

## Chapter 25

Alexei

I have not seen my baby all fucking morning; she had English with Ace, and history with Ash and I get nothing. I fucking miss her.

I sense her coming towards the cafeteria and make a split-second plan. As she rounds the corner, I grab her and pull her into a supply cupboard.

She yelps and kicks at me for a second, till I ram my tongue in her mouth, her struggles soon stop and are replaced with moans as she wraps her arms around my neck, Goddess I am addicted to the little sounds she makes, I love it when she screams as she comes, but the little mewling sounds she makes in the back of her throat, those I can't get enough of.

I grab her ass and pull her closer to me, grinding her against my already hard dick, "Mmmm Lexi, you feel so good, baby."

I reach down and pull her skirt up around her hip, and lift her up by her thighs, wrapping her legs around my waist.

Palming her ass, bringing her tightly against me. "Fuck baby, I need you," pushing aside her panties I finger her pussy. Fuck, she is so wet for me, and only me this time.

Pushing her hand between us, she reaches for the snap of my jeans. As soon as she gets my pants undone, she reaches in and releases my cock. "We need to be quick Lexi; I need you to fuck me now." I pin her to a shelf and push on to her in one quick thrust. Oh, fuck, she feels so good.

I fuck her hard and fast. “Give me your tits baby,” she quickly pulls up her top and pushes her gorgeous tits up to my mouth. Fuck, I suck hard on one of the puckered peeks, stretching it.

she is a groaning mess in my arms, I move to give her other nipple the same treatment, all the while still fucking her tight pussy with long rough strokes, I feel her starting to clench around me and I push a finger into her ass to hurry her along, “fuck Lex, I’m gonna aahhh I’m coming grruuu,” I capture her lips as I explode in her, ribbons of cum shoot out of me.

We stay linked together for a few minutes. As our breathing calms down, I kiss her gently on the lips. “Fuck baby, that was amazing. You have no idea how many fantasies I have had about fucking you in the janitor’s cupboard.”

She giggles and kisses me. “I love you so much, my warrior.” I grin as her stomach lets out a load rumble, “I love you too fairy-girl, now that I’ve fed your pussy, let’s go feed that belly.”

I pull my dick out of her, and we straighten our clothes, then giggling we run to the cafeteria, grab food and head to our table.

My brothers are both looking at me with raised eyebrows. I feel Ace's mind linking me. “Asshole, I can smell her pussy on you. Can’t believe you got the first solo fuck.”

I grin at him, “hey I haven’t seen her all morning, give me a break, and we all agreed that we wanted to have at least some alone time with her, I love it when we fuck her together but it was so fucking nice knowing her sweet pussy was dripping just for me.”

I look at my baby; she is whispering with Max, Suzie, Sophia and Natalia. All four girls look at me with a grin. Bet I can guess what that’s all about.

After lunch I walk her to Art, where I sketch her again. She is concentrating so hard on her canvas; I love the way her forehead crinkles

when she is in deep thought, the way she bites her plump, sexy bottom lip.

My cock hardens, making my jeans unbearably tight. Goddess, I could spend an eternity drawing her face.

At the end of class, I wash our brushes while she cleans our stations, and as the bell rings, we leave class. She has a free period now, so I walk her to the library, give her a long kiss goodbye, turn her around and shake her ass. As she walks through the doors giggling, I pull her scrunchy out of her hair and run off; I hear her shout after me as I head to gym.

We have been running round the freezing cold track for about twenty minutes before I hear her in my mind, “ALEXEI, ASH, ACE, HELP ME!”

I fly across the field, I see both my brothers running towards me, “are you will in the library baby? We are coming!” I hear a very frightened “yes, hurry.”

I slam open the door and what I see makes me lose my shit. Mason Flack has my girl pinned against the wall. Her skirt is hitched up, and he has her hands pinned above her head. He is surrounded by a group of his friends.

I hear a deafening roar from beside me as Ace runs at the group. He barrels through them and rips Mason off of Star, throwing him to me. His friends all scatter, but Ash blocks their exit.

Glancing at Ace, he gives me a nod to let me know she is ok, so drag the piece of shit out of the library. I nod to the poor librarian, who bows her head at me.

I pass Kurtis, Jonah and our warriors on the way out, “bring them all outside to the football pitch. It’s time to teach these fuckers what happens when they touch what’s mine.”
