

## Chapter 29

Star

During dinner, I talk to the boys about what they think we should do with my aunt and uncle and, of course, my cousin Sebastian.

All three of my boys want them to hurt, and of course, they need to pay for what they did. I just think there is a better way to do it.

I love Alpha Andrew and Luna Amanda, but I would not have banished Charlotte and her gang.

With everything that has happened to me recently, it feels like we are just losing people left and right.

Two attempts at rape in less than a month. I had never heard of any rape attempts before, and I have my suspicions about that.

“Saffy? Is it possible that these boys were drawn to do this because they sensed my power? The triplets sensed me as their mate so we can’t use their reaction to me, but I have noticed more and more boys staring at me.”

“You could be right Star, I have been holding our aura in, but we are so powerful that some are bound to seep out. Until we learn to control our powers, we could attract males to us.”

Looking at my mates around the table, I sigh, “guys I have a theory and I need you to all keep your shit together while I tell you what I think is going on, if I am right then we need to look at the punishments we have given so far.”

Three sets of eyes stare at me. Lexi nods his head for me to continue.

“OK, so after talking to Saffron, we think we know why I have been attacked by two male groups.”

Ace went to butt in, but I held my hand up to stop him.

“Both groups are from warrior bloodlines, and I think they were sensing my power. After reading my mother’s letter and speaking to your parents, it’s clear my wolf is very special.”

Ace try’s butting in again, but Saffron growled and released some of my aura.

I could see all three of my men fighting against me, all three reacting and fighting for dominance.

But as Saffron increased our aura, they had no choice but to submit to me, bowing their heads and baring their necks.

Saffron backed off, but spoke to the three of them.

“That was only half the power we hold within us, we allow you to take the dominant role in our lives, because we love you and respect your positions as our Alphas and mates, but if you push us and refuse to listen, we will prove our strength, is that clear?”

She released control to me, and I burst into tears.

“Oh my god, I am so sorry,” Ace dragged me off the chair and into his arms, kissing my hair.

“Tink don’t apologize, it’s my fault I should have listened to you. I am sorry. Shit, you are strong.”

A loud banging on the door interrupted us. It sounded like someone was trying to break the door down. Lex ran to open it.

Andrew and Amanda came running in." are you all ok? We just sensed a power that dropped us to our knees."

Gasping and covering my mouth with my hand, I look at the Alpha and Luna. “I am so sorry. The boys wouldn’t listen to me and Saffy got angry with them.”

Alpha Andrew let out a laugh, “oh my god I think I need to change my pants, boys in the future. Please don’t fight against her dominance. I think everyone in the pack house felt that.”

They turned to leave, but I stopped them. They should be here for this to, I asked Ash to get my mother’s letter from our bedroom, and went to put some coffee on.

While they read my mother’s letter, Lexi and I got some snacks and put the coffee on the coffee table in the lounge. Everyone made themselves comfortable and Ace pulled me on to his lap, whispering in my ear, “sorry Saffy, it won’t happen again, I love you both.”

I turn my head and give him a quick kiss, “we love you too silly. Saffy didn’t want to make you submit to us...”

We tell the Alpha and Luna about my theory; they agree that I may be on to something, especially after I brought them both to their knees, and decide to test it by inviting all our friends for breakfast in the morning,

Both Kurtis and Jonah are mated, but Oliver, Simon, Aiden and Jasper aren’t, and they are all from warrior bloodlines. We are also inviting Natalia, Sophia, Max and Suzie because they are all part of our inner circle and it’s time to let them know what’s going on and who I really am.

Deciding that it’s time for bed, we wish Alpha and Luna good night and head to bed. My head barely hits the pillow before sleep takes me.
