

Chapter 45

Alexei

Lighting the last candle, I look around the bathroom, a tub filled with bubbles, lit candles, and oil burners.

I have to say I am getting good at this romance shit. Ash raised the bar with his night away.

But I am definitely up for the challenge.

I have never had to think of all this stuff before.

It's always just been about having someone pretty on my arm who would let me fuck her whenever I wanted.

But now, the only woman I want is Star, and she deserves the world, and if that means I have to romance her, then so be it.

I want her more than I have wanted anyone before.

Normally I would have been bored by now, waiting to move on to the next easy lay.

But not with my fairy girl, and it's not just the sex, I could listen to her talk all night long, but the sex is mind-blowing, I can't get enough of her, but I would be happy to lie with my head on her lap as she strokes my hair, she brings me peace.

Happy with the bathroom, I head to our bedroom, and there she is, collapsed on our bed, her feet dangling off the side. Fuck, she is gorgeous.

I walk over and cover her body with mine, burying my head in her neck and inhaling her scent. Nibbling at my marking spot, I feel her shudder

and her legs wrap around my waist. I rub my hardening cock against her core, making her moan.

I pull back and frame her face with my hands, kissing her lightly, “how are you feeling baby? I can’t sense any lies. Do you think your mum could have been sick?”

“I don’t know Lexi, Saffy has talked with Glory and she always thought there was something odd about mum’s Wolf, Haven.” sighing she whispers “I think I just want to forget it all for a while.”

“Ok baby, we can think about it tomorrow,”

The door opens and Ace and Ash walks in carrying hot chocolate and cookies.

“Come on you two, Tink should be naked and in the bath waiting for us,” Ace smirks at us as I pull my girl to her feet.

Slowly, I pushed her jacket off her shoulders, then lift her blouse over her head, exposing her silk and lace-covered breasts.

I can’t resist leaning down and kissing the skin above the cup of her bra. Her hands stroke my hair as she holds my head to her chest.

While I am nibbling my way across to her other breast, I feel Ace move in behind her; he kisses her neck as he unhooks her bra, releasing her beautiful nipples.

I groan as I take one in my mouth, sucking the nib as it hardens. Her hands in my hair tightened.

As Ace pushes her trousers down, I move to the other nipple.

Star is squirming now, moaning and begging for more, “come on you three or our bath will go cold,”

I grin as I look at Ash leaning on the bathroom doorjamb, already naked and sporting a massive hard-on.

Star smirks and walks towards him, pushing her panties down as she goes. Ace leans his arm on my shoulder as we watch her sexy ass sway as she walks.

Looking over her shoulder, she grins, “see something you like boys?”

Licking my lips I rub my hand over my erection, “goddess yes, baby, the bounce of your ass is a sight to see, why don’t you bend over so I can bury my tongue in your beautiful hole?”

She strokes Ashton’s cock, making him close his eyes in pleasure, her eyes still locked with mine, “but then our bath would be cold,” she giggles as she brushes past Ash into the bathroom.

I rip my clothes off and follow her.

Ash is settling her on his lap in the bath, her perky nipples peeking through the bubbles.

I sit opposite them and massage her feet, while Ace starts the jets on the tub and settles next to me, grabbing one of her feet from me.

“Goddess, I love our baths. Promise we will always bathe together like this.”

Ash hands her hot chocolate, and she sighs in bliss. He kisses her shoulder, “forever goddess, I promise.”

As she sips her drink, we gently massage her body. My hands run up her thighs, stopping just before her perfect pussy.

She growls in displeasure, smirking I repeat the action, brushing my fingers over the light fuzz covering her mound.

Pulling her legs away, she turns and straddles Ash, kissing him with need, and grinding on him.

I grab her around the waist and pull her onto my lap, “so impatient my love, tell me what you need baby,”

Her ass is grinding on my cock now, her moans are driving me crazy.

Pulling on her nipples as I bite her neck, my control is about to snap.

Ash grabs her ass and pulls her legs over his shoulders, burying his face in her pussy, “fuck yes, don’t fucking stop.”

Her hands pulling him closer than her whole-body tense as she rides his face to orgasm.

Ace stands up and lifts her into his arms.

“I think we should move this to the bedroom.”

Wrapping her in a towel, he strides out of the bathroom.
