

Only Fuel 100

Chapter 100

Scarlett's Flame Arrow has strong mobility and she could control it precisely like it was part of her body. The arrow rushed to Yuna with great speed.

The pink-haired woman winced, however, she had to dodge the flame and protect Calix. She didn't have the time to think about her injuries. She grabbed Calix and teleported to another spot.

Yuna could travel 100 meters away as long as she could see. But now that the hideout was enclosed and she didn't have the vision of the outside, she could only change her location within the hideout. She jumped five meters away from the Flame Arrow.

"Guhh--!!"

She was holding Calix who was tied up in the chair. She gagged his mouth before he could speak again.

"Release my baby, or else you will turn into charcoal."

Scarlett stated, she was not joking at all. How could she be? The person who she loves the most was kidnapped and he was tied to a chair, he couldn't even speak. She was mad.

Scarlett was quite surprised that her enemy has the power to teleport, she only knew one person who could teleport in her Clan. This type of power was rare and every organization, clan, and country wanted to have at least one teleporter under their list.

Scarlett recalled the unknown shadow that was always lurking around Athena. She didn't know his identity but she knew the shadow since she was a child. The unknown shadow had the power to travel using the darkness.

'It doesn't matter if she's a teleporter, I will burn her. How dare she tried to do that to my Calix!!'

She glared, she could see that Calix was not wearing his pants and his huge rod was dangling around. Based on that aspect alone, Scarlett understood that Calix and this woman had sex. Scarlett stared at the bleeding woman. She was furious.

"I'll give you one chance, give me my baby. Or else you will have a painful death."

"No!! Calix is mine!!"

Yuna spat as her vision slowly turned red because of the blood rolling on her face, it seemed like her injury was severe.

"Then die."

Scarlett cast dozens of Flame Arrows and all of them were aimed at Yuna. Yuna clicked her tongue, she was in danger. The hideout was enclosed so she couldn't escape.

She did her best dodging the Flame Arrows but they were following her wherever she went.

"Gotcha!"

Scarlett grinned as she found a weak spot in her defense. Her Flame Arrows listened to her command and went to Yuna in every direction. However, Scarlett lost her control when her stiletto broke.

"Kya--!!"

She yelped as her legs lost their balance, she stumbled on the floor. The Flame Arrows that were aiming at Yuna disappeared.

This moment gave Yuna a chance to escape. She rushed to the broken wall and saw a glimpse of outside. While carrying Calix, she teleported into the forest. She grinned, now that nothing was blocking her vision, she could escape this place without a problem.

However, someone already predicted her movement.

"Don't even think that you have the victory."

A woman with round glasses aimed her net gun at Yuna, she fired the net and it hit Yuna together with Calix. Yuna and Calix were caught by the net.

"Good job, Kimberly."

Scarlett appeared, she wasn't wearing stilettos anymore. Her pale bare feet walked to the ground and she was glaring at Yuna as the Fireballs around encircled.

Kimberly nodded and dropped the net gun, she could only use it once.

"You have to be careful because this woman had sex with Calix, this means that she is Lucky. Maybe your broken stiletto is affected by that. I don't know how Luck works for her but you have to be careful. So far, it's the best to let me handle this. I'm Lucky."

Scarlett didn't like how Kimberly said it, but she knew how powerful Calix's Term Attribute so she nodded. She decided to take some distance but she kept her Fireballs around her body in case Yuna do something.

Kimberly nonchalantly pulled out something in her purse, she had just recently perfected it. She found a way to shrink it, it took her three days but it was worth it. This was her gift to Calix.

Calix who had a ball of cloth in his mouth widened his eyes. As for Yuna, she just scoffed. This net could never hold her back.

She grabbed Calix and teleported again. Two people disappeared and the net lost their targets. Scarlett aimed her Fireballs at Yuna but Kimberly just shook her head and signaled Scarlett not to attack them.

"Are you sure about it?"

Scarlett glanced at her. She just met Kimberly but she already knew that she had a big brain.

"Don't worry, Calix can fix this by himself. He's not a simple guy."

Kimberly stated. She witnessed how Calix killed two 2nd Advanced with ease. He had the disposition for this.

"After all, the only way to defeat a Lucky person is by using a Lucky person, and Calix has that aspect in his very hands. Even her Luck came from Calix, so you don't have to be worried."

...

"Hehehahahahahaha!!!"

Yuna started laughing so hard, she was like a witch in the middle of the night. She was delighted that she easily escaped the two. She had an injury on her head but she didn't have to worry. She could find a way to heal herself.

"Now is Calix is mine!! He is mine!! Mine alone!! Yes yes yes hea eyes hesye zhs shsvs!!!
Hehahahahhahahah!!!"

Her mouth stuttered because of too much joy.

The two corners of her mouth curled up that they almost reached her ears as blood rolled down her face. She was indeed crazy. The image that she was showing right now was crazy.

She was trembling because of happiness. Heck, she almost cum because of it. She wanted to jump and pounce on Calix. Then, she turned to Calix but he was missing. There was only a chair beside her.

"Huh?"

She tilted her head, she couldn't find him.

"Are you looking for me?"

"Calix-!!"

Calix pulled the trigger of his pistol and shot Yuna on her head. He didn't have any expression as he did it. The woman fell to the ground, unmoving.

Kimberly gave the gun to Calix before he was teleported. He used the gun to escape and...

[Okay, some of you may be disappointed that Kimberly has her limelight in this arc while Scarlett appeared to be defeated. Well, I have two reasons. First, she's the heroine of this Arc. Second, she's Lucky so her actions are always favorable right now. However, once Scarlett had sex with Calix, her time to shine will come too.]
