Chapter 50

Scarlett's ragged breathing was music to his ears, Scarlett was twitching and her head was hung up, her mouth was opened but no words came out. She just cum and the pleasure was still erupting inside her, her back arched and her hips were shuddering uncontrollably. Calix gave her time to relax, she was feeling his dick inside her stretching and throbbing walls. Calix caressed her cheek and Scarlett started sucking his thumb.

"Mmmmm..."

It didn't take long for her to return to her senses, that was the most intense climax she ever had. Well, every time she had sex with Calix, she always had intense orgasms. She couldn't control her body and shudder, she even felt that she squirt like crazy.

Calix decided to take his dick out of her, then he found that his dick was covered with love juice. It was so hot seeing Scarlett having ragged breathing because of his relentless thrust. She was lying on the bed, looking at the ceiling, she almost believed that she was seeing stars because of what happened. Love juice oozed out of her pussy as she breathed.

However, now that Scarlett is a 2nd Advanced Term Attribute User, her stamina is almost limitless. Despite cumming like there was no other day, Scarlett was still open for the second round. On top of that, Calix is still not cumming. It would be a big humiliation for a woman if she couldn't pleasure her man. She wanted Calix to fill her up, her pussy must be filled with his sperm. She was in birth control so she was not afraid of unprotected sex.

Scarlett changed her position, she raised her ass in the air. Her cheek was on the bed and her lovely hands were stretching her pussy open wide. She looked lovely, she was begging for more.

"Please, fuck me more."

Calix gulped looking at her, Calix could clearly see her insides. Her pussy was wide open and he saw how it contracted as she breathed. Her fingers were holding the petals and stretching them wide for Calix to see. Oh God, how sexy, the way she teased him was out of this world.

Calix straddled and his hot dick sprung up against her slit, he rubbed his huge dick against her. In one thrust, Calix's cock penetrated her. Scarlett gasped and grabbed anything that she could grab, she squealed and bit her lip.

"Aahhnn~"

Calix pistoned her, his hips moved like a machine. His dick slid in and out of her, Calix's hands were around her waist guiding her. Their crotch moved with good rhythm meeting in the middle, the sounds of fucking resounded together with their moans and groans.

Scarlett couldn't help it, she felt like she was being cut in half as Calix's monstrous cock raped her pussy like an animal. Her eyes were unfocused, her saliva dripped out of her mouth and she was continuously moaning. She bit the pillow close to her and her moans stifled. Still, the sounds of their bodies slapping against each other echoed. Calix's balls slapped her clit sending her immense pleasure. She cried as she bit the pillow, she couldn't focus anymore. Her mind was hazy and all she could do was moan mindlessly as if she was possessed.

"Aannnhh Nghhh, God... Mmm."

She howled, his cock deep inside her grinding her walls and making her crazy. Tears slowly crept from her eyes, she was in bliss and couldn't control her body. Her hips moving on their own, helping Calix to give bigger access. She spread her legs and her hips moved up and down going with Calix's rhythm. Then, just like earlier, Scarlett cum again and her body shuddered. She bit the pillow and screamed a stifled one. Calix further pushed her into the bed and Scarlett cried.

"Nngggghhhh!!!"

She is an animal, her ass trembled in the air. Calix felt his dick being squeezed hard as Scarlett cum, he couldn't control himself anymore. He grunted and cum inside her, he exploded all of his semen deep inside her pussy. He pumped his dick and Scarlett further cried, they were both ecstatic. They lost their strength and lay down on the bed, although Calix's dick was still throbbing inside her.

Slowly, his cock became smaller and plopped out of her pussy. Then, his semen oozed out of her pussy dripping down her legs. They both stayed like that for a few minutes, they were taking their time and rest. Scarlett snuggled on him, she smelled his sweat and didn't hesitate to lick his chest. She liked the taste of his sweat, everything about him tastes great. She raised her head and saw that Calix was staring at her.

She gave him a peck but Calix was not content with that, he grabbed her back pulling her closer, and kissed her. Their tongues intertwined, their kisses were passionate. They sucked each other's breath as if they were fighting for dominance, Scarlett's hands were on his chest while Calix's arms embraced her.

They stayed like that for a while, but it didn't take a while for Scarlett to regain her strength again.

"Baby, I want it~"

She said and pounced her, she lapped on him scraping his dick with her pussy. She was smiling innocently, yet her intention was filled with lust.

"... Okay."

Calix didn't know what to say and just nodded looking at her bountiful breast. They jiggled and Calix wanted to suck them.

"Kyah!"

This time, Scarlett is in control. She was on top and moving her waist against his sleepy cock. Her hands rest on Calix's firm abs, she was moaning because Calix was pinching her nipples.

His cock, which was silent earlier, started to raise up again. It regained its vigor and was ready for another arduous job.

"Fufu, your cock is so cute. It obviously wants me."

She giggled and started stroking it leading his cock to go full power again. Without further ado, Scarlett lifted her waist and put his cock on her. Then she slowly inserted it into her wet pussy.

"Mmmmmm."

Her stamina was endless.
