifty units first!

Fifty combat drones were also up in the air, ready to help on the sidelines!

These combat drones couldn't output firepower.

There was also a function that being able to be at critical moments.

To act as a shield for the storm fighters!

Blocking possible air attacks!

Above the ground.

The 50,000 Great Desolate Army and 300 giant gorillas made preparations for defense.

The Great Desolate Army warriors hid in their chariots.

Conducting fire.

And the giant gorillas were surrounding the Great Desolate Army.

Evenly lined up.

Forming the first defensive wall.

“Roar, roar, roar!”

A giant gorilla looked at Mandela, rushed up and patted his chest very excitedly.

It wanted to go up and fight with these enormous snakes.

But there was no way!

The Great Desolate Army’s orders were like mountains.

There was no order from Huo and Xu Ji.

A giant gorilla could only

Obediently, wait in place.

Against these Mandela, giant snakes.

Relying on the fifty storm warplanes and fifty unmanned warplanes above the sky.

It would have been completely sufficient.

Blitz

Hundreds of machine guns were firing wildly!

Bullets were raining down!

The Great Desolate Army was still using armor-piercing explosive bullets.

But they did not know Mandela for their defense, either.

The defense was better than before in the group.

But it was weaker than those tusked steel pigs encountered.

After being hit by the armor-piercing explosives.

The snake skin broke open directly.

A series of violent explosions sounded.

The bodies of giant Mandela snakes... blossoming one after another!

The blasted flesh and blood flew everywhere.

Not even within a minute.

On the ground, thousands of Mandela snakes fell.

“This This

The player who had built the Mandela stared at him with wide eyes.

She was so shocked that she couldn't speak.

She still thought that the Great Desolate Army was weak and bullyable.

But unexpectedly

She actually bumped into an iron plate and caused herself a heavy loss.

“Withdraw, hurry up and withdraw!”

This player immediately ordered the Mandela giant Snake to flee.

The Great Desolate Army pursued them, either.

This was not a group match.

To finish off the opposite side, there were no star fragments falling down either.

And!

This was a not-so-large playing field.

At any time, they might encounter other people's attacks.

The crowd was of the same mind.

First, they planned to find soft persimmons to pinch!

This team that had lost thousands of Mandela Giant Snakes was bound to be attacked by other teams!

The Great Desolate Army slightly shifted their formation.

Found a good place and set up a defensive situation.

Watching the Great Desolate Army easily chase away the huge Mandela army.

Lin Youhe and the others who were watching the battle breathed a sigh of relief.

“Jiang Fan has so many more pilots. It seems to be more powerful- a bit more powerful too.”

Jian Ziqiang’s eyes were wide.

He carefully observed the Great Desolate Army.

Especially the storm fighters in the air, said with a look of amazement.

“Originally, there were only thirty of them during the exchange match, but now they are all over a hundred.”

Wan Yunsheng also nodded and said, “No wonder they could kill their way out of the group stage. These planes are probably not that hard to cultivate.”

Lin Youhe and Xiang Zhifei both nodded their heads.

According to common sense.

The higher the level of the transcendent species.

The more difficult it was to breed.

The reproduction rate was also lower!

And the pilots

According to the judgment of the people.

At least at this level, it could be classified as a “super” level.

Still the best of the best.

The difficulty of cultivation was naturally very high.

But the fact was that there was an enormous difference.

“Jiang Fan will not be at the bottom of this group, at least!”

Lin Youhe breathed a sigh of relief.

Rumble

In the competition venue.

One Transcendent Mortal team was all in battle.

Frantically fighting each other!

All kinds of loud noises arrived!

The roar from that huge, transcendent creature was deafening!

Even

Even the shouts from the spectator positions The audience's shouts were suppressed.

But the audience was fearless.

Even more passionate.

Yelling louder!

Lin Youhe and the other four people were also excited.

It was as if they were on the field.

“Roar, roar, roar

Around the Great Desolate Army.

There were two Transcendent Mortal teams fighting the most fiercely.

What was surprising was.

Chapter 470: Crazy elimination! The Great Desolate Army's new move! In the middle of the venue.

These two Transcendent Mortal teams were both of the same species. Surprisingly, they were both huge Blood Striped Tigers!

“Blood Striped Tigers?”

Jiang Fan instantly recognized it.

Immediately afterwards, he couldn't help but raise his eyebrows.

It was because he knew where these two teams of Blood striped Tigers came from.

Both came out of a certain power.

But there was a deep hatred between each other.

Now actually also divided into the same group.

Naturally, they didn't care.

Fought really hard!

Only

While fighting each other, they hit the front of the Great Desolate Army.

The Great Desolate Army didn't care who it was.

As long as it comes within the guard line everything would be shot.

These two blood striped tiger teams were also the same.

The sudden burst of

Machine guns fired again.

A single armor-piercing explosive shell as if desperate to fire towards a blood striped tiger!

Poof poof

The defense of the blood striped tiger was not top-notch.

At least not as good as the tusked steel pig.

The defensive power of the tusked steel pig.

It was the Great Desolate Army so far.

The strongest transcendent race encountered in this race.

An armor-piercing explosive bullet broke through the body of the blood striped tiger.

Explosive shells exploded in the body!

Directly causing these Blood striped Tigers to be seriously injured.

Roar!

Another team of Blood striped Tigers rushed up behind them.

They were also ruthless against this blood-striped tiger team.

In less than a moment's time.

This Blood Striped Tiger team of over 50,000 over 5,000 fell.

Under the two-sided attack.

It was hard to even escape!

Three minutes later.

The player who had created this Blood striped Tiger team could only choose to quit reluctantly!

In front of the battle room.

There was also a “quit” button.

“Damn it!”

This player hammered the table and said, “You’re lucky! Otherwise, I would have killed you, you bastard!”

“Thanks a lot, my friend.”

A voice sounded in Jiang Fan’s ears.

The elimination rounds also continued the group stage setup.

The planet masters behind each transcendent team that saw each other could talk to each other.

Jiang Fan didn’t bother to respond.

This wasn’t a favor.

Rather

That Blood striped Tiger team just now.

It stepped within the cordon of the Great Desolate Army.

The Great Desolate Army automatically defended itself.

“Friend.”

The voice hesitated for a moment and said, “How about we join forces? With our strength, we can probably last for a long time.”

“No need. I’m fine on my own.”

Jiang Fan responded lightly.

Team up?

Or teaming up with someone unknown?

What a joke!

When the time came, they didn’t know how to be pitted.

Besides

The Great Desolate Army did not have to join forces either.

Hearing that, this player frowned slightly.

But said nothing.

He directed his Blood Striped Tiger team and moved in another direction.

The Great Desolate Army continued to sit in the same place.

A while later, another Transcendent Mortal team came over to kill.

But it was an extremely large army of giant rats.

It could be said that

Of all the transcendent teams on the scene, it was the most numerous!

Over 200,000 giant rats!

“This is Gold Devouring Rats.”

Jiang Fan took one look and recognized it.

Gold devouring rats were similar to rats.

The reproductive ability was very strong!

It could also give birth to several litters a year.

It was also easy to raise.

The most powerful thing about the gold-devouring rat was its teeth.

Its teeth were extremely sharp!

Almost indestructible!

Many hard treasures... could be easily bitten off!

Speed and agility were not weak either.

This was an extremely powerful race.

Relying on numerical advantage.

Let many opponents be frightened.

Unfortunately

Encountered a hundred fighters!

The defense of the Gold Devouring Rat was a weakness.

It was much worse than the Mandela Giant Snake before.

Chug chug

The fighter jets shot past.

The gold-devouring rats that rushed in the front, one by one, blew up and died.

There were several of them.

A dense, armor-piercing explosive also hit the body.

It was beaten like a hornet's nest.

Within a moment.

Thousands of gold-eating rats died.

The gold devouring rats were also cunning.

After seeing such a strong firepower of the air fighters, the rest of the other gold-devouring rats simply did not dare to continue to rush over.

“Retreat!”

The fighter who built the Gold Devouring Rats was not stubborn, either.

Seeing that things could not be done.

Immediately, he ordered the army of Gold Devouring Rats to retreat.

It was naturally impossible for the Great Desolate Army to pursue them.

In this elimination tournament, as long as you end up in the top three, you would be fine.

There was no need to take out many opponents.

Of course.

Other Transcendent Mortal teams, there were some that were the same as the Great Desolate Army.

Took a defensive formation.

For example, extraordinary species that built water cannon turtles.

But they didn't have such strong firepower as the Great Desolate Army.

Very passive!

There is also a famous saying in the planetary world—

Offense was the best defense.

It could go to the end.

Almost all of them were extraordinary races with very strong offense.

But it couldn't be helped.

Each planet master was based on the characteristics of their own planet to create the most suitable transcendent species.

It was impossible to have everything.

Three or four consecutive transcendent teams were planted on the Great Desolate Army.

And were beaten to death.

The other transcendent teams also knew that the Great Desolate Army was not to be messed with.

Before, they were completely sure.

They did not dare to rush up and try.

The deafening sounds resounded all over the competition grounds.

But it had nothing to do with the Great Desolate Army.

Three hundred giant gorillas could only watch the show.

But it could not move.

As time goes by.

The same setup as the group stage, the playing field would also get smaller and smaller.

And the players began to be eliminated!

So many transcendent teams, naturally, they couldn't fight alone.

Some of them knew each other, or even came from the same power.

Early on, they joined forces to beat the less with more.

Eliminated the other weak teams one by one.

The tournament field.
