

## One Planet 51

### Chapter 51: The Gollum Monster! Five consecutive victories!

“Retreat!”

Qi waved his hand and shouted.

The Great Desolate Army slowly retreated.

Even though victorious, there was no disorder either.

Facing this first victory, there was no excitement and thrill for the Great Desolate Army.

Today’s opponent was not much stronger as compared with those transcendent species of previous alien conquests.....

In addition, it was still the most researched martial artist!

It would be weird not to get it!

.....

Inside the viewing room, both Tong Zhensheng and Qiu Yunfei breathed a sigh of relief.

Five participating students from Jiangcheng No. 7 Middle School.

In the first battle, the other four had weaker opponents.

Only for Jiang Fan.....

The uncertainty was great.

Both watched in person here.

“It’s okay.”

Tong Zhensheng sighed and said, “Jiang Fan’s awakened planet is big and there are many ordinary people. In the next game, he should be able to get a lot of victories.”

Qiu Yunfei, who was next to him, nodded.

In the eyes of two people, it was natural to see that.

This army of ordinary people built by Jiang Fan was well equipped and was not weak.

It could get out of the line was another story but a few more victories shouldn’t be a problem.

After the first round, they naturally need rest.

Such a competition, if placed in reality, one game a day was the limit but this way the Grand competition would probably take half a month!

So.....

As specified, each participating planet master accelerated the flow of time a little.

About an hour in the real world and three days on the planet.

Of course, each planet owner could decide its own acceleration ratio.

Jiang Fan did not change.

After one match, rest for three days, the rhythm was just right.

One hour later, the second match started and on the Blue Star, it was three days later.

After three days of recuperation, the Great Desolate Army once again stepped out of the passage in high spirits to meet the second opponent!

This second opponent was also a martial planet but as compared to the first opponent, it was just a low level martial arts civilization.

The strength was quite weak.

The first group Jiang Fan was in, half of the participating students were martial artists' civilization planets.

The Great Desolate Army had an even easier battle, defeating their opponents without much effort!

The third battle was with a planet of astral energy.

It was roughly not very different from the martial artists.

It was also unable to beat the Great Desolate Army.

The Great Desolate Army had a total of 30,000 people.

Divided into ten teams!

Every match.

A new team would appear in each match so that each team could be refined!

Fourth battle.

Fifth battle.

The opponents were not even strong.

After seeing the performance of the Great Desolate Army, these two opponents surrendered just after a little resistance.

Just like what the outside world had said, Jiang Fan's group didn't have any popular players.

In the sixth battle.....

The Great Desolate Army met a tricky opponent!

This was an alien beast civilization planet!

So-called exotic beasts.....

Were just uncommon transcendental monsters!

Like the Slimes encountered in the previous training of the Great Desolate Army.

It could be called a beast.

The extraordinary species of this beast planet was an ugly creature called “Gollum Monster”.

Their physical strength was not strong but they had strong spiritual power and they were able to talk.

They could confuse people with words.

Many soldiers of the Great Desolate Army were caught off guard.

They were actually controlled by this Gollum.

Instead, they turned their heads and attacked their comrades!

Fortunately, the teammates around them found out in time and immediately stopped their actions.

This caused no casualties.

Gollum monsters could also drill holes in the ground.

.

They usually stayed in the cave.

Only occasionally did a head come out.

It was hard to defend!

Therefore, the Great Desolate Army did not dare to act rashly.

Fortunately, there was the Transcendental research team.

After a series of trials and observations.

Soon, there was a team member, who discovered the fatal weakness of the Gollums!!
