### Chapter 48

While Scarlett and Athena were having sparring, Calix was in the library again. He was reading the books he missed last time when Devon asked him for a battle. He was curious if Arthuria controlled his Term Attribute or not, it was important for him. He seriously read every book related to the legendary hero, but he failed to find an answer.

"As expected I have to find another way..."

Calix sighed and closed the book, he leaned on his chair and looked at the ceiling. What he didn't know was that his gesture was so hot and all of the women in the library were glancing at him. They had fiery eyes, glowing, hunger for him. It was a chill that could make any person sense the changes.

Even the librarian kept looking at Calix, she was trying her best to act normal despite having red cheeks because of blushing.

"I guess I have to stop today, I still have things to do (such as sex)"

He omitted the last part but based on his grinning face, it was obvious what he meant.

Three days already passed since they had sex and after a few hours, Calix would lose his power again. To prevent that, he had to refuel, which means that he had to have sex. Calix looked at his phone, and just as he expected, Scarlett already texted him.

Calix smirked and the girls gasped witnessing him smiling like a prince, some of them even fainted because of too much awe.

Calix started walking and gave his library card to the librarian, the woman stamped the card and bowed gracefully. Calix greeted her for the last time, smiling, then he walked like a chad that he is.

He was happy right now because he was going to bang his girl!

.....

.....

...

Scarlett looked at her phone for the third time, she was waiting for Calix. Scarlett booked a room in a high-class hotel, she was in a sports car and waiting for Calix to show up. Then, when she looked at the window, she smiled as she saw Calix running.

She giggled, it was obvious from Calix's expression that he was excited and horny. Well, she couldn't blame him because she was horny too. Even now, she was secretly rubbing her thighs.

She opened the door for Calix and welcomed him with a beaming smile. Calix wiped his face because he was sweating.

"Come in."

"Thank you."

Calix entered the car and closed the door. Without further ado, Scarlett immediately attacked him with a kiss. She stole his lips and devoured them, sucking them as if she was thirsty.

Calix returned her kiss, their tongues intertwined tasting the sweet flavor of each other. Calix pulled her closer leading Scarlett to moan but it was swallowed because of the long smooch that Calix gave.

"Mmm, oh hello little guy."

Scarlett curled up her lips and stroked Calix's bulging organ over his pants. Her warm breath almost take Calix's life, her fluttering eyelashes mesmerized him, the way she rubbed her hand over his swollen rod was out of this world. Scarlett giggled and gave him a peck.

"Don't worry, we'll be there in just a few minutes."

She grinned and switched on the engine, the rumbling of the sports car echoed but Calix couldn't hear it. He was too focused on her.

The sportscar ran towards the road at its full speed, Scarlett was wet down there and wanted to reach the hotel as fast as she could. Just like what she said, they reached the hotel in just a few minutes. The road was so wide and there was no traffic either, fortunately.

Scarlett and Calix entered the hotel with blushing faces, they knew what was going to happen when they entered their room. They successfully checked in, few people looked at them but the couple was so absorbed into their world.

"At last, we are here. I book this room for three days... I hope you like the place."

"I'm already in love... with you."

Calix said a pick-up line which caused Scarlett to slammed the door and locked it faster than the speed of sound. Then, her ferocious eyes stared at Calix, she jumped pouncing and Calix caught her with his strong arms. They didn't wait for any second and immediately started making out.

The sounds of their smooches echoed in the room. As they kissed like savages, their arms mindlessly tore each other's clothes. Calix yanked Scarlett's dress and ripped them into two, Scarlett gasped as her bountiful breast jiggled.

Calix lowered his head and put his head against her chest, she shivered as Calix slowly unclasped her bra. Then her tits bounced, lively, and Calix sucked her nipple and his fingers played with the other. His tongue made circular motions and flicked the nipple, Scarlett jolted and weakly grabbed Calix's hair. Her back arched as Calix bit her nipple, it felt so good that she almost forgot her name. It was different from how she touched herself. Calix's hands, fingers, and even his tongue, they could make her cum with just a few touches.

'If this is part of his Term Attribute, then this is dangerous. I don't know if I can live without this sensation, everything he did to me feels so good. I might become a bad person because of you, Calix'

Scarlett didn't care. She would gladly take the role of being a villain just to have Calix. She knew that she will never get this kind of pleasure if she let Calix go.

"Hhaaahh... Hhaaaa..."

Scarlett laid down on the bed, she was breathing roughly as she cum just because Calix played with her tits. As if Calix was born to be a fuckboi instead of being a Vindicator.

Calix was watching how sexy Scarlett is, her chest moved up and down as she breathed hard. He saw how her tits perked up like they were mountains. As for her expression, Scarlett was in heat. Her face was blushing yet her eyes expressed that she was hungry for more.

Calix pulled his pants down, he kicked his pants away, it landed on the floor just like Scarlett's dress and bra.

Calix looked different now, his deep greenish-brown eyes looked dangerous. He commanded Scarlett like a king that he is.

"Suck it."

He was talking about his megalodong that was standing like an erect soldier. He straddled on the bed and pulled Scarlett down beside him and yanked her head to his lap, Scarlett turned crazy as she smelled his raging manhood. Her heart was pounding and she stared at Calix's humongous rod.

Gulped.

Her mouth instinctively opened as she swallowed his large head. She started sucking him, feeling his enormous junior in her mouth. She worked her tongue over his head, like a master, twirling it around and then flicking over the head.

The fun was just getting started because she didn't fully accommodate him. Her lips stretched over his cock, sucking it, it gave her thrill, and wanted to suck it more. Calix's groans echoed while Scarlett used her mouth to pleasure him.

'Oh Gosh, is it a sin to be horny like this? Calix you're making me crazy."

This is Scarlet's first love so you can't blame her if she felt electrocuted whenever she had sex with Calix. It was one of the things that she was eager to get since it felt so good. You know, people like pleasure. As a matter of fact, she's not horny(?), she just loves Calix so much...
