

## One Planet 501

Chapter 501 : The Bullet of Silence! Incredible! Shocking to the entire audience!

Relying solely on the current original vibranium.

That was far from the effect that the people wanted.

And this purification was not so easy.

It required an extremely complex process and very much manpower and material resources!

So the Great Desolate Army only made ten pieces.

Don't just look at the fist-sized small metal cylinder.

But the cost of each cylinder was more expensive than an armor-piercing missile!

This bullet of silence dropped.

Seeing Huo Qubing and the others felt painful.

If not forced to do so.

He didn't want to use this at all.

Above the sky.

Five hundred metal cylinders turned into a twenty-centimeter diameter round claw.

Dense!

It was black and dense.

But compared to the enormous ring of fire with a diameter of over 500 meters below.

It was completely insignificant.

There was no comparison at all.

Whoosh sound.

Five hundred round claws flying down.

Huge fire circle simply could not dodge.

And didn't want to hide either.

Looking at these strange round claws.

Huo Kong frowned slightly, feeling that there seems to be something wrong.

But he also did not think too much.

Watching the round claws at a very fast speed.....

Closer and closer to the circle of fire.

Finally, there was a collision.

Snort! Snort! Snort! .....

The moment the round claw and the huge fire circle came into contact.

An ear-piercing, burning sound was emitted.

This was the normal phenomenon of an object touching the Amazing Fire and thus being ignited by the Amazing Fire.

The previous missile was also like this.

Only!

This time it was different.

After the burning sound, that rose and fell.

The part of the fire circle that touched the round claw.....

Amazing fire actually instantly became much smaller.

Five hundred round claws.

Gathered to bombard the middle part of the fire circle.

Directly in the center of the enormous circle of fire..... To instantly dissolve a large piece!

The original blazing flames.

At this point, there was nothing left.

Only a few faint wisps of unseemly small fires remained.

This was naturally because the round claw directly absorbed the energy in the fire circle.

Let the whole huge fire circle.

It looked strange.

The flames outside are still burning.

But inside is a trace of small flames.

Hiss.....

These small flames let out a hiss.

With that.....it changed back into the appearance of the Fire Amazing Bird itself!

The look was very depressing!

After the transcendental energy was absorbed, the Fire Amazing Bird couldn't continue to maintain its Amazing Fire form!

“Silent Bullet Attack.....Effective!”

An elderly scholar excitedly shook his fist and shouted.

The others were also beaming with joy.

This was the most expensive of the expensive, anti-energy weapons that made even Huo feel very painful.

If it didn't work anymore.

Then it would really give people a headache.

“This.....This.....”

On the other hand, Huo Kong's face was not so good.

The eyes were wide open.

Completely unable to believe what he just saw.

These hundreds of tiny metal cylinders on the other side.

How could they break the huge fire circle that he was so proud of?

Wow!

Inside the huge square.

There was even an uproar.

At the sight of the huge fire circle towards the musketeers.

Everyone felt that Jiang Fan was going to be finished.

Lin Youhe and the others were even more nervous.

But it was completely unexpected.....

Just one missile.

It solved this problem.

It instantly made the huge fire circle melt away.

“What is this.....What kind of weapon?”

Huo Kong's urgent voice rang out in Jiang Fan's ears.

There was a hint of amazement and curiosity in his tone.

“It's specifically for dealing with energy.”

Jiang Fan didn't say too much.

“Anti-energy?”

Huo Kong's gaze faintly stared, then shook his head and said, “This fight, you're more skilled than me, I concede defeat! Let's have it again next time when we have the chance.”

“I'll see you in the main event of the Group Star Competition, Jiang Fan!”

“See you in the main competition.”

Jiang Fan smiled faintly.

He also knew that .....

With Huo Kong's strength.

Even if he made it to the loser's group.

It could definitely kill its way out easily.

Huo Kong then pressed the quit button.

“In this matchup, player Huo Kong conceded defeat and player Jiang Fan won the.....Victory!”

“Congratulations to Jiang Fan, for making it to the top 500 in the winner's bracket, and also for obtaining the 1,000-person qualifying spot in the Sky Star District qualifier!”

The pleasant woman's voice sounded loudly.

There was silence in the vast square.

Then .....

An unprecedented roar erupted.

“Jiang Fan!”

“Jiang Fan!”

-Everyone was shouting.

Whistles and shouts were rising and falling.

The entire scene was a blast!

Not only the people from Bei Dou University but also the spectators from every other region.

All were shouting Jiang Fan's name.

“Won!” Haha, I can't believe I won!”

Lin Youhe and the others were shocked and happy.

Still a bit overwhelmed by the reaction.

After five hundred round claws dissolved the circle of fire.

Huo Kong quickly conceded defeat.

This process was really too fast.

Even.....

Few people saw clearly just what happened.

But no one cared that much anymore.

All were celebrating wildly for Jiang Fan.

Especially the people of Bei Dou University.

Unprecedented effort.

This was not just a simple game.

The opponent was a genius whose actual strength ranked first in the Long Sky Star Area!

“No way, this actually..... won?”

Around Su Jicheng.

A school leader said in surprise.

Others also had some disbelief on their faces.

“Just now ..... What weapons are those metal cylinders?”

Someone asked the key.

“I don’t know.”

Su Jicheng shook his head and then laughed, “Whatever weapon it is, as long as you win.”

The group of leaders and teachers were very happy.

The excitement was overwhelming.

There was no need to hide it.

After this battle was over.

Jiang Fan was already sure to get a qualifying spot out of the tournament.

Next, He could go to the Council of Stars... to participate in the final main event!

But not everyone was happy.

Certain people’s faces were a bit more ugly at this point.

Chapter 502 : Stirring the Star Area! Advance to the main event! A new journey!

“No way. Can you lose this too?”

“This is a top ten ranking in the entire Long Sky Star Region, creating two powerful super species, the Flaming Chicken and the Fire Amazing Bird, both on land and in the air, especially the Fire Amazing Bird, or the pinnacle of super civilization ! So many cards.....but still lost!?”

Beside Ao Xiong, a school leader said in a very shocked tone.

Although it had been a while since the end of the game.

But Ao Xiong and other people still couldn't believe it.

The prince had easily defeated his opponent.

After, steadily getting a right to play.

These people were still very happy.

Smiles all over their faces, springing to life.

The next moment.....

Immediately watched the match between Jiang Fan and Huo Kong.

Ready to see with their own eyes how Jiang Fan was ruthlessly abused by Huo Kong.

To add joy to joy.

The result!

Turned from joy to sorrow!

Huo Kong's strength was all out.

The Fire Amazing Bird was revealed.

Just wanted to defeat Jiang Fan with crushing power.

But in an instant .....

The first thing that happened was that Jiang Fan turned the tables on him!

The speed was so fast.

Many people could not react.

Including people like Ao Xiong.

All of them had complex expressions now, mixed with a bit of bewilderment.

“Damn it! This Huo Kong is too useless. He can't even solve a freshman.” Li Zihao said hatefully, “What a vain reputation to be called the number one person in terms of strength?!”

“Is this Jiang Fan so demonic? Even Huo Kong can't solve it?” Wang Yiteng also felt a bit incredulous.

The first few battles were fine.

Jiang Fan's opponents were not considered very strong.

The strongest one was only Hess of Giant Island.

But the ranking was only about two hundred.

Didn't look down upon by everyone.

And the last round with Huo Kong.

After showing the bottom card of the Fire Amazing Bird.

Considered by many level six planet owners outside ..... the most powerful person in the Long Sky Star Region!

Now he was defeated by Jiang Fan too?

“This is still just the Long Sky Star Area's qualifier. It's nothing to get out of the line.” Li Zihao reassured himself, “It's only when you have an outstanding performance in the main competition of the Group Star Competition.”

Several leaders and teachers next to each other looked at each other.

This time .....

There were no more following words.

They were very clear.

What Jiang Fan's defeat of Huo Kong meant.

In terms of true strength.

I'm afraid it has surpassed the Crown Prince!

In other words.

The crown prince's original nail-biting position as the successor of Bei Dou University..... was now unstable!

This made the crowd feel a little ridiculous.

A freshman who had just awakened to the planet less than a year ago.

How could he have grown so much?!

-A piece of void.

The sixth-level planet masters were also congratulating the blue-clothed old man from Bei Dou University.

This time, the qualifiers.

Bei Dou University had become the biggest winner among the thirty-six super-class academies.

Two people made it to the top 500 in the winner's bracket.

-One was the Crown Prince, and the other was Jiang Fan.

“A fluke, a fluke.”

The blue-clothed old man smiled.

“Hahaha.”

The sixth-ranked planet master of the Xinghe Academy across from him laughed, “It's been a long time since I've seen you so happy, Bei Dou.”

“Can't you be happy?”

A rank six planet master next to him said, “If my school's scholars were this outstanding, I'm afraid I would just burst out laughing.”

“A prince and a Jiang Fan.”

The old man in the blue next to the blue-clothed old man spoke: “This is really a trouble of happiness.” Both of them are very good, but there can only be one successor!”

“Bei Dou you're going to have a headache.”

“What's there to have a headache about?”

The sixth-level planet owner just said with a smile: “It must depend on the results of the main competition of the Stars Contest. Whoever is better will be the one. By the way, you all... who are you more optimistic about?”

“From the current situation.”

A sixth-level planet said: “Jiang Fan defeated Huo Kong, who many people think is the most powerful. This should be stronger than the prince.”

“It's still hard to say.”

There was also a planet master who objected: “Huo Kong was restrained to the ability of the Fire Amazing Bird this time, don't forget that the Crown Prince is also a top ten demon, and the gap between the top ten and each other isn't that big.”

“You still subconsciously underestimate Jiang Fan because of his status as a freshman.”

The old man in green shook his head and laughed: “Jiang Fan has refreshed our perceptions repeatedly along the way.”

“It shows that this little guy is just so powerful. If there's nothing unexpected, the Crown Prince can't compete with Jiang Fan!”

“I'll reserve my opinion.”

The planet master in front said, “I still think that races with obvious strengths and weaknesses like musketeers and planes can't go too far!”

Inside the rest hall.

Jiang Fan, who had been teleported back.

For the first time, he received the attention of the crowd.

Everyone's eyes.....

Almost at this time.

They were all staring at Jiang Fan's body.

Immediately after.

-The sound of murmurs rank out.

“Jiang Fan from the Federal's Bei Dou University? The strongest freshman this year? Is there such a demon? Even Huo Kong was defeated by him!

“I watched the match just now, and Jiang Fan's special weapon defeated Huo Kong.”

“That’s also a loss. Even if this factor is put aside, the brand-new race pilot created by Jiang Fan is quite terrifying. It should be the race with the highest long-range output in this qualifier, right?”

“It should be that even the races created by other top 30 players don’t have such terrible firepower.”

“This strength is certainly in the top ten without a doubt. Maybe Huo Kong is overrated.”

“.....”

Many people were talking.

A freshman killed to this point.

It surprised many people.

“He’s the one Elu always talks about ..... The strongest freshman this year, Jiang Fan!”

Close to Jiang Fan.

There was a long-skirted woman with a noble and elegant temperament sitting.

At this moment, she was looking towards Jiang Fan's side.

This one .....

There wasn't a single person in the hall who didn't know her.

It was the famous Imperial Princess Xi Ya.

She was also the only one ranked in the top ten of the contestants sent out by the empire.

Chapter 503 : Stirring the Star Area! Advance to the main event! A new journey!

It was recognized that the strength could compete for the strongest in the entire Long Sky Star Area!

"I didn't expect that besides Chang Feng and Huo Kong, I would have another opponent." Xi Ya looked at Jiang Fan and thought to himself.

After finishing the tournament.

There was still the loser's bracket tournament.

Therefore, the crowd still had to stay in the rest hall.

After all the matches were over.

Only then could they leave.

The loser's bracket matches also started soon.

By this final round.

It had revealed the strength of each contestant before.

Who was strong and who was weak.

We all had a number in our hearts.

There was no suspense in the loser's bracket.

There couldn't be any surprises.

One by one, the stronger.....

All finally got a place in the line.

Especially Huo Kong, who was defeated by Jiang Fan.

It seemed to be a fire that had been suffocated.

Less than a minute.

It took out the opponent.

After an hour, all the matches were over.

Up to this point!

The Group Star Competition Long Sky Star Area Qualifier ended!

They officially released one thousand outgoing places!

These one thousand secondary planet masters.

They would also represent the Long Sky Star Region.

They would go to the headquarters of the Star Council.

To participate in the next main competition of the Group Star Competition!

“Jiang Fan, at the Group Star Competition, let's have another match!” Huo Kong walked over and said to Jiang Fan.

There is a trace of fanatical fighting spirit in his eyes!

The defeat against Jiang Fan just now.

It didn't bother him for long.

Instead, it inspired the fighting spirit in his heart!

“Good point.”

Jiang Fan smiled faintly.

“Next time.....”

Huo Kong paused for a moment and said, “I won't be careless again!”

The two also exchanged communications.

After everyone's match was over.

They were teleported back to the place where they came from.

Back to the villa.

Jiang Fan was just exhaled.

Then he found out .....

There was light blooming outside.

Looked outside.

It was the entire sky above the stars.

There were countless little stars twinkling.

Brilliant and fascinating!

Immediately afterwards, an old voice rang out in the minds of the crowd-

“Congratulations to our school's two players, Jiang Fan and Prince, who have won spots in the Long Sky Star Region qualifiers, and congratulations to them on the next main competition of the Group Star Competition.....Get good results.”

“Jiang Fan and Crown Prince?”

Hearing such a name.

In a villa.

Ao Xiong and the others looked a little unhappy.

In front of them.

There stood the Crown Prince, who had just teleported back.

As soon as the match was over.

Ao Xiong hurriedly came to the Prince's villa here.

Ready to discuss countermeasures.

But unexpectedly.

The Spirit of the Planet had already made a preliminary decision.

Jiang Fan's name was ranked before the Crown Prince's.

“No harm.”

The crown prince, however, his face remained calm and said, “No matter how Jiang Fan performs, as long as I rank higher than him in the main event.”

“But.....”

Ao Xiong hesitated for a moment, and said, “There are rumors out there that Jiang Fan's strength is at least five for one, while you, Crown Prince, are only in the fifth to tenth place.”

“I'm aware of these rumors, so you guys don't have to worry about it.”

The prince smiled slightly and said, “I might as well tell you I haven't shown my true strength in the previous competition.”

“No. 1 in Long Sky Star Area?”

The crown prince shook his head, a trace of disdain flashed in his eyes, and said: “My goal is...the top one thousand in the entire Endless Star Field, these people, Imperial Princess Xi Ya, Chang Feng, Huo Kong, including Including Jiang Fan, are not my opponents to consider.”

Hearing the words.

Ao Xiong and the others opened their eyes wide at once.

Showed a hint of joy!

If the always calm-hearted prince said this.

Then .....

This matter should be stable!

After the Long Sky Star Area Qualifier.

There are only seven days of rest.

They would soon embark on a journey to the headquarters of the Council of Stars.

To participate in the main competition of the Group Star Competition held there.

But the real time left for a thousand qualifying players...is just one day!

-Days later.

It was to head to the Long Sky Region to meet up.

Because the representative was the Long Sky star Region.

So the Lord of the Long Sky Country would conduct a five-day temporary training session.

Of course.

This was not mandatory.

But there was no one who would not go.

Jiang Fan was naturally the same.

From Bei Dou University to the Long Sky Kingdom.

That was a very long way to go.

This time .....

But it was personally led by a level six planet master blue-clothed old man from the Bei Dou University.

The ship that the blue-clothed old man took was naturally the most advanced.

The speed was not that very fast.

It was almost like traveling through space.

After bidding farewell to Su Jicheng, Lin Youhe and others.

Jiang Fan stepped on the ancient-looking airship.

The volume was not big.

But inside was a different heaven.

It was a spatial treasure.

As far as the eye could see.

It was an idyllic scene with a beautiful environment.

Jiang Fan couldn't help but curiously look at it a few more times.

Although he didn't know the market price of the airship, Jiang Fan was able to roughly judge.

Such an airship with its own space.

Definitely able to buy an ordinary university!

At the side of a lake.

There was a small pavilion standing.

Inside the pavilion.

An old man in blue was sitting there.

Who could it be other than the powerful existence of Bei Dou University?

“Here you are. Come and sit down.”

The blue-clothed old man beckoned towards Jiang Fan and the Crown Prince.

The prince took the lead and walked over.

He sat across from the blue-clothed old man.

Jiang Fan smiled faintly.

Didn't care in the slightest.

He also walked to the pavilion.

Casually, he sat down.

“Bei Dou University is a long way from the Long Sky Region, and even for my airship, it would take several hours to get there.”

The blue-clothed old man laughed, “You guys wait well, and drink the tea here.”

The prince didn't move a muscle.

Jiang Fan, however, was casual.

He poured himself a cup of tea and drank it.

“It tastes good.”

Jiang Fan's eyes lit up slightly.

Immediately, he knew it was a good thing.

The airship was flying fast.

-On the way.

The old man in blue had little to say, just explained some very basic things.

Chapter 504 : Stirring the Star Area! Advance to the main event! A new journey!

Jiang Fan drinks a lot of tea.

After a journey of over five hours, the airship finally slowed down.

It slowly stopped and landed.

Long Sky Region.....Arrived!

The airship door opened.

The old man in blue let Jiang Fan and the Crown Prince both go down.

But what was puzzling was this.

The blue-clothed old man himself was not moving.

“Level six planet masters rarely enter other people's planets.”

The blue-clothed old man explained with a smile.

Jiang Fan instantly understood.

Turning around, he looked ahead.

There was a translucent light door that breathed an unearthly aura ahead.

It was somewhat similar to the school gate of Bei Dou University.

Jiang Fan knew.....

This should be the entrance to the planet of the Lord of the Long Sky!

Waiting for Jiang Fan and the Crown Prince to enter the light door.

In the ear of the old man in blue, an old voice sounded. Who is it if not the spirit of the planet?

But it was not the complete spirit of the Planet.

Rather, it was a replica created by the old man in blue with powerful means.

“These two are excellent. Jiang Fan says nothing. I think the prince still has some cards left. Who will you choose as the successor?”

The Spirit of the Planet asked.

“Let's see how the two play in the main event. Whoever wins will decide.”

The old man in blue rubbed his brow and laughed, “I never thought that I, Bei Dou, would one day have such happy troubles.”

After walking into the light door.

It opened up in front of his eyes.

An immense square appeared.

But this square was very antique.

They paved the ground with bricks and stones that showed signs of age.

In front of the square.

A tall palace was sitting and standing.

“An ancient divine palace obtained by chance by the Lord of the Long Sky Kingdom?”

Jiang Fan scanned these tall palaces.

Some stories about the Lord of the Long Sky Country came to his mind.

After looking at them for a few moments.

Jiang Fan turned to the near front of the square.

There were already quite a few out-of-line people here.

One by one, they gathered in groups of three or five.

Talking to each other.

“Jiang Fan, you're here.”

A voice rang out.

Jiang Fan turned his head to look.

Who could it be other than Huo Kong?

Huo Kong walked over with a smile on his face and said, “I've been waiting for you for a long time.”

“I almost forgot.”

Jiang Fan also laughed, “You're from the Long Sky Kingdom. So this time, you probably... have a big reputation?”

“It's just a false reputation.”

Huo Kong shook his head and said, “It's not even crucial.” If you don't play well in the main event, it's useless to have a big fame.”

“That's right.”

Huo Kong lowered his voice and said, “I heard something that has to do with the prince of your school.”

“Oh?”

Jiang Fan looked at Huo Kong.

“That crown prince of your school should have hidden his strength. He once had an adventure.”

Huo Kong's face was gloomy and said, “So what about..... Be more careful.”

“Who still doesn't have some bottom cards?”

Jiang Fan smiled and said, “In the end, strength is king.”

Huo Kong still wanted to say something.

Then he saw a gray-clothed old man walked out.

Although this gray-clothed old man was small and thin.

But the aura was extremely powerful.

It made the voices of the people who were talking fell silent.

“A level six planet master?”

Jiang Fan took one more look.

This was a powerful figure that was hard to see in other places.

Yet here it seemed like an ordinary existence.

The gray-clothed old man swept a glance at the crowd and said, “Everyone is here, so all follow me.”

Finished speaking.

The gray-clothed old man walked in front.

Jiang Fan, Huo Kong, and a thousand others out of the line followed behind.

Soon .....

They came to a palace that was immense.

At the top of the palace.

Standing there is a middle-aged man with an astonishing aura—the Lord of the Long Sky Kingdom!

It was also recognized as the most powerful planet lord in the Long Sky Star Area!

“All of you are the most demonic and powerful second level planet master of my Long Sky Star Region.”

The Long Sky Kingdom Lord scanned the crowd underneath and his voice boomed, “But .....

“To the entire Endless Star Region, you guys are nothing yet!”

“This time the main competition of the group star competition.”

“Except for Changfeng, Huo Kong, Jiang Fan, Xi Ya and a few others, everyone else has little hope!”

Hearing that.

Everyone couldn't help but frown slightly.

This sounded very uncomfortable.

As the Lord of the Long Sky said.

One thousand people were from billions of second-level planet masters.

After a heavy test to kill out!

None of them were weak!

Everyone thought they were not weaker than others.

“I know you guys are upset.”

The Long Sky Kingdom Lord looked at the crowd and said, “But that's the truth. You want to go further. These next few days are your last chance!”

“I will train you all strictly.”

“If anyone is unwilling, they can also quit without forcing it!”

No one made a sound.

A thousand people who came out of the line had come here.

Naturally, they were ready to receive this intensive training.

“Very good.”

The Long Sky Kingdom Lord nodded slightly and said, “Next, each of you will take a short rest, and the training will start immediately!”

Waiting for the crowd to leave the main hall.

Huo Kong immediately said to Jiang Fan: “Jiang Fan, wait, you must be prepared, this kind of training... you have to practice until you vomit.”

“Practice until you puke, so exaggerated?”

Jiang Fan asked.

“I’m afraid it’s even more exaggerated than you think.”

Huo Kong smiled mysteriously and said, “You’ll know later.”

The truth was really as Huo Kong had said.

Just half an hour later.

One thousand people were brought to another vast palace.

And began the “devil” like training.

Basically .....

It was like the Sea of Questions tactics in the previous life.

An extraordinary race oneself had continuously created.

Fight against the extraordinary creatures sent by Long Sky Star Kingdom.

But each time.

They were all different opponents.

Jiang Fan didn't refuse either.

Many of the transcendent races here.

It was difficult to encounter normally.

It was an excellent opportunity for the Great Desolate Army to hone their skills in actual combat.

After five days of this brutal and intensive actual combat exercise.

Only then did the training end.

One day of rest time remained.

Afterwards .....

Under the personal leadership of the Lord of the Long Sky Kingdom, the one thousand demons who came out of the line.

Then it was time to set out on the road to the headquarters of the Group Star Council!

## Chapter 505 : Big Brother's Surprise! Arrival at the headquarters! Endless Heavenly Pride!

The five-day-long high-intensity intensive training.

Indeed, as Huo Kong said, they practiced until vomiting!

But it wasn't the individual planet masters that threw up.

Rather, it was the transcendent species created by the planet owners.

Even with the powerful physique of the transcendent creatures, they could not bear such a horrible high intensity combat exercise.

All of them were very tired, except for the Great Desolate Army.

Jiang Fan was able to invest a large amount of origin power.

Speed up the flow of time.

Let the Great Desolate Army have plenty of rest time.

And the current number of the Great Desolate Army itself..... had reached one million.

This was the result of the latest expansion of the army.

Every time 100,000 people come up to receive the trials and tribulations.

There was no question of fatigue at all.

A short period of five days.

The strength of each transcendent race, naturally, could not be significantly improved.

But the most important thing was to face different opponents.

Practical combat experience could easily rub off on it.

This was also a point that many planet owners lacked.

After all .....

The next opponents were demon heavenly pride from all parts of the endless star field.

Whether it was strength or experience.

Most were stronger than them.

Although they didn't want to admit it.

But the crowd was very clear.....

Long Sky Star Area in the entire endless star field.

The ranking was relatively backward.

In the past group star competition, the Long Sky Star Area didn't get any good results.

After five days of training.

The last day was a holiday break.

The crowd was also relaxing a little.

Jiang Fan was led by Huo Kong.

Visiting one of the huge divine halls here.

“Hmm?”

Suddenly.

Jiang Fan sensed something and turned his head in the direction of the entrance.

The others also turned their heads.

And saw .....

A middle-aged man in black, accompanied by the gray-clothed old man from before, was walking towards the inside.

The aura on his body was very powerful.

“This is .....

Huo Kong's eyes instantly widened and said, “Someone from the Group Star Council!?”

“Someone from the Group Star Council?”

Jiang Fan was also looking at this middle-aged man in black.

“It should be.”

Huo Kong nodded, and said: “I guess they are here to pick up those of us who have qualified for the qualifiers of the Long Sky Star Region, you know...”

“The headquarters of the Star Council is very, very far away from our Long Sky Star Area!”

“Without the airship provided by the Star Council, even the country lord's airship will take a long time to arrive.”

“By that time .....

Huo Kong laughed and said, “I'm afraid that the yellow flowers are getting cold.”

Inside the huge divine hall.

The Lord of the Long Sky Kingdom stepped forward quickly.

Greeting the middle-aged man in black, he respectfully said, “Senior brother, you're here.”

This black-clothed middle-aged man was the elder brother of the Lord of the Long Sky Kingdom

Because of this layer of relationship.

That was why the Group Star Council had sent the middle-aged man in black over this time.

The black-clothed middle-aged man nodded slightly and surveyed the Lord of the Long Sky Kingdom and smiled, “Not bad, you are here as the country lord, this is a truly comfortable life.”

“Freedom is a bit free.”

The Lord of the Long Sky Kingdom smiled helplessly and said, “But the strength has not improved much. The resources in this place are completely incomparable with the headquarters.”

“Each has its own benefits, maybe one day, you will get a strange encounter.”

The middle-aged man in black laughed and said.

“Haha, let's not talk about that.”

The Lord of the Long Sky Kingdom also laughed: “Senior brother is well-informed at the headquarters, but he knows that this time..... situation of the other second level planet masters in each star area?”

“Knowing is knowing something.”

The middle-aged man in black nodded and said, “In this year's Group Star Competition qualifiers, many demons have emerged from almost every star area!”

“In terms of overall quality, it's higher than all previous years, so.....” The middle-aged man in black looked at the Lord of the Long Sky Kingdom and said, “Senior brother, you have to be mentally prepared.”

“I thought that some players from our star area could squeeze into the top 1,000 this year.” The Lord of the Long Sky Kingdom lamented, “I didn't expect that the outside would be so terrifying.”

“Oh? Your star area also has demons who can squeeze into the one thousand this year?” A hint of interest flashed in the eyes of the middle-aged man in black.

“This is all judged based on previous years. Come on, let me show my brother a few evildoers in our Sky Star Region.”

The Lord of the Long Sky Kingdom immediately put out a projection.

Inside these projections.....

It was the information of the four people, Chang Feng, Huo Kong, Jiang Fan and Xi Ya.

“These four people..... are the four strongest in your Long Sky Star Area this year?” The middle-aged man in black asked after taking a look.

“For now, yes.” The Lord of the Long Sky Kingdom responded, “I just don't know if the others are hiding their bottom cards.”

“This Chang Feng and Huo Kong were personally trained by you, right, senior brother?” The middle-aged man in black laughed, “At a glance, I know that they have your style.”

“As expected of your wisdom.”

The Lord of the Long Sky Kingdom smiled.

“These two are good, especially this Huo Kong.”

The middle-aged man in black looked at the projection and nodded slightly and said, “Surprisingly, he was able to create a mutated Fire Amazing Bird, with the ground race Flame Chicken, quite balanced, nothing weak, it’s easy to go farther in the main competition.”

“It is estimated that the top two thousand is expected!”

“Only the top two thousand?”

The Lord of the Long Sky Kingdom was somewhat dissatisfied.

“Didn’t I just say that this year’s edition has produced many demons, more than any previous edition.”

The middle-aged man in black laughed: “As for exactly how much more, the older brother can inquire about it when he has time.”

“It’s indeed a bit of a pity, this Huo Kong should be able to squeeze into the top one thousand if placed in previous sessions.”

Chapter 506 : Big Brother's Surprise! Arrival at the headquarters! Endless Heavenly Pride!

Hearing that, the Lord of the Long Sky Kingdom sighed helplessly.

Then he said, “What about the other two?”

“This Xi Ya is from your side of the Star Area Empire, right? The races built are also very balanced, but there is no strong point, it is estimated that the top 10,000 are difficult.”

The middle-aged man in black judged.

The Lord of the Long Sky Kingdom nodded slightly.

There was no doubt.

As someone who had participated in the last group star competition.

The Lord of the Long Sky Kingdom knew something about this tournament.

The race lineup created should not only be balanced.

There should also be an explosive point!

That was a powerful output.

Otherwise, you could only be passive and beaten.

“As for this Jiang Fan...”

The middle-aged man in black's gaze rested on Jiang Fan's profile, the corners of his mouth revealed a smile and said, “It's a bit interesting, creating what is actually an unprecedented brand new race of Musketeers and planes.”

“These two races are very peculiar, even though I'm considered to have seen a lot, I've never seen anything like this.”

The middle-aged man in black exclaimed in wonder.

“Huo Kong was defeated by Jiang Fan before.”

The Lord of the Long Sky Kingdom added.

“Oh?”

The middle-aged man in black was somewhat surprised, “These two races were actually able to defeat the Fire Amazing Bird?”

“It seems like the opposite side has a special weapon that restrains the Fire Amazing Bird's Amazing Flame.”

The Lord of Long Sky Kingdom paused for a moment and added, “This Jiang Fan is also a new student this year.”

“A new student?”

The middle-aged man in black was slightly startled, then asked, “You said this Jiang Fan..... just successfully promoted to the second level?”

“That's right.”

The Lord of the Long Sky Kingdom nodded and said, “It's been less than a year since he awakened to the planet.”

“Your Long Sky Star Area has actually produced such a demonic genius this year.”

The middle-aged man in black sighed in admiration, then said with some regret, “It's a pity, if this Jiang Fan could have been born a few years earlier, a year or two would have been good, this time the group star competition not to mention the top one thousand, the top one hundred would have been possible!”

After a pause, the middle-aged man in black added: “I didn't expect that there would be suspense in this year's battle for the strongest freshman?”

“Brother, what do you mean... are there still freshmen who can compete with Jiang Fan this year?”

The Lord of the Long Sky Kingdom asked.

“That's natural.”

The middle-aged man in black smiled and said: “The Endless Starfield is so big, some forces even have to be a little bit afraid of the Star Council, and the planet masters they cultivate are more monstrous than each other.”

“Another very important point is...”

“They have many, many treasures that can promote faster growth of the planet.”

“This year, there is an unrivaled demon in the Tianxing district, and he squeezed into the top ten of the Tianheng qualifiers as a freshman!”

“Top ten!”

The Lord of the Long Sky Kingdom was also stunned by what he heard.

The Heavenly Constellation Region was not a small place like the Long Sky Constellation Region.

It was the entire Endless Star Region.

It was a huge thing that could be ranked in the top!

Not to mention the top ten.

The top 100 planet owners were all more terrifying than one another.

“I thought that one was definitely the strongest freshman this year, and might even challenge the strongest in history a bit, but I didn't expect.....”

The middle-aged man in black took another glance at Jiang Fan's profile and said, "Your Long Sky Star Area has likewise produced such a demon!"

"It's still a brand new race that was built, which is the rarest of all."

"I'm now looking forward to the meeting of these two at the Group Star Competition."

.....

After a day of rest.

One thousand out of line.

Under the personal leadership of the Lord of the Long Sky Kingdom.

embarked on the road to the headquarters of the Star Council.

This time .....

The transport that was taken was very huge, shaped like a bright star-like spaceship.

After the introduction of the Huo Kong.

Jiang Fan was also aware of it.

This ship was the one that the Group Star Council had sent specifically to transport them.

"The person sent from the council headquarters this time is the senior brother of the Kingdom lord."

Huo Kong told Jiang Fan about the not-so-secret secret.

“The Lord of the Kingdom was the winner of the last group star competition and later worshiped a councilor as his master.”

Huo Kong then said, “So.....When the Lord of the Kingdom came back later to establish the Long Sky Kingdom, that's why it went so smoothly.”

“An important reason lies in this.”

“We participate in the group star competition. If the ranking is high, there is a high probability of being able to join a member of parliament.”

Huo Kong said expectantly, “That's a high-ranking, powerful member of parliament!”

“A single word can decide the fate of a great power.”

“There's no hope if you're ranked low?” Jiang Fan asked.

“That's not true.”

Huo Kong explained, “There have been some in past years where those with low rankings have been looked at by certain councilors, but the odds of that are very low.”

“So.....”

Huo Kong raised his tone a little and said, “It’s best to kill the top one thousand!”

“As long as it’s in the top 1,000, there will definitely be a member teacher. Even if no member is interested, the council will take the initiative to arrange one.”

“But it’s hard.”

Huo Kong shook his head and sighed: “Hearing some inside information, this time the qualifying round, there are more demons in every star area than in previous years!”

“Originally I thought I had a chance for the first thousand, but now ..... I’m afraid it’s not easy to say.”

“.....”

-On the way.

Huo Kong did give Jiang Fan a lot of hidden secrets about the Group Star Competition.

Rather, it made this long journey seem less boring.

Although the ship was provided by the Star Council.

But because the Long Sky Star Area was... too far away from the headquarters of the Star Council.

Chapter 507 : Big Brother's Surprise! Arrival at the headquarters! Endless Heavenly Pride!

This road trip still took over three days.

During these three days.

Besides chatting with Huo Kong from time to time.

Jiang Fan also didn't forget to adjust the flow rate of the Blue Star.

Plus the previous seven days.

Several more years passed on the Blue Star.

Huo Qubing has also reached the age of retirement.

But he was still holding on.

Getting ready to carry this old bone through the end of the Glorious Conquest.

The Great Desolate Army expanded to one million people.

Half a million of them were regular troops.

The other half a million were in reserve.

Because the Bullet of Silence played a powerful effect in the last match against Huo Kong.

Therefore .....

These few years, Xia built many more regardless of cost.

Other weapons were also gradually upgraded.

There were also some new types of weapons that were developed.

Anyway!

After learning from the experience of the preliminaries.

The Great Desolate Army was more fully prepared for the next glorious conquest.

Three days of travel later.

The speed of the airship finally slowed down.

This caused Jiang Fan and one other individual to exhale.

Although the starry sky outside the ship was beautiful.

But looking at it for too long was also boring.

The spaceship turned a corner.

With that..... sped towards a huge light gate in front of it.

“This place.....should be the legendary headquarters of the Star Council.” Huo Kong was also looking at this huge light gate curiously and said, “Inside is also a special space named 'Domain of the Stars'.”

For this famous headquarters of the Star Council.

Jiang Fan had naturally heard of it.

Not long after that.

The airship arrived in front of this light gate.

It didn't stop in the slightest.

It went straight through.

And planet passage in general.

After passing through, another scene appeared in front of their eyes.

Reflected in the eyes was a huge and incomparable vast land.

Dense green vegetation was growing on the land.

“Little ones, welcome to the Domain of the Stars.”

An old voice ranks out in the minds of the crowd.

Everyone was slightly startled.

But immediately reacted.

This should be .....

It's the same thing as the planet spirit.

“I am the Star Spirit of this place and your future best friend.”

The old voice continued, “You can call me..... Tang En, and you will get to know me slowly in the days to come.”

“Attention!”

The voice of the Lord of the Long Sky Kingdom ran out immediately afterwards, saying, “If you stay here in the future, you must follow the rules here, never do something self-righteous, and if you are remembered by Lord Tang En, even if you take a good ranking, you will not be able to eat.”

The airship continued forward.

Everyone was curiously watching what was going on down below.

After a while.

An immense square appeared in front of them.

There was a tall building around it.

The airship stopped at the docking area next to the square.

“Everything is coming down.”

The Lord of the Long Sky Kingdom said.

The crowd was also aware of.....

The destination for this time was here!

A thousand people walked down in turn.

After coming to the ground.

Jiang Fan looked around and found quite a few spaceships already docked next to him.

“People from other star areas..... have already come quite a lot.”

Huo Kong spoke up.

Under the leadership of the Lord of the Long Sky Kingdom.

The crowd walked forward.

Soon they walked inside a huge square.

On the square at this time.

Many people have come.

Jiang Fan glanced at it.

Like them, they were also the qualifiers from each star zone.

Each star area had the same thousand people!

“To be honest, this rule of the Star Group Council.....”

Huo Kong spoke up, “It gives small star areas like us an advantage instead.”

“You know like those powerful star areas, for this one thousand out of the line quota, that is a very fierce fight!”

During these few days.

All the people have more or less understood some of the pre-selection situations of other star areas.

“You guys wait here first.”

The Lord of the Long Sky Kingdom said, “Feel free to walk around, but don't go out of this square.”

After saying that.

The Lord of the Long Sky Kingdom walked straight towards a building off to the side.

The thousand people who were somewhat overwhelmed were left behind.

And did not dare to make any action.

Just stood in the same place.

Sizing up the increasing number of people from other star areas around.

“Do you know anyone from the other star zones?”

Jiang Fan asked Huo Kong.

“How is that possible to know?”

Huo Kong shook his head and said, “I haven't even been out of the Long Sky star area yet, even the nearest one is very far away.”

“If it weren't for this Star Competition, it is estimated that many people would have never had the opportunity to travel to other star areas in their lives, let alone here at the Star Council headquarters.”

“But.....”

Huo Kong paused for a moment and added: “I did hear about some popular contestants from other star regions.”

“Look over there.”

Huo Kong extended his finger and gently pointed to a team diagonally opposite.

Jiang Fan looked over.

Found that .....

The looks of the people inside this team were not quite the same as unusual people.

The skin is very fine and fair.

All of them are tall.

Especially those ears.

Surprisingly, they were long and pointed.

“It’s an elf in the Elven Star District.”

Huo Kong said with some excitement, “Rumor has it that each one of them is outstanding in appearance and handsome, today when I look at them, they are really true to their name.”

“Elves?”

Jiang Fan gave this group an extra look.

“These elves can be said to be blessed by heaven, very favored by the heavens.” Huo Kong said while secretly observing, “Their success rate of awakening planets is almost close to one hundred percent, and almost all of them are high-level elves!”

“This is a race that stands at the peak of a super civilization.”

“Although there are not many elves, they are able to obtain a very high ranking in every group star competition.”

Huo Kong talked endlessly.

Then .....

He pointed to the elves with outstanding appearance, a man and a woman standing in the middle of the elf team.

About to say something.

These two elves suddenly turned their heads.

Looking this way.

Chapter 508 : Opening of the Main Event! The Battle of the Star Tower! Jiang Fan's goal!

Huo Kong was talking eloquently.

There was more of a commentary.

Totally unexpected.....

The other side actually had such keen hearing and looked directly over.

The mouth closed in shock.

The face was very stiff.

The two elves, a man and a woman, glanced at Huo Kong and frowned slightly.

Then turned back.

No longer paid attention.

Waiting for a while.

Seeing that, the other party had nothing else to say.

Only then did Huo Kong let out a long sigh of relief, and lowered his voice, “it scared me to death. I almost forgot, the elves' pair of long pointed ears are not for nothing. Their hearing is very outstanding.”

“And different from other forces.”

“The elves are very united. There used to be many forces that were used to hunt and kill the elves, but they were all uprooted by the elves.”

“This is also a force of the endless star field..... Star Council will not easily provoke.”

After a pause, Huo Kong said again: “Just now, these two people... are the prince and princess of the Elf Empire, and they are also twins. This year, the two most evil spirits in the Elf Star District.”

Jiang Fan took a few more looks.

The team of elves on the opposite side was indeed as rumored.

Although the expression was somewhat restrained.

But the arrogance in the eyes could not be hidden.

Not like other teams either.

Communicating with other teams and greetings.

Of course, not only the Elf Star District.

There were other teams in the square that were huge.

.....

On the upper floor of the tall building next to it.

The Lord of the Long Sky Kingdom was exchanging pleasantries with each other and the sixth ranked planet masters, leading teams from other star areas.

The level six planet lords here.....

Most of them knew each other.

Because almost all of them had participated in the group star competition ten thousand years ago!

Even if the other star areas were more powerful.

But one thing was the same.

That was .....

Cultivating a sixth ranked planet master was still powerless.

Still had to rely on the Star Council!

“Bru.”

The Lord of the Long Sky Kingdom looked at a white-clad elf with long, pointed ears and said, “It's been a long time since we've seen each other. It must be at least a few thousand years.”

“It must be over five thousand years.”

The white-clothed elf named Blu laughed, “The last time we met was at that auction.”

“All these years you stayed in the Elf Empire and didn't come out, so I couldn't see you.”

The Lord of the Long Sky Kingdom lamented.

“No way.”

Bru stretched his hands and said, “I was appointed as an Elf Master by our head of state, specializing in training the best of the Elves.”

“No wonder you have produced so many demons in the Elf Star District this year.” The Lord of the Long Sky Kingdom laughed, “Especially the twins, Aya and An. Everyone says they are strong contenders for the number one spot.”

“Number one?”

Bru immediately shook his head and said, “How is that possible? It would be very good to be in the top ten this time. There are many extremely terrifying demons that have emerged this year.”

“Yeah.”

A familiar sixth ranked planet master next to him interjected: “This year there are very many demons in all-star areas, several of them even..... Put in the past, they are absolutely first!”

“Still talking about others.”

Bru laughed: “Isn't there a big demon this year in your star region? It’s definitely not a problem to be in the top five.”

“That's not sure. The competition is so fierce this year.”

This sixth ranked planet master shook his head.

“You two.”

The Lord of the Long Sky Kingdom on the side could not stand it and said, “You have to consider the feelings of others, you are at least in the top ten, top five, but our Long Sky Star Kingdom is hardly even in the top one thousand!”

“Your Long Sky Region is not bad this time.”

“I've heard that there are several good seedlings, like Chang Feng and Huo Kong that you cultivated yourself, that are expected to break into the top 1000.”

“By the way.”

The sixth ranked planet master next to him suddenly thought of something and looked at the Lord of the Long Sky Kingdom and said, “I heard that in your star area, the first place this year is a new student?”

Hearing that.

Bru also looked towards the Lord of the Long Sky Kingdom.

“There is a new student named Jiang Fan.”

The Lord of the Long Sky Kingdom nodded and said, “But it's not really the first place, it should be ranked in the top five.”

“That's interesting.”

The corner of the sixth ranked planet master's mouth curled up into a smile as he said, “Do you guys know? Just now, on my way here, I met someone from the Tianxing District. They also gave birth to a new student this year. It is said.....”

This sixth ranked planet master paused for a moment and added: “And to impact the title of the strongest freshman in history!”

“I didn't expect.....actually met a rival.”

“You're talking about this year's Tianheng Saint Son, right?”

The Lord of the Long Sky Kingdom said somewhat speechlessly: was a little speechless: “It doesn't matter what the strongest freshman is, the real thing is to break into the top 1,000.”

.....

The huge square.

As more and more teams arrived.

The atmosphere was also getting livelier and livelier.

Suddenly!

The entire square was slightly silent.

The crowd turned their heads to look in unison.

And saw .....

A young man with a straight posture and a head of fiery red hair walked in.

“Huo Ge!”

“It’s the Huo Ge from the Yan Martian area!”

“I heard that one of the most favorable contenders for the first place this year is very strong.”

“Specializing in creating races of fire, it is said that one is also extremely rare.”

“.....”

One by one, they were discussing.

Their gaze was fixed on the fiery red-haired man.

And the Huo Kong that always loved to explain to Jiang Fan .....

However, his face looked a little strange.

Chapter 509 : Opening of the Main Event! The Battle of the Star Tower! Jiang Fan's goal!

Jiang Fan almost laughed out loud.

After all, these two men were both surnamed Huo, and both built the race of Fire.

But they differed greatly from each other.

One was the most demonic second-level planet master in the entire Endless Star Domain.

The other had trouble even getting into the top 1,000.

“I hope I don't run into this guy in the main event.”

Huo Kong lowered his voice and smiled to himself, “If I run into him, it would be like facing a strengthened version of myself, I don't know how else to fight?”

“But.....”

Huo Kong glanced at Jiang Fan and revealed a smile and said, “If I run into you, then I'm afraid it's Huo Ge's bad luck.”

As someone who had experienced the Bullet of Silence.

Huo Kong was very clear about the restraining nature of this weapon against the Flame Race.

“Hm?”

Huo Kong still wanted to say something.

Suddenly, he felt something.

He turned his head to look.

The entire square was also once again silent.

Each one turned his head.

And saw another team walk in.

This was a mostly female team, wearing a set of ice blue skirts all over the body.

Flooded with a peculiar aura.

Let these women seem to have a kind of holy aura.

In the middle of this group of women.

There was a young woman with an exquisite appearance and a cold face.

Temperament was similar to Bu Jingyue.

But it was much colder than Bu Jingyue.

“They're from the Ice Moon Sacred Land!”

“That sacred land is a star area. Apart from the Council of Stars, one of the most transcendent forces in the endless star field.....Ice Moon Sacred Land?”

“That's right, the Ice Moon Sacred Land is very good at training disciples, past group star competition, sacred land disciples almost all in the top 100,000.”

“The most beautiful one in the middle..... Is that the saint of the Ice Moon Sacred Land? I'm sure it's better to be known than to meet.”

“It is said that the Ice Moon saint is also the favorite for first place in this competition. I wonder who is stronger and who is weaker with Huo Ge?”

“It's not just these two, there are also some very frightening demons in other star regions.”

One by one, they couldn't help but talk again.

The voices in the square were getting louder and louder.

Huo Kong also lowered his voice and said to Jiang Fan: “This year, this Ice Moon Saintess is one of the most gifted in the history of the Ice Moon Sacred Land.”

“The Ice Moon Sacred Land attaches great importance to it. I heard that it even.....gave a deadly order.”

“Must take first place in the group star competition!”

“There are really a lot of geniuses in the Endless Star Domain.” Jiang Fan laughed.

“Yeah.”

Huo Kong nodded and said emotionally, “Before I came here, I thought that taking a top 1,000 wasn't a problem, and even coveted the top 100, but now I realize that.....”

“It's very good to be in the top 10,000.”

“The overall quality of this year is very high.”

A voice next to him suddenly interjected.

Jiang Fan and Huo Kong turned their heads to look.

And it was .....

The eldest princess from the empire, Xi Ya.

A woman with an elegant and noble temperament.

It wasn't just Xi Ya.

Next to Xi Ya, there stood Chang Feng, who came from the same Long Sky Kingdom as Huo Kong.

He was a man of few words.

Because in the eyes of outsiders.

Jiang Fan, Huo Kong, Chang Feng and Xi Ya were the four.

They were the top four strongest in the Long Sky Star Area this year.

The four naturally couldn't help but come together.

“Princess Xi Ya, you're feeling the pressure too?”

Huo Kong asked with a smile.

“A little.”

Xi Ya nodded slightly and said, “Especially seeing so many demonic geniuses.” Before coming, my father told me it would be very good to get into the first 10,000, and I was still not convinced.”

“It's all uncertain.”

Huo Kong's face became a little dignified and said: “If you are lucky, you can break into the top five thousand or top three thousand. If you are unlucky...”

“Maybe you won't even be able to enter the top 10,000!”

“Hmm?”

At this moment, Huo Kong glimpsed something in his peripheral vision.

Slightly taken away.

Immediately afterwards .....

Nudged towards Jiang Fan.

Jiang Fan didn't know what to do.

He looked in the direction shown by Huo Kong.

Instead, they saw a team in very elegant uniforms walking in.

It was nothing special.

Just caused a small piece of attention from the people around.

And before Huo Ge and the Ice Moon saint girl came into the scene.

There was no comparison at all.

“It's someone from the Heavenly Stellar Region.”

Xi Ya said.

“The Heavenly Stellar Region.....Are there any popular players this year?”

Jiang Fan asked.

“Although the Heavenly Stellar Region is not weak in overall strength, there is no one at the top.”

Xi Ya explained, “The top ten are estimated to be hard to get in, but.....”

Xi Ya paused for a moment, the corners of his mouth curled up with a smile and said, "There is someone who needs your attention, Jiang Fan."

"Someone I pay attention to?"

Jiang Fan blinked his eyes.

Once again, he looked at the team from the Heavenly Stellar Region.

"There's a very demonic freshman from the Heavenly Stellar Region this year."

Huo Kong explained with a smile, "It's the one who looks the youngest in the first row and ranked in the top ten of the Heavenly Stellar Region in the preliminaries!"

"It is said that ..... That the top 1,000 in this main competition is a certainty, and even ..... also impact the top 100, breaking the understanding of the group star competition freshman record!"

"So strong?" Although Jiang Fan said so.

But there was no ripple in his heart at all.

If it was just the top one thousand.

That would not be challenging for him at all.

Chapter 510: Opening of the Main Event! The Battle of the Star Tower! Jiang Fan's goal!

"So Jiang Fan, you should be careful."

The corner of Huo Kong's mouth showed a smile and said, "There are quite a few new students out of the line this year, but the only two whose true strength can match the old level two planet masters are you and Tianheng Saint Son."

Jiang Fan smiled and said nothing.

As time passed, one by one, the teams from each star area gradually came together.

According to the divisions of the Group Star Competition.

The entire Endless Starfield .....

There were one thousand star areas.

Each star area had one thousand places.

In other words .....

The total number of contestants who came here today was one million people!

The large square was dark at the moment.

There were so many people.

After a short while.

One by one, the sixth ranked planet masters leading the teams in their respective star regions walked out from the buildings next to them.

They returned to their respective teams.

Immediately after that!

Above the plaza.

A not-so-large light appeared.

After the light dissipated.

A figure appeared overhead.

It was a young man in a green robe, with a faint smile on his face.

It seemed to be about the same age as all the players present.

However, there was a unique aura on his body.

The crowd immediately knew .....

This young man in cyan robes was also a sixth ranked planet master!

“Silence, this is Councilor Liang He of the Star Council.”

Immediately, an old man alerted.

Many people were slightly shocked.

So young to be a member of the Star Council?

Knowing some inside information, Huo Kong lowered his voice and explained: “This time, the main match of the Stars Contest should be hosted by Mr. Liang. He was also the first in the last Stars Contest! The youngest councilor in the Star Council!”

Hearing that.

Beside him, Xi Ya, Chang Feng and others couldn't help but look at Liang He again.

Above the sky.

Liang He glanced around and said, “Everyone who comes from various star regions, I will be the host of this Stars Contest.”

“I believe many of you know me, so let me briefly introduce myself.”

“My name is Liang He, and I am also considered your senior, the winner of the last group star competition.”

“Seeing you, I can’t help but think of my competition that year.”

Liang He smiled slightly, and said, “But last time... there weren’t so many monsters.”

“Your competition is bound to be very fierce this time around, so the challenge of the main race this time will also increase in difficulty, everyone must be prepared in their hearts.”

No one had a voice.

This was something that the crowd had predicted long ago.

There was an increase in the number of strong contestants.

But there were still so many winning spots.

The difficulty would naturally have to increase!

“Then .....

Liang He glanced at the crowd and said, “Everyone, get ready, the first round of competition will begin in three hours!”

“We will hold the first round of competition in the Star Tower.”

“Star Tower!?”

Hearing these three words.

Many people were faintly frowning.

Probably knew what the tournament system was.

“The Star Tower is a checkpoint type, which needs to be actively attacked. Compared with other modes, this is not a bit more difficult.”

Huo Kong also had a serious expression on his face.

“Inside the Star Tower...”

Liang He continued, “There are ninety-nine layers, each layer has a guard. What you have to do is to defeat these guards, to ascend to a higher layer!”

“Every time you pass a layer, you will get the corresponding points!”

“The higher the number of levels you ascend, the more points you get, the higher your overall ranking.”

“In this first round of the breakthrough battle, only the top 10,000 will be taken!”

“That means .....”

Liang He’s voice slightly increased and said, “The remaining one million people will all be eliminated in this first round!”

“Okay, next, everyone, get ready.”

Not long after Liang He’s voice fell.

Within the square, an uproar rang out.

“The first round ..... It’s going to eliminate ninety-nine percent of the people, tsk.”

Huo Kong said with some emotion: “These of us are almost unsafe, and we will do our best in the first round.”

“Although the one million people who have advanced to the main match can all stay in this realm of stars, but...”

Xi Ya’s face was also a little dignified: “Only the top 10,000 will obtain better resources and training, and the hope of becoming a sixth ranked planet master is even greater!”

Huo Kong, Chang Feng were all silent.

Participating in this group star competition .....

It was certainly a battle of honor.

But the main thing was still to give yourself the opportunity to step into the realm of a sixth ranked planet master.

Although the long sky star area was also out of the line of a thousand people.

But from the situation of previous sessions.

Among the thousand people.

Only a few people might eventually advance to the sixth level!

In terms of rank.

The higher the ranking, the greater the probability!

Especially for the first thousand.

It was almost a done deal.

The probability of being in the top 10,000 was not small.

As for the remaining 990,000 people, it would be much more difficult!

Mainly because.....

The resources and training obtained were quite different.

“Don’t say anything, take a good rest, and prepare for the... star tower battle in three hours.”

Huo Kong shook hands with Jiang Fan and the others.

This year’s introversion was a severe situation.

Let every star area not dare to take it lightly.

“This time, nothing else is forced, but .....

Among the elves, Aya, the leader, shouted, “Our elf empire must occupy at least fifty of the top one thousand.”

Then, he said to An who was beside him: “Sister, we don’t expect to be in the top five, but in the top ten, we must win two positions!”

“I know, brother.”

An nodded heavily.

“There are so many demons this year. Is the competition so fierce?”

In the Heavenly Stellar Area.

Tianheng Saint Son scanned the surrounding crowd, his hands slightly clenched as he secretly thought, “It’s better to be fierce! My goal is not the top one thousand, or the top one hundred! Rather, it’s the top thirty!”

“I must break the record set by the strongest freshman in history and create a new glory!”

“Let my name be spread throughout the endless star field!”

.....
