

Chapter 11 Regrets

Marcus Newman.

The medical records were in his hand, and he couldn't help shaking. His eyes reddened.

...

"Marcus, let's makeup. I'm sorry I wasn't with you when you were sick. I shouldn't have fought with you, and I've also had a bad time. Look, I had an appendicitis operation. Look, I am not lying, I even got stitches!"

She lied to him that the scar on her abdomen was left by an appendicitis operation, and Marcus even remembered the innocent and aggrieved look on Scarlet's face when she said that!

It's not appendicitis at all!

The man's eyes were red, and the veins on his forehead all popped out!

"Sir?"

His assistant saw him trembling, so he tentatively asked.

Marcus was shocked and looked through the medical records over and over again. The shock on his face was gradually replaced by dismay.

Regrets like a tidal wave overwhelmed his heart.

"Scarlet..."

How many things are you hiding from me?

Marcus raised his hand to wipe away the tears on his face and controlled his breathing hard to stabilize. His hand clenched the medical records, the emotions under his eyes, were seething.

"Find out for me immediately what happened to Scarlet in prison these two years! Remember, I want it all!"

After that, Marcus took the medical records and went back home.

And the next hour of waiting was excruciating.

The moment his phone screen lit up, Marcus picked it up.

"Anything?!"

Listening to the man's impatient voice, his assistant thought of what he was about to say, swallowed hard before saying, "Sir, Miss. Preston did suffer a lot in prison these two years..."

Inexplicably, her exquisite and enchanting face surfaced before his eyes. She was smiling at him, telling him, in the most indifferent tone, how she was messing with the men in prison.

The man tossed his head violently, "Say it!"

The assistant gritted his teeth, "Miss. Preston had a baby in prison! As soon as it was born, it was

carried away by its biological father."

Shock flashed through Marcus's eyes, as if he had been struck by lightning, and he roared in fury:

"Who is that man?!"

"Adam Shaw."

It's him.

It's him!

Marcus froze for two seconds, slamming the phone hard on the sofa!

That child must have been conceived before Scarlet was imprisoned, so she and Adam Shaw had been together for a long time!

"Scarlet!"

The shock and anger coming from his chest were mixed with a strange throbbing pain, like a tidal wave that swept through his limbs together!

Marcus covered his chest and stayed like this for a long time, but the mixed feelings were still there.

Thinking of something all of a sudden, the man's eyes lit up, leaned over and dialed his cell phone, and ordered, "You go investigate Adam Shaw right now! I want to know his exact location now!"

Marcus reopened the medical record, eyes wide open looking at the words on it!

No!

Wasn't the kidney in him transplanted by Lily White? And how could it be that woman!

Thinking of it, he called again: "Go check Lily White as well. Especially the details of that kidney transplant surgery in the hospital, including the year, month, and time, which hospital, who was the main surgeon, check it all out for me!"

He must find out the truth!
