

Only Fuel 47

Chapter 47

Three days passed after the battle against Young Master Chen. The school looked normal and peaceful, although some people were confused why there was a sinkhole and burned ground close to the campus. No one knew that two battles happened close to them, the students were oblivious and the authority only knew a quarter of the story. Only those who directly participated in the battle knew everything. It was Lucky that only a few people know, the shadows easily silent those from the enemies so no words came out and everything returned to normal.

General Bronal commanded them to silence those Term Attributes Users who knew that Scarlett became 2nd Advanced. Killing them? It was not a problem. As long as it didn't have a direct effect on the country, the General could do what he wanted. These are the freebies of being a General.

General wanted to keep it a secret that Scarlett broke through, it could be an advantage later on. Bronal didn't care about surpassing the history and neither is Scarlett.

Overall, it was peaceful, some people were confused why Young Master Chen disappeared but no one lingered for long. Chen is a bad guy and no one truly treated him as a friend. In fact, most of them were happy that he disappeared, especially the maids that he raped, they could breathe well. They may lose their master but their job was still intact. Apparently, their new master, the daughter of the CEO will be the next owner of the mansion.

"Phew, as expected of Lady Scarlett. You already mastered your power despite having a breakthrough recently."

Athena wiped his sweat, she was overwhelmed by the power that Scarlett demonstrated. She is a true monster. Athena was proud of her, now she was relieved that Scarlett could protect herself. She released her metal bat and leaned on a tree, she was exhausted fending off every spell that Scarlett cast. Obviously, Scarlett had still some dissatisfaction with Athena so she decided to slightly punish her and Athena gladly accepted her punishment.

They had sparring but the winner was already obvious. To be honest, Athena was confident in her Term Attribute, she could kill any fire through her wind but Scarlett was different. Her fire is not an ordinary element, they were alive like serpents crawling on the ground and ready to release their poisons. Athena's dress had burn marks all over, she sighed and accepted her defeat. Even her arm was charred red and it was throbbing.

"I lost."

Scarlett slowly approached her, there were spheres of flame revolving around her and she looked like a goddess who descended from the sky.

"Flame Arrows... More like Flame Serpents."

Athena said her opinion as she looked at the arrows that were coiling around Scarlett, they were spewing fire as if they were alive. Athena witnessed how these arrows killed two 2nd Advanced. Their flame was different than any fire, they won't die unless Scarlett wanted to. It's a frightening ability.

[Scarlett Robinson]

[FireBall Term Attribute]

[Flame Arrows Term Attribute]

These arrows were not ordinary, they were like the arrows of a certain witch from the anime Soul Eater. They had great mobility than her Fireball, Scarlett's attack mobility was answered by these. Her Fireball only move forward and she didn't have any control of it after she released it. However, the Flame Arrows were different, she could do what she wants with them, they are her servants and will loyally follow her.

"It's an honor to serve you, my Lady."

Athena bowed her head, despite being injured and had burn marks, her loyalty still remains. It was an obvious fact, but she treated Scarlett like her sister.

"Athena, what do you think of me?"

"You are my master, I will gladly offer my life for you."

"... You can leave now."

"As you wish."

Athena bowed again for the last time and left, she moved fast and she vanished like air.

Scarlett looked in the direction where she ran. Truth be told, Scarlett was not angry at Athena anymore. Still, since she was the master, she decided to show her position. She had to show that she is strong and not easy to trifle with. She could understand where Athena was coming from, she decided to bit her molars and witnessed how Scarlett suffered just to become stronger, it was agonizing.

"At this moment, I know that you are the one who's hurt the most... that's why I have to show you that I'm stronger... Athena, I will become a powerful Vindicator to protect everything important to me."

She said with conviction, her crimson eyes looked at the sky. She was actually perplexed by how easy it was for her to master her new power. She felt like her body was moving on its own, and control the Flame Arrows.

'No, it's not that... I feel like something invisible is helping me, making my path towards power easy to walk.'

Scarlett didn't know that she was being helped by Luck, a vague term but a powerful one.

Scarlett Flame Arrows coiled around her and started disappeared, even the Fireball around her disappeared, yet her essence of being a goddess didn't disappear. Since she became a 2nd Advanced, every impurity in her body vanished and she became more beautiful with no speck or ugliness. Her blemished skin, unfair skin tone, and even scars disappeared.

When she returned back to the campus, almost all of the males started losing their minds, gulping, and kneeling before her presence. They almost believe that she was a goddess, Scarlett was prettier and irresistible. Even Calix was started to get anxious because he could see that a lot of horny guys were trying to make a move on his girl.

Luckily, Scarlett is head over heels over him. Just like Scarlett, since Calix's Luck returned, his natural pretty face glowed again and a lot of vixens were flirting with him. Scarlett was grinding her

teeth while looking at those women who were getting close to Calix. They both have the same problem.

The two decided to keep their relationship a secret because it was going to be troublesome if the campus learned it.

"It's fortunate that we quickly found a Heal-type Term Attribute User, Calix was healed and we returned to the campus earlier than what we expected."

To be precise, the healer was only paid to heal Scarlett's wounds but she begged the Healer to heal Calix too. It agonized her to see Calix hurting because of his injuries, the other reason why she wanted Calix to heal was that she was eager to fuck!!

Chapter 47

Lucky 47
