

One Planet 521

Chapter 521: The Star Tower ends! Jiang Fan's ranking!

It slowed down quite a bit.

Allowing the giant axe warriors to break through some distance.

Finally, it broke within three kilometers.

This was a very dangerous distance inside the Transcendental War.

They quickly reached two thousand meters.

But coming to this step.

The price paid by the giant axe warriors was also extremely high.

There were over 10,000 giant axe warriors fallen under the spiked bullets.

But because the vital parts were blocked, most of them were only seriously injured.

The remaining three kilometers

It would be very difficult to break in.

With every 100 meters forward.

There were groups of giant axe warriors falling down.

Nothing unexpected.

Although the giant axe warriors were powerful and brave.

But it still couldn't pass the defense line laid by the Great Desolate Army.

After over five hours of sniping.

The last giant axe warrior fell under a spiked bullet.

This sixty-first layer was also passed successfully.

But that's so far...

The most powerful opponent the Great Desolate Army has encountered!

The time consumed was also the most.

“As expected of a super peak race, there really is still a tremendous gap between having weapons and not having weapons.”

Jiang Fan thought darkly.

The most powerful thing about these giant axe warriors.

It was in that giant axe!

If there were no giant axes.

I'm afraid it would be even weaker than the half-human mammoth.

But with a giant axe.

They were at the peak of the race!

The other teams were very miserable.

Even the spiked bullets could not break the defense.

Not to mention the various other attacks of transcendent creatures.

There was nothing they could do with these giant axes.

But no one was stupid either.

They used the same strategy as the Great Desolate Army.

Since it couldn't break through head-on.

Then found the weak point of the giant axe warriors to attack.

But giant axe warriors were difficult to mess with.

Its close combat ability was quite powerful!

Went down with an axe.

A flame giant could be killed directly!

As time passed, some teams could not support themselves anymore and were crushed by the giant axe warrior.

Finally, they could only choose to quit.

The other teams were also desperately looking for opportunities.

Especially the two, Chang Feng and Xi Ya.

They had red eyes.

It was crazy!

That was not quite the same as the usual competition.

Usually, the matches were on point.

But here

Even if you pay more than half of the price.

Many people would still choose to persevere.

Just to fight into that top 10,000!

It eliminated more and more contestants from the competition.

It was quite heartbreaking to watch the Lord of the Long Sky Kingdom.

“Hmm?”

At this time, Bru suddenly spoke out in surprise: “Long Sky, that freshman from your star area, it seems is almost finished fighting?”

The Lord of Long Sky Kingdom hurriedly looked.

In a flash, he saw that the Great Desolate Army was finishing off the last few Giant Axe Warriors.

Seeing this scene.

The Lord of the Long Kingdom faintly breathed a sigh of relief.

“This newborn Jiang Fan has created a truly peculiar race.”

Bru couldn't help but look at the Great Desolate Army a few more times and said in admiration, “I've sort of come across all kinds of transcendent species, but this is the first time I've seen such a peculiar one.”

“Musketeers? The output is indeed very high.”

“There shouldn't be much pressure for this little guy to go in the top 10,000.”

But the Lord of the Long Sky Kingdom still couldn't put his heart down.

If just one Jiang Fan went in the top 10,000.

That was definitely not enough.

Another three hours passed.

The battle on the sixty-first floor came to a close.

Chang Feng, Xi Ya were very thrilled to pass this layer.

Almost half of the races that fought were damaged.

Huo Kong relied on the aerial advantage of the Fire Amazing Bird.

It was a little better.

What made the Lord of the Long Sky Kingdom a little surprised was

The prince surprisingly also passed this difficult level without very much effort.

But the top 10,000 were not decided.

Because there were still more than 20,000 people who passed through this level!

“That’s the next level, which is the sixty-second level.”

A level six planet master said.

There was nothing to question at this point.

In fact, it was also true.

The sixty-second level!

A transcendent species that was even more powerful than the Giant Axe Warrior appeared!

Chang Feng and Xi Ya gritted their teeth and refused to give up.

But there was no way to build a transcendent race.

There were too many casualties in the previous level.

Did not support for long.

Didn’t last long.

And was eliminated in this way.

“Pity! Pity!”

Seeing Chang Feng and Xi Ya being eliminated.

Bru couldn't help but shake his head.

Because

Nearly half of the other participants were in the same situation.

“As long as they lasted for half an hour more, they would probably be able to squeeze into the top 10,000.”

The Lord of the Long Sky Kingdom was also a bit helpless.

But there was nothing that could be done.

This was the Group Star Competition.

The strength was just a bit different.

“Look at Jiang Fan, Huo Kong and the Crown Prince.”

The Lord of the Long Sky Kingdom's gaze turned to the screen of the respective teams of these three remaining people.

The strength of the transcendent species that appeared on the sixty-second floor was stronger than the giant axe warriors though.

But there was no giant axe with such a terrifying defense.

The threat to the Great Desolate Army was rather less.

“Jiang Fan, steady.”

Seeing this.

Bru directly asserted.

The Lord of the Long Sky Kingdom also showed a hint of joy on his face.

He also didn't expect it at all

Jiang Fan built the Musketeers and pilots to be in the Breakout Battle.

Such smooth sailing.

There was hardly any trouble.

“Have you guys found anything?”

At this time, a sixth ranked planet master said, “This year's breakout battles seem to be dominated by species with strong defenses.”

“If you say so, I did notice it.”

Another level six planet master frowned slightly and said, “That's really true.”

“Could it be that this is related to the current situation?”

-Time.

Everyone looked at Liang He who was presiding over the competition.

Liang He smiled and said, “You guys should have found out long ago. That's right, this year's council pays more attention to teams with strong output capabilities. That's why we set up these levels.”

“No wonder Chang Feng and Xi Ya were both eliminated so early!”

The Lord of the Long Sky Kingdom sighed.

“But it’s very beneficial to Jiang Fan and Huo Kong.”

Bru added.

“It’s hard to say, each one is very powerful this year.”

There was nothing optimistic on the face of the Lord of the Long Sky Kingdom.

In the Star Tower, most of the participating teams were still holding on in the 60th floor.

Chapter 522: The Star Tower ends! Jiang Fan’s ranking!

So were Huo Kong and the Crown Prince.

“This level is not difficult for me at all.”

In a star space, the crown prince thought with a confident face, “After this level, I should be secure in the top ten thousand, but I must strive for a higher ranking!”

“In this breakthrough battle, I’m bound to be number one in the entire Long Sky Star Area!”

“Jiang Fan and Huo Kong are not even worthy to carry my shoes.”

Under the prince’s handsome appearance.

He also possessed a high and proud heart.

.....

“Kill, kill, kill

Huo Kong was also cheering on the flaming chicken he had built!

Finally, after five hours.

The sixty-second layer was all over.

This level eliminated close to ten thousand people.

It also meant that the top 10,000 spots had been announced!

But there was a battle of ranking, the fight for a higher ranking.

It was more favorable to the following competition.

Sixty-third level.

The transcendent species that appeared still became stronger.

But this time.

Jiang Fan and the Great Desolate Army discovered that

From the sixty first floor onwards.

One by one, the transcendent species that appeared were almost all physically powerful.

That was, the defense was relatively high.

There is no high-output, brittle skin like the Ultimate Demonized Man before!

-The most important thing was to have a good understanding of the situation.

The defensive power was strong.

All melee combat-oriented.

Speed and agility were not too high.

This was one of the most preferred types of the Great Desolate Army.

Although it was super peak level.

But still, they couldn't stop the penetrating power of the spike bullets.

Only

This penetrating ability was also becoming more and more laborious.

"I'm afraid that the later matches are going to be on even more powerful rifles." Luo Cheng frowned and said.

"It's time to update."

Huo Qubing nodded.

Because of the production.

That's why they were in the breakthrough battle.

A group of soldiers of the Great Desolate Army still used the old-style electromagnetic rifles.

Sixty-third level, still passed without a doubt.

Let the Lord of the Long Sky Kingdom be surprised.

Not only Jiang Fan.

Huo Kong and the Crown Prince also went into the next layer smoothly.

“The Crown Prince is awesome!”

Inside a villa at Bei Dou University.

Li Zihao and the others shouted in excitement.

Although they couldn’t see the real-time live broadcast, the real-time results were still announced to the public.

The number of people who were concerned was still very large.

Especially Bei Dou University.

After it was confirmed that both Jiang Fan and Prince had made it to the top 10,000.

The entire campus became a sea of joy.

The crowd was celebrating wildly.

This was an an unprecedented scene!

“I never thought that the Crown Prince would hide his strength.”

—in a void.

The elder group was also discussing.

“The top 10,000 are already there, let’s see if we can hit the top -thousand next.”

-An old man in black said.

“If we can make it to the top two thousand, the sixth ranked planet master will be stable!”

Another old man echoed.

“I wonder who will go to the end, Jiang Fan or the Crown Prince?”

The old man in gray spoke up.

“Let’s see, maybe the prince can give me a big surprise.”

One by one, they were all looking forward to it.

The sixty-fourth floor.

Huo Kong finally couldn’t hold on anymore.

The flaming chicken couldn’t jump up either.

He could only admit defeat and quit.

Prince and Jiang Fan continued to stride forward.

On the 65th floor, many people’s eyes were already fixed on these two people.

The prince wasn't able to continue his dark horse.

And finally collapsed.

"Hmph, I should be in the top two thousand by now, it doesn't matter if I break through a few more layers, I'll reserve my strength and wait for the next competition."

The prince was unconcerned.

With his strength, it was possible to break through the sixty-six levels.

But there was no need for that anymore.

"It's okay."

The Lord of the Long Sky Kingdom also nodded his head.

"As it stands, Huo Kong's ranking should be over six thousand, and the Crown Prince is around two thousand, depending on Jiang Fan's performance."

Bru said.

The Great Desolate Army's journey to break through the barrier continued.

But according to the original plan.

It was also just enough to try to get into the top one thousand.

There was no need to spend too much energy and ammunition.

The 66th layer passed smoothly.

Sixty-seventh layer

The Great Desolate Army tested a new tactic.

Unexpectedly, the extraordinary species on this layer were scared and fled.

Passed again unexpectedly.

On the sixty-eighth floor!

Jiang Fan didn't let the Great Desolate Army continue any further.

Opted out!

So far!

Jiang Fan's journey to the Star Tower ended.

The ranking was also finalized.

But there were other teams continuing in the Star Tower.

For example,

Those favorites who wanted to compete for the top 100.

Especially those five super favorites who were expected to win the number one spot!

All of them kept climbing up layer by layer.

All the time breaking through to the seventieth layer.

The seventieth – layer.

It was another difficulty!

Star Tower naturally couldn't let all the breakers go through.

The latter would become more and more difficult.

The seventy-first layer here.

Almost everyone fell down directly.

Only ten contestants remained.

The seventy-second layer.

Another five fell down.

In the end, only those five super favorites were still able to hold on.

Seventy-third layer.

These last five were also gradually unable to hold on.

Coincidentally, they chose to quit.

So far!

The Battle of Star Tower Breakthrough came to an end.

“It's crazy that five people have broken through to the seventy-third floor.”

A sixth ranked planet master lamented, “It’s much stronger than our class back then.”

“I’m afraid this isn’t their full strength.”

Another planet master smiled and said, “I guess they have kept some of their cards unused.”

“There shouldn’t be any suspense about being number one this year. I’ll just choose one of these five demons.

Bru laughed.

“The top 10 should also be no suspense, the twins of your Elves Empire have both broken through the seventy-one layer.”

-The planet masters nodded their heads.

Listening to the side one by one, they were all talking.

The Lord of the Long Sky Kingdom became a little depressed.

Long Sky Star Area’s performance in this competition was kind of beyond expectation.

But even Jiang Fan, who had the best record.... It was far from being able to compete with these demons!

“Stop discussing and take a look at the final ranking list to see which ones are in the top one thousand?”

On top of the huge square.

A list of the overall ranking of the Star Tower Battle has been released!

It was projected high on top.

Chang Feng, Huo Kong and others looked up one by one!

Jiang Fan also raised his head.

Soon he found his ranking position.

Chapter 523: Quick Rush Mode! Continuous advancement! Prince's elimination!

Above the vast square.

A projection of the ranking of this Star Tower Breakthrough Battle appeared over the crowd.

-Millions of contestants.

All of them raised their heads.

They were looking at this ranking.

Even some participants who were eliminated long ago.

They were also paying attention.

This ranking would put all the one million participants ranked in a list.

For the participants who passed the seventy levels and beyond.

Probably knew their ranking.

They were not so worried.

But for Chang Feng, Xi Ya, only passed the sixty-two layer of contestants.

They felt very nervous.

They also did not know exactly how much they ranked.

Theoretically

There was some chance.

This time, they also raised their heads.

But they didn't even dare to look at it.

When seeing the specific ranking of each.

Both Chang Feng and Xi Ya could not help but clench their fists.

Immediately loosened them again.

"Sure enough, still not able to make it to the top 10,000."

Chang Feng was helpless.

He had already made a prediction.

So it wasn't too hard to accept.

"Almost, just almost, if only I had just held on a little longer."

Xi Ya was remorseful.

There were many other participants, like Chang Feng and Xi Ya, who stopped at the sixty-second floor.

Each one of them showed remorse!

And the others who made it to the top ten thousand.

Especially those who came in with their tails taped.

Just all very excited!

“Got in, top ten thousand.”

Huo Kong saw his ranking.

Faintly breathed a sigh of relief!

Previously, his goal was to be in the top one thousand!

But after seeing so many demons in each star area this year.

Even the top ten thousand were a little less confident.

“Only six thousand rankings?” The prince looked at his ranking, his eyes flashed a hint of displeasure, “But it is enough to enter the top 10,000, and the next..... is my moment of domination!”

Not far away from the side, Jiang Fan also saw his ranking –

Contestant: Jiang Fan

Overall ranking: 878

A ranking almost similar to what Jiang Fan had expected.

“The top 1,000 is enough.”

Jiang Fan’s heart was calm.

The breakthrough battle was just a breakthrough battle.

There would be elimination rounds afterwards.

Just make sure to rank in the top thousand overall.

It would be perfectly fine.

No need to fight for the top 100 or even... the top 10!

That’s not necessary at all.

After all

Even if you get first place in the breakthrough battle.

In the next elimination round, it was also possible to be eliminated in the first round.

The first thing you needed to do was to say goodbye to the group star competition.

There was no loser group in this battle.

And seeing the final results, the Lord of the Long Sky Kingdom also breathed a long sigh of relief.

“Although Chang Feng and Xi Ya could not make it to the top 10,000, there was a dark horse like the Crown Prince.”

The Lord of the Long Sky Kingdom was full of relief and said, “Especially Jiang Fan, he even killed his way into the top one thousand!”

Originally, his greatest hope was Huo Kong.

But he was just thinking that getting into the top three thousand would be good.

Unexpectedly

Jiang Fan gave him such a big surprise!

“This is going to be interesting.” The nearby Bru said, “That strongest freshman in the Heavenly Stellar Region, the Heavenly Stellar Saint Son, is ranked at over four hundred, and both of them killed their way into the top one thousand!”

“No matter what, as long as Jiang Fan can finally break into the top one thousand, it will be enough.” A hint of anticipation flashed in the eyes of the Lord of the Long Sky Kingdom.

Although the Star Tower Breakthrough Battle couldn’t explain everything.

But it could tell the strength of each participant.

That could rank in the top one thousand.

Absolutely not in vain!

Some were happy, and some were sad.

Those who entered the top 10,000 were more or less happy in their hearts.

And the other 990,000 people.

All of them were a little despondent.

Failed to break into the first ten thousand.

It also meant that these people said goodbye to this group star competition!

This time, Liang He, who presided over this competition, appeared in the sky.

Scanning the contestants below, he shouted, "First of all, congratulations to the top 10,000 ranked contestants. You will be qualified to continue to participate in the next elimination round, as for the others"

"This is the end of your journey to the Group Star Competition."

"However"

"You will still be able to stay in the Realm of Stars and go on your own planetary journey!"

After Liang He finished speaking.

The ninety-nine participants who were eliminated all left one after another.

One by one, there was not much disappointment on their faces.

After all, at least there was still a chance to stay in the Realm of Stars.

"Let's go, let's go, let's go have a drink together, preparing for this Group Star Competition has bored me to death."

"We can take it easy for a while, rest for a while, and then work hard later."

"Yes, the road ahead is still long, those top demons. It is not uncommon to die in the middle."

“The group star competition means nothing either. We stay here and also have the chance to advance to the sixth level planet master.”

“.....”

One by one, they chattered and left.

And Jiang Fan, Huo Kong and the Crown Prince, were called aside by the Lord of the Long Sky Kingdom.

Preparing for the next elimination round that was about to begin.

The main competition lasted for a short time.

“For the next elimination tournament, the rules this year are”

The Lord of the Long Sky Kingdom looked at Jiang Fan and the others and said, “First, ten thousand people will be divided into two groups to face each other, and five thousand people will be eliminated.”

“Then two thousand people will be selected from the victorious five thousand, and then they will face each other in groups.”

“To select the final one thousand!”

Jiang Fan, Huo Kong, and the Crown Prince all nodded their heads.

This rule wasn’t much different from the previous Group Star Competition.

“Although the rewards for the 1,001st place and the 10,000th place are the same, you guys shouldn’t give up.”

The Lord of the Long Sky Kingdom aggravated his tone and explained, “In a one-on-one competition, anything can happen, and if you meet an opponent who is restrained by you, then it is likely that you will rush to the final top one thousand!”

“Especially you two, Huo Kong and Prince.”

The Lord of the Long Sky Kingdom looked at Huo Kong and the Crown Prince and said, “You are also both hopeful of making it to the top one thousand, and you have to show your strength in the first round of the elimination round”

“They will choose two thousand people from the winner’s five thousand.”

Chapter 524: Quick Rush Mode! Continuous advancement! Prince’s elimination!

The Lord of the Long Sky Kingdom continued, “This is going to be decided based on your play in the Star Tower and the first round of elimination.”

There was a pause.

The Lord of the Long Sky Kingdom turned to Jiang Fan and said, “Jiang Fan, you have a higher probability of getting into the top one thousand, but pay special attention to those special races that are more restrained to you.”

All three of them nodded slightly.

When the Lord of the Long Sky Kingdom left.

A hint of displeasure flashed across the prince’s eyes.

“The first thousand? I’m bound to get it this time. Not so sure about Jiang Fan.”

The prince thought darkly.

This wasn’t just a battle of rankings but also for the ownership of Bei Dou University’s successor!

There could only be one person!

Jiang Fan and Huo Kong sat together.

After closing his eyes for a while to cultivate.

He stood up again and came to the huge square.

Before the elimination rounds began.

The first thing to do was The drawing of lots for the opposing sides of the 5,000 group!

It was the same as the preliminaries.

The origin power was also used here.

But the speed seemed to be a bit faster.

It only took a second.

The matchups for all five thousand groups were already out.

One by one, the participants immediately raised their heads to look.

Jiang Fan also saw his opponent—

Los!

A participant from a certain relatively remote star area called the Savage Star Area.

The star area was even more remote than the Long Sky Star Area.

The only person who made it to the top 10,000 was Los.

After looking at his opponent.

Jiang Fan paid attention to Huo Kong.

The opponent wasn't that strong either.

The Lord of Long Sky who was standing in the building.

He breathed a sigh of relief and said, "This time the three little guys were lucky, the opponents they met were not strong."

Even the Crown Prince's opponent.

The ranking was only over four thousand.

This was an extremely ideal matchup.

"This time, the five thousand group pairing was drawn by the tower spirit." Bru smiled and said, "I'm afraid that there is no one who knows more about the strength of each participant than the tower spirits of the Star Tower."

Although it was a lottery.

But in reality, it was not.

Because there was no loser group here.

In order to avoid early encounters with popular players.

Naturally, it was not possible to randomly match.

Ten minutes after the draw, the pairing came out.

The elimination rounds officially began.

The matches of all five thousand groups started at the same time.

One by one, the contestants were all transported to Star Space.

The venue for the competition was set up inside the Star Tower.

Of course, it was a separate space opened by the tower spirit.

The planet channel opened.

The miniature drones were the first to take the stage.

A thousand giant gorillas followed behind.

One hundred thousand warriors of the Great Desolate Army followed close behind.

The opponent this time was Los from the Savage Star Region, creating a huge transcendent species called “Barbarian Elephant”.

The size was like the half-human mammoth they met in the Star Tower.

But the strength was much stronger!

“Barbarian elephants, a super high species, but there are many of them across the street.”

Jiang Fan observed the army of barbarian elephants coming in from the opposite planet passage.

The number exceeded 100,000 heads!

There was no need to think about it.

Los was relying on the advantage of numbers.

Only then was he able to pass through the 60-odd floors of the Star Tower.

Although the numerical advantage was also a strength.

But it was something that the Great Desolate Army did not fear.

“Jiang Fan of the Long Sky Star Area. Is he still a freshman?”

In another star space.

Los was also sizing up the Great Desolate Army.

The corners of his mouth showed a hint of ruthlessness and said, “These little guys are weak at first glance, and their ranking can even be in the top one thousand? Lucky, Let’s see how my barbaric elephants will destroy these weaklings.”

The Savage star area was full of primitive cults.

Almost all of those created were strength-based transcendent races.

They looked down upon extraordinary creatures with physically weak transcendence.

Boom! Boom!

Under the command of Los.

The army of savage elephants stomped with huge footsteps.

It charged madly towards the Great Desolate Army.

“This

Huo Qubing and Luo Cheng and the others were a little dumbfounded.

Was the other side so brutal?

No tactics at all.

Come up and charge!

Then it was much easier for them.

Electromagnetic rifle frontal sniper.

Armor-piercing missiles for decapitation tactics!

The two work together.

In an instant, they took the leader of the barbarian elephant army out.

“Damn it! How did these bastards find out about my barbarian elephant leader?”

Los was furious.

Although he didn't quite look up to a weak and frail Great Desolate Army.

But he was not a fool, either.

He knew to hide the barbarian elephant leader.

But completely unexpected

The Great Desolate Army was still so fast to find out.

Jiang Fan was a little speechless.

Los was too confident in his own intelligence.

The Barbarian elephant leader was huge.

It was just like a firefly in the night.

Without careful observation, you could distinguish it at a glance!

Who else were you hiding it for?

The next battle, there was no suspense at all.

It was almost a one-sided slaughter.

The defense of the savage elephant was stronger than the half-man mammoth.

But also could not stop the penetrating power of spiked bullets.

Three thousand meters away, fell to the ground.

After the fall of over 30,000 barbarian elephants, Los could not help but doubt his life.

Some gritted their teeth.

He helplessly could only admit defeat!

The first match of the elimination round.

Jiang Fan easily won.

Leaving the star space, back on the huge square.

There were already other contestants finishing their matches as well.

On the other side of the square.

There was a still ongoing competition screen being put up.

Jiang Fan turned his head to look.

The focus was naturally..... Huo kong's matchup for this one.

Huo Kong's opponent's ranking was only over seven thousand.

Not exactly strong.

The rank of the created transcendent race was also only super high.

There were no flying species yet.

Not an opponent at all.

The flame chicken and the fire amazing bird pressed him to the ground.

Nothing unexpected.

Huo Kong also quickly won the game.

As for Prince

There were no setbacks, either.

Advanced to the next round!

After a short while.

All the matches were over.

The five thousand people who advanced also came out.

According to the rules.

It was the tower spirit of the Star Tower that did the drawing of the two thousand people.

From among the five thousand people.

Draw out two thousand people.

“I heard it seems to be a combination of the results from the breakthrough battle and the first round of elimination.” Huo Kong explained to Jiang Fan.

Chapter 525: Quick Rush Mode! Continuous advancement! Prince’s elimination!

“The main thing to look at is each person’s strength!”

“Jiang Fan, you shouldn’t have much of a problem.”

“You have little of a problem, either.” Jiang Fan said with a smile.

It was because they held the extraction in real time.

It was exactly as the tower spirit wanted it to be.

On the huge projection at the top of the square.

The names that were drawn also surfaced one by one.

There was no surprise.

Those top ranked favorites in the breakthrough battle were drawn first.

After a while.

Jiang Fan's name appeared on the top.

After another moment.

The names of Huo Kong and the Crown Prince appeared one after another.

This made the Lord of the Long Sky finally breathe a sigh of relief.

"It's best that it's these three little guys who all killed their way into the top thousand." Bru laughed.

Bru's expression remained unchanged.

The results of the Elves Empire's participants this time were very good.

Almost one-eighth of the elves were drawn out!

"It's difficult."

The Lord of the Long Sky Kingdom immediately shook his head and said, “Except for Jiang Fan, who is a bit more certain, both Huo Kong and the Crown Prince have a smaller chance.”

“It depends on who the pairing draw is. If it’s weaker, then there’s a chance”

The match of two thousand people was held immediately after the list was announced.

This time it was all the matchups that came out at once.

Seeing the list in the matchups.

The Lord of the Long Sky’s face couldn’t help but change slightly!

“Huo Kong versus Ice Moon Sage, and Prince versus Alcoholic!?”

Even Bru was stunned.

The Ice Moon Saintess didn’t need to be mentioned.

The alcoholic was also a big favorite for the championship alongside the Ice Moon Sage and Huo Ge!

This was a soloist.

They cultivated a race of pandas who love to drink.

-Once they drink alcohol.

Combat power would be doubled.

Huo Kong and Prince were against two champion favorites

How else could this be fought?!

“Let’s see Jiang Fan’s.”

Bru could only shake his head and reminded Long Sky.

The Lord of the Long Sky kingdom hurriedly looked at Jiang Fan’s opponent.

When he looked clearly.

With a slight sigh of relief, he said, “Fortunately, Jiang Fan’s opponent isn’t considered powerful!”

“That’s for sure.”

Bru nodded and said, “Jiang Fan’s breakthrough battle ranking is in the top one thousand. His opponent will definitely not be strong. There can’t be a top one hundred, let alone a championship favorite!”

“Hahaha.”

In the square, Jiang Fan couldn’t help but laugh.

“Afraid of a ghost? Give it a go. The talisman car turns into an airship, even the king of heaven also pulled down the horse for him.”

Huo Kong was a little dumbfounded at first.

Now he has come back to his senses.

He wasn’t that disappointed.

“Alcoholic! The favorite for the championship? Everyone must be pitying me and thinking that I am unlucky. Huh, that’s not true.”

The prince narrowed his eyes slightly and secretly thought, “After I extinguish the alcoholic and explode the biggest coldness in the history of the Group Star Competition, let’s see how shocked all these people’s expressions are?”

Compared to Huo Kong, the prince had much more confidence in himself.

The match started not long after.

Jiang Fan’s opponent this time was from a more powerful star area.

But there had been research on Jiang Fan.

The fight was created by two species.

One named Rock Giant, and the other named Rock Giant Soldier!

The Rock Giant handled defense.

And the Dock giant soldier was for attacking!

Despite that, defense was the main focus.

Both have powerful defenses.

Especially the Rock Giant.

It was almost the same as the giant axe warrior that was encountered in the Star Tower.

The output was not high.

The speed was also relatively slow.

Threat to the Great Desolate Army was also less.

This battle

Luo Cheng gave a direct order.

Conduct a covering artillery bombardment.

Use all kinds of explosive shells.

Blast the rock giants and rock giant soldiers Uniformly blasted to slag!

Regardless of the cost.

It only took less than half an hour.

It forced the other side to admit defeat and surrender.

As soon as the match ended.

Jiang Fan came to the square.

Watching the duel between Huo Kong and Ice Moon Sage!

At this moment

The Lord of the Long Sky and Bru were also following this match.

Because the Ice Moon Maiden's popularity was quite high.

So there were quite a few onlookers.

Huo Kong was very cautious.

Both the Flaming Chicken and the Fire Amazing Bird were tightly huddled in their positions.

Afraid of being raided by the other side!

Seeing this scene.

Jiang Fan knew that

Huo Kong didn't stand much of a chance.

If it dared to take the initiative.

There might still be some hope.

But shrinking up.

Surely could delay a little more time, but only chronic death.

As expected, Ice Moon Sage was not careless.

After observing the Huo Kong's side for an hour.

Only then did she attack.

Even though the Fire Amazing Bird desperately tried to block it.

But it couldn't stop the other two super peak races from bursting in.

In less than ten minutes.

The Flaming Chicken had lost its armor.

Dead and wounded!

Huo Kong also had to admit defeat.

Next

It was the Prince's battle.

The prince built two types of tiger transcendent creatures.

One of the bloodline tigers was also able to stimulate its own bloodline.

Thus, it explodes to double its combat power.

But so was the opposite wine panda.

After drinking the wine.

Boosted battle power was even more terrifying!

The result!

It was a completely one-sided situation on the playing field.

The wine panda was drinking wine.

-While drinking, he went crazy.

The two giant tiger races were beaten down by the wine fist.

“The race level is still worse, and there is a gap in the ability to cultivate.”

The Lord of the Long Sky Kingdom shook his head.

There was nothing lost in his heart.

After all, Jiang Fan had already locked a spot in the top one thousand.

It was considered having reached the previously expected goal.

“No, no, I’m a prince! How could I fall here when I grew up in a starry-eyed existence?”

In the star space, watching his Blood stripe Tiger being slaughtered.

The prince’s eyes were red, and he was all a bit mad.

Especially when he thought that Jiang Fan might have stepped into the next round.

His heart became even more twisted!

He couldn’t lose!

Absolutely could not fall here!

But they could not shift the truth by one’s will.

After ten minutes of struggling bitterly.

Inside the competition field, there was already a river of blood!

Over 30,000 Blood Stripe Tigers fell under the drunken fist of the Wine Panda.

The prince gritted his teeth and pressed the quit button!

At this point!

The thousand people from the Long Sky Star Area who came to participate in the main competition of the Group Star Competition Only Jiang Fan was left alone!

And after learning the news of the Crown Prince's elimination.

Within the campus of Bei Dou University.

It caused a huge commotion!

Some people cheered and jumped for joy!

There were also people with ugly faces.

Chapter 526: Top 32 Finals! Offered the strongest weapon!

In Ao Xiong's villa.

Ao Xiong, Li Zihao, Wang Yiteng and several school leaders around them.

Their faces were more than just ugly.

It could be described as a black pot!

Although it was against the Alcoholic who was the favorite champion.

But a few people still carried a little hope in their hearts.

But they didn't expect it at all.

This was simply a one-sided slaughter!

The difference in strength between the two sides was really too big.

These people did not realize what the championship favorite meant at all.

In their hearts, they still held the idea of “the prince is invincible”.

A player who couldn’t even dominate the Long Sky Star Area.

How could he compete with the Alcoholic, one of the strongest second-level planet masters in the entire Endless Star Region?

If not for the Alcoholic’s deliberate mercy.

It was estimated that it would not last even five minutes.

The loss was too miserable.

There was no resistance at all.

The blood-striped tiger was hanged and beaten by the wine panda!

In this miserable battle situation.

The prince could only be forced to admit defeat.

This way.

The prince also stopped at the top two thousand!

Completely said goodbye to this once-in-a-million year's star competition stage!

The top 2,000 and the top 10,000.

In fact

It didn't make any difference.

Under normal circumstances.

The student from Bei Dou University could get such a ranking.

That was definitely a matter of rejoicing.

People like Ao Xiong and Li Zihao definitely had to jump up and celebrate on the spot.

Of course, the premise was if there was no Jiang Fan's presence!

But Jiang Fan had already gotten into the top 1000.

This also meant that

This time, the battle for the successor of Bei Dou University was declared over.

When basically no one was optimistic.

Jiang Fan overtook the car from the back lane.

He directly and substantially surpassed the crown prince, who had been considered the successor.

"Abominable! Abomination!"

Li Zihao was still there, swinging his fist and hitting the wall to get out his anger.

Even Ao Xiong, who was deeper in the mansion

At this moment, his face was a little dazed.

The prince lost, just like that?

Lost to a freshman who had just awakened to the planet less than a year ago?

This was completely unbelievable.

The teachers next to each other looked at each other.

A teacher said: "Teacher Ao, I still have something to do at home, so I will take my leave first."

After saying that, he didn't wait for Ao Xiong to respond.

He directly got up and quickly went out.

"I also have something at home."

"I still have a project report to do."

"I also have something to take care of."

"....."

One by one, they got up and left.

Like fleeing a disaster, they flew away.

Everyone knew that.

The dust had settled on the succession battle.

Jiang Fan was bound to be the next successor of Bei Dou University.

And as the loser.

Especially Ao Xiong, and these people attached to the Prince.

Originally, he was expected to serve as the vice-principal or even the principal in the future.

But now even Jiang Fan didn't speak.

There were bound to be people who would fall in trouble.

After that, I'm afraid that even the mentor did not have to do it.

Not to mention, the conflict between the two sides was still relatively deep.

A big reckoning

I'm afraid it's going to start!

For Jiang Fan.

He didn't think about this at all.

But the Crown Prince being eliminated was also within Jiang Fan's expectation.

After successfully making it into the top 1000.

Jiang Fan's face also became slightly gloomy.

This top one thousand participants.

None of them were simple.

All of them were demons among demons.

Jiang Fan witnessed two matches between Huo Kong and the Crown Prince.

The race created by Ice Moon Sage and Alcoholic.....

All were super pinnacle!

Bred to be very powerful.

After getting into the first thousand.

The Lord of the Long Sky Kingdom also mentioned nothing to Jiang Fan.

This next race.

It wasn't something that could be improved by mentions.

"Go for it, Jiang Fan, it's up to you!"

Huo Kong gave Jiang Fan a fist shake.

According to the rules of the tournament.

The top thousand could enter a councilor's discipline.

And there were other rewards as well.

And for the top one hundred.

The rewards were even more superior!

It was the same as before.

They would divide the top one thousand into five hundred groups to play against each other.

Then

And then from the winning five hundred selected two hundred people would face off in groups.

To determine the final hundred!

And in this one hundred.

Thirty-two would be directly selected to participate in the final finals!

To determine the final first place!

Time didn't wait for anyone.

The group star competition did not have much time for the participants to rest.

Not long after the end of the two thousand person competition.

The lottery ceremony was held.

“Just don't touch those few big demons.”

The Lord of the Long Sky Kingdom nervously clenched his fists slightly and said, “Everyone, Jiang Fan still has the strength to fight!”

By now.

No one bothered to question Jiang Fan’s strength.

“Jiang Fan’s musketeers and pilots, in terms of output alone, not many opponents could withstand it.”

Bru also nodded and said, “I’m afraid of encountering Alcoholic, Saintess of Ice Moon, Huo Ge and other champions.”

“As long as the opponent you encounter, the build is below the super peak race Jiang Fan would be fine.”

Bru also recognized Jiang Fan’s strength.

Which of these sixth ranked planet masters was not discerning.

Naturally, they could see that

To get the upper hand against Jiang Fan.

At least have long-range output.

Otherwise it was the end of being bombarded indiscriminately by the planes in the sky.

Soon, the results of the draw came out.

Jiang Fan’s opponent was –

A woman from the Mighty Star Region!

“Ollie, from the Rio Star Area, ranked over five hundred overall in this Star Tower Breakthrough Battle, higher than Jiang Fan’s ranking.”

Long Sky read out this opponent’s information.

“Ollie builds two races.”

“One is capable of long-range output, and the other is a melee fighter, which is a very suitable match.”

Bru followed and added.

Bru naturally had nothing to worry about.

The Elves Empire closed its eyes.

At least ten people could enter into the top 100!

He was now also looking at the only remaining Jiang Fan in the Long Sky Star Area.

Chapter 527: Top 32 Finals! Offered the strongest weapon!

In fact, Bru was also very interested in these two brand new races that Jiang Fan had created.

“Fortunately, this Ollie doesn’t have a flying race. I’m afraid Jiang Fan has a better chance of winning.”

Bru analyzed.

Although the Lord of the Long Sky frowned slightly, he also knew that for this match, Jiang Fan was very likely to win it.

And for this game, the Great Desolate Army began to replace their brand new weapons –

The second generation of electromagnetic rifles!

This electromagnetic rifle had a much longer range.

The assisted aiming function was more powerful.

With intelligence, it could effectively improve the shooting accuracy.

And the most important thing was

The speed of firing bullets was faster!

Originally it was over three thousand meters per second.

Now it was directly improved to within 4,000 meters!

Close to five thousand meters per second.

What was this concept?

It was the same as being able to penetrate a one-meter thick steel plate with one shot from four kilometers away!

Of course, that was in the case of using spike bullets.

Spiked bullets were also upgraded.

The power was even more powerful.

Such a powerful battle power.

There would be no suspense in this game.

The opponent Ollie created two races.

Among them, the long-range output races were randomly killed by the rainstorm fighters.

While the melee race was completely unable to rush over, all fell three kilometers away!

Especially the beheading tactics of the Great Desolate Army.

It worked very well.

After taking out the leader of the opponent.

The morale of the other transcendent races on the other side was greatly reduced.

It was easy to be crushed!

“Damn it!”

Seeing the transcendent species that she had worked so hard to cultivate being slaughtered one by one.

Ollie could only helplessly grit her teeth and admit defeat.

“Jiang Fan? I’ll remember you.”

Ollie clenched her fist and withdrew from the star space.

Jiang Fan, on the other hand, had successfully advanced to the top five hundred people.

The five hundred people still needed to draw lots.

The tower spirits were used to judge and draw two hundred of the contestants.

This time

The Lord of the Long Sky Kingdom was calm.

Because he was basically sure.

Jiang Fan's strength could definitely be ranked among the top one hundred of the one million contestants in this session!

"The top one hundred is stable!"

Bru also made a joke.

Two hundred people were divided into one hundred groups to face each other.

This time, no aerial flying species were encountered.

"This Jiang Fan is really lucky."

Bru said with a smile.

"No no."

The Lord of the Long Sky Kingdom shook his head, "If it were you, would you prefer to run into flying species, or a melee race?"

"Uh"

Bruce froze for a moment, then said, "You're right, actually..."

“In level two, the melee race is stronger than the flying race!”

“Flying species output and defense are generally very weak, and extremely difficult to breed, and the number will not be too large.”

This was also an accepted fact.

That’s why this year’s group star competition.

Most of the contestants built melee species!

But no one could have imagined that

There were also melee nemesis like the Great Desolate Army.

There were no surprises in this game.

After half an hour of fighting.

The opponent chose to concede defeat.

Jiang Fan made it into the top one hundred without any problems!

The other top 100 finishers also came out one after another.

In this Stars Contest, there were no surprises or dark horses.

Except Jiang Fan!

Except for Jiang Fan in the top 100.

All of them were favorites.

Including Saint Son Tianheng, who was previously recognized as the strongest freshman... was also among them.

And Jiang Fan's unexpected rise.

It was also the first time that many contestants noticed that there was such a person.

"Jiang Fan from the Long Sky Star Area is also a new student this year?"

Saint Son Tianheng snapped a few glances at Jiang Fan.

His brow couldn't help but frown slightly!

Completely unexpected.

There was a new student this year who was almost as demonic as himself.

"But"

Saint Son Tianheng secretly thought, "I'm going to challenge the strongest freshman ever in the history of the Group Star Competition, this Jiang Fan is not an opponent I'm going to consider."

The others also just glanced at it a few more times.

There was no special attention.

Next, It was the most important finals!

First, thirty-two people would be selected from the top 100!

This was also the standard of the tower spirit to choose.

This time, except for Alcoholic, the Ice Moon Sage, were the few big hits.

Everyone else was nervous.

Because the others were each extremely close in strength.

It was hard to choose.

The Lord of the Long Sky Kingdom was also frowning.

I wonder how much Jiang Fan hopes to be chosen by the tower spirit.

And for the first time, Bru also watched it seriously.

The huge projection above the square.

A few moments later.

One name after another appeared.

The list of thirty-two people who entered the finals was released one by one.

Jiang Fan was also the same as others.

Looking upwards.

Alcoholic, Ice Moon Sage, Huo Ge, Augustus, and Bright Moon Snow.

These five names of the big favorites for the championship appeared on top first.

Next were the second-ranking contestants like Aya, An, etc.

Further behind was the third grade.

By the time the twenty-eighth name came up.

The one displayed on the projection was – Jiang Fan!

Seeing this scene.

The Lord of the Long Sky Country couldn't help but clench his fist in excitement.

The corners of his mouth were all hung with a smile.

“Hahahaha, it's been a long time since I've seen you laugh so happily.”

Bru couldn't help but tease.

A few moments later, all the thirty-two people were listed.

The vast square was suddenly in an uproar.

These were not those players from before.

This time the top one hundred, each one of them was very close in strength.

It was hard to tell the difference between the high and the low!

Some people didn't even use their bottom cards completely.

But it was directly discarded.

This made many people feel very dissatisfied and suffocated in their hearts.

“The tower spirit must have made a mistake. How could I not have been chosen?”

A black-clothed man clenched his fists.

His expression was very agitated as he shouted.

Chapter 528: Top 32 Finals! Offered the strongest weapon!

Especially Saint Son Tianheng.

It was simply hard to believe his eyes.

It was because he didn't make it into the list of the thirty-two people either.

Originally, he was thinking of breaking the record of the strongest freshmen in previous years.

But unexpectedly

He didn't even have this chance.

seeing Especially Jiang Fan actually ranked twenty-eight.

The heart was even more extremely unbalanced.

"Mistake! It's definitely a mistake by the tower spirit. Even people from a small place like the Long Sky Star Area can get in. How come I can't get in?"

Saint Son Tianheng shouted.

The voice was very loud.

It resounded through the entire square.

“Presumptuous!”

A majestic voice rang out.

It was not Liang He who was presiding over the competition or who else.

The whole place was instantly silent.

“Holy Son, don't be reckless.”

The leader of the Tianxing District, an old man in black, was scared out of his wits.

Immediately berated loudly.

It wouldn't matter if it was just questioning the council.

But questioning the tower spirit?

That was an existence that was even older than the history of the Group Star Council.

It wasn't just a tower spirit.

But it also had a potent power.

If it was furious, it would directly punish Saint son Tianheng.

And no one would dare to say anything.

In the end

It didn't turn into a farce.

The black-clothed old man directly pulled away the Saint Son Tianheng.

“Too presumptuous to question the Tower Spirit's decision. Who does he think he is?”

Bru shook his head and said, “If it was the genius that comes along once in a hundred thousand years, maybe the council would still listen.”

“This Saint Son Tianheng is only nineteen years old now, and it is understandable that he speaks impulsively, with an unbalanced mind.”

The Lord of the Long Sky Kingdom smiled faintly.

“It is unexpected...”

Bru smiled and said, “The Tower Spirit chose not the Saint Son Tianheng, but your Long Sky Star Area's..... Jiang Fan!”

“I guess it was because of Jiang Fan's ability to build the output of the race.” The Lord of the Long Sky Kingdom guessed.

“It should be.”

Bru nodded and said, “In terms of output, Saint Son, Tianheng is no match for Jiang Fan, Musketeer and pilots, especially pilots. I'm afraid they can compete with those few big hits.”

“Together, it's worse than—a bit.”

The Lord of the Long Sky Kingdom shook his head, “Wait, I'm afraid that in the first round, We'll encounter one of the five big favorites for the championship.”

“Let's see the luck.”

Having come this far, Bru wasn't comforted.

It was already successful enough!

Thirty-two strong!

This was the highest ranking the Long Sky Star Region had ever achieved in the Group Star Competition!

“If Jiang Fan goes further and makes it to the top sixteen, that would break the historical record for freshmen in the Group Star Competition.”

Bru said.

Previously, one of the strongest freshmen in the history of the Group Star Competition..... reached the top thirty-two.

But fell in the first round!

Now Jiang Fan has tied this record.

"It's useless to talk about this. Look, which opponent was drawn?"

The Lord of the Long Sky Kingdom stared at the huge projection.

The draw for the top thirty-two also began quickly.

The results also came out instantly.

Again, it was the Tower Spirit's doing.

Pairing up according to the strongest and weakest.

It would not let the champion's favorite meet in advance.

Nothing unexpected.

Jiang Fan this time

Meet a powerful opponent –

Mok from the Imperial Star Region, a top 15 ranked demon!

“The good news is that we didn't meet those five big favorites.”

Bru laughed, “The bad news is that this Mok is from the Imperial Star Area.”

The Lord of the Long Sky Kingdom's face was strained.

The Imperial Star Area was one of the many star areas in the Endless Star Area..... It could be ranked in the top three existences!

“The overall quality of our Elven Star Area is like that of the Imperial Star Area. But the Imperial Star Area has a champion hotshot this time – Augustus.” Bru said helplessly: “This makes the Imperial Star Area always overwhelm us.”

“This game..... Jiang Fan might be more dangerous.”

The Lord of the Long Sky Kingdom knew this was a subtle remark from Bru.

In fact.....

He also had to admit.

Jiang Fan's journey to the Group Star Competition.

It should stop at this point.

On the vast square, many of the eliminated contestants still lingered here.

Watching the top thirty-two matches.

“Mok from the Imperial Star Region?”

Huo Kong looked at the matchup and frowned slightly, “Now Jiang Fan is in trouble!”

“There is still a slight chance of winning against the others, but Mok.....” Xi Ya also said: “The race he created is extremely restrained against Jiang Fan. This match is very difficult.”

“Basically, there is no hope.”

Chang Feng was more honest.

Saying out loud what the crowd was thinking.

“It doesn’t matter, it has already tied the historical record.”

Huo Kong laughed: “Jiang Fan is now considered one of the strongest freshmen in history, and that Jiang Fan came out of a small place like our Long Sky Star Area is unprecedented.”

This side of the Imperial Star Area.

Mok and a few others were also discussing the next opponents.

This time, the Group Star Competition.

The results of the Emperor Star Region were excellent.

In the top thirty-two

It takes up three of them!

“Augustus won’t say anything.”

The majestic old man leading the team looked at Mok and said, “Your opponent is Jiang Fan from the Long Sky Star Area. As long as you don’t get careless, you can take it steadily.”

“Don’t worry, although the strength is much different, I will definitely give my best to break this freshman’s dream of breaking the record.”

Mok smiled slightly.

His expression was very relaxed and freehand.

“Augustus, I’ll see you in ten minutes.”

Mok said confidently towards a blond, handsome looking man next to him.

The crowd couldn’t help but laugh.

Everyone knew.

For Mok, dealing with a freshman from a remote star area.

Ten minutes was still conservative.

It depended on whether Mok himself wanted to solve the game quickly.

The result was

It was really as Mok said.

Ten minutes later, the game really ended early.

Only

It was a little different from what everyone thought.

The one who was dealt with was replaced by Mok.

Because in this game.

For the first time, the Great Desolate Army used a super-large weapon that had been developed for decades.

The power of this weapon was even more terrifying than a missile!!!

Chapter 529: Unscientific Electromagnetic Cannon! Blast off!

The finals of the top thirty-two

There was also no delay.

After the results of the lottery pairings were released.

It soon began.

This time

Long Sky Country Lord still did not give Jiang Fan a mention, in order to be afraid of putting too much pressure on Jiang Fan.

But also sent Jiang Fan the information of his opponent Mok.

Using this short rest time.

Jiang Fan adjusted the blue star time flow rate.

Let the seniors of the Great Desolate Army study the opponent's video properly.

The match officially started!

This match attracted a lot of attention!

The main reason

Naturally because of Jiang Fan.

As being chosen by the tower spirit.

Even the freshman who pressed the previously more famous Saint Son Tianheng.

Everyone wanted to see what kind of strength this new student had.

“Humph, I want to see whether this Jiang Fan is better than me?”

At the plaza – in a corner.

Saint Son Tianheng was also staring at the match.

His eyes were still full of disbelief.

“Why should the tower spirit choose him over me?”

Saint Son Tianheng was extremely dissatisfied, “In terms of heritage, in terms of strength, I'm definitely not inferior to Jiang Fan, and I even have bottom cards I haven't used yet.”

“Just assume that Jiang Fan is stronger! I’d like to see how long this Jiang Fan can last in this match with Mok?”

“He won’t last less than ten minutes before he’s eliminated.”

Thinking about this, a smile appeared at the corner of Saint Son Tianheng’s mouth as he muttered, “That’s a likely thing.”

“According to Mok’s character, he definitely has to be as strong as he can be, and when that happens

“This Jiang Fan is going to be slaughtered as a pig!”

And in the square, others were also talking.

But at most, they were just a little curious about Jiang Fan.

None of them thought that there would be any suspense in this match.

Even those discerning sixth ranked planet masters.

All of them also thought that

This match should be over soon.

“If Jiang Fan can last over ten minutes, he’ll be considered a winner.”

The Lord of the Long Sky Kingdom laughed.

He relaxed his mind at this point.

“It’s not bad, even if you’ve made it this far.”

Bru smiled faintly and said, “It’s already squeezed into the top 100, so he can worship a good counselor as a teacher in the future, plus his identity as the strongest freshman this year!”

“It can be said that

“The future is limitless. The future achievements will not be worse than those five championship favorites!”

The Lord of the Long Sky Kingdom also nodded his head.

After all

The most crucial point about Jiang Fan was his age.

And among those five championship favorites, the youngest one was at least thirty years old!

And Jiang Fan was not even twenty now!

“Let’s see, there’s also a possibility that this little guy may bring us some surprises again.”

Bru said casually.

In the huge projection in front of them.

Jiang Fan and Mok’s respective created races had already made their appearance.

Jiang Fan’s side didn’t need to be said.

It was the same as usual.

There were still 100,000 Great Desolate Army warriors and five hundred storm fighters.

As well as five hundred giant gorillas and three thousand electric mounds.

Only

One thing was different from the past.

At the back of the spider chariot.

There was an additional chariot of a much larger size.

Almost five times the size of the ordinary spider chariot!

And on the opposite side, there was one race created by Mok – ghouls!

This was also one of the top thirty-two.

The only player who built only one species.

Able to kill into the top thirty-two with a single species.

That was enough to show how powerful this ghoul was!

Through the micro drone shot.

They could clearly see it.

There were a lot of ghouls on the opposite side, densely packed.

“It is estimated that there are at least 200,000 of them.”

A scholar reported.

“Two hundred thousand?”

The crowd all frowned slightly.

This differed from what they had seen in the previous match video.

In the previous matches.

The most that Mok had deployed in each match were only one hundred thousand ghouls.

But against the Great Desolate Army.

They doubled it several times.

A ghoul was not big.

The appearance was like a hyena's.

But there was no hair.

Bare.

There was a string of uneven, messy teeth in his mouth.

One side of the teeth constantly flowing down the dirty saliva.

The lower side had four feet.

Ghouls moved in a crawling way.

Speed was not fast.

“It should be a melee power transcendent species.”

A scholar observed for a while and reported, “This ghoul’s strength and physique are not outstanding. It mainly relies on its special ability!”

“Ghouls can swallow the dead bodies of other creatures to give themselves a boost.”

“And

“This enhancement can be said to be without end.”

“Once there are enough corpses, the ghouls will become stronger and stronger!”

“Just how strong it will eventually become is unknown.”

A group of scholars were observing.

What they saw in the video was not real enough after all.

“Our electromagnetic rifle should be able to penetrate the ghoul’s body without accident.”

Luo Cheng frowned and said, “But it’s not much use, the remaining ghouls will even swallow their own kind.”

“The strength boosted by swallowing its own kind is even higher.”

“This one is difficult for Jiang Fan, Mok’s side Sure enough, they are going all out.”
Watching the battle, Bru shook his head for a while.

“If I didn’t have to settle this battle in ten minutes, where would I send so many ghouls?”

-Inside the star space.

Mok was looking at the playing field with boredom.

-While muttering to himself.

Chapter 530: Unscientific Electromagnetic Cannon! Blast off!

The opponent wasn't much of a threat.

The previous match video of the Great Desolate Army.

Mok wasn't careless.

It was also good to watch a few games.

"The musketeer is okay. The weapon that the plane can track is indeed powerful."

Mok said to himself, said: "But Still not enough of a threat to my ghouls!"

"The strongest freshmen are only freshmen. The strength is far from our old -fashioned second level planet."

The corners of Mok's mouth curled up in a smile, "Hurry up to end the game and think about the strategy for the next game."

"If there are no surprises, the next match is going to be against An, one twin of the Elves' Empire."

"It has a little restraining effect on the race I built."

"The ghouls that represent killing and death."

Mok shouted and ordered, "Show your strength and take out the opposite side as fast as you can!"

Hiss! Hiss! Hiss!

In the competition venue.

The 200,000 ghouls let out an ear-piercing screeching sound.

It was like the sound of teeth rubbing against the wall.

It gave people straight goosebumps.

Immediately after that, a tidal wave of attacks was launched towards the Great Desolate Army's position.

Two hundred thousand dense and thick.

Black and oppressive.

Like an overwhelming surge.

The ghouls used a crawling way to move forward.

Therefore, the speed was not fast.

There was no difficulty in sniping for the Great Desolate Army.

Especially with the electromagnetic rifle that has been upgraded now.

-The first thing they needed to do was to look.

When the ghouls rushed into the range of five thousand kilometers.

One hundred thousand of the Great Desolate Army also opened fire.

Swoosh! Swoosh! Swoosh!

Countless spiked bullets pressed towards the ghouls like a fierce wind and rain.

Poof, poof, poof

There was no doubt.

The ghouls' physique was powerful.

But also could not stop the penetrating power of spike bullets.

It was directly pierced through the heart.

Only

The Goblin chief, the half-man mammoth, these thick-skinned melee transcendent species was not quite the same.

The resistance of the ghouls was very strong.

There were more than a dozen thorns.

Still, it was nothing serious.

Still crawling rapidly towards this side.

Looking down from the sky, densely packed and ant colony general.

Whoosh! Whoosh! Whoosh!

The five hundred rainstorm warplanes above the sky also attacked.

A missile was dropped.

The Star Competition proceeded to the top thirty-two here.

Besides, a few weapons.

Other explosive bombs, rocket-propelled grenades were not very useful.

If it was against ordinary people.

These weapons were indeed very strong.

But for transcendent beings.

The first thing to consider was Hit!

Second was penetration ability.

The strongest bombs were impact and fragmentation kills.

But the premise was also ordinary people.

If it was a ghoul, fragments simply could not hit through the body surface. The impact could only cause little internal injuries.

The resistance of ghouls was useless at all.

This was still the case at close range.

The same was true for other weapons.

The hit rate was a problem.

But not with the electromagnetic rifle.

The speed has reached a staggering, nearly five thousand meters per second!

It could fire thirty spiked bullets a second.

That was something the cannonball couldn't match.

If the ghouls were smarter.

Marching on the ground.

Unless the shells land on top of the body.

It was possible to do more damage, not to mention the shells.

The power of the missiles now was also gradually insufficient.

After hitting a ghoul precisely.

Boom.

It would blow this ghoul into pieces.

But the rest of the power wiped out two or three ghouls in the surrounding area.

It differed completely from the scene that resolved the Siren during the exchange game.

This also made the crowd of the Great Desolate Army realize that Xia's arsenal still had to be upgraded.

Especially in the future, they might have to deal with the races created by the third level planet masters.

Then relying on missiles would be completely inadequate.

“This kind of weapon is terrifying and powerful.”

Mok in the star space saw a missile.

Each one was taking away two or three ghouls.

He couldn't help but look at it a few more times.

But there wasn't much worry in his eyes.

Swoosh! Phew! Phew!

He heard electromagnetic rifle and missile firing and bombardment one after another.

It was completely unstoppable.

This made Mok feel a little annoyed.

Because

Under the terrifying firepower, strikes of the Great Desolate Army.

Even the 200,000 number of ghouls.

It could not rush within three kilometers.

If it continued, he estimated that the charge would be less than half.

These ghouls would all die.

Mok looked at the time. The game had passed over three minutes.

From the original schedule within ten minutes to solve.

According to the conventional way of playing.

It was certainly not possible.

Mok shrugged helplessly and ordered, "Ghouls, spread out and pull back."

At once, one ghoul quickly turned around and withdrew.

As they retreated.

They didn't forget to take the corpses of their companions with them.

Waiting to retreat to a safe range six kilometers away.

Only then did it stop.

But the missiles from the storm fighters in the sky didn't stop.

"These things are really annoying."

Mok frowned slightly.

Immediately, he ordered, "Ghouls, start your evolution, next is your show time."

Hiss! Hiss! Hiss!

A ghoul let out an unpleasant scream of excitement.

Under the observation of the miniature drone.

Huo Qubing and Luo Cheng and the others saw the ghouls' movements clearly.

And saw

These ghouls actually grabbed the corpses of their companions that they had just brought back.

They started swallowing!

Swallowing in big gulps.

The speed of eating was very amazing.

A few moments later, they swallowed all the bodies of their companions into their stomachs.
