

One Planet 471

Chapter 471: Crazy elimination! The Great Desolate Army's new move! In the middle of the venue.

The number of transcendent teams kept decreasing.

Ninety.

Eighty.

Seventy.

Sixty.

.....

All the way down to fifty or less.

"I won"

Inside the box, Lin Youhe was thrilled and extended his hand towards Xiang Zhifei.

Just now the two of them were betting whether Jiang Fan could make it to the top fifty or not!

"I'm also confident in Jiang Fan, but no one bets he can't make it to the top fifty, so I'll have to pay for it."

Xiang Zhifei happily drew out a federal coin.

Playing up to this point.

The ones left in the venue were basically extremely powerful existences of level 2 Planet Master.

Not the peak of the second level.

The gap was also not far away.

“Hmm!?”

Not far away near the Great Desolate Army.

After the powerful Black Inferno Giant easily eliminated another team.

He turned his gaze to the Great Desolate Army who had been watching from the sidelines.

The planet master who created the Black Inferno Giant!

It was also Hess who had the highest overall ranking among the hundred people and was recognized as the strongest.

After looking at the Great Desolate Army for a few moments.

He said coldly, “Murray, what is the origin of these guys with weird weapons?”

Murray was also a member of Giant Island.

They also divided him into this group.

The strength was also extremely powerful.

He was ranked fifth overall.

Very promising to advance!

Not only did the two know each other, they also had a very good relationship.

“It seems to be a freshman from the Federation side.”

Murray replied.

“A freshman?”

Hess frowned slightly.

“I checked, and it’s indeed a freshman.”

While checking the information from the communicator, Murray said, “It’s the only freshman who made it out of the group stage in this year’s Long Sky Star Area where we are. He has made history and is known as the most powerful freshman in history!”

“The most powerful freshman?!?”

Hearing that.

The corners of Hess’s mouth suddenly curled up into a smile and said, “Murray, what do you say shouldn’t we teach this freshman a lesson and let him know that this is the stage for us peak level two planet masters!”

“I just noticed it too. This guy is obscene, has been hiding in the corner, basically did not come out much.”

Morrie also smiled and said, “It’s time for this new student to suffer a little bit, hehe, fucking planet dream!”

“Besides...”

“The pilot created by this new student is still in the air, which is very eye-catching.”

For the giant race, the ones that could fly in the sky.

It was the species they dislike the most.

“Murray, Muse, Laura Let’s kill some unsightly guys one by one, and then fight each other at the end. What do you think?”

Hess said to one of the other top ranked contestants.

This was also a subtle rule of the elimination tournament.

The strongest ones rarely fight each other.

Instead, the other weaker participants were eliminated first.

Then the final showdown.

This was also to avoid Two dogs fight, play off.

“Of course, there’s no problem. These guys are still thinking of waiting for us guys to fight each other, and then they’ll pick up the bargain from the sidelines.”

“I also have no problem. The strongest of this group is only the ten of us, the others are all losers.”

“Hess, what do you say, which unlucky guy should we start with first?”

One of the other contestants had no opinion at all.

The idea had been there for a long time.

“Then”

The corner of Hess's mouth curled up into a smile and said, "Let's start with that one over there who I heard is the strongest freshman ever."

"The strongest freshman ever? You mean Jiang Fan from the Federation?"

"Yes, it's this little guy."

"Then let's abuse this unlucky little guy first. There's no way who made him the strongest freshman ever? I'm not used to seeing the strongest, the most demonic, and so on. I'll go first."

Boom, boom

At once.

The ground resounded with a violent trembling sound.

From the sky under the monitoring of micro drones.

It could be seen

An extraordinary team of tall and slender women with spikes on the surface of their bodies and very beautiful faces.

It was rushing rapidly towards the side of the Great Desolate Army.

"Thorny Lady!?"

Jiang Fan naturally recognized this rather special transcendent species.

It possessed terrifying, bouncing power and attacking power.

In particular, it was also capable of long-range output.

Sending a spike from its body launched at super high speed!

Of course, this move was not until the critical moment.

It was impossible to use it.

Rumble

It wasn't just this thorny girl.

Another trembling sound rang out all around.

The left and right sides.

There were two more powerful transcendent teams forced their way over.

This was not all of them.

In the front of the Great Desolate Army.

Two teams of giants with incomparably powerful breaths also followed and surrounded.

One was the "Flame giant" that Jiang Fan had seen once in the entrance exam.

And the other

The other was the Black inferno Giant created by Hess, who was recognized as the strongest in this group!

This was an even more powerful race of giants than the Flame Giants!

This sudden scene on the race field caught everyone's attention.

After all

Hess, Morrie and Laura were among the contestants.

All of them were ranked in the top ten of this group.

Among them, Hess and Murray were still ranked in the top five.

The other two were also ranked in the top twenty!

Five contestants ranked in the top twenty teamed up to deal with one person!

Let Lin Youhe and the other four people who had been watching Jiang Fan

Their faces suddenly changed!

“What’s wrong with these guys? Why would they besiege Jiang Fan alone?”

Wan Yunsheng frowned, puzzled.

“Jiang Fan is in trouble this time.”

Lin Youhe was also frowning tightly!

The other spectators were feeling quite surprised.

Immediately afterwards

There were also many people who figured it out.

Isn’t this the fact that Hess and other top players are teaming up?

Preparing to remove some weak ones first?

“This guy is really unlucky to be targeted by people like Hess.”

A nobleman who was watching the battle chuckled lightly.

Chapter 472: Jedi Counterattack! Gale attack!

In highest group point ranking, the total ranking were 856.

Muse, who was recognized as the strongest and uncontested in the lineup.

Together with the fifth ranked Mori, they were players of Giant Island.

The popularity of these two was very high.

Many spectators at the scene were shouting the names of these two.

As being from the same Giant Island.

Both of them before the elimination match.

After some discussions, they joined forces within this group.

There is no problem for the most powerful Muse to qualify.

With the help of Muse, Murray also had great hopes of getting the top three positions.

It wasn't just Muse and Murray.

There were eight other players from Giant Island.

This was an extremely united force with a strict system.

Before the race

The top management of Giant Island had already assigned tasks.

The main task of the other eight Giant Island players was to assist Muse and Murray to qualify!

After seeing Muse and Murray to join forces and charge towards the Great Desolate Army together.

The Giant Island audience in the viewing gallery were stunned for a moment.

Immediately after that

An even more amazing shout erupted.

“Muse, Muse!”

“Murray, Murray!”

They were all looking out as well.

This big melee fought up to this point in time.

Muse and Murray, two powerful second-level planet masters, were finally going to join forces!

The first thing to target was the Great Desolate Army on this side.

This-act

The faces of Su Jicheng and others in the private room changed slightly.

“Muse How come they went to target Jiang Fan?”

A school leader asked in disbelief.

According to the performance on the field just now.

Although the Great Desolate Army also showed some strength.

But it was relatively low profile.

There were still quite a few other stronger and more high-profile transcendent teams.

“Could it be because of Jiang Fan strongest freshman?” A teacher guessed.

The others frowned slightly.

They all felt that this was very likely to be the case.

“So this unlucky guy is the only freshman to make it out of the group stage this year.”

In the audience.

It was also someone who quickly checked this out.

“A freshman? This player is a freshman this year?”

“It’s really true, his name is Jiang Fan, he comes from the Federation’s top-ranking university, Bei Dou University, and is already famous now. Many people say he is the strongest freshman ever in the Long Sky Star Area.”

“The strongest freshman? No wonder Muse and others are so targeted.”

“It’s unlucky for him. Muse, Laura, who came from the bottom, can’t understand the so-called arrogance.”

“He can’t be considered unlucky. A freshman persists until now, already can be considered.”

“.....”

One by one, they were discussing.

A huge part of the eyes in the field were all placed on the Great Desolate Army.

Even

Even the fights of the other teams next to them.

It also gradually stopped.

All were watching this side.

“Muse, and these people are acting together?”

“Then what do we do? Should we go help that unlucky guy, I heard he is still the strongest freshman this year?”

“We can’t help. Muse, Murray. Few people can deal with these two together, let alone Laura and others.”

“We also have to join forces in advance, or we may have to face the common target of these people later.”

“.....”

Other contestants.

One by one, they were also talking privately.

They were very afraid of Muse.

The first and fifth combined forces.

There were three other top twenty fits.

No one dared to stop it at all.

Moreover

Jiang Fan was not familiar with them, and he was also a competitor in the same group.

Rumble

A huge tremor sounded.

The tallest black inflamed giants were the first to force their way up.

Each one was over ten meters tall.

“Black Flame Giants, almost the most powerful class of the Giant Race, were considered an all-around enhanced version of the Flame Giants.”

Jiang Fan observed the approaching Black Flame Giants.

The relevant information flashed through his head.

“Flame Giant and Black Flame Giant, both of which are part of the Giant Race, and the Black Flame Giant’s Black Flame is extremely powerful.”

A scholar who specialized in the study of transcendent races spoke up, “But the greatest threat to us is not these two giants, but

This scholar looked at the spiky lady not far away and said, “These Spiky lady!”

“They are very fast, very agile, and crucially have a mount that can fly!”

“With the ability to strike in the air.”

Previously in the group stage.

The Great Desolate Army encountered the aerial transcendent race very early.

This type of race was more difficult to breed.

The key was

The frontal combat power was not strong.

Most planet owners were reluctant to build it.

“But the two giant armies are not to be underestimated, especially the Black Inferno Giants, the black inflammation on their bodies is very powerful!”

The team of scholars quickly analyzed the five incoming transcendent teams.

Except for the Spiky Lady and the two giant armies.

The other two transcendent teams.

The threat to the Great Desolate Army was not that great.

Although the strength was also extremely powerful.

But now the Great Desolate Army mainly depended on the opponent's defense, whether it could withstand the power of the armor-piercing explosive shells!

Once there was a species stronger than the tusked steel pig.

Then

The Great Desolate Army should have a headache!

Unfortunately!

These two transcendent teams were naturally not.

This time the Supreme Glory Conquest.

The Great Desolate Army also brought a team of 300 scholars.

After hundreds of years of conquest experience.

Now the team of scholars had studied the Transcendents more deeply.

To a transcendent species

A preliminary classification was made!

Giant race was divided into a separate category.

This kind used to be in the entrance examination.

The powerful species that made the Great Desolate Army quite a headache.

The team of scholars naturally studied it carefully.

Today

But to solve it.

It was not a difficult thing.

“Muse, Murray, to deal with this new student, you or me?” Laura asked with a chuckle.

“Let’s go together, the other party is considered the strongest freshman in history, so give him a little respect,” Murray said.

“Solve it soon, but do not be careless.” Muse spoke: “The opponent has a long-range output, don’t be careless and be killed too much.”

“You can rest assured, I have read about this guy. Their most powerful weapon is a kind of small projectile, but can not break the giant’s defense!”

Rumble

With a tremor in the ground.

The flame giants took the lead and rushed over in formation.

The number of these flame giants was also as many as ten thousand!

Each one of them had burning flames on their bodies!

At the same time.

The Black Flame Giants next to them were also forcing their way up.

The speed was even faster!

The aura was even more oppressive.

The Great Desolate Army was ready.

Waiting until the flame giant and the black flame giant rush to the range of the cordon.

Immediately opened fire!

Chug chug...

Hundreds of warplane engine guns pouring out ferocious firepower.

Numerous armor-piercing explosive shells were shot out quickly.

Straight at these giants.

Snort, snort, snort

These armor-piercing bolts first passed through the flames on the giant's body.

Soon dissolved by these flames.

Seeing this scene.

The Great Desolate Army and others were frowning slightly.

But they weren't surprised.

They already expected it.

“Hahahaha, that’s all.”

Murray, on the other hand, laughed out loud and said, “Laura, your Spiky Lady can stop taking the field for now, and rely on my Flame Giants to blow up this guy’s Musketeers!”

“Continue to attack, although the flames on the body of these giants can dissolve the bullets, they will also consume the flames of the giants.” Huo Qubing calmly said, “Once the flames are consumed, these giants will not be that strong.”

Chug chug

The Great Desolate Army continued to attack.

It wasn’t just the warplanes in the sky.

The machine guns on the ground were also being activated.

In one second.

There were more than 100,000 armor-piercing explosive shells.

Dense and dense, covering the sky like locusts.

Pounced on the high-speed rushing flame giant!

Snorting snorting

The same as before.

Armor-piercing bombs passed through the flames on the flame giant's body, and would be dissolved by the flames.

There were countless piercing sounds.

But gradually.

Under the countless armor-piercing explosive strikes.

At the front, the fire giant who has been attacked the most.

The flames on the body surface began to weaken.

Advanced a few dozen meters.

There were several flame giants whose body surface of certain parts of the flame completely dissipated.

Puff puff

A few armor-piercing explosive shells flew over.

Hit these parts.

Immediately after that!

A violent explosion sounded.

The explosive shells exploded on the surface of the bodies of these flaming giants.

Roar

These flaming giants let out a shocking roar!

But nothing seemed to be affected.

Still rushed forward madly.

They even got a little more fierce.

“What a powerful physique!”

Huo Qubing said, “These flame giants are a bit stronger than what was recorded in the information!”

One or two armor-piercing explosive shells burst.

Chapter 473: Jedi Counterattack! Gale attack!

Basically, there was little effect.

There were more than just one.

These flame giants were also unbearable.

When dozens of armor-piercing explosive shells hit the same flame giant at the same time.

They emitted dozens of violent explosions!

In the sound of booming, the flame giant struggled a few times.

Finally, the huge body still fell down heavily.

The other few flame giants who rushed at the forefront did not end up any better.

“Little Murray, do you want my sisters to help?”

Laura, who was watching the battle from the side, laughed.

Murray, on the other hand, frowned slightly.

He naturally saw that

The firepower of the Great Desolate Army was very strong.

“This freshman’s firepower is quite strong, let’s all go out and finish this guy as soon as possible, there’s no need to waste time.”

Muse finally said.

“Good, then let’s see who can kill faster.”

Laura immediately was commanding her Spiky Girls to pounce.

Not to mention the black flame giant of Muse.

Not far from the flame giant.

It rumbled up at full speed.

The other two transcendent teams on the right were likewise closing in!

Muse, Murray, Laura and the other five top twenty ranked participants.

At this moment

That’s the real power being used.

Five people combined their strength!

Surrounding a team of the Great Desolate Army!

Blitz

The Great Desolate Army's firepower was constant.

Frantically strafing these five teams.

The two teams on the right side were fine under this kind of firepower.

The beaten head was bleeding, and the casualties were heavy in an instant.

Didn't dare to approach easily again.

But the most troublesome was the left side of Black Flame Giant!

This was a clan of giants that was even more powerful than the Flame Giants!

An all-round enhancement.

The black inflammation rising from the body surface

More than that, it was able to dissolve more armor-piercing explosives.

The body was also more powerful.

Hundreds of armor-piercing explosive shells shot past.

Only to be able to consume a body part of the black inflammation.

As for killing a black inflammation giant.

That would require more armor-piercing explosives.

The Spiky Lady in the air was also a big threat.

The opponent was experienced and also very smart!

Didn't rush up directly.

Head-to-head with the war machine.

Instead

Watching from a distance.

From time to time, make an attacking move.

Let the side of the Great Desolate Army must always remain vigilant.

Above the ground, the two teams of giants weren't that stupid.

Start taking turns with their fellow giants behind them.

After the flames on the body of the giant in the front were consumed, they quickly retreated.

Let the giants in the back change up!

This could greatly reduce the lethality of armor-piercing explosive bombs.

Just paid a small price to pay.

Flame Giant and Black Flame Giant army moved a lot closer to the front.

It came within a range of two kilometers.

Boom!

At this time.

-The warplane was the first to launch

A missile!

It was the same as the last exchange match.

A relatively small air-to-ground missile.

The target was exactly A Black Inferno Giant at the forefront!

“Here it comes, it’s the most powerful weapon of Jiang Fan’s pilot!”

Seeing this missile.

Lin Youhe and the others inside the box were all excited and almost jumped up.

In the last exchange match.

What left the deepest impression on them

It was this kind of speedy, powerful and terrifying weapon that couldn’t be escaped when it is aimed!

“Hmm? What is this thing?”

Looking at this bizarre thing, Laura could not help but ask.

“It seems to be the most powerful weapon of this guy.”

Murray explained, “It is said that at the exchange tournament, this guy relied on this weapon and defeated five people from Xinghe Academy all by himself!”

“Freshman exchange tournament? No matter how strong it is, in the end, it’s still a competition between freshmen.”

Laura laughed in disbelief.

“Get out of the way!”

The two of them, Murray and Muse, weren’t careless either.

Seeing the speed of the missile so fast.

Immediately, they told the two armies of giants they had built to dodge.

These giants were also very intelligent.

Hurry up and try to evade.

But

How could you dodge the missile?

This missile under high speed.

It crashed straight over.

Ruthlessly hit one of the foremost Black Inferno Giants!

There was a loud boom.

The huge explosion made everyone slightly startled.

They all waited until the smoke filled the air.

Looked again.

And found

The flame on the surface of this black flame giant.

Especially the black inflammation on the front of the body... It had all dissipated!

It was just this huge explosion.

The bombardment disappeared without a trace.

And this black inflammation giant

It was also burnt black!

But!

But it did not die.

Just badly injured!

“What!”

Lin Youhe and Su Jicheng, who saw this scene, and the others were stunned.

They had just placed their hopes on a powerful weapon like Jiang Fan’s.

But they didn’t expect

Black Flame Giant would be so powerful.

Muse and Murray and the others were also slightly shocked.

They didn’t expect that at all

A weapon built by a freshman would have such power.

Just one.

It had seriously wounded a Black Flame Giant.

“This weapon is quite strong.”

Muse smiled gently and said, “If we give this freshman more time to grow, I guess we won’t be able to beat it when he reaches the peak of level two planet master.”

“Unfortunately, the next group star competition will have to wait until ten thousand years later, this freshman will not be able to wait even if he is strong.”

Laura said with a smile.

“The black inflammation on the body of the Black Flame Giant is surprisingly powerful, melting away most of the power of the missile just now.”

Huo Qubing and Xu Ji did not panic.

Instead,

They were calmly analyzing the result.

“We also underestimated the Black Flame Giant’s physique. It is much stronger than the Flame Giant. The remaining impact of the missile was completely resisted!”

Xu Ji also said.

“Small missiles are still a little less powerful.”

Huo Qubing nodded.

This missile was just for testing.

Let’s see how it turned out.

The results were now clear.

It might be somewhat effective against the Flame Giant.

But the Black Flame Giant was a bit worse.

The key was, it was unable to kill!

According to the physique of the Black Flame Giant, even if it was seriously injured

It would also recover quickly.

“Charge, press over with all your might and crush the opposite side quickly!”

Murray shouted.

“The opposite weapon still has some power, don’t be careless, Murray and Laura, you two also go out with all your might to take out this freshman quickly!”

Muse’s eyes flashed with a trace of coldness and commanded.

Seriously wounded one of his Black Flame Giants.

That was something that had to be paid for.

“Good!”

Laura smiled gently.

With that,

She commanded the Spiky Lady in the air.

Flying towards the several hundred warplanes here, they swooped over.

Blitz

The machine guns on the warplanes were activated.

Numerous armor-piercing explosive shells were fired out.

But the mounts underneath these tens of thousands of Spiky ladies were waving their wings.

Fanned out a stream of air.

The airflow of these ten thousand mounts added up.

It was a hurricane!

Formed a gale belt in the air.

Let the speed of the armor-piercing explosive greatly reduced.

When they reached the Spiky Lady.

The threat wouldn't be considered big anymore.

“As expected of a second level peak planet master, the transcendent species built by Muse, Murray and Laura are all extremely terrifying!”

Seeing this scene.

Lin Youhe and the other four were all a little helpless.

Previously several transcendent teams had entered the Great Desolate Army.

All of them were a little too weak.

Even the rain of armor-piercing explosive shells were difficult to handle.

Where were these three races so powerful?

“It's good that Jiang Fan has made it this far. It's not that he didn't work hard. It's because the opponent is too strong. It's still five people fighting one.”

Wan Yunsheng also shook his head and said.

Rumble

Above the ground.

The Black Flame Giant and the Flame Giant were also advancing at high speed at the same time!

Although the armor-piercing explosive shells were still being fired.

But the killing power was really limited.

Especially after the other side also used the tactic of taking turns.

Flame giants could still be dealt with.

And the black inflamed giant

It was very difficult to deal with!

These black inflamed giants actually also had the ability to transfer the black inflammation on their bodies anywhere.

After a part of the black inflammation was eliminated.

Another part of the black inflammation would be transferred over!

Armor-piercing explosive shells had little effect at all.

Or

The only effect was –

Delaying the opponent's speed of action.

“Armor piercing explosives are estimated to be eliminated after this battle.” Huo Qubing smiled helplessly.

“But against the race of giants, the new weapons aren’t that good.” Xu Ji said.

“Then

Huo Qubing swept his eyes at the Black Flame Giants charging over and said, “Get on the large missiles, and directly blast these two giant armies out!”

Chapter 474: Aerial Strike! Completely unstoppable! The shocked crowd!

The Great Desolate Army was using “small missiles” on a trial basis.

To be precise, it was a small air-to-ground missile.

This kind of missile was only about two meters long.

The power was comparable to the kind of missile used in the previous exchange match.

But many years had passed and the development of technology had been improved in all aspects of the missile.

The size was also reduced by a lot.

This was currently the smallest missile of the Great Desolate Army.

Any smaller would not make much sense.

Especially for the powerful transcendent creatures.

When seeing the Great Desolate Army used the most powerful missile weapon But it couldn’t destroy the Black Flame Giant.

In the box of another competition venue.

Ao Xiong and the others were relieved.

They came today mainly to watch the prince's match.

But through the live stream also monitoring Jiang Fan's side.

"The weapon Jiang Fan's pilot awakened... is really powerful. No wonder he was able to easily defeat five Great Mythic Level teaming up in the exchange tournament." A teacher said with a smile.

"It's a pity."

Li Zihao smiled gently and said, "If we gave Jiang Fan a few more years, he might have been able to fight these people from Hess."

"But it's already too late in time."

Wang Yiteng said, "Even if Jiang Fan is demonic, the Group Star Competition won't wait for him! It's better to obediently accept fate."

"There's no need to care much about this person."

Ao Xiong waved his hand, unconcerned, "Now keep your eyes on the crown prince and cheer him up if necessary! Help the Crown Prince to take the right to play in this group!"

"The Crown Prince is number one in the group stage and a top fifty in total points. There's simply no one in this group that can pose a threat to him."

Li Zihao showed a smile and said, "Getting out of a line is definitely easy, I'd rather see"

"What kind of expression did Jiang Fan's side have after he was eliminated?"

Unfortunately

Li Zihao and others couldn't see.

After seeing that, the small air-to-ground missiles were not enough to kill the Black Flame Giant.

Huo Qubing was also very decisive.

The more powerful...medium-sized missiles were directly activated!

This was also an air-to-ground missile.

The body length reached five meters!

To be precise.

It was an armor piercing missile!

Specially made to deal with powerful transcendent creatures.

At the front of the missile.

There was a special armor-piercing device!

The speed of this missile was quite fast.

The ultra-fast speed of Mach 5 could be achieved at a short distance.

-Mach was one speed of sound.

Compared to the conventional missile.

This armor-piercing missile could break through the surface of the body of an extraordinary creature first.

And carry out the explosion of ammunition again.

The power had not increased.

But the lethality was greatly increased!

But before that.

The first target of the Great Desolate Army

It was not a black flame giant or a flame giant.

But the Spiky Lady in the sky and the Spiky Lady under the mount.

Although the speed of this mount was not very fast.

But could unleash the wind!

The killing power of the machine gun was greatly reduced.

“Attack the Spiky Lady mounts in the air first. No need to destroy them, just scare them off.”

Huo issued the order.

The fighter pilots who were instructed to do so released small missiles.

These were not the air-to-ground missiles from before.

Although the specifications were similar.

But it was an air-to-air missile.

The speed was much faster than air-to-ground missiles.

The target was exactly the objects in the air.

Thirty storm fighters carried this air-to-air missiles!

Because the other ninety-nine contestants within this group.

The species that were built were still mainly ground species.

So

The Great Desolate Army also only prepared a part of the air-to-air missiles.

The purpose was also precisely deterrence-based!

Underneath the storm fighters.

A long oval-shaped air-to-air missile revealed its not-so-large figure.

Whoosh, whoosh, whoosh

After a slight noise.

Thirty air-to-air missiles were launched towards the group of Spiky Lady mounted not far away!

The speed reached Mach 4!

“Here we go again.”

Seeing that the Great Desolate Army had actually targeted themselves.

Laura frowned slightly.

Then she barked at the mounts underneath the Spiky Lady and said, “Get these things Blow them down hard for me!”

Laura was very confident in the species she had built.

The armor-piercing bombs just now were all affected by the gale.

This kind of bigger size was..... naturally easier to affect.

But!

The missile was not an armor-piercing explosive.

After passing through the gale belt created by the Spiky Lady’s mount.

Speed was not affected.

Only slightly slowed down a little.

Then it continued to speed up again!

“What the hell!?”

Laura was astonished.

This was completely out of the ordinary.

How could this thing be able to launch after and still be able to increase its speed automatically?

“Spread out and prepare to shoot this thing down.”

Laura shouted immediately.

As a second level powerful planet master who had lived for decades.

Laura was also very experienced.

There was not the slightest panic.

Instantly reacted.

The Spiky Lady on top of the mount was ready.

The whole body covered with spikes could strike at any time!

And the mounts underneath

And the bottom mounts were flying apart!

In advance, they fled far away.

Prepared to avoid the direction of the missile shot.

One mount fell directly downward.

But!

The missile from above was following close behind.

Also followed by a turn.

Chasing downwards!

“This

The well-informed Laura who saw this scene was a little stunned.

“This is the enchanted arrow?”

Laura immediately remembered the siren clan’s enchanted arrows.

It was the ability to automatically track the enemy’s traces.

But the size of the enchanted arrow wasn’t this big!

The speed was also not so fast.

The mount could not even dodge.

And when it wanted to turn to the left to dodge again.

The air-to-air missile had been caught up.

The air-to-air missile didn’t have that special armor-piercing device added to the front end.

The air creature’s defense was originally a big weakness.

Far less than ground creatures.

The missile hit the mount straight on.

Under that high speed.

There was a tremendous impact.

It directly made the mount feel like it was being crushed over by a boulder.

Sternum cracked on the spot!

Immediately after

There was a loud sound!

It was like lighting a huge firework in the air.

Deafening.

It resounded through the entire competition venue.

The black flame giants and other transcendent teams that were charging down below couldn't help but stop in their tracks.

Looked into the air.

It was a missile that hit straight.

It instantly blew this mount apart!

Flesh and blood flew everywhere!

Even the Spiky Lady on top of the mount

Not much better.

The body exploded!

Turned into a piece of debris!

High in the sky.

There was a small rain of blood.

Had to say that the second level peak transcendent creature was still much stronger than the original sea demon.

Even the aerial creatures whose defenses were not strong were the same.

It didn't just disappear in ashes!

But as long as the mission could be completed.

It didn't matter if it was gone or not.

After this mount was blown to pieces.

The remaining twenty-nine missiles were also in place almost simultaneously.

None of them missed!

All of them bombed on their respective targets.

Twenty-nine mounts.

Even though they were all desperately scattering and fleeing.

The speed was also very fast.

But still, all were caught up by the missiles.

-One by one, they hit their bodies.

Boom! Boom! Boom!

Twenty-nine dense, violent explosions, almost like a series, roared out!

Drowning out all the sounds in the venue.

Like twenty-nine fireworks in full bloom.

A flame in the air, soaring up!

Splendid and eye-catching!

But in the eyes of Laura in the viewing room.

Her whole body was shaking!

Watching it all in disbelief.

She naturally knew very well about Siren's enchanted arrow.

But!

Although both had the ability to track the enemy, the enchanted arrow did not have such a terrible power as this thing!

Just for a split second.

That burst of energy.

Directly annihilated the mount and the thorny girl on it!

The bang was splitting apart!

Not even a complete part was left.

Chapter 475: Aerial Strike! Completely unstoppable! The shocked crowd!

In the sky, there was a dense rain of flesh and blood.

Laura couldn't help but feel a chill in her heart.

“Escape!”

Still with her remaining sanity, she quickly issued this order.

Even though there were still tens of thousands of mounts and Spiky ladies in the air but in front of this terrifying weapon, it was of little use.

If you encounter it, you will be blown away.

Tens of thousands of mounts immediately obeyed the command.

They were flying backward and scattering.

Even their milk strength was exerted.

Only when they flew 10 kilometers away, they slowly stopped.

Checked if that terrible thing was chasing over.

Only then did he let out a long sigh of relief.

“Murray, how is this thing still able to be tracked?”

After waiting until her transcendent creature was safe, Laura immediately asked.

The power shown by the air-to-ground missile in the attack on the black inflamed giant before.

Because of the black inflammation of the black giant.

It did not show very clearly.

Laura made a mistake in her judgment.

So these air-to-air missiles were also dismissive.

Thinking about it, the flying mount she built was still very fast, and she should be able to easily avoid these attacks in the air.

Only

The air-to-air missiles were like enchanted arrows, and even stronger than enchanted arrows in terms of tracking ability.

She never expected it!

“I didn’t expect that either.”

Murray frowned slightly.

He was angry again, and angry again!

Who would have thought that

There was an extraordinary species that could create such a fast, powerful, and tracking weapon!

Siren's enchanted arrow, although it could track.

But the power was a little less!

Other weapons were powerful.

But there was no tracking ability.

And this thing

It combined almost all the advantages into one.

And would be the ultimate in every aspect!

It was called Perfection!!!

Even a second level peak planet master like Hess couldn't get it out.

Let alone a freshman.

No one would have imagined this.

“This seems to be the race created by Jiang Fan at the second level – pilot's awakened, not naturally built, that's why it's so strong.”

After quickly checking the more detailed information.

Murray could only weakly explain.

“Damn it! This guy tricked me.”

Laura said bitterly.

At the same time, she was a bit helpless.

Even if she knew the tracking ability of the missile in advance, what could she do?

Still couldn't make any effective prevention.

I'm afraid that they wouldn't dare to come over to the siege.

“Laura, your team should take shelter first.”

At this time.

Hess spoke up and said in a deep voice: “This Jiang Fan, let me and Murray take care of it!”

“Good!”

Laura said with both anger and anticipation, “Let this guy, have a good taste of the iron fist of your giant army, and ruthlessly finish off this so-called musketeer and pilots!”

“Murray, follow me.”

Hess commanded, “Quickly force inside the opponent's position! Don't give the other side a chance.”

“No problem.”

Murray also held his breath.

One against five!

It was still a situation where the five people ranked in the top twenty joined forces.

To be surprised by the other side, a freshman scared back three people!

This made him feel very humiliated.

Both of them were very experienced.

At a glance, they could see both the musketeers on the ground and the pilots in the sky.

Both were long-range outputs.

Melee combat was a weak chicken!

Once rushed inside the position.

The other side was the part of being slaughtered side by side!

“Flaming Giant, give me all your strength to charge over, charge, charge!”

Murray bellowed the order.

Rumble

Above the ground.

Another piece of violent trembling sound rang out.

Tens of thousands of Flame Giants were in the middle direction, charging hard towards the Great Desolate Army.

The Black Flame Giants on the left!

The speed was even faster.

Rushing even further ahead.

Blitz

Unmanned fighter jets and machine guns on the ground were continuously strafing!

But the two armies of giants

They all kept the previous tactics.

Wait until the flame on the body of the giant in front of them diminishes.

Just immediately retreat.

Let the giants in the back stand on top!

This way

Armor-piercing bursts were simply difficult to form an effective kill.

Even if the number was very large!

This was also the first time the Great Desolate Army encountered such a situation.

“The Black Flame Giant is worthy of being one of the top ten among the giants. Whether it’s a single mass or a group, it’s a top existence.”

Jiang Fan narrowed his eyes slightly.

Staring down at the army of giants.

The most dominant gaze was naturally placed on the Black Flame Giant.

It was stronger than the Flame Giants.

Not just a little bit stronger!

The dense rain of bullets could only slow down the Black Flame Giants.

But it could not stop!

Not to mention the inability to kill!

Occasionally, there were one or two armor-piercing explosive shells breaking into the body of the black giant.

It was also irrelevant.

This was also the Great Desolate Army so far among the extraordinary races encountered.

The most powerful one!

“Worthy of being the only second-level peak planet master in this group, this Hess really has something to offer, creating a race of giants that is so terrifying.”

“Top 100 overall ranking, naturally it is not simple. Just look at the footsteps of these black inflamed giants when they move, they must have been trained for a long time, to advance and retreat in an orderly manner!”

“This strongest freshman Jiang Fan is not bad. That weapon can actually make the Spiky Lady fear. That’s really something. No wonder he can qualify from the group stage.”

“But there’s not much killing power against the Black Flame Giant, as you can see from the effect just now.”

“This Jiang Fan isn’t really lucky. If Hess and the others did not target him, even if he ran into other contestants teaming up, he could probably last a long time.”

“.....”

On the audience seats.

A chattering sound rang out.

Everyone’s eyes.

At this moment, they all converged on the two giant armies and the Great Desolate Army.

Within the venue.

The other teams also stopped fighting each other.

Eyes turned to this side.

Waiting for the result of the battle here!

Lin Youhe and the others in the box were all tense.

Hands tightly clenched!

Almost did not dare to look.

More nervous than their own race.

“All warplanes get ready to launch Medium missiles!”

Huo Qubing commanded with slightly narrowed eyes.

That previous small missile had an average effect after hitting the Black Flame Giant.

According to the quick calculations of the scholar team on the spot.

The approximate defense strength of the Flame Giant was calculated.

Of course.

This defensive power naturally considered the black inferno on the surface of the body.

For the black inferno giants.

Black inferno was their most powerful weapon!

It could attack and defend!

It could dissolve the effect of energy.

But some restraint on the Great Desolate Army.

The size of the black inferno dissolved energy was also limited.

According to the estimates of the team of scholars.

Small missiles could seriously injure.

Then

There would be no need to use large missiles.

Take out medium-sized missiles to deal with these powerful black inferno giants

It was already enough!

Especially these medium missiles.

Or specially designed armor piercing missiles!

“All armor piercing missiles target the army of Black Inferno Giants on the left. The first – batch is ready

Two hundred of them!”

Huo Qubing’s voice became cold and serious: “If it’s not enough, continue to cast until...”

“Until these Black Inferno Giants retreat!”

“For the other firepower, just use it to defend against the flaming giants in the middle.”

That’s right!

The result of the discussion between Huo Qubing and Xu Ji.

That was

Cast the armor piercing missiles on the army of Black Flame Giants first.

Eliminate the most powerful Black Flame Giant among these five besieging transcendent teams
..... first to eliminate them!

To act as a deterrent!

At this moment, Hess, who was confident and was preparing to give the Great Desolate Army a good show.

As well as the hundreds of millions of spectators watching the battle.

It was completely unexpected.

The Great Desolate Army had such a crazy idea!

Chapter 476: Boom and Crash! The audience trembled!

Rumble

A violent trembling sound rang out.

Tens of thousands of Black Inferno Giants stomped heavily, charging towards the Great Desolate Army with an astonishing speed!

All of these Black Inferno Giants heads were all above ten meters!

The huge size gives a great oppressive force!

For transcendent creatures, the larger the size, the better.

-In general.

The bigger it was, the stronger the physique and strength.

And for the Great Desolate Army.

Especially for the pilots of the storm fighters in the sky.

The bigger the target was also the better.

This way, the missile was easier to aim.

According to Xia's current level of scientific research.

The accuracy of the developed missiles were

Much higher than the previous world.

This kind of short-range medium-sized missiles, almost able to achieve a hundred shots!

Chug chug

Machine guns were still firing.

But the main purpose was to slow down these black inferno giants.

Wait until the missiles were fired.

The machine gun fire would be transferred to the flaming giants.

“Roar, roar, roar

The army of Black Flame Giants let out a sky-shattering roar!

It resounded through the entire field.

It made many people jump in surprise.

After this roar.

They could clearly see that

The speed of these Black Inferno Giants had risen another notch.

“It’s Secret Method!?”

Seeing this scene.

Su Jicheng and the others were slightly shocked and said, “These Black Inferno Giants are actually able to initially master the secret method!”

A secret method was the same as cultivating a gong method.

But only very few transcendent races could master it.

For strength

Naturally, it was extremely helpful.

After seeing the use of the secret method.

Like the waves of the sea surging black inferno giant army.

The whole place was boiling.

“Hess, Hess

One by one, the audience was chanting.

“Black Inferno Giants, charge straight through with a bang! Crush these puny musketeers to death!”

Hess was also commanding loudly.

The head of the Black Inferno Giants had more momentum.

Step by step, they approached toward the Great Desolate Army.

And at this time.

Above the sky.

The fifty storm fighters that had risen into the sky were ready!

“Crush these Black Inferno Giants!”

Huo ordered in a cold voice.

The next moment.

Under the pilot’s operation.

Fifty storm fighters were underneath.

A five-meter-long, medium missile after emitting a slight sound.

One after another, they broke away.

Shooting towards the army of Black Inferno Giants on the ground!

This first batch of fifty warplanes each fired one, fifty medium-sized missiles.

This power

The Great Desolate Army had never been tested before.

Fifty medium-sized missiles targeted naturally could not be the same.

First three went straight towards the black inferno giants who rushed at the front.

The Black Inferno Giants on the ground naturally also noticed these long oval-shaped objects in the sky.

“Hm?”

Hess frowned slightly.

How come these long oval-shaped objects are almost twice as big as the previous ones?

“Get ready to defend, Black flame. Mobilize and prepare.”

Hess also did not dare to be careless.

Directly ordered.

After the black flame giants learned the lesson just now.

Now there was also a certain experience.

They knew to put the back of the black inflammation move it all to the front.

The more intense black inflammation could dissolve all armor-piercing explosives.

In this situation.

Armor-piercing explosive killing power was greatly reduced, it could be said that almost nothing was useful.

“This thing is twice as big as it was just now, and it is estimated to be twice as powerful, but my Black Flame Giant’s black inflammation is now equally doubled.”

Hess thought secretly.

He didn’t panic at all.

Only

What he didn’t expect was this.

Although the medium-sized missile was only about twice as big compared to the small missile.

But the power was not of this value!

That was several times the increase!

Especially in front of this medium-sized missile

There was also a specially designed armor-piercing device.

Under the high speed of the missile.

The target could be armored first, and the missile could then bomb!

The lethality was not the same day.

But there were tens of thousands of black inflamed giants.

Even at the cost of a few hundred.

It was also irrelevant!

This was also Hess's idea.

He hadn't thought of letting the army of Black Inferno Giants rush unharmed to the front of the Great Desolate Army.

A head of black inflamed giants also cared little.

Still, still rushing forward quickly.

A mass of black inferno in front of the torso churning.

Ready to resist hard against this long oval-shaped weapon in the sky!

Whoosh, whoosh, whoosh.

Three armor piercing missiles were the first to swoop in.

By that time, they were almost close to the target.

The speed had already gone to the extreme!

The aim was naturally near the middle.

The location where it was easiest to cause many kills.

A black inflamed giant saw the armor piercing missiles coming.

The athletic body immediately dodged to the side.

Trying to dodge.

But!

When the torso was just to the side.

The armor piercing missile had already pounced and hit the black inflamed giant.

Almost at the same time.

The other two armor piercing missiles also found their respective targets.

Boom! Boom! Boom!

Three violent explosions rang out.

Worse than ever before.

At the center of that explosion.

The three hit Black Flame Giants cracked open directly!

The entire torso crumbled!

Three terrifying shock waves.

The three terrifying shock waves swept out in all directions.

The surrounding black flame giants instantly... fell apart!

Blood and flesh flying!

When the smoke cleared.

There were three large pits on the ground.

And

A broken black flame giant body.

These three armor piercing missiles alone.

Took away the lives of over fifty Black Inferno Giants.

And caused an even greater number of injuries!

Originally, it was very boisterous watching the battle.

Suddenly, they became silent!

Everyone was dumbfounded.

Just now, It couldn't kill even one Black Flame Giant.

Now

It actually took out over fifty heads at once?

But that wasn't the end.

There were only three of them.

Above the sky.

Another forty-seven armor-piercing missiles were still weaving in and out quickly!

The army of Black Inferno Giants approaching below.

There were more than a hundred casualties.

To the Black Inferno Giants who numbered over ten thousand, it did not hurt.

“Get out of the way! Get out of the way!”

Hess was in a great hurry.

Immediately, he ordered quickly.

The Black Inferno Giants had some experience in the end.

Followed by quickly scattered in all directions!

But it was still worse.

Forty-seven armor-piercing missiles had already blasted down.

Each one bombed on their respective targets.

Boom! Boom! Boom!

Countless explosive sounds rang out one after another, and the Black Flame Giants who were close but no longer within the range of the explosion were almost deafened.

Under this terrifying power.

Even if the army of the Black Inferno Giants had been initially scattered.

But still heavy casualties.

After the huge smoke that filled the air.

There were big pits and broken limbs inside and outside the big pits.

Tens of thousands of black inferno giants.

In this series of explosions.

More than a thousand fell directly!

The remaining shock waves affected over three thousand.

There were more or less injuries.

With only this wave of missile strikes!

The most powerful army of Black Inferno Giants were..... already about to collapse!

The same as the human team.

The Black Inferno Giants also had the emotion of fear, fear.

When the death rate exceeds 30%, it was very easy to collapse.

“All missiles hit, initial estimate of targets destroyed Over a thousand, with more kills.”

The pilot was doing a post-battle report.

“These Black Flame Giants are still powerful.”

Huo said.

Fifty medium missiles.

If they used it on other transcendent races.

It was enough to plow them apart.

But against the Black Flame Giant

It could only kill less than half of them!

“One of the most powerful transcendent teams in this group, naturally it’s not that simple.”

Xu Ji said.

The Great Desolate Army’s face was calm.

They all knew the power of the armor piercing missiles.

But in the venue, the other transcendent teams did not know.

When they saw the over a thousand Black Flame Giants fall in this terrifying bombardment.

One by one all stared in disbelief.

They could not believe this scene.

The Spiky Lady created by Laura was even scared retreated several dozen meters away.

They had just tasted the horror of this long oval weapon.

The closest to the Black Flame Giant.

The Flame Giant who was also charging, stopped in his tracks.

Completely did not dare to charge forward again!

“Retreat! Withdraw! Hurry up and withdraw”

Murray shouted in horror.

His heart was beating violently.

Chapter 477: Boom and Crash! The audience trembled!

Fearing that his own flame giant also suffered the same fate as the black inflammation giant.

While the Hess in the sparring room was completely stunned!

This This

He originally made the worst plan.

It was to take a few hundred casualties of the Black Flame Giant.

Then break the Great Desolate Army's position in one fell swoop!

A one-sided slaughter!

However!

Totally unexpected.

These fifty long oval-shaped weapons took away over a thousand Black Flame Giants directly.

And over two thousand seriously wounded!

This casualty rate

There was already no fight left at all.

If it was in the middle of a one-on-one battle.

He could surrender and admit defeat in advance.

But this was the most important group star competition.

-Once you admit defeat.

You would be eliminated from the game.

To know the venue at this time.

There were still more than thirty transcendent teams left.

Although there was still a loser's bracket, that was hellishly terrifying!

Even Hess didn't dare to try it easily.

The many people watching the battle in the viewing gallery.

One by one, they also realized this.

Immediately afterwards

Felt a little ridiculous!

Hess!

The highest ranked and most powerful Hess in this group!

The most powerful and highest ranked person in the group, Hess, was eliminated?

Not to mention the top three.

Not even in the top 30.

“Crap!”

After seeing the power of 50 armor piercing missiles.

Lin Youhe and Xiang Zhifei both jumped straight up.

Both shocked and delighted!

In the other box.

Su Jicheng and the other teachers and school leaders were even more astonished.

“This

A teacher said with wide eyes, “Are Jiang Fan’s pilots stronger than before?”

“It’s definitely stronger.”

A school leader nodded and said, “The kind of terrifying weapon that the plane fired is a bit bigger in size than the one at the exchange tournament!”

Right.

At the exchange tournament.

In the final round, the missile launched by the Great Desolate Army was also about four meters in length.

But after so many years of development.

A team of scholars.

Long ago, missile technology research was at its peak.

The size of the body was also greatly reduced.

Today the small missile was only about two meters in length.

“Good guys, really, keep me on my toes.” Su Jicheng also breathed a long sigh of relief.

Although Jiang Fan was being targeted by Hess and five others.

The crowd was clear that there was definitely a high probability that he would be eliminated.

But Su Jicheng still had a glimmer of hope in his heart.

“Hahaha.”

The vice principal laughed and said, “This time, this Hess might be eliminated!”

“Not much more to say, good job Jiang Fan.”

A teacher laughed.

“Jiang Fan is awesome!”

Lin Youhe and the other four people shouted loudly.

And in the audience.

The audience of Bei Dou University that had been silent were also exploding out like never before at this moment!

“Jiang Fan! Jiang Fan”

-Everyone was shouting as hard as they could.

Their faces were very excited!

Many of the surrounding spectators also followed and shouted Jiang Fan’s name.

This kind of Jedi comeback battle.

It was what the audience liked to see the most.

Especially when they were surrounded by five top twenty ranked players like Hess.

“No way, Hess couldn’t even beat this freshman!?”

More people were dismayed.

It was hard to accept this result.

“Not only couldn’t beat him, but now he’s going to be eliminated early.”

Some people couldn’t help but shake their heads.

This situation was obvious now.

Many people were noticing

The bottom of the storm fighter above the sky.

Also carrying at least hundreds of armor piercing missiles.

If all of this fall down.

They estimated that

The black inflamed giants that fell would be more than a thousand.

Hess in the viewing room naturally also saw this, his hands were trembling slightly!

Could not believe that he

He couldn’t believe that he was in such a situation.

The Black Flame Giant had basically used all its tricks.

But to this high speed, eminent power of the terrible weapon.

There was no way at all.

“Friend.”

Hess’s voice sounded in Jiang Fan’s ears.

“You are Hess?”

Jiang Fan had naturally studied the group in advance.

Knowing that the highest ranked and recognized strongest was Hess from Giant Island!

“Right, I’m Hess.”

Hess squeezed out a kind tone and said, “I was wrong just now, but I’m not targeting you either, it’s just a strategy of a few of us.”

“Oh.”

Jiang Fan was noncommittal.

“You’re very powerful, friend.”

Hess continued, “Why don’t we join forces, you and I, and Murray, the three of us!”

“With our strength in building species, no one here is a match!”

“We can join hands together and get out of the line easily!”

“It’s unnecessary.” Jiang Fan didn’t bother to consider it and said, “It’s safer for me to eliminate you first.”

“You” At that, Hess was furious, took a deep breath and said, “Think again, there’s no grudge between us. Joining hands to get out of the line together is the most favorable choice.”

“That’s in your best interest. I don’t need to join forces with others.”

Jiang Fan simply said.

He directly stopped paying attention to Hess.

“Bastard!”

Seeing himself plead in a low voice.

They were all rejected by Jiang Fan.

Hess couldn’t help but slam a fist on the table.

Then he thought of something.

He opened his mouth and shouted, “Murray.”

“Hess, are you okay?” Murray asked.

“That guy actually refused to join forces with me, how abominable.” Hess said hatefully.

“It can’t be helped. I didn’t expect this freshman-built race to be so strong.” Murray lamented.

“Murray, help me.”

Hess said.

“Hess, what do you want?”

Murray was startled and said, “I can’t stop this kind of terrifying weapon, you find someone else.”

“No, no.”

Hess immediately explained, “I’m not asking you and I to combine our efforts and deal with this Jiang Fan again, but you help me talk to Jiang Fan to shift his target to someone else.”

“Okay, I’ll try.”

Murray was helpless.

The two were also old friends for many years.

“Jiang Fan, this is the fifth ranked Morrie.”

Murray started talking to Jiang Fan.

“What can I do for you?”

Jiang Fan asked.

Naturally, he also knew that Murray was the contestant who had built the Flame Giant.

“Hess It wasn’t intentional just now, you don’t have to”

“Humph!”

Jiang Fan directly interrupted Murray’s words and said in a cold voice, “If I wasn’t a little stronger, they would have eliminated me from the tournament by now.”

“That’s how it is on the competition field. We didn’t know your strength before.” Murray said.

“You also know that strength speaks.” Jiang Fan said in a slightly cold voice: “If that’s the case, then let Hess go, and you don’t need to beg for mercy, otherwise...”

“Even you will be eliminated together!”

“Damn it.”

Seeing that Jiang Fan also rejected him.

Murray also hammered the table with hatred.

But he knew very well

If Jiang Fan wanted to deal with himself.

It would only be a matter of a few dozen of those terrible weapons.

“Hess, there’s no way out, just admit defeat yourself.”

Murray said helplessly to Hess.

“Bastard!”

Hess gritted his teeth in anger.

But there was nothing to do.

Even if there were still nearly ten thousand Black Flame Giants left now.

But continuing to fight

There was no chance of winning.

It was completely one-sided and slaughtered!

In order to better preserve his strength in the loser's group, Hess could only Reluctantly, he pressed the quit button!

Wow

With Hess's exit.

The entire audience.

Hundreds of millions of viewers let out a shocking clamor!

Total score ranking top 100.

This group's strongest strength was Hess

He was eliminated just like that?!

"Jiang Fan! Jiang Fan"

The supporters of Bei Dou University sounded even more enthusiastic!

"Retreat, retreat, retreat, don't rush to escape yet."

Laura also reacted.

While commanding her Spiky Lady to stay away from the Great Desolate Army, she reminded Maury and the other three.

Murray and the other two players who had just besieged the Great Desolate Army.

Immediately, they were making their respective transcendent teams run as fast as they could.

Stay out of the way!

The Great Desolate Army didn't pursue them.

There was no need to waste missiles.

The other transcendent teams.

Not to mention.

They didn't dare to come up at all.

“Kill!”

Murray commanded the army of flame giants to kill in the other direction.

Laura was also unwilling to show her weakness.

Following closely behind.

The originally calm playing field.

Once again, it was a mess.

Everyone knew at this moment... a qualifying spot for this group.

Jiang Fan already occupied it.

Others had to compete for only the other two to enter the knockout round of 4,000 people!

Chapter 478: First Qualifier! The Battle of Four Thousand Heavenly Proud!

After a fierce struggle, this group constantly had one team eliminated from the group.

The ones that remained were getting smaller and smaller.

The Great Desolate Army wasn't careless.

They were staring at the remaining transcendental teams, but none of them dared to come and mess with it.

Not even those who came close!

The final fight became more and more gruesome.

Even Murray and Laura were fighting with all their might.

After a tough competition, Laura still collapsed.

Murray and another ice-cold-faced woman obtained the other two spots in this group stage.

Together with Jiang Fan, this 28th group's all three outgoing candidates came out.

"Let's congratulate Jiang Fan, Mo Li and Lin Duer, who have emerged from this group after fierce competition and have been given the opportunity to advance to the next round!"

A pleasant woman's voice rang out.

"Jiang Fan, Jiang Fan"

In the spectator seats...

-It was boiling!

Everyone was shouting Jiang Fan's name.

As for Mo Li and Lin Duo'er.

Few people paid attention at all.

Low-key and powerful.

This was the post-match feeling of hundreds of millions of live spectators about the Great Desolate Army.

“Hahaha.”

Within the box.

Lin Youhe was happy like a child, dancing with excitement, “My dad still said that Jiang Fan was at most seventy and wouldn't even book me a ticket for the next round!”

“Let's see what he says now?”

And the people watching this game

It wasn't just the hundreds of millions of viewers at the scene.

In the entire Long Sky Star Area.

In particular, the region behind each participant was located.

Many people were watching the live broadcast.

This once in a million years endless star field genius competition.

It attracted the attention of countless people.

It directly refreshed the ratings of all the live broadcasts in ten thousand years.

Originally, Jiang Fan was in the 28th group.

That was nothing special.

The strongest strength Hess

It was just over eighty in total.

Not quite top.

Compared to those top level two planet masters.

There were still some gaps.

But!

After all, one hundred and one groups of games were over.

Just like the network of the previous world's Earth.

There was also a forum on the communicator.

During the group star competition.

This forum traffic was also drifting up.

The posts inside

Almost all of them were concerned about this competition.

But what was surprising was that.

The highest volume of discussion was not these top level two planet owners.

Nor was it about a popular player who was handsome or beautiful.

Surprisingly, it was Jiang Fan!

The top ten posts on the home page.

Half of them were about Jiang Fan and Hess battling each other.

After all

In this one hundred and one group.

All were popular players to qualify.

Nothing unexpected.

There were no dark horses either.

Except for the 28th group where Jiang Fan was.

And the most surprising thing was Jiang Fan was out of the line the whole process.

Five of the top 20 surrounded it ranked people such as Hess.

A five to one situation.

The result was that one person was killed!

The other four were scared away.

This dramatic situation.

It was also what kept the amount of discussion about Jiang Fan and Hess high.

Especially Hess.

As a popular player in the top 100 rankings.

Finally

They couldn't even get out of the line.

It was an enormous shock to people.

Hess became a popular character suddenly.

A variety of open brushes of posts were popping up all over the place.

Like something like "Let's say, is Hess overrated?"

"The softest secondary planet master – Hess beaten by a freshman."

"Exposed! Hess is riding on the head of a freshman to poop."

Wait, there were several eye-catching posts in a second.

Even

There were even headings like "The story Hess and Jiang Fan had to tell".

It was a dizzying sight to see.

But there was no doubt.

The darkest day for Hess was today.

“Damn it! These bastards, how dare they throw sewage on me?”

-Inside a room.

Hess browsed through one post after another.

His body trembled with anger!

It wasn't just the various water users.

There are also contestants who also came from Giant Island in reality.

They were also joking maliciously.

“Haha, Hess, how does it feel to be defeated by a freshman? It should be good.”

“Too bad we won't be able to taste it. I envy you, Hess, for having such a chance.”

“Hess, you're a celebrity now. Sign it for me. I'm afraid it will sell for a lot of money in the future.”

“Hess, I heard that a freshman beat you. Is it true?”

All kinds of ridicule and sarcasm.

Hess was full of anger.

At this time.

The communicator rang.

Hess picked it up and looked.

But it was another contestant who had a poor relationship with him.

The name was Tootie!

The overall ranking was in the top fifty.

It was the big favorite for the thousand qualifying spots in the Long Sky Star Area.

“Tootie, are you here to mock me as well?”

Hess asked without good humor.

“Already laughed.”

Tootie smiled slightly and said, “I’m not here to laugh at you now, I just want to know, that freshman named Jiang Fan Just how strong is it?”

“And said he didn’t come to ridicule me.”

Hess said with a black line on his face, “You want to know how strong? Go experience it yourself!”

For Hess, this was

The most unpleasant experience in his life.

Now he actually had to let him say it again?

“No, no, no, you misunderstand.”

Tootie explained: “I’m just curious, at the same time You should also know that the prince of the federation and I are close friends.”

“Crown Prince?”

Hess faintly froze. Suddenly he thought of something and said: “I remember the prince is also from Bei Dou University?”

“That’s right, you should have thought of that.”

Tootie nodded and said, “In fact, even the Bei Dou University couldn’t imagine that Jiang Fan is so strong!”

“Some people over at the Prince are panicking, so I came to ask just how strong this Jiang Fan is.”

“If we run into each other in the next elimination round, we can be prepared!”

“Much stronger than me.”

Hess recalled for a moment and said, “The pilots he built are very powerful, especially that long oval-shaped weapon. It’s very scary!”

“Anyway.”

“My Black Flame Giant can’t stop it.”

“Your race is still too one-dimensional.” Tootie said.

Hess was silent.

But so were many powerful second-level planet masters.

After all

Creating one species and creating two species were two different things.

One species alone

The success rate was higher.

The cost was also lower.

It was quick to breed.

The downside was that easy to be targeted.

Once you meet your nemesis.

It couldn't fight at all.

“To put it lightly, I also want to create both ground and sky transcendent creatures, but it's not that easy.”

Hess gave a cold hum.

Air transcendent species were indeed extremely difficult to cultivate.

“You prepare well for the round robin of the loser's bracket, and leave this Jiang Fan to me.”

Tootie comforted him.

The round robin tournament of the loser's group was in each group

The tens of thousands of people who were eliminated participated together.

It was very time-consuming.

The whole process probably lasted nearly two months.

This was also the most time-consuming part of the whole group star competition.

But it couldn't be helped.

Such a tournament system could ensure that some geniuses would not be eliminated early.

Taking advantage of this time.

The three thousand and three contestants who came out of the line making the final adjustments and preparations.

But there were only two months.

Basically, it was to summarize the previous matches.

As well as studying the information and videos of possible opponents in the next round in advance.

As for the transcendent species aspect.

How much improvement could there be in two months?

Only Jiang Fan was different.

These two months

Again, he could speed up.

Two months outside.

Above the Blue Star, thirty years have passed.

Chapter 479: First Qualifier! The Battle of Four Thousand Heavenly Proud!

At this time, the population of the Blue Star continued to grow in an explosion.

Broke the 500 million mark.

The level of technology further improved.

In particular, there were new changes in the various weapons of the Great Desolate Army.

Jiang Fan glanced at the planet panel at this time.

Not a minor change had occurred on it –

Planet name: Blue Star

Planet level: Level 2

Planet diameter: 5971 km

Planet species: 2295

Planet talent: Eternal level

Extrapolation route: None

Entered the awakening space.

Jiang Fan browsed through the Blue Star.

“Hmm?”

What surprised him was this.

The electric mounds on the third land.

The number was not growing much.

At a closer look.

He found that

The single allspark cast down in the middle of the land turned into metal.

Now had given birth to a civilization of metal people.

A not-so-big metal man lived on the ground.

They couldn't speak.

It was a direct communication with special metal sensing.

The number was also increasing.

The lump of metal that was cast down was very small.

Now it has turned into a big mountain.

Every day!

There were so many small metal people, born from this big metal mountain.

The electric mound originally had no natural enemies.

But since the birth of the metal man.

Naughty electric mounds often come over to mess up.

To catch a small metal man.

Only

The electricity of the electric mound was not effective for these metal people.

Metal people were not easy to mess with.

The electric mound was chased and beaten by the metal man instead!

The two territories were close to each other.

In order to compete for more territory.

From a small fight at the beginning, it developed into a big fight at the back!

Crackle!

Electric mound used all the electricity.

Also couldn't help these metal people.

But the metal people also lacked the means of attack.

Speed was not fast either.

Also taking the naughty electric mound was not a good way.

But in this way.

Electric mound reproduction efficiency was greatly affected.

Jiang Fan was happy to see.

Let the electric mound reproduce without limit, it was estimated that it will eat the fish and shrimp in the river up.

As for the Yukon Kangaroo.

There was nothing more to say.

After Jiang Fan used the Water of Life.

The growth rate of the colony's population

That was drifting up!

But because there was still the existence of the silver falcon.

It was not that excessive.

The quantum cat in the north.

A new offspring was born.

But the number was still not much, only a few dozen, not even a hundred.

Finished looking at the situation in the third land.

Jiang Fan turned his attention to the second land.

Because of the glory conquest side by side.

The relationship between the Giant Gorilla clan and the Great Desolate Army had never been better.

After seeing a wide variety of transcendent creatures.

The giant gorillas felt superior to others.

No longer put the other giant beasts on the land in the eyes.

The nostrils were facing the sky when they went out.

Look at other tyrannical bears, giant e, saber-toothed tigers and other giant beasts, even to the atomic dinosaurs, was also a look of superiority.

“Brother went to an alien planet and fought against powerful and extraordinary creatures. You scumbags go away.”

These were the inner thoughts of many giant gorillas.

Not to mention the fight for supremacy or something.

There was simply no such interest.

Although actually

They were just standing guard during the previous planetary conquest.

This attitude of the giant gorillas.

Undoubtedly pissed off a lot of giant beasts!

Everyone was a giant beast, who did you think you were, why did you look down on people so much?

The giant gorilla was too lazy to explain.

Thanks to the help of the Great Desolate Army.

Giant gorilla group in these years

It was also growing rapidly.

Now the number of giant gorillas has already exceeded a thousand heads!

In the second land.

It was second only to skeleton reptiles, tyrannical bears, and a few other giant beasts.

The Great Desolate Army had also completely given up on exploring the Second Land.

Thirty years of time was enough to change a lot.

Xu Ji was over the age limit.

Could only retire.

But after retirement.

Still stayed in the Great Desolate Army as a staff officer.

Mainly for

He wanted to continue to participate in the next glory battle.

Replacing Xu Ji was a young man called “Luo Cheng”.

He was not a young man, nearly forty years old.

But this was the age for Xu Ji and others.

It was very young.

Huo Qubing was not young anymore.

Every day insisting on exercising the body.

Take care of yourself.

Prepare to take the position of head coach of this glorious battle...to the end!

To become a history.

The most glorious one in the many master marshals of the glory conquest.

The Great Desolate Army was also coming and going.

The older ones could only quit.

New additions joined.

Still pursuing the policy of elite soldiers.

In fact

From the previous conquest, the top officials could see it.

Almost all of them were storm fighters in power.

The ground team was not so effective.

So this time

It also greatly increased the number of air forces.

There are no major changes in other aspects, all minor improvements!

Time was like water.

The two-month loser's bracket elimination tournament ended quickly.

Nine hundred and ninety-seven contestants.

Get out of this time-consuming, labor intensive and extremely cruel loser group.

Among them was Jiang Fan's Hess!

Jiang Fan wasn't surprised by this.

The strength of Hess.

The conservative estimate was that he was in the top 300.

Naturally, it was impossible to be eliminated.

Next was the final battle of the Long Sky Star Area qualifiers.

Four thousand top heavenly talents from various regions would fight against each other!

After three rounds of competition.

First, five hundred advancement places would be selected.

Other losers

Then there would be a competition in the loser's group.

But this time the loser's group was not a round robin, but The elimination tournament.

This way, another five hundred places would be selected.

Add up

That's one thousand spots for the Long Sky Star Area qualifiers.

These one thousand people would represent the Long Sky Star Region.

Go to the Group Star Council headquarters.

Participate in the main competition of the Group Star Competition!

And the demonic heavenly pride from every place in the endless star field The final competition!

In two months' time.

Su Jicheng and Lin Youhe basically didn't bother Jiang Fan much.

The entire campus of Bei Dou University.

Instead, enthusiasm was high.

Overflowing with laughter.

Because

This year's Bei Dou University.

There were two players who killed in the top four thousand.

There wasn't much to say about the prince.

This was what everyone had expected.

And Jiang Fan was an extra surprise.

Before the competition.

Not a single person could have expected it at all.

Jiang Fan didn't just appear on the group stage.

He could also go so far!

“This Jiang Fan is bound to be the strongest one in the history of new students in the Long Sky Star Area. I just don’t know if there’s a stronger one in the Endless Star Domain?”

“Endless Star Domain? That is vast and boundless, there are endless forces, all kinds of extremely demonic, extremely genius heavenly pride are there, I think there should be.”

This was the discussion of many people.

More people were very much looking forward to it.

Compared to the previous group stage.

This elimination tournament had only four thousand people.

Yet it was attracting more eyeballs.

Each and every one of them were all the heavenly pride demons of various regions.

Fame was not small.

This battle of geniuses in the genuine sense of the word...

It was something that many people were happy to see.

Now in the forum.

The most discussed was

The strength ranking of each participant!

A moment for this ranking list, a moment on that ranking list.

Even

There were even arguments over different rankings.

Under this boiling atmosphere and all the expectations.

Group Star Competition Long Sky Star Area Qualifier officially started!

Chapter 480: The Battle of Heavenly Pride begins! Thirty years later, the Great Desolate Army!

The Long Sky Star Area's qualifying round was also known as the Four Thousand Heavenly Pride's Duel!

It had always been the most watched and most attention-grabbing stage.

As compared to the previous group stage and the hundred-player tournament, the 4,000 participants who made it to this stage were not weak.

All of them were the elite of the elite.

The best of the second level powerful planet owners.

There was not a single element of luck.

The time of the competition was again, at 8:00 pm.

According to the rules of the competition.

Four thousand contestants.

They would catch each other and fight each other!

The winner would advance to the next round!

The loser would not be eliminated directly, but would go to the loser's group.

This was also to avoid the situation where certain strong participants meet in advance and were thus eliminated early.

Same as last time.

Each participant was also required to enter an hour earlier.

It was seven o'clock.

In the rest hall.

A figure of each participant appeared.

This time

This rest hall was even larger in size.

All the four thousand participants were all gathered here!

Jiang Fan also followed and appeared.

Swept a glance at the nearby chairs.

There were already quite a few people sitting.

Most of them were resting their eyes.

But there were many who knew each other.

And they were exchanging pleasantries and greetings with each other.

“Hmm?”

Jiang Fan suddenly saw

Not far away on the left.

There were several contestants from Giant Island.

One of them was Hess.

“Hey, Hess.”

A curly-haired man greeted Hess and then said, “In this elimination round, you will face the strongest freshman Jiang Fan again. Are you sure of your revenge?”

“Get lost!”

Hess is very blunt and authentic.

His face darkened instantly.

Although two months had passed since that match.

But people were still talking about it.

“Don’t be angry.”

This curly-haired man still laughed: “In the first round of the draw, it is possible that you will run into each other. Prepare early.”

“No need for you to bother.”

Hess didn't look good in the slightest.

Many people next to him were laughing lowly.

Jiang Fan had just sat down.

He was about to close his eyes and take a brief rest.

Then a man's voice rang in his ears and said, “You are Jiang Fan?”

Jiang Fan opened his eyes and looked.

But it was a handsome blond man.

“I am, what can I do for you?”

Jiang Fan asked.

“My name is Tootie.”

The handsome blond man looked at Jiang Fan and said, “Hess is a good friend of mine.”

Tootie?

Jiang Fan also had an impression of this name.

It was also a member of Giant Island.

“Are you trying to get back for your friend?”

Jiang Fan asked.

“In a match, strength is superior, and a loss is a loss.”

Tootie smiled faintly and said, “But You better pray you don’t run into me, or else”

“The pilot you worked so hard to build can easily collapse.”

“Really?”

The corner of Jiang Fan’s mouth curled up in a smile as he said, “Then I’ll see what happens.”

Tootie and Jiang Fan’s discussion.

Naturally, they were also watched by one of the contestants next to them.

“Giant Island’s Tootie Is it to find trouble with that freshman?”

“I think so. Hess has also been blacked out a bit too much this time, as a good friend and the strongest player in Giant Island, if Tootie cannot justify his face if he doesn’t speak harshly.”

“If these two really met, it would be fun.”

“I don’t think they will meet in the first round, and if they do, there’s nothing to see.”

“Yes, Tootie is recognized as a top 50 favorite in terms of strength, not comparable to Hess.”

One by one, they were discussing.

Most of the expressions were relatively relaxed.

Up to this point.

Everyone was very confident in themselves.

Stop looking at people who might not have a good reputation.

And the group stage points were not high.

But!

These people are all old fogeys.

Didn't value the point ranking at all.

What they value was The 1,000 spots in the Long Sky Star Area.

In the past, the group star competition.

There were many hidden strengths of the participants.

In the elimination rounds, they hit the jackpot.

They eliminated the other favorites.

Such examples abound.

This was also to make the many popular contestants present.

The other contestants were not underestimated at all.

Time gradually passed.

Soon!

It was eight o'clock.

The four thousand contestants in the hall were all instantly transported to a huge field.

This venue was even bigger than the previous one.

It was quite a bit bigger.

It could hold one billion spectators.

After the four thousand contestants showed up.

The arena was immediately boiling.

All kinds of shouts and whistles were incessant.

The voices calling the names of the individual contestants were the most numerous!

“Tootie, Tootie”

The Giant Island crowd was chanting.

The number was very high.

Second only to Long Sky Area.

Because

Giant Island had more than a hundred people who made it into the 4,000 people elimination round this time!

Tootie was the strongest one inside.

Also because of the handsome look.

The popularity was also very high.

“Jiang Fan! Jiang Fan

This was the shout of the audience of Bei Dou University.

With a brilliant record of one to five.

Jiang Fan’s popularity wasn’t low now.

It wasn’t just inside Bei Dou University.

On the outside, there were also a lot of fanboys and girls!

Inside the box.

The four people, including Lin Youhe and others were also shouting.

But today’s voice was slightly restrained.

Because

There were not only four of them in the box.

There was also a tall, middle-aged man with a majestic face.

This middle-aged man was Lin Youhe’s father.

“You guys feel free to order.”

Lin’s father smiled and said, “I’m just coming over to have a seat, and I’ll leave later.”

It was because Jiang Fan had defeated Hess.

The reason for breaking into the Four Thousand Heavenly Pride Duel.

Lin’s father also came over to watch the match in person.

It would have been fine if he were an ordinary elder.

But Father Lin himself was a powerful fifth level planet master.

This made people like Wan Yunsheng and Xiang Zhifei feel quite pressured.

Even as the top ranked freshmen of Bei Dou University

They wanted to be promoted to a level five planet master in the future.

It wasn’t that easy either.

“Welcome these four thousand of the most demonic level two planet masters of the Long Sky Star Area to the stage of the preselection tournament.”

“The following will begin the lottery ceremony!”

The drawing ceremony

That is, it determines the first round matchup between the four thousand participants!

“There are no rules against this lottery ceremony.”

Father Lin spoke: "But according to previous years, basically in the first round, there will not be a strong dialogue."

"The group star competition still has its own set of things in judging the strength of each participant."

"But"

Lin Youhe demolished the stage: "Every session, there will be a dark horse with a hidden bottom."

"That can't be helped."

Lin's father laughed and said, "These participants who keep their bottom cards, the group star council can't possibly go to specifically find them out, and for this year's competition, it is estimated that many will appear."

"Your friend Jiang Fan is one of the strongest in group 28. The first round is unlikely to arrange strong opponents. I'm afraid"

"Meet these hidden strengths of the dark horse!"

"How strong is Jiang Fan now? Uncle should know, right?" Wan Yunsheng asked.

"One by one, the forces outside have made strength rankings for this Four Thousand Heavenly Pride."

Father Lin laughed, "There are naturally differences in the specifics, but nothing different in general."

"The first ten are all the same."

"The top fifty are also basically the same."

“That prince of your school is within the top fifty.”

“And Jiang Fan well

Father Lin paused for a moment and said, “Most of the forces are ranked one hundred or so!”

“Those who are optimistic ranked over ninety, and those who are not so optimistic ranked over one hundred.”
