

## Chapter 13

Star

We arrived back at the packhouse and the triplets pulled me up the stairs to them. I mean our suite. Oh, my goddess, this is more than I ever dreamed of.

My boys are very excited about showing me everything but also making sure I know that it's my home too, and I can make any changes I want. I am considering a few soft furnishings, but on the whole, I wouldn't change a thing.

Then I was led to the master bedroom. I didn't think about sleeping arrangements, so much has happened today. Am I ready to sleep with them?

They have made it very plain that they want me, there is always someone touching me, holding my hand, rubbing my back, and that always ends with a grab or pat on my ass.

Goddess, I want them too. Saffron is no help at all, horny wolf. She wants us all naked on the massive bed. Which is both beautiful and intimidating at the same time.

The headboard has an intricate carving of four wolves. I crawl onto the bed to get a closer look. I recognized the design, and I looked at Alexei, "did you do this?"

He crawls up behind me, pulling me back so my ass nestles into his crotch, one hand on my hip, the other rubbing my stomach. He nuzzles my neck, sending shivers down my spine.

"The three of us built the bed with dad over Christmas. When we found out you were our mate, we wanted to make everything perfect for you. I carved the headboard. Do you like it, baby?"

He is rubbing my hip and stomach in slow even strokes, his hands getting closer and closer to my lady parts. My breathing is getting labored. Did he ask me a question?

I feel him smiling against my neck; I feel the bed dip as Ash and Ace lie on either side of us, hands caressing the inside of my thighs, stroking from my knee to the apex of my thighs, getting close but not touching my pussy, fuck, I can feel moisture coating my panties.

Ace smirks at me and inhales my scent, his eyes darkening with lust. Lexi sits back on his heels, pulling me onto his knees. My legs part slightly, giving more room for the hands on my thighs.

Lexi's hands are under my top, moving up to my breasts, he cups my globes, growling in my ear, "I think you should get some rest baby, but you seem so tense, we should get you nice and relaxed don't you think?"

He is rolling and tugging at my nipples. Oh my, I am gushing now, my juices soaking through my trousers.

Ash strokes me through my wet clothing, "mmm, fu.ck babe, you smell so good, I bet you taste fucking amazing,"

Lexi pulls my top off and unclasps my bra, freeing my breasts for their hungry eyes. Ace growls, sitting up to take a nipple in his mouth. I moaned and grabbed his head.

Ash sucks on my other nipple and I am in bliss, incoherent moans coming out of my mouth. Ash attacks my mouth, stroking me through my trousers. "I want to taste you, baby. Lie on your back for me."

Lexi lifts me and places me on my back, they stripped down to their boxers, their very large erections tenting the material, Ash kneels between my legs while the other two lay at my sides, sucking and nibbling at my nipples.

I stare at Ash as he hooks his fingers in the waistband of my bottoms, pulling them and my panties down my legs and tosses them somewhere in the room.

I try to close my legs, but Ash grabs behind my knees, pushing me wide open. Ace and Lexi hold me open to the hungry gaze of their younger brother.

Ash runs a finger from my opening to my clit, "fuck Starlight, you are so beautiful." He lowers his head and sucks on my cl.it. I shouted in pleasure. "Goddess, you taste so sweet."

Ace kisses me as I writhe, lifting my hips to get closer to Ash's mouth. He pushes a finger inside me and pumps into me, "you are so wet for us babe, you feel so fucking good," he is attacking my cl.it lapping and sucking, as he pushes a second finger into me.

There are hands everywhere, my senses overwhelmed. I feel my body tense; the fire raging in my lower belly intensifies as my whole body shakes. Ash pumps his fingers faster, sucking my cl.it. I am going to explode.

Lex pinches my nipple, “come for us baby” and I explode. Ash replaces his fingers with his tongue, lapping up all my juices. I need more. My hand moves down Ace’s stomach until I can touch his enormous co.ck.

I rubbed him through his boxers, and he growls in my mouth, as he rips his boxers off, he kneels next to me and puts my hand back on his di.ck, his hand over mine as he guides me, stroking him up and down his length.

He closes his eyes, his head thrown back. The other two pull off their boxers, letting my eyes feast on their massive cocks.

I lick my lips and Lex kneels next to my head. “Do you want to taste, baby? Do you want to learn how to suck co.ck?”

He is stroking himself. Some pre-cum has escaped his tip. I licked my lips again. Ace cups my chin, turning me away from Lexi’s co.ck, and I moan in displeasure.

Ace smirks at me, “you can have his co.ck in a second, Tink. I want you to turn over on your hands and knees so I can taste your sexy ass.”

I turned over quickly and the boys laughed. Lex grabs my chin. “Oh, my baby, are you excited to have Ace fucking that tight ass with his tongue?”

I nodded up at him as I felt a tongue lap at my puckered hole, “mmmm,” I pushed my ass up, and his tongue pushed into my ass, fu.ck I move my hips riding his tongue.

Alexei pulled my head towards his dripping cock. “Open your sexy mouth baby,” I licked the cum off his tip and moaned, then opened my mouth for him.

He pushes all the way in, making me gag as he hits the back of my throat. “That’s it, baby gag on my cock, you are so fucking sexy,”

He thrusts into my mouth. His thighs trembled slightly, he thrust harder. Ash is lying under me, sucking and pulling at my nipples.

Ace spits on my ass and pushes a finger in slowly. Fu.ck, it feels so good. He pushes in to the knuckle and then he is fucking my ass with firm strokes.

I groaned on Lexi’s co.ck; the vibrations made him groan, and he thrust faster. Tears are streaming down my face, “oh fairy, do you like having your mouth fucked? You’re gonna make me come, baby.”

He grabs my hair into a ponytail and uses it to anchor my head as he fucks my mouth with fast deep strokes, “fuck baby gggrrrr,” his cum hits the back of my throat, and I swallow it all,

I feel my second orgasm hitting. Ace reaches around rubbing my clit as he pumps a second finger in my ass, “Ohhh goddess, feel sooo good, fuck don’t stop baby, please don’t stop,” I screamed out my release, juices leaking from my pussy.

I try to catch my breath, lying limp, Ace and Ash are both stroking their cocks,

I crooked my finger at Ace as he bends down to kiss me, “you need rest Tink,” I pushed him on his back and took his cock in my mouth.

I wanted to taste all three of them. He grabbed my hair, making my head bob faster, “Fuck Star I’m coming baby, aaaahhhh”, he explodes in my throat and I lick his cock clean.

As I pulled off of him, Ash turned my head and forced his cock into my mouth. Ash fucks my mouth frantically, his gigantic cock ready to burst.

Lexi lies between my legs, pulling my pussy to his face as I grind on him, he slapped my ass to make me go faster. My third orgasm rips through me as ribbons of cum flow from Ash’s cock.

I collapse, completely sated, and my boys wrap themselves around me.

Lexi snuggled into the back of my neck, “I love you, baby,” I turned and kiss him, “I love you too, baby, I love all of you”,

Ash climbs up my body, kissing my shoulder, “I love you, Starlight.”

Ace kisses my lips, “I love you my Tinker Bell”.

I sigh in contentment and drift off to sleep, snuggled with my wonderful boys.
