

One Planet 491

Chapter 491: Ten million volts! Field of Electricity! Advance to the next round!

After a burst of sour electric shock treatment.

The giant sandworm's vast body was shaking unconsciously.

Afterwards, it turned into a black choke.

Not only that, in the other tunnel, the same scene happened.

It was happening at the same time.

One electric mound was emitting a huge electric light.

Along the slime, it passed to the slime worms and giant sandworms in front and behind.

The two kinds of big bugs were both toasted to charcoal.

It all happened within a few seconds' time.

There is already a strong burned smell in the tunnel.

Didn't know how many electrocuted slime worms and giant sand worms were there.

Since they were all in the tunnel, Jiang Fan also could not count.

Inside the viewing room.

Originally directing the slime worms and giant sand worms.

Wu Xing, who was preparing to launch a back-and-forth attack on the electric mound, was completely wiped out in the tunnel.

He just opened his mouth wide.

Some dumbfounded!

This

What was going on?

Only less than five seconds had passed.

The slime worms and giant sandworms, he worked so hard to cultivate Just like that?

How many were electrocuted?

Jiang Fan did not know.

But as a builder.

Wu Xing instantly knew!

Just a split second of electricity.

Inside the tunnel.

More than a thousand slime worms and giant sand worms died.

Into a blackened charcoal.

No way.

The bug's physique and defense were still a little too weak.

It could be said that

Among many transcendent species.

The weakest level.

And after the initial shock.

After all, Wu Xing was also an experienced veteran level two planet master.

Gradually he reacted.

Seeing the killing moves of these electric mounds.

Releasing a huge amount of electricity.

This electricity followed the

The thick slime secreted by the slime insects passed away.

In other words.

The powerful corrosive slime that was originally the biggest killing move became the catalyst for these slime bugs.

“Damn it!”

Thinking of this.

Wu Xing couldn't help but hammer the table fiercely.

His face was complicated.

He actually fell under his own killing move?

Even inside the tunnel, there were still several thousand slime worms left.

There were also more numbers of giant sandworms at the back.

But in this situation.

No matter how reluctant Wu Xing was.

He was aware of

Further fight.

There was no point.

Slime worms, and giant sand worms had nothing to do with these extremely agile yellow-skinned mice.

Instead, they would be electrocuted into charcoal by each other's huge electric light.

"Heaven is really unjust."

Wu Xing took a deep breath and muttered to himself, "The musketeers and planes built by this demonic freshman are so terrifying."

"Now I can't believe that even the companion species are so strong!?"

Toughly spat out a few words.

Wu Xing could only press the quit button.

Surrendered the match.

“Player Wu Xing has conceded defeat. Congratulations to Jiang Fan, who has won this match.”

The pleasant prompt sounded.

“Squeak

After winning the match.

The crowd of electric mounds also jumped up with excitement.

Bouncing and jumping back to the ground.

Naturally, they received the Great Desolate Army warriors and scholars

One by one, they touched their heads and killed them.

And for the audience watching the battle outside.

They seemed a little confusing!

Because they couldn't see the battle happening under the ground.

Not at all clear what just happened.

What happened?

How did the other side suddenly admit defeat?

“Huh? That’s a win?”

Inside the box.

Lin Youhe and the others also blinked their eyes, unsure.

“This How did Jiang Fan win?”

Jane Ziqiang looked at Wan Yunsheng curiously.

But this time.

Wan Yunsheng also shook his head and said, “Not sure, maybe Jiang Fan used some kind of secret weapon again this time.”

“Under the ground, put the other two races to kill and injure.”

“It should be so.”

This did not surprise Lin Youhe and the others.

In the last exchange match.

Jiang Fan would take out some strange weapons from time to time.

“No matter how this game is won, it’s meaningless.” Lin Youhe said excitedly, “Jiang Fan has now made it to the next round, which is the top 1,000.”

“And the opponents behind”

“It’s almost impossible to encounter the underground races again.”

About this.

There was no doubt.

The number of contestants who beat the underground race was tiny.

They could only use this as a strange army.

After all,

The frontal combat power of underground races was not strong.

Even if some planets were perfect for breeding underground races, the planet master might also turn to other transcendent species.

“The next round is the last round.”

Lin Youhe said with considerable anticipation.

“Strictly speaking.”

Jane Ziqiang Yi Zheng said, “Not really the last round. If you lose, then there may be two or three more rounds.”

“Are you serious?”

Lin Youhe glared at Jane Ziqiang and said, “For Jiang Fan, it’s definitely the last round.”

“But well

Lin Youhe paused for a moment and smiled again, “It depends on what kind of opponent we draw in the next round.”

After, the match ended.

One by one, the players were all teleported back to the rest hall.

There were already quite a few people who had finished their matches.

Those who won were naturally happier.

They were talking eloquently there.

And the people who lost

Their expressions were not too lonely.

After all, there was still a loser group.

According to the rules of the tournament.

Only when all the participants had finished the game Only then would they be transported out.

Under the boredom.

Jiang Fan was also the same as the others.

Looked at the huge projection in front of the hall.

It was broadcasting all the remaining matches live.

“Hess, Hess

“Go Hess, take out this guy from the Empire!”

Chapter 492: Ten million volts! Field of Electricity! Advance to the next round!

Many people around were cheering for Hess, who was still competing in the picture.

Hess's opponent in this round was a member of the royal family from the empire.

Jiang Fan looked at it twice.

He judged it.

This royal member was less powerful than Hess.

It was just relying on the abundance of experience to maneuver around.

Sure enough!

After ten minutes.

This royal member couldn't hold out anymore.

Hess found an opportunity to break the position viciously.

At this point.

There was no suspense in the game.

This royal member quickly conceded defeat.

Immediately afterwards.

Two figures were transported to the rest hall.

One of them was none other than Hess.

“How’s that? I said it would be a breeze for me to enter the Top 1000.”

Hess looked at his Giant Island companion with a smile on his face.

With that suddenly glanced at Jiang Fan on the side.

The smile on his face instantly froze.

“This guy also passed this round?”

Hess glanced at Jiang Fan somewhat helplessly.

He didn’t dare to continue joking.

He left the place in a hurry.

Jiang Fan didn’t bother to pay attention to Hess.

He continued to watch the other contestants’ matches.

Most of those who could last this long were evenly matched.

After about an hour.

All the matches were over.

One thousand people advanced to the next round.

While the other thousand were eliminated into the losers’ group!

Only.

It differed from the previous two rounds.

This round was very cold.

There were over twenty powerful players ranked in the top one hundred who were actually defeated by their opponents.

“The Group Star Competition is really hiding dragons and crouching tigers. Each one of them took out their best tricks in this round, and there were a lot of powerful players.” Someone next to me was discussing.

“I’ve watched most of the matches just now, and they are all really hidden.” Another person couldn’t help but shake his head and lamented, “The strength is extremely exaggerated. I originally felt I had a minor problem in the next round, now It’s a bit hanging.”

“I am also the same. Several of them are estimated to enter the top 50 or even the top 30.”

A core member of the imperial family agreed: “I’m afraid that besides the top ten safe and sound, everyone else is very dangerous.”

“Look, none of the 1,000 people in the next round are weak, and it will definitely be a scorching fight.”

“There may be people who still have their cards. It’s not even easy to say.”

“I hope I have some luck and don’t run into those who are powerful or particularly deep in hiding.”

“.....”

They were cold

It also made the discussions among the contestants in the rest hall a lot louder.

Originally, the expression was still relatively relaxed.

Instantly, they got nervous.

The next round of the competition.

It wasn't tonight.

Rather, it would be a day later.

Tomorrow night, it will start at eight o'clock.

After all, the competitions were over.

Jiang Fan and each of the participating second level planet masters were teleported to the places they came from.

Jiang Fan naturally returned to the villa.

This day's time.

Jiang Fan turned off his communicator completely.

Su Jicheng and Lin Youhe and others couldn't possibly come and disturb him at this time.

At the same time, this was also to avoid harassment from others.

The flow rate on the Blue Star was slightly adjusted again.

Let the Great Desolate Army have enough time to rest.

Because there were so many upsets on the first day of the game.

The discussion outside exploded.

The traffic of the forum was rising steadily.

It continued to set new records.

The match between Jiang Fan and Wu Xing.

Naturally, there wasn't much discussion about it.

But inside Bei Dou University.

For the first time, the discussion about Jiang Fan surpassed...the crown prince!

Becoming the most popular figure.

No one could have imagined.

Jiang Fan went from the group stage to the present step by step.

And now, he was only one step away from that 1,000 qualifying spots.

Just win the next match.

And he could hold this quota firmly in his hands!

Even

Some people even compared Jiang Fan and the Crown Prince for the first time!

Jiang Fan could threaten the Crown Prince's position.

Of course.

This kind of voice still belonged to a few people.

But there was no doubt.

More and more people's eyes were fixed on Jiang Fan.

Ready to watch if Jiang Fan could perform a miracle.

As a freshman, he qualified for the qualifying round of the Long Sky Star Area.

-Some girls and teachers.

Originally, they were going to support the Crown Prince.

But now

Changed the previous intention.

They exchanged the ticket for watching Jiang Fan's match.

In the warm and expectant atmosphere outside.

The day passed by in a flash.

Soon.

It was 7:00 pm again!

Jiang Fan was still in the villa.

Like the other participants, he was transported into the rest hall at the same time.

Tonight was not quite the same as last night.

No one could get up easily anymore.

Few people were laughing lightly about it either.

One by one, they all had their eyes closed.

After an hour of waiting.

The pleasant woman's voice rang out –

“Tonight will be the winner's group of one thousand into five hundred and the loser's group of the competition. The entire Stars Contest Sky Division qualifier... will also end tonight. All contestants, please be prepared. ”

“The draw ceremony for the loser's group and the winner's group will be held next.”

Hearing that.

Brush, brush, brush

One by one, the contestants all turned their heads.

The eyes turned to the huge projection in front of them.

Waiting for the result of the lottery.

Some hands couldn't help but slightly clench.

Everyone wanted to be lucky to be drawn to a weaker opponent

Chapter 493: Everyone looking forward to it! Above the myth! Undefeated level!

It wasn't just the people inside the rest hall.

Outside, inside a vast square, thousands of contestants were projected.

They projected the complete image of each in the middle of the field.

In the middlemost position, there was a huge lottery ceremony.

The audience who came to watch the lottery was not small.

One billion seats were all filled.

-Eyes look over.

It was black and dense.

It could be said that it was really crowded.

Lin Youhe and others were also among them.

Because this time, Bei Dou University had two players who made it to the top 1000, the Crown Prince and Jiang Fan.

So the audience from Bei Dou University was also very large.

Many school leaders and teachers have come.

Su Jicheng and others were naturally among them.

Ao Xiong and some people from the prince's side were also inside.

Different from Su Jicheng's relaxed.

Ao Xiong's side.

Each face was not as good as before.

The main reason was, of course

Jiang Fan had won one after another and unexpectedly made his way into the Top 1000.

Just one more win.

And he would secure a spot in the Long Sky Star Region.

He would advance to the main competition of the Group Star Competition.

At this point in time.

No one dared to underestimate Jiang Fan anymore.

Previously, Jiang Fan's several matches.

The people on Ao Xiong's side had been paying attention.

With their eyes, they could see how strong Jiang Fan was today.

"This Jiang Fan"

A teacher spoke with emotion, “How come his strength has increased so much? It’s only been a few months since the last exchange tournament. How could he be so strong?”

“The world of demons. Sometimes it can’t be explained by common sense.” Another teacher said helplessly.

“Now Jiang Fan’s strength should be able to be ranked in the top 100 of these thousand people.”

A teacher asked.

“Absolutely top one hundred.”

A school leader nodded and said, “It might even be a little higher, and I have to admit that the probability of passing this round is very high.”

“That’s not necessarily true.”

Li Zihao said, “It depends on who the opponent is drawn in the lottery. There is no problem. But if the one drawn is... the top 30 favourites, then he will be unlucky!”

“The top thirty It is still possible to get it.”

Another teacher also agreed.

According to the rules of the competition.

Because there was a set of loser groups.

So there was no distinction between seeded and unseeded players.

This also meant that

Two participants with top strength.

It was possible to be drawn together.

The above round.

Why were over twenty of the top 100 ranked contestants eliminated?

-Part of the reason was that the opponents were hiding their bottom card.

And the other part was

Strong competition!

Two powerful contestants met early.

“Let’s see.”

Ao Xiong spoke, “Don’t focus on others. We’re mainly here to support the Crown Prince.”

“The prince will definitely be fine.”

Li Zihao laughed: “As long as we don’t run into the ones from the Long Sky Domain and the Empire’s Princess Xiya, the others won’t be the Crown Prince’s opponent.”

Inside the lounge.

The drawing ceremony had already started.

But it was different from before.

Because this was the most critical final round of the winner’s group.

So the draws came one by one.

And not altogether out.

The order was arbitrary.

No one knew which one they would be in.

This made many people feel very tormented.

The heart was pounding.

More and more nervous.

The first to draw

It wasn't Jiang Fan.

Instead, it turned out to be Hess!

This member of Giant Island whose fame was not inferior to many popular players because of the battle with Jiang Fan.

-Time.

Everyone's eyes looked at Hess.

It made Hess, who was originally relatively calm

He couldn't help but become a little nervous.

“As long as I don't draw too strong an opponent for me, I still have hope.”

Hess thought secretly.

The strength ranking outside.

It ranked Hess at around two hundred.

Most of the contestants here were weaker than Hess.

And the results of the draw came out instantly.

Above the huge projection at the front.

It showed the first group's matchup –

Hess versus Zhang Shengchen!

“Zhang Shengchen?”

Many people were somewhat unfamiliar with this name.

“A certain Daozi of the Dao Sect, the top sect of the Federation.”

A participant opened his mouth and said to the crowd, “Ranked in the top 300 in terms of strength, the gap between him and Hess isn't that big.”

Hearing that.

Hess could not help but frown slightly.

In fact.

Many people recognized that.

Besides the top thirty, obviously stronger than a chip.

The rest of the others were on a level.

It depended on the play of the field and how many cards they had at the bottom of the box.

After drawing Hess and Zhang Shengchen.

The lottery ceremony did not stop at all.

Continue to the next draw.

One by one, it drew the two opposing sides out.

The others watched with great interest.

After seeing the results of the draw.

There would be a lot of discussion.

Jiang Fan felt a little bored.

Of course.

The only exception was Jiang Fan.

In the vast square outside.

The one billion viewers were staring intently, anxiously waiting for the result.

Real-time ratings

It was also drifting upwards.

For the vast majority of people.

It was exciting!

It was like the lottery ticket you bought had been drawn.

Even the two parties, Ao Xiong and Lin Youhe, were waiting nervously.

Each eye was staring at the projection without blinking.

When they saw another name appear.

The audience of Bei Dou University all let out a startled cry.

“It’s not Jiang Fan?”

Lin Youhe’s eyes widened, then he shook his head and said, “It’s the Crown Prince.”

This time it was the turn of the “Crown Prince”, a participant from the Bei Dou University, to draw lots.

Ao Xiong’s group of people was incredibly nervous.

Everyone did not dare to breathe.

-Seconds later.

The opponents were drawn.

The entire matchup was also revealed.

“Theodore!?”

Everyone was slightly taken aback.

But immediately, someone recognized it and said, “This is someone from the Empire’s side. The reputation is not loud enough.”

“What’s the strength?”

Li Zihao immediately asked.

“The ranking is in the top two hundred, which is not weak.”

“Only the top one hundred?”

Li Zihao immediately stopped being nervous and revealed a relaxed expression and said, “This is not a breeze for the crown prince!”

Shortly after the Crown Prince’s lottery ended.

Another name that was familiar to the crowd of Bei Dou University appeared.

Naturally, it was Jiang Fan.

This caused Ao Xiong’s group and Lin Youhe’s four people, as well as Su Jicheng and others... hearts lifted.

Ao Xiong’s group rarely wanted Jiang Fan to be too easy.

And Lin Youhe's group was looking forward to Jiang Fan met an opponent that wasn't too strong.

"Don't meet the top thirty. That's all I have to hope for."

Jane Ziqiang clasped his hands nervously.

"As long as we don't meet the top thirty, other opponents should not be able to cause too much obstruction."

Chapter 494: Everyone looking forward to it! Above the myth! Undefeated level!

Wan Yunsheng, who had always been calm and steady, also agreed.

After the performance of the previous few games, everyone already had an initial recognition of Jiang Fan's strength.

"Give it a go. It's best to draw Imperial Princess Xiya to Jiang Fan."

Li Zihao said wistfully, "Besides Xiya, the ones from the Long Sky Kingdom are fine too!"

In the lounge, there were also quite a few people paying attention to the results of Jiang Fan's lottery.

Especially Hess and the few Giant Island contestants beside him.

"This demon should still hurry up and advance."

Hess thought darkly.

Because the strength of the opponent he had just drawn was very strong.

Hess didn't have any certainty in his heart.

He was already prepared to fall into the loser's group.

Now he hoped that Jiang Fan would hurry up and advance.

He didn't want to be in the loser's bracket He didn't want to run into Jiang Fan again.

Others were okay.

If it was Jiang Fan's musketeer and plane.

There was nothing that black inflamed giant could do!

The power of origin was activated again.

-Seconds of time.

Jiang Fan's opponent had already been extracted.

The matchups came out –

Jiang Fan versus Firekong.

“Huo Kong!?”

Seeing this name.

The rest hall, the vast square.

As well as the viewers watching the live broadcast through the projection outside.

All of them were silent!

Then immediately

There was an uproar!

“No way, Jiang Fan actually met Huo Kong from the Long Sky Kingdom?”

“Although Huo Kong is not the most demonic player such as Xi Ya and Chang Feng, he is also ranked in the top 30 and ranked eighth overall, the strength should not be underestimated!”

“Crazy! So far in this lottery, this group should have the strongest overall strength.”

“That’s right, Jiang Fan’s strength. Many people now believe that at least in the top eighty. Even the top fifty are possible. There is a high probability of direct advancement, did not expect actually met the top ten in the rankings.”

“If replaced by the top thirty, slightly weaker, may still have a battle, but now meeting with the top ten Huo Kong!?”

“Although Huo Kong is not well-known, not as famous as the other few people in the Long Sky Kingdom. But I have seen his race. The build race is very good, the fit is also very high, the actual strength is estimated to be more powerful!”

“.....”

One by one in a crazy discussion.

The whole huge square.

One billion spectators were boiling.

Compared with the previous painless matchups.

The team of Jiang Fan and Huo Kong... was truly considered to be a loud conversation!

One was the only freshman to make it to the elimination rounds this year, and was known as the strongest freshman in history.

The other was from the Long Sky Kingdom, a top 10 ranked existence.

The conversation was drawn full.

The two sides bumped into each other.

There must be sparks flying!

“Exciting! Really exciting! This one.”

Many people showed a look of anticipation with an excited face.

“Hahahaha!”

For Ao Xiong and the people.

The mood was a bit more pleasant.

“Although I wasn’t able to draw those people from Xi Ya and Chang Feng,” Li Zihao excitedly exclaimed, “Huo Kong is also enough, just now still thinking whether we can draw the top thirty? Now”

“Actually, A top ten!”

“Wonderful, wonderful.”

Another teacher also laughed and said, “This time Jiang Fan is truly fierce. Being eliminated is a sure thing.”

“Don’t be so sure yet.”

Ao Xiong spoke up, “Don’t forget, the first few times You guys also said the same thing.”

At these words.

Several people were all calm.

Slightly embarrassed.

Several times before.

All felt that Jiang Fan was definitely going to be gone.

But!

No one expected.

Jiang Fan flipped back again and again.

Hit them hard in the face.

“It shouldn’t happen this time.”

Li Zihao smiled gently and said, “I watched the video of Jiang Fan’s match. He might still hide some underhanded cards, but his actual strength is almost to this level.”

“And Huo Kong

“Much more powerful!”

“Let’s congratulate Jiang Fan in the loser’s group in advance.”

Li Zihao smiled brightly, and his voice was loud.

“With Jiang Fan’s strength, getting into the loser’s group can be hard to say.”

Wang Yiteng said worriedly.

“So what?”

Li Zihao said disapprovingly: “Even if Jiang Fan can qualify in the end, as long as he loses in this match, his undefeated golden body will be broken, and he will be completely incomparable with the prince.”

This was also the thought of Ao Xiong.

Because

Since the prince became the owner of the planet.

He had never been defeated once.

That’s why he was held so high.

Of course.

Except for team competitions like exchange competitions.

Even in that match.

The prince was not considered a loser, he was besieged and had to admit defeat in the end.

And Jiang Fan was even more exaggerated.

Undefeated in the genuine sense!

He hadn't even lost in a five-person team competition.

There were already rumors outside

Jiang Fan might become another "undefeated" demon in the Long Sky Region after the Lord of Long Sky!

This undefeated level.

He was at a great mythological level.

The level of those outstanding demons was classified.

Of course.

It was just a folk name.

But it has also been recognized by many powerful planet masters.

Specially used to distinguish those above the ordinary Great Myth class, but not up to the eternal level of pride demons.

This year's group star competition in the long Sky Star Region.

Although there were many demons.

Into the first thousand.

Almost all were great myth level.

But to be recognized as the “undefeated level” There were very few.

First of all, the first condition.

Naturally, it was not to fail.

Prince no longer had this qualification.

Even if it was a team competition.

Losing was also losing.

And although Jiang Fan was not ranked in the top thirty.

But he had never lost once!

This was also recent

Why is Jiang Fan’s voice more and more likely to surpass the crown prince’s?

This made Ao Xiong and the others very vigilant and terrified.

“As long as Jiang Fan loses, it doesn’t matter where he loses.” Li Zihao laughed, “Later, after we quickly watch the Crown Prince’s, we’ll go to Jiang Fan’s side and witness the fall of an undefeated level!”

Ao Xiong and these people were happy.

Lin Youhe and a few others looked a bit lost.

All four of them didn’t know what to say.

They were full of fear.

“Jiang Fan this time

It was still Wan Yunsheng who spoke up, “The luck isn’t too good, but it doesn’t matter.”

“Fight well, there’s still hope.”

“You guys don’t forget that this is still in the winner’s group, even if you meet the worst result, you still have one more chance.”

“That’s right.”

Lin Youhe also squeezed out a smile and said, “It’s hard to say who will lose and who will win, this guy Jiang Fan Every time he brings us surprises, I hope this time will be no exception!”

And outside.

Although the draw ceremony was not completely finished.

But almost all the spectators.

All were shouting Jiang Fan and Huo Kong’s names.

Looking forward to the arrival of this powerful showdown!

Chapter 495: The strongest duel! Full Strength! Detonate the audience! The draw ceremony continued.

All the remaining matchups were no longer too hot.

There were no more strong matchups like Jiang Fan and Huo Kong!

After the draw ceremony, the matches would start at ten minute intervals.

The time was very short.

Each one was desperately studying their opponents.

Jiang Fan was no exception, but it was different from others.

Jiang Fan could still adjust the flow rate of the Blue Star.

It gave the Grand Desolate Army's top officials plenty of time to study the transcendent race they were fighting against this time.

"You're the Jiang Fan from the Federation?"

A voice came.

Jiang Fan looked up.

It was a thin young man.

His hair was fiery red.

It looked somewhat ethereal.

"Huo Kong?"

Jiang Fan asked back.

"You have a good talent."

Huo Kong looked at Jiang Fan and said, "It's said outside that it's the strongest freshman in the history of the Long Sky Star Area, so it would be a shame if it didn't make it out!"

“You’re so sure?”

Jiang Fan laughed.

“When you meet any other opponent, you win, but unfortunately you met me.”

Huo Kong’s face was calm, as if he was saying something that he took for granted.

“So, you still have some bottom cards?”

Jiang Fan smiled faintly.

Instead, the corners of Huo Kong’s mouth curled up in a smile.

Nothing more was said.

Turning around, he left.

After those quick ten minutes.

The match started in a flash.

This battle of focus between Jiang Fan and Huo Kong... was arranged in the largest one billion person arena!

“This time, the two opposing sides are Jiang Fan from the Federation and Huo Kong from the Long Sky Country!”

A pleasant woman’s prompt sounded.

Jiang Fan and Huo Kong were both summoned to the middle of the field at the same time.

The entire field resounded with the sound of mountains and waves.

The voice of a billion people, it added up to deafening.

One by one, they were all extremely frantic.

“Huo Kong! Huo Kong!”

The number of spectators from the Long Sky Country was very large.

It was the largest number of the one billion people on the scene.

In desperation, they were shouting Huo Kong’s name.

“Jiang Fan! Jiang Fan!”

“Go Jiang Fan, finish off Huo Kong!”

But there were also many people supporting Jiang Fan.

It could be said that

Apart from the Long Sky Region.

Federation, Empire, Giant Island, and so on, one by one, were all Jiang Fan’s supporters.

This was because the Long Sky Region was the most powerful.

While facing the Long Sky Region, the rest of the forces were usually held together.

This was a battle of focus.

It received too much attention.

The ratings climbed.

It instantly hit the highest value in ten thousand years!

Not just the ordinary viewers.

Even the high and mighty level 6 planet masters were also watching this match.

—In a void.

The level six planet masters of the thirty-six superlative academies were gathered together.

There was a huge projection in front of them.

It was the match between Jiang Fan and Huo Kong that was playing.

Each expression was very relaxed.

Because the overall result of the federation this year was quite good.

“Even if Jiang Fan loses this one, there’s still a loser’s bracket, and the probability of coming out in the end is very high.”

A level six planet master said.

“It’s uncertain that we’ll lose this one.”

The level 6 planet master of the Yaoguang University, the old man in green, spoke: “According to my understanding of this little guy, I’m afraid he still has his bottom card unused.”

“It took little effort to pass the previous games.”

“The difference in strength between the two sides is not large. There is still something to fight for.”

“Yaoguang, you are wrong this time.” A sixth-level planetary master of Xinghe Academy... a middle-aged man in purple said with a smile.

“Oh, Xinghe, what do you know?”

The green-clothed old man looked at the purple-clothed middle-aged man from Xinghe Academy.

The others also looked over curiously.

The middle-aged man in purple had a good relationship with the Long Sky Region.

Often, he could get some inside information that others did not know.

“Can’t be completely sure.”

The middle-aged man in purple paused for a moment and said, “But there are rumors that this Huo Kong’s true strength is the undisputed number one in the entire Long Sky Star Area! There is hope to enter the top one thousand in the main competition of the group star competition!”

“Hiding so deep?”

One by one, the rank six planet masters were surprised.

Although the eighth and the first were not far apart.

But it was recognized that the top three were on another level.

Wanted to be number one.

They hid this strength a bit more.

“I can’t be sure. Let’s wait and see.”

The middle-aged man in purple smiled faintly.

This caused a hint of anticipation to appear in the eyes of the many rank six planet masters.

They were eager to see what kind of bottom card this Huo Kong had.

To make the purple-clothed middle-aged man call him the undisputed number one in the Long Sky Star Region!

In the projection screen.

The match had already started.

The planet channel opened.

The micro drones and the Great Desolate Army came in one after another.

Lightly, they set up a defense formation.

At the same time.

The transcendent species created by Huo Kong also entered quickly from the passage.

The species that could rank in the top ten were naturally not simple.

These were two transcendent races.

One that runs on the ground.

And the other that flies in the sky.

Two transcendent species in the air and on the ground.

This was a match that many planet owners dreamed of!

Da da da da

Above the ground.

There came a quick stomping sound.

Immediately after that.

A giant bird with a height of over five meters rushed in.

It looked somewhat similar to an ostrich.

With two strong and robust legs.

But the body feathers were fire-red, very smooth, as if they were flowing.

Looked like a burning flame!

The eyes were as stern as eagle eyes.

It made these giant birds look very high and proud.

“Flame Chicken!”

Jiang Fan, who had learned about Huo Kong's information.

Instantly recognized it.

This wasn't an ostrich.

Rather, it was a chicken!

An extremely powerful transcendent chicken.

It was the only super civilized race among all transcendent chickens.

The nobility of chickens!

Extremely powerful.

It was naturally difficult to build.

In the entire Long Sky star area.

Only Huo Kong had

This kind of strong and powerful species was created!

“Don't look at the size of the flame chicken, it seems not big, and it can't be compared to the black flame giant or something like that, but if the two fight, the black flame giant is definitely not a match for the flame chicken.”

Inside the box.

Lin Youhe and the others looked at this rare species in awe.

-And discussed while doing so.

“Flaming Chicken has extremely developed legs, amazing bouncing power, and is immune to flames. It is completely the natural enemy of Black Flame Giant and Flame Giant. It calls its father when it encounters it. There is no way to fight.”

Xiang Zhifei also nodded in agreement.

“With the flame chicken alone, Huo Kong is enough to rank in the top 100, not to mention there is an air transcendent species.”

Chapter 496: The strongest duel! Full Strength! Detonate the audience! The draw ceremony continued.

Wan Yunsheng also lamented.

Huhuhuhu

Above the competition field.

-A piece of wind sounded.

Immediately afterwards a group of giant birds with flames all over their bodies flew in.

These giant birds had a wingspan of over five meters.

There were over three thousand of them.

-One after the other.

As if covering the sky.

Compared to other flying transcendent creatures.

It's not that big of a size.

But the unique thing was

These giant birds were covered with a flame on the outside of their bodies.

These were not the usual feathers of a flaming chicken.

Rather

Real flames!

This blazing giant bird was even more famous than the flame chicken.

-Appearance.

Just got the enthusiastic whistle.

“Flaming bird!”

The pupils of Huo Qubing, Luo Cheng and others shrank slightly.

Although, the Flame Chicken was powerful.

It was more terrifying than species like the Black Flame Giant and the Demon Ape.

But at least it was still above ground.

And these flaming birds, whose whole body was wrapped in fire, had a powerful aerial output.

They were the key object of prevention for the Great Desolate Army this time.

“Jiang Fan.”

Huo Kong’s voice sounded in Jiang Fan’s ears, saying: “You are one of the few people I think highly of, to show my respect for you, this time I will show the full strength of the Flaming Chicken and Flaming Bird I built!”

“I hope so.”

Jiang Fan also had some expectations in his eyes.

If it was really just the surface like this.

Then it wouldn’t be much of a challenge for the Great Desolate Army.

“Flaming Chicken and Flaming Bird, this is a very perfect match. I wonder how Huo Kong built it?”

Above the void, there were Level 6 planet owners feeling emotional.

“All the previous matches”

Another level six planet master said, “Huo Kong defeated his opponent by relying on the power of the Flaming Chicken, and the Flaming Bird’s strength hadn’t been played at all!”

“If it is true what Xinghe said, the flame bird created by Huokong is probably not as simple as it seems on the surface.”

“It’s interesting.”

One by one, the level six planet masters all developed an unprecedentedly keen interest.

And the crowd of the Great Desolate Army.

The first air-ground opponent they had encountered since the conquest

The attention was raised!

The warriors of the Great Desolate Army all hid inside the chariot.

The performance of these spider chariots was unquestionable.

Even medium-sized missiles blasted over.

Could resist once!

Mainly by the surface of the chariot covered with a layer of thick deformation alloy!

Although the sky was more optimistic about the crowd.

But after the flame chicken and flame bird entered the battlefield.

There was no immediate attack.

Instead

They lined up.

The number of flame chickens was about 10,000!

Not a large number.

This was also the consistent weakness of all kinds of powerful transcendent creatures – poor reproduction ability!

Of course.

If extraordinary creatures could be born as easily as ordinary people.

Then there would be no more fun.

“All flaming chickens and flaming birds, all scatter!”

Huo Kong slowly commanded.

There were ten thousand flame chickens on the ground and five thousand flame birds in the sky.

Obedience was very high.

In an instant, they pulled apart one by one.

Also pulled very wide open.

Between each flame chicken

At least a difference of 30 meters!

Seeing this scene, The Great Desolate Army generals slightly frowned.

Although the previous opponents also spread out.

But definitely not as excessive as the flame chicken.

“When our missiles are sent over, it is estimated that can only blast a Flaming Chicken to death?”

A scholar could not help but ask.

“I’m afraid so. At most, it will kill and injure a few more.”

-An older scholar nodded.

This is the reason the Great Desolate Army did not send other weapons.

It was because the transcendent creatures were too responsive and too fast.

Except for the missiles.

It was difficult for all kinds of artillery fire to hit each other.

The shockwave and debris from the shells.

It was also difficult to cause fatal damage to these physically powerful transcendent creatures.

It’s not as reliable as armor-piercing bullets.

“The tactics on the other side are really aimed at us, and they are very cautious.”

Huo Qubing stared at the field and said in a deep voice, “This battle...I’m afraid we have to be more careful.”

“The opposite side has a weakness.”

Luo Cheng said: “That is, the number of transcendent creatures on the opposite side is not large.”

Compared to the transcendent species in front of them, that could easily be tens of thousands.

The number of flaming chickens and flames was indeed still less.

Boom! Boom! Boom!

At this time.

The flaming chickens that were scattered on the opposite side suddenly attacked.

With long, sturdy legs.

Like a gust of wind, they rushed towards the Great Desolate Army's position.

The speed was extremely amazing!

The human eye couldn't even see it.

In Jiang Fan's eyes, it was like a red Ferrari.

"Fire!"

Huo Qubing gave the order immediately.

The Great Desolate Army warriors on the Spider Chariot had long ago raised their electromagnetic rifles.

No matter how fast the flame chickens could be, it couldn't be faster than bullets.

Or specially made spiked bullets.

Swoosh, swoosh, swoosh

A round of bullets instantly diffuse like rain.

The entire space in front of them was almost covered.

Poof, poof, poof

It hit a flaming chicken that rushed the fiercest by thirty rounds of bullets in just one second.

Nothing unexpected.

The spiked bullets went straight through the body.

It beat the flaming chicken into a hornet's nest.

Under tremendous force.

This flame chicken lost its balance and fell down.

Rolled on the ground for a while before stopping.

But it's already dead and can't die anymore.

"I knew it."

Seeing this scene, Huo Kong sighed with emotion, but was not much surprised.

"The Flame Chicken's defense power looks like it should be similar to the Black Flame Giant that lost its Black Flame."

The team of scholars also judged it immediately.

"But the Flaming Chicken is too fast, it must set fire to do so."

However.

The next moment!

Everyone saw an astonishing scene.

After the flame chicken was killed.

The other flame chickens behind

One by one, they directly soared into the air.

This one jump.

Like gliding, they jumped up over thirty meters at once.

And it was still continuing to rise!

Thirty meters.

Forty meters.

Fifty meters.

The one with the strongest jumping power reached a height of over eighty meters!

The scholar team was shocked.

Because of the previous data.

These flaming chickens usually jump less than fifty meters at most!

“That strong?”

Jiang Fan also blinked and watched in awe.

That was an amazing scene.

It also immediately attracted the one billion viewers on the scene.

There was a howling sound like a wolf!

“Flame Chicken! Flame Chicken! Hoo!”

The spectators from the Long Sky Region looked very excited.

On the side of the Great Desolate Army, the ground was fine.

But the defense in the sky would be hard to do without mistakes.

“Let’s just use alternate tactics.”

Luo Cheng suggested.

Huo Qubing made a decisive decision immediately.

The jumping power of these flame chickens completely exceeded everyone’s expectations.

Conventional tactics would not work.

Chapter 497 : Energy Weapons! Jedi cards! Mutant race!

“All fighters, fire missiles and attack the most powerful flaming chickens.”

Huo Qubing ordered.

This time the Great Desolate Army..... dispatched was not a hundred.

There were two hundred of them.

Much less one hundred and fifty.

Rather

The whole three hundred!

In the past few years, the Xia Kingdom produced three generations of storm warplanes.

All of them were mobilized by the Great Desolate Army.

After three days and three nights of research.

For the flame chicken and flame bird on the opposite side.

The Great Desolate Army paid unprecedented attention.

Developed several sets of tactics.

Especially because there was a powerful air flying transcendent creature like the flame bird.

The demand for storm fighters was even higher!

Directly got three hundred!

Hoo, hoo, hoo.....

On the ground.

There are two hundred unmanned fighters soaring into the sky.

Rapidly rose into the air.

Side by side with the storm fighters.

Five hundred fighter planes.

Presenting a not-so-small group of fighter planes.

Standing high in the sky.

It also made the audience at the scene and outside... astonished!

All of them stared wide-eyed.

“This little guy.....”

Several level six planet masters could not help but be speechless, “Hidden deep enough!”

“It's true that he still left his bottom card.”

Seeing this scene.

Huo Kong also narrowed his eyes slightly.

Hoo.....

The first armor-piercing missile was quickly launched from under the warplane.

It went straight at the highest flaming chicken that jumped.

According to common sense.

The one with the highest jump.

Must be the strongest.

It was likely to be the leader of these flaming chickens.

“Flame bird, stop these things.”

Huo Kong immediately ordered.

A flame bird immediately flew out.

Swiftly, they headed towards the Flaming Chickens below.

There were a hundred of them in total!

Like a blazing mass of flames, they fell like heavenly fire.

Because they were originally on the head of the Flaming Chicken.

Closer to the flaming chicken.

Instantly came close to the ground.

At this time the flame chicken.....

It had fallen from the sky.

But did not continue to jump.

Instead, it was scurrying sideways, left and right.

Running and dodging the attack of the spike bullets.

It must be said.

The flaming chicken jumped to the sky and went back to the ground all at once.

It made it very difficult to aim the electromagnetic rifle of the Great Desolate Army warriors.

It directly stretched the coverage of firepower out.

The killing power was also reduced.

Nevertheless, there were still dozens of flaming chickens.

In that round of attack just now.

Was killed on the spot.

Huo Kong's face was very calm.

He knew very well

If he wanted to break into the Great Desolate Army's position, he was bound to pay some price.

As long as the flame chicken casualties within a thousand.

It would be completely acceptable.

The key was..... those terrifying weapons in the sky that could track.

“If there is no such strange flying creature as the flame bird, there really isn't much that can be done when replaced by others.”

Huo Kong thought secretly with a look of confidence.

At the competition venue.

One hundred Flame Birds had flown above the Flaming Chicken.

Immediately after..... The beak of the bird opened.

From it, a long flame spurted out.

This flame came into contact with the air.

It quickly became larger.

It enveloped the area of one meter.

And a hundred flaming birds superimposed.

It was nearly a hundred meters in size!

A hundred huge flames looked extremely amazing!

The speed of the armor piercing missiles falling from the sky was very fast, but still did not evade the interception line of these flames.

After touching one of the flames.

It was instantly ignited.

What this flame bird spitted out was not ordinary fire.

But a kind of flame called “Amazing Fire”.

It had a very high temperature.

It directly burned off the material of the armor-piercing missile.

It ignited the gunpowder inside.

Boom!

-A loud sound.

It detonated this armor piercing missile in the air!

boom.

This is a scene.

The spectators outside the field were astonished.

Immediately afterwards.

Many people were shouting in excitement.

“Jiang Fan built the most fearsome weapon of the planes, and for the first time..... met its match.”

Inside the box.

The expressions of Lin Youhe and the others changed.

In the previous matches.

None of the opponents could tackle the missiles head-on.

And these flaming birds.....

It was the first time!

Destroyed a missile head-on!

“Terrifying power.”

Huo Kong looked at this scene, a smile appeared at the corner of his mouth, “If it hit the Flame Birds and Flame Chickens, they definitely wouldn't be able to survive!”

And the side of the Great Desolate Army.

One by one, their faces became a little gloomy.

“These Flame Birds are more powerful than expected.”

Luo Cheng frowned slightly and said.

“Not only that, the key is that they work together very well and are very skilled, like an army.”

Huo Qubing also said.

But the Great Desolate Army would not let this small accident happen.

And changed their strategy.

A warplane above the sky.

Continuing to fire armor piercing missiles.

Three hundred rainstorm warplanes.

They could fire three hundred missiles at the same time!

Learning from this time's lesson.

These three hundred missiles.....were also scattered and divided into different directions.

Aimed at different targets.

Looking at the densely packed missiles.

People couldn't help but get goosebumps.

This was also the Great Desolate Army so far.

The largest number of missiles sent out at the same time.

“Is it coming?”

Huo Kong smiled slightly and directly barked an order, “All Flame Birds, form a fire circle and follow the original plan!”

The words fell.

The remaining flaming birds in the sky.

All of them flew down quickly.

Together with the hundred flaming birds just now.

Five thousand flaming birds formed a dense circle.

The flames all over their bodies were burning.

Looking down from the sky.

Like an enormous circle of fire!

But this circle of fire could move at high speed.

After the formation of the fire circle.

With an amazing speed Towards the shot down armor-piercing missile head-on.

This circle of fire inside.

There were five thousand flaming birds.

Every one of them had turned into a mass of huge flames.

The circle of fire was more than 500 meters in diameter!

Such a large range.

Naturally, it was difficult for the missiles to go around.

Soon.

Two armor-piercing missiles were hit head-on by this huge ring of fire.

No surprise.

Boom! Boom!

Two loud sounds passed.

It directly scrapped these two missiles.

However.

What surprised people was.

These flaming birds were so close.

Detonated by two missiles.

Unharmd.

Still able to form this immense circle of flame.

“What!?”

For the first time, the faces of the high-officials and scholars of the Great Desolate Army changed one by one.

Even if it was in the void –

The group of rank six planet masters who were following this match couldn't sit still either.

Chapter 498 : Energy Weapons! Jedi cards! Mutant race!

“This is.....Flame Bird has evolved?”

A Level 6 Planet Lord stared at the image in the projection and said, “It evolved from a Flame Bird to a Fire Amazing Bird!?”

The other sixth-level planet owners were also a little surprised.

Although the Flame Bird and the Fire Amazing Bird were both super civilized races.

But the difference between them could not be small.

Flame birds were more common.

And the Fire Amazing Bird was rare!

Because

The Fire Amazing Bird was a mutated version of the Flaming Bird.

The strength was even more powerful.

It reached the pinnacle of the super civilized race.

The factor of mutation couldn't be considered, and it was naturally difficult to create the Fire Amazing Bird.

After seeing the violent bombing just now.

Flame bird was fine.

All the bigwigs are also immediately guessed.

These were no longer flaming birds.

Instead, they had mutated into..... Amazing Fire Birds!

The two looked almost exactly the same.

However, the abilities were extraordinary.

The Fire Amazing Bird was able to directly transform its entire body into a flame so that it could fight.

Meanwhile, the Flaming Bird ... could only turn its feathers into flames.

The power was also much weaker.

“No wonder Xinghe said that Huo Kong was the undisputed number one in the Long Sky Star Area.”

A level six planet master marveled, “This Fire Amazing Bird is..... the existence that stands at the very top in the super civilization race!”

“Even those terrifying powers in the Endless Star Region couldn't build it.”

“This Huo Kong is really great.”

Many people were lamenting.

The Flame Bird had mutated into the Fire Amazing Bird.

This was entirely by chance and coincidence.

The key thing was

These five thousand Flame Birds had also all mutated.

This was extremely frightening.

“With these Fire Amazing Birds around, Jiang Fan's most powerful weapon has no place of use.” A level six planet master said, “I'm afraid there's nothing better to do.”

“Jiang Fan didn't lose unfairly.” Another level six planet master said, “No one will say anything when he meets a mutated flame bird.”

“This Huo Kong..... is indeed the number one in the Long Sky Star Area!”

.....

“All warplanes lift off and stay away from these flaming birds.”

On the side of the Great Desolate Army.

Huo Qubing ordered on the spot.

Although he didn't know that these flaming birds were actually Fire Amazing Birds.

But Huo Qubing also saw something was wrong.

“The opposite side has completely turned into flames.”

A scholar quickly reported the results of what he had just observed and said, “Not just the feathers, but the entire carapace is transformed into flames. We speculate that the flame bird may have been upgraded, or it is not a flame bird at all.”

“It is not possible to determine what species the opponent is, but the missile has little effect on these birds that have turned into flames.”

“So that

Luo Cheng asked: “These have become a bunch of energy bodies?” Isn't it the general flame?”

“That's right.”

This scholar nodded and said, “These flames have become not quite the same as ordinary flames because of the extra transcendent energy inside.”

“More powerful and hotter!”

Everyone was a little silent for a while.

The most powerful weapon on their own side was completely disabled.

This was naturally bad news.

“Shrink it up, storm fighters and drone fighters don't go out yet.”

Huo Qubing gave an order.

After a pause, he also said to a group of scholars, “observe these flaming birds to see if there are any weaknesses?”

The crowd looked at them, one after another.

What made everyone a little strange was.

These flaming birds, above the sky, still formed an immense circle of fire.

But it was peaceful and unmoving.

Neither attacked, nor retreat.

Just stopped there.

Didn't know what to do.

Not just the flame bird.

The Flaming Chicken on the ground, too, suddenly did not move.

“Jiang Fan.”

At this time.

Huo Kong's voice sounded in Jiang Fan's ears.

“This flying species I built is called the Fire Amazing Bird, a product of the Flame Bird's mutation, and it's very rare.”

“Fire Amazing Bird?”

Jiang Fan raised his eyebrows.

He recalled it in his head.

Remembered a piece of information he'd read in a book.

Fire Amazing Birds were extremely rare.

And yet really powerful.

Because it was mutated from a Flaming Bird.

This mutation would be purely by luck.

Outsiders could not interfere.

“My luck is considered better. The Flaming Bird that I built has undergone a group mutation.”

Huo Kong continued, “The ability of the Flaming Bird is..... to directly transform into a flame!”

“As you saw just now, these Fire Amazing Birds are not afraid of damage from your kind of terrifying weapons.”

“Because they are a ball of fire right now.”

“Unless you have an ice sealing type of weapon,”

“There is nothing you can do to the Fire Amazing Birds!”

“So...” Jiang Fan smiled faintly and said, “Are you trying to persuade me to surrender as soon as possible?”

“To tell you the truth.” Huo Kong laughed lightly, “This circle of fire from the Fire Amazing Bird won't last long, according to the original plan.”

“Not to attack your planes, but..... those musketeers on the ground!”

“Do you yourself think that once this big circle of fire falls, how many of your musketeers will still be alive?”

“You're very confident.” Jiang Fan said with a calm face.

“I'm very optimistic about you.” Huo Kong smiled and said, “I don't want to bring too many casualties to the musketeers you've built so as not to give you an impact on your match in the loser's bracket.”

“Originally

Huo Kong paused for a moment and said, “I was planning to concede defeat after competing with you, but

“No way, I have not lost until now after awakening to become a planet master.”

“Naturally, I also want to become undefeated!”

“So we can only send you to the loser’s bracket.”

“Heh.”

Jiang Fan didn’t bother to respond.

This ego was too good.

“I’ll give you a minute to think about it.”

Huo Kong’s tone turned bitter and said, “If you don’t surrender after a minute, I’ll have the Amazing Fire Bird unleash a flame attack on your musketeer!”

Jiang Fan wasn’t in a hurry at all.

It was because the Great Desolate Army was in the Yan era.

There had been an exploration of this situation.

It was decades down the line.

Naturally, he was well aware

The essence of a transcendent was that the body contained various extraordinary energies!

Without these transcendental energies.

Transcendents would slide down step by step.

“I guess the spike bullets won’t be of much use.”

Huo Qubing looked at the huge circle of fire in the sky, and said helplessly, “Then we can only use that special weapon.”

This special weapon...

It had been studied by several generations of scholars.

It was specially designed to deal with transcendent energy.

Chapter 499 : The Bullet of Silence! Incredible! Shocking to the entire audience!

“Huo Kong!”

“Huo Kong!”

Inside the vast square of one billion people.

More than half of the audience was chanting enthusiastically!

Especially after seeing that..... Flame Bird could transform into an enormous circle of fire!

This is kind of a legendary thing.

A fearsome and extraordinary species leaping to the pinnacle of super power.

Between super civilizations.

There was also a distinction between strength and weakness.

Like the slime worms and sandworms Jiang Fan encountered before.

They were the weakest super civilization races.

Because of the characteristics of the underground races.

Only barely able to squeeze into the top two thousand.

And the extraordinary species of the melee system such as the Black Flame Giant and the Golden Behemoth.

These were just a little stronger.

On top of that.

It was the peak of the existence of the Flame Bird.

With incredible natural abilities!

“The strength of this Huo Kong..... should be able to rank first among all the contestants, right?”

“Definitely, with just these Fire Amazing Birds, no one can deal with it.”

“Even that princess of the empire, Princess Xiya, is not a match for the Fire Amazing Birds.”

“.....”

One by one, they were all talking non-stop.

Feeling a hint of honor for witnessing this super pinnacle race.

And the audience of the Bei Dou University.

All of them were silent.

At this time.

Even the most supportive of Jiang Fan.

They all saw it too

These Amazing Fire Birds were very restrained to Jiang Fan's Musketeers and planes.

Especially the planes. That was the most terrifying weapon.

Against this circle of fire.

There was nothing good that could be done.

It would be better if it was a melee species like the black flame giant.

By looking at the powerful physique.

Could withstand the scorching of the Amazing Fire.

But this side of Huo Kong.

And there was still the existence of flame chicken.

Kick it down.

The black flame giant couldn't stop it at all!

“The pairing of the two species of land and air was really perfect and powerful.”

The Great Desolate Army's side.

Luo Cheng sighed with emotion.

“Have you all made any discoveries about this circle of fire?”

Huo Qubing asked the scholars beside him.

“There are some discoveries.”

The scholar immediately nodded.

This was a team of 500 scholars.

Each one was an elite among elites.

Even if it was a pile of rakes.

They could also analyze a reason out.

“This ring of fire contains dense transcendent energy, and the temperature is extremely high.”

This scholar reported at a rapid pace, “It can directly ignite the missile.”

“But we found

“The transcendental energy in this ring of fire has decreased slightly after detonating several missiles.”

“That means the missiles will consume the transcendental energy of the fire circle, but this consumption is very tiny.”

“If we continue to bombard with missiles, can we end up consuming this large fire circle?”

Luo Cheng asked.

“That's theoretically true.”

This scholar nodded and said, “But as you can see, to consume this big circle of fire, it is estimated that at least thousands of missiles will have to be used.”

“If the opponent comes down, can our chariot defend against it?” Luo Cheng asked again.

“With the special effects of the alloy, it will definitely be able to defend against it.”

This scholar was very sure and said, “Just..... I'm afraid that it can block two or three times, and the chariot's alloy thick armor will be scrapped.”

“Can we take out these fire rings with fire extinguishing missiles?”

Huo Qubing asked.

A fire suppression missile was.....developed by Xia in recent decades, a missile specifically designed to put out fires!

It did not contain ammunition.

Instead, it contained a large amount of fire extinguishing agents.

These fire extinguishing agents were currently the most advanced.

It could quickly put out the fire.

In the previous kinds of fires.

It was a very effective application.

Especially forest fires.

A fire extinguishing bomb dropped... The fire extinguishing effect was very significant!

This was the research and development of the earth in the previous life.

But the gap was very huge.

“I'm afraid it's not very good.”

This scholar smiled bitterly and said, “If it is an ordinary flame, there is certainly no problem.”

“But..... This is a flame that contains transcendent energy.”

“The effect of fire extinguishing bombs should be there.”

“But it will definitely be greatly reduced!”

“But if you put in a very large number of fire extinguishing bombs at once, it may have a good effect.”

This scholar added another sentence.

“How many fire extinguishing bombs do we have with us?”

Huo Qubing asked.

“Three hundred pieces.”

Luo Cheng also said helplessly, “I didn't expect these flame birds to be so powerful, the fire extinguishing bombs we prepared..... is probably not enough.”

Early in the discussion of the plan.

The high-officials of the Great Desolate Army took the flame birds seriously.

Specially prepared fire extinguishing bombs to extinguish the flames.

But it was completely unexpected.....

This was not a flaming bird.

Rather, it was the more powerful Fire Amazing Bird after mutation.

In this way.

Three hundred fire extinguishing bombs all put down.

There would be some effect.

But overall, it would not have much effect on the Fire Amazing Bird.

“Since that's the case.”

Huo Qubing pondered for a while, and said, “Use the silent missile directly.”

“Silent Missile!?”

The crowd's eyes lit up as they heard this.

This was the Great Desolate Army ever since the Yeon Era.

It had been a secret project that had been developed.

The main purpose was to create a special weapon that could deal with transcendent biological energy attacks!

The initial research and development had not been very smooth.

Until after the birth of the missile.

Especially after the rapid progress of materials science.

This special weapon finally took shape.

People call it – anti-energy weapons!

After several generations of scholars, to improve.

Chapter 500 : The Bullet of Silence! Incredible! Shocking to the entire audience!

Finally, they also made a special missile – the bullet of silence!

This was an extremely terrifying weapon, and the cost was extremely expensive.

Even in the entire Xia Kingdom, there are less than ten pieces in storage today.

This time for the glory conquest.

The Great Desolate Army had brought all ten of them over.

-Bring them on.

It was the equivalent of several houses' worth of money in the capital down the drain.

The most critical thing was.....

This was considered a real secret weapon.

A very important bottom card.

As a last resort.

No one wanted to expose it in advance.

But now

Faced with this sudden and terrifying Fire Amazing Bird, it was also the time for this weapon to make its appearance.

“Attention all warplanes, prepare to cover the first ten warplanes and fire the Silent Missile.”

Huo Qubing ordered in a cold voice.

“One minute is up.”

At this time, Jiang Fan's ears.

Huo Kong's voice sounded again, “What are you thinking? Still not surrendering? I really don't want to cause harm to your musketeers.”

“That's not necessarily true.”

Jiang Fan smiled faintly.

“Are you trying to attack my flame chicken, and then let the flame bird go back to rescue it?”

Huo Kong looked at the movement of a storm fighter within the competition field and said, “That won't work.”

“I'm going to pay the price of a thousand Flaming Chickens this time!”

“In that time, it's enough to crush your musketeers.”

“You're overthinking it. I've also hidden some of my planes' bottom cards, so take a good look at them later.” Jiang Fan ended his call with Huo Kong.

The Silent Missile made by the Great Desolate Army.

Jiang Fan was naturally aware of it.

“In that case, I'm sorry.”

Inside the sparring room.

Huo Kong shook his head, then ordered in a cold voice, “All Fire Amazing Birds, take on the opponent's musketeers on the ground.....Launch a direct attack!”

“At the fastest speed, crush these musketeers!”

“Flaming Chickens get ready in the back and follow the pursuit at any time!”

Phew.....

Five thousand Flamingos let out a vivid hissing sound!

It resounded through the sky.

This huge circle of fire with a diameter of over five hundred meters.

It hovered high above the sky.

It looked down on the smallest warriors of the Great Desolate Army underneath.

A mass of amazement fire was blazing.

Like a red sun, illuminating all around.

The air seemed to burn.

Hoo.....

The enormous circle of fire charged from the sky.

With an extremely amazing and terrifying speed..... swooping down!

And at this time.

Above the sky.

Higher up, at the bottom of a storm fighter.

A special missile revealed its head.

This missile was none other than the Bullet of Silence.

But from the looks of it.

And other missiles... not so different.

The appearance and size are almost exactly the same.

This was also to better confuse the opponent.

Whoosh.....

This bomb of silence instantly broke through the air.

The target was naturally this enormous circle of fire below.

“Hmm?”

Huo Kong, who had been paying attention to the storm fighter, raised an eyebrow.

There was some uncertainty.

This is kind of a moment.

Jiang Fan's side had actually fired this terrifying weapon again.

Yet the number was only one!

What made him even more puzzled was this.

The target of this weapon was not the flaming chicken on the ground.

Instead, it was headed straight for the circle of fire.

“Fire Amazing Bird, don't worry about anything else, just keep attacking the opponent's musketeer.”

The corner of Huo Kong's mouth couldn't help but curl up into a smile.

He was certainly clear.

After the detonation of the weapon on the other side.

It would consume some of the energy of the fire circle.

But it was only some.

Simply insignificant.

Hoo!

The enormous ring of fire was still swooping down.

But the speed of the Silent Missile was even faster.

It came to over two kilometers per second in an instant.

Because of the special material, it was still slower than the speed of the armor-piercing missile.

But it was not comparable to the Fire Amazing Bird.

Just a moment later.

The Bullet of Silence had reached the sky above the huge fire circle.

Just when the people watching the battle thought that.....

This missile was going to be ignited by the Amazing Fire again.

The next moment!

A surprising scene happened.

This missile actually opened an opening.

From it, a fist-sized metal cylinder was released.

These metal cylinders

As soon as they came into contact with the air.

Opened directly.

Like a curled up fan spread out in layers.

Formed an enormous round shaped lid.

And like a fist.

Suddenly opened up into a bushel-like palm.

Whoosh, whoosh, whoosh.....

Metal cylinders kept falling down from inside the missile.

One after another.

An endless stream!

-Eyes look over.

There were at least a hundred of them.

This is also the study of scholars borrowed from the delivery method of “cluster bombs”.

They launched these metal cylinders as missiles.

Inside a missile.

There were 500 of these metal cylinders.

The main raw material

Naturally, it was the most effective against energy vibranium!

In the opinion of many scholars.

Vibranium was the metal.

They had always used it as a variety of alloys.

But far from playing its greatest role.

Vibranium itself was the most powerful place. It could absorb all kinds of energy.

Even the transcendental energy was also the same.

But the amount of absorption was limited.

Therefore!

There were many scholars trying to find ways.

To create a special.....anti-energy weapon around Vibranium!

This research group.

It started from the era of Yan.

Until the previous twenty years, there was some progress.

Its key lied in

How to purify or upgrade the vibranium!
