

One Night Stand With The Uninvited Wolf President

Chapter 145 Please Conquer Me

A smile appeared on Mary's face.

"Well done."

It seemed that a good show was about to take place.

In the living room.

Johnny sat on the sofa with a cold expression on his face.

Annie, on the other hand, stood beside him, her heart racing. She was deeply attracted by him just by a glance at his photo, but this person was more perfect.

He was like the king of this world, and she was willing to be conquered by him.

"Johnny, long time no see." Annie greeted Johnny in a familiar manner.

Johnny didn't remember when he met her.

Annie smiled, "Have you forgotten that you came to Augsta? We met. I was only five years old that year."

In fact, Annie didn't remember what happened when she was five years old. Her father once said that she and Johnny were destined to be together, so she used this as an opening speech.

"I don't remember," Johnny said coldly.

Why should he remember such a thing?

Annie was speechless, but the man's cold attitude aroused her strong desire to conquer him.

Only such a man deserved her!

"It doesn't matter. We can create new memories. What does the memory of childhood mean? Right?"

He shuffled around on the sofa.

Annie looked at the desserts on the table and picked them up in a hurry, "The desserts in your country are very delicious. You are tired on the way back. Do you want to have some?"

But Johnny didn't even look at it, "No, thanks."

Annie was speechless for two times. After all, no one dared to refuse her in Augsta!

"Well..." Annie couldn't think of anything else to talk about. Suddenly, she felt thirsty, so she picked up her coffee and took a sip.

But the more she drank, the more thirsty she felt. What happened?

Even if she fell in love with Johnny at the first sight, it couldn't be like this?

Johnny also felt the heat in the room. He looked at the time and stood up.

"Oh, no!" Annie stopped him immediately.

Unexpectedly, Johnny fell back to the sofa as soon as he stood up. He felt dizzy.

Seeing that Johnny was rubbing his temples, Annie stood up in a hurry to ask, "What's wrong with you? Are you not feeling well?"

Before she finished her words, she felt a little dizzy and fell down, just falling into Johnny's arms.

Johnny frowned, but he didn't have much strength, "Please behave yourself!"

Annie's eyes became more and more blurred. She had stayed in this room for a longer time than Johnny, and she had inhaled more fragrance than Johnny. Now the drug took effect naturally faster.

She squinted at him and put her arms around his neck. "Johnny, I like you! I fell in love with you at first sight. Please conquer me."

After saying that, she plucked up the courage to kiss Johnny. Johnny also felt very hot.

But before he could completely lose his mind, he pushed Annie away, and Annie fell to the ground.

Despite the consequences, he stood up and stumbled out of the room!

Annie lay on the ground, enduring the heat in her body.

Mary had been eavesdropping outside the door. Seeing Johnny leave, she hurried into the room and helped Annie up from the ground.

"Don't go, Johnny, don't go. I like you. Please conquer me, conquer me!" Annie felt like her body was burning. She needed him!

She needed ice!

She needed Johnny!

"Ms. Annie, what happened to you?" Mary hurriedly helped Annie up.

Annie shook her head, "I'm so hot and uncomfortable. I want to have sex!"

"I'm afraid you have been drugged." Mary hurriedly asked someone to help Annie back to her room.

She turned back secretly, took out the pinhole camera she had hidden in advance from a vase aimed at the sofa, and then took the incense away.

But this time, it was a pity that the task was not completed.

Johnny escaped from The Winsors and got in his car. When he sat in the car, he immediately loosened his tie.

The heat all over his body was about to devour him.

"Go home!"

The driver looked at Johnny and didn't ask any more questions. He immediately drove straight to Villa Amio.

When the car arrived at Villa Amio, Ceres was at home. She wanted to go to work, but she was too lazy to move, so she didn't go.

She was also startled to see Johnny come back all of a sudden.

"Why did you come back?" Ceres still held a grudge against him.

However, Johnny pulled Ceres into his arms. He lifted Ceres up and said, "I'll explain to you later."

Then he went straight to the bedroom with Ceres in his arms. After putting Ceres on the bed, he began to take off her clothes.

Only then did Ceres understand Johnny's intention, "What are you doing?"

"Ceres, don't refuse me. I miss you so much." After saying that, Johnny kissed Ceres.

They hadn't made out for a long time.

Recently, the relationship between the two had dropped to the freezing point, and they needed passion to ease their relationship.

But Ceres was still rational. She didn't want to have sex with Johnny, so she pushed him hard.

However, Johnny became more and more unscrupulous. During their honeymoon, the two of them had been in love for so many times. Johnny was very clear about Ceres, who had the most sensitive ears and neck.

Ceres was trembling all over. What a man!

In the end, the two of them still had sex.

Johnny fell asleep in satisfaction, but Ceres didn't know what to do with the quilt.

She looked at the man next to her. She almost didn't know him. He suddenly came back and made out with her without saying anything. In his eyes, what was she?

When he woke up, it was getting dark outside.

As soon as he turned over, he saw Ceres sitting next to him. He sat up and stretched out his long arm to hold Ceres in his arms, but she directly pulled his hand away.

Johnny asked cautiously, "Did I hurt you?"

He was not drugged too much, so the effect was not so strong. He was not completely out of his mind, so he was very gentle when making love.

"Ceres, I am sorry. I am..."

"Who am I to you?" Ceres leaned against the bed and looked straight ahead.

"What's wrong?" Johnny was a little confused.

Ceres turned around and said, "You said that you didn't allow me to hide anything, and I didn't lie to you. But what about you? You pretended to be in a vegetative state, lying on the bed, and then pretended to be a bodyguard. Even if I discovered the intelligent egg, you didn't tell me the truth!"
