[God-Rank]

Principal Rinaha Beth. She is the principal of the campus and she is one of the outstanding people who could give authorization to students to take in-field experience.

Their country was near to the place where millions of Aberrants lived. Especially in the north-eastern part of their country, the border, that place was always at war with Aberrants. Every day millions of lives are lost in that place, either humans or Aberrants.

As a Principal, she is required to choose talented students to take part in the battle. These talented young ones would experience war anyway, one way or another. She was just speeding up the process. Right now, Principal Rinaha sighed because of the message she received. The border was facing a Dragon-Class Aberrant! It was a strong monster, but they had DemiGod-Class Vindicators to fix the problem. However, the troublesome thing about this was the other monsters. Whenever a Dragon-Class appeared, thousands of 3rd-Class and hundreds of Tiger-Class Aberrants followed it. It was a domino effect and a negative one at that.

That's why Rinaha was commanded to deploy her talented students who had in-field experience and fought Aberrants for at least one year. Every help was greatly appreciated, especially about Scarlett, she was specifically called. Her power alone, despite being not a 2nd Advanced, her FireBall Term Attribute could burn hundreds of monsters in just one shot.

Furthermore, her fuel was based on hatred, this means that as long as she is angry, Scarlett could turn the border into hell. She was the best seedling that the government could ever hope for. She was the hope of their country and perhaps even the whole world.

Her Term Attribute and Fuel are heaven-sent. Scarlett is an endless supply of atomic bombs!!! HOWEVER, WHAT THEY DON'T KNOW IS THAT SCARLETT BECAME STRONGER! SHE BECAME A 2ND ADVANCED TERM ATTRIBUTE USER! AND HER NEWEST POWER WAS MORE FORMIDABLE THAN HER FIREBALL!! AN EVERLASTING FLAME!! AND IT WAS ALL BECAUSE OF CALIX!!! OR TO BE PRECISE!! IT WAS ALL BECAUSE OF HIS BIG COCK!!

Still, nobody knew about it and General Bronal kept it a secret. He asked Athena to make sure that Scarlett won't show her power, nor her upgraded physical strength. Athena conveyed his message and Scarlett replied with a smug. Although she agreed with the decision, it was for the better. Scarlett would gain a lot of pursuers and enemies if she revealed that she became a 2nd Advanced.

Athena became the courier of the father and daughter. The maid was disheartened, they just fixed their relationship but it was immediately broken. Perhaps this is the will of Fate. Maybe an invisible force made their relationship go astray again.

Still, Athena knew that General Bronal was doing this all for Scarlett. General Bronal's priority was always her daughter, although sometimes his way of parenting was brutal. General didn't help Scarlett because he wanted her to stand on her own feet. He wanted to remind his daughter that she had to be strong to protect herself because at the end of the day, no one would protect her except herself.

Anyway, let's return to our distressed Principal. Rinaha was sighing deeply and her tail was lowered, she looked sad, well she was indeed sad. Rinaha has a tail and cat ears, she is from the lineage of Panthers. She has the blood of Beastkin running in her veins. Actually, Principal Rinaha only has a quarter of Beastkin blood since her grandfather was a Pure Beastkin, a one of a kind since pure-blooded Elves, Dwarves, Beastkin, other species were extinct(?)

The blood of being a Beastkin was strong in Rinaha so she had the ears and tail of a black cat. Sometimes she would purr when she was relaxing, although right now, her ears and tail dropped down because of too much anxiousness. She was biting her nails, thinking deeply about it.

"If the border fell, millions of monsters will penetrate the country and a lot of people will die just like thirteen years ago when the moon turned blood..."

Rinaha recalled that moment, the sky was bright red as if it was not night. Millions of flying monsters flew around and slaughtered innocent people. Rinaha just recently became a 3rd Advanced Term Attribute User at that time, despite being stronger than the average User, she was afraid to move at all. She killed thousands of Aberrants but she felt like the enemies didn't diminish, they were endless. Rinaha didn't want to experience that hell ever again.

She closed her eyes as her tail swayed down, she looked gloomy. The Obice couldn't defend against the millions of rabid monsters and broke, it took four days to replenish the required energy to fix the Obice. Rinaha was part of the Vindicators who protected the replenishing barrier. She almost lost her life, she witnessed her comrades dying one by one as the Aberrants kept attacking.

Since then, Rinaha decided to retire. She gained an honorary medal because she successfully protected the Obice. She was accepted as a teacher in the school and then became a Principal afterward.

She had a grim smile as she recalled that certain past. Everything was red.

"... And now I'm pushing those kids to experience hell... I'm not worthy of being a principal nor a teacher."

Rinaha stopped being a Vindicator and didn't have any plan to breakthrough. It was going to be troublesome if she became a DemiGod Vindicator. The government would definitely put her in a tight position, perhaps making her a lieutenant in the border or port Aeneon. She didn't want to see any Aberrant ever again.

She was just keeping her Term Attribute in harmony by refueling and using her power at least every three days. Still, she didn't use her power in any battle. She was tired of war.

As her tail was swaying grumpily and her ears dropped, making it obvious that she was sad, a knock suddenly came from the door.

She fixed her posture and her dress, she didn't want to show any negativity towards her students. She slightly slapped her cheeks and opened her mouth.

"Come in."

She controlled her facial expressions and appeared calm.
